Hi friends
Our friend Philippe, F4EGS has got his new assigment in Tajikistan, in the city of Duschambe.
Thanks to Nodir, EY8MM, his licence is ready to be picked up we he will arrive.
His stay is scheduled for two months.
Trafic at his spare time from 40 to 10m, with R7 and FT100 (100 watts)
Modes : ssb/rtty/psk/cw
Skeds possible please ask for to : _cocheese37@..._ (mailto:cocheese37@...)
It’s both long and short so for skeds don’t be too late.
Philippe has received also his first months of 2009 programm as follow.
January and February, Ivory Coast, city of Abidjan callsign TU/F4EGS.
March : Mauritius and Rodrigues Islands, callsigns 3B8 and 3B9/F4EGS.
May, June July : Chad with his permanent callsign : TT8PK
August : Tunisia , Djerba Island, call sign to be announced, but certainly 3V8SM, (Tunisian Scouts of Djerba ARC).
QSL as Philippe’s intructions.
More information to follow in due time especially about the length of each stay.
Tks Philippe, F4EGS

Contest info by Bill/NG3K

Bonjour à tous
Notre ami Philippe, F4EGS vien d'être affecté pour deux mois au Tadjikistan,
ville de Duschambe.
Grâce à Nodir, EY8MM, sa licence est prête à retirer dès son arrivée.
Son séjour est prévu pour deux mois.
Skeds possible sur demande à : _cocheese37@..._
(mailto:cocheese37@...)
C'est à la fois long et court aussi ne tardez pas pour vos demandes de
skeds.
Philippe a également reçu son programme pour une grande partie de l'année
2009 :
Janvier/Février en Côte d'Ivoire, Abidjan, indicatif TU/F4EGS.
Mars : Ile Maurice et Ile Rodrigues, indicatif 3B8 et 3B9/F4EGS.
Mai, Juin et Juillet, Tchad avec son indicatif permanent TT8PK.
Août : Tunisie, Ile de Djerba, indicatif à préciser, mais probablement
3V8SM (RC des Scouts Tunisiens de Djerba)
Philippe a également reçu une partie de son programme 2009 :
Janvier et Février, depuis la Côte d'Ivoire, Abidjan, Indicatif TU/F4EGS.
Mars : Maurice et Rodrigues Indicatifs 3B8 et 3B9/F4EGS.
Mai, Juin et Juillet : Tchad avec son indicatif : TT8PK
Août : Tunisie , Djerba, indicatif à annoncer mais sans doute celui du RC
des Scouts Tuisiens de Djerba 3V8SM.
QSL selon instructions.
Plus d'info à venir en temps utile notamment sur les dates et durées des
séjours.
Merci Philippe, F4EGS

Attention of Radio collectors
The IRMA project was launched in 2001 by a few dedicated enthusiasts who
are very keen on military radio technology and its history. They realized that
French radio equipment, of which our forebears were very proud of in its
time, had no specific place in the history of French technology. This is in sharp
contrast to the traditions in English-speaking countries. They were also
aware of the fact that they were the last link, as electronics engineers
graduated in the 60’s, between their forebears, those who had made them radio
fanatics and today’s all-digital generation.
The first DVD (1900 to 1918) and the second DVD (1919 to 1944) are
available.

The third (1945 to 1960) will be released at the end of 2009
All information available both in French and English languages at :

Merci Franco

A l’attention des collectionneurs:
IRMA est un projet né en 2001 et initié par quelques amateurs passionnés par le matériel radio militaire et son histoire. Ceux-ci avaient fait le constat que les matériels français qui ont fait à leur époque la fierté de nos ainés et qui ont participé à leur aventure ne sont pas, comme ils le devraient, "enregistrés" dans notre Histoire technique et ceci contrairement à ce qui s’ est pratiqué dans la monde anglo-saxon. Ils étaient, par ailleurs conscients qu’ ils étaient les derniers (la génération des électroniciens des années 50/60) à pouvoir assurer les ponts entre ces aînés qui leur ont transmis le virus de la radio et la génération télécom. du tout numérique.
Le premier DVD couvrant la période 1900 à 1918 et le second couvrant la période 1919 à 1944 sont disponibles. Le troisième (1945 à 1960) est prévu fin 2009.
Toutes informations disponibles en Français et Anglais à :
_http://aime.salles.free.fr/pages/gb_indexpag.html_
(http://aime.salles.free.fr/pages/gb_indexpag.html)
Merci M Aimé Salles et Jean Louis, F8LDX

From: K1XN
Topic: 5889 Message: 7601

The /*OCTOBER */*/2008 /**Issue #810* files have been uploaded to the
Golist web site.
The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file. I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
/*Now is a good time to send in your RENEWAL to GoWin *//*
if your subscription is about to expire.*/

I.C.P.O. Bulletin (Sepember 25-October 03, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

25/09/2008: From September 25th until October 4th a team of 6 hams Joerg/DL3NER, Walter/DG5NGJ, Thomas/DG5NGI, Ivo/DL9MB, Heiko/DG8NGI and Hubert/DK9NCX will be active from Montenegro as 4O/homecall. They plan to be QRV on 160-10m using SSB, CW, PSK31, and RTTY. Also activity on 6m and 2m is planned. Antennas: H2-Dipole (H2-rf-engineering.de), ECO-HF8B, INV.-V, 5El./6M and 9EL./2M. The team is doing this DXpedition for the WWW.Stationregenbogen.de, for children who are ill with cancer. So let's try to make them smile. QSL cards will be sent out after the team returns home from Montenegro. You can make a donation for these children by money transfer (see DK9NCX on QRZ.com) or send your card with donation and SASE to DK9NCX direct. QSL other calls via their home call sign. [NG3K]

25/09/2008: LA9DL, LA6VM and LA7XK will be active as JW9DL, JW6VM and JW7XK from Longyearbyen, Spitsbergen Island (EU-026), Svalbard, September 25-29th. They will operate CW, SSB and digital modes, and will take part in the Scandinavian Activity Contest (SSB) as JW5X. [425 DX News]

27/09/2008: Igor/RN1CR, Konstantin/RN1CX and Andrey/UA1CCO will be active September 27th as homecall/p from the Fortress Koporye (Russian Castle Award reference RC-035). They plan to be QRV 20 and 40 meters (SSB, CW). QSL via home calls. Further information on the Russian Castles Award, plus castle list, can be found at www.rz1cxo.rork.ru/pages/diplom/eng/rca_eng.htm [F5NQL]

27/09/2008: Operators Felix/DF8QB, Andy/LX1DA, Philippe/LX2A, + Team will be active from Eschdorf, Luxembourg, for the CQWW DX RTTY Contest, as a Multi-? entry. QSL via LX2A, direct or bureau. [NG3K]

27/09/2008: Tomi, OH6EI will be active as OH0Z from Mariehamn, Aland Island (EU-002, also count for WLOTA LH-1373, WW Loc. JP90XI) as a Single-Op/All-Band/High-Power entry during the SAC SSB Contest (September 27-28th). QSL via W0MM, direct or bureau. [NG3K]

27/09/2008: Antti, OH8GZN and crew will be QRV in the CQWW DX RTTY Contest from the OH8AA autumn ham camp, Oulu, Finland, using the call sign OH8F, as a MOSR LP or HP entry. [K1XN]

27/09/2008: Jan, OY3JE plans to be QRV from Torshavn, Streymoy Island, Faroe Islands (EU-018), as time permits, in the CQWW DX RTTY Contest, as a Single-Op/Single-Band (40m)/High-Power entry. QSL direct (QRZ.com), LoTW or e-QSL. [K1XN]

27/09/2008: Rene, DL2JRM will be active September 27-29th from Iceland (EU-021, WLOTA LH-2975) as TF/DL2JRM/p. QRV CW and SSB on 80m-10m. QSL via home call, direct or bureau. [rsgbiota.org]

27/09/2008: Operators Nick/UR4EN, Alex/UR7EU, Roman/UT5ERP and Igor/UV5EOZ will be QRV from Ordzhonikidze, Ukraine, as UZ4E during the CQWW DX RTTY Contest, as a Multi-Single entry. QSL via UR4EYN, direct or bureau. [NG3K]

27/09/2008: The Ozark Mountain Amateur Radio Club, W0OMD will set up a portable HF station on Edge Island (Not IOTA, USi MO-014, Cedar County), Stockton Lake, Missouri, on September 27th and will try to make a set number of contacts to qualify the island. Operators mentioned are Mike/KC5MNP and James/KC0TQD. QSL via W0OMD, callbook address. Website at www.w0omd.org/ [USi]

27/09/2008: Members of the Tennessee Valley DX Association (TVDXA) will activate Hatteras Island (NA-067, USi NC-005S, WLOTA LH-3919, Dare County), North Carolina, using the call sign W4PL. W4PL plans on being QRV about 1900z on September 27th and will go QRT October 4th. The group will use 100 Watt transceivers and plan to be active on 80-10 meter HF (SSB, CW with some PSK and RTTY), and 6 meter SSB and CW. Operators mentioned are Barbarra/WA4RMC, Kathy/W4KRY, Lynn/K0MAI, Tom/K4VCM, Greg/WA4NFO, Tommie/K4KWK, Kenny/AB4GG, Charlie/AD4F, Paul/WA4AA, Peter/KB3PGU, Larry/WA4IVO and Virginia/KI4MPK. Non licensed team members include Nancy, xyl of WA4AA and Halyna, xyl of KB3PGU. QSL via K4KWK direct (SASE) or via the Bureau. Further information at: www.tvdxa.com/ [NG3K]

27/09/2008: Al, WP3C will be active from Puerto Rico (NA-099, USi PR-006S, WLOTA LH-2802) during the CQWW DX RTTY Contest, as a Single-Op/Single-Band(40m) entry. QSL via W3HNK. [NG3K]

27/09/2008: Pri, YB0ECT, will be active from Jakarta, island of Java (OC-021, WLOTA LH-1660, WW Loc. OI33JT), Indonesia, during the CQ WW DX RTTY Contest, as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via K3AIR. [OPDX Bulletin]

27/09/2008: Operators Z31MM, Z32ID, Z35T, Z35X, Z36N, Z36W and possibly others will be active as Z37M during the CQ WW DX RTTY Contest (September 27-28th) as a Multi-? entry. QSL via Z37M by the bureau. [OPDX Bulletin]

27/09/2008: Look for Steve, ZC4LI to be QRV from Dasaki Achnas, Cyprus (AS-004, MIA MCI-002, WLOTA LH-0892) during the CQ WW DX RTTY Contest, as a Single-Op/Single-Band (20m) entry. He will be around from the start of the contest but as the band does not usually open here until around 0300z. Steve will be on 160m (1840 kHz, plus or minus 10) for either CW or RTTY contacts from 0001z until 20m opens. QSL direct only, QRZ.com. [kiwi-dx-list]

28/09/2008: Rob, DK1ROB will be active from the isle of Barra (EU-010, IOSA OH-11, SCOTIA HI-02, WW Loc. IO66GX) as MM/DK1ROB between September 28th and October 3rd. QRV SSB, RTTY, maybe PSK63 - sorry, no CW! Antennas planned: Inverted Vee for 40m; 5-band Spiderbeam for 20m-10m at 15m AG; 3-El beam for 6m at 5m AG; Vertical for 2m/70cm. QSL via home call, direct or bureau. [rsgbiota.org]

28/09/2008: Heiko/DL1RTL (SD7C), Ralf/DH7NO (SM/DH7NO) and Ric/DL2VFR (SD7V) will be active from Sturko Island (EU-138) between September 28th and October 4th. They will operate CW and SSB with 500 watts and vertical antennas. QSL via home calls, direct or via the DARC bureau.

[425 DX News]

28/09/2008: Claudio, HB9OAU will be active as SV9/HB9OAU from Crete (EU-015, MIA MGC-005, WLOTA LH-1400) from September 28th to October 3rd. He will operate holiday style on 40-10 meters. QSL via home call. [425 DX News]

29/09/2008: Dmitry, RW4WM will be active as 3V8SS from Sousse, Tunisia, between September 29th and October 8th. He plans to operate CW and SSB, with some RTTY. QSL for this operation via RW4WM, direct or bureau. [425 DX News]

30/09/2008: Roald, OZ1BLO and Karl, LA8DW will operate SSB, CW and RTTY as JW0EK and JW8DW from Spitsbergen Island (EU-026, also count for WLOTA LH-0125) from September 30th to October 6th. QSL via home calls, direct or bureau. [425 DX News]

01/10/2008: Philippe, F4EGS has received his new assignment in the city of Duschambe, Tajikistan. Thanks to Nodir, EY8MM his licence is ready to be picked up when he arrives and hopes to be QRV on October 1st. His stay is scheduled for two months. Activity will be during his spare time from 40 to 10m, with R7 and FT100 (100 Watts), using SSB/RTTY/PSK/CW. Skeds possible to: cocheese37 -at- msn.com. Philippe has also received his first months of 2009 schedule as follows: January and February, Ivory Coast, city of Abidjan call sign TU/F4EGS. March: Mauritius and Rodrigues Islands, call signs 3B8 and 3B9/F4EGS. May, June, July: Chad with his permanent call sign TT8PK. August: Tunisia, Djerba Island, call sign to be announced, but certainly 3V8SM, (Tunisian Scouts of Djerba ARC). QSL as Philippe's intructions. More information to follow in due time especially about the length of each stay. [F5NQL]

01/10/2008: Syl, F5TLN will be active from south-Lebanon between October 2008 to February 2009. He will use OD5/F5TLN on all HF bands, using SSB and sometimes CW. QSL via home call, direct preferred (Sylvain Bertrand, 14 Rue du Champ Saint Pierre, 55100 Verdun, FRANCE) bureau OK. Syl's website can be found at f5tln.site.voila.fr/ [F5TLN]

02/10/2008: Mike, DB1JAW, will be active as 7W0JAW (or 7X/DB1JAW) from Bou-Saada and possibly other locations in the Algerian Sahara, October 2-14th. Activity will be on 80-10 meters, but with a focus on 20/17/12 meters using SSB and PSK31. QSL only direct to DB1JAW; he is no longer a member of DARC. SAE is not required as Mike prints computerized envelopes. [OPDX Bulletin]

02/10/2008: Joeke, PA0VDV, will be active as PJ2/PA0VDV from the island of Curacao (SA-006, also count for WLOTA LH-0942), October 2-19th. Activity will be CW only. QSL via his home callsign, by the bureau or direct. [OPDX Bulletin]

02/10/2008: Toshi, JA8BMK is expected to depart Sapporo on September 30th to Fiji (3D2) and fly from there to Tarawa Atoll, Western Kiribati (OC-017). His expected arrival is on October 2nd. Ships travel to

Central Kiribati (T31) run about every 30-45 days, so while waiting to traveling to T31 (Kanton Island (OC-043) mentioned), Toshi will be active as T30XX for an unknown period of time. Equipment has already been shipped and waiting in T30. His equipment includes: Yaesu VLA-1000, TL933, 3 Generators, Yagi Antenna, Vertical antenna, Tent and Toyota van. He is also carrying additional equipment including an IC-7000, FT-897D and a HL-1.2KFX (Tokyo High Power). Toshi operates on CW, SSB, RTTY, PSK31 and SSTV. He will concentrate on EU and USA openings on the lower bands and the 30/17/12 meter bands. If possible, he will try to go Nauru (C21) and Banaba Island (T33). Because of long intervals between the boats to T31, he may be on the Tarawa Atoll for 2-3 months. Donations to assist in this long DXpedtion are appreciated. QSL via JA8UWT. [OPDX Bulletin]

03/10/2008: Members of the GyeongNam DX Club (6M0W), Lee/HL5BMX, Choi/6K5AQY, Kim/6K5AYC and Ha/6K5BHZ will be active as 6M0W/4 from Paegya Island (AS-060) between 0100z October 3rd to 1300z October 5th. Look for activity on all bands and modes. QSL via HL5BMX, direct or bureau. [rsgbiota.org]

03/10/2008: Han/DS2GOO and his XYL will be taing a trip to Cheju Island (AS-026, WLOTA LH-0686), October 3-5th. Look for Han to sign DS2GOO/4 and be active on 80-10 meters using CW, SSB and the Digitals modes during his local evening hours. QSL via his home call sign. [OPDX Bulletin]

03/10/2008: Operators Simon/DS1MRF, Yoo/DS1NPP, Lee/DS4NMJ, Lim/DS5EVU, Hook/DS5LRJ and Joy/6K5TET will be active October 3-5th as DT0HH/2 from Yonghung Island (AS-105). QSL via DS3FGV, direct (Yang Ki Sek Yang Sekki, PO Box 40, Asan City, 336-600 South Korea) or by the bureau. [rsgbiota.org]

03/10/2008: Operators Cory/N1WON and Ken/KF4U will be doing a casual operation from 'Radio Reef', St. Croix (USi VI-002S, WLOTA LH-2477, WW Loc. FK77PR), U.S. Virgin Islands (NA-106) as KP2/homecall from October 3-10th. Cory reports that they will pay particular attention to the 17 and 12 meter bands. QSL via their home callsigns or N1WON via LoTW. [OPDX Bulletin]

Be sure to check Bill's (NG3K) Website for updated CQ WW DX RTTY Contest activity at: ng3k.com/Misc/cqr2008.html
==========
LOOKING AHEAD -

04/10/2008: Aki, JR1VAY will be active as AH2J from Barrigada, Guam (OC-026, USi GU-003S, WLOTA LH-0064), October 4-6th. He will also take part in the Oceania DX SSB Contest (October 4-5th). QSL via home call, bureau preferred. [NG3K]

04/10/2008: Ben, DO1BEN will once again be active as OZ/DO1BEN from Lolland Island (EU-029, SJ-015 for Danish Islands Award), October 4-11th. He will be active on all HF bands with vertical antennas for

10-40m and dipole antennas for 40 and 80 meters, running 100 Watts. A homebrew vertical for 20 meters will also be used. QSL via home call, direct or bureau. [rsgbiota.org]

05/10/2008: The Sardinia QRP Club (IS QRP), IQ0QP will be active October 5th for the yearly Billy IS0ICE Memorial Day contest. Activity will be QRP only, using CW and SSB. This operation will count for IOTA EU-024, IIA SD-001, MIA MIS-035 and WLOTA LH-1608. Furher information about the club and this contest can be found at www.sardiniaqrp.com/ [IS0VSU]

25/10/2008: Operators Rich/DK8YY, Ingolf/DL4JS, Jens-Uwe/DL8ALU, Sigi/DL8AKI and Frank/DL1WA will be QRV from Senegal as 6V7M for the CQWW SSB contest (October 25-26th), as a Multi-Single entry. QSL via DH7WW, direct or bureau. [NG3K]

25/10/2008: Operators Paul/VE2PGI, Raphael/VE2CVI and Sebastien/VE2GTZ will be active from Sept-Isles, Quebec (Zone 2), as VA2ZM during the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. Notes: 3el, tower 43ft, slopper 160m, HF2V, SB-220 amplifier. QSL via VA2ZM direct. [OPDX Bulletin]

26/11/2008: John/K4BAI, Jeff/KU8E, Don/W4OC, and Kirk/K4RO will operate the CQ WW CW DX Contest (November 29-30th) in a multi-op category from PJ4A, on Bonaire (SA-006, WLOTA LH-1279), Netherlands Antilles from the K2NG/PJ4G rental QTH. Outside the contest, look for the ops to be QRV as PJ4/homecalls. QSL all five calls via K4BAI. E-mail requests for bureau cards will be accepted. All but PJ4/KU8E will be QRV November 26th to December 3rd. KU8E will QRT December 2nd to return home. [NG3K]
==========
SPECIAL EVENTS -

25/09/2008: Celebrating the last flag-lowering ceremony that will take place on September 30th, special event station II1ADV will be active from the Italian Navy frigate "Carabiniere" September 25-30th. Expect SSB, CW and PSK activity from 0800 to 1700 UTC. QSL via I1SAF, bureau preferred. Information on the relevant award can be found at www.assoradiomarinai.tk/ [425 DX News]

26/09/2008: Look for special event station GB2AF to be aired from London between September 26-28th. The event celebrates 100 years of radio from 23 Rosendale Road, Dulwich, South London. From 1908 to 1914, a teacher at Dulwich College, Alfred Rickard Taylor, 2AF, lived at that address and transmitted from there. He was a wireless pioneer and early member of RSGB. In 1914 the house was bought by the father of the present owner, Gerry Wells. Gerry developed a passion for radio which has lasted to this day, and the house today is given over entirely to the British Vintage Wireless and Television Museum. See bvwm.org.uk/. Anyone who is interested in radio will be overwhelmed by the contents of the Museum. It is not open to the public but the collection can be viewed by prior arrangement. CVRS members will be able to come and go over the three days, but others will have to make prior arrangements to

visit, details are on the website. [GB2RS]

26/09/2008: Special event station GB6VMR will be active September 26th for the Vintage Machinery Rally at Richmond in North Yorkshire. QSL via the RSGB bureau. [GB2RS]

27/09/2008: Dorando Pietri, became an international celebrity for not winning the marathon at the 1908 Summer Olympics held in London. After his dramatic finish and eventual disqualification for receiving outside aid, he became "the one who won, and lost victory". Celebrating the centenary of that incredible marathon, special event callsign II4DP will be aired from Carpi, Dorando's hometown, between September 27th and October 12th. QSL via bureau or direct to IK4JPN (c/o ARI Carpi, P.O. Box 311, 41012 Carpi - MO, Italy). [425 DX News]

27/09/2008: The special event station GB2STI (Steam Trains Ireland) will be operating 'Railways On The Air' the weekend commencing Saturday 27th September, from the excursion platform of the Railway Preservation society of Ireland, Whitehead, County Antrim. They intend to operate 80/40/20m and will also have a 2m multimode station on air. The station will be operated by members and friends of the Antrim & District Amateur Radio Society as part of the celebrations of the first steam passenger train to operate in the British isles. A special QSL cxard is available for all contacts made during the event via the QSL manager GI0KPF. Details on QRZ.com. [Southgate ARC]

27/09/2008: Brickfields Amateur Radio Society will be participating in the Railways On The Air Weekend on September 27th and 28th. They will be operating from the Island Steam Railway at Havenstreet Railway Station on the Isle of Wight and will be active mainly on the 80 and 40 meter HF bands under the call sign GB4HSR. QSL cards will be sent via the bureau or direct on request via the club call sign GX0BAR. Also over the weekend of September 27-28th for Railways on the Air, will see GB0HBL from the Helton Branch Line, GB6PDR from the Paignton Dartmouth Railways and GB3WLR from the West Lancs Railways. [GB2RS]

27/09/2008: Special event station GB2TX will be on the air for Transmission from Holt in Norfolk and GB8CCC from Crynant Community Centre on September 27th. The same day will see GB4CHC transmitting from Crewe Heritage Centre. [GB2RS]

28/09/2008: On the occasion of the Charles de Gaulle memorial opening festivities, in Colombey les Deux Eglises (WW Loc. JN28KC), the Haute-Marne area hams (Department 52) will be active as TM0CDG, between September 28th to October 12th. Operators include Alain/F0DHH, Dominique/F0EGY, Alex/F1PZY, Gerard/F4EEH, Julien/F4EEI, Jean-Marie/F6CHU and Pierre/F6IRM. Activities are scheduled on all HF bands, and maybe 6, 2 and up, all modes, including SSTV. Website at tm0cdg.free.fr/ (French language). QSL via bureau to F6KTR. [F5NQL]

01/10/2008: The ISWL Club Callsigns in use during October 2008 will be: GX4BJC /A & GX4BJC /P - Operated /A from Walton on the Naze, in Essex,

by Herbie - G6XOU. (ISWL Council Member & QSL Bureau Manager). (/A WAB Square = TM22-ESX & IOTA = EU-005).
MX1SWL /A & MX1SWL /P - Operated /A from Hartford, in Cambridgeshire, by Tom - G3RPV. (/A WAB Square = TL27-CBE & IOTA = EU-005).
The ISWL's WAB Book numbers are: 16316 and 16724.
All QSL Info is on www.iswl.org.uk or www.qrz.com or via www.eQSL.cc
NO LOTW!
ISWL Awards are available to all Hams and SWL's - see www.iswl.org.uk for full details.
eQSL.cc cards ARE accepted for our awards. [Pete's-DX-Newsdesk]

01/10/2008: Members of the NASA Glenn Amateur Radio Club (NA8SA) in Cleveland, Ohio, will be active daily (2200-0500z) between October 1-6th. Activity is to celebrate the 50th anniversary of the beginning of NASA operations. Suggested frequencies are: 14280, 7280, 3880 and 1880 kHz. QSL via: NASA Glenn Amateur Radio Club Lewis Field, 21000 Brookpark Rd, MS 8-1, Cleveland, OH 44135-3191. Their Web page is at: www.grc.nasa.gov/WWW/Clubs/NA8SA [OPDX Bulletin]

03/10/2008: Look for special event station 8J1I to be aired October 1st through November 9th to celebrate the 23rd National Cultural Festival Ibaraki 2008. Expect activity on all bands and modes. QSL via the JARL bureau. [JJ1WTL/AC6IM]

03/10/2008: Special event station 8J1SOKA will be active between October 1st and November 30th to celebrate the 50th anniversary of Soka-city. Activity will be on all bands and modes. QSL via the JARL QSL bureau. [JJ1WTL/AC6IM]

03/10/2008: Special event station PA08DWN will be aired October 3-4th on 40 and 20 meter CW from the original radio station of the sea tug "Elbe". Since 2002, 60 volunteers having been working to restore this 1959 tug boat to its original state. It was the strongest tugs from its time and will now become a sailing museum ship. The ship lies in the port of Maasluis, 20 km from the port city Rotterdam. QSL via operator's instructions. [UBA HF News]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

==========
BITS & PIECES -

BENIN:

Serge, F6AML has QRT under TY6A call sign today (September 23) at 1109 utc The last station logged is Darek/SP7TES on 18 MHz QSL via F6AML, either direct (see QRZ.com) or via the French bureau to F6AML/REF77. [F5NQL]

MAURITANIA:

Jean/5T0JL, the last regularly Mauritanian Ham licensee, and still staying in Mauritania, expects to be active again soon. His station is setlled and he is putting the finishes to the multiband antenna. First it will be a G5RV. [F5NQL]

MAURITIUS & RODRIQUES:

The next October dxpedition to Mauritius and Rodrigues by Jose/ON4LAC had to be postponed. Jose has suffered an unforeseen surgery. Jose?s 3B8/3B9 expedition is now scheduled in next March/April of 2009. We wish Jose a quick recover. [F5NQL]

M6 CALLSIGNS - NOT PIRATES!

M6 callsigns are now appearing on the bands from the UK.

The Novice callsigns in the M3 range have been used up, so new Novices are being issued with M6 callsigns.

UK Country variations apply, so M6 = England. MW6 = Wales, MM6 = Scotland, MI6 = Northern Ireland etc etc, in the same way as all other UK callsigns are allocated. [Pete's-DX-Newsdesk]

CHINA TO HOLD FIRST 'HAMVENTION':

The WIA reports that China is set to hold its very first hamvention.

The Chinese Radio Sports Association is to hold the first ever 'Hamvention' in Southern Anhui Province at the famous tourist region called Huangshan or in English, Yellow Mountain.

The Hamvention will span a full 5 days and cover subjects like Amateur Radio Today in China, EME and show Amateur Radio related movies throughout.

There will be competitions and a station operating throughout under the call sign BY6HS.

There will be technical sessions and one of VK's IRLP Gurus, Mike VK8ZMA, will be giving a short talk on IRLP in Australia and take questions and answers from the guests on Australian Amateur Radio.

Mike is stationed in China in the city of Shouxian in Central Eastern China for all of 2008 with the Australian Bureau of Meteorology on a joint American/Chinese/Australian project operated by the Atmospheric Radiation Monitoring unit of the US Department of Energy.

Mike has almost completed the extensive processing required to be issued with a Chinese callsign and is planning to report to WIA National News after the event which has attracted a lot of interest within the relatively small Amateur Radio fraternity out of China's massive 1.3 billion population.

The Hamvention concludes with a tour of the famous Yellow Mountain on the final day.

The Hamvention commences on Monday the 29th September and concludes on Friday the 3rd of October 2008. [QRZ.com]

CLIPPERTON DX CLUB:

The Clipperton DX Club has awarded also the Merit of the CDXC medal to: Michel, F3IV [F5NQL]

Frosty, K5LBU is working on a DXpedition to Lesotho in 2009.
The dates will be 29th July till the 12th of August.
Am looking for some good operators to come along.

www.radio-amateur-ring.com/forum/

CHINESE SPACE LAUNCH:

China's Shenzhou 7 spacecraft carrying a 3-man crew lifted off today from the Jiuquan Satellite Launch Center and is now in Earth orbit. During the upcoming three-day mission, Chinese astronauts, called taikonauts, will launch a small satellite and conduct their country's first space walk. As they orbit Earth, Shenzhou 7 and the body of the rocket that launched it will be visible to the naked eye from many parts of the globe. Check the Satellite Tracker for viewing times: http://spaceweather.com/flybys .
(Note: Frequent checks are recommended; predictions may change as the orbit is adjusted and estimates of orbital elements improve.)

7604. 3X5A DX NEWS

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-09-26 08:55:31 UTC
From: K1XN
Topic: 7604 Message: 7604

3X5A
The VooDoo Contest Group will enter the CQ World-Wide CW contest on
November 29-30th from Conakry, Guinea, as 3X5A in the multi-multi
category. This will be the group's 15th straight year in multi-multi
from West Africa and our 20th straight year participating in CQWWCW. In
the 2007 contest 3X5A won this category, first place world, our 6th
outright win. This will be our second visit to 3X5A. We will have our
usual 8-9 British and American operators, seven one-KW stations and a
dozen antennas. We will also be active as 3X5A (no personal call-signs)
before the contest, including WARC bands and maybe some RTTY.
QSL manager: G3SXW, direct (qrz.com) or e-mail to g3sxw at
btinternet.com for a bureau reply, or paper QSL via bureau; also LoTW.
No QSLing rules: just normal practice. More information at:
http://voodoocontestgroup.com/

7605. PJ2/PJ4 outing DX NEWS

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-09-26 09:05:32 UTC
From: K1XN
Topic: 7605 Message: 7605

Hello everyone -

Here is an update regarding our PJ2/PJ4 outing:

PJ2/PJ4 - Look for a group of operators to be active from Bonaire as PJ4E during the upcoming CQWW SSB contest. WA4PGM, WK4Y, K6AM, K5GS, K4EJ, K0RAY and N0VD will likely operate as a M/M entry, but may change class depending on local circumstances.

Before the contest, WA4PGM, WK4Y, K4EJ and K0RAY will spend a few days on PJ2 (18-21 October), then be active from PJ4 during 21-28 October. K6AM, K5GS and N0VD will be active on PJ4 from 18-29 October. Before an after the contest all operators will be signing PJ2/ and PJ4/callsign. N0VD is also in the process of building a rental QTH on PJ4 (www.villadesertpalm.com). QSL WA4PGM & PJ4E via direct only. QSL N0VD via W3HNK. QSL all others via operators instructions.

HI Folks,

Next 17-19 October 2008 a group of German DXers will celebrate the10th Friendship Meeting in the city of Wackersberg-Bad T?lz.

DL8JDX Dr. Volker Strecke will join the meeting on saturday, Oct.18th, to report
about Antarctica and WAP. Another nice opportunity offered by Volker (Y88POL-DP?GVN), as Antarctic Veteran to the knowledge of the Icy Continent.
Thanks to Fredy DE?MST for including Antarctica in the Program of the meeting,
sure the participants will enjoy the professional presentation and the experience so well shown by Dr. Volker.

Details and information about this Meeting can be requested to Manfred Stippschild DE?MST via e-mail at: fresti@... or by phone at: ++49-08042-2721. Guests are still on time to book.

Hi friends
Bonjour à tous
TAJIKISTAN:
Somme bulletins have published an information saying that Philippe, F4EGS (EY/F4EGS), was QRV since Sept 26th . Some other have said that the end of his stay will be November 26th.
Would you note that Sept 26th was the date where he left France to EY. For the traffic he hopes to be QRV, in the better case around October 1st or a little later.
We apologize for those who searched him since four days.
On the other side, the length of the stay is effectively for two months, but it’s better to read for about two month; the exact date of the end is not known yet.

INDIA :
A group of 9 VU amateurs are QRV from VUFF-005 Bannerghatta National Park from 01 to 07 October 2008. Call is AT8WFF.
Freqs 7020CW, 7044LSB, 14020CW 14044 CW 14180 SSB 14244SSB.

Bonjour à tous
TAJIKISTAN:
Quelques bulletins ont rapporté que Philippe, F4EGS (EY/F4EGS), serait actif à partir du 26 septembre. D'autres on indiqué qu'il quitterai EY le 26 novembre.
Le 26 septembre était la date de son départ de France ; il espère au mieux être actif en EY, à partir du 1er octobre. Nos excuses à ceux qui l'ont cherché depuis 4 jours.
La durée du séjour est effectivement de deux mois environ, mais la date de fin de séjour n'est pas encore connue.

INDE:
Un groupe de 9 radioamateurs indiens sera QRV depuis le VUFF-005 Parc National de Bannerghatta , du 1er au 7 octobre 2008, pendant la 54ème semaine de la faune sauvage..
Indicatif : AT8WFF.
Freqs 7020CW, 7044LSB, 14020CW 14044 CW 14180 SSB 14244SSB.
QSL info Via VU2JHM

C'est la première activité depuis un parc national indien pendant la semaine de la faune sauvage.

73 de arasu vu2ur
Merci Arasu, VU2UR

ANTARCTIQUE
D' Adam "K2ARB" - k2arb at aol.com (http://profiles.yahoo.com/k2arb)
28 sept 2008.
Le Dr. Helmuth Spieler W6KDX retourne travailler sur le télescope au Pôle Sud, situé sur la base US Amundsen-Scott , du 5 décembre au 5 janvier 2009.
Il espère pouvoir réactiver KC4AAA à son temps libre.
Mode et Fréquences préférentiels : SSB autour 14.243 MHz.
Demandes de sked directement à : KC4AAA2008 at gmail.: KC
QSL via K1iED.

Topic: 7617 Message: 7617

Hi friends

Some Tajikistan news.
Philippe, F4EGS is well arrived in Duschambe/Tajikistan.
Thanks to Nodir, EY8MM, he has his licence ticket in hand since yesterday Sept 30th.
The old R7 is now in place but Philippe had a lot of difficulties to assemble all the parts .
Philippe thinks that’s certainly his last trip with it. For bringing it in the next further trip, to Abidjan, Ivory Coast, it needs a serious repairing. Philippe will consider any friendly and cheap offer about an old R7 available for parts. The gear will have to be picked up in a very short delay between his return from EY and to TU departure.
Philippe says that the last lightning he knew in a previous stay in Abidjan, burnt his transceiver with no possibility to repair it and he had to purchase a new one.
The traffic will begin today with a little SSB.
For RTTY and PSK, please wait a little, Philippe has to reload the softwares on his laptop. The first numeric signals are expected at the end of this week or the begining of the following one.
Any sked requests to be sent at : _cocheese37@..._
(mailto:cocheese37@...)
The documentation will be sent as usually to the ARRL for dxpedition validation.
Tks Philippe, F4EGS, EY8/F4EGS

Special events UK :
G6HL ON THE AIR AGAIN 4TH OCT 2008..

G6HL will be on the air again after 50yrs, the callsign used by Wg Cdr Ieuan Edward Hill’s Amateur Radio Station.
Listen out on Saturday 4th October from around 1030Z on 3.650Mhz to help celebrate the launch of G6HL from the Muckleburgh Collection Museum RAFARS 4669 Weybourne N Norfolk England.

GB70RAF RAFARS 70th Anniversary will be operational from 14 Nov to 11 Dec 2008 on 2m FM and 80m down to 10m SSB and some CW on RAFARS Frequencies. QTH will be from Shaftesbury Dorset, WAB ST82. QSL via RSGB or Services.

Bonjour à tous

Quelques nouvelles du Tadjikistan.
Philippe, F4EGS est bien arrivé à Duschambe/Tadjikistan.
Grâce à Nodir, EY8MM, il a sa licence depuis hier soir.
La vieille R7 est maintenant en place mais il a eu beaucoup de mal à la monter. Philippe pense que sans ne sérieuse réparation, c'est sans doute son dernier voyage, et elle ne verra pas la Côte d'Ivoire en l'état.
A ce sujet Philippe examinera toute offre sympa à prix OM pour une vieille R7 disponible pour pièces détachées, sachant que le temps où il pourra récupérer ce matériel entre EY et TU sera très court.
Philippe indique que lors de son dernier séjour à Abidjan, la foudre lui a détruit son TX qu'il a du remplacer
Le trafic commencera aujourd'hui avec un peu de SSB.
Pour les modes numériques, les logiciels doivent être rechargés et testés.
Il espère envoyer les premiers signaux fin de semaine, début de la prochaine.
Toute demande de sked à envoyer à : _cocheese37@..._
(mailto:cocheese37@...)
Comme d'habitude la documentation pour validation au DXCC, sera envoyée en temps utile à l'ARRL.
Merci Philippe, F4EGS, EY8/F4EGS

7618. UA4WHX QSL INFORMATION

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-01 10:34:32 UTC
From: K1XN
Topic: 7618 Message: 7618

Many DXers have been asking about the status of the QSLs for UA4WHX, Vladimir. He was the operator of 3DA0VB, 4K0VB, 4L0B, 5H3VMB, 5R8VB, 5X1VB, 5Z4/UA4WHX, 7P8VB, 7Q7VB, 9J2VB, 9U0VB, 9X0VB, A25VB, C91VB, D20VB, D60VB, J20VB, OD5/UA4WHX, ST2VB, V51VV and Z2/UA4WHX. Over 310,000 QSOs were made and hand logged. The QSL are beautiful photo cards and are also being hand written. They are definitely worth the wait. Vladimir says that about 50% of the direct QSL cards have been answered. He does not think the job will be completed by year's end. Do not resend at this time as it will only slow down everything. DXers who are waiting for their QSLs can ask about the status via email to UA4WHX. His address is listed on QRZ.COM.

7620. NAQCC Special Event Station N3A

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-02 14:28:58 UTC
From: Dave Raycroft
Topic: 7620 Message: 7620

We invite all ops to come help the North American QRP CW Club (NAQCC) celebrate its Fourth Anniversary.

How?

By working our special event station N3A which will be active during the whole month of October.

A handsome certificate and/or QSL card is available to everyone who works N3A and requests one or both.

We also have 3 special certificates for the FISTS members who make the most different band QSO's with our N3A stations during the month and in the FISTS and NAQCC sprints.

N3A will be operated from all 10 US call areas with the appropriate portable designator - N3A/1, N3A/2....N3A/0.

All 10 calls will be active in the FISTS sprint on the 11th and our NAQCC sprint on the 14th (15th UTC).

Full details including an operating schedule and how to request the certificate and QSL are on the "N3A Operation" page on the club web site - search "NAQCC" in your favorite search engine, or follow this link to our website (www.arm-tek.net/~yoel/main_n3a.html).

Join us in celebrating our Fourth Anniversary, share the fun and earn a few certificates and special QSLs!

This is also a good opportunity to join NAQCC. Lifetime membership is free and you will receive your membership number, membership certificate and starter kit FREE! No cost or obligation on your part.

73,
Tom, WY3H (NAQCC President)
John, K3WWP (NAQCC VP)

7621. ICPO Bulletin (October 02-10, 2008)

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-02 21:49:02 UTC
From: Dave Raycroft
Topic: 7621 Message: 7621

I.C.P.O. Bulletin (October 02-10, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

28/09/2008: Willi, DJ7RJ, arrived on the Marquesas. His QTH is situated near the coast on Ua Pou Island (OC-027, DIFO FO-027). Willi is active as FO/DJ7RJ until October 19th. QSLs will be confirmed via DJ7RJ after his return home. [DX Newsletter]

30/09/2008: A group of 9 VU amateurs will be QRV as AT8WFF for the first VUFF operation from the Bannerghatta National Park (WFFA reference VUFF-005), near Bangalore City, Karnataka State, India, from October 1-7th (Indian Standard Time - UTC + 5h 30m). Karnataka State Forest Department will be celebrating the 54th Wildlife Week during this period. The operation starts right at 1831 UTC September 30th on 40m. Likely frequencies: CW - 7020, 14020 and 14044 kHz; SSB - 7044, 14180 and 14244 kHz. QSL info via VU2JHM as per QRZ.com. [F5NQL]

02/10/2008: Mike, DB1JAW, will be active as 7W0JAW (or 7X/DB1JAW) from Bou-Saada and possibly other locations in the Algerian Sahara, October 2-14th. Activity will be on 80-10 meters, but with a focus on 20/17/12 meters using SSB and PSK31. QSL only direct to DB1JAW; he is no longer a member of DARC. SAE is not required as Mike prints computerized envelopes. [OPDX Bulletin]

02/10/2008: Heijo, DJ1OJ, will spend the winter on Tenerife (AF-004, DIE S-012, WLOTA LH-1276) from early October 2008 until the end of March 2009. Heijo will be active as EA8OM mainly CW and RTTY to preserve the ears of his XYL. QSL via bureau to his homecall or via LoTW. [DX Newsletter]

02/10/2008: Joeke, PA0VDV, will be active as PJ2/PA0VDV from the island of Curacao (SA-006, also count for WLOTA LH-0942), October 2-19th. Activity will be CW only. QSL via his home callsign, by the bureau or direct. [OPDX Bulletin]

02/10/2008: Toshi, JA8BMK is expected to depart Sapporo on September 30th to Fiji (3D2) and fly from there to Tarawa Atoll, Western Kiribati (OC-017). His expected arrival is on October 2nd. Ships travel to Central Kiribati (T31) run about every 30-45 days, so while waiting to traveling to T31 (Kanton Island (OC-043) mentioned), Toshi will be active as T30XX for an unknown period of time. Equipment has already been shipped and waiting in T30. His equipment includes: Yaesu VLA-1000, TL933, 3 Generators, Yagi Antenna, Vertical antenna, Tent and Toyota van. He is also carrying additional equipment including an IC-7000, FT-897D and a HL-1.2KFX (Tokyo High Power). Toshi operates on CW, SSB,

RTTY, PSK31 and SSTV. He will concentrate on EU and USA openings on the lower bands and the 30/17/12 meter bands. If possible, he will try to go Nauru (C21) and Banaba Island (T33). Because of long intervals between the boats to T31, he may be on the Tarawa Atoll for 2-3 months. Donations to assist in this long DXpedtion are appreciated. QSL via JA8UWT. [OPDX Bulletin]

03/10/2008: Members of the GyeongNam DX Club (6M0W), Lee/HL5BMX, Choi/6K5AQY, Kim/6K5AYC and Ha/6K5BHZ will be active as 6M0W/4 from Paegya Island (AS-060) between 0100z October 3rd to 1300z October 5th. Look for activity on all bands and modes. QSL via HL5BMX, direct or bureau. [rsgbiota.org]

03/10/2008: Han/DS2GOO and his XYL will be taing a trip to Cheju Island (AS-026, WLOTA LH-0686), October 3-5th. Look for Han to sign DS2GOO/4 and be active on 80-10 meters using CW, SSB and the Digitals modes during his local evening hours. QSL via his home call sign. [OPDX Bulletin]

03/10/2008: Operators Simon/DS1MRF, Yoo/DS1NPP, Lee/DS4NMJ, Lim/DS5EVU, Hook/DS5LRJ and Joy/6K5TET will be active October 3-5th as DT0HH/2 from Yonghung Island (AS-105). QSL via DS3FGV, direct (Yang Ki Sek Yang Sekki, PO Box 40, Asan City, 336-600 South Korea) or by the bureau. [rsgbiota.org]

03/10/2008: Operators Cory/N1WON and Ken/KF4U will be doing a casual operation from 'Radio Reef', St. Croix (USi VI-002S, WLOTA LH-2477, WW Loc. FK77PR), U.S. Virgin Islands (NA-106) as KP2/homecall from October 3-10th. Cory reports that they will pay particular attention to the 17 and 12 meter bands. QSL via their home callsigns or N1WON via LoTW. [OPDX Bulletin]

04/10/2008: Aki, JR1VAY will be active as AH2J from Barrigada, Guam (OC-026, USi GU-003S, WLOTA LH-0064), October 4-6th. He will also take part in the Oceania DX SSB Contest (October 4-5th). QSL via home call, bureau preferred. [NG3K]

04/10/2008: The newly formed Middlesex DX Group will be active October 4-10th on Arran Island (EU-123, IOSA CL01, SCOTIA CS14, WW Loc. IO75KM). They will use the call sign MS0MDG/p for SOTA activations and HF portable operation, while the call sign GB0MFG will be used for base operation. Activity is planned for 160m down to 23cms. Team members mentioned are John/G0KLX, Kevin/G1KAW, Simon/2E0VAG, Chris/2E0CMG, Carl/2E1IDC, Michael/G3WOE, Lee/2E0JDC and Jason/M1PRO. QSL via 2E0VAG, direct or by the bureau. [F5NQL]

04/10/2008: Ben, DO1BEN will once again be active as OZ/DO1BEN from Lolland Island (EU-029, SJ-015 for Danish Islands Award), October 4-11th. He will be active on all HF bands with vertical antennas for 10-40m and dipole antennas for 40 and 80 meters, running 100 Watts. A homebrew vertical for 20 meters will also be used. QSL via home call, direct or bureau. [rsgbiota.org]

04/10/2008: Boris RW9TP & Co. will be active October 4-6th as UE9SFF from RDA District OB-24 (Buzuluksky area), Orenburg oblast (167, OB for "Rossija" award) and Buzulukskiy Bor (RFF-171). QSL direct or by the bureau. [RX3RC]

05/10/2008: The Sardinia QRP Club (IS QRP), IQ0QP will be active October 5th for the yearly Billy IS0ICE Memorial Day contest. Activity will be QRP only, using CW and SSB. This operation will count for IOTA EU-024, IIA SD-001, MIA MIS-035 and WLOTA LH-1608. Furher information about the club and this contest can be found at www.sardiniaqrp.com/ [IS0VSU]

05/10/2008: John, KE6GFF will be active as T6EE once again from metropolitan Kabul, Afghanistan, between October 5th and 31st. Equipment will be FT897d, YP3 Super Antenna and long shockcord element Buddipole. Operation limited to 14.2 MHz by license (+/-QRM). He will give particular attention to the Americas, Africa and Middle East. John will also Will participate in the CQWW DX SSB Contest (October 25-26th). QSL via home call, direct or bureau. [NG3K]

06/10/2008: Look for Lasse, OZ1FJB/p and John, OZ1LXJ/p to be active from Anholt Island (EU-088, NK-001 for the Danish Islands Award), October 6-10th. They plan to operate CW and SSB on the HF bands in their spare time, indicatively between 3-5 UTC and again between 20-22 UTC. QSL via home calls. [425 DX News]

07/10/2008: Bill, W4WV will return to Guantanamo Bay (NA-015, WLOTA LH-0358) as KG4WV and will work all HF bands on SSB. Ed, KN4KL will operate as KG4KL and will work all HF bands (160-10m) and some 6 meters, on RTTY, SSTV, and SSB with 100 Watts. Activity will take place from October 7-21st. QSL via operator's home call sign or by the bureau. [OPDX Bulletin]

07/10/2008: Ulli, DL2AH will be active holiday style from the South Pacific between October 7th and November 9th. His first stop will be the Manua Islands (OC-077) and will sign KH8/DL2AH from October 7-27th. He will then head to Tonga (OC-049) and will sign A35? (call sign pending) between October 29th and November 9th. He will be QRV 40-10 meters, mainly SSB with some RTTY, using an FT897 and Windom antenna. QSL via home call, direct or bureau. [NG3K]

08/10/2008: Al, LA9SN, will once again be active from Jan Mayen (EU-022) as JX9SN for only a few hours on October 8th. Watch for him on CW on 30 and 20 meters. QSL direct to LA9SN. [OPDX Bulletin]

09/10/2008: Operators Markus/DJ7EO, Heye/DJ9RR, Chris/DL1MGB, Dietmar/DL3DXX, Tom/DL5LYM, Ben/DL6FBL, Dieter/DL8OH, Robert/SP5XVY and Joerg/DL8WPX plan to be QRV October 9-27th as VK9DWX from Willis Island (OC-007). QRV with four high power stations in CW/SSB/RTTY on 160m-6m. Antennas will be vertical antennas on all bands, with arrays from 80-10m. QSL via DJ2MX. Further information and updates can be found at: www.vk9dwx.de/ [DXNL]

10/10/2008: Wojtek, SQ4MP will be active as MJ/SQ4MP from Jersey (EU-013, WLOTA LH-0818) from October 10-13th. He will operate CW, SSB and RTTY on 160-10 meters, with an emphasis on 160, 17, 12 and 10 meters. QSL via SQ4MP, direct or bureau. His log will be uploaded to LoTW. [425 DX News]

10/10/2008: Jovica, E78A (aka 6W1SJ, ex. T98A, ST0RM, ST2A) will be QRV from Chad as TT8JT from October 10-18th. As Jovica travels to Chad for work, activity (mostly CW on 40, 30 and 20m) on the bands will be during his free time. QSL via E73Y: Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina, or via the bureau. [E73Y]
==========
LOOKING AHEAD -

18/10/2008: Look for operators Ingolf/DL4JS, Rich/DK8YY, Jens-Uwe/DL8ALU, Sigi/DL8AKI and Frank/DL1WA to be QRV from Senegal as 6W/DL4JS from October 18-28th. Activity is planed for all HF-Bands in CW, SSB and RTTY, maybe also on 6m depends on conditions. Hope to catch as many callers as possible on low bands. They will be active with 2 stations, monoband beams for 20/15/10, dipoles, vertical for 160/80 and K9AY. [NG3K]

18/10/2008: GB2RAF will be operational on October 18th from the Air Defence Radar Museum RAF Neatishead RAFARS permanent S.E.S for a Special WW2 over 60s meeting at the Museum. RAFARS frequencies SSB or CW on 80m, or 40m if conditions are poor. The Museums Web site is www.radarmuseum.co.uk/ [F5NQL]

25/10/2008: Jack, RW3QC will be active from the island of Cyprus (AS-004, MIA MCI-002, WLOTA LH-0051) as 5B4AII for the CQWW DX SSB Contest (October 25-26th), as a Single-Op/All-Band/SO2R entry from CQ Zone 20. QSL via RW3RN. [NG3K]

25/10/2008: Operators Fabio/I4UFH, Massimo/IZ4DPV, Vic/I4YSS, Tony/CT1ESV and others will be active from the D4C Monte Verde contest station, Mindelo, Ilha do S?o Vicente (AF-086, WLOTA LH-1976) for the CQWW DX SSB Contest (October 25-26th), as a Multi-? entry. QSL via the bureau to CT1ESV, or direct only to IZ4DPV. [NG3K]

25/10/2008: Stewart, GM4AFF plans to be QRV as GZ0F from the Shetland Islands (EU-012, IOSA SH01, SCOTIA SI11, WLOTA LH-0867) for the CQ World Wide DX SSB Contest (October 25-26th), as a Single-Op/All-Band entry. QSL via M0CMK, direct or bureau. [NG3K]

07/11/2008: 100th anniversary of the Kingdom of Bhutan. After A52FH in 2000, A52CDX in 2004 and 2005, Gerard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK and Vincent/G0LMX will once again be in Bhutan from November 7-25th with a very special call sign A5100A (A5 = Bhutan, 100 as one hundred = centenary from the kingdom). They will be in Thimphu from November 7-17th, then they will met Pradhan, A51PN in the south part and they are /P from 3 different regions. With IC756PRO, IC746, FT857D two amplifiers 1Kw, Spiderbeam for 5 bands, wire 11 element log periodic. QSL via F9DK, direct or bureau. [F6AJA]

14/11/2008: Special event station GB70RAF will be aired between November 14th and December 11th to celebrate RAFARS 70th Anniversary. QTH will be from Shaftesbury Dorset (WAB ST82). They plan to be QRV 80-10 meter CW and SSB, plus 2m FM. QSL via the RSGB bureau. [F5NQL]

15/11/2008: Sacramento de Colonia Radio Club (CX2FAA) members Ricardo/CX5FT, Viterbo/CX9FD, Italo/CX3FG, Marber/CX9ACK and Walter/CX6FF plan to be QRV November 15-16th as CX1F from San Gabriel Island (SA-057), Uruguay. Look for activity on the major HF bands on SSB, CW, PSK and SSTV. QSL direct to PO Box 39073, 70000 Colonia del Sacramento, Uruguay. Further information on their web site at cx2faa.iespana.es/ [rsgbiota.org]

29/11/2008: Jim, W7EJ will once again be QRV as from Casablanca, Morocco, as CN2R during the CQWW DX CW Contest (November 29-30th), as a Single-Op/Single-Band entry. QSL via W7EJ, direct or bureau. [NG3K]

29/11/2008: Look for Bruce, XW1B to be active from "The Farm" 38km north of Vientiane, Laos during the CQWW DX CW Contest (November 29-30th), as an All-Band entry. He will be on 40m only if new yagi is up by then. QSL via E21EIC, direct or bureau. [NG3K]

05/12/2008: Dr. Helmuth Spieler W6KDX will be returning to work on the South Pole Telescope at the US Amundsen-Scott South Pole Station (IOTA AN-016, AA K-08, WAP USA-21) from December 5th to January 5th. He hopes to re-activate KC4AAA in his spare time on SSB in the vicinity of 14.243 MHz. Please direct any inquries to KC4AAA2008 at gmail.com . QSL via K1IED. To learn about the exciting South Pole Telescope project, visit pole.uchicago.edu/ [K2ARB]

05/12/2008: Bruce, XW1B will be QRV from "The Farm" 38km N. of Vientiane, Laos, during the ARRL 160-Meter Contest (December 5-7th). No entry class was given. QSL via E21EIC, direct or bureau. [NG3K]

15/12/2008: An official amateur call sign OP0LE is assigned to Princess Elizabeth base (IOTA AN-016, 71?57'S and 23?20'E). Paul, ON3PC will be operating from the base between December 15, 2008 and February 15, 2009. He will be working at the base as a plumber boiler-mechanic and he will be in charge of the communications in supplement. He never made any qso on amateur radio frequencies and he should appear mostly at the begining on the antarctic dx net that is managed on 14MHz and 7MHz. After 40 years of silence, Belgium is back on air from Antarctica. [F5PFP]

26/12/2008: Look for Mike, CT1IUA to be active December 26-31st as homecall/p from the Serra da Malcata Natural Reserve (DPRN reference FF-23 for the Diploma of Natural Parks and Reserves, WFF reference CTFF-023). QSL via home call, direct or by the bureau. [DPRN]
==========
SPECIAL EVENTS -

01/10/2008: Special event station 8J1SOKA will be active between October 1st and November 30th to celebrate the 50th anniversary of Soka-city. Activity will be on all bands and modes. QSL via the JARL QSL

bureau.

01/10/2008: Look for special event station 8N3GENJI to be aired from October 1st to December 31st to commemorate The Millennium of "Tale of Genji". QSL via the JARL bureau. [JJ1WTL/AC6IM]

03/10/2008: Special event station PA08DWN will be aired October 3-4th on 40 and 20 meter CW from the original radio station of the sea tug "Elbe" during the annual Furieade maritime festival in Maassluis near Rotterdam. Since 2002, 60 volunteers having been working to restore this 1959 tug boat to its original state. It was the strongest tugs from its time and will now become a sailing museum ship. The ship lies in the port of Maasluis, 20 km from the port city Rotterdam. QSL via PA3ALM. [UBA HF News]

03/10/2008: The yearly International YL and XYL Meeting will happen this year in South Africa, from October 3rd to 18th. The special call sign ZS08YL will be aired for the occasion. This station will be operated from three locations: Johanesburg, Durban and Capetown. QSL via operator's instructions. [F5NQL]

04/10/2008: The Senegalese SNRASEC ARC 6W7PCT will air the special call sign 6V7SPACE, during the Space Week between October 4th and 10th. A rendezvous is scheduled on October 4th for an air meeting between a class of the Grandcour school (Switzerland, Fribourg canton) and the Scientific club of the College IV of Mbour (Senegal). Radio and SSTV exchanges are planned. More information on the SNRASEC web page at: www.senrasec.org/ [F5NQL]

04/10/2008: G6HL will be on the air again after 50yrs, the call sign used by Wg Cdr Ieuan Edward Hill's Amateur Radio Station. Listen out on October 4th from around 1030z on 3.650Mhz to help celebrate the launch of G6HL from the Muckleburgh Collection Museum RAFARS 4669 Weybourne N Norfolk England. [F5NQL]

04/10/2008: The Grimsby District battalion of the Boys' Brigade are putting on GB125BB over the weekend of October 4th and 5th to celebrate 125 years of the Boys' Brigade. Also look out for GB125BB from Cleethropes and GB125L from Quorn in Leicestershire. [GB2RS]

U.S.A. Special event station information can be found at:

SILENT KEYS -

Nikolai Nikolayevich Lapin, RU1OL (ex UW1OL), the oldest wireless enthusiast of Severodvinsk and Arkhangel'sk reg. became a Silent Key the morning of September 27, 2008.

Anthony Martin, M1FDE passed away at the age of 41 in the early hours of Saturday 20th September. Anthony was a pioneer of the Personal Role Radio (PRR) introduced into the British Army in 2002, and was responsible for its RF design.
==========

BITS & PIECES -

Australia's most southerly lighthouse is home for six months to Tad VK2LNX and his XYL Suzanne VK2FSNJ. They have become the latest volunteer caretakers for this lonely output that has rain on 250 days of the year. Maatsuyker Island is 10 kilometres off the southern Tasmanian coast. It bears the full brunt of the roaring forties across the Southern Ocean that results in gale force winds, and occasional fierce storms with golf ball sized hail stones. Their duties include taking regular weather reports and maintaining the heritage values of the lighthouse and its surrounds. Tad VK2LNX has an Elecraft K3 transceiver and G5RV antenna. Do listen for Tad and Suzanne on the bands.

P2 QRV 50 & 144 MHz soon:

A Team of Al/AD6E, Derek/G3KHZ, Luis/CT1AGF, Mike/K6MYC and Skip/W5GAI, will activate the very rare DXCC P2, Papua New Guinea (QI45UM). It will be a joined expedition with HF and EME on 50 and 144MHz. Mike K6MYC will be activating 50Mhz EME and 144MHz EME. on 50Mhz he will use 2x6M7JHV and 2X2MXP20 both with full elevation. He will use 8877 Pa on both band output 1kw. EME activity is likely to be from the 20 october to the 25 at least. More details soon at MMMonVHF at:

http://www.mmmonvhf.de/latest.php?id=1986 [MMMonVHF]

Topic: 5889 Message: 7622

The /*OCTOBER */*/2008 /**Issue #810-A* files have been uploaded to the
Golist web site.
The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file. I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
/*Now is a good time to send in your RENEWAL to GoWin *//*
if your subscription is about to expire.*/

Press Release # 1----Desecheo KP5----2009

The Caribbean National Wildlife Refuge Complex has selected and announced a team of operators to activate Desecheo Island (KP5) sometime between January 15, 2009 and March 30, 2009. The Team will be co-led by Dr. Glenn Johnson, W?GJ and Bob Allphin, K4UEE.

Background: On June 30, 2008, the Caribbean National Wildlife Refuge office in Puerto Rico sent a letter to persons that had previously made inquiries about an Amateur Radio operation from Desecheo. They announced their decision to allow one group to activate the island and invited proposals that must adhere to strict guidelines and criteria. Applicant's had 45 days to prepare and submit their proposals.

CNWR received seven written proposals. A panel of three Fish and Wildlife Service employees, from areas within the Service outside of the Caribbean refuge, spent September 24 & 25 reviewing and evaluating the proposals. The selection criteria used were those outlined in the proposal invitation letter. Points were awarded for how well criteria were addressed for thoroughness and documentation.

The proposal with the highest ranking was submitted by team leaders Dr. Glenn Johnson, W?GJ, and Bob Allphin, K4UEE.

Their plan involves a team of fifteen operators for a 14-day operation.

USFWS has not announced the actual dates of the operation yet, but the DXpedition is expected to take place between January 15, 2009 and March 30, 2009. A Special Use Permit (SUP) will be issued as per USFWS regulations. We expect that the DXpedition team and DXers worldwide will have a minimum of 30 days notice.

A website is being planned and will be announced in the near future.

7627. QSL INFORMATION

Yahoo group: GOLIST (2007 — 2010)

From: K1XN
Topic: 6520 Message: 7627

Hello all
9 months after the expedition to St Barth, I am still receving cards almost daily.
I would like to stop answering direct requests and will confirm every QSO in the log with a bureau card.
I AM NOT CLOSING THE LOG, but would be grateful to those intending to request a card direct to do so without further delay.
The log has been uploaded to LotW, and can be checked on my webpage www.f6exv.org
I will QSL the left-over labels (I printed all the labels for all the contacts, and the left-overs are those for which a card request has not been received yet)
via bureau by December. The bureau card requests received to date have already been answered (and also those with insufficient postage).

Feel free to adapt this text for publication to meet your requirements, or contact me back if things are unclear...

Topic: 7628 Message: 7628

Hi friends
Know guys, that I was off home since last Friday, because of the French HamExpo, in Auxerre Burgundy.
So you may have read several of these information, which in this case are to be considered as remaining.
Don’t forget, that your own Dxoedition or other Ham traffic activities information can be published by I, in the French speaking Ham community;
Thank in advance
Maurice, F5NQL (_f5nql@..._ (mailto:f5nql@...))
EY8/F4EGS news :
After a lot of difficulties, mys station is QRV – about 50%, we say -.
My R7 arrived in ERY in a very bad state.The flight was very catastrophic for it.
New : the local QRM is always at least 5 to 6 for the minus one, and ofte, more heavy, so SSB pile ups are very difficult.
I think I’m going to CW and further to RTTY, when my MMTTY soft could be downloaded and installed.
The weather is going to be colder and colderr. We have sawn the first snows on the neighboring Pamir mountains.
73 to all of you

Philippe, EY8/F4EGS

VK9DWX Dxpedition
News #9 - 03.10.2008

News from down under
Here the latest news from Cairns:

Today we got the really good news: Our ocean freight arrived in Brisbane and has been cleared by quarantine and customs in Brisbane. Now it is on another truck again and on its way to Cairns, where we will await it by Sunday evening. We expect it to be delivered directly to the harbour, where the MV Floreat is situated. So we keep our fingers crossed, that everything runs in time and we will not experience any further setbacks.

We finished more or less all additional purchases and stored them in the DXpedition's mini-warehouse.

Today the fourth man of the crew arrived in Cairns. We all went to the airport and welcomed Robert, SP5XVY, who now joins us in our preparations. We also made a walk to the Marina, introduced Robert to skipper Marcus and visited the MV Floreat, who is just about to be prepared for her trip to Willis Island. Several drums for fuel were already placed on the deck and the ship is ready to take our cargo either on Sunday or on Monday.

Good news is also that the rough weather calms down. It stopped raining and the heavy winds dropped considerably. The skipper expects much better weather in the next few days, so we might have a good chance for a relatively comfortable boat ride to Willis Island.

We expect the rest of the crew at Monday noon (local time) to arrive in Cairns to complete the VK9DWX DXpedition team then.

We are also going to set up a radio on the MV Floreat during our short trip and become QRV on 20m as "op callsign"/MM.

Post Saint BARTH, TO5FJ,
Hello all
9 months after the expedition to St Barth, I am still receving cards almost daily.
I would like to stop answering direct requests and will confirm every QSO in the log with a bureau card.
I AM NOT CLOSING THE LOG, but would be grateful to those intending to request a card direct to do so without further delay.
The log has been uploaded to LotW, and can be checked on my webpage
www.f6exv.org
I will QSL the left-over labels (I printed all the labels for all the contacts, and the left-overs are those for which a card request has not been received yet)
via bureau by December. The bureau card requests received to date have already been answered (and also those with insufficient postage).

Feel free to adapt this text for publication to meet your requirements, or contact me back if things are unclear...

From: GRAHAM TAYLOR _grahamg4jzf@..._
(mailto:grahamg4jzf@blueyonder.co.uk)

We are going again, GB4LI Thursday to Thursday October 9th - 16th 2008.

Main station will be GB4LI in the Old Light, as before, other portable stations
will be active during the weekend.

North Light Saturday 11th around mid day.

Rat Island Sunday 12th around 9:00am (BST) Pier Light after Rat Island about 11:00am, both have to be at low tide.

South Light around 1:00pm. We must be Head Cases this will be my 6th or 7th trip
to the Lighthouse.

Tks Pete’s DX desk

Looks like we have gotten the GB4HI IOTA story wrong twice so I'm not going to try again. Here is the official word from G3KMA, Roger Balister, the RSGB IOTA Manager. Thank you Roger!

M0DOL has gotten the GB4HI callsign for his Holy Island, Wales trip for October 24-31. Holy Island is EU-124. The 11-man team will be on all bands and modes and try to get to some lighthouses. The ops list: MW0DOL, MI0TMW, MM0DHQ, G8LGC, 2E0NNH, M0RGB, SP3CW and others.

73 Roger

Roger Balister, G3KMA
RSGB IOTA Manager

USA Special event:
We invite all ops to come help the North American QRP CW Club (NAQCC) celebrate its Fourth Anniversary.

How?

By working our special event station N3A which will be active during the whole month of October.

A handsome certificate and/or QSL card is available to everyone who works N3A and requests one or both.

We also have 3 special certificates for the FISTS members who make the most different band QSO's with our N3A stations during the month and in the FISTS and NAQCC sprints.

N3A will be operated from all 10 US call areas with the appropriate portable designator - N3A/1, N3A/2....N3A/0.

All 10 calls will be active in the FISTS sprint on the 11th and our NAQCC sprint on the 14th (15th UTC).

Full details including an operating schedule and how to request the certificate and QSL are on the "N3A Operation" page on the club web site - search "NAQCC" in your favorite search engine, or follow this link to our website (www.arm-tek.net/~yoel/main_n3a.html).

Join us in celebrating our Fourth Anniversary, share the fun and earn a few certificates and special QSLs!

This is also a good opportunity to join NAQCC. Lifetime membership is free and you will receive your membership number, membership certificate and starter kit FREE! No cost or obligation on your part.

73,
Tom, WY3H (NAQCC President)
John, K3WWP (NAQCC VP)

Bonjour à tous
J'étais absent depuis Vendredi pour cause de HamExpo à Auxerre.
Il y sans doute des informations que vous avez pu déjà lire ailleurs. Merci dans ce cas de les considérer comme des rappels.
N'oubliez pas que les annonces et autres informations concernant vos propres dxpéditions ou autres activité trafic ont toute leur place ici.
Merci d'avance :
Maurice, F5NQL (_f5nql@..._ (mailto:f5nql@...))
Nouvelles de EY8/F4EGS :
Après beaucoup de difficultés, je considère aujourd'hui que ma station est opérationnelle à 50%.
Ma R7 est arrivée en EY dans un état pitoyable et j'ai du passer beaucoup de temps à la remettre en état.
Ii il règne sur les bandes un QRM permanent au minimum de 5 à 6, aussi les pile up SSB sont très difficiles à soutenir.
Je vais donc me concentrer plutôt sur la CW et le RTTY, mode pour lequel il me reste à télécharger MMTY et l'installer.
73 à tous
Philippe, EY8/F4EGS

Merci Philippe,

VK9DWX Dxpedition
News #9 - 03.10.2008

Nouvelle du lointain sud:
Voici les dernières nouvelles depuis Cairns:

Aujourd'hui les très bonnes nouvelles : le matériel est arrivé à Brisbane est sorti de quarantaine et a subi les formalités douanières avec succès. Maintenant c'est un autre camion qui l'emmène à Cairns où nous l'attendrons dans la soirée de dimanche.
Nous espérons qu'il pourra décharger directement sur le port où le MV Floreat attend. Nous gardons les doigts croisés, en espérant que tout se passera en temps et que nous n'aurons pas à subir d'autres aléas.
Nous terminons les derniers achats et stockons tout ça dans un mini entrepôt.

Aujourd'hui, le quatrième équipier est arrivé à Cairns. Nous sommes tous allés accueillir Robert, SP5XVY, qui a pris maintenant toute sa place dans l' équipe afin de participer aux derniers préparatifs.
Nous sommes également allés à la Marina, présenter Robert à notre skipper Marcus qui ensuite a conduit une visite du MV Floreat, à quai et prêt pour le voyage à Willis.
Plusieurs bidons de fuel ont été installés sur le pont et le bateau est prêt à enbarquer notre matériel Dimanche ou Lundi.
Bonne nouvelles aussi concernant la météo. Le temps exécrable des jours derniers se calme de plus en plus . La p^luie a cessé et les vents violents ont considérablement diminué. Le skipper espère encore une nouvelle amélioration dans les jours prochains, aussi nous pourrions bien avoir une chance de bénéficier d'une traversée tranquille jusqu'à Willis.
Nous attendons l'arrivée à Cairns du reste de l'équipe lundi midi (locales) ; L'équipe VK9DWX sera alors au complet.
Nous allons installer une station provisoire sur le bateau et pendant cette courte traversée nous serons QRV sur 20m avec les indicatifs de chaque opérateur en hc/MM.
Galerie de photos : http://www.vk9dwx.de/pictures/index.php.

Merci Bernie McClenny, W3UR

SAINT BARTH, QSL TO5FJ,
Salut à tous
9 mois après l'expédition, je reçois enore des cartes chaque jour.
J'aimerais cesser de répondre aux cartes en direct et répondre à tous ceux qui restent via le bureau.

*JE NE CLOS PQAS LE CARNET DE TRAFIC, mais je serais reconnaissants à ceux qui souhaiteraient une carte en direct de le faire sans délai maintenant.
Le log est sur le LotW, et sur ma page web, chacun peut vérifier s'il a été inscrit sur le carnet de trafic.
Je vais répondre aux derniers correspondants via le bureau en Décembre .
Les autres requêtes bureau sont déjà parties.
Les réponses via le bureau pour ceux qui, en direct, n'avaient pas joint les fonds suffisants pour le retour, sont parties également.
Ce texte peut être reproduit à l'envi.
On peut me contacter pour les éventuels éclaircissements nécessaires.

News #9 - 03.10.2008

News from down under
Here the latest news from Cairns:

Today we got the really good news: Our ocean freight arrived in Brisbane and has been cleared by quarantine and customs in Brisbane. Now it is on another truck again and on its way to Cairns, where we will await it by Sunday evening. We expect it to be delivered directly to the harbour, where the MV Floreat is situated. So we keep our fingers crossed, that everything runs in time and we will not experience any further setbacks.

We finished more or less all additional purchases and stored them in the DXpedition's mini-warehouse.

Today the fourth man of the crew arrived in Cairns. We all went to the airport and welcomed Robert, SP5XVY, who now joins us in our preparations. We also made a walk to the Marina, introduced Robert to skipper Marcus and visited the MV Floreat, who is just about to be prepared for her trip to Willis Island. Several drums for fuel were already placed on the deck and the ship is ready to take our cargo either on Sunday or on Monday.

Good news is also that the rough weather calms down. It stopped raining and the heavy winds dropped considerably. The skipper expects much better weather in the next few days, so we might have a good chance for a

relatively comfortable boat ride to Willis Island.

We expect the rest of the crew at Monday noon (local time) to arrive in Cairns to complete the VK9DWX DXpedition team then.

We are also going to set up a radio on the MV Floreat during our short trip and become QRV on 20m as "op callsign"/MM.

Post Saint BARTH, TO5FJ,

Hello all
9 months after the expedition to St Barth, I am still receving cards almost daily.
I would like to stop answering direct requests and will confirm every QSO in the log with a bureau card.
I AM NOT CLOSING THE LOG, but would be grateful to those intending to request a card direct to do so without further delay.
The log has been uploaded to LotW, and can be checked on my webpage www.f6exv.org
I will QSL the left-over labels (I printed all the labels for all the contacts, and the left-overs are those for which a card request has not been received yet)
via bureau by December. The bureau card requests received to date have already been answered (and also those with insufficient postage).

Feel free to adapt this text for publication to meet your requirements, or contact me back if things are unclear...

Membership Secretary for WAB
www.worked-all-britain.co.uk

Tks Pete?^(TM)s DX desk

Looks like we have gotten the GB4HI IOTA story wrong twice so I'm not going to try again. Here is the official word from G3KMA, Roger Balister, the RSGB IOTA Manager. Thank you Roger!

M0DOL has gotten the GB4HI callsign for his Holy Island, Wales trip for October 24-31. Holy Island is EU-124. The 11-man team will be on all bands and modes and try to get to some lighthouses. The ops list: MW0DOL, MI0TMW, MM0DHQ, G8LGC, 2E0NNH, M0RGB, SP3CW and others.

73 Roger
Roger Balister, G3KMA
RSGB IOTA Manager

USA Special event:

We invite all ops to come help the North American QRP CW Club (NAQCC) celebrate its Fourth Anniversary.

How?

By working our special event station N3A which will be active during the whole month of October.

A handsome certificate and/or QSL card is available to everyone who works N3A and requests one or both.

We also have 3 special certificates for the FISTS members who make the most different band QSO's with our N3A stations during the month and in the FISTS and NAQCC sprints.

N3A will be operated from all 10 US call areas with the appropriate portable designator - N3A/1, N3A/2....N3A/0.

All 10 calls will be active in the FISTS sprint on the 11th and our NAQCC sprint on the 14th (15th UTC).

Full details including an operating schedule and how to request the certificate and QSL are on the "N3A Operation" page on the club web site - search "NAQCC" in your favorite search engine, or follow this link to our website (www.arm-tek.net/~yoel/main_n3a.html).

Join us in celebrating our Fourth Anniversary, share the fun and earn a few certificates and special QSLs!

This is also a good opportunity to join NAQCC. Lifetime membership is free and you will receive your membership number, membership certificate and starter kit FREE! No cost or obligation on your part.

73,
Tom, WY3H (NAQCC President)
John, K3WWP (NAQCC VP)

SWITZERLAND

Hi All Castle Friends,
For the DCS-SSD SWISS CASTLES AWARD:

I receive from Josef HB9CIC his plans for the activation of the Munot Castle :

Reference DCS-SH008 - Schloss Munot - Schaffhausen
Date Tuesday 14th October and Wednesday 15th October 2008
Zeit 16.00-18.00 UTC (18.00-20.00 local time)
QRG 7.080 Mhz ? QRM
Mode SSB
Call HB9CIC
Rig YAESU FT1000MP MkV, 200W, 2x37m Dipol

He is resident near the Castle, and this will be his first activation for the DCS .
We welcome Josef HB9CIC and wish him to have fun and a big success.

Best Castles to you all

7632. RAC WINTER 2009 CALL BOOK CD

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-06 14:50:55 UTC
From: K1XN
Topic: 7632 Message: 7632

Hi folks,
This message is for those of you that have not been added to
the November/December 2008 release of the Winter 2009 RAC
Ca;; Bppl cd/
I have a list started for those of you that desire to have the
Winter 2009 RAC call book. I need your call sign and email address
so I can notify you when it is time to send your payment in to me.
I will be writing invoices during the first weeks of November. I expect
delivery of the cds to me in late November and as always, I will start
mailing them out the day after delivery.
If you have not joined the pre sell list, now is the time to do so.
You may also use the secure web order form for the Winter 2009
issue. Remember if you pay via US BANK or Money Order, you
receive an additional $3.00 discount per cd. No additional discounts
for credit cards or PayPal due to the increase in their charge back to
me.
John K1XN

The callsign ON50WAASLAND will be used by member of the UBA Section Waasland (WLD) to celebrate the radio club's 50 anniversary. A QSO count for 10 point for the WLD Award. Make two QSO's on two different band or two different modes with ON50WAASLAND and you can apply for the WLD Award. Rules and information on our web http://www.wld.uba.be/. This beautiful multi-colored A4 format award contains all the armorial bearings off the different regional communities. QSL via ON6WL UBA Buro.

7640. DESECHEO, YN, Shetland Isl., D4, Strange Radio Team

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-07 07:04:43 UTC
From: F5nql@aol.com
Topic: 7640 Message: 7640

Press release:
Desecheo Island DXpedition The Caribbean National Wildlife
Refuge Complex has selected and announced a team of operators to activate
Desecheo Island (KP5) sometime between January 15, 2009 and March
30, 2009.
The Team will be co-led by Dr. Glenn Johnson, WØGJ and Bob Allphin,
K4UEE.
Background:
On June 30, 2008, the Caribbean National Wildlife Refuge office in Puerto
Rico sent a letter to persons that had previously made inquiries about an
Amateur Radio operation from Desecheo.
They announced their decision to allow one group to activate the island and
invited proposals that must adhere to strict guidelines and criteria.
Applicant’s
had 45 days to prepare and submit their proposals.
CNWR received seven written proposals.
A panel of three Fish and Wildlife Service employees, from areas within
the Service outside of the Caribbean refuge, spent September 24 & 25
reviewing
and evaluating the proposals.
The selection criteria used were those outlined in the proposal invitation
letter.
Points were awarded for how well criteria were addressed for thoroughness
and documentation.
The proposal with the highest ranking was submitted by team leaders Dr.
Glenn Johnson, WØGJ, and Bob Allphin, K4UEE. Their plan involves a
team of fifteen operators for a 14-day operation.
USFWS has not announced the actual dates of the operation yet, but the
DXpedition is expected to take place between January 15, 2009 and March
30, 2009. A Special Use Permit (SUP) will be issued as per USFWS regulations.

Oragnizers expect to provide at least a 30 day notice before ops. begin.

For this event :
Hi , dear Friends,
For the next Strange Radio Event, 17..19 October 2008, I will be on the air with the special callsign I I 2 S R T / 6 from JN62WM ; it is a country house on a good position high on a hill, but sorrily I will not have beams .. I will rely on a 18AVT from HiGain and hope to be able to erect a 160 - 80m dipole too. The station will be equipped with my old one: IC746 IC2KL and AT500, plus an IC7000 .
It will be a single operator operation, I'll be there from 16th October to 20th October . As you know the SRE will be held only in Phone mode. Being a special Call Station, I'll be allowed to operate all bands, so I'll do 160 to 6 m if propagation allows me. I wish we will have a good propagation, good weather and no qrm, and more , no storms.
I hope to meet you on the air, and wish you all the best DX on this Event.
73 de Augusto

Bonjour à tous
Communiqué de presse
Expédition sur la réserve de la faune sauvage des Caraïbes à Desecheo :
La direction du refuge a sélectionné et publié la liste des opérateurs de l’ équipe autorisée à organiser l’expédition de l’île Desecheo (KP5) qui se tiendra impérativement entre le 15 janvier et le 30 mars 2009.

L’équipe sera co-dirigée par le Dr. Glenn Johnson, WØGJ et Bob Allphin,K4UEE.

Historique (résumé)
En regard des demandes et contrôles effectués depuis juin 2008 la direction a utorisé une seule expédition et soumis le cahier des charges.
C’est la proposition, W0GJ et K4EE qui a été retenue.
Il y aura quinze opérateurs pendant 15 jours.
Il y aura un permis spécial délivré par le USFWS . Les organisateurs espèrent publier une première note d’information 30 jours avant le début de l’ opération.

73, de harry, W6DXO
Merci Bernie, W3UR

NICARAGUA
Fernando EA1BT opère toutes bandes mais insistance sur 20 et 17 m jusqu’au 12 octobre 2008.
Indicatif ; YN2BT .
Il est actif depuis le QTH de Octavio YN2N.
Merci Javier - LU5FF

SWITZERLAND
Hi dear Castle's Friends,
I receive from Joseph HB9VAA and Michel HB9DLO :
On the next Sunday, the 12nd of October 2008, the Club Station HB9G, ("club de radioamateurs, section genevoise de l'USKA", see here : _http://www.hb9g.ch/_ (http://www.hb9g.ch/)) will activate the 1st castle of the Canton GEneva.
The Reference will be DCS-GE016, Ch?teau de Laconnex ; the operation is planned from 08:00 UTC to 11:00 UTC, or 10:00-13:00 local time; the band will be 40m , phone only .
Many operators of the Radio Club Geneva will be there, as it is intended more as having fun together than a contest, and we wish that the weather, propagation, and all will make a nice day for all there and on the air hunting them.
The QSO with this station will be valid for the DCS-SSD Swiss Castles Award (_http://castles.ham-radio.ch_ (http://castles.ham-radio.ch/)) and for the DCSR Dipl. des Ch?teaux de la Suisse Romande (_http://www.sfca-dcsr.ch/_ (http://www.sfca-dcsr.ch/))

and , of course, this will be also valid for the Canton GE of the H26 USKA Award, see here _http://www.uska.ch_ (http://www.uska.ch/) .
Have fun !

Hi folks,
Please do not send payment for the Winter Call book right now.
I will ask for payment during the first week of November.
Those of you that plan to use your credit card, you can send me
the last 4 digits, expiration date and 3 digit security code and I will
update you credit card in my files. Then all will be set for invoicing
in November. Those that wish to use PayPal in November, this
is my PayPal account (golist@...).
I will send an announcement via this reflector when I am ready to
take payments. I will send my order to Germany based upon the list
I have.
Thanks to all of you for your orders.

7646. Fall Sprint

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-07 20:45:29 UTC
From: K1XN
Topic: 7646 Message: 7646

The Fall Sprint is Saturday Oct 11, 1700Z - 2100Z.

John Shannon, K3WWP, our QRP columnist in the Keynote has a QRP Club (the NAQCC) which is celebrating its 4th anniversary this month. Members of this QRP club will be operating using the callsign N3A/(call area). If you work them during our Sprint, they will be worth a 5 point BONUS.

Since the NAQCC has a FISTS number, these contacts will be worth the regular 5 points and totalled in your score as a normal Sprint contact.

After you total your score (contacts x multipliers) - add on 5 points for each N3A/X contact (one call per band - for example, you can count working N3A/4 and N3A/8 on 40 meters as 5 bonus points each. But if you work them again on 20 meters, you can count another 5 bonus points each).

These bonus points are only good for the Sprint and NOT toward any FISTS Awards like the Century Award, etc.

The NAQCC will be offering certificates for working N3A stations throughout the month (see below).

Remember, the NAQCC is a QRP club, so you may have to do some listening to pull them out!

The NAQCC is issuing three special certificates to FISTS members:

1. To the FISTS member who makes the most band QSO's with N3A stations during the FISTS sprint on the 11th.
2. To the FISTS member who makes the most N3A band QSO's in the NAQCC sprint on the 15th (UTC).
3. To the FISTS member who makes the most band QSO's with N3A stations during the entire month (including those from both sprints).

A band QSO means working N3A on a specific band, i.e. working N3A/3 on 80, then 40, and also N3A/4 on 40 and 30 counts as 4 band QSO's towards the certificate. Only one specific band QSO may be counted, i.e working N3A/3 twice on 80 only counts as one band QSO. In case of ties, duplicate certificates will be awarded.

FISTS members should send their info on the QSO's as in the following example, being sure to mention which of the three certificates the info applies to. You may submit up to 3 sets of info, one for each certificate:

example:
K3WWP 10 QSO's in the FISTS Sprint:
80 - N3A/2, N3A/3
40 - N3A/1, N3A/3, N3A/4, N3A/5
20 - N3A/4, N3A/5, N3A/7

15 - N3A/6

This info should be emailed to NAQCC33@... before November 10th at 2400Z or postal mail to Thomas Mitchell WY3H, 210 Garretts Run Rd. Kittanning, PA 16201.

Have fun and hope to see you in the Sprint!

PS: The Keynote is in the postal mail system. Hope you get it before the Sprint, but I'm not holding my breath.

Dear Castles Friends,

I receive from HB9DLO and HB9ICJ the notice of a new activation.

DCS-VD019 is planned for next Saturday 11th of October, 2008, at 11:00 to 15:00 UTC, on 40m , modes SSB and CW , from the Reference DCS-VD019 Chateau COPPET , loc. JN36ch , the town name is COPPET, and the Castle is near the Coppet Rail Station and the lake of Geneve, Lac Leman.
The callsign will be HB9HI, Station of the Radio Club " Association des Radioamateurs de la Cote "

I do not know yet if it will be possible to pass also a reference for the Swiss Lakes Award, WASL-VD001 , it is to them, and also depends from where they will place the station.

I wish all the best for this new activation , the 3rd of this Radio Club, that begins to be very good active!
Congrats to HB9HI then and to all his crew.

7649. RAC : NEW PRICING POLICY

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-08 09:25:15 UTC
From: K1XN
Topic: 7649 Message: 7649

Hi folks,
After giving the pricing policy for RAC call book, I have decided to return
to the policy I prefer. Starting with the Winter 2009 call book, this is the pricing
policy that will be followed.
Normal discount pricing from the Golist: $40.50 with Free shipping in USA
$5.00 per cd to a non USA address

Discounted pricing for Golist subscribers at the time of release.....$37.50 with
Free shipping to USA. $5.00 per cd to a non USA address

It is not your fault that increases in fees for credit card and
PayPal are now in place.
If you are a paid Golist subscriber at the time of the call book release you will have
the additional discount. There is NO PENALTY for using PayPal or your credit card.
I still prefer a US check or money order.
I apologize for the flip-flopping on this (politics in driving me insane) but penalizing
my users just did not feel right.
Payment in pennies or in gold, check or credit card, you will receive the extra $3.00
discount just because you are a Golist subscriber.
I appreciate you staying with me during this down period on the DX bands.
John K1XN

7656. DX Special Bulletin No. 878.2

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-08 23:57:19 UTC
From: K1XN
Topic: 7656 Message: 7656

The Ohio/Penn DX PacketCluster
DX Special Bulletin No. 878.2
BID: $OPDX.878.2
October 8, 2008
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network and VU2MY for the following DX information.

VU4, ANDAMAN & NICOBAR ISLANDS
VU7, LAKSHADWEEP ISLANDS. OPDX received the following press releases from our friends at the NIAR in India.

Release #1

(Edited)

Dear Friends,
Greetings to the Ham world from India ! ! !

It gives me a great pleasure in informing you that VU4 and VU7 will be activated again this year as part of NIAR Silver Jubilee Celebrations in October 2008.

The necessary clearances have been obtained; the formal permission letter for VU4 and VU7 activity will be issued shortly. The callsigns will be VU4MY, VU4RG, VU7NRO & VU7SJ.

I would like to thank all the applicants who have supported us and joined hands to strengthen amateur radio activity in India. The VU4 and VU7 will be activated by teams of Foreign and Indian amateur radio operators. Names and other operational details will be given by the respective teams.

We profoundly thank the all the concerned government agencies like the Ministry of Defence, Home Affairs and External Affairs as well as the Ministry of Communications and Information Technology for their continuous support to amateur radio activity in the country.

It is the third time for three years in a row that the Government of India has extended its full support to foreign and Indian radio amateurs to operate their amateur radio stations from remote Islands of Andamans and Lakshadweep. The simultaneous amateur radio activity from these two Islands is a path breaking achievement for NIAR during the year of Silver Jubilee.

We wish all hams to join us to support our vision and mission to strengthen amateur radio promotion in India.

Look forward to meet you on the band.

Thanking you.
With Regards,
S.Suri, VU2MY
Founder & Chairman, NIAR Web site: www.niar.org

7657. East Ship Island, Mississippi

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-09 12:44:37 UTC
From: K1XN
Topic: 7657 Message: 7657

Approximately 15 members of the Magnolia DX Association, Inc., will activate East Ship Island, Mississippi during the period October 16 - 19, 2008. The callsign K5S will be used during the entire 4-day period, plus the callsign K5Z will be added during the last 2 days as an entry in the W/VE US Islands QSO Party. East Ship Island qualifies for IOTA NA-082, US Islands MS009, & Lighthouse USA-756.

Please visit the official web site at http://www.k5s-na082.com/ to learn all about this exciting event. We look forward to putting your callsign in the log on all available bands/modes...10 thru 80m, CW, SSB, & RTTY!

*/Glenn/**
Thank You,
73 - K2FF*

7658. QSL INFORMATION

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-09 15:51:31 UTC
From: K1XN
Topic: 690 Message: 7658

Hi folks,
I received a large batch of responses from Qsl Managers this week
updating their information. I just uploaded all this info to the Golist
database
on the web site. This info will also be in the weekly data files for
your computer.
I will upload that work this afternoon.
Glad that responses from the managers has started to come in once again.
Thanks to all the managers that have sent me their updates on the
stations they
manage.
John K1XN

7659. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-09 19:42:53 UTC
From: K1XN
Topic: 5889 Message: 7659

The /*OCTOBER */*/2008 /**Issue #810-B* files have been uploaded to the
Golist web site.
The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file. I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
/*Now is a good time to send in your RENEWAL to GoWin *//*
if your subscription is about to expire.*/
*

7660. ICPO Bulletin (October 09-17, 2008)

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-09 20:55:01 UTC
From: Dave Raycroft
Topic: 7660 Message: 7660

I.C.P.O. Bulletin (October 09-17, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

04/10/2008: Fernando, EA1BT will be active as YN2BT from the QTH of YN2N in Granada, Nicaragua, from October 4-12th with focus on 20 and 17 meters. QSL via EA1BT. [F5NQL]

09/10/2008: Miguel, CT1IUA will be active as 8Q71U (8Q Seven One U) from the Maldives (AS-013) between October 9th and 20th. He will spend his honeymoon on Kuredu Island and he plans to operate holiday style on 80-10 meter SSB and CW. QSL via home call. [425 DX News]

09/10/2008: Graham, G4JZF reports that a group of operators will once again be active from Lundy Island (EU-120) from October 9th to 16th. Main station will be GB4LI in the Old Light (ARLHS ENG-073, BARLS A5617X, WLH G-015, WLOTA 1997), as before, other portable stations will be active during the weekend. Around mid day October 11th they will activate the Lundy Island North lighthouse (ARLHS ENG-074, BARLS A5616, WLH G-014, WLOTA 1997). Rat Island Sunday 12th around 9:00am (BST) Pier Light after Rat Island about 11:00 am, both have to be at low tide. Around 1:00pm October 12th they will activate the Lundy Island Southeast lighthouse (ARLHS ENG-075, BARLS A5618, WLH G-016, WLOTA 1997). More information can be found at www.daverogersbass.spaces.live.com/ [G4JZF]

09/10/2008: Operators Markus/DJ7EO, Heye/DJ9RR, Chris/DL1MGB, Dietmar/DL3DXX, Tom/DL5LYM, Ben/DL6FBL, Dieter/DL8OH, Robert/SP5XVY and Joerg/DL8WPX plan to be QRV October 9-27th as VK9DWX from Willis Island (OC-007). QRV with four high power stations in CW/SSB/RTTY on 160m-6m. Antennas will be vertical antennas on all bands, with arrays from 80-10m. QSL via DJ2MX. Further information and updates can be found at: www.vk9dwx.de/ [DXNL]

10/10/2008: Wojtek, SQ4MP will be active as MJ/SQ4MP from Jersey (EU-013, WLOTA LH-0818) from October 10-13th. He will operate CW, SSB and RTTY on 160-10 meters, with an emphasis on 160, 17, 12 and 10 meters. QSL via SQ4MP, direct or bureau. His log will be uploaded to LoTW. [425 DX News]

10/10/2008: Jovica, E78A (aka 6W1SJ, ex. T98A, ST0RM, ST2A) will be QRV from Chad as TT8JT from October 10-18th. As Jovica travels to Chad for work, activity (mostly CW on 40, 30 and 20m) on the bands will be during his free time. QSL via E73Y: Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina, or via the bureau. [E73Y]

10/10/2008: Sei/JA7LU and Yohji/JH1AWN will be active as V73LU and V73WN from Majuro Island (OC-029), Marshall Islands, October 10-13th. They plan to operate SSB on 40-10 meters. QSL via home calls, direct or via the JARL bureau. [425 DX News]

11/10/2008: Paul, 2E1EUB, will be active as 2M1EUB from October 11-21st. Activity will be on all the satellites from northeast and northwest Scotland (EU-005, WLOTA LH-1234). Checkout QRZ.com under 2M1EUB for more info. Satellite activity QSL QRZ.com. [OPDX Bulletin]

11/10/2008: Philippe, F5MSB will be active October 11th as homecall/p fro the Castle and old Mill of Courrensan (DFCF 32-111 and DMF 32-031), located in the commune of Courrensan (CP 32330). QSL via home call, direct or bureau. [Radioamateur.org]

11/10/2008: Look for HB9HI to be active October 11th from the Castle Coppet (reference DCS-VD019, WW Loc. JN36CH), located near the Coppet Rail Station and Lac Leman [Lake Leman] (VD001 for the Swiss Lakes Award). QSL via QRZ.com. [HB9TZA]

11/10/2008: Look for operators RN1CR/P (Igor), RN1CX/P (Kostja), UA1CCO/P (Andrey), RA1AR/P (Oleg) and RK1AW/P (Mikhail) November 11-12th to activate the Ivangorod Fortress (reference RC-025, for the Russian Castles Award). QRV 20, 40 and 80 meters using SSB and CW. QSL via home calls, direct or by the bureau. [HB9TZA]

11/10/2008: The York Radio Club, W9PCS will be active from Lawrence Park Island (USi IL-038, Not IOTA) on October 11th. They will have 2 stations operating on 20 and 40 meters simultaneously. SSB and some PSK as time permits. QSL via QRZ.com. [USi]

12/10/2008: Andrew, G7COD will be operational for the fifth time from the Island of Embudu in the Kaafu Atoll, Maldive Islands (AS-013) using the call 8Q7AK from 0800 UTC October 12th to 0800 UTC October 25th. Using SSB and CW, he will be operational every day from approximately 0730 to 0830, 0900 to 1030, 1300 to 1500 and 1730 to 1745 UTC. Spot frequencies to be used are: SSB - 7.063, 14.147, 18.133, 21.253 and 24.953 MHz +/- 10KHz to allow for QRM; CW - 7.003, 10.103, 14.003, 18.073, 21.003 and 24.893 MHz +/- to allow for QRM. For comprehensive details of operating times, spot frequencies, QSL information etc., please check 8Q7AK on QRZ.com. All QSL's should be sent via the bureau or direct to G7COD. Please note: 8Q7AK is approved for DXCC credits. [Pete's-DX-Newsdesk]

12/10/2008: The Club Station HB9G will activate the 1st castle of the Canton Geneva on October 12th. The Reference will be DCS-GE016, Ch?teau de Laconnex; the operation is planned from 0800 UTC to 1100 UTC, or 1000-1300 local time; the band will be 40m, phone only. A QSO with this station will be valid for the DCS-SSD Swiss Castles Award (castles.ham-radio.ch/) and for the DCSR Diploma des Ch?teaux de la Suisse Romande (www.sfca-dcsr.ch/) and, of course, this will be also valid for the Canton GE of the H26 USKA Award (www.uska.ch/). [HB9TZA]

12/10/2008: The Radio Club de Binche, ON7RY will be active October 12th from the Castle Marie de Hongrie (BCA reference HT-051), province of Hainaut, Belgium. QRV on 7Mhz from 0700 - 1300 UTC. There will be a special QSL to commemorate this event. QSL via the bureau. [ON9CDR]

12/10/2008: Look for Toshi, JA8BMK to be active from Banaba Island (OC-018) as T33ZZ from October 12-23rd. QRV all bands using CW, SSB, RTTY, BPSK31 and SSTV. Equipment: FT-897D and HL-1.2Kfx. Antenna/Vert, yagi and Inv V. QSL via home call, direct only. [NG3K]

13/10/2008: Andre, ON7YK will once again be active as C56YK from Kerr Serign, The Gambia, between October 13th and November 9th. QRV on 80-10m, perhaps also 160m, using SSB and PSK31 with 100 Watts. Spiderbeam for 20/17/15/12/10m, dipole for 80/40/30m. Holiday style operation. Further information at: www.on7yk.net/ [NG3K]

14/10/2008: Josef, HB9CIC/p will activate the Munot Castle (reference DCS-SH008), Schloss Munot, Schaffhausen, on October 14th and 15th for the Swiss Castles Award. Activity will be from 1600-1800 UTC, both days, on 7.080 MHz (+/- QRM) SSB using FT1000MP MkV, 200W, 2x37m dipole. QSL via home call. [HB9TZA]

14/10/2008: Anci, JA2ZL and his XYL will be coming to Funafuti Island, Tuvalu Islands (T2, OC-015) for family vacation between October 14-21st. Anci operates 80m - 12(10)m CW, SSB. RTTY and SSTV. He will use a small (500W) amplifier, loop antennas and vertical antennas. Call sign will be issued after entering the country. QSL direct to JA2ZL (Anci Yamada, 17-8-2 Takiro-cho, Tazimi, 507-0813 Japan) or JARL bureau. No e-QSL! [NG3K]

15/10/2008: Members of the Spanish DX 4 DX TEAM will be in The Gambia (C5) from October 15-23rd. Activity will be on the HF bands and 6 meters using SSB, CW and RTTY using the call sign C56EA. Team members include Paco/EA4BT, Ramon/EA4NA, Emilio/EA7AAW, Julio/EA7JB, Salvador/EA7SB and Jose/EA7LS. QSL via EA4BT either direct to EA4BT, Apartado Postal 1315, 28800 Alcal de Henares (Madrid), SPAIN or via the bureau. Further information at www.dx4dx.com/ [MMMonVHF]

15/10/2008: Adrian, AA5UK, will be active as EA6/AA5UK from Isla de Ibiza (IOTA EU-001, DIE E-023, MIA MB-003, WLOTA LH-0958, WW Loc. JM09TB), October 15-29th. Activity will be holiday style on 160-10 meters using mostly SSB, RTTY, PSK31, SSTV, JT65A and WSPR. Look for satellite activity on AO51. He will also be active during CQ WW DX SSB Contest (October 25-26th). QSL via his home call sign, by the bureau, LoTW or eQSL. [OPDX Bulletin]

16/10/2008: Bill, WB5ZAM plans to be active as J68WI from the island of St Lucia (NA-108, also count for WLOTA LH-1336) between October 16-30th. Bill says "no contesting but plan to be as active as the bands allow. HF 30-10m and 6m if open. No low bands". QSL via home call. [NG3K]

16/10/2008: Approximately 12 members of the Magnolia DX Association, Inc., will activate East Ship Island (IOTA NA-082, USi MS-009, Harrison

County), Mississippi, and lighthouse (WLOL USA-756, WLOTA LH-1160, USCG 4-0337, WW Loc. EM50ME) during the period of October 16-19th. The call sign K5S will be used during the entire 4-day period, plus the call sign K5Z will be added during the last 2 days as an entry in the W/VE Islands QSO Party (October 18-19th). Activity will be on 80-10 meters, using CW, SSB and RTTY. QSL via W5UE direct, or bureau. Logs will also be uploaded to LoTW. Further information can be found at www.k5s-na082.com/ [K1XN]

16/10/2008: Kiyoshi/JA7RPC and Masahiro/JF7RKV will be active as T88RP and T88SB, respectively, from the rental shack on Koror Island, Palau Islands (OC-009) from October 16-20th. Look for them to be QRV 80-10m on CW and SSB. QSL via home calls, direct or bureau. [NG3K]

16/10/2008: Joe/W8GEX, Joe/AA4NN, Janet/W8CAA, Jay/K4ZLE and Jim/K0RH will be active as TO5DX from Saint Barthelemy Island (NA-146, DIFO FJ-001, WLOTA LH-0377) from October 16-28th, including a Multi-Single entry in the CQWW DX SSB Contest (October 25-26th). They plan to have three stations, on all HF bands, SSB and CW. QSL via K4TZZ. [NG3K]

17/10/2008: David, GI4FUM (EI4DJ) will be operating from Hawane Resort, near Malolotja National Park, Swaziland, as 3DA0DJ from October 17-27th. He was a member of the IRTS DXpedition to Swaziland in March 2007; this year he will be with Daniel, ZS6JR and they will be using the same equipment and antennas that were used for the CQ WPX SSB operation last year (3DA0EI). David and Daniel will also operate as 3DA0SS (Swazi Scouts) for the annual Jamboree On The Air (October 18-19th). Activity will be on all HF bands SSB. [425 DX News]

==========

LOOKING AHEAD -

18/10/2008: The W4USI Club Station will be QRV October 18-19th from (still undecided) St. Simons Island (NA-058, USi GA-003S) and Lighthouse (ARLHS USA-805, WLH K-158, WLOTA LH-4115), State of Georgia or Amelia Island (NA-138, USi FL-032S, WLOTA LH-3048), State of Florida or Andrews Island (USi GA-020R, Not IOTA), State of Georgia. Further information should be available before the start date. QSL W4USI via the information on QRZ.com. [USi]

23/10/2008: Retu, XU7MDY will be QRV once again from Sihanoukville, Cambodia, between October 23rd and November 8th. CW activities are planned on following frequencies: 1822, 3502, 7006, 10104, 14007, 21007, 24897 and 28020 kHz. QRV on 6m also. QSLs only direct via OH4MDY. [NG3K]

25/10/2008: Tom, W2SC will be QRV as 8P5A from the Warleigh Plantation contest station, Barbados (NA-021, WLOTA LH-0999) for the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band/High-Power entry. QSL via NN1N. [NG3K]

25/10/2008: Kuny/W1FPU and Hajime/AH0BR will be active from the Aquarius Beach Tower Contest Club, Saipan Island, Northern Mariana Island (OC-086) as AH0BT during the CQWW DX SSB Contest as a Multi-Single entry. QSL via 7L1FPU, direct or bureau. [NG3K]

25/10/2008: Operators Dale/BA4TB, Mi/BG4TQX, Ni/BG4TDR, Zhou/BG4TYQ, Meng/BG4TTM and others will be active from Wuxi, China, as B4TB during the CQWW DX SSB Contest (October 25-26th), as a Multi-Single entry. QSL via BA4TB, direct or bureau. [NG3K]

25/10/2008: Operators BA7JC, BA7IN, BA7IA, BA7JA, BD7IXG, BD7MFB, BG7PMS and BD7JSQ will be active from Foshan city (WW Loc. OL63NA), China, for the CQWW DX SSB Contest as a Multi-Single entry. QSL via BD7IXG, direct or bureau. [NG3K]

25/10/2008: The Madeira Contest Team will be active as CQ9K from Funchal, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053) for the CQWW DX SSB Contest (October 25-26th), as a Multi-? entry. Team members include CT3BD, CT3DL, CT3DZ, CT3EE, CT3EN, CT3IA, CT3KU, CT3KY and CT3NT. QSL via the information at QRZ.com. [NG3K]

25/10/2008: Ted, HI3TEJ will be active from the Dominican Republic (NA-096, WLOTA LH-2974) as HI3T during the CQWW DX SSB Contest as a Single-Op/All-Band/Low-Power entry. Notes: Rig FT2000, FT950, 4L Steppir, 40 dipole, 80 and 160 vertical, EWE ON LOW BAND. QSL direct to ON4IQ. [NG3K]

25/10/2008: Look for HQ2W to be active from Honduras in the CQWW DX SSB Contest on all bands as a Multi/Two entry. Operators mentioned are Dan/HR2DMR, Pete/HR2PAC and Tony/HR2DX. QSL information will be on QRZ.com. [K1XN]

25/10/2008: Operators JT1BV, JT1BS, JT1BZ, JT1CH, JT1DR, JT1CJ and JT1CZ will be active from Mongolia (Zone 23) as JU1DX during the CQWW DX SSB Contest (October 25-26th), as a Multi-Single entry. QSL via the information at QRZ.com. [NG3K]

25/10/2008: Look for Joel, KG6DX to be active from Latte Heights, Guam (OC-026m USi GU-003S, WLOTA LH-0064) for the CQWW DX SSB Contest as a Single-Op/All-Band entry. QSL direct to KG6DX or via LoTW. [NG3K]

25/10/2008: Philippe, LX2A will be active from Eschdorf, Luxembourg, as LX7I during the CQ WW DX SSB Contest as a Single-Op/All-Band/High-Power entry. Logs will be uploaded to LoTW. QSL via LX2A. [NG3K]

25/10/2008: Operators Serge/RA9AA, Andrei/RZ9AR, Ilya/RZ9AW and Yuri/UA9APA will be active from Chelyabinsk, Asiatic Russia as RA9A during the CQWW DX SSB Contest (October 25-26th), as a Multi-Op/Single-TX entry. QSL via RK9AWN. [NG3K]

25/10/2008: Look for Ray/KC5EA and Gordon/N5AU to be QRV from the VP2EC super-station, Shoal Bay, island of Anguilla (NA-022) during the CQWW DX SSB Contest (October 25-26th) as a Multi-2 entry. QRV all bands except 20m for the multiplier. QSL via N5AU. [NG3K]

25/10/2008: Look for Larry, XW1A to be QRV from Vientiane, Laos, for the CQWW DX SSB Contest (October 25-26th), as a Single-Op/All-Band entry. QSL via E21EIC, direct or bureau. [NG3K]

08/11/2008: Operators Kuny/W1FPU, Masashi/KH0TL and Hajime/AH0BR will be active as AH0BT from the Aquarius Beach Tower Contest Club, Saipan Island, Northern Mariana Islands (OC-086) for the Japan Intn'l DX Phone contest (November 8-9th) as a Multi-Single entry. QSL via 7L1FPU, direct or bureau. [NG3K]

08/11/2008: Operators W6LJ, K6Y (QSL via JA1OZK), JA1CGC, JF1TAB, JH1FUD, JL1LOW, JK1DRM and 7N1AZY will be active from Guam Island (OC-026, USi GU-003S, WLOTA LH-0064) between November 8th and 12th. They will use K6Y 1x1 call sign and also KH2/homecall. QRV HF bands including WARC using SSB, CW and digital modes. They will not participate in a contest. QSL via the bureau to each home call sign or direct to each call book address. [NG3K]

20/11/2008: Toshi, JA8BMK plans to be active from Kanton Island, Central Kiribati (OC-043) from approximately November 20-30th. QRV all bands using CW, SSB, RTTY, BPSK31 and SSTV. Equipment: FT-897D and HL-1.2Kfx. Antenna/Vert, yagi and Inv V. QSL via home call, direct only. [NG3K]

25/11/2008: The SK6M Contest Team will operate the 2008 CQWW CW Contest (November 29-30th) from the contest station "Sapo Loco", located in Nobol, Guayas, Ecuador, as a Multi/Multi entry. Operators mentioned are Al/HC2SL, Fredy/SM6FKF, Bjorn/SM6LJU, Mats/SM7BUA and Jan/SM7NDX. The team will be QRV November 25-30th and will use HC2/homecall with focus on low band CW, WARC and RTTY before the contest. QSL via home calls. QSL HD2M via SM6FKF. Further info can be found at www.sk6m.com/hc.html [NG3K]

29/11/2008: Operators JT1BV, JT1BS, JT1BZ, JT1CH, JT1DR, JT1CJ and JT1CZ will be active from Mongolia (Zone 23) as JU1DX during the CQWW DX CW Contest (November 29-30th), as a Multi-Single entry. QSL via the info at QRZ.com. [NG3K]

29/11/2008: Look for Ilya/RZ9AW, Andrei/RZ9AR, Yuri/UA9APA and Serge/RA9AA to be active as RA9A from the club station located in Chelyabinsk, Asiatic Russia, during the CQWW DX CW Contest (November 29-30th), as a Multi-Single entry. QSL via RK9AWN. [NG3K]

28/03/2009: Larry, XW1A plans to be active from Vientiane, Laos, for the CQWW WPX SSB Contest (March 28-29, 2009), as a Single-Op/All-Band entry. QSL via E21EIC, direct or bureau. [NG3K]

19/06/2009: Dennis, K7BV will return to the island of San Andres (NA-033, WW Loc. EK92DM) June 19-July 5, 2009, as 5J0M concentrating on 6 meter Sporadic Es. HF bands will be activated as well. Equipment will consist of: Yaesu FT-950, Yaesu FT-450AT, ACOM - HF/6 KW, HF - Wire and Vertical, 6M - 7element hand rotateable. He will have a 6M Breakable Beacon 50.106.2 MHz - "CQ de 5J0M 5J0M". WSJT MS Random CQs 1st-50.260 MHz. WSJT EME 1st 50.198.5 MHz. QSL direct to W1JJ via QRZ.COM address. Include self-addressed envelope with return postage stamp/fee. Further information can be found at www.qth.com/k7bv/caribe2009/ [N8OFS]

Press Release # 1----Desecheo KP5----2009
The Caribbean National Wildlife Refuge Complex has selected and announced a team of operators to activate Desecheo Island (KP5) sometime between January 15, 2009 and March 30, 2009. The Team will be co-led by Dr. Glenn Johnson, W?GJ and Bob Allphin, K4UEE.

Background: On June 30, 2008, the Caribbean National Wildlife Refuge office in Puerto Rico sent a letter to persons that had previously made inquiries about an Amateur Radio operation from Desecheo. They announced their decision to allow one group to activate the island and invited proposals that must adhere to strict guidelines and criteria. Applicant's had 45 days to prepare and submit their proposals.

CNWR received seven written proposals. A panel of three Fish and Wildlife Service employees, from areas within the Service outside of the Caribbean refuge, spent September 24 & 25 reviewing and evaluating the proposals. The selection criteria used were those outlined in the proposal invitation letter. Points were awarded for how well criteria were addressed for thoroughness and documentation.

The proposal with the highest ranking was submitted by team leaders Dr. Glenn Johnson, W?GJ, and Bob Allphin, K4UEE.

Their plan involves a team of fifteen operators for a 14-day operation. USFWS has not announced the actual dates of the operation yet, but the DXpedition is expected to take place between January 15, 2009 and March 30, 2009. A Special Use Permit (SUP) will be issued as per USFWS regulations. We expect that the DXpedition team and DXers worldwide will have a minimum of 30 days notice.

A website is being planned and will be announced in the near future.
[OPDX Special Bulletin]

Ohio/Penn DX Special Bulletin No. 878.2
VU4, ANDAMAN & NICOBAR ISLANDS Andaman
VU7, LAKSHADWEEP ISLANDS. OPDX received the following press releases from our friends at the NIAR in India.

Release #1
(Edited)

Dear Friends,
Greetings to the Ham world from India ! ! !

It gives me a great pleasure in informing you that VU4 and VU7 will be activated again this year as part of NIAR Silver Jubilee Celebrations in October 2008.

The necessary clearances have been obtained; the formal permission letter for VU4 and VU7 activity will be issued shortly. The callsigns will be VU4MY, VU4RG, VU7NRO & VU7SJ.

I would like to thank all the applicants who have supported us and joined hands to strengthen amateur radio activity in India. The VU4 and

VU7 will be activated by teams of Foreign and Indian amateur radio operators. Names and other operational details will be given by the respective teams.

We profoundly thank the all the concerned government agencies like the Ministry of Defence, Home Affairs and External Affairs as well as the Ministry of Communications and Information Technology for their continuous support to amateur radio activity in the country.

It is the third time for three years in a row that the Government of India has extended its full support to foreign and Indian radio amateurs to operate their amateur radio stations from remote Islands of Andamans and Lakshadweep. The simultaneous amateur radio activity from these two Islands is a path breaking achievement for NIAR during the year of Silver Jubilee.

We wish all hams to join us to support our vision and mission to strengthen amateur radio promotion in India.

Look forward to meet you on the band.

Thanking you.

Release #2 - DJ7JC and DL5DSM 07th of October 2008
(Edited)

VU4RG - DXpedition from the Andaman Island in October/November 2008

The Silver Jubilee celebrations of the Indian Radio Club (NIAR) at Hyderabad will be during 18-20 October, 2008. There is now the good news about the amateur radio activity after the event from the 24th of October to November 3, 2008. NIAR had informed us today about the successful licenses and operation permits for VU4 or VU7 activations.

There are two callsigns for the VU4-DXpedition:
VU4MY will be the call for the Indian Team.
VU4RG will be the call for the two German HAMs operating with two stations from Port Blair/South Andaman Island (IOTA: AS-001; WLOTA: LH-0562; ITU: 49; WAZ: 26).

The two German operators are:
Helmut, DL5DSM (VU3NLG)
Norbert, DJ7JC (VU3NLF)

Equipment:
DL5DSM: FT857 + KL500 or FL7000
DJ7JC: Elecraft K3 + FL7000

Antennas:
160/80m G5RV
40m Phased Array (2GP's)
30m GP
20-10m 5-Band-Spiderbeam
15m-GP von DX-Wire

Modes:
All modes: CW, SSB, BPSK, RTTY

Allowed Bands:
160M 1820-1860 kHz
80M 3500-3700, 3890-3900 kHz
40M 7000-7100 kHz
30M 10100-10150 kHz
20M 14000-14350 kHz
17M 18.068-18168 kHz
15M 21000-21450 kHz
12M 24890-24990 kHz
10M 28000-29700 kHz

Pay attention to the specific permission for 30m!
We'll publish our working frequencies on QRZ.com under VU4RG

CQWW SSB Contest:
We'll take part at this Contest from the October 25-26th, as VU4RG.

Operating from GOA:
DL5DSM with the Indian call sign VU3NLG and DJ7JC with the Indian call sign VU3NLF will be on the air from GOA between the 6th up to the 14th of November.

VK9DWX Dxpedition
News #9 - 03.10.2008
News from down under
Here the latest news from Cairns:

Today we got the really good news: Our ocean freight arrived in Brisbane and has been cleared by quarantine and customs in Brisbane. Now it is on another truck again and on its way to Cairns, where we will await it by Sunday evening. We expect it to be delivered directly to the harbour, where the MV Floreat is situated. So we keep our fingers crossed, that everything runs in time and we will not experience any further setbacks.

We finished more or less all additional purchases and stored them in the DXpedition's mini-warehouse.

Today the fourth man of the crew arrived in Cairns. We all went to the airport and welcomed Robert, SP5XVY, who now joins us in our preparations. We also made a walk to the Marina, introduced Robert to skipper Marcus and visited the MV Floreat, who is just about to be prepared for her trip to Willis Island. Several drums for fuel were already placed on the deck and the ship is ready to take our cargo either on Sunday or on Monday.

Good news is also that the rough weather calms down. It stopped raining and the heavy winds dropped considerably. The skipper expects much better weather in the next few days, so we might have a good chance for a relatively comfortable boat ride to Willis Island.

We expect the rest of the crew at Monday noon (local time) to arrive in Cairns to complete the VK9DWX DXpedition team then.

We are also going to set up a radio on the MV Floreat during our short trip and become QRV on 20m as "op callsign"/MM.

If you like to have fun with us during the Strange Radio Event, please take note of the following rules:

1- Date: from 06.00 GMT of 17 October to 22.00 GMT of 19 October 2008.

2- To obtain the Strange Radio Event Certificate you need contacts with 5 different S.R.T. Special Calls.

3- Mode: SSB only.

4- Plates to: 1st European OM; 1st station Outside Europe, 1st S.R.T. Special Call and 1st SWL.
Prizes will be given during the 6th International DX Convention, Salerno 2009, or shipped later.

5- You will be informed about the S.R.T. special callsigns through the normal channels magazines and WEB.

6- Logs: to achieve the Strange Radio Event Certificate, logs have to be sent within November 30, 2008. The cost is 10 Euros or 15 $ that have to

be sent to the Event Manager:
IZ7DOK Marco De Carlo, Via degli Orefici 6, 73100 Lecce, Italy.

7- All further info will be included in http://www.strangeradioteam.com
, the Official web site of the Strange Radio Team. If you need any
additional info send an email to: iz7dok@...

For this event:

Hi, dear Friends,

For the next Strange Radio Event, 17..19 October 2008, I will be on the
air with the special callsign II2SRT/6 from JN62WM; it is a country
house on a good position high on a hill, but sorrily I will not have
beams .. I will rely on a 18AVT from HiGain and hope to be able to erect
a 160 - 80m dipole too. The station will be equipped with my old one:
IC746 IC2KL and AT500, plus an IC7000.

It will be a single operator operation, I'll be there from 16th October
to 20th October. As you know the SRE will be held only in Phone mode.
Being a special Call Station, I'll be allowed to operate all bands, so
I'll do 160 to 6m if propagation allows me. I wish we will have a good
propagation, good weather and no qrm, and more, no storms.

I hope to meet you on the air, and wish you all the best DX on this
Event.

Hi friends
TO5DX St. Barthelemy
Joe, W8GEX announced the crew of 6 operators AA4NN, K4SV, W8GEX, W9IXX, K0RH, and W8CAA are ready for their 10 day operation from St. Barths for the CQW SSB contest. They will be a M/S entry in the test as TO5DX and are planning on CW, SSB, SSTV, PSK and RTTY before the test. The team should be active from October 17 to 27. They will try to post the logs daily on the web site at _www.TO5DX.com_ (http://www.to5dx.com/) if they have internet. Thanks to K4SV, our web master.
The crew will be looking hard at the Pacific for VK, ZL and the JA's.

QSL Manager is AA4NN. SASE please to:

JOE L BLACKWELL
6391 BAKER LN
LAKE WYLIE SC 29710

SWITZERLAND
Dear Castles Friends,
I receive from HB9DLO and HB9ICJ the notice of a new activation.
DCS-VD019 is planned for next Saturday 11th of October, 2008, at 11:00 to 15:00 UTC, on 40m , modes SSB and CW , from the Reference DCS-VD019 Chateau COPPET , loc. JN36ch , the town name is COPPET, and the Castle is near the Coppet Rail Station and the lake of Geneve, Lac Leman.
The callsign will be HB9HI, Station of the Radio Club " Association des Radioamateurs de la Cote "
I do not know yet if it will be possible to pass also a reference for the Swiss Lakes Award, WASL-VD001 , it is to them, and also depends from where they will place the station.
I wish all the best for this new activation , the 3rd of this Radio Club, that begins to be very good active!
Congrats to HB9HI then and to all his crew.

MAROC:
_CN89NY QRV du 21.12.08 au 31.01.09 et conférence à l'ARRAM le 27 décembre
2008 à 15h00_ (http://cn2dx.hb9eme.ch/cn2dx-blog/?p=115)
Cette fois c'est officiel lors de mon séjour au Maroc du 21 décembre 2008 au
3 janvier 2009 j'opérerai le call CN89NY (QSL via EA7FTR) qui sera attribué
spécialement pour les fêtes de fin d'année, (8 pour 2008 et 9 pour 2009, NY
pour New Year), nous serons QRV depuis le Beach House avec CN8PA et CN2CV

allias HB9CVC, nous devrions opérer 2 stations en même temps: IC7000 et TS680 avec PA AL811hcxe, antenne windom 160 à 10m avec extension 30 et 15m dirigée Est-Ouest puis antenne G5RV 40 au 10m dirigée Nord-Sud.
D'autres OMs CN opéreront le call depuis différents endroits du Maroc, la liste est encore à définir, CN8PA s'occupera du planning. Le call sera activé jusqu'au 31 janvier 2009.
Le 26 décembre CN8PA, CN2CV, Nourdine et moi-même irons opérer à l'ARRAM sur les différentes bandes avec les beams jusqu'à l'après-midi du 27 décembre, puis le 27 décembre à 15H00 CN2CV et moi-même donnerons une conférence, de mon côté je referais le même type de conférence que le 25 juillet dernier, elle sera basée sur le thème des contests en VHF (équipements multisystèmes, technique de trafic, propagation, etc…) et CN2CV fera une petite conférence sur les balises 1296MHz, 2320MHz et 10GHz HB9EME (principe de fonctionnement, technologie utilisée,etc…)
Nous espérons voir nombreux les OMs CN8 afin d'échanger différentes idées et surtout passer un excellent moment entre amis.
A bientôt inchalah au Maroc 73 de André HB9HLM CN2DX
Merci André, HB9HLM/CN2DX et Gérard, F2JD

INDE

VU4/VU7

De S.Suri, VU2MY
Founder & Chairman, NIAR

Communiqué de presse:

Chers amis
Meilleurs voeux à tous es Rdioamateurs du Monde depuis l'INDE.

C'est avec grand plaisir que des activités depuis VU4 et VU7 se dérouleront de nouveau cette année dans le cadre du Jubilé d'Argent de la NIAR en octobre 2008.

Les formalités sont terminées et les lettres officielles permettant les débarquements en VU4 et VU7 doivent être signées très rapidement.

Les indicatifs attribués sont : VU4MY, VU4RG, VU7NRO & VU7SJ.

Je voudrais remercier tous ceux qui ont apporté leur pierre au développement du radioamateurisme en inde.
Les zones indiennes 4 et 7 seront activées par des opérateurs indiens et étrangers . Les noms et autres détails seront fournis par les responsables d' équipes.

Nos remerciements vont à tous les services gouvernementaux tels les Ministères de la Défense, de l'intérieur et des Affaires étrangères, les Ministères des Techniques d'Information et des Communications, qui continuent à encourager le radioamateurisme dans notre pays.

Pour la troisième fois consécutive, le Gouvernement indien a accordé son plein accord à l'activité des radioamateurs étrangers pendant ces manifestations,

depuis les iles séparées d’Andama et des Laccadives.
Les activités simultanées depuis ces îles un boutissement pour les activités du Jublé d’Argent de la NIAR.

Nous souhaitons que tous les radioamateurs encoragent notre objectif et notre mission de développement du radioamateurisme en Inde.
Espérant vous rencontrer sur les ban,des.

Thanking you.
With Regards,
S.Suri, VU2MY
Founder & Chairman, NIAR Web site: _www.niar.org_ (http://www.niar.org/)

UPDATE -
==========
MOSCOW, October 9 (RIA Novosti) - A two-story building, part of Russia's Progress station in Antarctica, caught fire killing one construction worker and seriously injuring two others, the expedition's head said on Thursday.

Valery Lukin said the fire broke out on Sunday on the station, where 29 people are based, completely destroying the radio equipment, which made it impossible to contact Russian officials about the incident until Thursday.

"All the radio equipment was destroyed. One of the station's construction workers... died, and two others received serious fractures and injuries," Lukin said.

The injured have been taken to a nearby clinic and are receiving the necessary medical treatment. "There is no need for an evacuation due to medical concerns," Russia's Arctic and Antarctic Research Institute said in a statement.

The earliest date that an evacuation could be carried out is early November.

An investigation into the fire is being carried out.

The Progress research station was opened in 1989 and is located in the Larsemann Hills in East Antarctica. The station is around 1.5 kilometers from China's Zhong Shan research station, where the injured Russians are receiving medical treatment.

ARCALA EXTREMES - NEW CONTEST ALLIANCE FROM THE FAR NORTH

The world's northernmost contest alliance is ready with a
mission and team to be part of this year's CQWW SSB battle.
Just this week they will be augmenting their already impressive
firepower
with a 100-meter (330 ft) massive rotating tower going up adorned with a
full-size 3-L 160M beam and 5-L 80M beam which they claim to be
the first of their kind.

This marks the team's latest frantic effort to boost the signal from the
worst propagation region in the world. You can visit them at
http://www.radioarkala.com/

While OH8X will be operated by Marko, OH4JFN, their sister stations
CU2A (Azores Islands) and TC4X (Asian Turkey) will be operated by
Toni, OH2UA and Pertti, OH2PM respectively while OH0E (Aland Islands)
will be manned by Ville, OH2MM and CN2B (Morocco) by Martti,
OH2BH.

Their strategies and categories still remain to some extent on the
drawing
boards.

A series of full-color QSL cards can be obtained as follows:

OH8X via OH2UA
CU2A via OH2BH
TC4X via OH2BH
OH0E via OH2MM
CN2B via OH2BH

The team wish the world's contesters every success in their efforts to
contact Arcala Extremes.

7673. QSL INFORMATION

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-14 18:12:59 UTC
From: K1XN
Topic: 6520 Message: 7673

A while back several of us were having problems with getting a QSL from CO8LY.

I tried again using EA7ADH as the QSL manager (SASE with $2). Within 45 days of my QSO I had the
QSL.

Looks like the problem has been corrected.

7675. RAC WEB ORDER FORM

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-15 11:28:12 UTC
From: K1XN
Topic: 7675 Message: 7675

Hi folks,
I had to make a change to the web order form for
the RAC call book items. There was some confusion,
so I have the RAC listed with the standard discount
price listed ($40.50). Current Golist subscribers will
receive an automatic $3.00 discount from the $40.50
price making it $37.50 for Golisters. Free shipping to
USA addresses and $5.00 shipping everywhere else.
I work qll orders manually and I will check the call sign
against the Golist sub database and then change the
order to give Golisters the additional discount. All payment
methods receive the discount.

7678. This Weekend's Contests

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-16 07:53:29 UTC
From: K1XN
Topic: 7678 Message: 7678

This Weekend's Contests:

1. SNS Slow Speed NA Practice, 0200-0215 UTC Friday (Thurs night local). 80-20M CW. 100W Maximum. 23 WPM maximum. Exchange: Both calls, #, name, SPC. QSY rules.

2. NCCC NA Sprint CW Practice. 0230-0259 UTC Friday (Thursday night local). 160-20M CW, 100W maximum. Same exchange as above.

3. JARTS WW RTTY Contest. 48 hours of weekend UTC. 80-10M RTTY. Exchange: RST + age. Work everyone.

4. Worked All Germany Contest. 15Z Sat to 1459Z Sun. 80-10M, CW/SSB. Exchange: RS(T) + DOK or Serial #. Work German stations only.

5. Stew Perry Top Band Challenge Warm Up Contest. 15Z Sat to 15Z Sun. 160M CW. Maximum 14 hours. Exchange: 4 character grid square.

6. Bill Windle QSO Party. Open to all, but sponsored by FOC. 160-10M CW. Look around 025 on each band. Exchange: RST + Name + FOC # (if applicable). This is a good opportunity to have fun and QSO good CW ops. Anyone interested in membership should be QRV and an invitation to membership could result in the future.

7. W/VE Islands QSO Party. 16Z Sat to 2359Z Sun. 160-6M, CW/Phone/Digital. Exchange: RS(T) + USI or CISA island designation or SPC. Usually only phone activity and not too much of that.

8. 50 mHz Fall Sprint. 23Z Sat - 03Z Sun. 6M any mode. Exchange: 4 character grid squares.

9. Asia - Pacific Fall Sprint CW. 00Z - 02Z Sunday, 15/20M CW. Exchange: RST + serial #. 1 kHz QSY rules. Work only A-P stations. Non A-P stations may run full legal power.

10. Illinois QSO Party. 17Z Sun - 01Z Mon. 160-2M CW/Dig, Phone. Exchange: RS(T) + IL county or SPC.

11. Flying Pigs QRP CW Club Run for the Bacon. 160-10M CW. Exchange: RST + SPC + FP member # or power.

12. QRPARCI Fall QSO Party. 12Z Sat to 24Z Sun. 160-10M CW. 24 hours maximum. Exchange: RST + SPC + QRPARCI # or power.

Hope everyone has a good weekend and a lot of QSOs. I'll work some in WAG and as much as possible in the BWQP. IlQP as time permits and probably fulltime in RFTB. Also, Saturday morning and Sunday some in the QRPARCI Fall Contest. 73, John, K4BAI.

Here our plans:

RL3BM, Mike, and UA4CC, Arkady "Ark", are heading to Phu Quoc Island (AS-128), Vietnam, for a family vacation November 05-13, 2008. Their callsigns will be XV4BM and XV4CC. They plan to be on CW and SSB on 3.5-28 MHz. Plans are to use an IC-7000 and K-2 transceivers running 100 watts only into vertical antennas. For 20 meters they will have a 2 element wire vertical Yagi. This will be not a "full scale" DXpedition, however the two will do their best to be on the air as much as possible.

QSL XV4BM via RL3BM and XV4CC via UA4CC.

73! de Ark UA4CC

7680. YI9WV DX NEWS

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-16 16:06:00 UTC
From: K1XN
Topic: 6971 Message: 7680

I am writing to announce that the YI9WV operation from near Fallujah is now QRT. 'Kitch" Kitchings, YI9WV, operated QRP from April 8, 2008 until October 12, 2008 and made 10,845 contacts. He operated QRP for the first 6 weeks. His first QSO was QRP with SV1FZT on 20 meters, PSK31 on April 8. Upon receiving his 100 watt radio he began operating in earnest on May 18. From May 18 until going QRT on October 12, Kitch made 10,729 additional contacts. Of these QSOs, 99.7% were CW contacts. YI9WV also made 212 PSK31 contacts, 16 SSB contacts, and 10 RTTY contacts. Kitch's final contact was a 20 meter CW QSO with OK2LW at 1600z on October 12^th .

From the time Kitch began operating with 100 watts and a Hi-Q TAD antenna (May 18) he averaged over 91 contacts per day. This is an amazing accomplishment, as Kitch was also supporting the Marines near Fallujah and had a much more important job to do than operate radio.

When he arrived in Iraq, Kitch was unaccustomed to operating split, working a large pileup, or many of the other aspects of operating from a much needed DX spot. His goal upon arrival was to make 4 or 5 thousand contacts. It took only a short while and he was operating as an experienced veteran of DXing. As he would reach one QSO plateau, he would set a new challenge. As his QSL manager, Buzz -- NI5DX, was always encouraging Kitch to set and reach a new mark. Many comments on the DX Cluster and on the QSL cards received by NI5DX bear witness to the fact that he did a superlative job in handing out this rare contact.

NI5DX

All of the YI9WV logs have been emailed to his manager. Those fortunate enough to make a contact with YI9WV should send their card to Buzz -- NI5DX for a prompt reply. Please include a SAE and something for return postage (IRC/$) if outside the USA and a SASE if requesting from stateside.

Buzz

As a veteran QSL manager (since 1986) I am always very proud of the performance of the stations that I handle. I must admit, however, that Kitch's activity has brought an added sense of pride to my QSL managing. To put forth the effort that he did, under the most trying circumstances, is an amazing feat. It is one with which I will always be proud to have been associated.

Hi friends
Jamboree on the Air – JOTA
Members of the Bittern DX Group will be operating a brand new SES callsign
of
GB5FRR from the headquarters of the 1st Rural Roughton Scout Group during
the
Jamboree on the Air (JOTA) weekend.

We will be QRV from the 17th - 19th October and we'll try to operate as
close to
the Scout Frequencies as possible on all bands mostly operating on SSB, but
at
times we will try RTTY BSK 31.

Echolink will be monitored on 2m MB7INN/L (4261) also on 70cm if we can
arrange
a link-up with GB3NU/R (388653) which doesn't usually allow general PC
connections.

IF YOU WOULD LIKE A SKED PLEASE EMAIL US ON THE FOLLOWING;

chairman@bittern-chairman@bch (mailto:chairman@...)

QSL card will follow, with it's design being one of the activities, all
direct
requests will be dealt with by BDXG QSL Manager Dave Edwards, M0CNP and eQSL
will also be used.

We and the Roughton Scouts look forward to hearing from you all.

VIET NAM
RL3BM, Mike, and UA4CC, Arkady "Ark", are heading to Phu Quoc Island (AS-128), Vietnam, for a family vacation November 05-13, 2008. Their callsigns will be XV4BM and XV4CC. They plan to be on CW and SSB on 3.5-28 MHz. Plans are to use an IC-7000 and K-2 transceivers running 100 watts only into vertical antennas. For 20 meters they will have a 2 element wire vertical Yagi. This will be not a "full scale" DXpedition, however the two will do their best to be on the air as much as possible. QSL XV4BM via RL3BM and XV4CC via UA4CC

73! de Ark UA4CC
CANARY Islands (AF-004).:
Begin date: 20081122
End date: 20090203
Submitter's callsign: ON5JV
Callsign(s): EA8/ON5JV & EA8/ON6AK
DXCC entity: Canary Islands
QSL route: Home call
Operators: ON5JV and ON6AK

Notes: EA8, CANARY ISLANDS Operators Jean/ON5JV and Georgette/ON6AK will be active as EA8/homecall from Tijoco Bajo, Tenerife Island IOTA AF-004
from November 22 to February 3, 2009.
Activity will be mainly on 20 and 40 meters during the evening.
QSL via their home callsigns, bureau is preferred.
SENEGAL and GUINEE BISSAU:
So, from 15.11.08 until about 31.03.09 6W2SC and J5UAP QRV again by HA3AUI
QSL via HA3AUI direct or HA Buro.
6W/HC : 160-10m, spiderbeam,verticals,dipoles, 500W
J5/HC : 160-10m, spiderbeam, verticals,dipoles, 100W
for both: mostly digital modes, some ssb, cw on request

73, Peter

TADJIKISTAN News:
From Philippe, EA8/F4EGS:
The QRM news are veery bad . Tha bands suffer quite allmost time S5 to S7. and the propagation is worse than ever.
So Philippe ask anyone to be patient .
In Pile up CW, know he is also a new comer and for him it’s more difficult than for qome experienced ones .
To day at his spare time, Philippe has logged 1750 QSO’s, after 13 days as follow:
40 cw 300

40 lsb 150
30 cw 265
20 cw 300
20 usb 360
17 cw 155
17 usb 55
21 cw 80
21 usb 100

According to his timetable, Phil could surprise us, joining Nodir, EY8MM, in the next CQWW SSB.
So the winter is coming . The days are going to be colder and colder, but no snow yet.
Tks Phillippe, EY8/F4EGS

ANTARCTICA:
HC (ECU-01) Pedro Vicente Maldonado Station
According to the Ecuadorian ministry of
Post&TelecomunicatiTelecomunicati<WBR>
Radio club is planing an activity from "Pedro Vicente Maldonado" station which is situated on Greenwich island-South Shetland archipelago next month of January 2009.

ARGENTINA
New award "DIA DEL RADIOAFICIONADO ARGENTINO", Argentin Ham Day.
To commemorate the Argentin Ham Day, which will happen on next October 21st, the Radio Club Grupo DX Bahía Blanca (LU3DXG) offers a free award to those who will have regular QSOwith 5 stations among : - LU1YU (Hellmut Stillger, 84 years old, of Neuquén capital.)
- LU8DJF (Alejandro Navone, 79 years old, from 9 de Julio, Buenos Aires.) - LU3HBO (Pedro Buonamico, 76 years old, from La Francia, Córdoba.)
- LU3HR (Fernando Tamiozzo, 75 years old, from Río Cuarto, Córdoba)
- LU5CAB (Juan Luis Costa, 73 years old , from Capital Federal.)
- The station LU3DXG (R.C.GDXBB), could be used as Joker, if a 5th QSO is missing.
QSO’s to be made between October 18 to 25th. SSB on all bands as possible but focus on 20, 40 and 80m. QSL + log extract, A4 self adressed enveloppe and postage to Radio Club Grupo DX Bahía Blanca, Casilla de Correo 709, (8000) Bahía Blanca.

More info if necessary to : Carlos (LU7DSY) email lu7dsy@yahoo. com.ar

VIET NAM
RL3BM, Mike, et UA4CC, Arkady "Ark", sont en route pour Phu Quoc (AS-
128), Vietnam, pour les vacances familiales qui se dérouleront du 5 au 13
novembre, 2008.

Indicatifs : XV4BM et XV4CC.
CW/SSB de 3.5 à 28 MHz
QSL XV4BM via RL3BM et XV4CC via UA4CC

73! de Ark UA4CC
CANARIES (AF-004).
Du 22 novembre au 3 février 2009.
Origine: ON5JV
Indicatifs : EA8/ON5JV & EA8/ON6AK
DXCC : Canaries
QSL via: HC, bureau ON de préférence.
Opérateurs: ON5JV and ON6AK

Notes: Jean/ON5JV et Georgette/ON6AK, seront EA8/homecall depuis
Tijoco Bajo, Tenerife
Principalement 20 et 40m le soir .
SENEGAL et GUINEE BISSAU:

Du 15.11.08 au 31.03.09 : 6W2SC et J5UAP QRV de nouveau par HA3AUI
QSL via HA3AUI direct ou Buro HA.
6W/HC : 160-10m, spiderbeam,verticales,dipoles, 500W
J5/HC : 160-10m, spiderbeam, verticales,dipoles, 100W
Modes numériques principalement. Un peu de SSB et CW sur demande.

73, Peter

TADJIKISTAN News:
De Philippe, EA8/F4EGS:
Le QRM est toujours aussi fort et descend rarement en dessous de S5 to S7.
et la propagation sur les bandes hautes est pire que jamais.
Philippe vous demande donc un peu de patience , notamment dans les Pile up
CW pour lesquels il est assez novice.
Aujourd'hui après 13 jours et à son temps libre Philippe a enregistré 1750
QSO comme suit :
40 cw 300
40 lsb 150
30 cw 265
20 cw 300
20 usb 360
17 cw 155
17 usb 55
21 cw 80
21 usb 100

Selon l'mploi du temps , Philippe pourrait nous réserver une surprise en
rejoignent Nodir, EY8MM, pour le prochain CQWW SSB.
L'hiver arrive, les jours deviennent de plus en plus froids.
73 de EY8/F4EGS
Tks Phillippe, EY8/F4EGS

ANTARCTIQUE:
Selon le Ministère des Postes et Télécommunications d'Equateur, la base HC

(ECU-01) Pedro Vicente Maldonado , serait activée en Janvier 2009, par le Radio Club de Quito.
Tks Gianni, I1HYW and Antarctia Bulletin.

ARGENTINE

Hi friends
JOTA , JAMBOREE on the AIR
JOTA FREQUENC IES/
Please QSY off the calling frequency after establishing communication.

World CW calling frequencies: (Updated from 1 July 2007)
3.570, 7.030, 14.060, 18.080, 21.140, 24.910, 28.180, 50.160

World voice calling frequencies: (Updated from 1 July 2007)
3.690 & 3.940 MHz, 7.090 & 7.190, 14.290, 18.140, 21.360, 24.960, 28.390,
50.160

Calling frequencies for Slow Scan TV (SSTV):
3.630, 7.033, 14.227

Calling Frequencies for PSK31
14.070

AUSTRALIA :
I Will be Operating on 7.190, 7.090, 7.070, 7.033 on Lower Side Band (LSB)
with the Callsign of VK3SAY or My Own Callsign VK3FTIM

Other Australian voice calling frequencies:
3.650, 7.090, 14.190, 21.190, 28.590, 52.160

73's and Good luck everybody!!!!!

_____
Thanks in Advance
73's TIM
VK3FTIM

VK2GGZ, the official station of Winston Hills Girl Guides NSW Aust, will be
operating JOTA from the Guide Hall on 40m, 2m, 70cm on Saturday 18 October
2008 between 2pm and 5pm local time (viz 0300 to 0600 Zulu = GMT = UTC).

For 2007 JOTA photos see:
_http://www.fanden.com.au/wh_guides/r...ota07/jota.htm_
(http://www.fanden.com.au/wh_guides/region/jota07/jota.htm)

See _http://www.qrz.com/vk2ggz_ (http://www.qrz.com/vk2ggz) for updates and
technical information

email _vk2ggz@..._ (mailto:vk2ggz@...) for skeds or further
information
Tks Frank, VK2AKG

USA:
The Richard L. Scott district of the Central Georgia Council will be on the

air from Perry, GA as K4E. We'll be operating on all bands from 80m-2m, including a small EME station.

The highlight will be a huge balloon supported loop antenna for the low bands. We're expecting 100-150 Cub Scouts and Boy Scouts, and we'll be on the air all weekend.

_____
Dave Marshall, AB3I
Director, 4RF.org ARC
www.4rf.org (http://www.4rf.org/)

Troop 440 has secured the assistance of CARA, FRC, SOARA to be on the air for JOTA. We'll be on 20 / 40 / 6 at Memorial Camp Site @ Firestone Scout Reservation during OCC - Orange Frontier's Webelos Woods. We have the special Event callsign "W6B" look for us out there.
Tks James, KB6WUM

I'll be operating at our local camp near Grove Hill, AL; only my troop will be camping there, but there will be another large JOTA group operating from another local scout camp (Citronelle, AL). Will be on the air starting Saturday afternoon.

I'll be on 80-10m, using my call, KG4SUF.
Tks David, KG4SUF

Annawon Council BSA will be hosting the Covered Wagon Derby. Cub Scout from Sachem District will take part in several Scout activities which will include Amateur Radio and JOTA. Last year KC1TAC and WA1NPO put over 130 Cub Scout on air. This year we hope to expand to greater numbers by opening a second station for Boy Scout Troop and Venture Crews. Don Burke, KB1LXH and Paul Moss, KB1MTW will be joined by other local hams and Scouts to operate KC1TAC and WA1NPO from 0800 until 1500 local time. World Scout Frequencies 80M; 3.690 & 3.940 MHz, 40M; 7.090 & 7.190 MHz, 20M; 14.290 MHz and 17M; 18.140 MHz

Tks Don, KB1LXH

_____
USA , No Callsign provided yet :
We'll be active from Shawnee Kansas (Northeastern part of the state) on 40-10, will most likely be on 40m earlier Saturday then 20m through the rest of the day.
Our 2m talk-in frequency for anyone in the area will be 145.390
Main event will be a high altitude balloon launch, assuming the weather cooperates.
Hope to hear everyone on the air!
Till next time,
this is Duncan, KU0DM
73!

Cub Scout Pack 705 in Houston Texas will be on the air 20m, 40m, 80m
we will try phone, psk31,
our station will be on the air Sat Oct 18 at 1700UTC until Octg 19 0100 UTC
hope to meet some of you on the air.
73
KE5HDF
Ralph
Tks Ralph , KE5HDF

SWAZILAND
A group of 20 Swazi scouts will be camping at the Hawane Resort in Swaziland
for their first experience of JOTA next weekend. The callsign 3DA0SS will be
activated by GI4FUM, GI8MIV, ZS6JR, 3DA0TM and 3DA0GF.
Photographs of the station antennas and location are available at
http://gi4fum.spaces.live.com/ (http://gi4fum.spaces.live.com/)
Antennas include a 1/4wave vertical for top band and a 4 square on 40m. The
station should be active from Friday.

7683. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-16 21:29:08 UTC
From: K1XN
Topic: 5889 Message: 7683

The /*OCTOBER */*/2008 /**Issue #810-C* files have been uploaded to the
Golist web site.
The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file. I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
/*Now is a good time to send in your RENEWAL to GoWin *//*
if your subscription is about to expire.*/

Listing is by calendar date (day/month/year)
==========

16/10/2008: Tsuyoshi, JJ2NYT will be QRV from Easter Island (SA-001) as CE0Y/JJ2NYT from October 16 -19th. Activity will be on 40, 20, 17 and 15 meters, and possibly 80 meters, using CW, SSB and RTTY. QSL to home call. [ARRL DX News]

16/10/2008: Bill, WB5ZAM plans to be active as J68WI from the island of St Lucia (NA-108, also count for WLOTA LH-1336) between October 16-30th. Bill says "no contesting but plan to be as active as the bands allow. HF 30-10m and 6m if open. No low bands". QSL via home call. [NG3K]

16/10/2008: Masa, JA6GXK will be QRV from Minami Torishima (OC-073, JIIA OC-073-001) as JD1BMM from October 16th to November 6th, while on work assignment. Activity will be on 160-10m (500 Watts) and 6 meters (100 Watts) during his spare time. All QSOs will be confirmed via the bureau, however if you wish to receive a direct card you can QSL via QRZ.com. [ARRL DX News]

16/10/2008: Approximately 12 members of the Magnolia DX Association, Inc., will activate East Ship Island (IOTA NA-082, USi MS-009, Harrison County), Mississippi, and lighthouse (WLOL USA-756, WLOTA LH-1160, USCG 4-0337, WW Loc. EM50ME) during the period of October 16-19th. The call sign K5S will be used during the entire 4-day period, plus the call sign K5Z will be added during the last 2 days as an entry in the W/VE Islands QSO Party (October 18-19th). Activity will be on 80-10 meters, using CW, SSB and RTTY. QSL via W5UE direct, or bureau. Logs will also be uploaded to LoTW. Further information can be found at www.k5s-na082.com/ [K1XN]

16/10/2008: Kiyoshi/JA7RPC and Masahiro/JF7RKV will be active as T88RP and T88SB, respectively, from the rental shack on Koror Island, Palau Islands (OC-009) from October 16-20th. Look for them to be QRV 80-10m on CW and SSB. QSL via home calls, direct or bureau. [NG3K]

16/10/2008: Joe/W8GEX, Joe/AA4NN, Janet/W8CAA, Jay/K4ZLE and Jim/K0RH will be active as TO5DX from Saint Barthelemy Island (NA-146, DIFO FJ-001, WLOTA LH-0377) from October 16-28th, including a Multi-Single entry in the CQWW DX SSB Contest (October 25-26th). They plan to have three stations, on all HF bands, SSB and CW. QSL via AA4NN, direct preferred but bureau ok. Further information at www.TO5DX.com/ [NG3K]

17/10/2008: David, GI4FUM (EI4DJ) will be operating from Hawane Resort, near Malolotja National Park, Swaziland, as 3DA0DJ from October 17-27th. He was a member of the IRTS DXpedition to Swaziland in March 2007; this

year he will be with Daniel, ZS6JR and they will be using the same equipment and antennas that were used for the CQ WPX SSB operation last year (3DA0EI). David and Daniel will also operate as 3DA0SS (Swazi Scouts) for the annual Jamboree On The Air (October 18-19th). Activity will be on all HF bands SSB. [425 DX News]

17/10/2008: Mek/SP7VC, Tadeusz/SP3IPB and Aga (YL)/SQ3WN are going to sail the Caribbean between October 17th and November 15th. They will be sailing on a 40 foot yacht and they are going to visit some DXCC entities. This is a tourist trip but they intend to be active on HAM bands from visited places. They will start at British Virgin Island (as VP2V/homecall). They are going to participate CQWW DX SSB from VP2V (all bands). On October 27 they start to Anguilla (VP2E), Saba (PJ5), Saint Martin (FS), St. Marteen (PJ7), St. Eustatius (PJ6), Saint Barthelemy (FJ), St. Kitts & Nevis (V4), Antigua (V2), Montserrat (VP2M), Guadeloupe (FG), Dominica (J7) and Martinique (FM). They will not operate on bands from VP2E nor from V4 but from other places are going to be active on bands if it?s only possible. The team will be using TS-50, IC-706MKIIG, PA - MLA 1200 (700W), vertical R-7 (40-10m), inverted L (160 - 80 m). QSL via home calls. [SP5UAF]

17/10/2008: Frank, PA2MRX will be active from Afghanistan October 17th to November 2nd. QRV 20 meter PSK31, RTTY, CW (with PC), maybe SSTV, with FT-817 (QRP 5 Watts) on 14.000, 14.070-14.090 and 14.230 MHz. He will try every day, as time and work permits, from 1430 - 1730 UTC. QSL via PA2MRX by the bureau. Further information at members.home.nl/mmarx/PA2MRX/PA2MRX.htm [NG3K]

18/10/2008: Look for operators Ingolf/DL4JS, Rich/DK8YY, Jens-Uwe/DL8ALU, Sigi/DL8AKI and Frank/DL1WA to be QRV from Senegal as 6W/DL4JS from October 18-28th. Activity is planed for all HF-Bands in CW, SSB and RTTY, maybe also on 6m depends on conditions. Hope to catch as many callers as possible on low bands. They will be active with 2 stations, monoband beams for 20/15/10, dipoles, vertical for 160/80 and K9AY. QSL via DH7WW, direct or bureau. [NG3K]

18/10/2008: Members of the Rhein Ruhr DX Association (RRDXA) will be active as HB0/HB9AON and will be celebrating their 25th DXpedition to Triesenberg, Liechtenstein, between October 18-31st. Operators mentioned are: Diethelm/DJ2YE, Heinz Willi/DL8EAQ, Chris/DK8EY, Rolf/DL8DAW, Wenz/DK5EZ, Wilhelm/DG3EX and Karl/DL6EAQ, as well as members of the DARC clubs W?lfrath (R29) and Neandertal (R09, Mettmann/Erkrath) and some guests. The German team will also be active in the CQ World-Wide SSB DX Contest as a Multi-Multi entry. QSL via DJ2YE. [OPDX Bulletin]

18/10/2008: Silverio, IK3IUL will activate Pellestrina Island (EU-131, IIA VE-033, MIA MI-072) as homecall/p on October 18th and 19th. QRV with FT-817 running 5 Watts, antenna vertical probably on 30 meters. QSL via home call, bureau preferred. [rsgbiota.org]

18/10/2008: Jay, NS4J will be Island Rover for W/VE Island QSO Party. On October 18th he plans to activate Jerdone Island (USi VA-004L, Not

IOTA) and Duerson Island (USi VA-017L, Not IOTA), located in Lake Anna, Louisa County, State of Virginia. QRV 80 (3.755), 40 (7.260) and 20 (14.260) meters, Phone. QSL via home call, direct or bureau and also USi eQSL. [USi]

18/10/2008: The Boeing Employees Amateur Radio Operators North Society and Stanwood/Camano Amateur Radio Club will be active as K7P from Camano Island (IOTA NA-065, USi WA-003S, WLOTA LH-2728, Island County), Washington, on October 18th and 19th, to commemorate the first new state park in 10 years at Cama Beach. QSL direct to KN7T (Mark Mc Lauchlin, 2625 176th St SE, Bothell, WA 98012). [ARRL]

18/10/2008: Look for Ray, K7RFW to be active for the 2008 W/VE QSO Party from Antelope Island (USi UT-001L, Not IOTA), located in Great Salt Lake, Davis County, State of Utah. Ray states "due to the high activity level this weekend I will try to operate on 14.260, 14.325, or 14.225 (lower edge of general band), or wherever it is clear. This is JOTA weekend, so I will work JOTA stations". [USi]

18/10/2008: Operators Craig/K9TEN, Ottis/KG4RWZ, Richard/K4XOX and Stan/N3XP will be active from Goat Island (USi AL-029L, Not IOTA), located in Smith Lake, Cullman County, State of Alabama for the 2008 W/VE QSO Party (October 18-19th). QRV with at least two, and probably three transmitters on all bands allowed. They will be working SSB, PSK31, RTTY, and, if one of the guys gets up the courage, CW, but please be patient, he operates at about 5WPM. QSL via home call. [USi]

18/10/2008: Jacob, OZ7AEI will activate the Lindesnes lighthouse (ARLHS NOR-009) and Lindesnes Range Rear lighthouse (ARLHS NOR-028, Admiralty B3058.1) as LA/OZ7AEI/p on October 18th. QRV 20 and 40 meters. QSL via home call, direct or bureau. [OZ7AEI]

18/10/2008: Operators G3KHZ, G4EDG, CT1AGF and W5GAI will be active from a couple of Most Wanted IOTAs - OC-181 (Witu Islands) and OC-041 (Ninigo group) - between 18 October and 4 November. Further information is expected in due course. [425 DX News]

18/10/2008: Look for a group of operators to be active from Bonaire (SA-006, WLOTA LH-1279) as PJ4E during the upcoming CQWW SSB contest. WA4PGM, WK4Y, K6AM, K5GS, K4EJ, K0RAY and N0VD will likely operate as a MM entry, but may change class depending on local circumstances. Before the contest, WA4PGM, WK4Y, K4EJ and K0RAY will spend a few days on Curacao (PJ2, SA-006, WLOTA LH-0942) October 18-21st, then be active from PJ4 during October 21-28th. K6AM, K5GS and N0VD will be active on PJ4 from October 18-29th. Before an after the contest all operators will be signing PJ2/ and PJ4/callsign. N0VD is also in the process of building a rental QTH on PJ4 (www.villadesertpalm.com). QSL WA4PGM and PJ4E via direct only. QSL N0VD via W3HNK. QSL all others via operators instructions. [K1XN]

18/10/2008: Urcun, TA0U will be active for Worked All Germany Contest (WAG) between October 18-19th as a Single-Op/Mixed/Low-Power entry. For

more information, see: www.ta0u.com/detay.asp?id=4283 [OPDX Bulletin]

18/10/2008: The W4USI Club Station will be QRV October 18-19th from Amelia Island (NA-138, USi FL032S, WLOTA LH-3048, Nassau county), Talbot Island (NA-138, USi FL-121S) Little Talbot Island (NA-138 USi FL-116S) and several more ending at Blount Island (Not IOTA, USi FL396R), Duval county, State of Florida. They will spend 2 hours on each island and maybe even try doing them twice. QRV 80-10m SSB, CW and Digital modes. QSL W4USI via the information on QRZ.com. [USi]

18/10/2008: Page, WA3EOP will be active the first 3 hours of the W/VE Island QSO Party from Kent Island (USi MD-004S, Not IOTA), Queen Annes County, State of Maryland. QRV 20 and 40 meters. Look for him around 14.265 +/- and around 7.178 or 7.230 +/- and if he tries any CW it will be around 7.053 +/- MHz. Page might also activate Wye Island (USi MD-005S, Not IOTA), Queen Annes County, State of Maryland as its only another half hour down the road. QSL via home call. [USi]

19/10/2008: Oliver, F6ARC will be QRV as FM/homecall from the island of Martinique (NA-107, WLOTA LH-WLOTA), from October 19-23rd. QRV mainly on 160-30m using CW. QSL via home call. [NG3K]

19/10/2008: Sam, WT3Q will be active as V26B from the island of Antigua (NA-100, also count for WLOTA LH-1118, WW Loc. FK97BC) between October 19th and 28th, including an entry in the CQWW DX SSB Contest (October 25-26th). Look for activity on all bands outside of the contest. He will also be monitoring 6 meters for openings (K3 with 1kW). QSL via KA2AEV. Logs will be uploaded to LoTW after the operation. [NG3K & N8OFS]

20/10/2008: Francesco, IZ7KHR will be active from the 6Y1V super-station, Hopewell, Jamaica (NA-097, WLOTA LH-0214), from October 20-28th as 6Y7K. Look for him on all bands and modes prior to the CQWW DX SSB Contest. QSL 6Y7K via IZ7KHR, direct or bureau. See: www.iz7khr.it/ or 6Y7K at QRZ.com. [rsgbiota.org]

20/10/2008: Look for Mike/DL3VTA and Wolfgang/DL1DVP to be active as 9A/homecall from Pag Island (EU-170, ACIA IC-188, CIA-32, IOCA CI-082, WLOTA LH-1796) from October 20-27th. QRV all HF bands using CW, SSB, RTTY and PSK. QSL via home calls, direct or bureau. [rsgbiota.org]

20/10/2008: Stephan, DK3TNA will be active from the island of Fuerteventura (DIE S-006, WLOTA LH-0883), Canary Islands (AF-004) as EA8/DK3TNA between October 20th and November 1st. QRV 80-10 meter CW and SSB, using 100W and dipole antenna. QSL via home call, direct or bureau. [rsgbiota.org]

20/10/2008: The team for the IOTA expedition to PNG includes Al/AD6E, Luis/CT1AGF, Derek/G3KHZ and Skip/W5GAI, plus one non-ham traveller. They expect to be QRV as P29VLR (QSL via SM6CVX) from Garove Island, Witu Islands (OC-181), from October 20-26th. The MV Barbarian II will then sail to Akib Island, Hermit Islands (OC-041) where they will be QRV as P29NI (QSL via G3KHZ) from October 28th to November 3rd. The final

leg will be to Manus Island (OC-025), from where there may be some operation on November 4th, before the team flies home November 5th. Suggested frequencies are: SSB - 28.560, 24.950, 21.260, 18.128, 7.055 and 3.755 MHz; CW - 28.040, 24.920, 21.040, 18.098, 14.040, 10.115 and 3.530 MHz. Further information at www.425dxn.org/dxped/p29_2008/ [425 DX News]

21/10/2008: Dr. Karl-Heinz Ilg, DK2WV will once again be active from Sierra Leone, this time with a team of operators. All training and activity is plannned to take place in the time frame of October 21st to November 11th. They expect to operate during this time under the call sign 9L0W. The German participants mentioned are Roland/DJ4LK, Franz/DJ9ZB, Karl/DK2WV, Hans/DL1YFF and one 9L1 national. Activity will be on 160-6 meters. They are planning to operate with up to 3 stations using amplifiers, Spiderbeams, phased arrays for the low-bands, K9AY loops and/or beverages as low-band receiving antennas. QSL via DK2WV, direct (SASE w/sufficient funds to cover the postage) or by the bureau. E-mail requests will be sent via bureau, including those arrived without adequate funds. Further information to follow. [OPDX Bulletin]

21/10/2008: Look for special call OT7G to be active October 21st for National Mills Award Day from the Stampkot Mill (reference WIM 8073), Ville Kaster-Anzegem (CP 8572), between 0600-1000 UTC. QRV 80, 40 and 2 meter SSB. QSL via ON4MRX, bureau preferred. [F5NQL]

21/10/2008: The OM0C Contest Crew is pleased to announce a DXpedition to Suriname. The group of 5 operators will be active as PZ5Z from Suriname between October 21-30th, including an entry in the CQWW DX SSB Contest (October 25-26th). Activity on all HF bands (160m-10m), and VHF (6m and 2m) with the focus on low bands, especially 160m and EME on 2m. It will be a very first time EME 2m operation from Suriname. Team members include Rich/OM2TW, Joe/OM5AW, Steve/OM5AA, David/OK1RK, Vlada/OK1NY, maybe others... QSL via OM2FY, direct (Branislav Daras OM2FY, P.O. Box 6, 82008 Bratislava 28, SLOVAKIA - EUROPE) or by the bureau. Further information at www.om0c.com/suriname/ [NG3K]

22/10/2008: Peter, G4MJS reports that he will be part of a team visiting the 6Y1V contest station, Hopewell, Hanover Parish, Jamaica (NA-097, also count for WLOTA LH-0214) at the end of October for the CQ WW SSB contest. The station has 6m capabilities, and there's a good chance he will get some time on the band before the contest - probably October 22-24th. The station features a Kenwood TS-2000, Acom 1000 amplifier and stacked 4/4 SteppIR 6 element yagis. CQWW DX SSB Contest operators include David/KY1V, Martin/G4XUM, David/G3NKC, Peter/G4MJS, Manu/LU9ESD and Francesco/IZ7KHR. The team will be a Multi-2/High-Power entry. QSL via OH3RB: Kari Ahokas, Majoitusmestarinkatu 11 F 93, 20360 Turku, Finland. [N8OFS]

22/10/2008: Rich, N0HJZ, will be active as DL/N0HJZ from the QTH of Tom, DL2OBO (Holzminden, Germany), from October 22-28th. He plans on putting a full time effort in the CQWW DX SSB Contest (October 25-26th)

as well. Rich states, "I hope to work everyone that I've worked from my other stops on my world tour!" QSL direct to his home call sign or by the LoTW. [OPDX Bulletin]

22/10/2008: John, W5JON will be active as V4/W5JON from Ariel Heights, North Frigate Bay, St. Kitts (NA-104, WW Loc. FK87SG) from October 22-31st. Activity is planned for 6-160m SSB, including an entry in the CQWW DX SSB Contest (October 25-26th). The QTH is mountain top with a 330 degree view. Equipment will be IC-7000, RM Italy KL-400 Amplifier (400 Watts), Alpha Delta 10-160 meter dipoles and a 3 element yagi on 6 meters. QSL via home call (QRZ.com). [NG3K]

23/10/2008: Ed/K3IXD, Pete/W2GJ, Dallas/W3PP and Bob/W8ZA will be active as C6APR from the Crooked Island Lodge, Pittstown Point, Crooked Island (NA-113), Bahamas, in the multi-2 category during the CQWW SSB contest (October 25-26th). The lodge manager has confirmed that the lodge survived both Hanna and Ike hurricanes. Before and after the contest (October 23-27th) C6APR will be on 160m through 10m including the WARC bands, CW and SSB. Before and after the contest (October 23-27th) C6AXD will be on 160m through 10m including the WARC bands, mostly RTTY and some SSB. Both calls are good for Bird Rock Lighthouse (ARLHS WLOL BAH-005, TWLHD WLH C6-002, WLOTA LH-0118, Admiralty J4792) and Grid FL22TT. All QSLs to K3IXD. [K3IXD]

23/10/2008: Operators Jozef/ON4ACA and Marcel/ON6UQ will be active as SI9AM from the King Chulalongkorn Memorial Amateur Radio Society during the CQ WW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via SI9AM. The operators will be active before and after the contest between October 23-27th. Look for them to be on all bands mainly on CW. Also, look at the special award available for working SI8AM at: http://www.si9am.se [OPDX Bulletin]

23/10/2008: Tom/NY0V (T32CXX) and Rod/K0DAS (T32DAS) will be active from Christmas Island [Kiritimati] (OC-024), Eastern Kiribati, from October 23rd-28th. They plan to operate the CQWW DX SSB Contest (October 25-26th) as T32CXX, a Multi-Single (Zone 31) entry. QSL to T32CXX via W0CXX. QSL for T32DAS to K0DAS. [NG3K]

23/10/2008: Fukuda T88FY (JK2VOC) and Nose T88AC (JA2BNN) will be active from the Palau rental shack, Koror Island (OC-009, WW Loc. PJ77FI), Palau, from October 23-28th, including a Single-Op/All-Band entry in the CQWW DX SSB Contest (October 25-26th). Outside the contest look for them to be QRV on 80-6 meters. QSL via home calls. [NG3K]

23/10/2008: Operators Ken/K2WB, Jack/N2VW, Tony/W2WAS and Frank/WA2VYA will be QRV from 'The Hamlet' on Providenciales Island (NA-002, WW Loc. FL31VS) from October 23-29th. They will use the call sign VP5T during the CQWW DX SSB Contest (October 25-26th) as a Multi-Multi entry. Look for activity as VP5/homecalls on CW, WARC and 60 meters before and after contest. QSL VP5T via LoTW, and direct or bureau to N2VW. QSL VP5/homecall to homecall. [NG3K]

23/10/2008: Retu, XU7MDY will be QRV once again from Sihanoukville, Cambodia, between October 23rd and November 8th. Modes planned are CW SSB, RTTY and PSK3 on following frequencies: 1822, 3502, 7006, 10104, 14007, 21007, 24897 and 28020 kHz. QRV on 6m also. Retu will also be joined by Mika/OH4YR (XU7YYR), Jussi/OH4KBC (XU7KBC) and Rami/OH3BHL (XU7BHL). QSLs only direct via OH4MDY. [NG3K]

23/10/2008: Operators Alfredo/IK7JWX (mdxc#178), Nicola/I0SNY (mdxc#289), Pino/I8YGZ (mdxc#438), Leopoldo/I8LWL (mdxc#097) and Oscar/IK2AQZ will be active from Sazan Island [Ishull i Sazanit] (EU-169, MIA MA-001) and lighthouse (ARLHS ALB-004, TWLHD WLH ZA-001, WLOTA LH-0028, Admiralty E3723, WW Loc. JN90PM), Albania, as ZA0/homecall between October 23-29th. QRV all HF, WARC, VHF bands using SSB, CW, RTTY, PSK-31 and meteor scatter. QSL manager: IK7JWX only for DL stations. QSL all operators via their home call, direct or bureau. Further info at www.sazan2008.altervista.org/ [Pete's-DX-Newsdesk]

==========

LOOKING AHEAD -

25/10/2008: Gia, 4L4WW will be signing 4L0A from Obcha, Georgia (WW Loc. LN12KC), during the CQWW DX SSB Contest as a Single-Op/All-Band/High-Power entry. QSL via EA7FTR, direct or bureau. [NG3K]

25/10/2008: Operators Hamad/9K2HN, Faisal/9K2RR, Yasser/9K2YM and Andrzej/SP4R will be active as 9K2HN from Abdullah Al-Salem Area, Kuwait, for the CQWW DX SSB Contest as a Multi-Single entry. QSL via QRZ.com. [NG3K]

25/10/2008: Nob 9M6/JA1KSO, Ogi 9M6/JH1WXT and Ako 9M6/JR1WMO will be active from the Langkah Syabas Beach Resort at Kinarut, Kota Kinabal, Sabah (OC-088, WLOTA LH-0119), East Malaysia as 9M4SMO during the CQWW DX SSB Contest as a Multi-Single entry. QSL via JH1WXT, direct or bureau. [NG3K]

25/10/2008: The Guam Contest Club, AH2R will be active from Tamuning, Guam (OC-026, USi GU-003S, WLOTA LH-0064), in the CQWW DX SSB Contest as a Multi-Single entry. Operators mentioned are Aki/JI3ERV, Toshi/JR7OMD, Kou/JH7QXJ and Osamu/JR8VSE. QSL via JH7QXJ, direct or by the JARL bureau. [NG3K]

25/10/2008: Pekka/EA8AH, Juan/EA8CAC, Manolo/EA8ZS, Toivo/ES2RR, Rein/ES5RW, Kari/OH1HD, Kari/OH5XT and Juha/OH9MM will be signing AO8A during the CQWW DX SSB Contest from Las Palmas, Grand Canary Island (AF-004, DIE S-005, WLOTA LH-0969) as a Multi-Two entry. QSL via OH1RY, direct or bureau. [NG3K]

25/10/2008: CT3Team members Carlos/CT3CD, Carlos/CT3CK, Carlos/CT3FQ and Ricardo/CT3KN will be active as CQ3T during the CQWW DX SSB Contest from Funchal, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053), as a Multi-Single entry. QSL via LoTW or direct to CT3KN. [NG3K]

25/10/2008: Jose, CT1BOH will be active from Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053) as CS9M during the CQWW DX SSB Contest as a Single-Op/All-Band entry. QSL via LoTW only. [NG3K]

25/10/2008: Look for Jorge, CX6VM to be active from Melo, Uruguay, as CW5W during the CQWW DX SSB Contest as a Single-Op/Single-Band entry. QSL via the information on QRZ.com. [NG3K]

25/10/2008: Operators Richard/9A1TT, Vlado/E70T, Drago/E74AW, Rade/E74IW, Zoka/E76C, Braco/E77DX, Rob/E77E, Ranko/T90R and Zvone/YT7WM will be active from Banja Luka, Bosnia-Herzegovina, as E7DX during the CQWW DX SSB Contest as a Multi-Single entry. QSL via E77E (QRZ.com). [NG3K]

25/10/2008: Operators Hiro/JA6WFM, Nobuo/JA6GCE, Morita/JA6SOV and Naomi/JM6EBU will be QRV from Ecuador as HD5J during the CQWW DX SSB Contest as a Multi-Op/Single-TX/High-Power. QSL via JA6GCE. [JA1ELY]

25/10/2008: Team Radio Gruppo Etna will be active from Acireale, Sicily (EU-025, IIA SC-001, MIA MI-107 WLOTA LH-1362) as IQ9BF during the CQWW DX SSB Contest as a Multi-Single entry. QSL via the bureau. [NG3K]

25/10/2008: George/NP2N, Chuck/WA0ROI and Ed/K1ZE will be active as NP2N from the Mountain Breeze contest station, island of St. Croix (USi VI-002S, WLOTA LH-2477), U.S. Virgin Islands (NA-106), during the CQ WW DX SSB Contest as a Multi-Op/Single-Transmitter entry. QSL via QRZ.com. [NG3K]

25/10/2008: Alex/RW4WR, Dmitry/RX3DCX, Andrei/RA6LBS, Alex/RW3RN, Harry/RA3AUU, Alex/5B8AD and Ivan/5B4AIA will be active DXpedition style operation from portable QTH on the island of Cyprus (AS-004, MIA MCI-002, WLOTA LH-0051) as P33W during the CQWW DX SSB Contest as a Multi-Single entry. QSL via RA3AUU, direct or bureau. [NG3K]

25/10/2008: Operators Serge/RA9AA, Andrei/RZ9AR, Ilya/RZ9AW and Yuri/UA9APA will be active from Chelyabinsk, Asiatic Russia, as RA9A during the CQWW DX SSB Contest as a Multi-Op/Single-TX entry. QSL via RK9AWN. [NG3K]

25/10/2008: Operators SV5AZP, SV5AZK, SV5DDP, SV5DKL, SV5DZR, SV5FRD, SV5KJC, SV5CJK, SV5CJQ, SV5/KB4PMS and SV5FRK will be active as SX5P from Rhodes [aka Rodos] Island (EU-001, MIA MGD-028, WLOTA LH-0045) for the CQWW DX SSB Contest as a Multi-Multi entry. QSL via SV5FRD, direct only. [NG3K]

25/10/2008: Operators TI2JCY, TI2KAC, TI4ZM, TI2CCC, K4UN, W4BW, W4KTR and W4XO will be QRV as TI1R from outside San Jose, Costa Rica, during the CQWW DX SSB Contest as a Multi-2 entry. QSL via TI2JCY, bureau preferred. The team will also be active from October 21-28th as TI/homecall on 160-10m. [NG3K]

25/10/2008: Look for Salvatore, IK8UND to be active from Turkey as TK9R during the CQWW DX SSB Contest as a Single-Op/All-Band/High-Power entry. He also plans to be QRV CW and RTTY before contest. QSL via IK8UND,

direct only. [NG3K]

25/10/2008: Operators Matt/F5PED, Dany/F5CW, Jean-Michel/F4DLM, Seb/F8IJV, Frank/F4AJQ, Thierry/F4TTR, Joel/F6JMT and Martin/F4UKP will be QRV from Antony, France, as TM2S for the CQWW DX SSB Contest as a Multi-Single entry. QSL via F5PED. [NG3K]

25/10/2008: Look for Ted, SP3IPB to be active as VP2V from the British Virgin Islands (NA-023) for the CQWW DX SSB Contest as a Single-Op/All-Band entry. Ted will be joined by Mek, SP7VC who will also participate in the contest as VP2V/SP7VC, a Single-Op/All-Band entry. QSL via their home calls, direct or bureau. [NG3K]

25/10/2008: Pai, VU2PAI will be active in the CQWW DX SSB Contest from Mangalore, India, as a Single-Op/All-Band entry. QRV 80-10m, as he does not currently have a 160m antenna. QSL via QRZ.com. [NG3K]

30/10/2008: As guests of the Royal Omani ARS (ROARS), the Lufthansa Amateur RC (LARC), along with he Norden District of the DARC (DOK I09) will be active October 30th until November 11th using the following call signs: A43DLH operating from the ROARS HQ; and A43DLH/p operating from the Omani Scout camp, city of Muscate (WW Loc. LL93FO). QRV 160m and up on as many bands as possible, 24 hours per day, using CW, SSB and digital modes including SSTV. QSL via DK7PE. [F5NQL]

01/11/2008: Anne, OH2YL plans to be active November 1-8th from Malta (EU-023, MIA MM-001, WLOTA LH-1113) as 9H3YL. QRV HF-bands using CW and SSB. QSL via home call. [NG3K]

01/11/2008: Fernando, XE1MO plans to be active from Albania as ZA1/XE1MO, November 1-9th. QRV 40, 20, 15 and 10 meter SSB only. QSL via home call or via KE5FAH. [NG3K]

05/11/2008: RL3BM, Mike and UA4CC, Arkady "Ark" are heading to Phu Quoc Island (AS-128), Vietnam, for a family vacation November 05-13th. Their call signs will be XV4BM and XV4CC. They plan to be on CW and SSB on 3.5-28 MHz. Plans are to use an IC-7000 and K-2 transceivers running 100 watts only into vertical antennas. For 20 meters they will have a 2 element wire vertical Yagi. This will be not a "full scale" DXpedition, however the two will do their best to be on the air as much as possible. QSL XV4BM via RL3BM and XV4CC via UA4CC. [UA4CC]

06/11/2008: Look for Helmut/DL5DSM and Norbert/DJ7JC to be active as VU3NLG and VU3NLF respectively from the Resort Prainha, Panjim, Goa, India from November 6-14th. Activity is expected on all bands 160-10m using CW, SSB, BPSK and RTTY. QSL via their home call signs. [QRZ.com]

15/11/2008: Peter, HA3AUI is once again heading south to Senegal and Guinea-Bissau. From November 15, 2008 to about March 31, 2009 he will be signing 6W2SC and J5UAP. 6W: 160-10m, spiderbeam, verticals, dipoles, 500W. J5: 160-10m, spiderbeam, verticals, dipoles, 100W. For both QTHs mostly digital modes, some SSB, CW on request. QSL via HA3AUI direct or

HA Bureau. [NG3K]

21/11/2008: Aki, JA1NLX will be active as 3D2YA from Mana Island (OC-121) from November 21-27th. QRV 80-10 meters using CW. QSL via JA1NLX, direct or bureau or LoTW. [NG3K]

22/11/2008: Jean/ON5JV and Georgette/ON6AK will be QRV as EA8/homecall from Tijoco Bajo, Tenerife Island (AF-004, DIE S-012, WLOTA LH-1276) between November 22, 2008 and February 3, 2009. Activity will be mainly on 20 and 40 meters during the evening. QSL via their home calls, bureau is preferred. [UBA HF News]

26/11/2008: Slavo, SP2JMB will be signing 8Q7SC from the Dhonveli Beach Resort, Chaaya Island Dhonveli, North Male Atoll [Kaafu Atoll], Maldive Islands (AS-013) from November 26th to December 10th. QRV 80-10 meter CW, including a Single-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). QSL via home call, direct or LoTW. [NG3K]

29/11/2008: John/K3CT, Ed/K3VA and John/K3TEJ will be active from the Radio Reef contest station, located on the island of St. Croix (USi VI-002S, WLOTA LH-2477), USVI (NA-106), from November 25th to December 3rd, including a Multi-2 entry in the CQWW DX CW Contest (November 29-30th) as KP2M (QSL via AI4U). Before and after the contest, they will be QRV as KP2/homecall with emphasis on 160m and WARC bands. QSLs via home calls. [NG3K]

29/11/2008: The Radio Club de los Andes, LU8YE will be active again during the CQWW DX CW Contest (November 29-30th) from San Martin de Los Andes, Argentina, as a Multi-Single or Multi-2 entry. Operators mentioned are Sergio/LU7YS, Alberto/LU1DZ, Fernando/LW2DX and Tito/LU7EE. QSL direct to LU8YE (CBA) or via EA7FTR (QRZ.com). [LU1DZ]

05/12/2008: Alex, YV5SSB will be active from Caracas, Venezuela, as YW5CQ during the ARRL 160-Meter Contest (December 5-7th) as a High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

19/04/2009: Fran?ois, F8DVD will operate for the 6th time from the Longyearbyen ARC, Spitsbergen Island (EU-026, WLOTA LH-0125) as JW/F8DVD from April 19-25th. QRV all HF bands using CW and SSB. QSL via home call, direct (Fran?ois Bergez 6, rue de la Libert?, F 71000 MACON, France) or bureau. [F5NQL]

Be sure to check Bill's (NG3K) Web site for updated CQWW DX CW Contest activity at: ng3k.com/Misc/cqc2007.html
==========
SPECIAL EVENTS -

10/10/2008: A special prefix EK2790 will be used by Armenian amateurs from October 10-19th for the 2790th anniversary of Yerevan, Armenia. QSL through bureau: 0002 P.O. Box 22, Yerevan, Armenia. [UZ1RR]

16/10/2008: Special event station 8J5ICT will be aired October 16th through November 9th for the Regional ICT Futurity Fiesta 2008 in

Tokushima (ICT: Information and Communications Technology). Look for activity on all bands/modes. QSL via the JARL bureau. [JJ1WTL/AC6IM]

17/10/2008: IQ8OM (QSL via IZ8EDJ) as well as special calls 7S0SRT (QSL via SM0IMJ), DZ1SRT (QSL via DU1IVT), EG3SRT (QSL via EA3GHZ), GB0SRT (QSL via M0KCM), II0SRT (QSL via IS0LFZ), II2SRT (QSL via I2JJR), II5SRT (QSL via IZ5BTC), II8SRE (QSL via IZ8GNH), IO5SRT (QSL via IK5ZTT), IQ8OM (QSL via IZ8EDJ), IR1SRT (QSL via IZ1GJK), IR3SRT (QSL via I5JKI), IR6SRT (QSL via IZ6GSQ), IU0SRE (QSL via I0YKN), IU3SRT (QSL via IZ3DBA), IU7SRE (QSL via IZ7CRW), IU8SRE (QSL via IK8WEJ), PD05SRT (QSL via PD5CW), V55SRT (QSL via IZ8EDJ), W1SRT (QSL via W3IZ), and YU05SRT (QSL via YT3W) will be aired October 17-19th for the 5th Strange Radio Team special event. Proceeds beyond out-of-pocket expenses will be donated to charity. Information is available at www.strangeradioteam.com/ or from the Event Manager Marco De Carlo, IZ7DOK (iz7dok-at-strangeradioteam.com). [425 DX News]

17/10/2008: The Tunisian Scout Amateur Association (CAST) will be on the air from October 17th to 19th for Jamboree On The Air. All the Scout Amateur ARC from Tunisia will be active, so, among them look for the Scouts ARC's: 3V8SM - Djerba Island (AF-083); 3V8CB - Tunis, Tunisia; 3V8SQ - Monastir, Tunisia; 3V8ST - Tunis, Tunisia. QSL all stations via the bureau. Please no dollars or other moneys. [F5NQL]

17/10/2008: Members of the Bittern DX Group will be operating a brand new SES call sign of GB5FRR from the headquarters of the 1st Rural Roughton Scout Group during the Jamboree on the Air (JOTA) weekend. They will be QRV from the 17th - 19th October and will try to operate as close to the Scout frequencies as possible on all bands mostly operating on SSB, but at times we will try RTTY BSK 31. Echolink will be monitored on 2m MB7INN/L (4261) also on 70cm if we can arrange a link-up with GB3NU/R (388653) which doesn't usually allow general PC connections. IF YOU WOULD LIKE A SKED PLEASE EMAIL THEM ON THE FOLLOWING: chairman-at-bittern-dxers.org.uk QSL card will follow, with it's design being one of the activities, all direct requests will be dealt with by BDXG QSL Manager Dave Edwards, M0CNP and eQSL will also be used. [Pete's-DX-Newsdesk]

18/10/2008: This year's Jamboree On The Air (JOTA) will take place on October 18th and 19th. SU Amateur Radio ops will be using special call SU8JOTA at the Cairo International Scout Centre. Activity will be on the HF bands on CW and SSB, including 160 meters and their VHF network to Echolink. QSL via SU1SK. [F5NQL]

18/10/2008: Celebrating the 65th anniversary of the end of the Nazi occupation during World War II, special event call EM65QM will be used from Melitopol, October 18-26th. QSL via UR7QM. [425 DX News]

18/10/2008: Look for HL9BSA to be activated from U.S. Military Garrison, Camp Humphreys, Pyeongtaek, Korea, October 18-19th. This is in conjunction with the 51st annual scouting Jamboree on the Air. Activity will be on 40-10 meters using CW, SSB and possibly some RTTY. Limited

satellite operation may also be possible. The operation will be supported by several U.S. and Korean hams. QSL to WX8C by the bureau or direct. [OPDX Bulletin]

18/10/2008: Arthur, G0KOC, will be running with GB1BOS during the JOTA weekend (October 18-19th) on behalf of the 1st Broad Oak Scouts. Arthur, with a small team, will be active on HF only (80-10m) using SSB from about 1000-2100z, Saturday and 0900-1545z on Sunday. [OPDX Bulletin]

18/10/2008: GB2RAF will be operational on October 18th from the Air Defence Radar Museum RAF Neatishead RAFARS permanent S.E.S for a Special WW2 over 60s meeting at the Museum. RAFARS frequencies SSB or CW on 80m, or 40m if conditions are poor. The Museums Web site is www.radarmuseum.co.uk/ [F5NQL]

18/10/2008: Special event station N3G and N3G/AM will be aired October 18th to commemorate the 69th Anniversary of USCG Auxiliary. Frequencies to watch are 7.035 14.055 50.135 and 146.520 MHz. On six meters, N3G/AM will be QRV 1300z-2200z on 50.135 MHz USB, using a IC-706MKIIG and wire antenna. QSL via N3CJM (Robin M. Begley, 3 Pancoast Ave, Aston, PA 19014-2109). [N8OFS]

23/10/2008: Members of the Turkish group called TCSWAT (Special Wireless Activity Team) will activate the special station TC85TC to celebrate the 85th anniversary of the Republic of Turkey. The activity will be between October 23rd and December 2nd. The first 85 direct QSLs will be replied to with a special Turkish Post Office stamp together with a CD about Turkey. Activity will be mainly on 17, 20 and 40 meter bands. QSL Manager is TA1HZ. [OPDX Bulletin]

U.S.A. Special event station information can be found at:
www.arrl.org/contests/spev.html

BITS & PIECES -

The Alaska DX Club, KL7DX is planning a DXpedition to Gareloi Island (NA-233), from July 21 to August 3, 2009. Gareloi is the largest (at 67 km? in area) and northernmost island of the Delarof Islands - a small group that sits at western end of the Andreanof Islands. The island faces the Amchitka Pass on the west across to the Rat Islands. Other activities planned: real halibut fishing and possibly side trip to Amchitka (Rat Islands, 5% claimed). Costs: unknown at this time, but with more $ bigger boat can be chartered (60' v 32') and boat will be on our schedule, not other way around. Approximately $10k/person is estimated number as of September 2008. If you would like to participate, please email to Yuri a.s.a.p (N3QQ at NA-234 dot com). Callsign, QSL Manager and full operator list TBC nearer the date. Website: www.na-234.com/ [rsgbiota.org]

ARGENTINA
New award "DIA DEL RADIOAFICIONADO ARGENTINO", Argentin Ham Day.
To commemorate the Argentin Ham Day, which will happen on next October 21st, the Radio Club Grupo DX Bah?a Blanca (LU3DXG) offers a free award to those who will have regular QSO with 5 stations among:
LU1YU (Hellmut Stillger, 84 years old, of Neuqu?n capital.)
LU8DJF (Alejandro Navone, 79 years old, from 9 de Julio, Buenos Aires.)
LU3HBO (Pedro Buonamico, 76 years old, from La Francia, C?rdoba.)
LU3HR (Fernando Tamiozzo, 75 years old, from R?o Cuarto, C?rdoba)
LU5CAB (Juan Luis Costa, 73 years old , from Capital Federal.)
The station LU3DXG (R.C.GDXBB), could be used as Joker, if a 5th QSO is missing.
QSO?s to be made between October 18 to 25th. SSB on all bands as possible but focus on 20, 40 and 80m. QSL + log extract, A4 self

adressed enveloppe and postage to Radio Club Grupo DX Bah?a Blanca,
Casilla de Correo 709, (8000) Bah?a Blanca.
More info if necessary to: Carlos (LU7DSY) email lu7dsy@yahoo. com.ar

7685. The Willis Islands Group

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-17 10:20:15 UTC
From: K1XN
Topic: 7685 Message: 7685

The Willis Islands Group, Mid Isl. Sunday, October, 16th

This is the seventh day of operation. We had two days with heavy gusty winds. The long enduring rainfall for more than a day gave us some relief. It was refreshing to have a sweet-water shower from the sky and temperature dropped to 28 degrees C. Today the sun is back again and we are experiencing 39 degrees in the operator tents, with linears running.

Our receiving situation on the lowbands is heavily influenced by static noise, which usually comes up to 20-30 db over S9, a real challenge for our operators. We obviously built the 30m 4 square too close to the water, because two Verticals were nearly washed into the sea by the heavy surf. We managed to fix the guy-ropes and pegs again and could keep the antenna into operation. For the same reason, we also moved the 40m 4-square a few meters away from the beach. We also put up a 6m-antenna, but there is no activity at all so far.

Today we crossed the line of 40.000 Qs. Stations are pouring in in great numbers still. Unfortunately especially the W-path is interfered and jammed heavily on 160m. but we will do our very best to get as many of you as possible in the log. We also have set up a fifth station and now are able to operate from all five positions at the same time, to cater the needs of all of you even better.

Tomorrow, we are expecting the "Rum Runner", who will bring us more supplies, out friend Dale, VK4DMC, Bernd (DK2JW; our "tourist") and the new rookie Rhy, ZS6DXB. Unfortunately Josh, W4WJF will be leaving with the "Rum Runner" in the next day, but this also means that Rhy will be joining our effort. Josh says he has loved working you all on the bands and has greatly enjoyed his experiences so far. He came in mainly as a SSB operator but has made quite a few CW contacts with you on-the-air. Even though he said some operators complained of his slow speed, his proficiency has improved so far. He is lucky since he doesn't have to help break down the antennas and the camp AND can go home and put VK9DWX in his log! He thinks the idea of inviting rookies along on DXpeditions is a great idea. In the US, he said many DXers were inspired by this idea and he hopes to give a few presentations about his trip in order to motivate others to sponsor a rookie on their next DXpedition.

We are expecting a great weekend and another exciting week full of pile-ups on the Island.

We will enjoy to work you in CW, SSB and RTTY on all bands!

73 de the VK9DWX-Team

P.S.: Just a few minutes ago the Rum Runner arrived at Willis Island.
Around noon we will start to transfer the persons and the ordered supplies.

We would be delighted if DX editors would publish this information as
widely as possible and DXers bring it to the attention of their clubs
and fellow DXers.

Hi friends
F6KOP, Provins ARC
To complete a very important team (more than 20 operators), which will be very active in next January, the well known Provins ARC (J5C, XT2C,5H1C, TO7C, 5V7C and many other) , is looking for 3 or 4 motivated operators CW, SSB or SSB&Digimode.
The Dxpedition length is expected for 16 days, from January 6 to 19, from Paris to Paris.
If interested you can ask Frank, F4AJQ, either in English or French language at : _f4ajq@..._ (mailto:f4ajq@...) or cell phone 06 82 19 54 57
The official announce, will be made around November 15th, and the destination indicated at the time,

TO5DX – SAINT BARTTHELEMY
Hello DXers,

After being delayed enroute to St. Barthelemy, the TO5DX team arrived late Friday night. They will be setting up antennas and radios this morning and should be on the air soon.

Enjoy the chase and HAVE FUN!

73,
Carl, N4AA
Tks Carl, N4AA

Note : They are on the air:

FRENCH GUYANA
As every year , FY5KE will take part in the CQWW SSB contest, in Multi-Single class, which will happen on next week end, on October 25&26.
The team is a little bit less important that it was in the past. Five operators will be behind the mikes , namely F1HAR, F5HRY, F6FGZ, F6FVY and FY5FY.

In spite of heavier competition announced this year, we will make all our possible to put FY5KE on the first step of the podium, step we missed for so few points last year.
We hope to contact a lot of you on all the bands.

73 and have fun.

For the FY5KE team,
Laurent - F6FVY

ANTARCTICA :
Tragedy on Russian Antarctic base Progress.
October 10th 2008 by _f5nzo_ (http://f5nzo.free.fr/spip/spip.php?auteur1)

It’s on October 5th, that the tragedy happeed. The fire burnt an important part of the station One worker died and two other suffer heavy injuries. The fire has devastated all the radio equipment so there were no communication possible with the Russian authorities until October 16th The injuries have got medical treatements on the 1.5km closeness Chinese base Zhong Shan. So the evacuation will not be made in urgence way. It’s scheduled at the beginning of November.
Investigation into the causes of the fire is in progress.
Remainin that Progress base was open for the first time en 1989, under the past Russian Soviet Government

Hi friends
F6KOP, Provins ARC
Le radio club de Provins F6KOP recherche 3 a 4 opérateurs ssb cw et digi pour son expedition qui aura lieu du 8 au 19 janvier 2009 .
L’annonce officielle aura lieu vers le 15 novembre et la destination indiquée à cette époque.

Si vous êtes intéressés, merci de contacter Franck F4AJQ

au 06 82 19 54 57 ou f4ajq@...

Merci a tous

Merci Frank, F4AJQ

Guyane Française :

Bjr à tous

Comme chaque année, FY5KE prendra part au CQWW SSB en catégorie Multi-Single, qui se déroule le week-end prochain.

L'équipe, un peu réduite cette année, sera composée de F1HAR, F5HRY, F6FGZ, F6FVY, et FY5FY.

Malgré une concurrence qui s'annonce encore sévère cette année, nous nous efforcerons de hisser FY5KE sur la première marche du podium, sur laquelle nous avons trébuché l'année dernière !

A cette occasion, nous espérons bien entendu contacter un maximum de stations francophones, sur toutes les bandes.

73 et bon amusement à tous les participants !

Laurent - F6FVY pour l'équipe FY5KE
Merci Laurent, F6FVY

TO5DX – SAINT BARTTHELEMY
Hello DXers,

Après avoir été retardés, sur la via de St. Barthelemy, les TO5DX sont arrivés dans la nuit de vendredi. Ils vont monter antennes et sattions et vont bientôt émettre.
Bonne chasse et bon amusement.

ANTARCTIQUE:
Drame sur la base russe Progress en Antarctique
vendredi 10 octobre 2008, par _f5nzo_
(http://f5nzo.free.fr/spip/spip.php?auteur1)
C’est Dimanche 5 Octobre 2008 qu’un incendie s’est déclaré dans la base
russe, Un des travailleurs est décédé et deux autres sont blessés.
L’incendie a ravagé l’équipement radio ne permettant aucun contact avec les
autorités russes jusqu’à Jeudi dernier
Les blessés sont soignés dans la base voisine Zhong Shan qui appartient à la
Chine et se situe à 1.5 km.
L’évacuation ne se fera pas dans l’urgence et est prévue début novembre.
Une enquête sur les origine de l’incendie est en cours.
Rappelons que la base Progress a été ouverte en 1989

Hi friends
Would you publish this add and spread it as largely as possible.
Thanks in advance.
Maurice, F5NQL
Press Release n°1
TS7C, TUNISIA, KERKENNAH island – IOTA AF- 073
The F6KOP ARC once again on the road.
Hi friends book your diaries
Between January 2009, 8th to 19th, you have a rendez vous with the yearly Provins ARC, F6KOP Dxpedition.
This year with the help of Mustapha, DL1BDF the club is organizing a very important 12 days long traffic in Tunisia.
The QTH choosen is the Kerkennah island, IOTA AF-073.
This year it’s a F6KOP wish to permit to some newcomers to discover the dxpedition atmosphere, by working with experienced operators, and getting better skill in the pile ups. We want to make them the F6KOP new operators for the F6KOP dxpeditions of the future.
All HF bands will be worked, in CW, SSB, FM , and several digital modes like RTTY, PSK31, BPSK and also SSTV.
As it was made for 5H1C, XT2C and J5C, the team will pay attention on 160, 80 and 40m, but all the other bands will be worked as well.
To do , at least six , but probably seven stations, will work 24h a day, all with PA’s into beams, verticals and wire antennas.
More than 25 operators are already componing the team namely :
Ø Frank, F4AJQ, Team leader and former leader of all the past F6KOP Dxpéditions - - SSB and Digimodes –

Ø Mustapha, DL1BDF, - SSB - Digimodes , - Public relation with Tunisian authorities -

Ø Bernard, F9IE, - CW traffic leader

Ø N6OX, Bob, - SSB traffic leader
Ø Jean-Paul, F8BJI traffic leader.
Ø Sylvain, F4EGD, - SSB and digimodes - He is also the QSL manager of the Dxpedition.
Ø Flo, F5CWU - CW , SSB – He is also assistant QSL manager.
Ø Gerard, F2VX, - SSB –
Ø Bill, N2WB& - SSB CW –

Ø Michel, FM5CD - CW SSB Digimodes -

Ø Sébastien, F5UFX, SSB – CW
Ø Sébastien, F8IJV – SSB
Ø Jean-Luc, F6BIV, SSB, Digimodes -

Ø Norbert, F6AXX – CW -

Ø Alain, F6ENO – CW –

Ø Dieter , OE8KDK - SSB Digimodes-

Ø Stefan, OE8SKQ - CW -

Ø Mathieu, F5PED - CW -

Ø Eric, ON7RN - SSB CW -

Ø John, F5VHQ – SSB - (only for a part of the stay)

Ø Romain , F8BUI – CW -

Ø Gillares, F1HRE - SSB -

Ø Franco, F4EVR, - SSB -

Ø Michel, F5EOT – SSB –
Ø Arno, OE9AMJ – CW , SSB –

Ø Tony, G0OPB CW SSB

Ø Gabriele, I2VGW - SSB CW Digimodes
Ø XYL Anne Marie LAURENT, Photo reporter
The last operator's applyings are to be considered and this list will be completed very soon.
So please don’t call Frank, F4AJQ anymore. The list is now closed.
BACK OFFICE :
Ø Pilots Stations : Pascal, F5JSD, Serge, F6AML, Thierry, F4TTR and Bruno, F5AGB.
Ø Webmaster : Vincent, F5MJV; the Website is expected to be active soon.

Ø Internet Communications : Maurice, F5NQL, (UFT mailing list), for TS7C.
(To receive directly on one’s mail box the TS7C news, both in English and French language, ask to : _f5nql@..._ (mailto:f5nql@...))
QSL via Sylvain, F4EGD, either direct or bureau.
The complete information will appear on tne Dxpediton Webpage
As each year a lot of friendly companies will support our efforts to give this rare IOTA to most of you. Numerous individuals are doing so. Support and donations are welcome. We thank all of you.
So see you down the TS7C logbook.
73, TS7C team
Maurice, F5NQL, Internet Communication for TS7C
COMMUNIQUE DE PRESSE NUMERO 1:
TS7C, TUNISIA, Ile de KERKENNAH – IOTA AF- 073
Le RC de Provins, F6KOP est de nouveau sur la route.
Bonjour à tous, marquez vos agendas:
Du 8 au 19 janvier 2009, vous avez rendez-vous avec le RC de Provins, F6KOP, en expédition.

Cette année et avec l’aide de Mustapha, DL1BDF, le club organise une importante expédition de 12 jours de trafic, en Tunisie.
Le QTH choisi est l’île Kerkennah , IOTA AF-073.
Cette année le voeu de F6KOP, aura été d’incorporer dans l’équipe des nouveaux opérateurs pour leur faire découvrir l’ambiance expédition. Ils trafiqueront à côté d’opérateurs chevronnés, leur permettant ainsi d’acquérir une meilleure habileté dans les pile ups. Ils seront les opérateurs de F6KOP pour ses expéditions futures.
Toutes les bandes HF seront au programme avec de nombreux modes , CW, SSB, FM , et Modes numériques tels RTTY, PSK31, BPSK , SSTV.
Comme il se fit dans le passé à 5H1C, XT2C et J5C, l’équipe sera particulièrement attentive sur les bandes basses 160, 80 et 40m, mais il y aura du monde sur toutes les autres bandes bien sûr.
Pour ce faire, au moins six stations mais sans doute sept, seront sur l’air 24h sur 24. Toutes disposeront d’amplificateurs et d’antennes beams, verticales et autres filaires.
A ce jour plus de 25 personnes composent l’équipe TM7C savoir :
Ø Frank, F4AJQ, Chef d’Expédition, comme il le fit dans toutes les expéditions F6KOP. - SSB et Modes numériques.

Ø Mustapha, DL1BDF, - SSB - Modes numériques , - Chargé des relations publiques avec les Autorités Tunisiennes.

Ø Bernard, F9IE, - Responsable de l’organisation du trafic CW.

Ø Bob, N6OX, - Responsable de l’organisation du trafic SSB .
Ø Jean-Paul, F8BJI Responsable de l’organisation du trafic Modes numériques
Ø Sylvain, F4EGD, - SSB et Modes numériques - Il est aussi QSL manager de l’expédition.
Ø Flo, F5CWU - CW , SSB – Flo est aussi assistant QSL manager.
Ø Gerard, F2VX, - SSB –
Ø Bill, N2WB - SSB CW –

Ø Michel, FM5CD - CW SSB Modes numériques -

Ø Sébastien, F5UFX, SSB – CW
Ø Sébastien, F8IJV – SSB
Ø Jean-Luc, F6BIV, SSB, Modes numériques -

Ø Norbert, F6AXX – CW -

Ø Alain, F6ENO – CW –

Ø Dieter , OE8KDK - SSB Modes numériques -

Ø Stefan, OE8SKQ - CW -

Ø Mathieu, F5PED - CW -

Ø Eric, ON7RN - SSB CW -

Ø John, F5VHQ – SSB - (pour une partie du séjour seulement)

Ø Romain , F8BUI – CW -

Ø Gillares, F1HRE - SSB -

Ø Franco, F4EVR, - SSB -

Ø Michel, F5EOT – SSB –
Ø Arno, OE9AMJ – CW , SSB –

Ø Tony, G0OPB - CW SSB

Ø Gabriele, I2VGW - SSB CW Modes numériques

Ø XYL Anne Marie LAURENT, Photo reporter
Les dernières candidatures sont en cours d'examen et la liste sera complétée très vite.
Merci de ne plus appeler Frank. Considérez que la liste des opérateurs est maintenant close.
BACK OFFICE:
Ø Stations Pilote s : Pascal, F5JSD, Serge, F6AML, Thierry, F4TTR et Bruno, F5AGB.
Ø Webmaster : Vincent, F5MJV; La page WEB sera bientôt en ligne.
Ø Communications Internet: Maurice, F5NQL, for TS7C.
(Pour recevoir directement les info TS7C sur sa boite à lettres, en faire la demande à _f5nql@aol.om_ (mailto:f5nql@...))
QSL via Sylvain, F4EGD,, direct ou bureau REF-Union (SVP uniquement ce bureau) Les informations complètes seront prochainement publiées sur le site Web.
Comme chaque année, nombre de Sociétés amies nous aident dans notre effort pour donner ce rare IOTA à la majorité d'entre vous. Des individuels font de même. Les aides sont toujours bienvenues.Nous vous remercions tous.
s each year a lot of friendly companies will support our efforts to give this rare IOTA to most of you. Numerous individual are doing so. Support and donations are welcome.
A vous trouver sur notre carnet de trafic.

7690. IOTA P29, Contest, IOTA JA

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-21 09:52:32 UTC
From: F5nql@aol.com
Topic: 7690 Message: 7690

Hi friends
PAPUA:

The much-anticipated P29 expedition to two rare Papua-New Guinea islands starts today and runs through November 3. P29NI is on Garove Island, OC-181, for the next six days, then P29VLR will be on Hermit Island, OC-041, October 28-November 3. http://www.425dxn.org/dxped/p29_2008/. By the way, they left Saturday from Kokopo to Garove, by boat, the Barbarian II, a 40-hour trip. G3KHZ, Derek, says he, AD6E, K6YMC and W5GAI were accompanied by dolphins and flying fish. They planned to do some modification work on the HF multi-band antennas while en route.

Tks Bernie McClenny, W3UR and the Daily DX.

Contest from Tajikistan :
Philippe, EY8/F4EGS has got a leave and will be in the CQWW DX SSB contest with Nodir, EY8MM.
Each of them will compete with their own callsign.
In fact there will be two different stations in the contest : EY8/F4EGS (QSL HC) and EY8MM (QSL K1BV).
Acording to the gear available the bands choosen will be announced later.
Tks Phiippe, EY8/F4EGS.

Bonjour à tous
PAPOUASIE
L’expédition en P29 vers deux rares IOTA’sa commencé et durera jusqu’au 3
novembre.
P29NI est sur Garove , OC-181, pour les six prochains jours r puis
P29VLR sera sur Hermit,
OC-041, du 28 octobre au 3 novembre.
Page web : http://www.425dxn.org/dxped/p29_2008/.
Ils embarqueront samedi de Kokopo pour Garove, à bord du Barbarian II, pour
environ deux jours et demi de traversée. G3KHZ, Derek, a précisé que lui,
AD6E, K6YMC et seraient en compagnie des dauphoins et de poissons volants. Ils
essaieront d’apporter quelques modifications aux antennes pendant le
voyage.

Merci Bernie McClenny, W3UR et le Daily DX

Concours depuis le Tadjikistan :
Philippe, EY8/F4EGS has got a leave and will be in the CQWW DX SSB contest with Nodir, EY8MM.
Each of them will compete with their own callsign.
In fact there will be two different stations in the contest : EY8/F4EGS (QSL HC) and EY8MM (QSL K1BV).
Acording to the gear available the bands choosen will be announced later.
73

Merci P¨hilippe, EY8/F4EGS

From: K1XN
Topic: 7691 Message: 7691

Folks,
The Golist web site is not working again today. I have sent
the web master a message and hope he can fix it soon.
Looks like I need to look for another host for the web site.
But with the bands in such sad shape and no new subscriptions,
I probably will not be able to put out that expense right now.
If I knew how to do it myself, I would do it right away, but I don't.
Caught in a catch 22.
John K1XN

France SPECIAL EVENT :
On November 9th 2008, 20 navigators will set sails aboard their monohulls, heading towards the three great capes, marking the southern tips of the African continent, Australia and America. The Vendée Globe will start, for the 6th time, from the harbour of Les Sables d'Olonne, where it was born. And as far as the rest of the story is concerned… well, it's up to the sailors themselves now.

At this occasion, the Radio Club Vendéen is organizing a special activity around the race.
The team which consist of Bernard, F9IE, Patrice, F8BON, Roger « Pat » F6ACD, Jean-Claude,F6AQI, Jean-Louis, F6CVK, Alain, F5HPY, Lucien, F5RFS, Philippe, F5TRO , and Eric, F4LJW , will sign TM6VG from November 1st to 15th.
They will be active both in HF – 160 to 10m, included WARC bands, and VHF - 2m - , in CW, SSB, and various digital modes.
QSL via F6KUF, .. RC VENDEEN, 129 CITE DES FORGES, ESCALIER E - BATIMENT A, F 85000 LA ROCHE / YON (FRANCE)

7698. Ham Gear Stolen

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-22 18:47:20 UTC
From: K1XN
Topic: 7698 Message: 7698

Ham Gear Stolen from ETSU [East Tennessee State University]
It is very disturbing to report that several equipment items are missing from the ham radio shack (Room 225) in Wilson-Wallis Hall at ETSU.

Here are the items:

· Kenwood TS-680S Transceiver (SN: 9120681) including the companion Kenwood
PS-430 12-volt power supply (SN: 0020059) and handheld microphone

· Kenwood TM-261A (SN:70400378) 2-meter Transceiver with handheld microphone

· Alinco DR-570T (SN:0001978) Dual Band 144 and 440 MHz. Transceiver with handheld
microphone. The Alinco DR-570T has a missing rubber grip on a lower left hand knob
(sub-band or squelch).

To add insult to injury, ALL of the manuals for the above equipment are missing as well. Someone definitely knew what he was taking!

Jonathan Danials, K4ETC, University Amateur Radio Club
Secretary/Treasurer has reported that the door to the room was found unlocked sometime yesterday (October 9th) and this morning (October 10th).

It is believed that the equipment was taken sometime after the University Amateur Radio Club meeting Tuesday afternoon (October 7th).

Please be on the lookout at hamfests and on online sites such as eBay, QRZ.com etc. Please also spread the word via local ham radio club e-mail listings and web sites. If you see anything suspicious, please contact Bob May, K4SE at mayr@... <mailto:mayr@...> or k4se@... <mailto:k4se@...> .

Thanks and 73,

Bob May (K4SE)

I.C.P.O. Bulletin (October 23-31, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

21/10/2008: PZ5Z UPDATED - VHF & EME CANCELLED - The OM0C Contest Crew is pleased to announce a DXpedition to Suriname. The group of 5 operators will be active as PZ5Z from Suriname between October 21-30th, including an entry in the CQWW DX SSB Contest (October 25-26th). Activity on all HF bands (160m-10m), with focus on low bands, especially 160m. Team members include Rich/OM2TW, Joe/OM5AW, Steve/OM5AA, David/OK1RK, Vlada/OK1NY, maybe others... QSL via OM2FY, direct (Branislav Daras OM2FY, P.O. Box 6, 82008 Bratislava 28, SLOVAKIA - EUROPE) or by the bureau. Further information at www.om0c.com/suriname/ [NG3K]

22/10/2008: Steve, 9M6DXX will be active as 9M8Z from Sarawak, East Malaysia, from October 22-26th, including an entry in the CQ WW DX SSB Contest. Before the contest he will operate as time permits. QSL via M0URX, direct or bureau. [425 DX News]

22/10/2008: John, W5JON will be active as V4/W5JON from Ariel Heights, North Frigate Bay, St. Kitts (NA-104, WW Loc. FK87SG) from October 22-31st. Activity is planned for 6-160m SSB, including an entry in the CQWW DX SSB Contest (October 25-26th). The QTH is mountain top with a 330 degree view. Equipment will be IC-7000, RM Italy KL-400 Amplifier (400 Watts), Alpha Delta 10-160 meter dipoles and a 3 element yagi on 6 meters. QSL via home call (QRZ.com). [NG3K]

22/10/2008: Irv, K3IRV will be active as VP9/K3IRV from the island of Bermuda (NA-005, WLOTA LH-0201) from October 22-28th. QRV holiday style 80-10 meter SSB only, including an entry in the CQWW DX SSB Contest. QSL via home call. [NG3K]

22/10/2008: Jay/K0BCN (V31MX), Tom/AB5XZ and possibly others will be active from Cay Caulker (NA-073), Belize, from October 22-29th. They will participate in the CQ WW DX SSB Contest, most likely as V31MX (Multi-Single). QSL V31MX via K0BCN. [425 DX News]

23/10/2008: Ed/K3IXD, Pete/W2GJ, Dallas/W3PP and Bob/W8ZA will be active as C6APR from the Crooked Island Lodge, Pittstown Point, Crooked Island (NA-113), Bahamas, in the multi-2 category during the CQWW SSB contest (October 25-26th). The lodge manager has confirmed that the lodge survived both Hanna and Ike hurricanes. Before and after the contest (October 23-27th) C6APR will be on 160m through 10m including the WARC bands, CW and SSB. Before and after the contest (October 23-27th) C6AXD will be on 160m through 10m including the WARC bands,

mostly RTTY and some SSB. Both calls are good for Bird Rock Lighthouse (ARLHS WLOL BAH-005, TWLHD WLH C6-002, WLOTA LH-0118, Admiralty J4792) and Grid FL22TT. All QSLs to K3IXD. [K3IXD]

23/10/2008: Laci, HA6NL and friends will be active from Thasos Island (EU-174, MIA MG-124, WLOTA LH-4186) from October 23rd to November 8th. They will take part in The CQ WW DX SSB contest as M/S, and in HA-QRP activity week (November 1-8th) with J48RT call (QSL via HA6NL). The operators will use all HF bands, and will try to work via satellites too: Peter/HA5OV (J48OV), Laci/HA6NL (J48NL), Zsolt/HA6PS (J48PS), Al/HA7JJS (J48JJ) and Laci/HA7PL (J48P). QSL via HA bureau or via the operators addresses at QRZ.com. [HA0HW]

23/10/2008: Look for Igor, RN1CR to be active October 23rd as homecall/1 from the Admiralteyskaya fortress (RC-001, for the Russian Castles Award). QRV 20 meters only (14.180+/- or 14.205+/- MHz) from 1300 to 1700 UTC. QSL via home call. [SRT-DX]

23/10/2008: Operators Jozef/ON4ACA and Marcel/ON6UQ will be active as SI9AM from the King Chulalongkorn Memorial Amateur Radio Society during the CQ WW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via SI9AM. The operators will be active before and after the contest between October 23-27th. Look for them to be on all bands mainly on CW. Also, look at the special award available for working SI8AM at: http://www.si9am.se [OPDX Bulletin]

23/10/2008: Tom/NY0V (T32CXX) and Rod/K0DAS (T32DAS) will be active from Christmas Island [Kiritimati] (OC-024), Eastern Kiribati, from October 23rd-28th. They plan to operate the CQWW DX SSB Contest (October 25-26th) as T32CXX, a Multi-Single (Zone 31) entry. QSL to T32CXX via W0CXX. QSL for T32DAS to K0DAS. [NG3K]

23/10/2008: Fukuda T88FY (JK2VOC) and Nose T88AC (JA2BNN) will be active from the Palau rental shack, Koror Island (OC-009, WW Loc. PJ77FI), Palau, from October 23-28th, including a Single-Op/All-Band entry in the CQWW DX SSB Contest (October 25-26th). Outside the contest look for them to be QRV on 80-6 meters. QSL via home calls. [NG3K]

23/10/2008: Operators Ken/K2WB, Jack/N2VW, Tony/W2WAS and Frank/WA2VYA will be QRV from 'The Hamlet' on Providenciales Island (NA-002, WW Loc. FL31VS) from October 23-29th. They will use the call sign VP5T during the CQWW DX SSB Contest (October 25-26th) as a Multi-Multi entry. Look for activity as VP5/homecalls on CW, WARC and 60 meters before and after contest. QSL VP5T via LoTW, and direct or bureau to N2VW. QSL VP5/homecall to homecall. [NG3K]

23/10/2008: Retu, XU7MDY will be QRV once again from Sihanoukville, Cambodia, between October 23rd and November 8th. Modes planned are CW SSB, RTTY and PSK3 on following frequencies: 1822, 3502, 7006, 10104, 14007, 21007, 24897 and 28020 kHz. QRV on 6m also. Retu will also be joined by Mika/OH4YR (XU7YYR), Jussi/OH4KBC (XU7KBC) and Rami/OH3BHL (XU7BHL). QSLs only direct via OH4MDY. [NG3K]

23/10/2008: Operators Alfredo/IK7JWX (mdxc#178), Nicola/I0SNY (mdxc#289), Pino/I8YGZ (mdxc#438), Leopoldo/I8LWL (mdxc#097) and Oscar/IK2AQZ will be active from Sazan Island [Ishull i Sazanit] (EU-169, MIA MA-001) and lighthouse (ARLHS ALB-004, TWLHD WLH ZA-001, WLOTA LH-0028, Admiralty E3723, WW Loc. JN90PM), Albania, as ZA0/homecall between October 23-29th. QRV all HF, WARC, VHF bands using SSB, CW, RTTY, PSK-31 and meteor scatter. QSL manager: IK7JWX only for DL stations. QSL all operators via their home call, direct or bureau. Further info at www.sazan2008.altervista.org/ [Pete's-DX-Newsdesk]

24/10/2008: Operators Chris/MW0DOL, Merv/MI0TMW, Arthur/MM0DHQ, John/G8LGC, Gary/2E0NNH, Richard/M0RGB, Art/SP3CW and others will be active as GB4HI from Holy Island and the Isle of Anglsey [aka Anglsey An], Wales, from October 24-31st. They plan to activate CASHOTA references and will try to activate some lighthouses. QRV on all bands and modes. They will be staying in two locations, one at Carmel on Anglsey (EU-124) and the other at Holy Head on Holy Island (EU-124, WW Loc. IO73QH, WAB SH28). QSL via M0DOL. [Southgate ARC]

24/10/2008: Operators Nobuo/JA6GCE, Shinichi/JA6SOV and Naomi/JM6EBU (YL) will operate from Ecuador between October 24th and November 2nd. Hiro/HC5WW and the above three JAs will participate in the CQWW DX SSB Contest (October 25-26th) as a Multi-Op/Single-TX/High-Power entry. Their contest call sign will be HD5J. Outside of the contest they will operate as homecall/HC5 on 160-10 meters using CW, SSB and RTTY. After the contest they will travel to Galapagos Island (SA-004), and they hope to operate from there as homecall/HC8 until November 1st. However, their operations will be limited because of sightseeing. QSL information is as follows: JA6GCE/HC5, JA6SOV/HC5, JM6EBU/HC5 via their home call signs: JA6GCE (Nobuo Matsuoka, 7-10-3 Toroku, Kumamoto, 862-0970 JAPAN); JA6SOV (Shinichi Morita; 4-2 Moai-machi, Yatsushiro, 869-5153 JAPAN); JM6EBU (Naomi Mihara, 598-1 Miyahara, Hikawa, 869-4602 JAPAN). HC5WW and HC5WW/HC8 via JA6VU (Masaaki Kano, 712 Kagami, Kagami-machi, Yatsushiro, 869-4203 JAPAN). [JA1ELY]

24/10/2008: Operators Raffaello/IT9ATF, Renato/IT9NPR, Pippo/IT9PPG and Pino/IT9WDC will be active from the island of Favignana (EU-054, IIA TP-011, MIA MI-025, WLOTA LH-1545) using the call sign IF9A from October 24-26th, including an entry in the CQWW DX SSB Contest (October 25-26th). QSL via IT9ATF, direct or bureau. [rsgbiota.org]

24/10/2008: Operators Lee/HL1IWD and Harry/WX8C will be active from Koror Island, Palau Islands (OC-009) as T88YB and T88OO, respectively, from October 24-27th. Activity will be on 80-10 meters using CW, SSB and possibly some RTTY. The operation will include an entry in CQWW SSB contest as T88YB. QSL via their home call signs, by the bureau or direct. [OPDX Bulletin]

24/10/2008: A team of seven VU operators, including the YLs Yamini/VU2YAM, and Bhanumathy/VU2BL, will be active as VU4MY from Port Blair, South Andaman Island (AS-001, WLOTA LH-0562) from Octorber 24th to November 3rd, as part of the NIAR Silver Jubilee celebrations. QSL

direct to DJ7JC. [OPDX Bulletin]

24/10/2008: Helmut, DL5DSM (VU3NLG) and Norbert, DJ7JC (VU3NLF) will be active October 24th to November 3rd from Port Blair, South Andaman Island (AS-001, WLOTA LH-0562) using the call sign VU4RG. QRV with two station on 160-10m CW, SSB, BPSK and RTTY, with amplifiers, a G5RV for 160-80m, a phased array (2 GPs) for 40m, a GP for 30m, a 5-band Spiderbeam for 20-10m and a GP for 15m. VU4RG will be QRV during the CQ WW DX SSB Contest (October 25-26th). QSL via DJ7JC. [425 DX News]

24/10/2008: Look for Madhu/VU2UWZ and XYL Nisha/VU2NIS to be QRV October 24-November 3rd from Kadmat Island [Cardamum] (AS-011), Lakshadweeps, as part of the NIAR Silver Jubilee celebrations. QSL via VU2UWZ, direct only. [OPDX Bulletin]

24/10/2008: Franz/DL9GFB, Juergen/DF7TT, Jos/VU2JOS and Jan/DJ8NK will be QRV as VU7SJ from Agatti Island (AS-011), Lakshadweeps between October 24th and November 4th. QSL via DL9GFB (Franz Berndt, Heinrich-Heine-Strasse 1, D-18209 Bad Doberan, GERMANY). [OPDX Bulletin]

24/10/2008: David, N1EMC will be QRV October 24-31st from Alofi, Niue Island (OC-040) as ZK2DF. Activity planned is mainly 40 meters and 20-6 meters, plus a Single-Op entry in the CQWW DX SSB Contest (October 25-26th). QSL via N1EMC. [NG3K]

25/10/2008: Look for Craig AH8DX to be active as FJ/AH8DX from St. Barthelemy Island (NA-146, DIFO FJ-001, WLOTA LH-0377) during the CQWW DX SSB Contest as a Single-Op/All-Band entry. Craig will be active on RTTY before and after the contest. QSL via home call. [NG3K]

25/10/2008: Operators TI2JCY, TI2KAC, TI4ZM, TI2CCC, K4UN, W4BW, W4KTR and W4XO will be QRV as TI1R from outside San Jose, Costa Rica, during the CQWW DX SSB Contest as a Multi-2 entry. QSL via TI2JCY, bureau preferred. The team will also be active from October 21-28th as TI2/homecall on 160-10m. [NG3K]

25/10/2008: Paul, K1XM will be active as TO4X from the island of French Saint Martin (NA-105, DIFO FS-001, WLOTA LH-0383) during the CQWW DX SSB Contest. He will also be joined by Ann/WA1S and Charlotte/KQ1F for a Multi-2 or Multi-Single entry. Look for activity before and after the contest. QSL via KQ1F. [NG3K]

26/10/2008: "Oku" Seiji, JK1KSB, will be active as 8Q7SO from Mirihi Island (AS-013), a south Ari Atoll (WW Loc. MJ63JO), between October 26th and November 1st. Activity will be holiday style on 80-10 meters using CW, SSB, RTTY and PSK31. QSL via JK1KSB, direct or bureau. [OPDX Bulletin]

26/10/2008: The Radio Operadores del Este, KP3RE will activate Isla Palominos (NA-099, USi PR-009), located in Fajardo County, Puerto Rico, on October 26th. Frequencies will be 20m, 17m and maybe 15m, Phone and they will be using batteries and solar power. 20m PSK also. Antennas

will be verticals. And also they will use QRP CW for 20m at 2.5 Watts QRP frequency 14.060 MHz (+/-). QSL via KP4RD. [USi]

26/10/2008: Operator Shoji/JA7HMZ will once again be active from Pohnpei (OC-010), but this time he will sign as V6B between October 26th and November 1st. It is possible he may particiate in the CQWW DX SSB Contest. QSL via home call. [OPDX Bulletin]

28/10/2008: Operators Garry/K9WZB and Sharon/K7WZB will be active from the island of Aruba (SA-036, WLOTA LH-0033) as P40ZB between October 28th and November 6th. Activity will be on 40/20/15/10/6 meters using SSB, RTTY, CW and PSK31. QSL via K9WZB, direct only. [OPDX Bulletin]

30/10/2008: As guests of the Royal Omani ARS (ROARS), the Lufthansa Amateur RC (LARC), along with he Norden District of the DARC (DOK I09) will be active October 30th until November 11th using the following call signs: A43DLH operating from the ROARS HQ; and A43DLH/p operating from the Omani Scout camp, city of Muscate (WW Loc. LL93FO). QRV 160m and up on as many bands as possible, 24 hours per day, using CW, SSB and digital modes including SSTV. QSL via DK7PE. [F5NQL]

31/10/2008: Martin, G3ZAY and Michael, G7VJR will be active as GU3ZAY and GU7VJR from Guernsey (EU-114, WLOTA LH-0013) between October 31st and November 2nd. They will use verticals and a small linear amplifier, with activity on SSB and CW. They hope to be QRV on LF bands if space permits. QSL via G7VJR. Logs will be uploaded to LoTW. [425 DX News]

31/10/2008: The JA1KJW group plans to be active from Guam Island (OC-026, also count for WLOTA LH-0064) from October 31st to November 3rd on all HF bands, using SSB, CW, RTTY and SSTV. The following operators will be QRV: KH2/NI2J (QSL via JH1VVW), KH2/AK0J (QSL via JA1KJW), KH2/WH7QL (QSL via JA1XVY), KH2/NV1J (QSL via JA1FUY), KH2/JJ1JGI (QSL via home call), KH2/JJ1HKS (QSL via home call) and KH2/JF1GUQ (QSL via home call). You can QSL direct or via the bureau. [JI6KVR]

31/10/2008: Mat/JA1JQY and Kuni/JA8VE will QRV from Vanuatu, New Hebrides (OC-035) between October 31st and November 6th. Call signs will be given when they visit the telecom office. They will operate 80m-10m using SSB, CW and possibly RTTY. They will try 160m if the local situation permits. JA1JQY handles his QSL. JF1OCQ handles JA8VE's QSL. JA1JQY: Shigeo Matsu, 2-31-10 Shimoseya, Seya, Yokohama, 246-0035 JAPAN. JF1OCQ: Hiroyuki Miyake, 1-3-6 Asakura, Maebashi, 371-0811 JAPAN. [JI6KVR]

==========
LOOKING AHEAD -

01/11/2008: On November 9th 2008, 20 navigators will set sails aboard their monohulls, heading towards the three great capes, marking the southern tips of the African continent, Australia and America. The Vend?e Globe will start, for the 6th time, from the harbour of Les Sables d'Olonne, where it was born. And as far as the rest of the story is concerned... well, it's up to the sailors themselves now. At this occasion, the Radio Club Vend?en is organizing a special activity around the race. The team which consists of Bernard/F9IE, Patrice/F8BON, Roger, Pat/F6ACD, Jean-Claude/F6AQI, Jean-Louis/F6CVK, Alain/F5HPY, Lucien/F5RFS, Philippe/F5TRO and Eric/F4LJW will sign TM6VG from November 1st to 15th. They will be QRV both HF - 160 to 10m, included WARC bands, and VHF - 2m - , using CW, SSB, and various digital modes. QSL via F6KUF (RC Vendeen, 129 Cite Des Forges, Escalier E - Batiment A, F 85000 La Roche / Yon, FRANCE). [F5NQL]

06/11/2008: A team of 4 DL operators (arkus/DL9RCF, Hartmut/DM5TI, Uwe/DL9NDS and Chris/DL5NAM) will work in WAE RTTY Contest (November 8-9th) from Hamad's station 9K2HN. Before and after contest (November 6-17th) they will focus on the WARC bands using RTTY, SSB and CW. QSLing via 9K2HN (see www.9k2hn.com/). Log at www.logsearch.de/ [NG3K]

10/11/2008: Jean Paul ON7AMI will be QRV November 10-15th from La Palma Island (AF-004, DIE S-013, WLOTA LH-1648). QRV 7050 kHz SSB, 7007 kHz CW, mainly during evening hours. Activities are also planned on 15m, 6m

an 2m, conditions permitting, QSL to ON7AMI via the bureau. [rsgbiota.org]

15/11/2008: Operators KC1SS, K4UBT, W4MKH, N4FPS, W9QGB, W7GAM, N6VX and AB4EW will be active from Talbot Island (NA-138, USi FL-121S), Duval County, Florida, November 15-16th. They plan to be QRV all bands using CW and SSB. QSL via N4AUG (QRZ.com). [rsgbiota.org]

19/11/2008: Russell, G5XW will be touring the Orkney Islands (EU-009) from November 19-23rd. Activation of various islands in the Orkney group, excluding Stroma. QSL direct only via G5XW (QRZ.com), with SASE/SAE and sufficient postage. [rsgbiota.org]

21/11/2008: The 095 DX TEAM will be active from Salina Island (EU-017, IIA ME-015, MIA MI-083, WLOTA LH-1005) from November 21-23rd. Look for the following operators to be active - ID9/IW9GUR, ID9/IW9HLM, ID9/IW9HQP, ID9/IT9RKR and ID9/IT9GCG. The team will also activate Fossa delle felci Mountain (SOTA reference SL-022). QSL all calls via their home call signs, direct or bureau. Further information can be found on their website at www.095dxteam.org/ [rsgbiota.org]

22/11/2008: Niko, S53A will be active from The Hippo Lodge (www.hippolodge.com/), Kafue National Park, Zambia, from November 22nd to December 2nd, using the call sign 9J3A. He will also be QRV for CQWW DX CW Contest (November 29-30th). Power generator, spider beam for high bands, wire beams for low bands and Low power - IC7000. QSL via home call. [NG3K]

23/11/2008: Kenny, K2KW will be active from Eleuthera Island (NA-001), Bahamas, from November 23rd to December 1st as C6ATA, including a Single-Op/Single-Band (80m)/Low-Power entry in the CQWW DX CW Contest (November 29-30th). Outside the contest he will be QRV 160-20 meters. QSL via WA4WTG. [NG3K]

29/11/2008: Stuie, VK8NSB plans to participate in the CQWW DX CW Contest (November 29-30th) from Darwin, NT, Australia (OC-001, also count for WLOTA LH-1520) as a Single-Op/All-Band entry. QSL via VK6NE, direct or bureau. [NG3K]

29/11/2008: John, K6AM will be active from the Cayman Islands (NA-016, WLOTA LH-1042) during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. QSL via home call, direct or bureau. [NG3K]

29/11/2008: Dale, N3BNA will be active as ZP0R from Asuncion, Paraguay (Zone 11) for the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. Before and after the contest, Dale will focus on the WARC bands. QSL via ZP5AZL, direct only. [NG3K]

08/01/2009: The Provins ARC, F6KOP will be active as TS7C from the Kerkenah Islands (AF-073), Tunisia, from January 8-19th. Planned activity will be on all HF bands, using CW, SSB, FM, and several digital modes like RTTY, PSK31, BPSK and also SSTV. The team will pay attention

on 160, 80 and 40m, but all the other bands will be worked as well. They also plan to have at least six, but probably seven stations, working 24 hours a day, all with PA's into beams, verticals and wire antennas. Operators mentioned include Frank/F4AJQ, Mustapha/DL1BDF, Bernard/F9IE, Bob/N6OX, Jean-Paul/F8BJI, Sylvain/F4EGD, Flo/F5CWU, Gerard/F2VX, Bill/N2WB, Michel/FM5CD, S?bastien/F5UFX, S?bastien/F8IJV, Jean-Luc/F6BIV, Norbert/F6AXX, Alain/F6ENO, Dieter/OE8KDK, Stefan/OE8SKQ, Mathieu/F5PED, Eric/ON7RN, John/F5VHQ, Romain/F8BUI, Gillares/F1HRE, Franco/F4EVR, Michel/F5EOT, Arno/OE9AMJ, Tony/G0OPB, Gabriele/I2VGW and XYL Anne Marie Laurent (photo reporter). Pilots stations will be Pascal/F5JSD, Serge/F6AML, Thierry/F4TTR and Bruno/F5AGB. QSL manager is F4EGD. Further information will be available soon, along with their website. [F5NQL]

12/01/2009: Steve, G3ZVW will be active again as ZD8N from Ascension Island (AF-003) from January 12-27th. Activity will be on CW, RTTY and SSB, mainly on the HF bands (30-10 metres). [425 DX News]

21/02/2009: Mark, K0EJ will be active as V44 (call sign TBD) from the island of St. Kitts (NA-104) during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band entry. Outside the contest he will be signing V44/K0EJ on all bands. QSL route also to be decided. [NG3K]

==========

SPECIAL EVENTS -

23/10/2008: Members of the Turkish group called TCSWAT (Special Wireless Activity Team) will activate the special station TC85TC to celebrate the 85th anniversary of the Republic of Turkey. The activity will be between October 23rd and December 2nd. The first 85 direct QSLs will be replied to with a special Turkish Post Office stamp together with a CD about Turkey. Activity will be mainly on 17, 20 and 40 meter bands. QSL Manager is TA1HZ. [OPDX Bulletin]

24/10/2008: Special call sign GB8LS will be on the air from the Leicester Amateur Radio Show October 24th. QSL via the RSGB bureau. [GB2RS]

25/10/2008: Operators Hal/W8HC, Jerry/K8OQL and Ruben/4Z5FI will be active from the historic Masada at the Dead Sea as special event station for Israel's 2008 60-year Anniversary using the special call sign 4X0C, as a Multi-Single entry in the CQWW DX SSB Contest (October 25-26th). They have been granted permission to operate as 4X0C as a special event/contest station from atop Israel's historical Masada National Park. Masada was built during 37 BC to 31 BC by Herod the Great and served as a "nearly" impenetrable stone fortress and palace. QSL via W8HC, bureau preferred. Logs will also be uploaded to LoTW. Further information can be found at: www.w8hc.com/ [NG3K]

25/10/2008: Special event call II20CJ will be aired between October 25th and November 30th to celebrate the 20th anniversary of ARI Cinisello Balsamo (IQ2CJ). Expect activity on the HF bands and 2 metres, as well as during the CQ WW DX SSB and CW contests. QSL via IW2HAJ,

direct or bureau. [425 DX News]

25/10/2008: To commemorate the 20th annversary of the Spanish magazine "Radio-Noticias", look for the special event station EH1RN to operate between October 25-26th. A special award and QSL will be available. QSL to: Radio-Noticias, Apartado 368, 15780 Santiago de Compostela, Spain. For more information, visit: www.radionoticias.com/ [OPDX Bulletin]

25/10/2008: Look for special event call sign GB2PPS to be aired October 25th from the Papplewock pumping Station in Ravenshead. QSL via the RSGB bureau. [GB2RS]

31/10/2008: UBA club members of CRD are proud to be on air with this special event call sign to celebrate the 55th anniversary of the first ever Belgian TV broadcast in 1953. ON55INR will be aired on SSB, CW and digital modes from October 31st to December 31st 2008. A special QSL will be returned for each QSL via the bureau. [UBA HF News]

31/10/2008: Over the weekend of the Llandudno Radio Rally the Eddystone User Group call signs G3EUG and G7EUG will be aired from atop the Great Orme at Llandudno. Using the Special Event Club Prefix of 'GC' will provide the rare call signs of GC3EUG on 80m and GC7EUG on 40m. Operation will be on Friday October 31st and Sunday November 2nd from about 0900H with AM on 3605 kHz for an hour followed by LSB on about 3710 kHz, both days. [Southgate ARC]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html
==========
SIX METERS & UP -

9L SIERRA LEON - Karl, DK2WV and other operators from Germany and England, plus one local operator, will be active as 9L0W from Sierra Leone between 21 October and 11 November. The team will counduct training courses in Amateur Radio at the University of Freetown. Activity will be on 160-6 metres with up to three stations, with amplifiers and different antennas. QSL via DK2WV, direct or bureau. [MMMonVHF]

T88AC: Palau (OC-009) October 23-28 Grid:PJ77FI 6M 500W 5el yagi QSL JA2BNN (d/b)

T88FY: Palau (OC-009) October 23-28 Grid:PJ77FI 6M 500W 5el yagi QSL JK2VOC (d/b)

V5 NAMIBIA - A VHF DXpedition to Namibia is presently in the final planning stages. Although not yet 100% confirmed, it is most likely that the operation will be from Luderitz and will concentrate on VHF with all authorized bands and modes active. Moonbounce, meteor scatter and satellite operation are planned on the amateur bands from 50 to 1296 MHz. If you are interested maybe to join the trip or donate please have a look at: www.mmmonvhf.de/latest.php?id=2027 [MMMonVHF]

VK9DWX - Willis Island taking place October 2008 LATEST NEWS by OZ6OM, dated 2008-10-09: The German lead VK9DWX team is now QRV from Willis Island. So far activity has only been on 17 meters. The team has a Web page at www.vk9dwx.de/. They are expected to be there until October 27th. QSL via DJ2MX. LATEST NEWS de OH1ZAA via UKSMG Annnounce, dated 2008-10-17: According to their Oct. 16th news-bulletin (#11) VK9DWX has a 50 MHz antenna up now, but is complaining of lack of activity. Make sure that they will hear something! [MMMonVHF]

7701. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-23 20:28:33 UTC
From: K1XN
Topic: 5889 Message: 7701

The /*OCTOBER */*/2008 /**Issue #810-D* files have been uploaded to the
Golist web site.
The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file. I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
/*Now is a good time to send in your RENEWAL to GoWin *//*
if your subscription is about to expire.*/

7703. WINTER 2009 RAC CALL BOOK

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-24 02:18:17 UTC
From: GOLIST
Topic: 7703 Message: 7703

Hi folks,
I am preparing to start invoicing for the WINTER 2009
RAC Call Book during the first week of November.
The pricing will be same as last year. The regular
discount price is $40.50 with Free shipping to USA.
$5.00 shipping charge to everywhere else.
If you are a current Golist subscriber you receive an
additional discount and the price is $37.50. Shipping
applies as above.
If you wish to pay via US check or Money Order, now
is the time to be sending it in to the address below. If I
have a credit card on file for you then I will make the invoice
and use that card information. If you have had your card
updated, I will need the current expiration date and security
code from the back of the card. If the entire card has changed,
I suggest you use the Secure order form on the Golist web site
and fill out a new order for RAC using your new card info.
You can send your new card info via mail or email. Remember
that email is NOT a secure method of send sensitive info.
I expect delivery of my order which I will place during the 2nd
week of November to be shipped to me in the last week of
November. I will start shipping immediately upon receiving the
cds.
Thank you for your orders and support.

7704. NCDXF now QRV on Twitter

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-24 02:21:47 UTC
From: K1XN
Topic: 7704 Message: 7704

The Northern California DX Foundation, NCDXF, is now QRV on Twitter! Twitter users can follow NCDXF by going to http://twitter.com/NCDXF/ and clicking on the "Follow" link. We intend to use Twitter to keep DXers informed about NCDXF activities and related news.

If you're not really sure what Twitter is all about, just go to http://twitter.com/ to find out. Chances are pretty good that several of your ham buddies or other friends and family members are already active on Twitter. You might also want to look at some of the many free Twitter tools and related applications, such as Twhirl (http://www.twhirl.org/).

If you have any questions, feel free to ask!

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
NCDXF NOW QRV ON TWITTER -

The Northern California DX Foundation, NCDXF, is now QRV on Twitter! Twitter users can follow NCDXF by going to http://twitter.com/NCDXF/ and clicking on the "Follow" link. We intend to use Twitter to keep DXers informed about NCDXF activities and related news.

If you're not really sure what Twitter is all about, just go to http://twitter.com/ to find out. Chances are pretty good that several of your ham buddies or other friends and family members are already active on Twitter. You might also want to look at some of the many free Twitter tools and related applications, such as Twhirl (http://www.twhirl.org/).

If you have any questions, feel free to ask!

73,
Tim Totten, N4GN
E-mail: n4gn@...
Web: www.n4gn.com
Skype: timtotten
Twitter: twitter.com/N4GN

VQ9 - CHAGOS

UPDATE -
==========
Pse, inform all your om friends in the world !
Thanks in advance !

73 de Fred & ZA0/ team
IK7JWX

We are very happy to inform all that during the first day 10/23/2008 we made a total of 3.790 qso : 17, 20, 40, 80 m., ssb. cw.

... and this is only the beginning ....

Today ZA0/I8YGZ had a good qso via Meteor Scatter with an italian om.

Best 73 to all by the team ZA0/ :
Fred ik7jwx, Nicola i0sny, Pino i8ygz, Leopoldo i8lwl, Oscar ik2aqz.

Pse, visite our web-site :
http://sazan2008.altervista.org

This message is sended from the internet room of the 28? Naval Group of Sazan island.

VQ9 - CHAGOS

7711. 5J0T DX NEWS

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-24 23:38:29 UTC
From: K1XN
Topic: 7711 Message: 7711

5J0T will be active from Bajo Nuevo (IOTA NA-132) and
Roncador Bank (IOTA NA-133) between Nov 19 and Dec 02,
2008. The four person DXpedition will focus on low band
operation, especially 160 meters, and will be operated by
AA7JV, HA7RY, HK0JJH and HA8MT. (AA7JV and HA7RY were
behind last year?^(TM)s VK9WWI Willis Islets operation.) The
group will operate two stations from 160 to 6 m.
5J0T will also participate in the CQ WW CW Contest from
Zone 8. There will also be operation with the call-sign
HK0/HK3JJH.

Bajo Nuevo is a small reef that belongs to Colombia (HK0)
and is located 170 miles south of Jamaica in the central
Caribbean. The reef contains a number of small barren sand
cays, one which carries a navigation light.
http://en.wikipedia.org/wiki/Bajo_Nuevo_Bank

Roncador Bank is located 150 miles south-west of Bajo
Nuevo
http://www.oceandots.com/atlantic/san-andres/roncador.htm
.

Plans are to operate from November 18 to 21 from Roncador
Bank, and between November 23 and December 02 from Bajo
Nuevo. Both reefs are part of San Andres region, HK0.

QSL for 5J0T via HA7RY. For HK0/HK3JJH QSO-s QSL via
HK3JJH.

For further information see: http://www.5J0T.com/

They were, but probably still count as IOTA islands. Also, some of us
might just like to work them now for the fun of it because we didn't get
them 'way back when.
:-)

David,
I can not find a problem with the order form this time.
I suspect that you missed pressing the CONTINUE button
on the confirmation screen. That is what I think happened.
I will be glad to manually make an order for you if you
send me your information via support@...

Hey John. I tried it again and it worked. It listed the price as $40,
but I guess you can change it to the member's price. Thanks!

John or Anyone, is there any plans to interface this with Logic 8 and upcoming Logic 9, really cool program! I went to your Web site about QSL info, no rig yet I am interested in it. I wonder how up to date is it with Logic QSL info that is free? Logic uses DBF files. Could you let me know? Logic Web site is as follows
www.hosenose.com

His name is Dennis!

7722. U.S. Army is flagging the popular blogging service Twitter

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-26 21:33:35 UTC
From: K1XN
Topic: 7722 Message: 7722

* The U.S. Army is flagging the popular blogging service Twitter as a potential terrorist tool, the Agence France-Presse news agency reported Sunday.*

A recently released report by the 304th Military Intelligence Battalion contains a chapter entitled "Potential for Terrorist Use of Twitter," which expresses concern over the increasing use of Twitter by political and religious groups, the AFP reported.

"Twitter has also become a social activism tool for socialists, human rights groups, communists, vegetarians, anarchists, religious communities, atheists, political enthusiasts, hacktivists and others to communicate with each other and to send messages to broader audiences," according to the report.

"Twitter is already used by some members to post and/or support extremist ideologies and perspectives," the Army report said.

The blogging service and social networking site has previously sent out messages known as "Tweets" faster than news organizations during such major news events as the July Los Angeles earthquake and the Republican National Convention in Minneapolis.

"Terrorists could theoretically use Twitter social networking in the U.S. as an operation tool," the Army report said.

Hi friends
Two important remainings:
A5 Bouthan
100th anniversary of the Buthan Kingdom.
The Clipperton DX Club members, Gérard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK
and Vincent/G0LMX will sign A5100A (A5 for Buthan , 100 - one hundred - for
the 100th anniversary of the Buthan Kingdom and the A suffix) .
They will be in Buthan between November 7th to 17th.
With Pradan A51PN, they plan to be active too in /p from three other
locations in Buthan.
QSL via F9DK
Tks Jean Michel/F6AJA and LNDX

OMAN:

A43DLH DXpedition .
As guests of the Royal Omani ARS (ROARS) , the Lufthansa Amateur RC
(LARC), along with he Norden District of the DARC (DOK I09) will be active under
the two following callsigns :
A43DLH operating from the ROARS HQ
and
A43 DLH/P operating from the Omani Scout camp.
Dates : from October 30th until November 11th.
Traffic scheduled 24h a day .
Bands from 160m and up on as number of as possible.

Modes : CW, SSB and digitals included SSTV/
QSL Manager OM. Rudi (DK7PE).
New update :
The first OPs arrive Oct. 30th.

The first signals should appear on the bands Oct 31st. Antennas will be
errected for more bands.

The 160m vertical will arrive Nov. 2nd.

Frank (DL8YHR) will arrive and start with his UHF/VHF EME operation Nov.
05th.
About the locations, there are in the city of Muscate Locator (LL93FO)

Please! Let's not turn the GO-List into another poltically based bashing site. There's enough of them out there. I would hope the Go-List sticks to ham radio related topics and/or issues.

This was not a political message. I posted earlier in the week
a message that encouraged all to use the TWITTER service.

When I read the message from the Military bulletin, I felt I
should post it to the group as well. I want all my folks to be
safe and if this site has received a warning I want my folks
to know.

Use Twitter if you desire, Don't use if you wish, I do not care.
I just want you to be safe when using the internet.

Hi friends
_5J0T DX NEWS _
(http://groups.yahoo.com/group/GOLIST/message/7711;_ylc=X3oDMTJxMXYzdGdkBF9TAzk3MzU5NzE1BGdycElkAzkwMjY4NjYEZ3Jwc3BJZAMxNzA1MDYzMTA4BG1zZ0lkAzc3MTEEc2VjA2Rtc2cEc2xrA3Ztc2cEc3RpbWUDMTIyNDkzNjc2Mg--)
5J0T will be active from Bajo Nuevo (IOTA NA-132) and Roncador Bank (IOTA NA-133)
between Nov 19 and Dec 02, 2008.
The four person DXpedition will focus on low band operation, especially 160 meters, and will be operated by AA7JV, HA7RY, HK0JJH and HA8MT.

The group will operate two stations from 160 to 6 m.

5J0T will also participate in the CQ WW CW Contest from Zone 8. There will also be operation with the call-sign HK0/HK3JJH.

Bajo Nuevo is a small reef that belongs to Colombia (HK0) and is located 170 miles south of Jamaica in the central Caribbean. The reef contains a number of small barren sand
cays, one which carries a navigation light.
http://en.wikipediahttp://en.http://en.whttp
(http://en.wikipedia.org/wiki/Bajo_Nuevo_Bank)

Roncador Bank is located 150 miles south-west of Bajo Nuevo
http://www.oceandothttp://www.oceahttp://www.http://wwhtt
(http://www.oceandots.com/atlantic/san-andres/roncador.htm)
.

Plans are to operate from November 18 to 21 from Roncador Bank, and between November 23 and December 02 from Bajo Nuevo. Both reefs are part of San Andres region, HK0.

QSL for 5J0T via HA7RY. For HK0/HK3JJH QSO-s QSL via HK3JJH.

EVENEMENT SPECIAL ESPAGNE
De C31MO :
Le 1 et 2 novembre 2008 des stations spéciales espagnoles seront actives sur toutes les bandes et modes depuis la ville de Mataro 40 Km au Nord-Est de Barcelone. L'indicatif sera EH3MB et cela pour célébrer les 160 ans de la première ligne de chemin de fer espagnole qui reliait ces deux villes. En même temps à Barcelone seront mises en place aussi des stations avec l'indicatif EH3BM depuis la « Estación de Francia » de Barcelone.
La QSL spéciale est assurée via EA3APS
Je serais moi-même opérateur d'une des stations mises en place à Mataro donc avec l'indicatif EH3MB
Merci Michel, C31MO

Concours et DX par Bill/NG3K:

Con cours : CQWW DX CW (29-30 Novembre, 2008)
Origine : UA9BA

Indicatif : EF8M
DXCC: Canaries
Catégorie : M/2
CQ : 33
QSL via: OH1RY
Opérateurs: RD3AF, RZ3AZ, UA9BA

Notes:
Du 19 au 23 novembre 2008:
Origine : ZS6AVM
Indicatif 3DA0VM
DXCC: 38
QSL route: Direct 3DA0VM (QRZ.COM)
Operators: Dave 3DA0VM

Notes: Please QSL directe avec dollars (pas d'IRC) à ZS6AVM ,
D ave Scully,
P.O. Box 16324, Atlasville, 1465 , SOUTH AFRICA

ROYAUME UNI
Le ISWL Club sera actif comme suit en novembre :
GX4BJC /A – depuis Healing, NE du Lincolnshire, Angleterre par Cliff - G4YHP.
(/A WAB Square = TA21-LNE & IOTA = EU-005).

MS1SWL /A & MS1SWL /P – en /A depuis Annan,
Dumfries & Galloway, Ecosse, par John - GM6LYJ.
(/A WAB Square = NY16-DUM & IOTA = EU-005).

Les références WAB Book pour l’ ISWL's sont : 16316 et 16724.

QSL Info : www.iswl.org.QSL Info : www.iswl
ou via www.eQSL.cc Pas de LOTW.

Vy 73 to you all - have a great November.

QSL route: W7TSQ
Operators: W7VV, VE7XF, N9ADG

Notes: From the VP5JM Hamlet on Provo.
VP5/homecall outside the contest, QSL via homecall.
Submitter's callsign: Z36W
Contest callsign: Z37M
DXCC entity: Macedonia
Operation class: M/2
CQ zone: 15
QSL route: qrz.com and buro
Operators: Z31MM, Z32ID, Z35T, Z35X, Z35Y, Z36W

Tks Bill/NG3K

NAMIBIA – VHF and more
VHF DXpedition to Namibia is presently in the final planning stages.

Although not yet 100% confirmed, it is most likely that the operation will be from Luderitz and will concentrate on VHF with all authorized bands and modes active. Moonbounce, meteor scatter and satellite operation are planned on the amateur bands from 50 to 1296 MHz...

More infos will come in official from Hal, soon...
Dates : From: 2009-01-05 to: 2009-01-18
Activity in MS-EME

Bands : 50-144-432-1296
Callsign TBA

SOURCE: Hal, ZS6WB via MoonNet and MMM VHF

Forwarded with 73 by

Mike,
Could this be a busted call? I am not familiar with any
2x1 from TF. TF3CW has been active and his manager
(unconfirmed) is LX1NO.

Hi friends

This is a second attempt ; it seems that AOL, Club-Internet, NEUF and SFR mail customers have not received it .

Excuse me fopr possible double reception at yours.

73

Maurice, F5NQL

Bonjour à tous

Voici un second essai.

Il semblerait que les clients AOL, NEUF, SFR et Club-Internet n'aie pas reçu le premier qui aurait été rejeté pour motif "Spam"

Si vous l'avez déjà reçu merci de m'excuser.

73

Maurice, F5NQL

7737. ICPO Bulletin (Oct 30-Nov 07, 2008)

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-30 20:32:00 UTC
From: NAQCC
Topic: 7737 Message: 7737

I.C.P.O. Bulletin (October 30 - November 07, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

30/10/2008: As guests of the Royal Omani ARS (ROARS), the Lufthansa Amateur RC (LARC), along with he Norden District of the DARC (DOK I09) will be active October 30th until November 11th using the following call signs: A43DLH operating from the ROARS HQ; and A43DLH/p operating from the Omani Scout camp, city of Muscate (WW Loc. LL93FO). QRV 160m and up on as many bands as possible, 24 hours per day, using CW, SSB and digital modes including SSTV. QSL via DK7PE. [F5NQL]

30/10/2008: Rick, KI1G will be active as VQ9RD from the U.S. Navy Support Facility, Diego Garcia Island (AF-006), Chagos Archipelago, between October 30 and November 11. QSL via home call, direct only or via LoTW - please NO BUREAU CARDS. [NG3K]

31/10/2008: Martin, G3ZAY and Michael, G7VJR will be active as GU3ZAY and GU7VJR from Guernsey (EU-114, WLOTA LH-0013) between October 31st and November 2nd. They will use verticals and a small linear amplifier, with activity on SSB and CW. They hope to be QRV on LF bands if space permits. QSL via G7VJR. Logs will be uploaded to LoTW. [425 DX News]

31/10/2008: The JA1KJW group plans to be active from Guam Island (OC-026, also count for WLOTA LH-0064) from October 31st to November 3rd on all HF bands, using SSB, CW, RTTY and SSTV. The following operators will be QRV: KH2/NI2J (QSL via JH1VVW), KH2/AK0J (QSL via JA1KJW), KH2/WH7QL (QSL via JA1XVY), KH2/NV1J (QSL via JA1FUY), KH2/JJ1JGI (QSL via home call), KH2/JJ1HKS (QSL via home call) and KH2/JF1GUQ (QSL via home call). You can QSL direct or via the bureau. [JI6KVR]

31/10/2008: Mat/JA1JQY (YJ0AQY) and Kuni/JA8VE (YJ0AVE) will QRV from Vanuatu, New Hebrides (OC-035), between October 31st and November 6th. They will operate 80m-10m using SSB, CW and possibly RTTY. They will try 160m if the local situation permits. QSL YJ0AQY via JA1JQY (Shigeo Matsu, 2-31-10 Shimoseya, Seya, Yokohama, 246-0035 JAPAN). QSL YJ0AVE via JF1OCQ (Hiroyuki Miyake, 1-3-6 Asakura, Maebashi, 371-0811 JAPAN). [JI6KVR]

01/11/2008: Anne, OH2YL plans to be active November 1-8th from Malta (EU-023, MIA MM-001, WLOTA LH-1113) as 9H3YL. QRV HF-bands using CW and SSB. QSL via home call. [NG3K]

01/11/2008: Nicolas, F4EGX, is expected to be active as FT5YI from the French antarctic scientific station "Dumont d'Urville Base [TAAF]" (AA F-01, WAP FRA-01), located on Petrel Island (AN-017), during his free time between November to mid-December. He states that he is on a "professional mission". Nicolas will use a FT857D w/ATU LDG Z-100 into a fishing rod antenna for the 14 MHz. QSL via F4EGX. Visit his Web page at: f4egx.homelinux.net/ [OPDX Bulletin]

01/11/2008: Gene, K5GE/m plans to be in the following Texas counties on November 1st: Comal, Kendall, Bandera, Medina, Uvalde, Kinney, Val Verde, Edwards, Real, Kerr, Gillespie (Short time), Kerr and back home. QRV 40 and 20 meters, on the county hunting frequencies. QSL via home call. [County Hunter Web]

01/11/2008: Toshi, JA8BMK will be active as T30XX from Tarawa, West Kiribati (OC-017), from November 1st while waiting to start the voyage to Central Kiribati (T31). QRV all bands using CW, SSB, RTTY, BPSK31 and SSTV. Equipment: FT-897D and HL-1.2Kfx. Antenna/Vert, yagi and Inv V. QSL direct to JA8BMK. [425DX News]

01/11/2008: Bob, VK2ABP/VK2MRP will be working at Davis Base (AA VK-03, WAP AUS-03, IOTA AN-016), Antarctica, starting around November 1, 2008 until at least March 7, 2009, but could be until December. This is a work assignment, Bob does not know when he will be able to operate on the amateur radio bands. At all events, his call sign will be VK0BP (QSL via VK2CA). Updates will be available at www.vk0bp.org/ [425 DX News]

01/11/2008: Fernando, XE1MO plans to be active from Albania as ZA1/XE1MO, November 1-9th. QRV 40, 20, 15 and 10 meter SSB only. QSL via home call or via KE5FAH. [NG3K]

04/11/2008: Hugh, K6HFA will be on Manus Island (P29, OC-025) from November 4-9th. [425 DX News]

05/11/2008: RL3BM, Mike and UA4CC, Arkady "Ark" are heading to Phu Quoc Island (AS-128), Vietnam, for a family vacation November 05-13th. Their call signs will be XV4BM and XV4CC. They plan to be on CW and SSB on 3.5-28 MHz. Plans are to use an IC-7000 and K-2 transceivers running 100 watts only into vertical antennas. For 20 meters they will have a 2 element wire vertical Yagi. This will be not a "full scale" DXpedition, however the two will do their best to be on the air as much as possible. QSL XV4BM via RL3BM and XV4CC via UA4CC (QRZ.com). [UA4CC]

06/11/2008: A team of 4 DL operators (arkus/DL9RCF, Hartmut/DM5TI, Uwe/DL9NDS and Chris/DL5NAM) will work in WAE RTTY Contest (November 8-9th) from Hamad's station 9K2HN. Before and after contest (November 6-17th) they will focus on the WARC bands using RTTY, SSB and CW. QSLing via 9K2HN (see www.9k2hn.com/). Log at www.logsearch.de/ [NG3K]

06/11/2008: Look for J3/DL7CM (Hans) and J3/DM2AYO (Sid) to be active from the island of Grenada (NA-024, WLOTA LH-0718), November 6-25th. They are renting a nice QTH near Sauteurs on the north end of the island, where they will operate 160-6m CW, SSB, RTTY and PSK with a pair of IC706 rigs to 700W amps. They will have a Yagi for high bands and a ground plane for low bands. QSL via home calls. [NG3K]

06/11/2008: Look for Helmut/DL5DSM and Norbert/DJ7JC to be active as VU3NLG and VU3NLF respectively from the Resort Prainha, Panjim, Goa, India from November 6-14th. Activity is expected on all bands 160-10m using CW, SSB, BPSK and RTTY. QSL via their home call signs. [QRZ.com]

06/11/2008: Operators JA3AVO, JH3PBL, JA3ARJ and JA3UJR will be active as XU7AVO, XU7PBL, XU7ARJ XU7UJR, respectively, from Sihanoukville [Kampong Som], Cambodia, between November 6-11th. QSL via home calls. [OPDX Bulletin]
==========
LOOKING AHEAD -

08/11/2008: The Radio Club of Fagnes (F5KDB) will air the special call sign TM90AA to commemorate the 90th anniversay of the armistice of the war 1914/1918 from November 8-21st. QSL via the bureau to F5SPW, or direct to F4FIU. [UBA HF News]

19/11/2008: Dave, 3DA0VM will be active from Hawane Resort, Swaziland, November 19-23rd. Look for activity on 40-10 meters, SSB only. QSL direct as per instructions for 3DA0VM on QRZ.com. [NG3K]

19/11/2008: Operators Roger/W7VV, Ralph/VE7XF and Brian/N9ADG will be active from the VP5JM Hamlet, located on Providenciales (NA-002) from November 19th to December 3rd, including a Multi-Single entry in the CQWW DX CW Contest (November 29-30th) as VP5W. Outside the contest they will be QRV 160-6m using VP5/homecall. QSL via home calls. QSL VP5W via W7TSQ. [NG3K]

21/11/2008: Lee, K5UN will be operating as TO5X from the QTH of Laurent, FM5BH, located in Ducos, Martinique Island (IOTA NA-107, DIFO FM-001, WLOTA LH-1041) from November 21-30th, including an entry (category TBA) in the CQWW DX CW Contest (November 29-30th). Outside the contest look for activity on all bands 160-10m and modes. QSL via K5UN, direct - bureau - LoTW - eQSL. [NG3K]

22/11/2008: Hans-Peter, HB9BXE will be active as XV4BX from Phu Quoc Island (AS-128), Vietnam, from November 22-30th, including a Single-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). Outside the contest he will be QRV 160-10 meters, mainly CW, with 100 Watts; vertical and windom antennas. QSL via home call. [NG3K]

23/11/2008: Look for 5J0T and HK0/HK3JJH to be active from Bajo Nuevo (NA-132) between November 23rd and December 2nd. The four person DXpedition will focus on low band operation, especially 160 meters, and will be operated by George/AA7JV, Tomi/HA7RY, Pedro/HK3JJH and Fero/HA8MT. The group will operate two stations from 160 to 6m. Electric power will be supplied by two generators. One will supply 120V and the other 230V for the amplifiers. 2 battery chargers and 4 batteries serve as backup. The radios will be a Elecraft K3, an Icom IC-746PRO and a IC-706. They will have a Tokyo H.power amplifier with a homemede 2kW auto tuner and a SGC 500W amplifier with a matching auto tuner. Antennas will be solely verticals mounted over salt water. We will bring two 18m and two 12m Spiderpoles. Six meter antenna will be DuneStar Rover 6 Quad. QSL 5J0T via HA7RY either direct or via bureau. QSL HK0/HK3JJH via home call, direct or bureau. Further information and log search at www.5j0t.com/ [K1XN]

25/11/2008: John, OH3SR will be active, holiday style, as OH3SR/VP9 from the QTH of Ed, VP9GE located in Hamilton Parish, Bermuda (NA-005, WLOTA LH-0201, WW Loc. FM72PI) between November 25th and December 2nd. John also plans a casual entry in CQWW DX CW Contest (November 29-30th). Look for him to be QRV on 160-2m, holiday style operation, using SSB, CW and RTTY. QSL via home call. [NG3K]

29/11/2008: Champ, E21EIC will be active in the CQWW DX CW Contest (November 29-30th), as a Single-Op/Low-Power entry from Bangkok, Thailand. QSL via direct is preferred as bureau cards, via the HS Bureau, could take up to 3 years. [NG3K]

29/11/2008: Valery/RD3AF, Alex/RZ3AZ and Willy/UA9BA will be active as EF8M from Las Palmas, Gran Canaria (AF-004, DIE S-005, WLOTA LH-0969) for the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry. QSL via OH1RY, direct or bureau. [NG3K]

29/11/2008: Bob, GU4YOX will be active from the isle of Guernsey (EU-114, also count for WLOTA LH-0013) as a Single-Op/Single-Band(40m)/Low-Power entry in the CQWW DX CW Contest (November 29-30th). QSL via QRZ.com. [NG3K]

29/11/2008: Joel, KG6DX will be active from Latte Heights, Guam (OC-026, WLOTA LH-0064), during the CQWW DX CW Contest (November 29-30th), as a Sinlge-Op/All-Band/High-Power/Assisted entry. QSL direct (QRZ.com). Logs will be uploaded to LoTW. [NG3K]

29/11/2008: Look for Gord, VE6SV & crew to be QRV as VC6R from Alberta, Canada (CQ Zone 04), during the CQWW DX CW Contest (November 29-30th) as a M/? entry. QSL via VE6SV, direct or bureau.

29/11/2008: Look for Z37M, Radio Club "Nikola Tesla", to be active in the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry from Stip, Macedonia. Operators mentioned are Momo/Z31MM, Igor/Z32ID, Ozren/Z35T, Chris/Z35X and Venco/Z36W. QSL direct (QRZ.com) or via the bureau. [NG3K]

01/03/2009: Harry, W6DXO will be active as W6DXO/C6A from South Andros Island, Bahamas (NA 001), March 1-7th. Activity will be holiday style with focus on the WARC bands as propagation allows. QSL via home call. [Pete's-DX-Newsdesk]
==========
SPECIAL EVENTS -

31/10/2008: UBA club members of CRD are proud to be on air with this special event call sign to celebrate the 55th anniversary of the first ever Belgian TV broadcast in 1953. ON55INR will be aired on SSB, CW and digital modes from October 31st to December 31st 2008. A special QSL will be returned for each QSL via the bureau. [UBA HF News]

31/10/2008: Special Event station GB617SQN will be on the air from October 31st until November 27th to commemorate the 64th Anniversary of the sinking of the battleship Tirpitz on November 12, 1944. The raid that sunk the Tirpiz was conducted by planes from 617 SQN. The station will be operating on ALL bands and various modes. Website at: beam.to/tcrm/ [UBA HF News]

31/10/2008: Over the weekend of the Llandudno Radio Rally the Eddystone User Group call signs G3EUG and G7EUG will be aired from atop the Great Orme at Llandudno. Using the Special Event Club Prefix of 'GC' will provide the rare call signs of GC3EUG on 80m and GC7EUG on 40m. Operation will be on Friday October 31st and Sunday November 2nd from about 0900H with AM on 3605 kHz for an hour followed by LSB on about 3710 kHz, both days. [Southgate ARC]

01/11/2008: On November 9th 2008, 20 navigators will set sails aboard their monohulls, heading towards the three great capes, marking the southern tips of the African continent, Australia and America. The Vend?e Globe will start, for the 6th time, from the harbour of Les Sables d'Olonne, where it was born. And as far as the rest of the story is concerned... well, it's up to the sailors themselves now. At this occasion, the Radio Club Vend?en is organizing a special activity around the race. The team which consists of Bernard/F9IE, Patrice/F8BON, Roger, Pat/F6ACD, Jean-Claude/F6AQI, Jean-Louis/F6CVK, Alain/F5HPY, Lucien/F5RFS, Philippe/F5TRO and Eric/F4LJW will sign TM6VG from November 1st to 15th. They will be QRV both HF - 160 to 10m, included WARC bands, and VHF - 2m - , using CW, SSB, and various digital modes. QSL via F6KUF (RC Vendeen, 129 Cite Des Forges, Escalier E - Batiment A, F 85000 La Roche / Yon, FRANCE). [F5NQL]

01/11/2008: Special event station IY1EY will be active November 1-9th from Loano (www.ariloano.it) to commemorate the experiments conducted by Gugliemo Marconi from his yacht "Elettra" in the Ligurian Sea between 1919 and 1936. Expect activity on all bands CW, SSB, RTTY and PSK31. Special QSL via IK1QBT. [425 DX News]

01/11/2008: Radio amateurs from Latvia will be using the special event prefix YL90 all through November, 2008. This is to celebrate the 90th anniversary since the proclamation of the Republic of Latvia. The Republic of Latvia was proclaimed on November 18, 1918. [OPDX

Bulletin]

01/11/2008: Marq, CT1BWW will operate again as CQ4IPY from November 1-7th to celebrate the 4th International Polar Year. Expect him to be active on 10-80 meter SSB, CW, PSK31, RTTY and SSTV. QSL via home call, direct or bureau. Further information on the activity and the relevant award can be found at cq4ipy.bravehost.com/ [425 DX News]

01/11/2008: On November 1st and 2nd some special Spanish stations will be ative all modes and bands from the city of Mataro 40 Km NE of Barcelona. The call sign used will be EH3MB. This is to commemorate the 160th anniversary of the Railway line between Mataro and Barcelona opening. At the same time, other stations will be active from Barcelona using the EH3BM, from the "Estaci?n de Francia". QSL via EA3APS, direct (Albert Patau Comas, Sant Antoni, 73-79, 5-2, E-08301 -Mataro- (BCN), Spain) or by the bureau. [F5NQL]

01/11/2008: The ISWL Club Callsigns for November 2008 will be:
GX4BJC /A - Operated from Healing, in North East Lincolnshire, England, by Cliff - G4YHP. (ISWL Hon. Treasurer & Monitor magazine Editor). (/A WAB Square = TA21-LNE & IOTA = EU-005).
MS1SWL /A & MS1SWL /P - Operated /A from Annan, in Dumfries & Galloway, Scotland, by John - GM6LYJ. (/A WAB Square = NY16-DUM & IOTA = EU-005).
The ISWL's WAB Book numbers are: 16316 and 16724.
All QSL Info is on www.iswl.org.uk or www.qrz.com or via www.eQSL.cc NO LOTW!
ISWL Awards are available to all Hams and SWL's - see www.iswl.org.uk for full details.
eQSL.cc cards ARE accepted for our awards. [Pete's-DX-Newsdesk]

07/11/2008: Members of the Clipperton DX Club, Gerard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK and Vincent/G0LMX will be active from Thimphu, Bhutan, using the special callsign A5100A between November 7-17th. Activity is to celebrate the 100th anniversary of the Kingdom of Bhutan. The team will met with Pradan, A51PN, in the southern part of Bhutan after this operation and plan to be active from three different regions within Bhutan signing /p. They will be using an IC-756Pro, IC-746, FT-857D, with two 1Kw amps, a Spiderbeam for 5 bands and a wire 11 element log periodic. QSL via F9DK. [OPDX Bulletin]

U.S.A. Special event station information can be found at:
www.arrl.org/contests/spev.html

SIX METERS & UP -

2008 JT6M 6M Geminids Challenge
As well as on 144 MHz the BCC MS-Contest and the NAHMS Contest will start, there will be an 6 meter activity - the 2008 JT6M 6M Geminids Challenge. To participate in the 2008 JT6M 6M Geminids Challenge you will need to register - see: www.jt6m.org/jt6m-challenge.php
Please note the NEW Challenge rules.

NAMIBIA (V5) - VHF and more
VHF DXpedition to Namibia is presently in the final planning stages.
Although not yet 100% confirmed, it is most likely that the operation will be from Luderitz and will concentrate on VHF with all authorized bands and modes active. Moonbounce, meteor scatter and satellite operation are planned on the amateur bands from 50 to 1296 MHz.
More info will come in officially from Hal, ZS6WB soon.
Dates: January 5 - 18, 2009
Activity in MS-EME
Bands: 50-144-432-1296
Callsign: TBA
SOURCE: Hal, ZS6WB via MoonNet and MMMonVHF

==========
BITS & PIECES -

CY?X - SABLE ISLAND
An exclusive report from the CY0X Dxpedition team of their recent activation of Sable Island in June - July 2008. can be found at: uksmg.org/download.php?view.46 [N8OFS]

EA - SPAIN
70 MHz allowed in Spain.
All EA stations have been granted the use of 70.150 to 70.200 MHz till 25-April-2009. Max. radiated power = 10w. - More in detail: www.ure.es/noticias/1074-resolucion-autorizando-la-banda-de-70-mhz-y-segmentos-de-160-m-.html

EI - IRELAND
First 5 MHz licences issued to EI stations.
Good news at last. After a long process of contacts between the military authorities and Ireland's regulator ComReg, the first of the 5 MHz licences were issued to EI stations on Friday, October 17th.
Three 3 kHz channels with centre frequencies of 5280, 5400 and 5405 kHz. [Southgate ARC]

FT5YJ - Antarctica
From Mehdi, F5PFP -
Today (October 30) I received FT5YJ as call sign from TAAF telecom department for the 2009 amateur radio expedition to Antarctica.
We plan to be active under xxx/FT5YJ/p from several antarctic stations.
Website: f6kdf.ath.cx/f5nod/Antarcticexpedition2009/bases.html

GU - GURNSEY
REPORT and STORY about the GUERNSEY-TRIP
A quick report plus eme log is now online of MU/DH7FB and MU/DF2ZC:
www.df2zc.de/hamradioresults/dxp/guernsey2008/index.html

LX - LUXEMBURG
HAMs in Luxemburg may apply for a call with a four letter suffix for a few months now and Andy, LX1DA, who is an avid RTTY op fulfils his wish and will change the special call LX8DL to LX8RTTY on Jan 1, 2009. His regular callsign LX1DA is still valid.

VK9 - WILLIS ISLAND
VK9DWX News #13 - 30.10.2008

The "VK9DWX-Willis Island DX-pedition 2008" is history.

We closed the log with more than 95.000 QSOs (that?s our first merger of all logs except the VK9DWX/mm qsos during the voyage). A great adventure full of unforgettable moments and sweet memories lays behind us. We enjoyed a beautiful time of ham radio operation and are very happy of being able to serve so many hams around the world with a new one or at least with new and additional bandpoints for the DXCC.

We enjoyed nice and trusty fellowship within our team. Our two rookies Josh, W4WJF, and Rhy, ZS6DXB turned out to be a real surprise for us: They not only slipped into the team very easily but they also shouldered the operating burden in amazingly good performance, they became a valuable support for the DXpedition.

After 10 days of operation we welcome the sailing boat "Rum Runner" which brought us new supplies (food and fuel) as well as the exchange of our rookies: Josh had to leave and Rhy was coming to replace him. Also our DXpedition visitor Gerd, DK2JW, came in as well as Dale, VK4DMC, our valuable, trusty and very important support in Australia. They were very happy to have solid ground under their feet again, because the voyage was somewhat rough and not a real pleasure. We spent a nice evening with exiting talks and a few cool beers. They stayed over night with us on the island. Next morning it was time to say good bye, because the "Rum Runner" went back to Cairns.

Operation on this DXpedition was a real challenge to everyone:

Fresh to strong winds every day, some days so powerful that the tents were threatened to be blown away or at least heavily damaged. High tide climbed the beaches often higher than expected and swept over the feed points of the arrays, (perfect ground conductivity at least !!) disordering the radial system completely. Turtles are really heavy (some 75 kg!) and snagged the coax or other cable from time to time, but fortunately caused no major trouble with that. Hundreds (or were it thousands ??) of different birds, screaming (and smelling !!) all day and night and whom you might have noticed as the background noise in our SSB-QSOs. Small crabs, flies and moths were perennial companions in our tents, but luckily did not bite at all. Day after day the sun poured down and let the temperature soar to 35 to 40 degrees Celsius in the tents. Unfortunately we could not open tents due to the wind and the brightness of the sunlight: We simply would not have seen anything on the laptop-screens anymore. Fans were only of little help and not a real relief. In spite of these unfavourable conditions, the equipment worked to our satisfaction. No major faults to mention. Only internet access was limited to several hours a day, which made it impossible to update the log in shorter periods.

Food was cooked on the MV Floreat daily and supplied to us day by day. A great hug to our chef Susy who did a marvellous job in feeding the team with delicious meals and perfect sandwiches as well as fresh fruit most of the days. MV Floreat?s skipper Marcus Oke inspected the weather forecast very thoroughly, took the development of wind and waves as well as the tide in consideration and came to the conclusion that Sunday would be the best choice for ferrying our material safely from the beach to the ship. Safety of all our members first and the material second was our biggest concern and we would never doubt the decision of our experienced skipper.

So - sad to say - but we had to finish the CQWW SSB Contest already by Sunday morning.

We took down all the 4 squares, vertical, and Vertical-Array-Dipoles (VDAs) which served us as trusty companions throughout our DX-pedition and made these many contacts possible. To

tear down the whole stuff turned out to be much easier than erecting it. We began very early in the morning - just on sunrise - to get most o the job done before the tropical sun would burn out our brains. It was a perfect manoeuvre, everyone knew what to do. We packed all material in boxes, pelicases and Skipper Marcus took all the stuff safely back to the MV Floreat. We did not miss a single item and nothing got wet at all. So we luckily managed to finish the complete work already by early afternoon.

Once we were all back on the ship, the MV Floreat hoisted the anchors and headed east back to Cairns. We waved a last Good Bye to the island each of us with his own personal memories, leaving thousands of boobies, frigatebirds, hermitcrabs and green turtles in their ancestral environment.

After Norfolk Island in 2007 as VK9DNX we are very happy having performed a new adventure with VK9DWX now in 2008. We enjoyed it very much and hope that we could meet at least part of your expectations. May be not every one could make it into our log. We are sorry for that and hope that there will be a next chance for you soon.

We thank you very much for your cooperation and your understanding during times of heavy pile-ups and difficult traffic, especially on the low bands.

Thanks also to the many ham radio operators and other sponsors (like Ham Radio-clubs, Societies and Foundations) from all over the world who helped us with small and bigger financial contributions. Bringing this all together makes a DXpedition like ours not only feasible but also rather successful.

Good Bye Willis!
Thank you for this once in a lifetime adventure.

The VK9DWX Operation Team DJ5IW, DJ7EO, DJ9RR, DL1MGB, DL3DXX, DL5LYM, DL8OH, DL8WPX, SP5XVY, W4WJF, ZS6DXB.

P.S.

When entering Cairns harbour after a smooth journey, Dale, VK4DMC already awaited us with his car and trailer and helped us to unload the MV Floreat. We sorted out everything which was to stay in Australia and which was to send back to Germany by cargo-spediton. In the evening we in invited the MV Floraet?s Crew (Marcus, Gordon and Susy) as well as Dale, VK4DMC for dinner. We dined in a fashionable steakhouse overlooking Cairns? harbour in a stunning view and enjoyed a beautiful farewell dinner with those, who gave us so much support and help and made this DXpedition to come true.

Online-Log / QSO statistics -
We are very sorry that in the last days of operation the online log was not available. Due to a crash of the database on our server we were not able to fix it from the island (not at a rate of 6 EUR/MByte...). But now the online log is available again and also the QSO statistics.

Donations Update -
We were very happy to see so many donations being sent from all over the world to support our DXpedition. Nearly most of them are online in our sponsor list. If anyone misses his donation please contact us via our contact form.

Online QSL Request System -
Our Online QSL Request System (OQRS) is available now. Please support us, help to minimize

our workload and use this OQRS. There you can choose between direct QSL card and bureau QSL card.
The advantages for you:
* No need to send your QSL card (directly or via bureau)
* Don't loose any money with direct post, just transfer your donation online
* Get your QSL card earlier than through the oldfashioned way

The advantage for us:
* Much less work!

We will not offer any spectacular QSL card! We will offer a fast QSL service! Remember VK9DNX? Exactly one month after we returned home from DXpedition we got our QSL cards from the printer. And only a few weeks later the first direct QSL cards were on the way to their recipients. And exactly this QSL service we want to offer again.

So please help us and try to request your QSL card online and help to make a good service better. Thank you!

We would be delighted if DX editors would publish this information as widely as possible and DXers bring it to the attention of their clubs and fellow DXers. [AD1C]

7738. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-30 21:38:59 UTC
From: K1XN
Topic: 5889 Message: 7738

The NOVEMBER 2008 Issue #811 files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

7739. Re: TF3C on RTTY 20m just after contest

Mike,
I am not finding any Iceland matches anywhere for RTTY
activity during the current period with plausible match.
Don't find a listing for TF3C on the call books.

7743. Contests Italia, DX and Contest info by Bill/NG3K

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-10-31 10:52:54 UTC
From: F5nql@aol.com
Topic: 7743 Message: 7743

Hi friends
ITALIA – Contests :
The yearly INORC (Italian Navy Old Rhythmers Club) contes twill happen on
Nov 15 and 16 of Nov 2008.
There some changes in the rules :
The Independent, or “Non Naval” stations CAN now qso with other “Non Naval”
stations (before this was not valid).
So now the qso value is the same for all participants: 10 points for Qso
with a Naval station, and 1 point for qso with a Non Naval Station.
It is now OK to move a station to other band(s), for additional points, as
well as agreeing skeds.
The rest is unchanged (i.e. multipliers are all the different Naval stations
worked in the contest, counted only once and not again on different bands,
ecc.).
Paul, EI5DI, is working to implement the INORC contest in his fine SD
Software, and this will be ready well before the contest, so you will have time to
download the new version and experiment with it.
For the complete new rules check shortly on this section.
Website INORC : _http://www.inorc.it/index-e.html_
(http://www.inorc.it/index-e.html)
Website EI5DI : _http://www.ei5di.com/_ (http://www.ei5di.com/)
De Giuliano, II1SAF

From Giuliano I1SAF

Next november 15 - 16 will take place the Naval Contest and the INORC
contest.
I will be on the air for the contest with the special call II1ADV from abord
the Italian Navy frigate "CARABINIERE".
Operations from aboard the ship will last to 19 november.
The ship is moored in the Italian Navy Shipyard of La Spezia and the
operations are to celebrate the outgoing of duty of the ship with the last
transmissions.
The november 19, at 17,00 local time, will take place the ceremony of the
last haul down of the combat flag of the ship,after about 40 years of duty.
The first time that I went onbord that ship I was a boy......
I hope to meet many among you all during the contest and until 19 november.
Best 73
Giuliano I1SAF

Tks Maurizio IZ1GJK/HB9EKS
MARCONI VHF CONTEST :
On 1st - 2nd November 2008 14z-14z it will be like all the first full
weekend of November, the MMC.

This year there is a new prize :

From all the partecipants it will be choose at random the winner of special prize , a Piero Begali I2RTF (_http://www.i2rtf.htt_ (http://www.i2rtf.com/) <_http://www.i2rtf.http_ (http://www.i2rtf.com/) >) CW Key

MMC CONTEST COMMITTEE
IV3SIX Claudio

Please give maximum diffusion to this advise, thanks.

Bonjour à tous:
ITALIE – Concours :
Le Concours de l’INORC (Italian Navy Old Rhythmers Club) aura lieu les 15 et
16 novembre .
Un changement est intervenu dans le règlement :
Les stations ne faisant pas partie d’un club “Naval” et les autres stations
indépendantes peuvent désormais contactyer les stations “Non Naval”.

Maintenant ces QSO sont valides de la même manière pour tous les participants : QSO avec un “Naval”, 10 points et avec un “non naval”, 1 poiint.
Les changements de bandes peuvent intervenir au gré du participant, de même que sont admis les skeds.
Le reste sans changement. Paul, EI5DI, modifie son logiciel SD pour tenir compte de ces modifications. Vous pourrez le télécharger à jour quelques jours avant le concours .
Site INORC : _http://www.inorc.it/index-e.html_ (http://www.inorc.it/index-e.html)
Site EI5DI : _http://www.ei5di.com/_ (http://www.ei5di.com/)
De Giuliano, II1SAF
Je serai actif dans le concours INORC, à bord de la frégate "CARABINIERE", ancré dans la base navale de La Spezia.
Indicatif : II1ADV
I hope to meet many among you all during the contest and until 19 november.

Hi friends
DX from Bill/NG3K :

Ian G3YBY / F5VKT will be active as V8FKT from 9th to 21st November 2008.
Activity will be mainly SSB /RTTY 40m to 15m using 100W to elevated verticals.
QSL via G3YBY.

73 Ian G3YBY / F5VKT
Tks Bill/NG3K

OMAN :
From Mustapha, DL1BDF :
Our crew is well arrived in Muscat /Oman.
The stations are quite all settled. The first station QRV yesterday evening has logged 00 QSO.
Fine weather.
Low propagation.
Starting on November 6th, Frank, DL8YHR, will try the first QSO's en EME.
Vy 73 DE l' organisateur DL1BDF , op at : A45BDF & A43DLH.

Mustapha.

CROZET – FT5WO :
For the next year, - Dec 1st 2008 until November 30th 2009, Florentin F4DWY is on Crozet (46°S, 51° E) as Volontary Civilian Technical Assistant.
He has got the FT5WO callsign.
He will use a Yaesu FT757 GX. The dipole wire antennas will be built directly on Crozet.
Bands : 14, and may be 7 & 21 MHz, SSB.
Whe return, in Dec 2009, a short activity as FR/F4DYW and FH/F4DYW could happen.
QSL via F4DWY,
Tks François, F8DVD.

FRANCE:
1st – French Brittany
Between November 2nd to 10th, look for Claude, F5MCC to be active as HC/p fropm several lighthouses in the Finistere department French Britanny:
Are scheduled (order not fixed yet) :
:
Petit Minou lighthouse PB110
Pointe Saint Mathieu lighthouse, PB100
Trévignon, PB 108
La Croix lighthouse in the city of Concarneau, PB 120
If a boat is available, a possible activity will be made from the Vierge

Island (EU-105, WLOTA -0241, PB-007)
HF , mainly in CW and a little SSB.
Focus on DX and QRP stations.
QSL via buro REF, (please only this bureau) via F5MCC
Stay tuned
Tks Claude F5MCC.

2nd – Special event
Between November 13th to 26th,look for the special event callsign TM5TUR,to be used by the ARAP87 ARC.
It will be part of the manifestations, demonstrations, lectures, and open doors for the Science week in the TURGOT Gymnasium, in the city of Limoges, Central france.
TM5TUR QSL via F6KTW (Bureau preferred)

Mustapha.

CROZET – FT5WO :
Du 1er décembre 2008 au 30 novembre 2009, Florentin F4DWY est sur Crozet (46°S, 51° E), en tant que Volontaire civil à l'aide technique.
Indicatif : FT5WO.
Yaesu FT757 GX. Les dipoles pour 14, et sans doute 7 et 21 seront construits sur place .
SSB.
Trafic à son temps libre.
Pendant le voyage de retour actrivité possible sous FR et FH/F4DYW.
QSL via F4DYW.
Merci François, F8DVD.

FRANCE:
1st - Bretagne
Claude, F5MCC en HC/p du 2 au 10 novembre en Bretagne, Finistère.
A rechercher depuis les phares de :
Petit Minou PB110
Pointe Saint Mathieu , PB100
Trévignon, PB 108
La Croix , à Concarneau, PB 120
Si un bateau est disponible, activité possible depuis l'île Vierge (EU-105, WLOTA -0241, PB-007)
HF, principalement en CW, et un peu de SSB.
Priorité DX et stations QRP .
QSL via buro REF, (SVP uniquement ce bureau) via F5MCC
Surveillez les clusters.
Merci : Claude F5MCC.

Evènement spécial :
Indicatif spécial TM5TUR.
Du 13 au 26 novembre 2008 le Radio-Club ARAP87 est autorisé à utiliser l'indicatif TM5TUR à l'occasion de la Fête de la Science au Lycée TURGOT, Rue Paul Dérignac à Limoges.
PROGRAMME:
Du Lundi 17 au Samedi 22 la station sera active et ouverte au public à partir des locaux du Lycée (9h-12h / 14-18h).
Conférences: Mercredi 19 à 20 heures: "Radioamateur est-ce moderne?" / Samedi 22 à 11heures: "La réception des satellites météo APT".
Exposition: Quelques talkie-walkies de 1944 à nos jours.
Présence du REF87 et de l'ADRASEC 87.
TM5TUR QSL via F6KTW (Bureau)
Merci Alain F5RUJ

7751. BUHTAN 2008 by F&G, End of the WWI

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-03 10:36:33 UTC
From: F5nql@aol.com
Topic: 7751 Message: 7751

Hi friends
BuHtan 2008 :
From Gerard, F2VX, through Jean Michel, F6AJA's mailbox.
Three days before our departure we are quite ready and the last little
things are beeing finalized.

We don't know at the time if an Internet link will be available in the
Jambayang where we will stay this year. We will see when we will be there.
As i it was done in our préview A52 dxpeditions, we will try to send daily
information.
Our Timetable is to day know as follow :
- Wedenesday, Nov 5th 1900, departure from Paris CDG Airport for
Gérard F2VX, Jean-Louis F9DK and Alain F5LMJ..
- Thursday Nov 6th, midday, arriving in Bangkok Thaïland, where
Vincent G0LMX , coming from London will join us.
- Friday Nov 7th, 0430 in the morning taking off fom Bangkok to
Paro airport, Bhutan.
- Friday Novth 2008, mid afternoon (Bhutan time) , arriving in
Thimphu, the Capitale.
- From November 7 to 17th, staying in Thimphu, were will be
activated the special A5100A callsign choosen to commemorate the 100th anniversary
of the Buthanese Kingdom. The traffic could be stopped sometimes because of
Official ceremonies in touch with the commemoration of the 100th anniversary.
- From November 17th to 25th, roaming around the south and central
parts of the Bhutanese without any Internet communications possible.
- Return to London on Nov 25th and Paris an November 26th.
- We have a web page and a guest book on line at :
http://www.tuduri.net/f5lmj/A5/a5100a/a5-08-fr.htm

See you soon down our logbook, from the Roof of World
73's , A5100A team
PS : F5NQL met Jean Louis F9DK yesterday, Nov 2nd.
Two last minute information was given :
1st) It's beeing confirmed that 160m operations will be quite impossible.
2nd) Some numeric modes will be activitated (RTTY and PSK31).
Stay tuned and have an eagle eye on the clusters.

France :
From, F5KDB, Fagnes ARC, North of FRANCE.
To commemorate the end of the WWI, the F5KDB ARC will aired the special
callsign TM9OAA , between Nov 8th to 21st, 2008.
Beginning in VHF on Nov 8th then HF phone and CW, by F0FWC, F4CGQ, F4FIU,
F5SPW and F5UGX .

Main activity on week ends from the Leveau Fortress, in the city of Feignies
(_http://fortdeleveau.site.voila.fr/_ (http://fortdeleveau.site.voila.fr/))

QSL as operator’s instructions
Tks J-François F8BMN.

Bonjour à tous,

BOUHTAN 2008 :

Nous sommes maintenant à 3 jours de notre départ.
les derniers préparatifs sont en cours

Nous ne savons pas encore si nous aurons un accès internet au
Jambayang où nous serons cette année, nous le découvrirons sur place.

Nous essaierons, comme les années précédentes, de passer un message
quotidien d'information qui pourra être diffusé par Laurent F8BBL
et Jean-Michel F6AJA.

Notre programme est le suivant :

- Départ de Roissy Charles De Gaule pour Bangkok mercredi 5 à 19h pour
Gérard F2VX, Jean-Louis F9DK et Alain F5LMJ. Nous serons jeudi 6 en
milieu de journée à Bangkok et nous retrouverons Vincent G0LMX en
provenance de Londres.

- Départ vendredi 7 à 4h30 du matin de Bangkok pour l'aéroport de Paro au
Bhoutan. Nous devrions être à Thimphu la capitale en début d'après-midi
(heure locale).

- Nous resterons sur Thimphu du 7 au 17 novembre, et A5100A devrait
pouvoir être entendu dés le vendredi soir et pour 10 jours, avec
quelques interruptions possibles pour cause de cérémonies officielles.

- Ensuite, du 17 au 25, nous serons en "vadrouille" entre le centre et
le sud du pays, avec aucun accès internet possible.

- Retour sur Paris et Londres le 25 au soir pour une arrivée le 26 novembre.

La page web d'information ainsi qu'un livre d'or sont accessibles à l'adresse _http://www.tuduri.net/f5lmj/A5/a5100a/a5-08-fr.htm_ (http://www.tuduri.net/f5lmj/A5/a5100a/a5-08-fr.htm)
A très bientôt depuis le toit du monde...

73's de l'équipe A5100A
PS : F5NQL a rencontré Jean Louis F9DK hier 2/11.
Le 160m est quasiment certain d'être absent, mais par contre il y aura une activité en modes numériques .
Restés branchés et surveillez les clusters.

France :
De F5KDB Radio Club des Fagnes dept 59.
Pour le 90 émé anniversaire de l'armistice de la première guerre mondiale F5KDB activera l'indicatif spécial TM9OAA du 08/11/08 au 21/11/08.
L'activité commencera le 08/11/08 au matin en VHF avec F0FWC et F4CGQ en /M, depuis le Radio Club a partir de 16h et en nocturne avec F4FIU et F8BMN en HF phonie.
Le dimanche matin ils seront relevés par F4CJH et F5UGX avec certainement une bonne partie en CW jusque 12h00.
TM1WW (déjà activé pour le 80éme anniverssaire de l'armistice) sera également activé le 11/11/08 en HF CW par F5SPW et F5UGX de ~ 08h00 a 16h00 .
TM9OAA sera ensuite activé jusqu'au 21/11/08 selon la disponibilité des OM's. Tout visiteur sera bien sur le bienvenu durant les activités des week-ends au Fort de Leveau. QSL spéciale sera éditée.
73. Amitiés.

Hi friends
From Bill,/NG3K

NICARAGUA

Ralph, K9ZO, will be active on WARC bands and SSB during the week prior to CQWWCW (Nov 24 to 28). Look for him during the contest as YN2Z. QSLs via K9ZO and
LOTW.

CUBA:
Hi Bill!!!

Thanks very much for announce my last CQWW SSB operation and for the contact also, it was a surprise!
On CW I´ll be also as SOSB 20 meter, I did not decided if HP o LP.. will see...the same QSL route DK1WI...

Bets regards to u and ur family...

Raúl/CO8ZZ

United Kingdom:
LUNDY Island results:
We had a good time at Holy island and made just over 6,500 contacts, with 3,000 on CW
With three calls GB4HI GC4KPT and GC0ADX
Ray, GW1FJI
Tks Chris, M0DOL

United Kingdom – CASHOTA ativity;
On November 8th, the Newport Amateur Radio Society GC4EZW will activate GW031 Caldicot Castle in Monmouthshire , Wales

WAB ST48 LOC IO81PO .
We will operate on 80, 17 and 20m SSB.
Tks Chris, M0DOL.

3B7FQ Trip Update:

?

Rachid, 3B8FQ reports that his trip to activate St. Brandon Island has been delayed due to the unavailability of boat transportation.? It had been planned for late October.? The next boat scheduled to leave for St. Brandon is 15 November, and Rachid and the meteorological station maintenance team are hoping to be aboard.? If everything works out as planned, Rachid will be active as 3B7FQ much longer than during his short stay on Agalega Island as 3B6FQ this past April.? As was the case this past Spring, Rachid will be on a work assignment and will be active on phone & CW, as time is available.

?

More info as it becomes available.?

?

73/DX,

?

Hi friends
Buhtan News:
(Sending news is difficult for us in all Thaï Cyber-cafés for the PC keyboards fit US Standards QWERTY)

It’s 22h10 in Bangkok airport (16h10 utc) and we wait for our 2200 utc departure to Paro. Vincent is with us now.
The hours are very long and the cyber café is welcome.
Our arrival in Thimphu is scheduled to morrow, Nov 7th around 1400 Buhtanese time (1100 utc) . We will settled the antenna system without delay, and are hoping to be on the air around 1300 or1400 utc.
From the A5100A team with 73,
F2VX , F5LMJ, F9DK, G0LMX

News from MARTINIQUE:
Fred/FM/F5IRO, will be alone in the next CQ WWDX CW, in SOAB LP. (QSL via F5IRO)
For my last trip to Marie Galante, the cards will be printed and answered when I’ll be back in Metropolitan France at the end of February 2009. QSL FG/F5IRO to F8CRS.
All the other cards FM/F5IRO even in contest are to FIRO and will be answered same way, after the end of February 2009.

Freddy is QRV mainly in CW quite daily between 2100 et 0300 utc on 40, 30 and20m.
Tks Freddy, F5IRO.

Dear Fellow Radio Amateurs,

The European PSK Club has the honour to invite the radio amateurs all over
the
world to participate in the 3rd EPC PSK63 QSO Party 2008. The rules are
available on our web site at
http://eu.srars.org/index.php?option=com_content&task=view&id=66&Itemid=141
Contest time is from 00.00 to 24.00 UTC on Sunday 16th November 2008.
Everybody
can work everybody for QSO and multiplier credit. We are ready to receive
your
declarations for the EPC PSK63 QSO Party Team Challenge 2008, please see
http://eu.srars.org/index.php?option=com_content&task=view&id=79&Itemid=160
for more info. For your attention: To create, edit, check your Cabrillo Log,
add
or modify its Cabrillo Header, and calculate the Claimed Score we recommend
to
use the Contest Log Checker software available from UU0JC at
http://www.dxshell.com or http://www.contestlogchecker.com

All the very best and 73!
EPC PSK63 QSO Party Contest Committee

If you forward these information by any way, please don't remove the
indicated sources.

Apologize for possible double sending.

If this kind of message could be useful to your friends please spread it and
ask

them to include their address on the mailing list at : _f5nql@aol.com_
(mailto:f5nql@aol.com) .

If you don't want to receive these message anymore, please ask to be removed
of the mailing list, same way.

Don't forget to inform us about any change in your e-mail address.

Bonsoir à tous
NOUVELLES du BOUHTAN
Bonjour a tous (clavier qwerty désole pour le accents)

Il est 22h10 locale a Bangkok (16h10 tu) et nous attendons 4h du matin
pour embarquer a destination de Paro après avoir récupéré Vincent en
milieu d'après midi. L'attente est un peu longue et l'Internet café est
bienvenu.
Arrive prévue sur Thimphu demain vers 14h locale (5 h e moins en TU)
et attaquerons de suite le montage des premières antennes avant la tombée
de la nuit. Nous espérons être sur l'air en fin de journée demain (pas
avant 13h 14h pour vous).

Amitiés de toute l'équipe A5100A – F2VX , F5LMJ, F9DK, G0LMX
Merci JM F6AJA

Nota : les accents ont été rétablis par mon contrôleur orthographique.
F5NQL

Nouvelles de MARTINIQUE:
Fred/FM/F5IRO, sera finalement seul dans le prochain CQ WWDX CW, in SOAB LP.
(QSL via F5IRO)
Pour son dernier déplacement à Marie Galante (FG/F5IRO), les cartes seront
imprimées à son retour en métropole fin février 2009 (cartes via F8CRS).
Toutes les autres cartes FM/F5IRO sont via F5IRO, et réponses même époque à
partir de fin février 2009.
.
en FM je suis surtout actif le soir en semaine entre 21H00 utc et 03h00
utc 40 30 20 m
Merci Freddy, F5IRO.

Information Contest et DX par Bil/NG3K.

I.C.P.O. Bulletin (November 06 - 14, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

06/11/2008: A team of 4 DL operators (arkus/DL9RCF, Hartmut/DM5TI, Uwe/DL9NDS and Chris/DL5NAM) will work in WAE RTTY Contest (November 8-9th) from Hamad's station 9K2HN. Before and after contest (November 6-17th) they will focus on the WARC bands using RTTY, SSB and CW. QSL via 9K2HN (see www.9k2hn.com/). Log search will be available at: www.logsearch.de/ [NG3K]

06/11/2008: Look for J3/DL7CM (Hans) and J3/DM2AYO (Sid) to be active from the island of Grenada (NA-024, WLOTA LH-0718), November 6-25th. They are renting a nice QTH near Sauteurs on the north end of the island, where they will operate 160-6m CW, SSB, RTTY and PSK with a pair of IC706 rigs to 700W amps. They will have a Yagi for high bands and a ground plane for low bands. QSL via home calls. [NG3K]

06/11/2008: Nigel, G3TXF reports he will be active November 6-10th as OX/G3TXF from Kangerlussuaq, Greenland (NA-018, WLOTA LH-0072). He will operate CW, but he also hope to participate in the Worked All Europe (WAE) RTTY Contest (November 8-9th). QSL via home call. Further information at: www.g3txf.com/dxtrip/OX/OX.html [425 DX News]

06/11/2008: Look for Helmut/DL5DSM and Norbert/DJ7JC to be active as VU3NLG and VU3NLF respectively from the Resort Prainha, Panjim, Goa, India from November 6-14th. Activity is expected on all bands 160-10m using CW, SSB, BPSK and RTTY. QSL via their home call signs. [QRZ.com]

06/11/2008: Operators JA1CJA (XU7CJA), JA3AVO (XU7AVO), JH3PBL (XU7PBL), JA3ARJ (XU7ARJ) and JA3UJR (XU7UJR) will be active from Sihanoukville [Kampong Som], Cambodia, between November 6-11th. They plan to operate CW, SSB and digital modes on 160-6 meters; XU7CJA has special permission to operate on Satellite for the first time in Cambodia. QSL via home calls. [425 DX News]

07/11/2008: Gerard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK and Vincent/G0LMX will be active November 7-17th from Bhutan, using the special call sign A5100A to celebrate the 100th anniversary of the Kingdom of Bhutan. After this operation, the team will meet with Pradan, A51PN in the southern part of Bhutan. They plan to be active from three different regions of the country, signing /p. QSL via F9DK. [OPDX Bulletin]

07/11/2008: Merv, N6NO will operate mainly CW as CE0Y/N6NO from Easter Island [Isla de Pascua] (SA-001, WLOTA LH-0319), November 7-16th. Although amateur radio is not normally permitted on 30 metres in Chile, he has obtained special temporary authorization to use that band for this operation. He will therefore focus on 30m, but may also use 40-12m with 100 watts to vertical and dipole antennas. QSL via home call. [425 DX News]

07/11/2008: KH0TL/Masa and W1FPU/Kuny will be active from Saipan, Northern Mariana Islands (OC-086) as KH0ABT on November 7th and 8th. They are planning to test run on the low bands, especially 75m on which they have a new antenna (fullsize 2el wire beam @ 50m height). QSL

direct only to 7L1FPU. [NG3K]

08/11/2008: Yoshiaki, JA1OCZ will be active as 9M4DXX from Penang Island (AS-015, WLOTA LH-2743) for the Japan International DX SSB Contest (November 8-9th). He plans to operate on 80-10 metres. QSL via 9M2TO, direct or by the bureau. [425 DX News]

08/11/2008: Operators Kuny/W1FPU, Masashi/KH0TL and Hajime/AH0BR will be active as AH0BT from the Aquarius Beach Tower Contest Club, Saipan Island, Northern Mariana Islands (OC-086) for the Japan Intn'l DX Phone contest (November 8-9th) as a Multi-Single entry. QSL via 7L1FPU, direct or bureau. [NG3K]

08/11/2008: Fran?ois/F5JNE, along with Gerard/F6ICG will be active as F5JNE/p from the Castle of Sauzay (DFCF 58-095, WW Loc. JN17QK), in the city of Corvol l'Orgueuilleux (CP 58460) and Canton of Varzy (DDCF 58-25) on November 8th. Other references: Nievre department/58 and Province Burgundy (DPF 05). As usual starting around 0700 UTC, 80 then 40m, CW/SSB. QSL via bureau preferred and SWL cards welcome. [F5NQL]

08/11/2008: The Radio Club Varennois (F5KEK) will be active November 8th from the Castle Le Lonzat (DFCF 03-075), located in the commune of Marcenat (CP 03260), Department Allier/03 and Province Auvergne (DPF 03). QRV on 3.703 (+/-) MHz and 7.060 (+/-) MHz. QSL via F5KEK, direct or bureau. [F4EFL]

08/11/2008: Alain, F6CUG/p will be QRV November 8th from the Castle and Mill Taron (DMF 39-008), in the city of Chaussin (CP 39120), Department Jura/39 and Province Franche-Comt? (DPF 10). Look for activity on 80 and 40 meters, possibly 20 meters. QSL via home call, direct or bureau.

08/11/2008: The Newport Amateur Radio Society GC4EZW will activate Caldicot Castle (CASHOTA reference GW031, WAB ST48, WW Loc. IO81PO) in Monmouthshire, Wales, on November 8th. Activity is planned for 80, 17 and 20m SSB. [M0DOL]

08/11/2008: Operators W6LJ, K6Y (QSL via JA1OZK), JA1CGC, JF1TAB, JH1FUD, JL1LOW, JK1DRM and 7N1AZY will be active from Guam Island (OC-026, USi GU-003S, WLOTA LH-0064) between November 8th and 12th. They will use K6Y 1x1 call sign and also KH2/homecall. The K6Y special call sign is in celebration of the 60th anniversary of the port of Yokohama. QRV HF bands including WARC using SSB, CW and digital modes. They will not participate in a contest. QSL via the bureau to each home call sign or direct to each call book address. [NG3K]

09/11/2008: Operators Iwa/JA0UH and Tohru/JA0UMV will operate from Praslin Island (AF-024), Seychelles Islands, between November 9-14th. Iwa will sign S79UH and Tohru will sign S79MV. They hope to operate on 160-10 meters using SSB and CW. Sorry they will not be active on RTTY. They will take two transceivers and a small amplifier (500w) for the low bands. Antennas are an inverted L for 160-30m and dipoles for 20-10m. If the power line permits they will operate at the same time on two bands. Their location is on the beach with the best direction to the Northern Hemisphere. QSL via their home call signs, direct (JA0UH - Iwao Iijima, Tomitake 900, Nagano 381-0006, Japan) (JA0UMV - Iohru Kataoka, 15-9 Sakae-cho, Kamo 959-1382, Japan) or JARL Bureau. [OPDX Bulletin]

09/11/2008: Ian, G3YBY/F5VKT will be active as V8FKT from Seria, The Sultanate of Brunei (OC-088), from November 9-21st. Activity will be a "Holiday style - Micro DXpedition", mainly SSB and RTTY on 40-15 meters, using 100W to elevated verticals. QSL via G3YBY (see QRZ.com). [F5NQL]

10/11/2008: Franz, DL3PS will be on a business trip in Israel from November 10th until December 5th. He will try to hit the airwaves as 4X/DL3PS using SSB, CW and digital modes on 10-80m during his spare time. QSL direct or via bureau to HB9EHQ. [DX Newsletter]

10/11/2008: Jean Paul ON7AMI will be QRV November 10-15th from La Palma Island (AF-004, DIE S-013, WLOTA LH-1648). QRV 7050 kHz SSB, 7007 kHz CW, mainly during evening hours. Activities are also planned on 15m, 6m an 2m, conditions permitting, QSL to ON7AMI via the bureau. [rsgbiota.org]

10/11/2008: OP0OL has been granted to a clubstation of the Belgian Union of Radio Amateurs (UBA) on Antarctica. The location during the Antarctic summer season 2008-2009 will be the Multinational Base Camp Patriot Hills (IOTA AN-016, WABA MN-01, WAP:MNB-02) at 80?18.11'S - 081?20.69'W. Operations are planned between November 10th and December 18th by Joel, ON5XX. This is not a DXpedition but a professional visit to Antarctica. Operations on the HAM bands depend totaly on workload and power availability. The prefered mode will be CW but if the situation allows, some SSB and Digimodes are possible. The operator is not an experienced CW contester or DXpeditioner so pile ups might not be handled as smoothly as you expect. Thanks for your understanding. QSL via ON5XX, direct or bureau. All cards will be answered. Please keep in mind that the QSL handling will only start at the end of January. This is only for practical reasons. [UBA HF News]

10/11/2008: Rick, AI5P is spending his holidays on Grand Cayman Island (NA-016, also count for WLOTA LH-1042) from November 10-18th. He plans to become active as ZF2XP. QSL via home call. [DX Newsletter]

13/11/2008: Igor, UY5LW will be active from Mozambique as C91LW between November 13th and December 2nd, including a Single-Op/Single-Band (40m) entry in the CQWW DX CW Contest (November 29-30th). Outside the contest he will be QRV 160-10 meters, using CW, SSB and Digital modes with 800 Watts. QSL via home call. [NG3K]
==========
LOOKING AHEAD -

15/11/2008: Peter, HA3AUI is once again heading south to Senegal and Guinea-Bissau. From November 15, 2008 to about March 31, 2009 he will be signing 6W2SC and J5UAP. 6W: 160-10m, spiderbeam, verticals, dipoles, 500W. J5: 160-10m, spiderbeam, verticals, dipoles, 100W. For both QTHs mostly digital modes, some SSB, CW on request. QSL via HA3AUI direct or HA Bureau. [NG3K]

15/11/2008: Sacramento de Colonia Radio Club (CX2FAA) members Ricardo/CX5FT, Viterbo/CX9FD, Italo/CX3FG, Marber/CX9ACK and Walter/CX6FF plan to be QRV November 15-16th as CX1F from San Gabriel Island (SA-057), Uruguay. Look for activity on the major HF bands on SSB, CW, PSK and SSTV. QSL direct to PO Box 39073, 70000 Colonia del Sacramento, Uruguay. Further information on their web site at cx2faa.iespana.es/ [rsgbiota.org]

15/11/2008: Operators KC1SS, K4UBT, W4MKH, N4FPS, W9QGB, W7GAM, N6VX and AB4EW will be active from Talbot Island (NA-138, USi FL-121S), Duval County, Florida, November 15-16th. They plan to be QRV all bands using CW and SSB. QSL via N4AUG (QRZ.com). [rsgbiota.org]

15/11/2008: Jorge/OA4BHY, Rene/DL2JRM and Daniel/DL5YWM will activite the last Peruvian IOTA SA-075, using the call sign OA4BHY/2. It is planed to visit the Gua?ape Islands (probably the southern island, Isla Gua?ape Sur) from November 15-17th. They will run two stations, with focus on 40m and 30m CW during the Japanese night and morning hours. They also hope to operated from the lighthouse (ARLHS PER-007, TWLHD WLH OA-006) which is on top

of the island. Our team-member and QSL-manager Rene/DL2JRM is offering a special QSL-service to you and your IOTA friends. Any donation can be sent via PayPal using the button on the OC1I / OC6I DXpedition webside at: www.qslnet.de/member/oc1i/english/e_sponsor.htm [JI6KVR]

22/11/2008: Ralph, YN2/K9ZO will be active from Grenada (WW Loc. EK71XU), Nicaragua, on the WARC bands and SSB during the week prior to the CQWW DX CW Contest. Look for him during the contest as YN2Z. QSLs via K9ZO and LOTW. [NG3K]

23/11/2008: Carsten, DL1EFD will be active as 6V7N from Senegal between November 23rd and December 5th, including a Single-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). Outside the contest look for activity on all HF bands, mainly CW. QSL via home call. [NG3K]

23/11/2008: Fred/KE7X (C6AKX) and Tom/N6BT (C6ARR) will be QRV from North Palmetto Point, Eleuthera Island (NA-001), Bahamas from November 23rd to December 1st. During the CQWW DX CW Contest (November 29-30th) look for C6AKX as a Single-Op/Single-Band 20m entry and C6ARR as a Single-Op/Single-Band 160m entry. Outside the contest they will be QRV 160-20 meters. QSL both calls via WA4WTG, direct or bureau. [NG3K]

29/11/2008: Alan, 4F1AL will be QRV from San Jose Del Monte City, Luzon Island (OC-042, also count for WLOTA LH-0081), Philippines, during the CQWW DX CW Contest (November 29-30th), as a Single-Op/Single-Band entry. QSL direct (QRZ.com). [NG3K]

29/11/2008: Raul, CO8ZZ will be active from Cuba (NA-015, WLOTA LH-0032) in the CQWW DX CW Contest (November 29-30th), as a Single-Op/Single-Band (20m) entry. He is still undecided if he will run low power, or high power. QSL via DK1WI. [NG3K]

29/11/2008: Luca/IK2NCJ, Girts/YL2KL, Jurgis/LY2CY, Kas/YL1ZF, Arvis/YL2LY and Vilnis/YL2BJ will be active from the Monte Verde contest station, Sao Vicente Island (AF-086, WLOTA LH-1976), Cape Verde, as D4C during the CQWW DX CW Contest (November 29-30th) as a Multi-Two entry. QSL via CT1ESV by the bureau, or direct to IZ4DPV. [NG3K]

29/11/2008: Claude, FK8IF plans to be active from New Caledonia (OC-032, also count for WLOTA LH-1280) for the CQWW DX CW Contest (November 29-30th), category TBA. QSL via QRZ.com. [NG3K]

29/11/2008: Look for Ricardo, HP1RIS to be active from Panama City, Panama, during the CQWW DX CW Contest (November 29-30th), as a Single-Op/Single-Band (10m) entry. QSL via QRZ.com. [NG3K]

29/11/2008: Fred, K9VV will be active as J68VV from the island of St. Lucia (NA-108, also count for WLOTA LH-1336) for the CQWW DX CW Contest (November 29-30th), as a Single-Op/All-Band entry. Outside the contest he will sign J6/K9VV. QSL via K5WW and LoTW. [NG3K]

29/11/2008: Operators Joe/ON4JZ, Karel/ON5TN and Jim/ON5UM will be active as OP4K from Antwerpen, Belgium, for the CQWW DX CW Contest (November 29-30th), as a Multi-Single entry. QSL via ON4JZ, direct or by the bureau. [NG3K]

29/11/2008: Operators Nick/LZ1NK, Con/DF4SA, Zoli/HA1AG, Ilian/LZ1CNN, Valy/LZ1WX, Krasimir/LZ2UW, Savi/LZ1UK and Mustafa/TA2TX will be active from Asian Turkey (Zone 20) as YM3A during the CQWW DX CW Contest (November 29-30th), as a Multi-Two entry. QSL via LZ1NK. [NG3K]

29/11/2008: Paolo, YV1DIG will be active from Caracus, Venezuela, as YW4D for the CQWW DX CW Contest (November 29-30th), a Single-Op/All-Band entry. QSL via EA7JX, or LoTW. [NG3K] [NG3K]

29/11/2008: Bernie, ZS4TX will participate in the CQWW DX CW Contest (November 29-30th) from Bloemfontein, South Africa, as a Single-Op/All-Band/High-Power entry. QSL via LotW. [NG3K]

24/01/2009: The 3 Stars DX Group plan to activate the Santa Maria Island (IOTA SA-070, DICE ICE-502) lighthouse (ARLHS CHI-027, TWLHD WLH CE-038, WLOTA LH-0543, Admiralty G1764, WW Loc. FF33FA) using the call sign XR5L between January 28th and February 4th. Operators mentioned are Didier/F6DXE, Christophe/F0ELI, Andr?/F0ELK, Elsa/LU1EJ, Esteban/XQ7UP, Ricardo/CE3HDI, Carlos/CE6AMN, Carlos/CE6UFF, and Irma/CA6UTF. Activity is planned for 80, 40, 20, 15 and 10 meter SSB and CW. QSL via CE6AMN, direct only (QRZ.com). Website at: www.3stardxgroup.cl/ [rsgbiota.org]

04/03/2009: Eric, KV1J will be QRV once again from Miquelon Island (NA-032, DIFO FP-002, WLOTA LH-1417, WW Loc. GN17TC) as FP/KV1J, ARRL SSB DX Contest included. Eric will be staying at the Motel de Miquelon (formerly Maxotel) from March 4-9th. During the contest he will be Single-Op/All-Band/Low-Power. Outside the contest look for him on 3.5 to 50 MHz using SSB, CW, RTTY and PSK31. QSL via KV1J direct, via the bureau. [MMMonVHF]
==========
SPECIAL EVENTS -

07/11/2008: Members of the Clipperton DX Club, Gerard/F2VX, Alain/F5LMJ, Jean-Louis/F9DK and Vincent/G0LMX will be active from Bhutan, using the special call sign A5100A between November 7-17th. Activity is to celebrate the 100th anniversary of the Kingdom of Bhutan. The team will meet with Pradan, A51PN in the southern part of Bhutan after this operation and plan to be active from three different regions within Bhutan signing /p. They will be using an IC-756Pro, IC-746, FT-857D, with two 1Kw amps, a Spiderbeam for 5 bands and a wire 11 element log periodic. QSL via F9DK. [OPDX Bulletin]

08/11/2008: The Radio Club of Fagnes (F5KDB) will air the special call sign TM90AA to commemorate the 90th anniversay of the armistice of the war 1914/1918 from November 8-21st. QSL via the bureau to F5SPW, or direct to F4FIU. [UBA HF News]

09/11/2008: The Mexborough and District Amateur Radio Society (G4BTS) will air special event station GB4LWF on November 9th from Mexborough, Swinton, commemorating Remembrance Sunday with "Lest We Forget". QSL via the RSGB Bureau. [GB2RS]

13/11/2008: The ARAP87 Amateur Radio Club will use the special event call sign TM5TUR from November 13-26th to celebrate the Science week in the Turgot Gymnasiun, in the city of Limoges, Central France. QSL via F6KTW, bureau preferred. [F5NQL]

14/11/2008: Special event station GB70RAF will be aired between November 14th and December 11th to celebrate RAFARS 70th Anniversary. QTH will be from Shaftesbury Dorset (WAB ST82). They plan to be QRV 80-10 meter CW and SSB, plus 2m FM. QSL via the RSGB bureau. [F5NQL]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

SIX METERS & UP -

- Since 2003 DF2ZC publishes the 144 MHz EME NewsLetter. This is a free service for the EME community. Bernd, DF2ZC, informed us, that the latest edition of the EME-Newsletter is now available at: www.df2zc.de/newsletter/ - The November issue will be uploaded on 24 November 2008... 73 de Bernd DF2ZC

- J6, ST. LUCIA, NA-108 - W5JON (V47JA), John, just received his operating permit from St. Lucia, where he will be operating from Marigot Bay (FK93) from March 3-11, 2009. This will include the ARRL SSB DX Contest. He'll be QRV as J6/W5JON on 160-6m using an ICOM IC-7000 and RM Italy KL-400 400 watt amp. For antennas he'll have Alpha Delta dipoles, DXLB 160 / 80 / 40 Meters, and DXEE 10-20 Meters. He'll also have a 3 element yagi on 6m. QSL via W5JON. [N8OFS]

- W4, TALBOT ISLLAND, NA-138 - SAARS will be activating Little Talbot Island (IOTA NA-138, USi FL-116S, Duval County), Florida, from noon Saturday Nov 15 noon Sunday Nov 16th. All hams are invited to join us and participate in the fun. LATEST NEWS from Andy, N8OFS dated 2008-10-31: Our current plans are to transmit part of the time on 6 meters. The island is a state park and due to some restrictions we can only put up one antenna so we will only have one operation radio. We have decided that whoever is operating the radio will have the choice of band and mode so I don't have a set schedule. If you want we can try to work out some skeds with you. If I get more details then I'll forward them to you. [Marshall Harrison - W4MKH via MMMonVHF]

==========
SILENT KEYS -

Paolo Cortese, I2UIY who was the chairman of the ARI QSL bureau for many years passed away at the age of only 48. Paolo was father of the EU Sprint Contest and was elected into the Contesting Hall of Fame last May.

Bob McCourt, KI4RU passed away Monday morning, November 3, 2008 at 7:20 a.m.

Other DXers and contesters who became silent keys are Stan Kuhl (K6MA), Stephen C. Rock (N4SR), Antonio "Diniz" da Silva (PY2NX) and Valentin V. Polyakov (UR5NA).
==========
BITS & PIECES -

04-11-08 Nicolas, FT5YI/F4EGX has just arrived at Dumont d'Urville and he hopes to be operating in the next upcoming days. Further news ... 06/11/2008: Nicolas is now active as FT5YI. He has installed a 20 meter delta loop and is running 100 Watts. Preferred frequency around 14.210MHz. QSL via F4EGX, bureau preferred. [F5PFP]

3B7FQ Trip Update:
Rachid, 3B8FQ reports that his trip to activate St. Brandon Island has been delayed due to the unavailability of boat transportation. It had been planned for late October. The next boat scheduled to leave for St. Brandon is 15 November, and Rachid and the meteorological station maintenance team are hoping to be aboard. If everything works out as planned, Rachid will be active as 3B7FQ much longer than during his short stay on Agalega Island as 3B6FQ this past April. As was the case this past Spring, Rachid will be on a work assignment and will be active on phone & CW, as time is available.
More info as it becomes available. [K5XK

On Veterans' Day, November 11, from 1500 UTC - 2200 UTC, the Strategic Air Command Memorial Amateur Radio Club (SACMARC) will salute America's veterans by activating the call sign held by Air Force General Curtis E. LeMay, K0GRL (SK) while Commander-in-Chief of SAC. The station will be located at the recently opened Eastern Nebraska Veterans' Home in Bellevue, NE. Operation will be on SSB, primarily on 14.275 and possibly 7.275 plus or minus QRM. Members (residents) of the Home will be invited to be guest operators. A special QSL card featuring a photograph of the new Veterans' Home will be available for an SASE (US) or an SAE and one green stamp or IRC (DX).
QSL to SACMARC, Inc., PO Box 1292, Bellevue, NE 68005-1292, USA, or to John A. Sheffield, N4OWG, 6804 Capehart Road, Papillion, NE 68133-2632,USA. [K1XN]

7765. Adelie Land last minute, Terre Adélie dernière minute

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-07 09:14:05 UTC
From: F5nql@aol.com
Topic: 7765 Message: 7765

Hi friends

Adelie land last minute (Nov 6th 2230 UTC):

de Nicolas FT5YI.

Hi all
This is a good new.

i've set up a delta loop antenns for the 20m band.
I'm now ready on 14.210MHz, + or - , with a 100W , FT857

I'm alone in the transmission center of the base - Heat :14 centigrades.
Few stations on my log, only 2 ZL QSO'ed at 0700 utc (1700 Adelie time).

Some sporadic 10 seconds QRM because of electric heating , off that the band
is very quiet.

I haven't got my timetable..... neither the MUF for 20m.

73

Bonjour à tous

Terre Adélie, dernière minute (6 novembre, 2230 UTC)

de Nicolas FT5YI.

Salut

Voici une bonne nouvelle.

J'ai installla delta loop 20m comme j'ai pu.
Je suis donc actif DDU sur plus ou moins 14.210MHz. FT857 avec 100W.
Je me trouve seul dans le centre d'émission de la base, chauff 14C.
Deux ZL contactpour l'instant 7H TU, 17H local.
Quelques QRM de chaufferettes. mais ne dure qu'une dizaine de
secondes. La bande est très calme.
Je ne connais pas encore mes horaires... Et je ne connais pas les
horaires des meilleures propagations.

7766. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-07 12:12:56 UTC
From: K1XN
Topic: 5889 Message: 7766

The NOVEMBER 2008 Issue #811-A files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

7770. WAE DX Contest

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-07 16:29:48 UTC
From: K1XN
Topic: 7770 Message: 7770

Dear fellow contester,

At the coming weekend, November 8/9th, the 54th season of the Worked All Europe DX Contest is going to continue with the RTTY event.

I'd like to invite and welcome you for this year's event (48 hours 00:00-23:59Z). The official rules and many more information can be found in the Internet: http://waedc.de . Get ready for the QTC challenge again, this time their transmission not only allowed towards Europe but in general between different continents.

I hope to meet you on the bands during the contest.

Enjoy!

Best 73 de Joerg, DL8WPX
WAE DX Contest Manager

Hi friends
Message n° 1 from the A5100A team :

Thimphu, Nov 7, 19:00 Buhtanese time (14h utc in France)

Hi all
We are finaly in Thim^hu since 1300 afternoon, after long and long hours and hours of wait in Bangkok . This morning the flight was marvelous , behind the Everest, the Annapurna, the K2 and the Chomolari under a wonderful sunshine ... we repeat Wonderful!
In Thimphu, the town is quite made with Thusands and Thousands of people came to the Capital for the 100th anniversary of the Kingdom festivities. The stade of Thimphu where will be done the most important parts of the ceremonies of the new King coronation is crammed full

Here at the Jambayang, starting is a little bit hard. The sunset 16h30, has left us only two hours to settle the stations and the antennas. T the moment only the G5RV and the Vertical are QRV. Only one PA is in order . The final tuning will be made to morrow.
Those who spotted us this evening were right. We have made somme QSO’s on 30m CW and 20m SSB, to tune the stations. Europe was closed.
This night we hope some EU among the other , on 30M CW and / or 40M , with for the moment one station and one 400w PA.

Amitiés de toute l'équipe

Tks Jean-Michel F6AJA

Bonjour

Message de l apart de notre équipe en A5100A.

Bonne chasse

Thimphu, 7 nov, 19:00 locale (14h en France)

Bonjour à tous,

Nous sommes enfin à Thimphu depuis 13h cette après-midi, après de nombreuses heures d'attente à Bangkok et un vol magnifique ce matin, longeant l'Everest, l'Annapurna, le k2 et le Chomolari sous un soleil magnifique...superbe !

Arrivée à Thimphu dans une ville en folie en pleine cérémonie du couronnement du nouveau roi avec des milliers de personnes réunies au stade de la ville.

Ici au Jambayang, le démarrage est un peu dur. La nuit tombant dés 16h30, nous n'avons eu que deux heures pour installer les antennes et les stations. Seules la G5RV et la verticale sont installées, avec pour l'instant un seul ampli et pas l'ensemble du matériel. Nous passerons la journée de demain à tout régler.

C'est bien nous qui avons effectué quelques QSO sur 30M CW et 20M SSB en réglages, mais pour le reste pas encore d'européens espérons ce soir sur 30M CW et/ou 40M avec pour l'instant une seule station active, avec ampli de 400W

Amitiés de toute l'équipe
Merci Jean-Michel F6AJA

Topic: 7772 Message: 7772

Bonjour

Some news from our A5100A friends
...

Thimphu, Saturday Noov 8th.
Hi all
The first night was interesting . A good traffic was made by Jean Louis/F9DK and Alain/F5LMJ on 40 then 80m CW.
Without any amplifier and using the G5RV, we enjoyed some good pile ups with all Europe and had a good opening to Japan..
But as it was each time in the preview operations, the propagation shut down completely at 00h30 , after the sunrise. Only 20 m opens at 6h/7h TU.
Ham radio in the Himalaya is really a very difficult exercise.
This morning we erected the Spiderbeam and moved the vertical on th roof .

Now Gerard/F2VX , with the Spiderbeam and 400w piles up on 20m SSB.
At the moment we have only one station The second is part of the gear left in A5 in 2005.
We don’t expect to pick up it before the end of the week end, which is the most part of the 100th aniversary of the A5 Kingdom. We hope traffic with 2 stations on Monday afternoon or thuedday morning.
Whilst we are on the air, in the Timphu, Capital stadium, the festivities continue with always more and more spectators. Thousands of people, came from all the provinces, hurry and squeeze together for a new day of shows and ceremonies in the honour of the new King.
The town will begin to be more quiet in some days.

Amitiés de l'équipe A5100A

Tks Jean-Michel F6AJA

Thimphu, samedi 8 nov

Bonjour a tous,

La 1ere nuit a été intéressante, avec un trafic soutenu toute la nuit, Jean-Louis et Alain se relayant sur 40M CW puis 80M CW. Sans ampli et sur l'antenne G5RV, de bons pile-up avec toute l'Europe et une ouverture intéressante sur le Japon sur 80M. Par contre comme les années précédentes, la propagation se coupe totalement vers 0h30 très vite après le lever du jour, pour ne reprendre sur le 20M que vers 6h/7h TU. La radio dans l'Himalaya est vraiment un exercice difficile !

Ce matin la SpiderBeam a été montée et la verticale déplacée sur le toit du bâtiment. Gérard est maintenant sur 20M SSB en plein pile-up avec la spiderbeam et l'ampli 400W. Mais nous n'avons pour l'instant toujours qu'une seule station, il manque encore une partie du matériel laissé en 2005 et en plein week-end de célébration nous n'aurons probablement pas le reste avant demain ou lundi.

Pendant ce temps juste en dessous de nous, dans le stade de Thimphu, la fête continue avec toujours autant de spectateurs. Des milliers d'habitants de toutes les provinces du pays se pressent pour une nouvelle journée de spectacle et de cérémonie en l'honneur du nouveau roi. La ville ne retrouvera son calme que dans quelques jours.

Amitiés de l'équipe A5100A
Merci Jean-Michel F6AJA

Hi
News from Buhtan A5100A 2008
Yesterday, Jean Micel, F6AJA had a 40m SSB QSO with the crew, Gerard, F2VX behind the mike.

Thimphu, Sunday Nov 9th

Hi all
We made SSB traffic last night with Gerard and Vincent on 40 and 80m, - G5RV and 400w - but very difficult, because of the contests.
We hope to pick up from the Ham center , the gear we had left in 2005 especially the band filters which will permit to pilot two stations simultaneousy.
At the moment it’s impossibe to move away a station off the other, and according to the buildingl roofs positions , we had to use the place as it is , so without the filters we cannot use more gear as we are doing.
So the traffic in CW and SSB is made in alternation.
New and not scheduled, this morning, we will try to settle a 160 meter dipole with some tryings this evening in CW.

The RTTY station is QRV since yesterday, but in the WAE/RTTY, a lot of contesters forgot we are not in Europe but really in ASIA; so we had only a few QSO’s in this mode.
This Sunday morning, starting around 0630 local time, the Capital stadium is still full of people and the festival continues with the same cowd in jubilation who cries and applauds the highlights of the shows
Amitiés de l'équipe A5100A

Nouvelles de Bouhtan 2008.

Jean-Michel F6AJA, a fait QSO avec l’équipe sur 40m SSB voici quelques informations complémentaires. Gérard F2VX au micro.

Thimphu, Dimanche 9 nov

Bonjour a tous,

Trafic SSB la nuit dernière avec Gérard et Vincent SUR 40 et 80M, sur la G5RV avec 400W, mais difficile en plein contest... !

Nous espérons aujourd'hui ou demain pouvoir récupérer dans Thimphu le reste du matériel laissés au Ham center en 2005, dont les filtres de bandes qui nous permettront d'activer simultanément les deux stations. Il est impossible d'éloigner les stations et les antennes compte tenu de la disposition des lieux et pour l'instant sans les filtres ce n'est pas possible. Dans l'attente, nous alternerons CW et SSB. Ce soir le trafic 40 et 80 sera donc en CW.

Nous installons également ce matin un dipôle 160M avec peut être un essai dés ce soir en CW. La station RTTY est également opérationnelle depuis hier, mais le WAE en RTTY n'a permis de faire que quelques contacts. Un essai plus conséquent dés lundi.

Ce matin, dimanche dés 6h 30 du matin le stade s'est de nouveau rempli et la fête se poursuit avec toujours la même foule en liesse qui salue de ses cris les moments forts du spectacle.

Amitiés de l'équipe A5100A
Merci Jean Michel, F6AJA.

Don,
All the invoicing is done except for 3 that are pending the
arrival of their checks or new credit card data.
Everyone on the list should have received an invoice via email
this week except for those mentioned above and I sent messages
to those folks letting them know what was needed. No messages
bounced back, so I hope all received them.

Date: 2008-11-10 08:58:49 UTC
From: F5nql@aol.com
Topic: 7782 Message: 7782

Hi friends
A5100A news :
Thimphu,Monday November 10th, 2008.
Yesterday, we had a meeting with the Dr Françoise Pommaret (Dr. Francoise Pommaret, leading expert on Bhutan and the Himalayas and author of the well-known guidebook to the Kingdom. She is founder and President of the French Bhutan Society, Les Amis du Bhoutan, and a Research Fellow at the Centre National de la Recherche Scientifique, Paris.)
With and thanks her we could attend to a part of the big festivals organized for the New King coronation and 100th anniversary of the Kingdom. It was very impressive.
Now for the traffic :
The 40m band was open yesterday evening ; Alain on 40/CW then Jean-Louis on 80/CW were QRV. For 160m we have an only 1827 kHz frequency possible, because elsewhere the PA refuses to work. We begun at our Greyline (between 1730 and 1910 utc) . We made 10 QSO’s with the following entities : OH, ES, UA, UA9, UT.

To day SSB traffic, but we haven’t yet the band filters. We have less and less hopes to find the big parcel in which they were stocked. It’s a complete parcel which is going missing with filters, cables , connectors and so on. It’s really a big frustration!
Our antenna “farm”, now consists of a 160m dipole, a vertical for 80m, a G5RV for 40/30m and a 5 bands spiderbream for 20 to 10 meters.
The main station is a IC746 with a 400WPA (thanks Serge, F6AML, who have lent it.).
The DIGI station is QRV with a FT757 , but now we focuse on SSB and CW.
At 00h this morning (1900 utc), 1300 QSO’s are logged.
We will not put the log on line. The SSB log is a paper one.
73's Alain
PS : following these links you’ll enjoy some pictures of the new King of Buhtan and festivals and some other of the crew :

Bonjour à tous
Quelques nouvelles du Bouhtan
Thimphu, Lundi 10 nov

Bonjour à tous,

Hier après avoir déjeuner avec Françoise Pommaret (une ethnologue et thibétologue française, chercheur au CNRS. Elle travaille au Bhoutan depuis 1981 .Françoise Pommaret a reçu l'exequatur en sa qualité de consul honoraire du Bhoutan à Paris. Elle est aussi présidente de l'association Les Amis du Bhoutan.)
Nous avons pu assister a une partie des célébrations dans le stade c'était vraiment impressionnant.

Le 40M était bien ouvert hier au soir, Alain en CW sur 40M, puis Jean-Louis sur 80M avant d'attaquer le 160M (unique fréquence 1827 sinon l'ampli se coupe) démarré à notre Grey line (entre 22h30 et 00h10) avec 10 Qso dans le log avec OH, ES, UA, UA9, UT.

Aujourd'hui SSB, nous n'avons toujours pas les filtres de bandes et avons maintenant peu d'espoir de les retrouver, c'est un carton complet qui a disparu avec les filtres et les cordons de liaisons... c'est frustrant !

Nos antennes sont, dipôle sur 160M, verticale sur 80M, G5RV sur 40M et 30M, Spiderbeam du 20M au 10M. La station principale est un IC746 avec l'ampli 400W (un grand merci à Serge), la station DIGI est installée avec le FT757 mais pour l'instant priorité à la SSB et la CW.

A 00h ce matin 1300 Qsos dans le log. Il n'est pas prévu de mettre le log en ligne, les QSO SSB sont sur log papier.

73's Alain
PS : avec le lien suivant quelques dizaines de photos du nouveau Roi du Bouhtan et des cérémonies, aisi que quelques autres de l’équipe.

DX SUMMIT ALERT

The Old OH2AQ DX Summit Goes Offline November 19, 2008 at 1000 UTC

The new DX Summit website at http://www.dxsummit.fi/ debuted on May 23, 2008. The site has been redeveloped from the ground up and uses the latest technology available. The new DX Summit has been ramping up steadily and today the number of hits is approaching 1 million a day. In addition to providing the same functionality as the old DX Summit, the new platform offers the necessary flexibility to easily add new features which are currently on the drawing board.

The old DX Summit homepage at http://oh2aq.kolumbus.com/ redirects users to the new DX Summit website. However, all the old DX Summit data pages are still online but the trend for daily hits has decreased, as we expected. The number still remains high but the time has come to shut down the old DX Summit machine which may cause your software to stop working.

To try and maintain compatibility with older software which may no longer be supported, the new DX Summit includes a series of DX spot webpages which are 100% HTML compatible with the same pages on the old DX Summit. Simply changing the URLs in your software according to the information below should keep it working with the new DX Summit. If your software does not allow you to edit the URLs, please contact the author of your software and ask them to change the URLs according to the information below.

URLs to change

Latest 25 DX spots page
Old URL: http://oh2aq.kolumbus.com/dxs/dx25.html
New URL: http://www.dxsummit.fi/text/dx25.html

Latest 1000 DX spots page
Old URL: http://oh2aq.kolumbus.com/dxs/dx1000.html
New URL: http://www.dxsummit.fi/text/dx1000.html

Latest 10000 DX spots page
Old URL: http://oh2aq.kolumbus.com/dxs/dx10000.html
New URL: http://www.dxsummit.fi/text/dx10000.html

Software authors who wish to implement data exchange with the new DX Summit should visit http://www.dxsummit.fi/technical.aspx for information on data formats and URLs. If your software does not work with the new DX Summit, we encourage you to forward this information to the author of the software you are using.

We hope all software relying on the DX Summit can be successfully updated to work with the new DX Summit. We look forward to providing you with this valuable DX resource for many years to come!

73,

OH8X Team

OA, PERU (Also a rare IOTA). Operators Rene/DL2JRM and Daniel/DL5YWM will be staying in Lima from between November 13-28th. In their spare time they will operate as OA4/homecall mainly on CW with a focus on the lower bands. Daniel informs OPDX that they will team up with Jorge, OA4BHY, and try to activate a very rare and difficult IOTA in the La Libertad Department Group (SA-075) called Guanape Islands. The team will sign as OA4BHY/2 from Guanape Islands between November 15-17th, depending on the weather conditions. They plan to have two stations on the air.

Watch the IOTA frequencies. The team hopes that they can operate from the lighthouse which is on top of the island. QSL Manager for OA4BHY/2 is Rene, DL2JRM. QSL all another callsigns via their home callsigns.

Any donation can be sent via PayPal using the button on the OC1I/OC6I

DXpedition Web site at:
http://www.qslnet.de/member/oc1i/english/e_sponsor.htm

ADDED NOTE: The team is asking for soundfiles (mp3 or wav) and videos (YouTube) of their operation. Please send them to: dl5ywm@...

A5100A News

Thimphu, , Nov 11th, 0300 UTC
Hi all
A very difficult night in SSB on 40 and 80m. Gerard and Vincent have broken their voices all night long for an average of 10 QSO an hour.
At the sunrise, nothing on 160m, a good openning on 40m/CW until the signals were lost in the noise often up s9+.

To those who ask us "why are you so weak" ... It’s necessary to stay here in the Himalaya to understand. The valleys configuration offers no free horizon. The band noise is quite permanent at a high level. Unfortunately the propagation is not with us too.
The Buhtan is not a beach where the antennas can be erected “ foots in the water”, separated one from the others with a good distance and without any obstacle 360 deg around.
It’s frustrating for you, but know that’s even more for us.
If we want the Buhtan on the bands, we have to accept these difficult conditions.

Amitiés de toute l'équipe

Thanks Jean Michel F6AJA

A5100A

Thimphu, le 11 nov, 8h locale

Bonjour à tous,

Nuit très difficile en SSB sur 40 et 80M. Gérard et Vincent se sont cassé la voix toute la nuit pour une moyenne de 10 QSO à l'heure. Au lever du jour, rien sur le 160M, une bonne ouverture sur le 40M CW jusqu'à ce que les signaux se perdent dans le bruit de fond souvent à s9+.

A ceux qui nous demandent "why are you so weak" ... il faut venir passer quelques jours dans l'Himalaya pour comprendre. La configuration des vallées sans aucun dégagement, un bruit de fond permanent très élevé, la propagation qui n'est pas là non plus... Le Bhoutan n'est pas une plage avec les antennes les pieds dans l'eau, bien espacées et avec un dégagement à 360°.

C'est frustrant pour vous, mais ça l'ai certainement bien plus pour nous... Si l'on veut que ce pays soit activé, il faut faire avec ces conditions difficiles.

Amitiés de toute l'équipe

Merci Jean Michel F6AJA

Hi John:

Does this mean that some changes are needed to DX -Telenet?
Or is a new version needed? I have ver. 5.2 which I think is the latest.

DX SUMMIT ALERT

The Old OH2AQ DX Summit Goes Offline November 19, 2008 at 1000 UTC

The new DX Summit website at http://www.dxsummit.fi/ debuted on May 23,
2008. The site has been redeveloped from the ground up and uses the latest
technology available. The new DX Summit has been ramping up steadily and
today the number of hits is approaching 1 million a day. In addition to
providing the same functionality as the old DX Summit, the new platform
offers the necessary flexibility to easily add new features which are
currently on the drawing board.

The old DX Summit homepage at http://oh2aq.kolumbus.com/ redirects users to
the new DX Summit website. However, all the old DX Summit data pages are
still online but the trend for daily hits has decreased, as we expected.
The number still remains high but the time has come to shut down the old DX
Summit machine which may cause your software to stop working.

To try and maintain compatibility with older software which may no longer be
supported, the new DX Summit includes a series of DX spot webpages which are
100% HTML compatible with the same pages on the old DX Summit. Simply
changing the URLs in your software according to the information below should
keep it working with the new DX Summit. If your software does not allow you

to edit the URLs, please contact the author of your software and ask them to change the URLs according to the information below.

URLs to change

Latest 25 DX spots page
Old URL: http://oh2aq.kolumbus.com/dxs/dx25.html
New URL: http://www.dxsummit.fi/text/dx25.html

Latest 1000 DX spots page
Old URL: http://oh2aq.kolumbus.com/dxs/dx1000.html
New URL: http://www.dxsummit.fi/text/dx1000.html

Latest 10000 DX spots page
Old URL: http://oh2aq.kolumbus.com/dxs/dx10000.html
New URL: http://www.dxsummit.fi/text/dx10000.html

Software authors who wish to implement data exchange with the new DX Summit should visit http://www.dxsummit.fi/technical.aspx for information on data formats and URLs. If your software does not work with the new DX Summit, we encourage you to forward this information to the author of the software you are using.

We hope all software relying on the DX Summit can be successfully updated to work with the new DX Summit. We look forward to providing you with this valuable DX resource for many years to come!

73,

OH8X Team

Rachid, 3B8FQ & 3B6FQ, says unforeseen difficulties have arisen with his working trip to St. Brandon that was expected to take place later this month. The trip has officially been delayed until sometime in 2009. Information will be announced as soon as a new date has been scheduled. The callsign will be 3B7FQ.

Meanwhile, Rachid is very active from Mauritius on 40-10M, with emphasis on the WARC bands. CW is Rachid's currently preferred mode. QSL via K5XK.

A5100A news
Thimphu, Wedenesday Nov 12th
Hi all
It’s 0800 in Thimphu, blue sky . Since we are here, the weather is very fine
. Temperature is about 20°C in the day but , around 1600 , when the sun
goes behind the mountains it drops near 0°C.

After a 5 days activity, we have logged 2250 QSO.
The last night was good in CW on 40m for all Europe and on 80m with a good
pile up with Japanese stations. On the other hand, nothing on 160m. We were
on 1827 at 1730 UTC for FK8, and 0000 utc for the F but no answer.
During the day , the 20m band is excellent starting 0600/0700 utc, but no
sigs on 15, 12 and 10m.
On 17 and 30m only close stations have been heard.
In the evening, the 40m band is also ecellent for Europe, starting 1500 UTC
until the sunrise.
We observed some good openings to JA, VK, ZL, LU and PY, but unfortunately
nothing to North America.
To day SSB activity by Gerard and Vincent.

Amitiés de toute l'équipe
PS from F5NQL :

Thimphu, Mercredi 12 nov

Bonjour à Tous,

Il est 8h sur Thimphu, ciel bleu, le temps est magnifique depuis que nous sommes là. Température de 20° en journée mais dés 16h quand le soleil passe derrière les montagne elle chute pour atteindre 0°c.

Après 5 jours d'activité, 2250 QSO sont dans le log. La nuit a été bonne en CW sur 40M pour toute l'Europe et 80M en fin de nuit avec un bon pile-up de stations japonaises. Par contre rien sur 160M que ce soit à 17h30 TU pour FK8 ou à 0h TU pour les F. Nous étions sur 1827 mais aucune réponse.

En journée le 20M est excellent à partir de 6h / 7h TU, mais aucun signal sur 15 12 et 10M. Sur 17M et 30M seules des stations locales sont entendues. Le soir, le 40M est excellent pour l'Europe dés 15h TU jusqu'au lever du jour. De bonnes ouverture vers JA, VK, ZL, LU et PY, mais malheureusement pas vers les USA.

Aujourd'hui Gérard et Vincent seront en SSB

Amitiés de toute l'équipe
PS de F5NQL :
Le Gouvernement du Bouhtan a fait une bonne surprise en honorant notre équipe par l'édition d'une page spéciale de Timbres Poste à leur effigie.

7792. RAC CALL BOOK UPDATE

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-12 16:42:42 UTC
From: K1XN
Topic: 7792 Message: 7792

Hi folks,
??? I have been told that the Winter 2009 RAC cd's are in
the production schedule and on time.
??? I have made my order and sent the check, so now we
wait for a couple of weeks.
??? I finished all the invoicing and have sent the invoice to
each of you.? I just completed labeling all the envelopes and
they are ready to stuff and mail.
??? We are now in a holding mode.
John K1XN

7794. A5100A - Buhtan 2008 - Bouhtan 2008

From: F5nql@aol.com
Topic: 7794 Message: 7794

Hi friends
This is a message (with an addendum) from our friends on the Roof of the World.

Thimphu, Thuesday Nov 13th.
Hi all
Very good traffic yesterday evening on the low bands. First in CW , then on ths SSB subbands opening later, and then again in CW until the closing of the 40m bear 0100 . The signal loss themselves in the heavy atmospheric noise, rising with de daylight.
Near 2100 utc , opening to JA on 80m, and on 40 to the USA between 0h20 to 0h40.
On 160M between 21h30 and 22h, only 3 Qso with HS and JA.
Thismorning, 2750 QSO are logged.
To those who are asking 30M and RTTY.
On 30m the band is completely empty. We have called during more an hour yesterday, without any answer. Understand that in these conditions, it’s preferable to return on 20 or 40m.
The digimode activity is running fairly but on this mode we have only 100 watts, and a lot of callls have no answer.
On Digi are only 35 QSO logged.
This morning, we have a meeting at the BICMA (Bhutan Information Communication and Media Authority), with A51WD, A51YL and the new Buthan Telecommunications Director.
We will taka advantage of this meeting to pursue and inforce our relations with the Telecom ministry and promote again and again, Ham radio in Buhtan.
Finally we had a contact with Pradan ex-A51PN’s family. Pradan is strong ill and unfortunately our meeting with him had been canceled.
Kind regards to all and a lot of thanks for your messages on our guest book or by our pilots stations.

73's de toute l'équipe

Thimphu, Thuesday Nov 13th. (addendum)

F2VX is in bad mood !
To those are harassing us with some rambling on as like “so weak” or "they don't like KW", or "they
don't like 30M"....”, some other claim “immediate QSY”,
To all of that kind of hams, we answer:
The G5RV is certainly not the best antenna and the 160m dipole could have a best surroundings ...
We could certainly be present on 30m digi, but what can we do when a hour of calling gets us no answer ?
The antennas are that we could bring with us, included in each our 20kg of

personnal luggage, the high limit authorized by the Drukair air Company.
We invite all of that Hams to go to Timphu by road with their beams and KW.
The only one road to Buhtan, they can use, cross Turkey. And when arrived here, to go to Timphu, they will have to cross again through Iran, Afghanistan, Pakistan and India! .
Then when in Buhtan they will have all the time to find the best of the best open place to traffic.
As at each time, an expedition is always consisting of 20% of satisfied hams and 80% of upset ones.
Always a band or a mode is missing, but haven't we all our life long to rise to the higher place in all modes and bands and to enter the Hall of Fame ?.
On the other hand, we want to thank a lot all of you who encourage us to continue, instead of the high difficulties, on the air or through our guest book or by our pilot friends.
As we did in 2000, 2004 and 2005 we are doing all of our best . (the time difference is 6 hours ; when it’s 00h00 utc , here it’s 0600 in the morning and we have spent all the night to call in Phone or CW)
After this sleepless night, we were this morning at the Telecom Ministry , meeting Mr Kinley T Wangchuk the General Director of the telecommunications in Buhtan. He thanked us for this new activity and for the help brought and also for beeing by radio the Buhtan ambassadors to the whole world.
We are always listening and calling, ... Soon on the air!

73's de toute l'équipe
Tks Jean-Michel, F6AJA.

Bonjour à tous
Voici un message de nos amis du Toit du Monde.
Il y a un ajout de Gérard, F2VX.
Thimphu, Jeudi 13 nov

Bonjour à tous,

Trafic soutenu hier au soir sur les bandes basses. Tout d'abord en CW, la phonie ne s'est ouverte qu'entre 18h TU et 20h30 TU, pour terminer de nouveau en CW jusqu'à ce que le trafic s'interrompe sur 40M CW à 01h, les signaux se perdent dans le bruit atmosphérique qui monte avec le lever du jour.
Une bonne ouverture vers les JA sur 80M à 21n TU et vers les USA sur 40M de 0h20 à 0h40.
Sur 160M entre 21h30 et 22h, 3 Qso avec des stations HS et JA. Ce matin nous avons 2750 QSO dans le log.

Pour ceux qui demande du 30M et du RTTY. Sur 30M, ce n'est pas faute d'avoir essayé, la bande est ici désespérément vide, une heure d'appel hier sans aucune réponse, comprenez qu'il est alors préférable de retourner sur 20M ou 40M.
En DIGI la station n'a que 100W et malgré des appels également nombreux très peu de réponse.
Seulement 35 QSO dans le log DIGI.

Ce matin, nous avons rendez-vous au BICMA (Bhutan Information Communication and Media Authority) avec A51WD, A51YL et le nouveau directeur des télécom.
L'occasion pour nous de poursuivre nos relations avec le ministère des télécom et de promouvoir l'activité radioamateur dans ce pays.

Pour terminer ce message, nous avons eu un contact avec la famille de Pradan ex-A51PN, il est malheureusement gravement malade et nous ne pourrons le rencontrer.

Amitiés à tous, et merci pour vos messages d'encouragement sur notre livre d'or ou auprès de nos pilotes.

73's de toute l'équipe:

Thimphu, Jeudi 13 nov (complément)

F2VX est de mauvaise humeur ...

A ceux qui nous disent ..." so weakness", "they don't like KW", "they don't like 30M".... ou qui réclament un QSY immédiat.... la G5RV n'est effectivement pas la meilleure antenne, l'antenne 160M devrait certainement avoir un meilleur dégagement ... Nous devrions aussi peut être faire plus de 30M et de DIGI (une heure d'appel en DIGI aujourd'hui sans aucune réponse !).
Nos antennes sont celles que nous avons pu apporter dans nos 20 kg de bagages limite maximale autorisée sur Drukair !

Nous les invitons à venir ici avec beams et KW par la route peut être il reste juste une fois arrivé en Turquie à traverser l'Iran, l'Afghanistan, le Pakistan et l'Inde ! ... puis trouver l'emplacement bien dégagé.

Comme toujours une expédition c'est 20% de satisfaits pour 80% de déçus, il manque toujours un mode, une bande, mais nous avons toute la vie pour être au sommet tous modes, toutes bandes de du tableau d'honneur...

Par contre merci à tous ceux qui nous encouragent sur l'air, sur le livre d'or, ou par des messages à nos pilotes.

Comme en 2000, 2004, 2005 nous faisons le maximum (simple rappel : nous avons 6h de décalage, quand il est 0h TU il est 6h du matin ici et nous venons de passer une nouvelle nuit a appeler en phone ou en CW)

Après cette nouvelle nuit blanche, nous étions ce matin au ministère avec Kinley T Wangchuk le directeur général des télécoms qui nous a remercié pour cette nouvelle activité, pour l'aide que nous leur apportons et pour être par la radio des ambassadeurs du Bhoutan auprès du monde entier.

Nous continuons à écouter et appeler .... à bientôt sur l'air.

73's de toute l'équipe.
Merci Jean-Michel, F6AJA.

From: NAQCC
Topic: 7796 Message: 7796

I.C.P.O. Bulletin (November 13 - 21, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

12/11/2008: The 18th Bulgarian antarctic expedition (with 15 technicians and scientists) is leaving to day for St. Kliment Ohridski station (WABA LZ-02, WAP BGR-01) on Livingston Island (62? 38?S - 60? 21? W) / South Shetland (AN-010). Spain will support the expedition with polar boat Las Palmas. Last season, Mitko was very active with VP8/LZ1UQ call sign. Let?s hope that an activity will be also possible ! [F8DVD]

13/11/2008: Operators Rene/DL2JRM and Daniel/DL5YWM will be staying in Lima, Peru, from between November 13-28th. In their spare time they will operate as OA4/homecall mainly on CW with a focus on the low bands. QSL via home calls. [DX Newsletter]

15/11/2008: Peter, HA3AUI is once again heading south to Senegal and Guinea-Bissau. From November 15, 2008 to about March 31, 2009 he will be signing 6W2SC and J5UAP. 6W: 160-10m, spiderbeam, verticals, dipoles, 500W. J5: 160-10m, spiderbeam, verticals, dipoles, 100W. For both QTHs mostly digital modes, some SSB, CW on request. QSL via HA3AUI direct or HA Bureau. [NG3K]

15/11/2008: Sacramento de Colonia Radio Club (CX2FAA) members Ricardo/CX5FT, Viterbo/CX9FD, Italo/CX3FG, Marber/CX9ACK and Walter/CX6FF plan to be QRV November 15-16th as CX1F from San Gabriel Island (SA-057), Uruguay. Look for activity on the major HF bands on SSB, CW, PSK and SSTV. QSL direct to PO Box 39073, 70000 Colonia del Sacramento, Uruguay. Further information on their web site at cx2faa.iespana.es/ [rsgbiota.org]

15/11/2008: Operators KC1SS, K4UBT, W4MKH, N4FPS, W9QGB, W7GAM, N6VX and AB4EW will be active from Talbot Island (NA-138, USi FL-121S), Duval County, Florida, November 15-16th. They plan to be QRV all bands using CW and SSB. QSL via N4AUG (QRZ.com). [rsgbiota.org]

15/11/2008: Jorge/OA4BHY, Rene/DL2JRM and Daniel/DL5YWM will activite the last Peruvian IOTA SA-075, using the call sign OA4BHY/2. It is planed to visit the Gua?ape Islands (probably the southern island, Isla Gua?ape Sur) from November 15-17th. They will run two stations, with focus on 40m and 30m CW during the Japanese night and morning hours. They also hope to operated from the lighthouse (ARLHS PER-007, TWLHD WLH OA-006) which is on top of the island. Our team-member and QSL-manager Rene/DL2JRM is offering a special QSL-service to you and your IOTA friends. Any donation can be sent via PayPal using the button on the OC1I / OC6I DXpedition webside at:
www.qslnet.de/member/oc1i/english/e_sponsor.htm [JI6KVR]

15/11/2008: Oleg, UA9UAX will be active as UA9UAX/8 from the QTH of Pavel, UA8TA (RDA UO-01), Irkutsk region, oblast #174 (UO for Rossija award). The 8th call area is a very rare region in Siberia. Oleg is expected to be active during the second part of November. Exact dates and length of stay will depend on local conditions. QRV 160, 80, 40 and 20 meters, mainly CW, with IC-736 and wire antennas. QSL via homecall, bureau or direct. Some very interesting photographs of Pavel and the UA8TA QTH can be found at:

rx0sd.ucoz.ru/publ/1-1-0-2 [UA9UAX]

16/11/2008: Serge, F6AUS will be active as TO2HI from Les Saintes (NA-114) from November 16th to December 3rd, including an entry in the CQ WW DX CW Contest. QSL via home call. [425 DX News]

17/11/2008: Rich, PA0RRS will be active again as 9M2MRS from Penang Island (AS-015, also count for WLOTA LH-2743) from November 17, 2008 until February 6, 2009. QSL via home call. [425 DX News]

18/11/2008: Look for 5K0T and HK0/HK3JJH to be active from Roncador Bank (NA-133) from November 18-21st. The four person DXpedition will focus on low band operation, especially 160 meters, and will be operated by George/AA7JV, Tomi/HA7RY, Pedro/HK3JJH and Fero/HA8MT. The group will operate two stations from 160 to 6m. Electric power will be supplied by two generators. One will supply 120V and the other 230V for the amplifiers. 2 battery chargers and 4 batteries serve as backup. The radios will be a Elecraft K3, an Icom IC-746PRO and a IC-706. They will have a Tokyo H.power amplifier with a homemede 2kW auto tuner and a SGC 500W amplifier with a matching auto tuner. Antennas will be solely verticals mounted over salt water. We will bring two 18m and two 12m Spiderpoles. Six meter antenna will be DuneStar Rover 6 Quad. QSL 5J0T via HA7RY either direct or via bureau. QSL HK0/HK3JJH via home call, direct or bureau. Further information and log search at www.5k0t.com/ [K1XN]

18/11/2008: Eric, F6ICX will be active as 5R8IC from Sainte Marie Island [Nosy Boraha] (AF-090, also count for WLOTA LH-0491) between November 18th and December 14th. He plans to operate mainly CW on 30-10 meters. QSL via home call. [425 DX News]

19/11/2008: Dave, 3DA0VM will be active from Hawane Resort, Swaziland, November 19-23rd. Look for activity on 40-10 meters, SSB only. QSL via ZS6AVM, direct only. [NG3K]

19/11/2008: Russell, G5XW will be touring the Orkney Islands (EU-009) from November 19-23rd. Activation of various islands in the Orkney group, excluding Stroma. QSL direct only via G5XW (QRZ.com), with SASE/SAE and sufficient postage. [rsgbiota.org]

19/11/2008: Operators Roger/W7VV, Ralph/VE7XF and Brian/N9ADG will be active from the VP5JM Hamlet, located on Providenciales (NA-002) from November 19th to December 3rd, including a Multi-Single entry in the CQWW DX CW Contest (November 29-30th) as VP5W. Outside the contest they will be QRV 160-6m using VP5/homecall. QSL via home calls. QSL VP5W via W7TSQ. [NG3K]

20/11/2008: Toshi, JA8BMK plans to be active from Kanton Island, Central Kiribati (OC-043) from November 20-30th. QRV all bands using CW, SSB, RTTY, BPSK31 and SSTV. Equipment: FT-897D and HL-1.2Kfx. Antenna/Vert, yagi and Inv V. QSL via home call, direct only. [NG3K]

21/11/2008: Aki, JA1NLX will be active as 3D2YA from Mana Island (OC-121) from November 21-27th. QRV 80-10 meters using CW. QSL via JA1NLX, direct or bureau or LoTW. [NG3K]

21/11/2008: The 095 DX TEAM will be active from Salina Island (EU-017, IIA ME-015, MIA MI-083, WLOTA LH-1005) from November 21-23rd. Look for the following operators to be active - ID9/IW9GUR, ID9/IW9HLM, ID9/IW9HQP, ID9/IT9RKR and ID9/IT9GCG. The team will also activate Fossa delle felci Mountain (SOTA reference SL-022). QSL all calls via their home call signs, direct or bureau. Further information can be found on their website at www.095dxteam.org/ [rsgbiota.org]

21/11/2008: Lee, K5UN will be operating as TO5X from the QTH of Laurent, FM5BH, located in Ducos, Martinique Island (IOTA NA-107, DIFO FM-001, WLOTA LH-1041) from November 21-30th, including an entry (category TBA) in the CQWW DX CW Contest (November 29-30th). Outside the contest look for activity on all bands 160-10m and modes. QSL via K5UN, direct - bureau - LoTW - eQSL. [NG3K]

==========

LOOKING AHEAD -

22/11/2008: Look for Tibor/HA7TM (T88CJ) and Pista/HA5AO (T88CI) to be active from the Palau Pacific Resort Hotel, Arakabesan Island, Koror, Republic of Palau (OC-009, WW Loc. PJ77FI) from November 22nd to December 3rd. They will also participate in the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry, using the call sign T88CJ. Outside the contest they will be QRV 160-6 meters, mainly CW, with focus on Europe. QSL via home calls, direct or via HA QSL bureau. Further information and online log search can be found at: www.ha7tm.hu/t88/ [HA0HW]

23/11/2008: Jean-Pierre F5AHO will be FK/F5AHO from November 23rd to December 13th. He will stay on Grande Terre (IOTA OC-032, DIFO FK-001, WLOTA LH-1280) from November 23 to December 5th, Lifou Island (IOTA OC-033, DIFO FK-012, WLOTA LH-0578) from December 7-8th, and Pins Island (IOTA OC-032 DIFO FK-020, WLOTA LH-0378) from December 10-12th. He will be active in SSB on 40, 20 and 17m (IOTA QRG). QSL via F5AHO, direct or bureau. [F6AJA]

25/11/2008: Seppo, OH1VR will be active as OH1VR/VP9 from the QTH of VP9GE on the island of Bermuda (NA-005, WLOTA LH-0201) between November 25th and December 2nd. He will also be QRV as VP9I in the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL OH1VR/VP9 direct to home call. QSL VP9I via N1HRA, direct or bureau. [NG3K]

29/11/2008: Brian, ND3F will once again be active from the Bahama Islands as C6AQQ during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via home call. [NG3K]

29/11/2008: Tom, K6CT will be active as CW7T from La Paloma, Rocha, Uruguay, during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/High-Power entry. QSL via K5WW, direct preferred but bureau ok. [NG3K]

29/11/2008: Serge, UT5UDX will be signing ER0WW from Kyiv, Ukraine, during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/High-Power entry. QSL via UT3UA. [NG3K]

29/11/2008: Efstathios, SV5DKL will be active from Rhodes Island (EU-001, WLOTA LH-0045) as SX5R during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (15m)/High-Power entry. QSL direct only to SV5DKL (QRZ.com). [NG3K]

29/11/2008: Nick, UN4L will be active from Kazakhstan for the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (80m)/High-Power entry. QSL via UA9AB, direct or bureau. [NG3K]

29/11/2008: Pai, VU2PAI will be active from Mangalore, India, for the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. QSL direct only (QRZ.com). [NG3K]

29/11/2008: Look for Tom, KC0W/ZD7X to be active from Cambodia as XU7XXX during the CQWW DX CW Contest (November 29-30th) as a Single-Op/Low-Power entry. QSL via KC0W, direct only. [NG3K]

29/11/2008: Dudy, YB0DPO will be active from Jakarta, Java Island (OC-021, WLOTA LH-1660), Indonesia, during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL route TBA. [NG3K]

30/11/2008: Herbert, DE1ZHB/7Z1HB, will be active as Z21LS from Harare, Zimbabwe, between November 30th and December 9th. Herbert reports that he prefers 20 meters SSB, but basically he will be all bands. He also mentioned that if he a can fix his computer there will be PSK and RTTY. There is another issue Herbert mentioned which is his antenna. Right now it is only a windom all bands antenna, but at the Riyadh Airport there is a StepperIR antenna waiting for clearance. If it can make clearance in time, he will install it permanently in Zimbabwe (However, he states time is runnig out). QSL via DE1ZHB (DARC Office, Germany, SWL callsign) or direct to 7Z1HB: Herbert Baurmann, Jadawel International, P.O. Box 61539, Riyadh 11575, Villa 408, Kingdom of Saudi Arabia (SAE plus 2 green stamps). [OPDX Bulletin]

01/12/2008: Special event station R70B will be active from December 1-15th to celebrate the 70th anniversary of the formation of the city of Belovo, the Kemerovo region. QSL via RA9UT, bureau preferred. A special 'Belovo-70' award will be available. Further information on this event and relevant award can be found at: www.qrz.ru/awards/detail/503.html [UA9UAX]

05/12/2008: Tom, KC0W/ZD7X will be active from Cambodia as XU7XXX during the ARRL 160-Meter Contest (December 5-7th) as a Single-Op/Low-Power entry. QSL via KC0W, direct only. Tom reports that after his stay in Cambodia he plans on activating Laos and Viet Nam for an extended DXpedition of up to 3 months in each country.[NG3K]

06/12/2008: Operators Lucio/PP5AVM, Carlos/PP5AX, Joaquim/PP5JY, Lira/PP5LL, Mauricio/PP5WB and Mario/PP5MQ will be active as ZV5V and ZV5Z December 6-13th from Paz [aka Gracas] Island (SA-027, DIB #63 for the Brazilian Islands Award, WLOTA LH-1983, WW Loc. GG53ST). QRV 80-10 meters, using Phone and CW. Tecnical suport will be provided by Ezequiel/PP5HQ and Alfredo/PP5KDT. Mainland suport provided by Osny/PP5AIM and PP5ZZ/Mauro. QSL both calls via PP5CIT, direct (QRZ.com). Further information can be found at: www.pazis.blogspot.com/ [JI6KVR]

29/12/2008: To commemorate the 4th International Polar year, Fran?ois, F8DVD will sign TM4IPY (WAP 084) from December 29th, 2008 until January 11th, 2009. Activity from 10 to 30m, CW, SSB and digitals. Special QSL card with a Concordia Antarctic base picture, via the French bureau or direct (SAE + postage) to: F8DVD Fran?ois Bergez, 6, rue de la Libert?, 71000 Macon, France. [F5NQL]

01/01/2009: Paul, VE9NC will be activating the special event call sign CG9NC between January 1st through February 28th to celebrate the International Year of Astronomy from Hampton, New Brunswick. He will be active mainly on 20 meters on the Digital modes throughout this period. QSL via VE9NC. [RAC]

01/03/2009: Special event call sign VC3Y will be aired March 1st to 31st to celebrate the 50th anniversary of the York Amateur Radio Club (VE3YRA). QSL via VE3CWO, direct (Douglas Robert Holmes, R.R. #1, 2600 Boag Road, Queensville, ON L0G 1R0 Canada) or bureau. [RAC]

22/07/2009: Terry/W6WTG (V31UR) and Sharon/N2OWL (V31WL) will be active from Caye Caulker (NA-073), Belize, from July 22-29th. Terry plans to operate 6 meters (Grid EK57) and also 20 and 40 meters, including an entry in the RSGB IOTA Contest (July 25-26th). They will be staying in a cottage about 30 feet from the Carribean, using a Icom 7000. Further

information and updates, along with QSL info can be found at: www.w6wtg.com/ [NG3K]

BITS & PIECES -

- Netherlands Antilles to net new DXCC Entities for 2008. Over the past year much discussion has been made about the possibility of new DXCC entities happening once the break-up/disbanding of the Netherlands Antilles takes effect on December 15th, 2008. This past week, the President of European DX Foundation (EUDXF), Hans, PB2T, who visited ARRL HQ in July and had a discussion about the DXCC status of Netherlands Antilles, feels that after December 15th, 2008, it looks like four new entities will be added to the DXCC list in the future (Curacao, Sint Maarten, Saba, Sint Eustatius and Bonaire). - CQ COMMUNICATIONS ACQUIRES WORLDRADIO MAGAZINE -
(Hicksville, NY and Sacramento, CA, November 12, 2008) -- CQ Communications, Inc. has acquired WorldRadio magazine, CQ Publisher Dick Ross, K2MGA and WorldRadio Publisher Armond Noble, N6WR, announced jointly today. CQ, based in Hicksville, New York, currently publishes CQ Amateur Radio, CQ VHF and Popular Communications magazines.
WorldRadio, based in Sacramento, California, has been published monthly since July, 1971, with a primary focus on the human side of ham radio. CQ, a general-interest ham radio magazine best known for its support of DXing and contesting, has been in print since January, 1945.
Armond Noble, N6WR, Publisher of WorldRadio, said that at the age of 74 the time had come for him to retire. "I wanted to be sure that WorldRadio found a good home, and that our readers would continue to be served by an independent voice in amateur radio," Noble said.
CQ Publisher Dick Ross, K2MGA, said, "WorldRadio has filled an important niche in our hobby for nearly four decades. We welcome WorldRadio's readers to the CQ family, and we look forward to meeting their needs for many years to come."
Current plans call for WorldRadio to continue to be published online as part of the CQ family of magazines, with Editor Nancy Kott, WZ8C, continuing in that position. WorldRadio subscribers will also have their subscriptions transferred to CQ magazine. Readers will be notified of details as plans are finalized.

VU2DSI - Datta informs me that he would be operating as
AU2JCB between 15th November to 8th December 2008.

The special prefix is for commemorating the 150th BIRTH
ANNIVERSARY of SIR JAGADEESH CHANDRA BOSE considered
as the father of radio communications. You might hear
several other VU2 stations operating with the special call
sign prefix AU2 on these days.

Thimphu, Nov 14th, 23008
Hi all
It’s 7 o'clock in the morning (0100 utc) , we are at the end of a 40m night. The band is closed now, it’s the dawn.
Only one QSO on 160m this night, but good openings on 40 and 80m. Between 17 to 2230 utc, Gerard was behind the mike.
Just before the dawn, we had a good opening on 40m CW on the grey line, with South America and USA.
At the end of the 7th day, 3200 QSO's are logged.
This afternoon at the station, the Official members of the BICMA, Kinley T Wangchuk, Ambicka Gurung A51YL, Wangpo Dorji A51WD et Parop Kinley Dorji A51PK will visit us. We will take this opportunity to promote once again Ham radio with the authorities.
Amitiés de toute l'équipe

Thimphu, Vendredi 14 nov
Bonjour à tous,
Il est 7h du matin ici (1h TU), la nuit se termine et le 40M vient de se fermer avec le lever du jour. Un seul QSO 160M cette nuit, mais une bonne ouverture en phonie sur 40M et 80M de 17h à 22h30 TU avec Gérard au micro. Au lever du jour, de 0h à 1h TU une bonne ouverture également sur 40M en CW, avec sur la grey line l'Amérique du sud et les USA. A la fin du 7ejour nous avons 3300 QSO dans le log.
Cet après-midi nous recevons à la station les officiels du BICMA, Kinley T Wangchuk, Ambicka Gurung A51YL, Wangpo Dorji A51WD et Parop Kinley Dorji A51PK. Une nouvelle occasion pour nous de faire la promotion de l'activité radioamateur auprès des autorités.

Amitiés de toute l'équipe

7799. SOLAR NEWS

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-14 11:06:01 UTC
From: K1XN
Topic: 7799 Message: 7799

ScienceDaily (Nov. 12, 2008) ? After two-plus years of few sunspots, even fewer solar flares, and a generally eerie calm, the sun is finally showing signs of life.

"I think solar minimum is behind us," says sunspot forecaster David Hathaway of the NASA Marshall Space Flight Center.

His statement is prompted by an October flurry of sunspots. "Last month we counted five sunspot groups," he says. That may not sound like much, but in a year with record-low numbers of sunspots and long stretches of utter spotlessness, five is significant. "This represents a real increase in solar activity."

Even more significant is the fact that four of the five sunspot groups belonged to Solar Cycle 24, the long-awaited next installment of the sun's 11-year solar cycle. "October was the first time we've seen sunspots from new Solar Cycle 24 outnumbering spots from old Solar Cycle 23. It's a good sign that the new cycle is taking off."

From: K1XN
Topic: 5889 Message: 7800

The NOVEMBER 2008 Issue #811-B files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

Date: 2008-11-15 10:35:46 UTC
From: F5nql@aol.com
Topic: 7804 Message: 7804

Hi friends
Thimphu, Sarurday Nov 15th (0800 Buht. Time, 0200 utc)
Another excellent night on 40m CW, but nothing possible on 80m because of the noise up S9+ whereas the 40m was very clear.
Only one new QSO on 160m with an UA9 station, before returning on 40m for the South America and USA grey line .
Thanks to all of our friends whocalle us but we couldn’t pick up in the jamming.
At 00h00 at the end of our 8th day , 4100 QSO’s are logged . We will reach and be ahead of 5000QSO’s with an ony one station and poor proagation conditions.
This morning we will have a tea and coffee breakfast with Françoise Pommaret , to talk about our two days stay in Ogyen Cholling , where we have a project with the Tang school..
Amitiés de toute l'équipe A5100A
Addendum :
These are some statistics based on the CW and Digi log ; (the SSB one wrote by Gerard F2VX count 1671 QSO’s, but Gerard authorised in 1912 , Paul F6EXV says, doesn’t know yet the electronic keyboard and uses only his old charcoal pencil!)
75 countries whom the top ten:
QSO’s DXCC entities
539 European Russia
239 Ukraine
206 Federal Republic of Germany
174 Asiatic Russia
148 Italy
141 France
118 Poland
115 USA
92 Japan
81 Finland
To the pseudo Ham who have shame of his real callsign (Has he ever got one ?) and sign our guestbook as JA100DX and writes : "expedition by EU only for EU", he can see that instead of the bad conditions, 174 Asiatic Russian , 115 US American and 92 Japanese stations are in the top ten.
For the two last days in Thimphu, we will focuse on radio, with just a little stop to take an Official luncheon, with Kunzang Choden and Françoise Pommaret.
An other last meeting is scheduled, with the Kuensel National Paper journalists, to explain the readers how and what for, we did this Ham expedition to Buhtan for the Centenary of the Kingdon and new King coronation.
Merci à tous et amitiés de toute l'équipe. A5100A

Thimphu, Samedi 15/11 (8h locale / 2h TU)
Bonjour à tous,
La nuit a été une nouvelle fois excellente sur 40M en CW. Par contre rien
sur 80M avec un bruit permanent à s9 alors que le 40M était parfaitement clair.
Un seul QSO sur 160M avec une station UA9 avant de reprendre le 40M pour la
grey line avec les USA et l'Amérique du sud. Merci aux nombreux amis qui
nous ont appelé et désolé pour ceux que nous n'avons pu sortir.
A 0h, à la fin de notre 8e jour ici, nous avons 4100 contacts dans le log.
Nous dépasserons les 5000 contacts ici à Thimphu, en une semaine, avec une
seule station et des conditions de propagation pas fameuses.
Ce matin nous prenons le café chez Françoise Pommaret afin d'organiser nos
deux journées à Ogyen Cholling et notre projet pour l'école de Tang.
Amitiés de toute l'équipe A5100A
Informations complémentaires :
Ci-dessous, basé sur les 2642 contacts CW et DIGI à ce jour, (le log SSB
comporte aujourd'hui 1671 contacts, mais dans le log de Gérard, autorisé en
1912, F6EXV dixit, est toujours sur papier !)
75 pays contactés, dont les 10 premiers sont ci-dessous :
539 European Russia
239 Ukraine
206 Federal Republic of Germany
174 Asiatic Russia
148 Italy
141 France
118 Poland
115 USA
92 Japan
81 Finland
Pour celui qui sur le livre d'or, ne donne pas son indicatif mais signe

JA100DX et nous écrit "expedition by EU only for EU", nous avons dans le log CW et DIGI 141 QSO seulement avec les stations françaises, pour 115 avec les stations US et 92 avec des stations japonaises...
Il nous reste deux jours ici à Thimphu, priorité à la radio, avec juste une interruption dimanche midi pour un déjeuner officiel avec Kunzang Choden et Françoise Pommaret.
Nous devrions également être interviewé par Kuensel, le journal national, pour y expliquer notre activité radioamateur pour la commémoration du centenaire du Royaume .
Merci à tous et amitiés de toute l'équipe. A5100A

Hi friends
Antarctica :
Nicolas, F4EGX’s activity from Adelie land, callsign : FT5YI.
Nicolas has posted some pictures at : http://f4egx.homelinux.net

Last info :
“ I’ll spend a sleepless nignt between Saturday and Sunday . I hope some QSO ’s with Europe vy the short path at the end of the day and evening beginning (around 0500 to 1100 utc)
I will not do the same every day . Here our job is planned 7/7 and it’s not easy to recover from the tiredness.
This Saturday, I’ll be active on 14.267 + ou - QRM between 1300 to 1700 utc.”

DATE: November 14, 2008 at 16:42 UTC

Hello,
Due to some circumstances the team around Jorge/OA4BHY will change their destination from Isla Guanape Sur to Isla Corcovado which also counts for SA-075. There is no lighthouse on Isla Corcovado. If you could take a soundfile or video please send them to dl5ywm@... .

Amateurs on 600 Metres

Industry Canada has accepted an RAC proposal whereby selected Canadian radio amateurs would be permitted to operate in the vicinity of 500 kHz.

These amateur operations would support Canada's efforts to action a proposal on the agenda of the 2011 World Radio Conference (WRC2011) which, if adopted, would create an amateur allocation in the 600-meter band.

Industry Canada have authorized RAC to recommend amateurs who would be licensed to operate in the 504 to 509 kHz band with a maximum power of 20 watts ERP and bandwidth up to 1 kHz. Stations operating in this band would be technically operating under Special Developmental Licenses although they would all be radio amateurs. Distinct call signs would be used and the licenses would be renewable annually subject to the amateur demonstrating the research he has carried out.

More information will follow shortly in the pages of TCA or via
subsequent bulletins.

Les rdioamateurs sur 600 Metres

Industry Canada a accepté que le RAC propose une liste de radioamateurs, qu’ elle aura sélectionnés, et qui désireraient trafiquer dans la bande des 500 kHz.

Ces activités sont destinées à appuyer les efforts pour peser sur les propositions proposées à l’agenda de la World Radio Conference 2011 (WRC2011), qui si elle adoptait cette propositio, créerait une bande 600m, allouée aux amateurs .

Industry Canada a autorisé le RAC à recommander à ces amateurs de s’en tenir aux fréquences de 504 à 509 kHz, avec une puissance maximum 20 watts ERP et une largeur de bande maximum de 1 kHz. Les stations opérant dans cette bande devront opérer dans le cadre de leur Licence spéciale d’expérimentation, (Special Developmental Licenses) , bien qu’ils soient tous radio amateurs. Des indicatifs différents devraient être utilisés et les licences délivrées poiur un an renouvelable,au vu des expériences réalisées.

Plus d’informations à venir.

Hi all
ADELIE Land news :
First, Nicolas was on the air yesterday afternoon, as he announced, on 14267
.
In France the signals were quite weak but the quality was good.

I enjoyed a good pile up yesterday afternoon, having only the time to log
the callsign and the report.
I'm not at all but, NOT AT ALL, familiar with this kind of traffic, I'm
discovering it.
I'll will be again on the air in such conditions, but later for on the
Sunday it's theonly one day which I can rest. I must make that compatible with my
job timetable .

Nicolas F4EGX/FT5YI

Bonjour

Tout d'abord FT5YI, Nicolas était sur l'air comme prévu
sur 14267 hier après-midi . Signal pas très QRO mais QSA.

Bon week-end

Ca a bien dépoté, juste le temps de mettre l'indicatif et le report...
Je n'ai pas l'habitude, mais alors vraiment pas.
Je recommencerai peut-être l'expérience, mais pas tout de suite car je
rattrape le repos sur le dimanche et ça ne sera pas toujours compatible
avec le QRL pro.
Nicolas F4EGX/FT5YI

Hi friends

A5100A saga

Thimphu, Sunday, November 16th, 1930 Buht. time (1430 utc)

Hi all

After the 20 m piule up until the sunset, we have taken down the Spiderbeam.
(What sport it was in the night!) and the vertical antennas.

Are still in place only the G5RV and the 160m dipole.

Before the last CW night on 40 80 et 160M, we count 5033 QSO's logged
with only one station and 9 days and a half of traffic.

We hoipe to be ableto send you a last message to morrow before leaving
Thimphu to the Bumtang.

Amitiés de toute l'équipe A5100A

Bonsoir à tous

La saga de A5100A:

Thimphu, Dimanche 16 nov, 19h30 locale

Bonjour à tous.

Après le pile-up sur 20M jusqu'à la tombée du jour, démontage de nuit de la spider-beam (sportif !). la verticale a également été démontée. Nous n'avons laissé pour la nuit que la G5RV et le dipôle 160M.

Avant d'attaquer la dernière nuit en CW sur 40 80 et 160M, nous avons 5033 QSO dans le log, en 9 jours 1/2 avec une seule station.

Un dernier message demain matin avant de partir pour le Bumtang.

Amitiés de toute l'équipe A5100A

2008 LOW-BAND SUCCESS STORY FROM MARKET REEF
OJ0B & OJ0J 2005-2008 LOG SEARCH ONLINE

In case of any uncertainties about your low-band QSOs, here you have a much anticipated log search machine and a short recap.

http://df3cb.com/logsearch/oj0/

QSLing for the 2008 operation is happening as we speak. Additionally, all 2005 QSLs were sent to the bureau network some six months ago. All logs are open for QSLing.

We like to thank Bernd, DF3CB for setting up this log search for us. Our QSLing is done using his QSL management software.

http://www.df3cb.com/index.html

Just download it and enjoy whether printing on labels or directly onto QSL cards!

Martti, OH2BH
OJ0B QSL-manager

Hi friends
A5100A Saga
Thimphu, Lundi 17th, 0700 Buht. Time (0200 utrc.
Hi all
The last night was a little laborious on 40 an 80m. On 160 we worked, between 1600 and 1800 ,
BY, HS, UA, UA9, UT, OH, stations.
The first part of our stay is Buhtan is now finished . We logged about 5250 QSO’s.
A big thanks to all of you who called us and for the other we couln’t copy would you accept all our apologies.
The second part of our stay is changed as we aren’t going down to the South Buhtan.
* This Monday at 0900 , departure to Tongsa, were we expect to arrive after a 6h long journey , at the end of the day.
* Tuesday 18th and Wednesday 19th we will stay in Ogyen Cholling , in the Tang Valey, in central Buhtan . We will deliver to the schools of Kharab and de Misi Thang some parcels of school supplies, purchased with the funds collected in Bordeaux and Strasbourg .
* We will leave Ogyen Cholling near noon on Thursday 20th and wuill take the road to Jakar
* Coming back to Thimphu is scheduled on Friday Nov 21st When ther, we will be interviewed by the National Kuensel paper journalists.
* On nov 22nd, departure to the Haa valley in West Buhtan.
* Sunday 23rd and Monday 24th, we will travel through the Paro valley, then
* On Nov 25th we will leave Buhtan to Bangkock Thaïland, and retur to Paris on 26th.
We will settle a station with the G5RV at Ogyen Cholling and Paros. A new bagrgain to do some other QSO’s, but we will have Ogyen Cholling, only solar panels DC supplying.
A further message will be sent on next Nov 21st when return to Thimphu.
Amitiés de toute l'équipe A5100A.

Thimphu, Lundi 17 nov, 7h locale
Bonjour à tous,
La dernière nuit a été un peu laborieuse sur 40 et 80M, avec par contre une bonne ouverture sur 160M entre 16h et 18h avec 15 contacts avec des stations BY, HS, UA, UA9, UT, OH.
Nous finissons la 1ere partie de notre séjour avec près de 5250 Qso dans le log. Un grand merci pour vos appels et vos messages, et toutes nos excuses à ceux que nous n'avons pu copier.
Comme nous ne descendons plus dans le sud à la frontière indienne, notre programme à partir de lundi à été modifié,
* Nous partons ce lundi à 9 h pour à Tongsa, nous y serons en fin de journée après 6h de route.
* Mardi 18 et mercredi 19 nous serons à Ogyen Cholling dans la vallée de Tang au centre du pays. Nous remettrons aux écoles de Kharab et de Misi Thang les équipements achetés ici avec l'argent collecté à Strasbourg et à Bordeaux.
* Nous quitterons Ogyen Cholling en milieu de journée jeudi 20 pour Jakar
* Retour sur Thimphu le vendredi 21 novembre. Nous y rencontrerons une équipe du Kuensel, le journal national du pays, pour une interview.
* Samedi 22 novembre, départ pour la vallée de Haa, à l'ouest du Pays
* Dimanche 23 et lundi 24, nous serons dans la vallée de Paro
* Avant notre retour sur Bangkok le 25 puis Paris le 26
Nous installerons une station avec la G5RV à Ogyen Cholling et Paros, l'occasion de faire de nouveaux contacts, mais avec uniquement 100w (sur panneaux solaires depuis Ogyen Cholling).
Un prochain message Internet à notre retour sur Thimphu le 21.
Amitiés de toute l'équipe A5100A.

FROM THE OFFICES OF ARCALA EXTREMES

ARCALA EXTREMES LAUNCHING CQWW CW TEAM

Snow and ice are present in the Far North at the home of OH8X, and preparations are underway to boost the signals globally, largely depending on a regular friend - Aurora Borealis. Pasi, OH2IW will be at the controls and running OH8X single-operator, all-band. Keep an eye on this station and observe its Northern sound. For more, see www.radioarcala.com (http://www.radioarcala.com).

The sister station CU2X will again be operated by Toni, OH2UA, following his smashing of the European SSB record by a wide margin. He is now determined to do the same on CW. This is from the new QTH, and you can read more at www.cu2a.com (http://www.cu2a.com).

The second sister station TC4X in Asian Turkey will be activated by Martti, OH2BH, Pertti, OH2PM and Tefvik, TA1HZ. They are there to take the first steps for setting up a permanent station with more firepower while bringing a breath of old times to the game.

Adding to the lineup its X-rated signals will be the team's associated Eastern Aland Island super station signing OH0X, again mono-band, with Pekka, OH2TA at the helm.

Radio Arcala's propagation department, Ilkka, OH1WZ of Palos Verdes Sundancers fame will be in charge of the OH2BH station, mono-band, with his deep-space telescope to see whether the particles streaming down with the solar wind will pass Radio Arcala or hit it straight on the face.

And finally, representing the Arcala senior citizens department, Ville, OH2MM will be operating mono-band as CN2M as the guest of Jim, CN2R. This will be from Casablanca, Morocco.

Their ultimate categories are subject to a final decision when looking at the world on the starting grid minutes before the start of the race.

Topic: 7815 Message: 7815

Fab has just sent me an upgrade file for his DX TELNET V 5. cluster program. This new upgrade file will make the DXT32v5.4 compatible with the new DX SUMMIT change taking place this month.

Users may download this upgrade file (DXT32V5.5 UPGRADE) from the Golist web site.? This upgrade will not work with any other versions of DX Telnet.

Fab will send out a new full version 5.5 after all the changes and upgrades are written.? I will post a message here when the new full version is available.

John K1XN

7816. NEW DX SUMMIT TOOK OVER THE MOTHER OF ALL DX SUMMITS

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
Received from Martti Laine Wed, 19 Nov 2008 09:09:17 -0500

FOR IMMEDIATE RELEASE TODAY, NOVEMBER,19, 2008, 10.00UTC

NEW DX SUMMIT TOOK OVER THE MOTHER OF ALL DX SUMMITS TODAY!

The Group at OH8X is honored to continue the services initiated by members of the OH2AQ Radio Club more than ten years ago. The original OH2AQ DX Summit was closed today at noon local time.

http://www.dxsummit.fi/

In the words of Wayne, N7NG, the President of Yasme Foundation, we capture the essence of this original innovation;

Yasme Foundation and the whole world of Amateur Radio congratulate Jukka Salomaa, OH2BUA and Antti Kantola, OH5TB for conceiving, operating and maintaining the DX Summit, the first widely-used Web-based spotting network portal. They created a tool that fundamentally changed the nature of HF operating, a true advancement of the radio art.

The New DX Summit is operated by Radio Arcala, OH8X, located in the Far North at the Arctic Circle, within the Aurora Belt, with a mission to encourage today's youth to make possible the impossible in the course of their own innovations through radio communication experience and related exciting theories.

Arcala Extremes is headquartered in Finland while operating in a European context. The message is global, and the experience is for us to share. Read about the Arcala mission and let your imagination fly to do your share among the young people and secure the continuation of this great passion that has enriched our lives and made the communication among people more effective and enjoyable. The New DX Summit and its future applications are targeted to be part of this vision.

Running the New DX Summit is supported by Yasme Foundation Inc.

CASTLES :
1st) – IRELAND
Irish Castles and Stately Homes on the Air

Steve, EI5DD, has become coordinator for Irish Castles and Stately Homes on
the Air. Basically this is an award scheme for working or activating Irish
Castles and Stately Homes.

The award scheme will be launched on the 1st of January 2009.
A web site has been set up to show a log of activated Castles and Stately
Homes.

This scheme should be of great interest to individuals or clubs who enjoy
taking gear out on portable expeditions.
We look forward to plenty of activity in the new year.

It is important to note that to be valid, intended activations should be
registered with CASHOTA-Ireland a minimum of 10 days prior to the activation.

Full details are on the website
http://cashota-ireland.org (http://cashota-ireland.org/)
2nd FRANCE :
On next Saturday, Nov 22nd, I , François, F5JNE and Claude F5MCC, will be
F5JNE/p from the Garenne Castle, DFCF 45049, in the city of Douchy zip code
45220 and Canton of Chateaurenard, DDCF 45-09.
Starting around 0700 utc, 80m then 40m, CW/SSB.
QSL bureau prefered and SWL cards welcome.

ANTARCTICA :
Patriot Hills Base Camp (WAP MNB-Ø2)

Adam K2ARB will be QRV as KC4/K2ARB - CE9/K2ARB - VP8DKF from the ALE
(Antarctic Logistics & Expeditions) base camp at Patriot Hills and surrounding areas
from Dec.18 2008 to Jan. 30 2009 on CW, SSB and PSK31 when workload permits.
Read an article by Adam about his operation in the upcoming Jan '09 issue of
QST or follow his blog at _http://www.k2arb.blogspot.com/_
(http://www.k2arb.blogspot.com/) QSL via HC.
TNX Adam Brown K2ARBKC4/K2ARB - VP8DKF - K2ARB/MM - CE9/K2ARB
On WAP web site _www.waponline.it_ (http://www.waponline.it/) more infos
and picture.

Hi friends
ADELIE land Antarctica

Nicolas F4EGX/FT5YI has sent a short message from Adelie Land
“I’ll be active on November 22nd from 15 to 1700 utc. “
The frequency is not indicated but it seems it will be the same as it was
during the last week end .
He was on 14.267 + ou - QRM

Some pictures from the ice have been posted on the Les Nouvelles DX web page
at : _http://www.lesnouvellesdx.fr/photos.php_
(http://www.lesnouvellesdx.fr/photos.php) .
Jeff, F6AOJ, a former operator in FT5Y, has put a special page on his blog
with the propagation forecast at :
_http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_163.html_
(http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_163.html) (sorry the most part in
French language but look at the pictures)

Good luck and good hunting.
Tks Jean Michel, F6AJA and Jeff F6AOJ

I.C.P.O. Bulletin (November 20 - 28, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

20/11/2008: Toshi, JA8BMK plans to be active from Kanton Island, Central Kiribati (OC-043) from November 20-30th. QRV all bands using CW, SSB, RTTY, BPSK31 and SSTV. Equipment: FT-897D and HL-1.2Kfx. Antenna/Vert, yagi and Inv V. QSL via home call, direct only. [NG3K]

21/11/2008: Aki, JA1NLX will be active as 3D2YA from Mana Island (OC-121) from November 21-27th. QRV 80-10 meters using CW. QSL via JA1NLX, direct or bureau or LoTW. [NG3K]

21/11/2008: The 095 DX TEAM will be active from Salina Island (EU-017, IIA ME-015, MIA MI-083, WLOTA LH-1005) from November 21-23rd. Look for the following operators to be active - ID9/IW9GUR, ID9/IW9HLM, ID9/IW9HQP, ID9/IT9RKR and ID9/IT9GCG. The team will also activate Fossa delle felci Mountain (SOTA reference SL-022). QSL all calls via their home call signs, direct or bureau. Further information can be found on their website at www.095dxteam.org/ [rsgbiota.org]

21/11/2008: Lee, K5UN will be operating as TO5X from the QTH of Laurent, FM5BH, located in Ducos, Martinique Island (IOTA NA-107, DIFO FM-001, WLOTA LH-1041) from November 21-30th, including an entry (category TBA) in the CQWW DX CW Contest (November 29-30th). Outside the contest look for activity on all bands 160-10m and modes. QSL via K5UN, direct - bureau - LoTW - eQSL. [NG3K]

22/11/2008: Niko, S53A will be active from The Hippo Lodge (www.hippolodge.com/), Kafue National Park, Zambia, from November 22nd to December 2nd, using the call sign 9J3A. He will also be QRV for CQWW DX CW Contest (November 29-30th). Power generator, spider beam for high bands, wire beams for low bands and Low power - IC7000. QSL via home call. [NG3K]

22/11/2008: Jean/ON5JV and Georgette/ON6AK will be QRV as EA8/homecall from Tijoco Bajo, Tenerife Island (AF-004, DIE S-012, WLOTA LH-1276) between November 22, 2008 and February 3, 2009. Activity will be mainly on 20 and 40 meters during the evening. QSL via their home calls, bureau is preferred. [UBA HF News]

22/11/2008: Fran?ois/F5JNE and Claude/F5MCC will be active November 22nd as F5JNE/p from the Garenne Castle (DFCF 45-049), in the city of Douchy (CP 45220, Canton of Chateaurenard (DDCF 45-09), Department Loiret/45 and Province Centre (DPF 07). Starting around 0700 UTC, 80m then 40m, CW/SSB. QSL via bureau preferred and SWL cards are welcome. [F5NQL]

22/11/2008: Guy/F1CNT and Bernard/F1UFX will be active November 22nd and 23rd as homecall/p from the Castle Latour (DFCF 60-061), commune of Liancourt (CP 60140), Department Oise/60 and Province Picardie (DPF 18). F1CNT/p will be on VHF, while F1UFX/p will be active on the HF bands. QSL via home calls, direct or bureau. [F1UFX]

22/11/2008: Look for Tibor/HA7TM (T88CJ) and Pista/HA5AO (T88CI) to be active from the Palau Pacific Resort Hotel, Arakabesan Island, Koror, Republic of Palau (OC-009, WW Loc. PJ77FI) from November 22nd to December 3rd. They will also participate in the CQWW DX CW

Contest (November 29-30th) as a Single-Op/All-Band entry, using the call sign T88CJ. Outside the contest they will be QRV 160-6 meters, mainly CW, with focus on Europe. QSL via home calls, direct or via HA QSL bureau. Further information and online log search can be found at: www.ha7tm.hu/t88/ [HA0HW]

22/11/2008: Tevfik, TA1HZ will be active as TC1LZ during the LZ DX Contest weekend (November 22-23rd). QSL via his home call sign. [OPDX Bulletin]

22/11/2008: Hans-Peter, HB9BXE will be active as XV4BX from Phu Quoc Island (AS-128), Vietnam, from November 22-30th, including a Single-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). Outside the contest he will be QRV 160-10 meters, mainly CW, with 100 Watts; vertical and windom antennas. QSL via home call. [NG3K]

22/11/2008: Ralph, YN2/K9ZO will be active from Grenada (WW Loc. EK71XU), Nicaragua, on the WARC bands and SSB during the week prior to the CQWW DX CW Contest. Look for him during the contest as YN2Z. QSLs via K9ZO and LOTW. [NG3K]

23/11/2008: Look for 5K0T and HK0/HK3JJH to be active from Bajo Nuevo (NA-132) between November 23rd and December 2nd. The four person DXpedition will focus on low band operation, especially 160 meters, and will be operated by George/AA7JV, Tomi/HA7RY, Pedro/HK3JJH and Fero/HA8MT. The group will operate two stations from 160 to 6m. Electric power will be supplied by two generators. One will supply 120V and the other 230V for the amplifiers. 2 battery chargers and 4 batteries serve as backup. The radios will be a Elecraft K3, an Icom IC-746PRO and a IC-706. They will have a Tokyo H.power amplifier with a homemede 2kW auto tuner and a SGC 500W amplifier with a matching auto tuner. Antennas will be solely verticals mounted over salt water. We will bring two 18m and two 12m Spiderpoles. Six meter antenna will be DuneStar Rover 6 Quad. QSL 5K0T via HA7RY either direct or via bureau. QSL HK0/HK3JJH via home call, direct or bureau. Further information and log search at www.5k0t.com/ [K1XN]

23/11/2008: Carsten, DL1EFD will be active as 6V7N from Senegal between November 23rd and December 5th, including a Single-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). Outside the contest look for activity on all HF bands, mainly CW. QSL via home call. [NG3K]

23/11/2008: Fred/KE7X (C6AKX) and Tom/N6BT (C6ARR) will be QRV from North Palmetto Point, Eleuthera Island (NA-001), Bahamas from November 23rd to December 1st. During the CQWW DX CW Contest (November 29-30th) look for C6AKX as a Single-Op/Single-Band 20m entry and C6ARR as a Single-Op/Single-Band 160m entry. Outside the contest they will be QRV 160-20 meters. QSL both calls via WA4WTG, direct or bureau. [NG3K]

23/11/2008: Kenny, K2KW will be active from Eleuthera Island (NA-001), Bahamas, from November 23rd to December 1st as C6ATA, including a Single-Op/Single-Band (80m)/Low-Power entry in the CQWW DX CW Contest (November 29-30th). Outside the contest he will be QRV 160-20 meters. QSL via WA4WTG. [NG3K]

23/11/2008: Jean-Pierre F5AHO will be FK/F5AHO from November 23rd to December 13th. He will stay on Grande Terre (IOTA OC-032, DIFO FK-001, WLOTA LH-1280) from November 23 to December 5th, Lifou Island (IOTA OC-033, DIFO FK-012, WLOTA LH-0578) from December 7-8th, and Pins Island (IOTA OC-032 DIFO FK-020, WLOTA LH-0378) from December 10-12th. He will be active in SSB on 40, 20 and 17m (IOTA QRG). QSL via F5AHO, direct or bureau. [F6AJA]

24/11/2008: Ralph, K9ZO will be active from the QTH of YN2N in Granada, Nicaragua, between November 24th and 30th, including an entry in the CQWW DX CW Contest (November 29-30th). Call sign is tentatively H7/K9ZO but maybe Ralph can get YN2ZO. [NG3K]

24/11/2008: The 4M5DX Group will activate Toas Island (SA-066, DIV-079 for the Venezuela Islands Award, WW Loc. FK40EW) during the last week of November. Activity will be on 160-6 meters, all modes. Operators mentioned are Alex/YV5SSB, Manuel/YY4MP, Rafael/YY4RN, Franco/YV1FM, Rainer/YV5EU, Olli/OH0XX, Jes?s/YV5MSG, Jos? M./YV5TX and Andreina/YY4AND. Suggested frequencies: CW - 1.830, 3.530, 7.025, 10.115, 14.040, 18.098, 21.040, 24.920, 28.040, 50.110 MHz; SSB - 1.845, 3.755/3.790, 7.055, 14.260/14.195, 18.128/18.145, 21.260/21.295, 24.950, 28.560/28.460/28.495, 50.110 MHz; RTTY - 7.040, 10.140, 14.090, 18.100, 21.080, 24.920, 28.090, 50.110 MHz. QSL via IT9DAA, direct or bureau. Further information and log search can be found at: yw1ti.4m5dx.info/ [IT9DAA]

25/11/2008: Bob, MD0CCE, will be active as 9M6/N2BB from Sabah (OC-088) from 25 November 26th to December 1st, including the CQWW DX CW Contest (November 29-30th). He will take a 160m antenna with him, and if local noise conditions allow, he will concentrate on the Top Band from November 25-28th. QSL via MD0CCE. [425 DX News]

25/11/2008: Operators Norbert/DJ7JC, Joe/DF1AL, Detlef/DK3QZ, Hans-Peter/DL1XW, Hein/DL2OBF, Kai/DL3HAH and Joerg/DL3QQ will be active from Santana, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053), as CS95A between November 25th and December 3rd, including a Multi-Multi entry in the CQWW DX CW Contest (November 29-30th) as CT9L. QSL CT9L via DJ6QT, direct or bureau. QSL CS95A via CT3EE. [NG3K]

25/11/2008: The SK6M Contest Team will operate the 2008 CQWW CW Contest (November 29-30th) from the contest station "Sapo Loco", located in Nobol, Guayas, Ecuador, as a Multi/Multi entry. Operators mentioned are Al/HC2SL, Fredy/SM6FKF, Bjorn/SM6LJU, Mats/SM7BUA and Jan/SM7NDX. The team will be QRV November 25-30th and will use HC2/homecall with focus on low band CW, WARC and RTTY before the contest. QSL via home calls. QSL HD2M via SM6FKF. Further info can be found at www.sk6m.com/hc.html [NG3K]

25/11/2008: Ulf, DL5AXX will be active from the island of Grenada (NA-024, also count for WLOTA LH-0718) as J3/homecall from November 25th to December 9th, including a Single-Op/All-Band entry in the CQWW DX CW Contest (November 29-30th). He also plans to enter the ARRL 160 Meter Contest. QSL via home call, direct or by the bureau. [NG3K]

25/11/2008: Scott, NE1RD will be on a 100 Pound DXpedition to Kauai, Hawaii, between November 25-30th, including a Sigle-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). There will also be pre-contest activation from both Oahu Island (OC-019, USi HI-008S, WLOTA LH-1227, Honolulu County) and Kauai Island (OC-019, USi HI-003S, WLOTA LH-1761, Kauai County) on both SSB and CW. QSL via home call. [NG3K]

25/11/2008: Seppo, OH1VR will be active as OH1VR/VP9 from the QTH of VP9GE on the island of Bermuda (NA-005, WLOTA LH-0201) between November 25th and December 2nd. He will also be QRV as VP9I in the CQWW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL OH1VR/VP9 direct to home call. QSL VP9I via N1HRA, direct or bureau. [NG3K]

25/11/2008: John, OH3SR will be active, holiday style, as OH3SR/VP9 from the QTH of Ed, VP9GE located in Hamilton Parish, Bermuda (NA-005, WLOTA LH-0201, WW Loc. FM72PI) between November 25th and December 2nd. John also plans a casual entry in CQWW DX CW Contest (November 29-30th). Look for him to be QRV on 160-2m, holiday style operation, using SSB,

CW and RTTY. QSL via home call. [NG3K]

25/11/2008: Look for Yuri, VE3DZ to be signing PZ5TT from Paramaribo, Suriname (WW Loc. GJ25KU), between November 25th and December 1st, including a Single-Op/All-Band/High-Power entry in the CQWW DX CW Contest (November 29-30th). Outside the contest Yuri will be active on all bands 160-6 meters. QSL via home call, direct or bureau. [VE3DZ]

25/11/2008: Alex/RW3RN, Aleksey/UA4HOX and Harry/RA3AUU will be active from Reunion Island (AF-016, also count for WLOTA LH-1812) as TO3R between November 25th and December 6th. Focus will be on the low bands, plus a Multi-Single entry in the CQWW DX CW Contest (November 29-30th). QSL via RW3RN, direct or by the bureau. [NG3K]

26/11/2008: Slavo, SP2JMB will be signing 8Q7SC from the Dhonveli Beach Resort, Chaaya Island Dhonveli, North Male Atoll [Kaafu Atoll], Maldive Islands (AS-013) from November 26th to December 10th. QRV 80-10 meter CW, including a Single-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). QSL via home call, direct or LoTW. [NG3K]

26/11/2008: George/SV1RP, Bill/SV1BJW, Giannis/SV2FPU, Franck/I0UZF, Andy/IK0EFR, Franck/I0UZF, Luigi/IK0YUT and Iari/IZ0FWD. will be active as J49I from the island of Crete (EU-015, MIA MGC-005, WLOTA LH-1400) between November 26th and December 1st. Look for activity before and during the CQ WW CW Contest (November 29-30th) on 160-10 meters, mainly CW. QSL via IK0EFR. [NG3K]

26/11/2008: Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao (SA-006, WLOTA LH-0942) as PJ2/homecall during the end of November. Operators mentioned are Geoff/W0CG, Jeff/K8ND, Jim/W0NB, Jim/W8WTS, John/N4QQ, Jim/K8MR and Mark/N5OT. Their main goal is the CQ World Wide DX CW Contest (November 29-30th), as a Multi-2 entry using the callsign PJ2T. QSL PJ2T via N9AG or LoTW. QSL all others via their home call signs. [OPDX Bulletin]

26/11/2008: John/K4BAI, Jeff/KU8E, Don/W4OC, and Kirk/K4RO will operate the CQ WW CW DX Contest (November 29-30th) in a multi-op category from PJ4A, on Bonaire (SA-006, WLOTA LH-1279), Netherlands Antilles from the K2NG/PJ4G rental QTH. Outside the contest, look for the ops to be QRV as PJ4/homecalls. QSL all five calls via K4BAI. E-mail requests for bureau cards will be accepted. All but PJ4/KU8E will be QRV November 26th to December 3rd. KU8E will QRT December 2nd to return home. [NG3K]

26/11/2008: Look for Bud, AA3B to be active as V26K from the island of Antigua (NA-100, WLOTA LH-1118) between November 26th and December 1st, including a Single-Op/All-Band/Low-Power entry in the CQWW DX CW Contest (November 29-30th). QSL via home call. [NG3K]

26/11/2008: Eric, K9GY will be active (tentatively) between November 26th through December 1st from El Salvador, signing YS/K9GY. His main focus is on the CQWW DX CW Contest (November 29-30th) as YS4RR, a Single-Op/All-Band/Low-Power entry. Outside the contest look for activity on all bands/modes. QSL via LoTW or direct to CBA. [NG3K]

27/11/2008: The VooDoo Contest Group will enter the CQ World-Wide CW contest on November 29-30th from the Hotel Camayenne, Conakry, Guinea, as 3X5A in the multi-multi category. This will be the group's 15th straight year in multi-multi from West Africa and our 20th straight year participating in CQWWCW. In the 2007 contest 3X5A won this category, first place world, our 6th outright win. This will be our second visit to 3X5A. We will have our usual 8-9 British and American operators, seven one-KW stations and a dozen antennas. We

will also be active as 3X5A (no personal call-signs) before the contest, including WARC bands and maybe some RTTY. QSL manager: G3SXW, direct (qrz.com) or e-mail to g3sxw at btinternet.com for a bureau reply, or paper QSL via bureau; also LoTW. No QSLing rules: just normal practice. More information at: voodoocontestgroup.com/ [K1XN]

27/11/2008: Operators Vlad/UN9LW, Willy/RN4WA and Igor/UA9CDC will be on a small scale DXpedition to Sun Island, North Male Atoll (count for WLOTA LH-3911), Maldive Islands (IOTA OC-013) from around November 27th to December 1st, using the call sign 8Q7DV. They will try to put up our 160/80m antenna but there is no guarantee. Their focus will be on the CQWW DX CW Contest (November 29-30th) as a Multi-? entry. With a bit of luck they should be on all bands in the contest. QSL via UA9CLB. [NG3K]

27/11/2008: Matthias, DK4YJ and Christoph, DK9TN will be active from Triesenberg, Liechtenstein, November 27-30th signing HB0/homecall. During the CQWW DX CW Contest Matthias, HB0/DK4YJ will be a Single-Op/Single-Band (40m) entry, while Christoph, HB0/DK9TN will a be Single-Op/Single-Band (80m) entry. QSL via home calls, direct or bureau. [NG3K]

==========

LOOKING AHEAD -

29/11/2008: Jack, RW3QC will be active from Cyprus (AS-004, MIA MCI-002, WLOTA LH-0051) as 5B4AII for the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. QSL via RW3RN. [NG3K]

29/11/2008: Tom, W2SC will be active from the Warleigh Plantation, St. Peter Parish, Barbados (NA-021, WLOTA LH-0999) contest station as 8P5A during the CQWW DX CW Contest (November 29-30th). He plans to enter in the Single-Op/All-Band/High-Power category. QSL via NN1N, direct or bureau. [NG3K]

27/11/2008: Operators Vlad/UN9LW, Willy/RN4WA and Igor/UA9CDC will be on a small scale DXpedition to Sun Island, North Male Atoll (count for WLOTA LH-3911), Maldive Islands (IOTA OC-013) from around November 27th to December 1st, using the call sign 8Q7DV. They will try to put up our 160/80m antenna but there is no guarantee. Their focus will be on the CQWW DX CW Contest (November 29-30th) as a Multi-? entry. With a bit of luck they should be on all bands in the contest. QSL via UA9CLB. [NG3K]

29/11/2008: Saty, JE1JKL will be active as 9M6NA from Labuan Island (OC-133), East Malaysia, for the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band entry. QSL via JE1JKL, direct or bureau. Visit his website for station information at: jsfc.org/je1jkl/9m6na.html [NG3K]

29/11/2008: Operators Aki/JI3ERV, Toshi/JR7OMD, Kazu/JK3GAD, Masaki/JO1DFG and Nozomu/JE8KKX will be active as AH2R from the Guam Contest Club, Tamuning, Guam Island (IOTA OC-026, USi GU-003S, WLOTA LH-0064) during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via JH7QXJ, direct or bureau. [NG3K]

29/11/2008: Members of the Coconut Wireless Contest Club, namely Tets/AH7C, Kan/JA1BK, John/K1ER, Les/W2LK, Dennis/K2SX and Rich/K2WR will be active as AH6XX from Aiea, island of Oahu (USi HI-008S, WLOTA LH-1227), Hawaii (OC-019) during the CQWW DX CW Contest (November 29-30th) as a Multi-Two entry. QSL via K2WR. [NG3K]

29/11/2008: Dale/BA4TB and Rene/DL2JRM will be active as B4TB, a Multi-Single entry from Wuxi, China, during the CQWW DX CW Contest (November 29-30th). QSL via BA4TB. [NG3K]

29/11/2008: Ivan/5B4AIA, Alex/5B8AD, Andy/RA9CKQ, Vlad/UA6LV and Oleg/UA9CDV will be active as C4N from the island of Cyprus (AS-004, MIA MCI-002, WLOTA LH-0051) for the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via W3HNK. Website at: www.c-4-n.com/ [NG3K]

29/11/2008: Look for Luis, CO6LP to be active from Santa Clara, Cuba (IOTA NA-015, WLOTA LH-0032) for the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via CO6LP, direct only. [NG3K]

29/11/2008: Dave, G3TBK will be active as J88DR from Kingstown, island of St. Vincent (IOTA NA-109, WLOTA LH-0492) during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via G3TBK. [NG3K]

29/11/2008: Operators Marcus/DL1EKC, Tom/DL1QW, Juergen/DL4SDW, Andy/YO3JR, Tibi/YO9GZU and Philippe/LX2A will be active from Eschdorf, Luxembourg, as LX7I for the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry. QSL via LX2A. Further information at www.lx2a.com/ [NG3K]

29/11/2008: Teljan Radioamatoorit ry Club (OH1F) will be active from Pori, Finland, as OG50F during the CQWW DX CW Contest (November 29-30th) as a Multi-2 entry. Operators mentioned are Pasi/OH1MM, Timo/OH1NOA, Jouko/OH1RX, Timo/OH1TM, Hannu/OH3WW and Ari/OH5DX. QSL via OH1NOA. [NG3K]

29/11/2008: Members of TRAC, namely Gosho/LZ1ZF, Ilian/LZ3GA, Nadir/TA3CN and Huseyin/TA3CE will be active as TA3KZ during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via TA3KZ (QRZ.com). [NG3K]

29/11/2008: Ken/ZL4NR, Mike/ZL4OL and Chris/ZL1CT will be active as ZM4A from Dunedin, New Zealand [South Island] (OC-134, WLOTA LH-0342) during the CQWW DX CW Contest (November 29-30th) as a Multi-Single entry. QSL via ZL4AA (QRZ.com). [NG3K]

05/12/2008: Curt, W3HQ will be active as KP4/W3HQ from Puerto Rico (NA-099, USi PR-006S, WLOTA LH-2802) for the ARRL 160 Meter Contest (December 5-7th) as a Single-Op/Low-Power entry. QSL via W3HQ, bureau preferred or via VK4AAR. [NG3K]

05/12/2008: Sara/VU3RSB, Frank/VU3FRK (DL4KQ), 2 more Indian Amateurs will activate a new Indian IOTA Group from December 5-7th, for 72 hours. This new IOTA will be the Andhra Pradesh South State Group (AS-199). They plan to have 2 stations (probably occasionally 3rd) operating CW and SSB on 80-10 meters. Unfortunately NO 30m operation possible (special permit needed) due to Indian Ham laws. Equipment will be Elecraft K2/100, Elecraft K3/100, ICOM IC7000 with Yagis, dipoles and verticals. This activation requires a long voyage through/to Indian boondocks - start/end of operation may slightly vary. QSL via W3HNK, direct or bureau, for North and South America. QSL via DL4KQ, direct or bureau, for rest of the world. [VU3FRK/DL4KQ]

13/12/2008: Look for Curt, W3HQ to be active as KP4/W3HQ from Puerto Rico (NA-099, USi PR-006S, WLOTA LH-2802) during the ARRL 10 Meter Contest (December 13-14th) as a Single-Op/Low-Power entry. QSL via W3HQ, bureau preferred or via VK4AAR. [NG3K]

18/12/2008: Adam K2ARB will be QRV as KC4/K2ARB - CE9/K2ARB - VP8DKF from the ALE (Antarctic Logistics & Expeditions) base camp at Patriot Hills (IOTA AN-016, WABA MN-01, WAP MNB-02) and surrounding areas from December 18, 2008 to January 30, 2009 on CW, SSB and PSK31 when workload permits. Read an article by Adam about his operation in his blog at www.k2arb.blogspot.com/ . QSL via home call, direct only. [I1HYW]

03/01/2009: Marty, W2CG will be active as P40CG from the Bucuti Beach Resort at Eagle Beach, island of Aruba (SA-036, WLOTA LH-0033) from January 3-17th, including an entry in the ARRL RTTY Roundup (January 3-4th). Operating time will be limited to early morning and late evenings, on 80-10 meter CW, SSB and Digital modes. QSL via home call, direct or bureau. Logs will be uploaded to LoTW. [K1XN]

23/01/2009: Look for Tom, KC0W/ZD7X to be active from Cambodia as XU7XXX during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/Low-Power entry. The 160m antenna will be a dipole/vertical placed on the beach 5 meters from salt water. QSL via KC0W, direct only. [NG3K]

21/02/2009: Tom, KC0W/ZD7X will be active from Cambodia as XU7XXX for the ARRL DX CW Contest (February 21-22nd) as a Single-Op/Low-Power entry. QSL via KC0W, direct only. [NG3K]

04/03/2009: Operators Orelvis/CO6LC, Joaquin/CM6RCR, Yordany/CM6YAC, Carlos/CO6CAC, Luis/CO6LP and posibility others will be active as T46G from Santa Clara, Cuba (IOTA NA-015, WLOTA LH-0032), for the ARRL SSB DX Contest (March 4-5th) as a Multi-Single entry. QSL via CO6LP, direct only. [NG3K]

==========

SPECIAL EVENTS -

23/11/2008: The Arecibo Observatory Amateur Radio Club station KP4AO will be celebrating the 45th anniversary of the Arecibo observatory on November 23rd. Expect acitity on all bands and modes. QSL via the information on QRZ.com. [KP4ARN]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

BITS & PIECES -

FROM THE OFFICES OF ARCALA EXTREMES

ARCALA EXTREMES LAUNCHING CQWW CW TEAM

Snow and ice are present in the Far North at the home of OH8X, and preparations are underway to boost the signals globally, largely depending on a regular friend - Aurora Borealis. Pasi, OH2IW will be at the controls and running OH8X single-operator, all-band. Keep an eye on this station and observe its Northern sound. For more, see www.radioarcala.com.

The sister station CU2X will again be operated by Toni, OH2UA, following his smashing of the European SSB record by a wide margin. He is now determined to do the same on CW. This is from the new QTH, and you can read more at www.cu2a.com.

The second sister station TC4X in Asian Turkey will be activated by Martti, OH2BH, Pertti, OH2PM and Tefvik, TA1HZ. They are there to take the first steps for setting up a permanent station with more firepower while bringing a breath of old times to the game.

Adding to the lineup its X-rated signals will be the team's associated Eastern Aland Island super station signing OH0X, again mono-band, with Pekka, OH2TA at the helm.

Radio Arcala's propagation department, Ilkka, OH1WZ of Palos Verdes Sundancers fame will be in charge of the OH2BH station, mono-band, with his deep-space telescope to see whether the particles streaming down with the solar wind will pass Radio Arcala or hit it straight on the face.

And finally, representing the Arcala senior citizens department, Ville, OH2MM will be operating mono-band as CN2M as the guest of Jim, CN2R. This will be from Casablanca, Morocco.

Their ultimate categories are subject to a final decision when looking at the world on the starting grid minutes before the start of the race.

2008 LOW-BAND SUCCESS STORY FROM MARKET REEF

OJ0B & OJ0J 2005-2008 LOG SEARCH ONLINE

In case of any uncertainties about your low-band QSOs, here you have a much anticipated log search machine and a short recap.

http://df3cb.com/logsearch/oj0/

QSLing for the 2008 operation is happening as we speak. Additionally, all 2005 QSLs were sent to the bureau network some six months ago. All logs are open for QSLing.

We like to thank Bernd, DF3CB for setting up this log search for us. Our QSLing is done using his QSL management software.

http://www.df3cb.com/index.html

Just download it and enjoy whether printing on labels or directly onto QSL cards!

Martti, OH2BH
OJ0B QSL-manager

FOR IMMEDIATE RELEASE TODAY, NOVEMBER,19, 2008, 10.00UTC

NEW DX SUMMIT TOOK OVER THE MOTHER OF ALL DX SUMMITS TODAY!

The Group at OH8X is honored to continue the services initiated by members of the OH2AQ Radio Club more than ten years ago. The original OH2AQ DX Summit was closed today at noon local time.

http://www.dxsummit.fi/

In the words of Wayne, N7NG, the President of Yasme Foundation, we capture the essence of this original innovation;

Yasme Foundation and the whole world of Amateur Radio congratulate Jukka Salomaa, OH2BUA and Antti Kantola, OH5TB for conceiving, operating and maintaining the DX Summit, the first widely-used Web-based spotting network portal. They created a tool that fundamentally changed the nature of HF operating, a true advancement of the radio art.

The New DX Summit is operated by Radio Arcala, OH8X, located in the Far North at the Arctic Circle, within the Aurora Belt, with a mission to encourage today's youth to make possible the impossible in the course of their own innovations through radio communication experience and related exciting theories.

Arcala Extremes is headquartered in Finland while operating in a European context. The message is global, and the experience is for us to share. Read about the Arcala mission and let your imagination fly to do your share among the young people and secure the continuation of this great passion that has enriched our lives and made the communication among people more effective and enjoyable. The New DX Summit and its future applications are targeted to be part of this vision.

Running the New DX Summit is supported by Yasme Foundation Inc.

www.radioarcala.com and www.yasme.org [OH2BH]

VP8/A - ANTARCTICA, AN-016
The summer season 2008/2009 has begun in Antarctica in November. Torsten, DL1TOG and Felix, DL5XL are working on the German scientific base "Neumayer II" (IOTA AN-016, WAP DEU-02) and will be QRV as DP0GVN sporadically during their spare time. QSL via DL5EBE, direct or bureau.
The new base "Neumayer III" (IOTA AN-016, WAP New - reference for Neumayer III, will be issued as soon as an operation from the new location will take place) is still being constructed and shall replace the old station "Neumayer II" in February 2009. Felix, DL5XL will be a member of the first overwintering team on the new base. If his work permits Felix will show up using his old call sign DP1POL (QSL DL1ZBO, direct or bureau) in CW, SSB and digital modes on HF and maybe also on 23cm EME (JT65) until early 2010. More information about the new scientific base in the Antarctic can be found online at: tinyurl.com/69m5sd
[DX Newsletter]

ADELIE land Antarctica
Nicolas F4EGX/FT5YI has sent a short message from Adelie Land
"I?ll be active on November 22nd from 15 to 1700 utc."
The frequency is not indicated but it seems it will be the same as it was during the last week end.
He was on 14.267 +/- QRM

Some pictures from the ice have been posted on the Les Nouvelles DX web page at: http://www.lesnouvellesdx.fr/photos.php.

Jeff, F6AOJ, a former operator in FT5Y, has put a special page on his blog with the propagation forecast at:
http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_163.html
(sorry the most part in French language but look at the pictures). [F5NQL]

New HA-IPARC-Award (International Police Association).
Only need 3 different QSO. Info: www.ha3jb.com/award.html
and new onlinelog: www.ha3jb.com/onlinelog

CN2IPA QSL will be soon. Who sent me QSL, please write your e-mail address. I answer all e-mail when QSL arrives. [Gab, HA3JB]

EI - IRELAND
Irish Castles and Stately Homes on the Air.
Steve, EI5DD, has become coordinator for Irish Castles and Stately Homes on the Air.
Basically this is an award scheme for working or activating Irish Castles and Stately Homes.
The award scheme will be launched on the 1st of January 2009.
A web site has been set up to show a log of activated Castles and Stately Homes.
This scheme should be of great interest to individuals or clubs who enjoy taking gear out on portable expeditions.
We look forward to plenty of activity in the new year.
It is important to note that to be valid, intended activations should be registered with CASHOTA-Ireland a minimum of 10 days prior to the activation.
Full details are on the website http://cashota-ireland.org/ [F5NQ]

Hi John,

I have DX Telnet version 5.2 which is registered. Your web site has the demo version (V5.5)? Is there a reduced fee or something for the new version, which I would gladly pay and download and register the latest version.

Hi Skip,
??? I think the version you have is the 16 bit version.
This new version is the second of the 32 bit releases and
is the platform that Fab will be upgrading from now on.
??? Use can upgrade from the 16 bit to 32 bit version for
the reduced price of $25.00 instead of the full price of $50.00.
It can be ordered from my web site and Fab would then send
you a new registration code when I send him a copy of the
paid invoice.
??? Hope this helps Skip

7825. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-20 23:11:53 UTC
From: K1XN
Topic: 5889 Message: 7825

The NOVEMBER 2008 Issue #811-C files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

From: K1XN
Topic: 7828 Message: 7828

Desecheo Island KP5 Press Release # 2

23 November 2008

The U.S. Fish & Wildlife Service has notified the team that February 12-26, 2009, will be the dates allocated for the radio operation.? These dates are coordinated with other USFWS research activities scheduled on other parts of Desecheo Island as well as scheduling USFWS security personnel for the camp.

Fifteen operators will be allowed on the island at any given time.?? A total of 6-8 stations will be operational, including 160-6 meters.

A reconnaissance trip to Desecheo is scheduled for Friday, December 19.?? Three team members, USFWS personnel and an UXO (unexploded ordnance) expert will sweep and clear the assigned area of UXO and other hazards.? There will be no radio operations.

The 15-man team will assemble in Puerto Rico on February 8, 2009, for mandatory UXO training.??? The next three days will include team operations training, and last minute preparation and staging of the several tons of equipment for transport. On February 12th, landing will commence and two stations will be immediately activated.?? Likewise, stations will continue to operate until the final moments before departure on February 26th.

Halfway through the operation, on February 19th, approximately half of the operating team will be replaced with fresh operators for the final week.

The team has been diligently planning antennas and propagation paths to take advantage of every possible band opening to Asia, where Desecheo is #2 on the Most Wanted List and to Europe, where it is #3 on the Most Wanted List.

Contributions are being solicited. To assist us and for the latest news, please go to the team’s website: http://www.kp5.us

?

73,
Glenn Johnson, W?GJ
Bob Allphin, K4UEE
Desecheo 2009 co-leaders

PS: Nothing official yet, but there's talk among team members that the gear will be stored at KP4 after the DXpedition for a possible DXpedition to KP1 later in 2009.

VK9DWX :News #14 - 23.11.2008

QSLing
We already received over 1800 direct QSLs and over 3500 online requests through the OQRS. The design for our QSL card is in progress. We expect to get the QSL cards from the printer before X-mas. The first direct cards should be sent at the turn of the year.

We again want to encourage you to use our Online QSL Request System if you have not already done it. It's a lot less work for us and you will get your QSL card much faster. If you have already donated but not entered your data in the online form you may do it now to get your QSL directly to your

address.

LOTW
As soon as we get the certificate to upload QSO data to the LOTW database we will do the first upload for our sponsors. If you need your DXCC credit for Willis Island before December 31st, 2008 we encourage you to support VK9DWX and make a little donation which we should receive before December 30th to do the upload in time. We will upload all the remaining QSO data to LOTW in spring 2009.

Donations Update
We want to say a big thank you to all sponsors so far! You really made it happen! If you still do not find your donation on our website don't hesitate to contact us.

Tks Bernie W3UR and Daily DX for forwarding

Desecheo Island KP5 Press Release # 2
23 November 2008

The U.S. Fish & Wildlife Service has notified the team that February 12-26, 2009, will be the dates allocated for the radio operation. These dates are coordinated with other USFWS research activities scheduled on other parts of Desecheo Island as well as scheduling USFWS security personnel for the camp.

Fifteen operators will be allowed on the island at any given time. A total of 6-8 stations will be operational, including 160-6 meters.

A reconnaissance trip to Desecheo is scheduled for Friday, December 19. Three team members, USFWS personnel and an UXO (unexploded ordnance) expert will sweep and clear the assigned area of UXO and other hazards. There will be no radio operations.

The 15-man team will assemble in Puerto Rico on February 8, 2009, for mandatory UXO training. The next three days will include team operations training, and last minute preparation and staging of the several tons of equipment for transport. On February 12th, landing will commence and two stations will be immediately activated. Likewise, stations will continue to operate until the final moments before departure on February 26th.

Halfway through the operation, on February 19th, approximately half of the operating team will be replaced with fresh operators for the final week.

The team has been diligently planning antennas and propagation paths to take advantage of every possible band opening to Asia, where Desecheo is #2 on the Most Wanted List and to Europe, where it is #3 on the Most Wanted List.

Contributions are being solicited. To assist us and for the latest news, please go to the team’s website: http://www.kp5.us

BCC MS Contest :
F/LA0BY/p activity in BCC MS Contest 2008 from JN33LN (13./14.12.2008)
Weather permitting I hope to participate one or two days in the BCC
MS Contest from a location near Cannes, probably in JN33LN. I may not
be on all weekend, but at least Saturday evening and perhaps Sunday
morning until noon. I will try to find a spot with reasonably good
take-off from North to South-East. Operation will be in random WSJT
only. My equipment will be a single 9-ele-F9FT yagi and maximum 150W
RF power into the antenna. From the site I will not have access to
the Internet or DX-Clusters, but these shall not be used in that
contest anyway. SOURCE: Stefan at _www.mydarc.de/la0by/dxped.htm_

CO2WF QRV soon on 6 meters
I received word from Winty that he will soon be QRV on 6 meters
digital modes. He has built an interface and is currently working on
an antenna. His locator is EL83we in Boca Ciega just east of Havana
City. His plans are to listen and send CQ's on 50.260MHz, and he is
planning to be active during the upcoming Geminids. Internet access
is very limited there, so he will not be on PJC, but I am sure he
would appreciate anyone hearing him to make his presence known there.
I am his QSL manager. Phil - N1KI

Tks MMM VHF and Guy, DL8EBW

African ITALY
Hello Everybody,

CQWW Contest on CW is approaching, less than 9 days, this message to infom you IK1QBT Tony and Emilio IZ1GAR (both Ex Operators GENOVA RADIO - ICB) will be active from Lampedusa Island with the following special callsigns:

IG9X op.Tony IK1QBT 80mt - African Italy
IG9W op. Emilio IZ1GAR 40mt - African Italy

Tony and Emilio will leave Genova toward Palermo on Saturday 22nd and they will arrive in Lampedusa IG9 on Monday morning 24th November.
They are well fitted with two complete HF setup plus an emergency one.
Tony and Emilio will be very happy to do QSO with you passing the Multiplier from African Italy
Good luck and Enjoy the radio we will be QRV on 40 and 80 meters.
73 de Maurizio IZ1GJK/HB9EKS (SRT)

Tks Maurizio and Strange radio Team
PIRAT Activity :
More than 20 times was spotted during the last week end Bernard , as TU8/F5LPY.
Know that Bernard came back to France in late 2004. He was at the time in missions for the French Army. Since 2004, Bernard left the Army and he is now retired. He has no project to return in Ivory Coast even for holidays.
We know also that from time to time , some one jokes, spotting his preview callsign (yet 3 or 4 times)
So if you had a contact with this callsign in Nov 19, 20 or 21st 2008, avoid your QSL cards , money and IRC .
Sorry but you had a contact with a pirat.
Know we are very sad of this situations but what can we do ?
Tks also to Willy, F0ESV, who was the first to discover that new piracy. .

VK9DWX :Bulletin #14 - 23.11.2008

QSL:
Nous avons déjà reçu 1800 cartes en direct et 3500 demandes par Internet.
La conception de la carte est en cours .
Nous espérons recevoir les cartes de l’imprimeur avant Noël.*
Le premier lot devrait être posté vers le début de l’année.
Nous encourageons le maximum d’entre vous à utiliser le Online QSL Request
System, si vous ne l’avez pas déjà fait. C’est moins de travail pour nous et
vous recevrez votre carte plus vite, si demandée ainsi.
Si vous avez déjà fait un don à l’expédition, mais pas envoyé vos
coordonnées sur le formulaire, vous pouvez le faire maintenant, pour recevoir
directement la carte à votre adresse .
LOTW, Log of the World.
Nous ferons le premier chargement pour nos sponsors, dès que nous aurons

obtenu le certificat permettant de charger le cahier de trafic dans la base LOTW.
Si vous avez besoin de la carte Willis , avant le 31 décembre 2008, nous vous encourageons à nous aider et à nous faire un don avant le 30 décembre. Nous chargerons alors vos QSO dans le LOTW. La fin du chargement dans la base LOTW est prévue pour le printemps 2009.
Dons et subventions, mise à jour:
Nous voulons remercier très chaleureusement, chacun d'entre vous, nos parrains ! Sans vous rien ne se serait passé à Willis. Si vous ne trouvez pas trace de votre aide donnée sur notre page web, surtout n'hésitez pas à prendre contact avec nous.
Merci Bernie W3UR et Daily DX, pour avoir fait suivre.

Desecheo KP5
Communiqué de presse numéro 2:
23 Novembre 2008

Les services de l'U.S. Fish & Wildlifepont indiqué que les dates possibles pour la prochaine expédition à Desecheo seraient du 12 au 26 fébrier 2009. Ces dates ont été choisies en accord avec les autres activités des autres services de recherche de l'USFWS , prévues sur une autre partie de l'île Desecheo, avec la présence du personnel de sécurité.
15 opérateurs ont reçu l'autorisation de débarquer sumultanément.
Un total de 6 à 8 stations sera opérationnel, de 160 à 6 mètres.
Un premier voyage de reconnaissance est prévu le vendredi 19 décembre. Trois membres de l'équipe, du personnel de l' USFWS et un expert en déminage iront nettoyer et dépolluer la zone assignée, de oute munition non explosée et autres « joyeusetés » . Il n'y aura pas d'opérateur radio cette fois là.
L'équipe de quinze opérateurs se rassemblera à Porto Rico le 8 février, pour un entrainement obligatoie au déminage. Le trois jours suivants , comprendront un entraînement des quinze opérateurs, la préparation pour le transport de plusieurs tonnes de matériel Le 12 février est la date ^révue pour le débarquement . Ils commenceront tout de suite avec deux stations.
Les tations opèreront jusqu'à la dernioère minute, avant le départ le 26 février.
A mi opération, le 19 février, la moitié des opérateurs sera remplacée par des opérateurs reposés qui s'activeront la dernière semaine.

L'équipe a pris ses dispositions pour tourner les antennes vers l'Asie, pour laquelle Desecheo est la contrée n° 2 et l'Europe, n° 3 des les plus demandées.

Vos aides sont les bienvenues . Si vous souhaitez nous aider, prendre connaissance des informations sur le site de l'expédition à : http://www.kp5.us

PIRATERIE
Une fois de plus le week end dernier un pirate a encore la joyeuse idée de mettre le bazar sur les bandes en utilisant l'indicatif de notre ami Bernard, TU8/F5LPY, indicatif qu'il utilisa en 2004.
Depuis 2004, Bernard est rentré en France et n'a plus jamais utilisé cet indicatif, bien sur.
Si vous avez contacté TU8/F5LPY ce week end, sachez que c'est un pirate.
Economisez vos enveloppes, cartes QSL, timbres dollars et autres IRC.
Merci aussi à Willy F0ESV.

Hi friends

A5100A the end;

Paro, Monday Nov, 24th .

It's t 21h30 , Buthanese time (1600 utc) and A5100A operation has just shut down, with a last 40m CW QSO.
5805 QSO are logged.
it'sa little more than in 2004 with worse propagation conditions and only one station.

We will leave Paro to morrow at 6h30 to the airport. We will leave Buhtan to thaïland Bangkok airport at 0900.
We will be in Paris on Wednesday early in the morning.

It's the end of a marvellous adventure .
We will thank a lot all of you for your calls and all of your kind messages wrote on our guestbook.
A lot of apologies for all of you who called us and whom we didn't hear the signals.
Thank a lot to our pilots, Laurent, F8BBL and Jean-Michel F6AJO who forwarded all of our messages on Internet.

A a lot of thaks to all of you, Associations, Rdio Clubs and individuals who helped uus and made this project A5100A possible.

Amitiés de toute l'équipe

Paro, Lundi 24 nov

Il est 21h30 locale ce lundi 24 novembre et A5100A vient de se terminer, sur 40M CW, avec 5805 QSO dans le log. C'est un peu plus qu'en 2004, dans des conditions de propagation nettement moins bonnes et avec une seule station.

Nous partons demain matin à 6h30 pour l'aéroport de Paro, d'où nous décollerons pour Bangkok vers 9h. Retour sur paris mercredi en tout début de matinée.

C'est une belle aventure qui se termine, merci à tous pour vos appels, pour vos messages de soutien et toutes nos excuses pour ceux que nous n'avons pas entendu. Merci à nos pilotes F8BBL et F6AJA pour avoir relayé nos messages internet. Un grand merci également à tout ceux, clubs, associations, individuels qui nous ont aidé à concrétiser ce projet.

Amitiés de toute l'équipe

RTTY Operators

Moshen EP3SMH has been operating on 20 Meter RTTY around 1400UTC. He has been calling for North America on a regualar basis.

US OPS have been the worst I have seen in awhile. My first QSO was broken with QRM and my second interrupted with constant calling over top of Moshen. US5IQ did it when he was calling me and NA and then N6AR QRM'd his response by doing the same thing and then complained when someone did it to him.

Moshen appears to like to operate simplex. Until he uses split PLEASE LISTEN!!!!!

Here is his note to me:

Pirates
Salut à tous,
Plusieurs sources rapportent que C31FF serait un Pirate.
Donc économisez cartes, monnaie ; n’envoyez rien pour cette station.
Merci Pete’s DX desk

Hi folks,
??? I received an email this morning informing me
the my RAC order was placed with an air freight
shipping service this morning.? I expect delivery
in 7 to 10 working days if all goes well.
??? Will let you know when they arrive and when
the orders are in the mail to you.

Happy Thankgiving to all.

7840. A5100A not scheduled

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-26 18:04:40 UTC
From: F5nql@aol.com
Topic: 7840 Message: 7840

Hi friends

A last message from the A5100A team which was unfortunately scheduled.

Bangkok was very chaotic yesterday evening.
The airport was completly surrounded by a lot of manifestants. The
authorities have closed the airport whilst we were in the departure lounge.The plane
to Paris could take off, but it seems it was the last which could do.
Vincent , G0LMX, who was in the loung to take the following plane to London
is always at the time in Bangkok, and we have no more information . All the
planes from Bangkok are now cancelled , fot the airport and the control tower
are occupied .

We are all hoping for Vincent, G0LMX, a quick departure from ThaÏland and a
safe coming back home.

Amitiés de toute l'équipe

Tks Jean-Michel, F6AJA and Les Nouvelles DX

If you forward these information by any way, please don't remove the
indicated sources.

Apologize for possible double sending.

If this kind of message could be useful to your friends please spread it and
ask
them to include their address on the mailing list at : _f5nql@..._
(mailto:f5nql@...) .

If you don't want to receive these message anymore, please ask to be removed
of the mailing list, same way.

Don't forget to inform us about any change in your e-mail address.

Bonjour à tous,

Un dernier message de A5100A qui malheureusement n'était pas prévu.

Bangkok était chaotique hier au soir. L'aéroport encerclé par les
manifestants a été fermé pendant que nous étions dans la zone d'embarquement. Le vol
pour Paris a pu décoller, c'est à priori le dernier avion a avoir pu quitter
Bangkok, mais Vincent , G0LMX, qui devait partir pour Londres une demi-heure

après nous, est resté coincé à Bangkok, tous les vols ayant été suspendus, l'aéroport et la tour de contrôle étant occupés.

En espérant que Vincent puisse très bientôt rentrer chez lui.

Amitiés de toute l'équipe

Merci Jean-Michel, F6AJA et Les Nouvelles DX

From: "IZ8CCW"

thanks to a big effort by the LZ crew and some help from the little blue spider ;) YM3A will be active in CQWW CW as follows:

YM3A - Asian Turkey, Zone 20
category: M/2
Operators: TA2TX, LZ1NK, OZ1AA, LZ1UK, LZ1CNN, LZ1WX, LZ2UW, DF4SA.

We will operate 3 Stations using fullsize Spiderbeam Yagis on each of the 40m, 20m, 15m, 10m bands, and fiberglass verticals on the 80m and 160m bands. Check out our signals & we hope to work you on all bands. QSL is via LZ1NK. GL in the contest to everybody!

73, Con DF4SA

From: Dave, VA3RJ
Topic: 7843 Message: 7843

I.C.P.O. Bulletin (November 27 - December 05, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

27/11/2008: The VooDoo Contest Group will enter the CQ World-Wide CW contest on November 29-30th from the Hotel Camayenne, Conakry, Guinea, as 3X5A in the multi-multi category. This will be the group's 15th straight year in multi-multi from West Africa and our 20th straight year participating in CQWWCW. In the 2007 contest 3X5A won this category, first place world, our 6th outright win. This will be our second visit to 3X5A. We will have our usual 8-9 British and American operators, seven one-KW stations and a dozen antennas. We will also be active as 3X5A (no personal call-signs) before the contest, including WARC bands and maybe some RTTY. QSL manager: G3SXW, direct (qrz.com) or e-mail to g3sxw at btinternet.com for a bureau reply, or paper QSL via bureau; also LoTW. No QSLing rules: just normal practice. More information at: voodoocontestgroup.com/ [K1XN]

27/11/2008: Operators Vlad/UN9LW, Willy/RN4WA and Igor/UA9CDC will be on a small scale DXpedition to Sun Island, North Male Atoll (count for WLOTA LH-3911), Maldive Islands (IOTA OC-013) from around November 27th to December 1st, using the call sign 8Q7DV. They will try to put up our 160/80m antenna but there is no guarantee. Their focus will be on the CQWW DX CW Contest (November 29-30th) as a Multi-? entry. With a bit of luck they should be on all bands in the contest. QSL via UA9CLB. [NG3K]

27/11/2008: Matthias, DK4YJ and Christoph, DK9TN will be active from Chalet Wanni, Masescha (1350 masl, WW Loc. JN47SD), Liechtenstein, November 27-30th signing HB0/homecall. During the CQWW DX CW Contest Matthias, HB0/DK4YJ will be a Single-Op/Single-Band (40m) entry, while Christoph, HB0/DK9TN will a be Single-Op/Single-Band (80m) entry. QSL via home calls, direct or bureau. [NG3K]

27/11/2008: Look for JS6RRR, JI3DST/JS6 and/or JI3DST/6 to be QRV from the Miyako Islands (AS-079) between November 27th and December 2nd, CQ WW DX CW Contest included. QSL via bureau. [425 DX News]

28/11/2008: Vic, LY1A will be active vacation style from Chaaya Reef Ellaidhoo (WW Loc. MJ64LA), North Ari Atoll (WLOTA LH-0317), Maldive Islands (AS-013), from November 28th to December 4th. Focus will be on the low bands and also the CQWW DX CW Contest. QSL via his home call. [NG3K]

28/11/2008: Toshi, JA8BMK plans to be active from Kanton Island, Central Kiribati (OC-043) from November 28th for about one week. QRV all bands using CW, SSB, RTTY, BPSK31 and SSTV. Equipment: FT-897D and HL-1.2Kfx. Antenna/Vert, yagi and Inv V. QSL via home call, direct only. [NG3K]

30/11/2008: Andy/UN8GU and Mike/UN8GC will be active as 8Q7GU and 8Q7GC from South Ari Atoll (WLOTA LH-0317), Maldive Islands (AS-013) between November 30th and December 7th. They plan to operate CW, SSB and digital modes on 80-10 meters. More information will be available at www.8q7gc.com/ and www.8q7gu.com/ after 29 November. [425 DX News]

30/11/2008: Herbert, DE1ZHB/7Z1HB, will be active as Z21LS from Harare, Zimbabwe, between November 30th and December 9th. Herbert reports that he prefers 20 meters SSB, but basically he will be all bands. He also mentioned that if he a can fix his computer there will be PSK and RTTY. There is another issue Herbert mentioned which is his antenna. Right now it is only a windom all bands antenna, but at the Riyadh Airport there is a StepperIR antenna waiting for clearance. If it can make clearance in time, he will install it permanently in Zimbabwe (However, he states time is runnig out). QSL via DE1ZHB by the bureau, or direct to 7Z1HB: Herbert Baurmann, Jadawel International, P.O. Box 61539, Riyadh 11575, Villa 408, Kingdom of Saudi Arabia (SAE plus 2 green stamps). [OPDX Bulletin]

02/12/2008: Look for 5K0T and HK0/HK3JJH to be active from Bajo Nuevo (NA-132) between December 2-6th. The four person DXpedition will focus on low band operation, especially 160 meters, and will be operated by George/AA7JV, Tomi/HA7RY, Pedro/HK3JJH and Fero/HA8MT. The group will operate two stations from 160 to 6m. Electric power will be supplied by two generators. One will supply 120V and the other 230V for the amplifiers. 2 battery chargers and 4 batteries serve as backup. The radios will be a Elecraft K3, an Icom IC-746PRO and a IC-706. They will have a Tokyo H.power amplifier with a homemede 2kW auto tuner and a SGC 500W amplifier with a matching auto tuner. Antennas will be solely verticals mounted over salt water. We will bring two 18m and two 12m Spiderpoles. Six meter antenna will be DuneStar Rover 6 Quad. QSL 5K0T via HA7RY either direct or via bureau. QSL HK0/HK3JJH via home call, direct or bureau. Further information and log search at www.5k0t.com/ [K1XN]

03/12/2008: Jerry, WA2TII will be QRV as KP2/WA2TII from the KP2M Radio Reef QTH on St. Croix Island (USi VI-002S, WLOTA LH-2477, WW Loc. FK77PR), US Virgin Islands (NA-106), from December 3-9th. There is a strong possibility that he will enter the ARRL 160-Meter Contest (December 5-7th). QSL via home call. [Radio Reef Web]

04/12/2008: Sara/VU3RSB, Frank/VU3FRK (DL4KQ), Kumar/VU2BGS and Bapuji/VU3KET will be active as AT2RS from Nachugunta Island, Krishna District, in the Andhra Pradesh South State Group (AS-199, new one) December 4th and 7th. They plan to operate CW and SSB on 80-10 meters (30m excluded) with 2-3 stations, with yagis, dipoles and verticals. QSL via W3HNK (North and South America) and DL4KQ (rest of the world), direct or bureau. [425 DX News]

04/12/2008: Adhi, YB3MM will be QRV as YB3MM/9 from the radio station of Ferdy (YC9MKF) Kupang city, Timor Island (OC-148, WLOTA LH-1808) from December 4-7th. Holiday style operation, mostly on the 20 meter band. If conditions are ok, Adhi will try to QRV from Semau Island (OC-241, LH-2891). QSL via IZ8CCW, direct or bureau. [K1XN]

05/12/2008: Dr. Helmuth Spieler W6KDX will be returning to work on the South Pole Telescope at the US Amundsen-Scott South Pole Station (IOTA AN-016, AA K-08, WAP USA-21) from December 5th to January 5th. He hopes to re-activate KC4AAA in his spare time on SSB in the vicinity of 14.243 MHz. Please direct any inquries to KC4AAA2008 -at- gmail.com . QSL via K1IED. To learn about the exciting South Pole Telescope project, visit pole.uchicago.edu/ [K2ARB]

05/12/2008: Paul, A35RK reports that he will be active as KH8/KK6H, from Larry's (AH8LG) QTH on Tutuila Island (OC-045, USi AS-007S), December 5-9th. Activity will be CW and SSB. This will be a 'casual' operation, but he will listen for Europe at local sunset (UTC+12), on 20m....that should be about 0600-0700Z, and should be a pretty good grayline path. The Americas should be easy just about anytime during local daylight hours, on 20 or 17m. QSL via W7TSQ or LoTW. [OPDX Bulletin]

05/12/2008: Curt, W3HQ will be active as KP4/W3HQ from Puerto Rico (NA-099, USi PR-006S, WLOTA LH-2802) for the ARRL 160 Meter Contest (December 5-7th) as a Single-Op/Low-Power entry. QSL via W3HQ, bureau preferred or via VK4AAR. [NG3K]

05/12/2008: Ken, K6TA, will be active from the island of Aruba (SA-036, WLOTA LH-0033, WW Loc. FK52AM) as P40TA during the ARRL 160 Meter Contest (December 5-7th) as a Single-Op/High-Power entry. QSL via LoTW, or to WM6A, bureau preferred. [OPDX Bulletin]

05/12/2008: Sara/VU3RSB, Frank/VU3FRK (DL4KQ), 2 more Indian Amateurs will activate a new Indian IOTA Group from December 5-7th, for 72 hours. This new IOTA will be the Andhra Pradesh South State Group (AS-199). They plan to have 2 stations (probably occasionally 3rd) operating CW and SSB on 80-10 meters. Unfortunately NO 30m operation possible (special permit needed) due to Indian Ham laws. Equipment will be Elecraft K2/100, Elecraft K3/100, ICOM IC7000 with Yagis, dipoles and verticals. This activation requires a long voyage through/to Indian boondocks - start/end of operation may slightly vary. QSL via W3HNK, direct or bureau, for North and South America. QSL via DL4KQ, direct or bureau, for rest of the world. [VU3FRK/DL4KQ]

05/12/2008: Art, N3DXX reports that he will be active from Prince Edward Island (NA-029, CIsA PE-00) for the ARRL 160-Meter Contest (December 5-7th) using the call sign VY2/N3DXX as a Single-Op entry. QSL via home call. [NG3K]

05/12/2008: Tom, KC0W/ZD7X will be active from Cambodia as XU7XXX during the ARRL 160-Meter Contest (December 5-7th) as a Single-Op/Low-Power entry. QSL via KC0W, direct only. Tom reports that after his stay in Cambodia he plans on activating Laos and Viet Nam for an extended DXpedition of up to 3 months in each country.[NG3K]

05/12/2008: Bruce, XW1B will be QRV from "The Farm" 38km N. of Vientiane, Laos, during the ARRL 160-Meter Contest (December 5-7th). No entry class was given. QSL via E21EIC, direct or by the bureau. [NG3K]

05/12/2008: Alex, YV5SSB will be active from Caracas, Venezuela, as YW5CQ during the ARRL 160-Meter Contest (December 5-7th) as a High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

==========
LOOKING AHEAD -

03/12/2008: Jerry, WA2TII will be QRV as KP2/WA2TII from the KP2M Radio Reef QTH on St. Croix Island (USi VI-002S, LH-2477, WW Loc. FK77PR), US Virgin Islands (NA-106), from December 3-9th. There is a strong possibility that he will enter the ARRL 160-Meter Contest (December 5-7th). QSL via home call. [Radio Reef Web]

24/12/2008: Nao, NY6X plans to be active as KP2/NY6X from the KP2M Radio Reef QTH on St. Croix Island (USi VI-002S, WLOTA LH-2477, WW Loc. FK77PR), US Virgin Islands (NA-106), from December 3-9th. There is a strong possibility that he will enter the Stew Perry Topband Challenge (December 27-28th). QSL via home call. [Radio Reef Web]

01/01/2009: Special event station DR09ANT (WAP-156) with 'DOK IPY' will be aired from January 1st to December 31st, from various stations located in Oberbayern (Upper Bavaria), Germany, to celebrate International Polar Year. DR09ANT (WAP-156) will also be QRV for the 6th Antarctic Activity Week (AAW) February 16-22nd. QSL via DL5MHQ, direct or by the DARC Bureau. [DL8FA]

05/01/2009: Neil, WD8CRT will be active again as V73NS from the island of Roi-Namur (Grid RJ39), Kwajalein Atoll (OC-028), Marshall Islands. He should start around January 5th and remain there for at least two years. Expect him to operate mostly CW on 160-6 meters. QSL via bureau or direct to Neil Schwanitz, Box 8341, APO, AP 96557, USA. His web site can be found at www.qsl.net/v73ns/ [MMMonVHF]

23/01/2009: Look for Bruce, XW1B to be active from Vientiane, Laos during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op entry. QSL via E21EIC, direct or bureau. [NG3K]

12/02/2009: John/KX7YT and Rob/N1KEZ will be active from VP5JM's Hamlet on Providenciales Island (NA-002) as VP5/homecall from February 12-15th, including an entry in the CQWW RTTY Contest (February 14-15th). QSL via home calls.

21/02/2009: Dave, WJ2O will be active from Providenciales Island (NA-002) as VP5/WJ2O from February 18-25th, including a Single-Op/All-Band/High-Power entry in the ARRL DX CW Contest (February 21-22nd) using the call sign VP5DF. QSL via WJ2O. [NG3K]

21/02/2009: Bruce, XW1B will be active from Vientiane, Laos during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/Single-Band (?) entry. QSL via E21EIC, direct or bureau. [NG3K]

03/03/2009: John, W5JON, will be active as J6/W5JON from Marigot Bay (WW Loc. FK93LX), island of St. Lucia (NA-108, WLOTA LH-1336) between March 3-11th. Activity will be on 160-6 meters SSB using dipoles and 6m yagi. Also, look for activity in the ARRL DX SSB Contest (March 7-8th). QSL via home call. [rsgbiota.org]

25/03/2009: John, W5JON, will be active as J6/W5JON from Marigot Bay (WW Loc. FK93LX), island of St. Lucia (NA-108, WLOTA LH-1336), between March 25th to April 2nd. Activity will be on 160-6 meters SSB using dipoles and 6m yagi. Also, look for activity in the CQ WPX SSB Contest (March 28-29th). QSL via W5JON. [rsgbiota.org]
==========
SPECIAL EVENTS -

27/11/2008: Operators Peter/PA8A, Fred/PA8F and Rob/PA3GVI will once again activate the big array, formerly used to broadcast "Radio Netherlands", with the special call sign PG6G between 1200z, November 27th and 1200z, November 28th. The array antenna is a curtain antenna with 8 stacked dipoles between two 400 feet towers. Radiation angle is about 7 degrees and a gain of approximate 22 dB!! Their activity will be on CW and SSB, mainly on 40 meters. QSL via PA3GVI, direct or bureau. See a video from their last visit at: http://uk.youtube.com/watch?v=3vE1zk60v3E [OPDX Bulletin]

29/11/2008: From November 29th to December 12th, the Tourcoing Radio Club Didier Gaud? (F9LD sk) will be on the air, signing the special call sign TM8T. This activity is part of the Telethon, an International event for which the goal is to collect funds for the research against genetic deceases. Special QSL and award for your contact. Send 5 Euros or 8 USD and an A4 self addressed envelope with postage for 250 grams to: Derycke Jean Pierre (F6BDM), 87 Avenue Roger Salengro, 59170 Croix, FRANCE. [F5NQL]

01/12/2008: Special event station R70B will be active from December 1-15th to celebrate the 70th anniversary of the formation of the city of Belovo, the Kemerovo region. QSL via RA9UT, bureau preferred. A special 'Belovo-70' award will be available. Further information on this event and relevant award can be found at:

www.qrz.ru/awards/detail/503.html [UA9UAX]

04/12/2008: ZY7EAM will be active December 4-7th to celebrate the Sailor Day. Plans are to operate CW and SSB on 160-10 meters. QSL via PY7GK, bureau preferred. [425 DX News]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

SILENT KEYS -

From the CQ Newsroom... 25 November 2008

"Hashafisti Scratchi" a Silent Key

The man who wrote "Scratchi" for CQ magazine is a Silent Key. George H. Floyd, Jr., WA4DGA (ex-W2RYT), of Lynchburg, Virginia, entertained thousands of his fellow hams for more than two decades -- between 1947 and 1971 -- writing as a politically-incorrect (by today's standards) Japanese-American ham with fractured English and contorted spelling. He wrote from "Feenix, Ariz.," began each column with "Deer Hon. Ed.," and regularly skewered the pomposity and poor operating practices he encountered on the air. He passed away 22 November 2008 at the age of 91.

In real life, George Floyd was an engineer and executive with General Electric, working in Schenectady and Syracuse, New York, before moving to Lynchburg, Virginia in the late 1950s. GE alumni will also remember George -- pseudonymously as well -- as "Lighthouse Larry" in GE employee publications.

Scratchi first appeared in CQ in June, 1947. The column became a regular feature between 1948 and 1960, then returned from 1966 to 1971. For many CQ readers in that time period, Scratchi was the first item they read when the magazine arrived each month. CQ Publisher Dick Ross, K2MGA, writing in the magazine's 50th anniversary issue in January, 1995, said: "For many years the name Hashafisti Scratchi has been almost synonymous with confusion and consternation in amateur radio. It seems, too, that whenever the unusual or impossible is happening, Scratchi is there helping it happen."
Upon receiving news of George's passing, Ross noted, "As saddened as I am to learn of George's death, the mere mention of his name brings a smile to my face, knowing how his good humor and wonderfully creative imagination entertained so many of us for so many years."

Floyd was pre-deceased by his wife, Miriam; and is survived by two daughters, two granddaughters and six great-grandchildren. The family asks that those interested in making donations in Floyd's memory contribute to the Nature Conservancy, the Sierra Club, the American Society for the Prevention of Cruelty to Animals or the Humane Society of the United States.

CQ readers are invited to submit reminiscences of Scratchi for a tribute in an upcoming issue of the magazine. A special e-mail address has been set up at <scratchi@...>.

From the CQ Newsroom... 25 November 2008

Former ARRL President George Wilson, W4OYI, became a Silent Key today, according to family. George's involvement in ARRL matters had slowed in recent years after he suffered a stroke. However, he remained an active member of the Newsline Young Ham of the Year selection committee. No additional information is available at this time.

Russ Sakai, KH6FOO passed away on 20 November 2008 at the age of 58. He was one of the pioneers on 2 meter EME and gave out Hawaii to many.

From the CQ Newsroom...

Ed Muns, W0YK, Named CQ RTTY Contest Director

(Hicksville, NY November 24, 2008) -- Ed Muns, W0YK, of Los Gatos, California, has been named Director of CQ magazine's radioteletype (RTTY) contests, CQ Editor Rich Moseson, W2VU, announced today. CQ sponsors the world's two most popular annual RTTY competitions, the CQ World Wide RTTY WPX Contest each February and the CQ World Wide RTTY DX Contest every September.

Muns succeeds Glenn Vinson, W6OTC, who has been CQ's RTTY Contest Director since 2000, and who guided the events to their current levels of popularity. The number of logs submitted for the RTTY DX contest has tripled in the past eight years, despite declining sunspots throughout the period. "I am glad to have had this opportunity to help promote RTTY contesting," says Vinson, adding that Muns has already been working closely with other members of the CQ RTTY Contest Committee, software authors and other CQ contest directors to assure a smooth transition. "I feel very confident that these contests will continue to gain strength year over year."

Ed Muns was first licensed in 1962, and has been contesting since the 1970s. He has been active in RTTY contesting since 2004 and very quickly set two world records in operations from Aruba. He has also been the NA RTTY Sprint contest manager since 2005. Professionally, Ed is retired from a career as an engineering executive for Hewlett-Packard, and currently owns and operates a Pinot Noir vineyard in California that he started ten years ago.

Both Glenn and Ed point out that Glenn's original plan had been to transfer responsibility for the CQ RTTY contests to his co-director for the past several years, Paolo Cortese, I2UIY. However, Paolo unexpectedly became a Silent Key in October, 2008. Ed stepped in to fill the void that was created by Paolo's passing.

"We thank Glenn for his many years of service to our RTTY contests, and his great success in building up their popularity," noted CQ Editor Moseson, "and we welcome Ed to the CQ 'family' with thanks for his willingness to step up to the plate on short notice and take on this responsibility."

MESSAGE: Rockall EU189, 2009
FROM: Col MM0NDX
November 25, 2008

I appreciate it would appear that there has been little news in the last few weeks but I can assure everyone that things have certainly been moving. I expect before Christmas that news of transportation to Rockall being secured will be announced.

Working in tandem with my friend Col, MM0NDX I am acutely aware of the interest shown in EU-189. With this in mind I would like to invite radio hams, be they individuals or clubs, to contact me with their proposals to be part of this exciting expedition. I require the following information to be included in the proposal.

The maximum and minimum number of berths that would be required.

A CV of previous radio activations of those that would be involved.

Any information of additional skills that would strengthen the depth of the expedition, for example any crewing of yacht/boat, tender experience or climbing ability.

The countries who have so far shown the greatest interest in the expedition are Belguim, France, Japan, Norway, UK and USA. I would especially like to hear from Japanese radio hams as not one operator from Japan has ever contacted Rockall. EU-189 is the most wanted IOTA in Japan.

Once the transport has been secured, the team for the expedition will be selected and dates announced. A website can be built especially for the radio hams and a QSL manager is already secured should you require these extras.

For all proposals in the first instance, please contact Andy at info@island-man within the next seven days.

....Island Man Rockall Expedition 2009 website (latest news) [MM0NDX]

7846. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-27 17:50:29 UTC
From: K1XN
Topic: 5889 Message: 7846

The DECEMBER 2008 Issue #812 files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

7847. TU, CT, VY, TA, CQWW CW, Castles in HB9, TR, OD5, FT5Y, TL

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-27 18:10:45 UTC

Topic: 7847 Message: 7847

Hi friends
This is the lmast mesage toy'll receive from F5NQL until next Thuesday, dec 2nd.
I'll be off home because the CQWW CW , in which I'll participate as member of the TM2S crew.
Please have a look on the clusters and call us. It will be with a great pleasure we'll log you.
Thanks in advance from the TM2S crew, Dany/F5CW, Mathieu/F5PED, Bruno/F5AGB, Francis/F5QF, Benoit/F8PDR, Manu/F5NCU, Romain/F8BUI, Frank/F4AJQ and Maurice/F5NQL

Some news from Phil, F4EGS ex EY8/F4EGS.
I'm now in France since yesterday evening.
In EY8, at my spare time i could log more 5000 qso's, in cw ssb et rtty ;

i would thak all of those who called me and had a QSO with me. I would send also, all my apologies to those who called me especially in SSB and I didn't hear in the heavy local QRM

I have receive some cards, at home; I will try to answer them as quikly as possible.
My new assignment is now official and my programm is scheduled as follow:
On Christmas day, departure from france to Ivory Coast, Abidjan .
Stay in Abidjan, until the end of Feruary 2009.
Callsign to be used : TU8/F4EYS
QSL via F4EGS, direct or bureau.
I hope to be ready, for Ive no more work to do with the tuner and antenna.
In ivory Coast, I'll try to settle two antennas and to work on 160 and 80m all modes SSB/CW/RTTY.
On all the other HF bands, Focus in CW and RTTY.
73 de Philippe F4EGS
Tks Phil, F4EGS.

Don't forget to inform us about any change in your e-mail address.

Bonsoir à tous
Ceci est le dernier message que vous recevrez de F5NQL, jusqu’à mardi prochain, 2 décembre.
En dehors de la maison à cause du CQWW CW ; je ferai partie de l’équipe TM2S.
Pour les stations F, hélas nous ne nous serons pas d’un grand secours, sauf une fois par bande pour le multiplicateur.
Nous répondrons cependant volontiers à ceux qui nous appelleront, car nous pouvons être un multiplicateur pour vous bien sûr.
Pour tous les autres, merci de surveiller les clusters et si vous nous entendez appelez nous , pour les points et aussi pourquoi pas pour le

multiplicateur.
Merci d’avance de toute l’équipe TM2S : Dany/F5CW, Mathieu/F5PED, Bruno/F5AGB, Francis/F5QF, Benoit/F8PDR, Manu/F5NCU, Romain/F8BUI, Frank/F4AJQ et Maurice/F5NQL

TADJIKISTAN :
Reçu de Philippe, F4EGS, ex EY8/FAEGS

Ca y est je suis revenu en France hier soir.

Plus de 5000 qso ont été enregistrés dans le log, en cw ssb et rtty

Je voudrais remercier toutes les personnes qui m ont contactées et m excuser auprès de toutes celles que je n ai pu entendre.

Le qrm local était terrible surtout en phonie

Les cartes qsl commencent a arriver et je vais m efforcer d y répondre le plus rapidement possible

Je viens d avoir la confirmation de ma prochaine mission en Côte d Ivoire a Abidjan -

départ de France le 25 décembre 2008 jusqu à fin février 2009

j espère être prêt pour cette activation car je n’ ai pas de remise en oeuvre a effectuer sur le matériel (antenne et boite de couplage) et le temps va certainement manquer d’ici Noël.

si tout se passe au mieux cette mission sera tournée vers les bandes basses 160 et 80 m et toutes les autres bandes en rtty et cw

Indicatif : TU8/F4EGS

QSL via F4EGS, direct ou bureau .

7848. 8Q7GU/8Q7GC QSL INFORMATION

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-11-27 18:20:58 UTC
From: K1XN
Topic: 7848 Message: 7848
Attachments: 1 described; binary payloads are missing from this source WARC

Wednesday, 26 November 2008 05:52
There are 2 ways to exchange QSL cards with us:

1) Send it direct to our postal address

2) Send it through the bureau

Which way to use is up to you. However here're some points you may want to consider when making this decision:

DIRECT QSLING:

1) Our main postal address is

8Q7GU:

c/o Mr. Andrey Kvochkov

P.O. Box 179

050000 Almaty,

Kazakhstan

8Q7GC:

c/o Mr. Mikhail Chirkov

P.O. Box 15

050009 Almaty,

Kazakhstan

?

?

?

?

2) Overall postal service in Kazakhstan is reliable. We have had only very few letters go missing. Most of the mail arrives safe & sound.

3) It usually takes about 2-3 weeks for airmail to arrive from Europe and Japan to Kazakhstan.

4) It's best NOT TO SEND US dollars to cover postage. Not all of the Kazakh postal clerks are honest people and it may happen that some envelopes will 'go missing' if found containing 'valuable posession'.

5) If you want to make donations to help offset costs to our DXpedition the best way to do it is by sending whatever amount you may have through PayPal to our account name? - . Of course, we are very grateful for all the donations and will make sure we properly recognize our sponsors!

6) It's best to include 1 IRCs. In case if you cannot get a hold of IRCs then please include 2 US dollars (unfortunately 1 USD is not sufficient).? IRCs are easily exchanged with the postal stamps and ensure air mail reply.

7) It's best to include SAE or SASE since all of our direct mail will be handled in a standard automated way. We will send our QSL cards in standard envelopes with computer-printed labels. It's best if you include a small piece of paper with your return address clearly typed in Roman alphabet letters. This will ensure quick reply

8) Direct reply will take from 2 weeks to 1 month depending on our workload and postal service.

9) While on Maldives we don't have a facility to send local mail so please don't request us to send you something from overthere! Our location is 100 km from Male, the capital, there's no postal office there and no way we can organize Maldivian originated mailing.

?

BUREAU QSLING:

1) Kazakhstani bureau is operated by Amateur Radio Union of Aktobe, regional ham radio organization located in the city of Aktobe, West Kazakhstan. The postal address of the bureau is:

UN-QSL Bureau

c/o Mr. Sergey Borissov, UN1II

P.O.Box 113,

03000 Aktobe,

Kazakhstan

2) Kazakhstani QSL bureau offers reliable service to all regions of Kazakhstan

3) It usually takes about 1-2 months for QSL mail to arrive to us but it eventually gets here and gets replied.

4) The lead time for QSL bureau replies can be up to 4 months so don't be surprised if you don't see our QSL cards straight in your bureau box after a couple of weeks.

?

OUR QSLING POLICY

1) We do reply to 100% of incoming QSL mail.

2) We expect correspondents to cover the postage of our return mail if they want to exchange cards via 'direct'

3) We use only air mail for dispatching cards

4) We do not provide Maldivian postal cards or other 'Maldivian tokens' to those who may request them

5) We strive to reply to our mail whithin 1 week after receiving it

6) We do offer eQSL replies for those who explicitly indicate they want it

From: K1XN
Topic: 5876 Message: 7850

Hello Folks,

The following has just been received from Andy, G7COD / 8Q7AK.

Please circulate to all your DX'ing friends.

Andrew, G7COD, will be operational for the fifth time from the Island of Embudu in the Kaafu Atoll, Maldives, AS-013 using the call 8Q7AK from 11th January to 27th January 2009. Using SSB and CW on the 40 to 10 metre bands including WARC, he will be operational every day from approximately 07:30 to 08:30, 09:00 to 10:30, 13:00 to 1500 and 17:30 to 18:00 UTC.

Spot frequencies to be used are:

7.063, 14.147, 18.133, 21.253 and 24.953 MHz SSB ? 10KHz to allow for qrm.

7.003, 10.103, 14.003, 18.073, 21.003 and 24.893 MHz CW ? to allow for qrm.

For comprehensive details of qsl information etc, please check 8Q7AK on QRZ.COM

IMPORTANT NOTE: I am completely up to date with the return of qsl?™s for those received direct and/or eqsl?™s from previous activation?™s?™. If you have not received yours, please send your qsl again.

If you have not received a return qsl for cards sent via the bureau this is because of the slow process rate. I will return cards via the bureau as soon as possible, as and when I receive them from the bureau.

All qsl?™s should be sent via the bureau or direct to G7COD.

Please note: 8Q7AK is approved for DXCC credits.

Vy 73 to all,

de Pete at the DX Newsdesk

Hi friends
Good news from S21 Land (Bangladesh)

Bangladesh Telecommunication Regulatory Commission - BTRC has started taking the Amateur Radio License Test after a long gap of 4 years. They took the second test on 27th November 2008.

The test has been conducted through a Computer Based Testing (CBT) System. A total of 35 MCQ type questions were in the test. A minimum of 18 correct answers were treated as pass mark. The duration of test was one hour.

The good news is that a total of 84 candidates took the exam and among them 62 candidates have successfully passed.

This is really a good news for S21 HAMS as after a long gap the system has started again.

You may know since 2004, the amateur radio license issuing authority in Bangladesh had stopped taking examinations and issuing licenses to the enthusiast. After continuous lobbying for the last four years, executive members of the Bangladesh Amateur Radio League - BARL have finally been able to make the concerned authorities understand the significance of Ham Radio Operators in a country with frequent natural disasters like floods and cyclones.

Three executive committee members of the BARL, S21RB (Engr. Belayet Robin), S21VA (Dr. Zahid Shipon) and S21SH (Saiful Huda) had a very fruitful meeting with the Bangladesh Telecommunications Regulatory Commission – BTRC on 21st of July 2008 .

Besides the Chairman of the Bangladesh Telecommunication Regulatory Commission - BTRC, Major General Manzurul Alam (Retd) almost all the senior officials, engineers and technical experts of the authorities were present at the meeting.

Things become started changing after the meeting and today we are in a good shape and have achieved our goal. Hopefully the system will never stop again.

Regards,

Belayet Robin - S21RB
General Secretary
Bangladesh Amateur Radio League - BARL

ADELIE Land:
This is a small word received from Nicolas FT5YI

Jean-Michel F6AJA

Hi,
I'll be active on next Friday between 1400 and 1700 utc, propagation permitting.
Frequency, always the same 14,270 plus or less 10 kHz according to the noise level.

Yesterday Monday, I had a little hope; Paris was heard, but so weak! I hope a better propagation on next Friday.
On Monday it hat been snowing and froozing.
To day, Tuesday, the wind is a little bit strong for the area, ie more than 150 km per hour. We gp outdoor with ski masks and we are all clinging to the guardrails aklong the buildings to avoid injuries.
The weather conditions are all together to see the rising of a huge Katabatic wind. If it happens, it could be terrible.
For me, I'll stopp my radio activities around mid december, when the ship will arrive by us. A part of the gear I used for my job will be dismanteled and shipped

To day I don't kow if we will celebrate Christmas at the base or onboard of the Astrolabe.
The coming back to Metropolitan France is scheduled around the 1st of January (or later)
The Australes and Antarctic aleas are the weather and the ship routes tables .

We kow when we go, never when we will come back.

Tks Nicolas , Jean-Michel, F6AJA and the Nouvelles DX

SENEGAL:

Hi Bill,

Here my dates for a small holiday style DX expedition.
Mostly I will be QRV during the CQ WWDX 160m CW contest.

Begin date: 16.1.2009
End date: 29.1.2009
My callsign: DL2RMC
Callsign to be used: 6W/DL2RMC or a 6V call
DXCC entity: Senegal, 6W
QSL route: via DL1RTL

Best regards
Tom
DL2RMC

Bonsoir à tous
Bonnes nouvelles du Bengladesh – S21 –
La Bangladesh Telecommunication Regulatory Commission - BTRC a recommencé à faire passer les examens en vue de délirer des licences radioamateur. Il n'y avait rien eu en ce sens depuis 4 ans.
La deuxième série a été organisée le 2711/2008.
Les licences se passent sur ordinateur, et la forme est un QCM de 35 questions. Il est exigé a18 réponses correctes pour être admis. Durée de l'examen : 1 heure.
La bonne nouvelle est que sur 84 candidats , 62 ont été reçus. C'est vraiment une excellente nouvelle pour les amateurs Bengalis. Après une longue rupture, le système est reparti.
Vous vous souvenez sans doute que depuis 20, aucune session d'examen ni délivrance de licence n'étaient intervenues. Après un siège continu des autorités par les membres de la Bangladesh Amateur Radio League - BARL , ceux ci ont fini par obtenir gain de cause, en démontrant notamment l'utilité de leur activité dans une zone balayée par cyclones et raz de marées.
Trois membres du CA de la BARL, S21RB (Engr. Belayet Robin), S21VA (Dr. Zahid Shipon) et S21SH (Saiful Huda) ont mené des négociations fructueuses avec la Bangladesh Telecommunications Regulatory Commission – BTRC en particulier le 21 juillet 2008.

Aux côtés du Président de la Bangladesh Telecommunication Regulatory Commission - BTRC, le Major General Manzurul Alam (Retd), assistaient à cette dernière réunion de juillet, la plupart des ingénieurs et techniciens , experts auprès des autorités.
Les choses ont commencé à prendre nouvelle tournure après la réunion et maintenant nous avons achevé notre principale mission. Heureusement le système ne s'arrête jamais.
Salutations

TERRE ADELIE

Bonjour

Je ferai donc une activité radio le vendredi, de minuit à 3h DDU (c'est à dire de vendredi de 14h à +-17h TU... suivant la propag, s'il n'y a rien je couperai, mais j'ai de la patience!) écoutez vers 14,270 (+-10kHz en fonction du QRM)

Hier lundi j'ai eu un peu d'espoir car je soupçonnais Paris. En espérant que la propag revienne correctement pour ce Vendredi.

Il a neigé et givré lundi,
aujourd'hui mardi, il vente fort (150km/h), on sort dehors avec le masque de ski et on se tient aux rambardes des passerelles inter-bâtiments pour ne pas se blesser.
et il est peut-être prévu du vent catabatique demain mercredi, en tout cas les conditions sont réunies pour en avoir, si c'est le cas, ça va être terrible.

Arrêt des activités radio vers mi-décembre, une fois que le bateau arrivera, pour me consacrer à 100% sur les activités du QRL car une autre partie du matériel QRL sera déposé.
Noel, je ne sais pas si on le fêtera sur la base ou l'Astrolabe.
Retour en métropole prévu vers nouvel an (peut-être après)
Les aléas des missions dans les Terres Australes et Antarctiques Françaises, sont la météo et les dates des voyages: on sait quand on part de métropole, mais on ne sait jamais exactement quand on revient...

Hi friends
SWITZERLAND:
To celebrate his 80th anniversary, the Swiss National Ham Society, the
l'USKA has granted all theze Swiss hams to use the Prefixes HE8 and HB8 in the
whole year 2009.
HE8 instead of HB9
HB8 instead of HB3.
These prefixes are valid only from the Swiss territory . No foreign
activities are allowed nad thus no Entity/HE8 or HE8 is possible.

Bonjour à tous
SUISSE :
Pour fêter l'anniversaire de ses 80 ans, l'USKA a accordé l'utilisation des préfixes spéciaux HE8 et HB8 en 2009.
Les propriétaires d'une concession radio amateur 1, 2 ou CEPT peuvent utiliser le préfixe spécial HE8 du 1er janvier au 31 décembre 2009 à la place de HB9.
Les propriétaires d'une concession 3 (HB3) pourront utiliser le préfixe spécial HB8 à la place de HB3.

L'utilisation de ces préfixes spéciaux est exclusivement utilisable sur le territoire Suisse.
Merci F6AIU.COM

9Q vers A6 :
Chers amis,
Ca y est, le grand départ de République Démocratique du Congo a été fixe le 20 décembre 2008 au soir et serai donc à Paris CDG le 21 au matin.
La station a la maison est en cours de démontage et ne suis un peu actif que depuis la station pro le matin entre 06:30~07:00 TU sur 14.114 et l'après-midi de 15:30~16:00 TU sur 21.188.
Derniers qso's prévus le 19 Décembre.
Je serai en France jusqu'au 18 Janvier 2009 date a laquelle je m'envole pour Dubaï.
J'espère pouvoir obtenir dans un délai raisonnable un indicatif A6 et vous informerai aussitôt.
Mon qsl manager reste SM5DJZ
Au grand plaisir de vous retrouver sur l'air depuis les Emirats.
73's

From: VA3RJ News
Topic: 7860 Message: 7860

I.C.P.O. Bulletin (December 04 - 12, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

04/12/2008: Adhi, YB3MM will be QRV as YB3MM/9 from the radio station of Ferdy (YC9MKF) Kupang city, Timor Island (OC-148, WLOTA LH-1808) from December 4-7th. Holiday style operation, mostly on the 20 meter band. If conditions are ok, Adhi will try to QRV from Semau Island (OC-241, LH-2891). QSL via IZ8CCW, direct or bureau. [K1XN]

05/12/2008: Dr. Helmuth Spieler W6KDX will be returning to work on the South Pole Telescope at the US Amundsen-Scott South Pole Station (IOTA AN-016, AA K-08, WAP USA-21) from December 5th to January 5th. He hopes to re-activate KC4AAA in his spare time on SSB in the vicinity of 14.243 MHz. Please direct any inquries to KC4AAA2008 -at- gmail.com . QSL via K1IED. To learn about the exciting South Pole Telescope project, visit pole.uchicago.edu/ [K2ARB]

05/12/2008: Paul, A35RK reports that he will be active as KH8/KK6H, from Larry's (AH8LG) QTH on Tutuila Island (OC-045, USi AS-007S), December 5-9th. Activity will be CW and SSB. This will be a 'casual' operation, but he will listen for Europe at local sunset (UTC+12), on 20m....that should be about 0600-0700Z, and should be a pretty good grayline path. The Americas should be easy just about anytime during local daylight hours, on 20 or 17m. QSL via W7TSQ or LoTW. [OPDX Bulletin]

05/12/2008: Curt, W3HQ will be active as KP4/W3HQ from Puerto Rico (NA-099, USi PR-006S, WLOTA LH-2802) for the ARRL 160 Meter Contest (December 5-7th) as a Single-Op/Low-Power entry. QSL via W3HQ, bureau preferred or via VK4AAR. [NG3K]

05/12/2008: Ken, K6TA, will be active from the island of Aruba (SA-036, WLOTA LH-0033, WW Loc. FK52AM) as P40TA during the ARRL 160 Meter Contest (December 5-7th) as a Single-Op/High-Power entry. QSL via LoTW, or to WM6A, bureau preferred. [OPDX Bulletin]

05/12/2008: From December 5-7th a complex WFFA expedition to Polistovskiy Nature Reserve (RFF-072) and Rdejskiy Nature Reserve (RFF-078) will take place with the call sign UE1RFF/1. Operators mention, from the club station RK3DXS (HQ WFF) are: RA1ZZ/3, RA3AKF and RW3GW/3. QSL of via UA1RJ. A special QSL card will be sent out to all through bureau. Website at: www.wff44.com/ru/news/show/234/ (Russian language). [RA3AKF]

05/12/2008: Haru, JA1XGI, intends to hit the airwaves from Central Kiribati signing T31/T32XG from December 5-19th. Haru prefers working in CW but also in SSB and digital modes on 40, 30, 20, 17 and 15 meters. QSL via home call, direct or bureau. [DX Newsletter]

05/12/2008: Sara/VU3RSB, Frank/VU3FRK (DL4KQ), Kumar/VU2BGS and Bapuji/VU3KET will be active as AT2RS from Nachugunta Island, Krishna District, in the Andhra Pradesh South State Group (AS-199, new one) from December 5-7th, for 72 hours. They plan to have 2 stations (probably occasionally 3rd) operating CW and SSB on 80-10 meters. Unfortunately NO 30m operation possible (special permit needed) due to Indian Ham laws. Equipment will be Elecraft K2/100, Elecraft K3/100, ICOM IC7000 with Yagis, dipoles and verticals. This

activation requires a long voyage through/to Indian boondocks - start/end of operation may slightly vary. QSL via W3HNK, direct or bureau, for North and South America. QSL via DL4KQ, direct or bureau, for rest of the world. [VU3FRK/DL4KQ]

05/12/2008: Art, N3DXX reports that he will be active from Prince Edward Island (NA-029, CIsA PE-00) for the ARRL 160-Meter Contest (December 5-7th) using the call sign VY2/N3DXX as a Single-Op entry. QSL via home call. [NG3K]

05/12/2008: Tom, KC0W/ZD7X will be active from Cambodia as XU7XXX during the ARRL 160-Meter Contest (December 5-7th) as a Single-Op/Low-Power entry. QSL via KC0W, direct only. Tom reports that after his stay in Cambodia he plans on activating Laos and Viet Nam for an extended DXpedition of up to 3 months in each country.[NG3K]

05/12/2008: Bruce, XW1B will be QRV from "The Farm" 38km N. of Vientiane, Laos, during the ARRL 160-Meter Contest (December 5-7th). No entry class was given. QSL via E21EIC, direct or by the bureau. [NG3K]

05/12/2008: Alex, YV5SSB will be active from Caracas, Venezuela, as YW5CQ during the ARRL 160-Meter Contest (December 5-7th) as a High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

06/12/2008: Operatores Toze/CT1GFK, Goncalo/CT1GPQ and Mike/CT1IUA will be active from the Natural Park do Valley do Guadiana (DPRN FF-14, WWF CTFF-014) as CT7FFG on December 6, 7 and 8th. QSL via CT1GFK, direct or bureau. All information about DPRN can be find at: dprn.no.sapo.pt/dprn_eng.htm [CT1GFK]

06/12/2008: Didier, F4ELJ will be active December 6-7th as F4ELJ/p from Stagadon Island (EU-105, DIFM MA-094, Dept 29). QSL via home call, direct or bureau. [425 DX News]

06/12/2008: Fran?ois/F5JNE along with Gerard/F6ICG will be active December 6th from the Castle of Guipy (DFCF 58-096), in the city of Guipy (CP 58420), canton of Brinon sur Beuvron (DDCF 58-01), Department Nievre/89 and Province Burgundy (DPF 05). QRV 80 then 40m, CW and SSB, starting around 0700 UTC. QSL via home call, bureau preferred and SWL cards are welcome. [F5NQL]

06/12/2008: Operators Lucio/PP5AVM, Carlos/PP5AX, Joaquim/PP5JY, Lira/PP5LL, Mauricio/PP5WB and Mario/PP5MQ will be active as ZV5V and ZV5Z December 6-13th from Paz [aka Gracas] Island (SA-027, DIB #63 for the Brazilian Islands Award, WLOTA LH-1983, WW Loc. GG53ST). QRV 80-10 meters, using Phone and CW. Tecnical suport will be provided by Ezequiel/PP5HQ and Alfredo/PP5KDT. Mainland suport provided by Osny/PP5AIM and PP5ZZ/Mauro. QSL both calls via PP5CIT, direct (QRZ.com). Further information can be found at: www.pazis.blogspot.com/ [JI6KVR]

09/12/2008: The 4M5DX Group will activate Toas Island (SA-066, DIV-079 for the Venezuela Islands Award, WW Loc. FK40EW) from December 9-12th. Activity will be on 160-6 meters, using SSB, CW and perhaps RTTY. Operators mentioned are Alex/YV5SSB, Manuel/YY4MP, Rafael/YY4RN, Franco/YV1FM, Rainer/YV5EU, Olli/OH0XX, Jes?s/YV5MSG, Jos? M./YV5TX and Andreina/YY4AND. Suggested frequencies: CW - 1.830, 3.530, 7.025, 10.115, 14.040, 18.098, 21.040, 24.920, 28.040, 50.110 MHz; SSB - 1.845, 3.755/3.790, 7.055, 14.260/14.195, 18.128/18.145, 21.260/21.295, 24.950, 28.560/28.460/28.495, 50.110 MHz; RTTY - 7.040, 10.140, 14.090, 18.100, 21.080, 24.920, 28.090, 50.110 MHz. QSL via IT9DAA, direct or bureau. Further information and log search can be found at: yw1ti.4m5dx.info/ [IT9DAA]

10/12/2008: Look for BD3BXH/2, BG3DCI/2, and BG3DDB/2 (and possibly other operators from the TianJin B3C Club) to be active from JuHua Island (AS-151), December 10-13th. Expect activity on 80, 40, 20, 17, 15 and 10 metres SSB, CW and RTTY. QSL via BD3BXH. [425 DX News]

10/12/2008: Fran?ois, ON4LO will be active as CT1/ON4LO/p from Fuzeta lighthouse (ARLHS POR-074, Admiralty D2230.1) and other lighthouses in Algarve from December 10, 2008 to January 20, 2009. QRV 80, 40 and 20 meter SSB. QSL via home call, direct or bureau. [UBA HF News]

10/12/2008: Florentin (F4DYW) will be active as FT5WO from the Alfred Faure Base [TAAF] (WAP-WADA FRA-02), Possession Island (DIFO FT-009), Crozet Archipelago (AF-008), sometime around December 10th and 15th, 2008 until November 30, 2009. QRV during his spare time on 40, 20 and 15 meter SSB, using 100 Watts and dipoles. QSL via home call, direct or bureau. [F8DVD]

10/12/2008: John, 9M6XRO (ISWL 9M6-6982) will be active from Kompong Som, Sihanoukville, Cambodia, as XU7XRO from December 10-18th. QRV 160-10 meters using CW, SSB and RTTY. ISWL Members note that if you work, or hear John with any call signs, they will count for the Monitor and other ISWL member's awards. John will be in Scotland over Christmas and New Year so he will hopefully give GM3OOK an airing from Irvine. QSL info for XU7XRO is only via Tim, M0URX. Bureau, direct or email requests to M0URX for bureau cards are accepted (full QSL info at www.m0urx.com). [Pete's DX Newsdesk]

11/12/2008: Aki, JA1KAJ will be active as E51QQQ from Rarotonga Island (OC-013), South Cook Islands, from December 11-17th. He plans to operate SSB and CW on 80-10 meters. QSL via home call, direct or bureau. [425 DX News]

12/12/2008: Bodo, DL3OCH will be active as KT3Q/4 from Key Biscayne Island (NA-141, USi FL-030S, WLOTA LH-1246), Dade County, Florida, from December 12-26th. He also plans to activate other IOTA's during his stay. IOTA's mentioned are NA-052, NA-062, NA-069 or NA-138. QRV 40-15 meter CW. QSL via home call, direct or bureau. [rsgbiota.org]
==========
LOOKING AHEAD -

13/12/2008: The activity from the San Gabriel Island (SA-057) under the CX1F call sign, postponed the last month because of weather and sea conditions will finally take place on December 13th. QRV 80, 40,20, 15, 10 and 2 meters, propagation permitting. QSL LU stations: CX2FT- Adriana, calle Montevideo 1330, CP 1018, Baires, (SAE + $ 1,00 Argentino). QSL CX stations: BP 39073, Code Postal 70000 Colonia del Sacramento, Uruguay, (SAE + Uruguayan stamps). QSL, other countries: BP 39073, Code Postal 70000 Colonia del Sacramento, Uruguay, (SAE + 2 IRC). [LU5FF]

13/12/2008: Operators Marcio/PY1RJ, Felix/PY1JF and Valci/PU1VPM will be active on their 2nd Amigos de Migos de S?o Gon??lo Dxpedition to Morro do Pacheco (WW Loc. GG87MD), Brail, on December 13th, using the call sign ZX1SG. Frequencies - 3.720, 7.060, 14.220, 21.220, 28.420, 50.110 MHz SSB also 144.550 MHz FM and 144.240 MHz SSB. QSL via PY1RJ (QRZ.com). [PY1PDF]

17/12/2008: Dave "Kawe", W6ZL will be active as A35KL from Foa Island (OC-169), Tonga, between December 17th and 19th. Expect activity on all bands. QSL via W6ZL, direct only (QRZ.com) or via LoTW. [NG3K]

20/12/2008: Special event station 8J6HAM will be aired December 20, 2008 until March 8, 2009 for the 8th Nishinihon (or West Japan) Ham Fair. QSL HF contacts via the JARL bureau; QSL satellite contacts via JA6PL, direct or bureau. [JJ1WTL/AC6IM]

21/12/2008: Andre, HB9HLM will visit Morocco from December 21, 2008 to January 31, 2009 and will be QRV as CN89NY from the CN2DX Beach House, Dar Bouazza, Morocco. This special call sign is allocated specifically for the holiday season, (8 for 2008 and 9 for 2009, NY for New Year). He will be QRV from the Beach House with CN8PA and CN2CV allies HB9CVC and will operate 2 stations at the same time: IC7000 and TS680 with PA AL811hcxe, Windom antenna 160 to 10m extension with 30 and headed 15m East-West G5RV antenna then 40 to 10m run north-south. QSL via EA7FTR. Further information can be found under CN89NY on QRZ.com. [F5NQL]

21/12/2008: This year and for the 5th time, the French Crew composed of Sebastien Loeb and Daniel Elena won the World Rally Championship. To celebrate the event a Ham team from the French Saone et loire Department/71, will be airing the special call sign TM5WRC from December 21, 2008 to January 3, 2009. QRV HF and VHF included AO51 satellite, using CW, SSB, RTTY, PSK, SSTV and FM. Operators mentioned are Jean Pierre/F0EWK, Denis/F1PUX, Gerard/F1RUK, Roger/F4ELU, Didier/F5NZO, Pascal/F5RZJ, Jean/F6EZF and Francois/F8DVD. QSL via F4ELU, direct (Envelope SA + 1 IRC or 2$ US) or via bureau. More information on the special event web page at: f4elu.free.fr/tm5wrc/index.html [F5NZO]

26/12/2008: Jouni/OH4KZM and Jukka/OH4MFA will be active as OH4JT/1 from Kustavi Island (EU-096), December 26-30th, including a Multi-Op entry in the Stew-Perry Topband Challenge. QRV 160-10m, mainly CW. QSL via OH4MFA, direct or bureau. Further information can be found at: personal.inet.fi/surf/oh4mfa/oh4jt-1.htm [rsgbiota.org]

26/12/2008: Phil, F4EGS will be active from Abidjan, Ivory Coast, using the call sign TU8/F4EYS from December 26, 2008 to February 28, 2009. QRV on all bands, with focus on 160 and 80 meters, using CW and RTTY. QSL via F4EGS, direct or bureau. [NG3K]

31/12/2008: The expedition to St. Martin's Island (AS-127, WLOTA LH-2351), Bangladesh, is scheduled to take place December 31, 2008 to January 10, 2009 (begin and end dates uncertain). The operators will be Rabby/S21RC, Manju/S21AM, Lal/S21DM and Sohel/S21S, and they plan to be active on 80-10 meter SSB and RTTY (sorry - no 30 meters). QSL via EB7DX, direct only. Further information can be found at: s2iota.eb7dx.com/ [NG3K]

01/01/2009: To celebrate his 80th anniversary, the Swiss National Ham Society (USKA) has granted all Swiss amateurs the use of the Prefixes HE8 and HB8 during the entire year of 2009. HE8 instead of HB9 and HB8 instead of HB3. These prefixes are valid only from the Swiss territory. No foreign activities are allowed and thus no Entity/HE8 or HE8 is possible. [F5NQL]

16/01/2009: Tom, DL2RMC will be active holiday-style from Senegal as 6W/DL2RMC, or a 6V call, from January 16-29th, including an entry in the CQWW DX CW 160m Contest (January 23-25th). Look for activity on all bands and modes, with focus on low bands. QSL via DL1RTL. [NG3K]

11/02/2009: Bill/N7OU and Bob/W7YAQ will be active as 3D2OU and 3D2NB respectively from Nadi, Viti Levu Island (OC-016, WLOTA LH-0055), Republic of the Fiji Islands from February 11-16th. Then, from February 17th to March 2nd they will be on Tuvalu, calls TBA, including a M/S entry in the ARRL DX CW Contest. Operation will be 160-10m, mostly CW, but some SSB and RTTY too. QSL via home calls. [NG3K]

12/02/2009: John/KX7YT and Rob/N1KEZ will be active from VP5JM's Hamlet on Providenciales Island (NA-002) as VP5/homecall from February 12-15th, including an entry in the CQWW RTTY Contest (February 14-15th). QSL via home calls.

12/02/2009: Dennis, WA2USA will be active as WA2USA/4 from Bogue Banks [aka Emerald Isle] (NA-112, USi NC-010S), Carteret County, North Carolina, from February 12-24th. QRV 160-10 meters, using RTTY, CW and SSB. He will also participate in the ARRL CW DX and CQ WPX RTTY Contests. QSL via home call, direct or bureau. [rsgbiota.org]

17/02/2009: Bill/N7OU and Bob/W7YAQ will be active from the Tuvalu Islands (T2, OC-015) between February 17th and March 2nd. Their call signs still have to be confirmed. QRV 160-10 meters; mainly CW, with some SSB and RTTY, including an entry in the ARRL DX CW Contest (February 21-22nd). QSL via home calls, direct or bureau. [NG3K]
==========
SPECIAL EVENTS -

04/12/2008: ZY7EAM will be active December 4-7th to celebrate the Sailor Day. Plans are to operate CW and SSB on 160-10 meters. QSL via PY7GK, bureau preferred. [425 DX News]

06/12/2008: The last Lighthouse activity, for the commemoration of the 50th anniversary of the Tandill ARC, LU2EE, and valid for the Lighthouses 50th years award, will happen on December 6th and 7th. Location will be the Mar Chiquita lighthouse (ARLHS ARG-044), about 490 km North of Mar del Plata. The call sign will be L50E. QSL via LU2EE, bureau or direct (SA envelope + postage for return). [LU5FF]

06/12/2008: There will be a transmission from Grimeton Radio (SAQ) with the Alexanderson alternator on 17.2 kHz on December 6, 2008 at 10:45 UTC. The reason for the extra transmission is to celebrate the inauguration of the Alexanderson Institute in Varberg, Sweden. Note: Listener's reports from this transmission will not be rewarded by QSL cards. Planned transmissions are also scheduled for Wednesday 24th December 2008 at 08.00UTC and 08.15 UTC. The frequency is 17.2 kHz CW. Running up an tuning of the transmitter begins about 07.30 UTC. Further information can be found at: www.alexander.n.se/ [UBA HF News]

12/12/2008: The Radio Club FG5KC Ile de la Guadeloupe invites you to take part on December 12th and 13th with them at the village of Science festival at University Campus. They are going to present a young ham their activity followed by demonstrations of HF / VHF / DIGITAL live that you will convey a message to its young from your place of issue. So they hope for your contacts and carry out this exchange with you via radio club FG5KC/P. [K1XN]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

SILENT KEYS -

SB QST ARL ARLB021
ARLB021 ARRL President Emeritus George Wilson, W4OYI, SK
George S. Wilson III, W4OYI, of Owensboro, Kentucky, passed away at his home on November 25. He was 76. Wilson served as the ARRL's 11th President from January 1992-July 1995. He resigned from the position after a stroke in 1995. Wilson's tenure in ARRL leadership included positions as Kentucky Section Emergency Coordinator, Kentucky Section Communications Manager, Vice Director and Director of the Great Lakes Division, as well as Vice President and First Vice President, eventually culminating in the position of ARRL President.

Stanislav Yulianovich Mukhlya UR5FB (ex-UB5FBO) became Silent Key on Sunday November 30, 2008 at the age of 71.

BITS & PIECES -

TUNISIA and MOROCCO
We are informed that the station signing either 3V2ARA or CN8ARA is a pirate. The information is given both by Mustapha/DL1BDF and the Royal Amateur Radio Association in Morocco (ARRAM/CN8MC). Save your QSL cards, IRC?s and money. Tks Mustapha/DL1BDF and CN8MC. [F5NQL]

From Phil 9Q1TB:
Dear friends,
That's it ! Departure from DRC have been fixed to 12/20/2008 and I will be in Paris on 21.
Home station is on the way to be fully dismantled and I'm just a few active from my office on morning 06:30~07:00 UTC ,14.114 and afternoon 15:30~16:00 UTC, 21.188
Last qso's on 12/19/2008.
I will be in France up to 01/18/2009 then flying to Dubai.
I hope to obtain under a reasonable delay an A6 callsign and will revert to you.
My qsl manager remains SM5DJZ.
It will be a great pleasure to contact you again from U.A.E.
73'S Philippe F5LTB (9Q1TB)

FT5Y - ANTARCTICA: Message received from Nicolas FT5YI at Dumont d'Urville Antarctica - he will appear on air Friday 5th, 1500-1700 UTC, 14.270 Mhz (more or less 10 Khz). [F5PFP]

S2 - BANGLADESH: Good news from S21 Land (Bangladesh)
Bangladesh Telecommunication Regulatory Commission - BTRC has started taking the Amateur Radio License Test after a long gap of 4 years. They took the second test on 27th November 2008.
The test has been conducted through a Computer Based Testing (CBT) System. A total of 35 MCQ type questions were in the test. A minimum of 18 correct answers were treated as pass mark. The duration of test was one hour.

The good news is that a total of 84 candidates took the exam and among them 62 candidates have successfully passed.
This is really a good news for S21 HAMS as after a long gap the system has started again. You may know since 2004, the amateur radio license issuing authority in Bangladesh had stopped taking examinations and issuing licenses to the enthusiast. After continuous lobbying for the last four years, executive members of the Bangladesh Amateur Radio League - BARL have finally been able to make the concerned authorities understand the significance of Ham Radio Operators in a country with frequent natural disasters like floods and cyclones.
Three executive committee members of the BARL, S21RB (Engr. Belayet Robin), S21VA (Dr. Zahid Shipon) and S21SH (Saiful Huda) had a very fruitful meeting with the Bangladesh Telecommunications Regulatory Commission - BTRC on 21st of July 2008.
Besides the Chairman of the Bangladesh Telecommunication Regulatory Commission - BTRC, Major General Manzurul Alam (Retd) almost all the senior officials, engineers and technical experts of the authorities were present at the meeting.
Things become started changing after the meeting and today we are in a good shape and have achieved our goal. Hopefully the system will never stop again.
Regards, Belayet Robin - S21RB
General Secretary
Bangladesh Amateur Radio League - BARL

TL - CENTRAL AFRICAN REPUBLIC: Christian ex5U5U is back in France. He will return in Central Africa around January 2009, 15th. He has applied for a licence and TL0A call sign. [F5NQL]

From: Dave Raycroft
Topic: 7861 Message: 7861

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
E44M Palestine Operation -- Jan 1-11, 2009
A license has been granted to an Italian team and the period of their
first activity will be from January 1 to January 11, 2009. The call sign
released is E44M and it covers from 160 meters to 2 meters SSB, CW, RTTY
and all digital modes with a maximum power of 1KW. They will have 3
stations active with beams, verticals and wire antennas.
The team includes the following 6 members:
IK2CIO-IZ0BTV-IZ0EGM-IZ4AKS-IZ4DPV-IZ8IYX-SP3DOI.
They will focus their activity to RTTY and other digital modes, low and
WARC bands, giving attention to stations outside Europe, when the
propagation will allow it.
Pilot stations will be announced later. More news in the next few weeks.
A website has been setup at: www.dxcoffee.com/e44m/

7862. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-05 02:09:22 UTC
From: K1XN
Topic: 5889 Message: 7862

The DECEMBER 2008 Issue #812-A files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

7866. THE REPUBLIC OF KOSOVO

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-07 14:36:41 UTC
From: K1XN
Topic: 7866 Message: 7866

?
?????????????????? THE REPUBLIC OF KOSOVO ENTERS A NEW PHASE AS OF DECEMBER 9, 2008
?"EULEX will switch on and UNMIK will switch off", as EULEX's head put it today!

?http://www.eulex-kosovo.eu (http://www.eulex-kosovo.eu/)

?It was just a few days ago in the United Nations Security Council where the UN Secretary-General's fresh report on Kosovo highlighted the considerable progress made in Kosovo since its independence in February of this year. All Council members supported the decision by the Secretary-General to adapt the UN's role to this new, positive reality by accelerating the downsizing of the UN Mission in Kosovo (UNMIK) and the transfer of rule of law authorities to the European Union's mission, EULEX as of November 9, 2008.

?There is no doubt in anyone's mind that the Republic of Kosovo, as it is called in UN terms, is there to stay as it is recognized by fifty-three UN member states today. Even those European countries not recognizing Kosovo because of their own minorities, voted unanimously to let the EULEX take over the next phase of the new country's development work. This is also another historical event where, for the first time, the European Union is working together and with the United States on a peace settlement issue.

?This same day also signifies a wonderful occasion to the 2008 Nobel Peace Prize Laureate, Martti Ahtisaari, who acted as the UN Special Envoy for Kosovo and whose "peace roadmap" is now in implementation. Mr. Ahtisaari has served as mediator in many complex negotiations in which there is no standard outcome. Kosovo's road to independence marks a unique case in which the only winners are the people of Kosovo. We all salute Mr. Ahtisaari for his mission under complicated circumstances and congratulate him on winning the Nobel Peace Prize which he will receive on this same day. Amateur Radio operators are grateful to Mr. Ahtisaari for his support of Amateur Radio Mission Goodwill Kosovo currently under implementation in Kosovo.

?A special postage stamp is issued in Finland on December 10 in Mr. Ahtisaari's honor, and the next 1000 direct QSL envelopes released by OH2BH/OH2BN/OH2TA/OH2UA ?for YU8/OH2R, CN2B, CU2X, FJ/OH2AM, OH0X, OH8X, OJ0B, TC4X will bear that stamp.

From: K1XN
Topic: 7868 Message: 7868

APPRECIATION GIFT for GOLISTERS

??? As we all are very well aware of, DX has been very
slow at best with no sun spot activity to help us out.
??? Many of you have stayed faithful to the Golist during
these very bad DX activity periods sending in reports,
manager changes and just plain renewing you subscription.
??? As a small token of my appreciation to each of you, I am
making a change to all RENEWALS during the year 2009.
Each RENEWAL made in 2009 will be for 15 months
instead of the normal 12 months. I hope that each of you
will find this satisfactory and will continue your support
of the Golist.
??? I want to wish each of you a very Merry Christmas and
Happy New Year and all the best this Holiday Season has
to offer.

John K1XN at the GOLIST.

7869. A5100 the end, Antarctica, Special events PY&OH, EA8, ISWL, M6 callsigns .....

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-02 13:22:29 UTC
From: F5nql@aol.com
Topic: 7869 Message: 7869

Hi friends
A5100A

The last member of the crew, Vincent, G0MLX, who could’nt leave Bangkok airport at the end of the expedition, because of the events, is now safe in London . He could finally leave Bangkok to London, via Pattaya and Singapore!

Tks Jean-Michel, F6AJA

ANTARTICA:
1st) Dr Helmuth Spieler,W6KDX, will stay on the US Amundsen-Scott South Pole
station from Dec 5 until Jan 5,2009. If time permits he will try to become active as KC4AAA mainly in SSB on 14243 kHz. QSL via K1IED.
More information about his activities at: _http://pole.http://pohtt_ (http://pole.uchicago.edu/)
2nd) OP0LE is the callsign of the new Belgian Antarctic station "Princess Elisabeth" (http://www.antarcticstation.org) situated on Dronning Maud Land. Activities can be expected between mid December and the mid of February 2009. The OP will be Paul,ON3PC, who got his license only a short time ago.
BRASIL, SPECIAL EVENT STATION
ZY7EAM celebrates the "Sailor Day" and can be found working in SSB and CW on 160-10m from Dec 4-7. QSL via PY7GK, via bureau prerred.

FINLAND, SPECIAL EVENT STATIONS
Once again OH9SCL is going to be active in CW, SSB and digital modes on 10-160m from Santa Claus Land (SCL) at the Arctic Circle.
QSL via OH9UV, PL 50, 96101 Rovaniemi, Finland.
More information about the Santa Claus award can be found at:
http://kotisivu.dnainternet.net/rakarttu/OMAT_KOTISIVUT/OH9SCL_2007/OH9SCL_2007.html
EA8 - CANARY ISLANDS, AF-004
Dietrich,EA8/DL3KVR, will be active from Teneriffa (AF-004) for four months starting in December. He will work with 100 watts and dipoles in CW, SSB and digital modes on 40-10m (80m not sure because the space for his antenna is restricted). QSLs via bureau to his homecall.
Tks DXNL

Hello Folks,

The ISWL Club Callsigns in use during December 2008 will be:

GX4BJC /A & GX4BJC /P - Operated /A from Towcester, in Northamptonshire, by Phil - G4DMS.

(ISWL Council Member & Rallies Manager)
(/A WAB Square = SP65-NHM & IOTA = EU-005).

MX1SWL /A - Operated from Great Sutton, in Cheshire,
by Geof - M0BAU.
(/A WAB Square = SJ37-CHS & IOTA = EU-005).

The ISWL's WAB Book numbers are: 16316 and 16724.

All QSL Info is on www.iswl.org.All QSL Info is o
or via www.eQSL.cc NO LOTW.

ISWL Awards are available to all Hams and SWL's - see www.iswl.org.ISW
for full details. eQSL.cc cards ARE accepted for our awards.

Vy 73 to you all - have a great December.

Pete Rayer
ISWL Life Vice President

iswl-vp@...-v (mailto:iswl-vp@...)
Hello folks,

I am still being asked about the validity of the "M6" callsigns.
(Plus the normal regional variations for Scotland,
Northern Ireland, Wales etc etc.)

These are the new Novice prefix allocations and have the same
operating status as the "M3" series of callsigns.

They are legitimate Novice stations, so please encourage them
to stay in the hobby.

Vy 73 to all and have a great weekend.

VK9DWX - Willis Island
2008 Operation

VU4RG - Andaman & Nicobar Island
2008 Operation

73 es DX!

Bill Moore NC1L
Awards Branch Manager
CQWW CW
Those who worked some TO callsigns in the last CQWW CW can find the country
from where thes stations were located on the ADXO archives at :
http://www.ng3k.com/Misc/cqc2008.html
The announced were :
TO2HI by F6AUS from les Saintes (NA114) in Guadeloupe (FG)
TO3R by RW3RN and other from La Réunion (FR)
TO4X, by K1XM and other, in Saint Martin (FS)
TO5X by K5UN, in Martinique(FM)
To those who used the Wintest software in the contest , mark them as :
TO2HI/FG
TO3R/FR
TO4X/FS
TO5/X/FM
in the callsign zone. Thus the correct country will be affected to the TO
callsign.

Forwarded with 73 by
Maurice, F5NQL
DX list organizer for the Union Francaise des Telegraphistes, UFT
(_www.uft.net_ (http://www.uft.net/))

APPRECIATION GIFT for GOLISTERS

    As we all are very well aware of, DX has been very

slow at best with no sun spot activity to help us out.

    Many of you have stayed faithful to the Golist during

these very bad DX activity periods sending in reports,

manager changes and just plain renewing you subscription.

    As a small token of my appreciation to each of you, I am

making a change to all RENEWALS during the year 2009.

Each RENEWAL made in 2009 will be for 15
months

instead of the normal 12 months. I hope that each of you

will find this satisfactory and will continue your support

of the Golist.

    I want to wish each of you a very Merry Christmas and

Happy New Year and all the best this Holiday Season has

to offer.

John K1XN at the GOLIST.

7877. THE HOLIDAY SEASON

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-08 14:34:05 UTC
From: K1XN
Topic: 7877 Message: 7877

Hi folks
??? As amateur radio operators. we are blessed with my toys
and the fellowship of others who share in our hobby.
??? This time of the year is also a time for each of us to share
our good tidings with others. I would like to encourage each
of you to give a Christmas gift with a needy girl or boy in your
local community. In my community the Salvation Army sponsors
an Angel Tree located in Wal Mart and at Lowes. This Christmas
tree has little Angel cards representing a girl or boy and their needs
and wants. Pick and Angel and purchase items from the needs and
wants for that child and return them to the store from which you got
the Angel and the Salvation Army delives your gifts to that child.
In some locations the Angel is an Angel Food tree, where you purchase
food for a child or family and the Salvation Army does the rest.
??? There are many ways you can bring joy and happiness to a child
and yourself at this time of the year.?

??? Touch the life of a child by giving a gift this Christmas.

??? Thanks to all of the subscribers of Golist,? I have been able to choose
several Angels this year. It is a very good feeling to know that several
needly children will have some new, warm clothes for our Winter season
and a small toy to play with.? THANKS TO ALL OF YOU.

7885. VE1AL LOST LOG

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-08 23:16:47 UTC
From: K1XN
Topic: 7885 Message: 7885

Due to my own stupidity, I have lost the DXbase log I keep from October 11, 2008 through December 1, 2008. While I don't necessarily want to have QSLs, I would like to try to rebuild the log information.

If it is possible, would those stations who worked me through that period please send me the log information including your call, the date and time of the QSO and the band on which we worked. I know it will be impossible to rebuild the log but any and all pertinent information would be appreciated.

Many thanks to all who might reply to VE1AL@...

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-09 21:37:11 UTC
From: K1XN
Topic: 7886 Message: 7886

Phil, G3SWH and Richard (Dick on CW), G3RWL will be active from Mayotte between February 26th and 5th March 2009.? Mayotte counts as AF-027 for IOTA purposes.? The 2003 "Most Wanted" survey by 425 DX News shows Mayotte at #121 for DXCC purposes.? We will both use the single callsign of FH/G3SWH.? Our activity will be mainly on CW on all bands 80-10 meters. Subject to QRN and site conditions, there may be some 160 metre CW activity.? Richard may also operate some RTTY and/or PSK31. Propagation permitting, we plan to have two stations on the air for as many hours every day as is possible. ?Our main objective is to work as many European, North American and ROTW stations on as many bands as possible.? QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's web site for a bureau reply or via the bureau. There is more information at www.g3swh.org.uk/mayotte.html (http://www.g3swh.org.uk/mayotte.html)

I.C.P.O. Bulletin (December 11 - 19, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

08/12/2008: Janusz, SP9YI is now QRV from the Henryk Arctowski Station (AA SP-01, WAP POL-01) on King George Island (AN-010, WLOTA LH-0312) with a new call sign HF0APAS for this years expedition. QSL via SP9YI. [GM3ITN]

11/12/2008: Aki, JA1KAJ will be active as E51QQQ from Rarotonga Island (OC-013), South Cook Islands, from December 11-17th. He plans to operate SSB and CW on 80-10 meters. QSL via home call, direct or bureau. [425 DX News]

12/12/2008: William, F1TZG, wil be active from Senegal as 6W/F1TZG between December 12-14th. Activity will be on ALL bands and 6 meters SSB only. He will use a TS870 and TS2000 (/w only 100w) into a beam for 20/15/10/6 meters and a vertical for the other bands. QSL only via his home callsign or the info on QRZ.com. [OPDX Bulletin]

12/12/2008: Bodo, DL3OCH will be active as KT3Q/4 from Key Biscayne Island (NA-141, USi FL-030S, WLOTA LH-1246), Dade County, Florida, from December 12-26th. He also plans to activate other IOTA's during his stay. IOTA's mentioned are NA-052, NA-062, NA-069 or NA-138. QRV 40-15 meter CW. QSL via home call, direct or bureau. [rsgbiota.org]

13/12/2008: The activity from the San Gabriel Island (SA-057) under the CX1F call sign, postponed the last month because of weather and sea conditions will finally take place on December 13th. QRV 80, 40,20, 15, 10 and 2 meters, propagation permitting. QSL LU stations: CX2FT- Adriana, calle Montevideo 1330, CP 1018, Baires, (SAE + $ 1,00 Argentino). QSL CX stations: BP 39073, Code Postal 70000 Colonia del Sacramento, Uruguay, (SAE + Uruguayan stamps). QSL, other countries: BP 39073, Code Postal 70000 Colonia del Sacramento, Uruguay, (SAE + 2 IRC). [LU5FF]

13/12/2008: Look for Curt, W3HQ to be active as KP4/W3HQ from Puerto Rico (NA-099, USi PR-006S, WLOTA LH-2802) during the ARRL 10 Meter Contest (December 13-14th) as a Single-Op/Low-Power entry. QSL via W3HQ, bureau preferred or via VK4AAR. [NG3K]

13/12/2008: Operators Marcio/PY1RJ, Felix/PY1JF and Valci/PU1VPM will be active on their 2nd Amigos de Migos de S?o Gon??lo Dxpedition to Morro do Pacheco (WW Loc. GG87MD), Brail, on December 13th, using the call sign ZX1SG. Frequencies - 3.720, 7.060, 14.220, 21.220, 28.420, 50.110 MHz SSB also 144.550 MHz FM and 144.240 MHz SSB. QSL via PY1RJ (QRZ.com). [PY1PDF]

15/12/2008: Operators Andrey/UA9XC, Leonid/UA9XF, Ilya/UA9XLC and Nick/UA9XTL will be active as RI1OTA from Solovetskiy Island (EU-066, RR-02-04, RDA AR-27, Oblast Arkhangelsk #113 [RA]) from December 15-19th. Look for activity on or near the usual island and IOTA frequencies. QSL via UA9XC, direct or bureau or e-mail request. [rsgbiota.org]

15/12/2008: Roland, F8EN will once again be back to Libreville, Gabon, from December 15, 2008 to January 26, 2009. Call signs will be TR50R until December 31st and starting January

1st he will use TR8CR. QRV mostly 40/30/20m. QSLs via F6AJA, direct or bureau. [F6AJA]

16/12/2008: Ed, CO7PH and possibily other operators will be active as T47C from Cayo Coco (NA-086), December 16-21st. QRV mainly CW with some SSB on 160-10 meters. QSL via W3HNK. [425 DX News]

17/12/2008: Dave "Kawe", W6ZL will be active as A35KL from Foa Island (OC-169), Tonga, between December 17th and 19th. Expect activity on all bands. QSL via W6ZL, direct only (QRZ.com) or via LoTW. [NG3K]

18/12/2008: Adam K2ARB will be QRV as KC4/K2ARB - CE9/K2ARB - VP8DKF from the ALE (Antarctic Logistics & Expeditions) base camp at Patriot Hills (IOTA AN-016, WABA MN-01, WAP MNB-02, WFF [World Flora Fauna] ANFF-013) and surrounding areas from December 18, 2008 to January 30, 2009 on CW, SSB and PSK31 when workload permits. Read an article by Adam about his operation in his blog at www.k2arb.blogspot.com/ . QSL via home call, direct only. [I1HYW]

18/12/2008: Peter, NO2R will be returning to Sihanoukville [a.k.a. Kampong Som], Cambodia on December 18th. He plans to be QRV as XU7ACY on 160-10 meters, using CW and SSB. Emphasis on 80 and 160 meters. No return date at this point in time. QSL via W2EN. [NG3K]
==========
LOOKING AHEAD -

04/01/2009: Paolo, IK2QPR will be active as HR9/IK2QPR from Roatan Island (NA-057, WLOTA LH-1671) from January 04-12th. Look for activity on all bands. QSL via home call. [NG3K]

22/01/2009: A large group of Radio Grupo Sur members will be on the air from Isla de Flores (SA-030, ARLHS URU-001, TWLHD WLH CX-001, WLOTA LH-0528, Admiralty G 0690, WW Loc. GF25AB), Uruguay, using CV5A call sign from January 22-26th working with monoband beam antennas for all bands. They will work all modes and there will be a dedicated RTTY-PSK31 station. QSL via CX2ABC. [EA5RM]

22/01/2009: CQD - RESCUE AT SEA BY WIRELESS - VARIOUS -
CQD, Jack Binns and the rescue at sea in 1909 Special Event 100th Anniversary January 22-24, 2009. For the 100th anniversary of the Republic-Florida collision, radio operators around the world will be at their Special Event Stations listening for special broadcasts and communications about Jack Binns and the Republic-Florida Collision! For a complete list of these events, go to: www.jackbinns.org/ and www.jackbinns.org/commemoration_news .

The Scunthorpe Steel Amateur Radio Club, Scunthorpe, UK, will be active for the Jack Binns event by signing GB5CQD on January 24th and January 25th. QSL via G0OKF, direct or bureau.

Also celebrating the Jack Binns event will be the The Lizard Marconi Wireless Station, The Lizard, Cornwall, UK, using the call sign GB100MSC from January 22-25th on 80m-10m CW and SSB. QSL via operators instructions.

The Chelmsford Amateur Radio Society, Chelmsford, UK, will be QRV for the entire months of January and February using the call sign GB0MWT, operating from the Sandford Mill. Marconi Hut Morse only for January 23-25th on all bands, SSB and Morse. QSL via the bureau to G0MWT.

The Marconi Radio Club W1AA of Massachusetts, USA, will take part in the Jack Binns special event with two stations by representing SS Republic (Callsign MKC) as W1AA/MKC and SS Baltic (Callsign BC) as W1AA/BC. The two stations plan to be on the amateur bands on

January 23 from 0001z to 0400z and on January 24 from 1200z to 2000z. Both SSB and CW modes will be used. QSL via W1AA (QRZ.com); DX can use the W1 Bureau. Website info at: www.anything-it.biz/roass/roars.html [K1VV]

24/01/2009: Operators Cal/WF5W, Mike/K5UO and Rob/HK3CW will be active from San Andres Island (NA-033) from January 24-30th, including an entry in the CQ WW 160 Meter DX Contest (January 24-25th). QSL via W5PF. [NG3K]

31/01/2009: Ghis, ON5NT will be active holiday-style from the Falkland Islands (SA-002) between January 31st and February 7th. He will be mostly active during his evening hours on 30 and 40m CW, running 100 Watts. QSL via ON5NT. [F6AJA]

16/02/2009: Walter, HB9BHY will be participating in the 6th Antarctic Activity Week (February 16-22nd) using the special call sign HE8ICE (WAP-81). HE8 is also special prefix issued to celebrate the 80th Anniversary of USKA, so HE8ICE for the AAW 2009, instead of the old previous HB9ICE. QSL via HB9BHY. The full list of callsigns already booked for the 6th AAW is available at WAP website, by clicking on the specific AAW banner, or at: http://www.waponline.it/Default.aspx?tabid=113 [I1HYW]

26/02/2009: Phil, G3SWH and Richard (Dick on CW), G3RWL will be active from the Hotel Trevani, Chimatso Bay, commune of Koungou, Grande Terre [aka Mahor?] island (DIFO FH-001, WW Loc. LH27OG), Mayotte (AF-027, WLOTA LH-0376) between February 26th and March 5th. They will both use the single call sign of FH/G3SWH. Activity will be mainly CW, on all bands 80-10 meters. Subject to QRN and site conditions, there may be some 160 meter CW activity. Richard may also operate some RTTY and/or PSK31. They plan to have two stations on the air for as many hours every day as is possible. Main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's web site for a bureau reply or via the bureau. Further information can be found at: www.g3swh.org.uk/mayotte.html [G3SWH]

==========

SPECIAL EVENTS -

01/12/2008: In 1834 - Belgium was 4 years old - circulated for the first time out of the United Kingdom a train tractor drawn by an engine with steam, run on iron rails rather close to those which we know today. This event had placed a railway line between the towns of Malignant and Brussels in Belgium. With this occasion, l' IBPT allotted the Belgium Railway Amateur Radio Club - BRARC (users.skynet.be/fb356606/brarc/brarc.html), Belgian section of the FIRAC (webplaza.pt.lu/firac/), the special call sign ON175BR, usable from December 1, 2008 to December 31, 2009. The QSO carried out with the station-club are valid for the 'diploma FIRAC' (webplaza.pt.lu/firac/award.html). QSL via operator's information. [UBA HF News]

11/12/2008: To celebrate the 60th foundation anniversary of A.R.I. section of Como, the special call sign II2COMO is active until 31st December 2008. QSL via IK2AQZ. [ARI Como]

12/12/2008: The Radio Club FG5KC Ile de la Guadeloupe invites you to take part on December 12th and 13th with them at the village of Science festival at University Campus. They are going to present a young ham their activity followed by demonstrations of HF / VHF / DIGITAL live that you will convey a message to its young from your place of issue. So they hope for your contacts and carry out this exchange with you via radio club FG5KC/P. [K1XN]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

US COUNTIES - USA-CA

Jeffrey, AF3X/m will activate the following US Counties between December 12th and 14th -

Friday December 12 - Leaving sometime after 1300z. TN: Knox, Anderson, Campbell. KY: Whitley, Laurel, Rockcastle, Madison, Fayette, Scott, Woodford, Franklin, Shelby, Jefferson. IN: Floyd, Harrison, Crawford, Perry, Spencer, (DuBois), Warrick, (Gibson), Vanderburgh, Posey. IL: White, (Edwards), (Wabash), (Hamilton), Wayne, Richland, Clay, (Jasper), (Cumberland), Effingham, (Fayette), Shelby, (Christian), Macon, Sangamon, Logan, Tazewell. If the band is still open and he is still getting contacts he will run some off-the-interstate counties between Tazwell and Rock Island, otherwise I-74 to Rock Island.

Saturday December 13 - Leaving as soon as the band starts to open. Jeffrey will attempt to run as much of this route as possible as weather/road conditions permit. If conditions get bad or the band closes down before he finishes he will go quickest route back to Illinois. Jeffrey needs to be back to Rock Island by about 0100z. IA: (Scott), Clinton, Jackson, Dubuque. IL: Jo Daviess. WI: Grant. IA: Jones, Delaware, Clayton, Allamakee, Fayette, Winneshiek. MN: Fillmore. IA: Howard, Mitchell, Floyd, Cerro Gordo, Franklin, Wright, Hamilton, Story?, Hardin, Grundy, Marshall, Tama, Powesheik. If band is still open he might run Mahaska, Keokuk, Washington, Louisa, Muscatine (and maybe even more). Otherwise I-80 back to Illinois.

Sunday December 14 - Leaving from Rock Island way early in the morning and taking I-74 To Tazwell. Leaving Tazewell by 1100z. He will be running 40 and 75 Meters to start the day. If he am not getting any contacts by Champaign he will stick to the quickest route until the band opens. IL: Tazewell, Woodford, McLean, Dewitt, Piatt, Champaign, Douglas, Edgar, Coles, Clark. IN: Route TBD. KY: Jefferson, Shelby, Franklin, Woodford, Scott, Fayette, Madison, Rockcastle, Laurel, Whitley. TN: Campbell, Anderson, Knox. QSL via home call. [County Hunter Web]

Bill, K2HVN/m will run the following US Counties "on the fly" between December 13th and 17th -

Saturday December 13 - FL: Volusia, Flagler, St. Johns, Nassau. GA: Camden, Glynn, McIntosh, Liberty, Bryan, Chatham. SC: Jasper, Beaufort, Colleton, Charleston, Berkely, Georgetown, Horry.

Sunday December 14 - SC: Horry. NC: Brunswick, New Hanover, Pender, Duplin, Sampson, Johnston, Wilson, Nash, Halifax, Northampton. VA: Greensville, Sussex, Prince George, Henrico, Hanover, Caroline, Spotsylvania, Stafford, Fauquier, Loudoun.

Tuesday December 16 - VA: Loudoun. MD: Frederick. PA: Adams, York, Cumberland, Dalphin, Lebanon, Northumberland, Schuylkill, Carbon, Luzerne, Lackawana, Wayne, Pike. NY: Orange.

Wednesday December 17 - NY: Orange, Ulster, Greene, Albany, Rensselaer. VT: Bennington, Windham, Windsor, Orange.

Bill's return trip to NH will be basically the same counties with the exception of Charleston, Berkeley, Georgetown-SC and counties after Loudoun-VA. He will be going a different way through PA and NY. QSL via home call. [County Hunter Web]
==========
SIX METERS & UP -

50 MHz allocated to amateur radio in Switzerland -
The Swiss authorities will allocate the 50 MHz band to amateur radio on a secondary basis by Jan 1, 2009. All Swiss and foreign CEPT class licensees may send with 100 watts PEP on 50-52 MHz without any antenna restrictions. Primary users may not be disturbed which includes the Ticino since there are still some TV stations active in the VHF band I in Northern Italy. [DX Newsletter]

==========
QSL INFO -

Due to my own stupidity, I have lost the DXbase log I keep from October 11, 2008 through December 1, 2008. While I don't necessarily want to have QSLs, I would like to try to rebuild the log information.

If it is possible, would those stations who worked me through that period please send me the log information including your call, the date and time of the QSO and the band on which we worked. I know it will be impossible to rebuild the log but any and all pertinent information would be appreciated.

I would also appreciate it if the DX bulletin editors could pick up this request and publish it in an upcoming issue.

Many thanks to all who might reply to VE1AL@...

73
Al, VE1AL

LU4DXU/mm: According to Horacio, all the qsl cards of LU4DXU/mm "Corbeta Uruguay" have been replyed and are on the way

==========
SILENT KEYS -

Joseph S. Raihshtain, RD4HF (ex: 4K6GF, UD6GF, UD6DLJ) of Samara, Russian Federation, became a Silent Key December 7, 2008 at the age of 80. Last year he was heavily sick, but each day, if he was not in the hospital, his voice sounded on the bands. To the last RD4HF participated in the round tables of Russian emergency network (PAC).
==========
BITS & PIECES -

THE REPUBLIC OF KOSOVO ENTERS A NEW PHASE AS OF DECEMBER 9, 2008

"EULEX will switch on and UNMIK will switch off", as EULEX's head put it today!

http://www.eulex-kosovo.eu

It was just a few days ago in the United Nations Security Council where the UN Secretary-General's fresh report on Kosovo highlighted the considerable progress made in Kosovo since its independence in February of this year. All Council members supported the decision by the Secretary-General to adapt the UN's role to this new, positive reality by accelerating the downsizing of the UN Mission in Kosovo (UNMIK) and the transfer of rule of law authorities to the European Union's mission, EULEX as of December 9, 2008.

There is no doubt in anyone's mind that the Republic of Kosovo, as it is called in UN terms, is there to stay as it is recognized by fifty-three UN member states today. Even those European countries not recognizing Kosovo because of their own minorities, voted unanimously to let the EULEX take over the next phase of the new country's development work. This is also another historical event where, for the first time, the European Union is working together and with the United States on a peace settlement issue.

This same day also signifies a wonderful occasion to the 2008 Nobel Peace Prize Laureate, Martti Ahtisaari, who acted as the UN Special Envoy for Kosovo and whose "peace roadmap" is now in implementation. Mr. Ahtisaari has served as mediator in many complex negotiations in which there is no standard outcome. Kosovo's road to independence marks a unique case in which the only winners are the people of Kosovo. We all salute Mr. Ahtisaari for his mission under complicated circumstances and congratulate him on winning the Nobel Peace Prize which he will receive on this same day. Amateur Radio operators are grateful to Mr. Ahtisaari for his support of Amateur Radio Mission Goodwill Kosovo currently under implementation in Kosovo.

A special postage stamp is issued in Finland on December 10 in Mr. Ahtisaari's honor, and the next 1000 direct QSL envelopes released by OH2BH/OH2BN/OH2TA/OH2UA for YU8/OH2R, CN2B, CU2X, FJ/OH2AM, OH0X, OH8X, OJ0B, TC4X will bear that stamp.

http://www.stampnews.com/stamps/stamps_2008/stamp_1225051444_791911.html [Martti Laine, OH2BH]

CE9 - ANTARCTICA: Nicolas F4EGX/FT5YI continues to try to be active during his nights on Saturday on 14270 +/- between 15z to 16z. He will stop his activity on the middle of

december when the boat 'Astrolabe' will be there. He don't know if Christmas will be in FT5Y or on the boat. He will be if France around new year. [F6AJA]

KP2 - US VIRGIN ISLANDS: Masumi, JA3AVO (FISTS member #15029) will be QRV holiday-style from the U.S. Virgin Islands (NA-106) between January 17 and January 22, 2009. Look for him on the bands signing KP2/JA3AVO. QSL via home call.

PA - NETHERLANDS: PA6FUN QRV from Schiermonnikoog Island (IOTA EU-038, WW Loc. JO33BL) the smalest from a series of 5 islands in the northern Dutch island group called the "Wadden Eilanden". The Population is only 965 native inhabitants and a surface of 40 square km. Aim wil be to work as much stations during this period Activating the island for DX. QRV meteorscatter during Quadrantids! [MMMonVHF]

VK - AUSTRALIA: A special event station VI2BV90 will be active from the 24th of January 2009 until 1st of February 2009 to celebrate the 90th Anniversary of Waverley Amateur Radio Society in Sydney, Australia. The operating schedule is being discussed and once it is finalised, it will be updated on the club's website http://www.vk2bv.org/ [VK2BNG]

They're at it again!!!!
Just a last minute reminder that the 3 Steve's (Steve-KF2TI, Steve-N2IFA, Steve-KB2ENF and Kurt-W2MW, aka Steve), along with those two laughing young men, Andrew-N2IFB and Eric-K2EMZ will be guest op'ing at the ARRL station, W1AW, Tuesday December 30, from 1700 - 2045 UTC.
This is their 16th annual WAS DX-pedition to Newington and they will be operating the following bands:
30M CW (Kurt aka Steve) 15, 20 and 40M SSB (Steve, Steve and Steve) Andrew-N2IFB and Eric-K2EMZ will also be operating as "Steves" on 10 and 17M and possibly 80M.
Hopefully condx will improve and they will try to listen for outside the US.
Packet spots will be posted.
If you work any 3 operators, they will send you a beautiful, full color WAS (Worked All Steve's) certificate (suitable for framing). No QSL is needed, as they will have copies of the log and send out a certificate to all those who qualify. QSL cards to them are not necessary for the WAS. If you want a W1AW QSL Card, please send to them direct or via the bureau.
The logs will be posted (hopefully) after January 1st on their website:
http://the3stevesarc.org/
This is not an officially sanctioned ARRL event. It is run for fun by the 3 Steves Amateur Radio Association (TSARC) - WK3SS (all rights reserved) and they are responsible for the printing and sending of the Worked All Steve's certificate (suitable for framing).
They would like to thank the ARRL for allowing them to play with their great toys and putting up with them each year. The team hopes to work you then. [Steve-KF2TI]

From the CQ Newsroom...

Canadian time/frequency standard station CHU -- a fixture for decades on 7335 kHz -- will change frequency to 7850 kHz at 0000 UTC on January 1, 2009. The move comes as a result of the International Telecommunication Union's decision in 2007 to expand the 40-meter ham band in Europe and Africa (Region I) to 7000-7200 kHz. It was previously 7000-7100 kHz, with -- as every 40-meter DXer knows -- international broadcasting allocated from 7100-7300 kHz.

As part of the 40-meter expansion, the international broadcast band was shifted to 7200-7350 kHz. As broadcasters began relocating, CHU on 7335 began experiencing

significant interference. Thus, officials at Canada's National Research Council, which operates CHU, decided to move the time/frequency standard station's transmissions to 7850 kHz as of the beginning of 2009. The complete NRC announcement (English version) is online at
http://inms-ienm.nrc-cnrc.gc.ca/common_files/stories/chu/communique_e.pdf

Ho friends

Some news from Adelie Land
Friday, Dec 12th, 2008.
Hi on Dec 11th, more than 200 QSO's logged and with a lot of new countries.
Wonderful propagation.
New : I've tryied 7MHz at the beginning of the evening around 11h30 utc.
I was a little more longer at the station from 7H05 utc until 8H50
utc,wgich is not in the habits for at 08h30 it's usually time for changing clothes
and dinner.
I was anew on the bands after dinner at 10h40 utc; only one QSO then QSY on
7MHz
until 12H20 utc.
After a little stop, nobody more on the bands. I returned on the bands for a
non stop activity between 14H10 utc on 14MHz, until 18H44 utc.

As it's often happen some there were some tactless statrions; some I, EA and
one F, made me asking to repeat and repeat the callsign of my current
orrepondant. Many other call me only seeing the cluster even if they don't hear
something of me – those will never be logged -.
At the end of the vacation, when leaving the station, I enjoyed very much to
cross on the inter-buildings gangways the path of the first Dumont D'Urville
base inhabitants at the end of their hibernation . Marvellous show for me
.
This week end will be the last from DD'Urville . Same hours and frequencies.
On Dec 19th I'll will QRT from FT5YI.

Amicalement
Nicolas
Tks Jean Michel, F6AJA

GUADELOUPE, remaining:

Bonjour, 73's
THE RADIO CLUB FG5KC A.C.R.A GUADELOUPE

Will be active today, 12 and 13 December 2008 for the Festival of
Science in Guadeloupe
to be held at the Campus of the University of Fouillole Guadeloupe.
We were going to present the different mode of transmission ham directly
with young students on campus
the frequencies to be used are: 20m 15m 40m (SSB LSB CW), see Digital mode.
We hope to make an exchange through different QSO with youth and amateur
radio operators around the world, then OM's expensive XYL your microphone.

News of the President of RC FG5KC (FG1JD jules)

TONGA, A3. Kawe, W6ZL as A35KL is expected from Foa, IOTA
OC-169, between Dec 17 to 19th. QSL via home call.
RUSSIA- IOTA:
UA9XC, UA9XF, UA9XLC and UA9XTL as RI1OTA from Solovetskiy, IOTA EU-066,
between Dec 15th to 19th. QSL via UA9XC.
BURKINA FASO,
David, XT2MSF had been QSO'd in PSK on 20 and 30 in the evening between
2130 and 2300 utc.
QSL via Flo/F5CWU.
Tks ARRL DX News

URUGUAY:
A large group of Radio Grupo Sur members will be on the air from Flores
Island, SA-030, using CV5A callsing from January 22th to 26th working with
monoband beam antennas for all bands. They'll work all modes and there will be a
dedicated RTTY-PSK31 station.
QSL via CX2ABC.

73! de EA5RM

Tks Toni, EA5RM.

ITALY special event :
For the 60th anniversary of the Como division of the ARI division of Como,
look for the special callsign II2COMO , until December 2008. 31st QSL via
IK2AQZ.
Tks Dave, VA3RJ.

IRAK :
WB4ZLT is YI9ZLT until next February. John is assigned at the
Liberty/Victory camp.
No more information provided.

Nouvelles de Terre Adélie :
Vendredi 12 Dec 2008, :

Bonjour,

200 QSO et des vélos effectué le 11 décembre. Et pleins de nouveaux Pays.
La propag. a été magnifique.
Avec une nouveauté: un peu de trafic sur 7MHz, pour le début de ma soirée vers 11H30 TU.
L'activation a été plus longue que d'habitude:
Le trafic a commencé à la fin de l'après midi à 7H05 TU jusqu'à 8H50 TU (exceptionnel, d'habitude j'arrête à 8H30, pour avoir le temps de me changer et prendre le repas).
Reprise après le souper, à 10H40 TU, un contact, puis QSY sur 7MHz jusqu'à 12H20 TU.
Petite pause, plus rien sur les ondes.
Puis activité non-stop, toute la nuit (même s'il fait jour dehors!) de 14H10 TU sur 14MHz, jusqu'à 18H44 TU.

Quelques stations indisciplinées I, EA et un F, m'ont obligé de faire répéter plusieurs fois certains correspondants, ou qui appellent sans m'entendre.
Ces stations, sans savoir vivre et sans esprit OM, qui appellent sans écouter ou m'entendre ne doivent pas espérer figurer dans le log. J'avoue je me suis énervé une fois (la fatigue de la nuit blanche ne doit pas arranger ça, ce n'est pas dans mes habitudes!) et je pense que beaucoup m'ont entendu dire un anglais approximatif sur le moment (ça a du être comique, non?)...
Sinon tout va pour le mieux, très content de cette activation.

Et aussi très content de croiser, sur les passerelles inter-bâtiments à la fin de l'activation (5h00 du matin, 19H TU), les premiers hivernants de Dumont D'Urville sortant de leur tendre sommeil, c'est assez rare pour ma part...

Bon et bien, on recommence samedi, même fréquence même heure non?
ça sera le dernier Week-end d'activation... le 19 décembre ça sera le QRT de FT5YI.

Amicalement
Nicolas
Merci Jean Michel, F6AJA

GUADELOUPE Rappel :
Bonjour, 73's
LE RADIO CLUB FG5KC A.C.R.A GUADELOUPE

Sera actif aujourd'hui 12 et le 13 décembre 2008 pour la Fête de la science en Guadeloupe
qui se déroulera au Campus de l'Université de Fouillole Guadeloupe.
Nous allions présenter les différentes mode de transmission radioamateur en direct avec les jeunes étudiantes du campus
les Fréquences qui sera utiliser sont: 20m 15m 40m (SSB LSB CW) , voire les mode Digitaux.
Nous espérons pouvoir faire une échange via différente QSO avec les jeunes et les radioamateurs du monde entier, alors cher OM's XYL à vos micro.

News du Président du RC FG5KC (FG1JD jules)
Merci Jules.

TONGA, A3. Kawe, W6ZL sous indicatif A35KL depuis Foa, IOTA OC-169, espéré entre le 17 et le 19 décembre. QSL via home call.
RUSSIE- IOTA:
UA9XC, UA9XF, UA9XLC et UA9XTL sous indicatif RI1OTA depuis Solovetskiy, IOTA EU-066, du 15 au 19 décembre . QSL via UA9XC.
BURKINA FASO,
David, XT2MSF a été entendu en PSK sur 20 et 30 le soir entre 2130 et 2300 utc.
QSL via Flo/F5CWU.

7892. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-12 14:25:04 UTC
From: K1XN
Topic: 5889 Message: 7892

The DECEMBER 2008 Issue #812-C files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

Jennifer,
It went in the mail Thursday and it will take about
7 working days normal and this is Christmas time with
much more mail in the system. It could take some 10 days
or more. I am sure you will get it soon. I have not heard
from anyone yet so the mail is moving slowly.

Hi friends
News from Adelie Land :
The Astrolabe left Tasmania on Dec 13th.
Each of us can follow its route on google earth, thanks a file available on the Paul Emile Victor stitute web page, Astrolabe articles :
_http://www.institut-polaire.fr/ipev/infrastructures_et_moyens/l_astrolabe_ (http://www.institut-polaire.fr/ipev/infrastructures_et_moyens/l_astrolabe)
The last activity to Europe will happen on Tuesday Dec 16th ; we are all hoping some good propagation.
In the opposite as I did on last Saturday, I'll stop early, if th e signals couldn't cross the Ocean .
Thanks to inform me if you can about the sunspots.
If they are too low it will not suitable to contin ue. In such a case 'll will not be active and i'l have some more sleeping hours.
As the ship arrival is scheduled on Dec 19th, the FT5YI 's final stop will happen on Dec 18th at 0800 utc.

Nicolas
Tks Jean-Michel, F6AJA

A5100A
Hi friends
The A5100A logbook is now online at : _www.f5lmj.net/a5100a.htm_ (http://www.f5lmj.net/a5100a.htm)

The web page had been updated and you'll find in :
- The activity synthesis with some pictures:
- Some QSO's recorded by F8BBL and LA8AJA ;Our 20h00 interview on the National Buthanese Brodcast station is available too.
- Our daily messages and pictures send whilst our stay.
- A special page about our scholls project and the Ogyen-Cholling village
- And our Guestbook still open.
-
And an other big thank to all of you – Clubs, Associations and individuals - who sponsord or supported our Dxpedition.
.

73's de l'équipe A5100A
Tks Jean-Michel F6AJA.

Bonjour à tous

Quelques nouvelles de Nicolas F4EGX/FT5YI.

L'Atrolabe a quitté la Tasmanie le 13 décembre.
On peut le suivre sur google earth, grâce à un fichier disponible sur le site de l'IPEV (rubrique bateau) - _http://www.institut-polaire.fr/ipev/infrastructures_et_moyens/l_astrolabe_ (http://www.institut-polaire.fr/ipev/infrastructures_et_moyens/l_astrolabe)

La dernière activation pour l'Europe se fera Mardi 16 décembre, en espérant que la propagation soit là. Contrairement à samedi, je couperai plus tôt si ça ne passe pas. merci de me donner des nouvelles du sunspot. S'il est trop bas ça ne servira à rien: je n'activerai pas et ça me fera gagner du sommeil.

Comme le bateau est prévu le 19 décembre, l'arrêt définitif des émissions FT5YI se fera le 18 décembre, 8H TU.

73
Nicolas
Merci Jean-Michel, F6AJA

A5100A
Bonjour à tous

Le log de A5100A est maintenant en ligne sur _www.f5lmj.net/a5100a.htm_ (http://www.f5lmj.net/a5100a.htm)

La page web a également été actualisée, vous y trouverez :
- Une synthèse de notre activité avec quelques photos
- Quelques QSO enregistrés (merci à F8BBL et LA8AJA) ainsi que notre passage au 20h de la télé nationale
- Le rappel des messages quotidiens et des photos adressées durant notre séjour
- Les spots cluster tels qu'ils ont été relevés
- Une page spécial sur notre projet pour les écoles et le village de Ogyen-Cholling
- Ainsi que le livre d'or qui reste ouvert

Encore merci à tous, clubs, associations et individuels pour l'aide apportée à ce projet.

73's de l'équipe A5100A
Merci Jean-Michel, F6AJA

Hi friends

To day from Nicolas:

Today, Monday, I'll try to be active at various hours in the day, mainly
around 2300 UTC, 0300 UTC, 1030UTC

QRG : 14,267 et 7,090 +-QRM according to the bands conditions.

Americans have to listen, I think one of theses times will be good for them.

On Tuesday last activity from Dumont d'Urville base, especially for Europe
around 1500 UTC, but if there is a good propagation, I'll will be on the bands
very early and very later.
73
Nicolas, FT5YI

MEMBERS OF THE OLD BARNEY AMATEUR RADIO CLUB ?www.obarc.org (http://www.obarc.org) WILL BE OPERATING AS N2OB/150 (or N2OB/LH) STARTING AT 0000 UTC DEC 27, 2008 THROUGH 2359 UTC JAN 4, 2009. OPERATION WILL BE ON ALL BANDS AND MODES AVAILABLE. THIS WILL BE TO CELEBRATE THE RELIGHTING AND THE 150TH ANNIVERSARY OF THE BARNEGAT LIGHTHOUSE (NICKNAMED “OLD BARNEY”). YES, “OLD BARNEY” WILL OFFICIALLY BE RELIT ON JANUARY 1, 2009 , WHICH IS THE 150TH ANNIVERSARY OF IT’S ORIGINAL LIGHTING (JAN 1, 1859). THE LIGHTHOUSE WAS OFFICIALLY SHUT DOWN IN 1944 AND BECAME A STATE PARK IN 1957. SINCE THAT TIME, ONLY A 250 WATT LIGHT WAS LIT FOR AESTHETICS ONLY. ON JAN 1ST, A NEW LIGHT WITH A NEW FRESNEL LENS WILL BE LIGHTED AND OLD BARNEY WILL ONCE AGAIN BE AN OFFICIAL (PRIVATE) NAVIGATIONAL AID. See ?http://www.southjersey.com/articles/?articleid=19695 for info on the relighting. ?N2OB/150 STATIONS WILL BE OPERATING FROM VARIOUS LOCATIONS AROUND “OCEAN COUNTY”. SOME OPERATIONS FROM THE LIGHTHOUSE PROPERTY MAY BE POSSIBLE AND WILL USE N2OB/LH WHICH WILL COUNT FOR WORKING THE LIGHTHOUSE AND IOTA NA-111. A NICE COLOR PHOTO QSL IS BEING PLANNED SHOWING THE RELIGHTING OF THE LIGHTHOUSE. QSL VIA N2OB (SASE REQUESTED) OR VIA BUREAU IS OK.

John, having some problems with mailman down here, rather indifferent about putting another person's mail in another mail box saying I'm just a Sub for the Reg!!!!! I'm concern about not getting it about now! I know you said Friday, but you got the check in three days! Please hold on to one for me, in case! They say three things happen to you, You are born, you live, you DIE, with me You are born, then you DIE!! :-(:-(The Law enforcement people don't care either! The only reliable form of getting something is Fed EX, no UPS. It's going to be a dark Christmas again, in addtion not being on the Air!!! What a LIFE, if you can call it that! :-(:-(:-(:-(:-(

7919. ICPO Bulletin (December 18-26, 2008)

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-18 21:40:13 UTC
From: VA3RJ News
Topic: 7919 Message: 7919

I.C.P.O. Bulletin (December 18 - 26, 2008)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

18/12/2008: Hans, DF5UG is working in CW and SSB signing 9M2QQ from Port Dickson, West Malaysia, these days. He works with 100 watts and a 3ele yagi and a TS-50. Hans is listening especially for Europe on 20m around 1400 UTC. Hans is going to celebrate his Christmas in 9M6 (Kota Kinabalu, Sabah, East Malaysia IOTA OC-088, WLOTA LH-0119) and the turn of the year in 9M8 being the guest of 9M8DB located in Miri, Sarawak, East Malaysia (OC-088, LH-0119). QSLs cards for all his calls 9M2QQ, 9M6QQ and 9M8QQ should be sent via bureau to DF5UG. [DX Newsletter]

18/12/2008: Adam K2ARB will be QRV as KC4/K2ARB - CE9/K2ARB - VP8DKF from the ALE (Antarctic Logistics & Expeditions) base camp at Patriot Hills (IOTA AN-016, WABA MN-01, WAP MNB-02, WFF [World Flora Fauna] ANFF-013) and surrounding areas from December 18, 2008 to January 30, 2009 on CW, SSB and PSK31 when workload permits. Read an article by Adam about his operation in his blog at www.k2arb.blogspot.com/ . QSL via home call, direct only. [I1HYW]

19/12/2008: Toshi, T31DX is now going to Kiritimati [Christmas] Island (OC-024), East Kiribati, where he should arrive around December 19-20 and be active as T32YY for 5-7 days. QSL direct to JA8BMK. [425 DX News]

20/12/2008: Ron/WB3AAL, Jim/KA3UNQ, Stan/N2US will be active as homecall/p during the ARLHS Lighthouse Christmas Lights yearly event from the Turkey Point, Maryland, lighthouse (ARLHS USA-857). QRV all bands and modes. QSL to the station worked with SASE or via the Bureau. (N2US also LOTW). [ARLHS]

20/12/2008: There will be a series of Lighthouse activations by TCSWAT during the following five months from the historical lighthouses around Istanbul / Republic of Turkiye. In collaboration with the Directorate General of Coastal Safety, TCSWAT is organising the "Istanbul Lighthouses On The Air" activity, which will take place from Karaburun (TUR 036), Sile (TUR 046), Anadolu (TUR 014), Ahirkapi (TUR 056), Rumeli/Turkeli (TUR 053), and Fenerbahce (TUR 021). Lighthouses as of last two weekends of December 2008. The dates, locations and call signs are as follows: 1) 20-21 & 27-28 December 2008 Karaburun Lighthouse TUR 036 / TC1KLH; 2) 17-18 January 2009 Sile Lighthouse TUR 046 / TC2SLH; 3) 24-25 January 2009 Anadolu Lighthouse TUR 014 / TC2ALH; 4) 21-22 February 2009 Ahirkap? Burnu Lighthouse TUR 056 / TC1ALH; 5) 21-22 March 2009 Rumeli/Turkeli Lighthouse TUR 053 / TC1RLH; 6) 4-5 April 2009 Fenerbah?e Lighthouse TUR 021 / TC2FLH. Stations contacting four or more of the lighthouses will recieve "Istanbul Lighthouses On The Air Award". Details will be later announced on the website: ta0u.com/ and tcswat.tripod.com/ More lighthouses will be activated in the future by TCSWAT. The lighthouse TCSWAT team will be: Urcun/TA0U, Leonardo/TA1FR, Mert/TA1ST, Tevfik/TA1HZ, Erhan/TA2DJ, Bekir/TA2RX, Mehmet/TB1J and Onur/TB2MYE. Please do not hesitate to contact us for more information...73! de TCSWAT / TA0U. [Pete's-DX-Newsdesk]

20/12/2008: Peter, NO2R will be active again as XU7ACY from Sihanoukville [aka Kampong Som], Cambodia, starting around 20 December for about 6 weeks. He will concentrate on 40, 80 and 160 meters. He also hopes to join up with Wim, XU7TZG (XU7KOH) for an activity from Koh Russei (Bamboo Island, AS-133). QSL XU7ACY via W2EN and QSL XU7KOH via ON7PP. [425 DX News]

22/12/2008: Frank, I2DMI will be visiting Bhutan and Nepal between late December and early January. He will operate RTTY only as A52RY from Thimphu, Bhutan, December 22-31st, probably between 01-03 UTC and 12-19 UTC on a daily basis. Suggested frequencies are 3582, 7040, 10142, 14082, 18102, 21082, 24922 and 28082 kHz. He will then be in Nepal until 5 January. He plans to operate 9N7DMI or 9N7RY (call sign to be confirmed upon arrival) on the same frequencies and at the same times. QSL via home call, direct or bureau. The logs will be uploaded to LoTW. [425 DX News]

24/12/2008: Nao, NY6X plans to be active as KP2/NY6X from the KP2M Radio Reef QTH on St. Croix Island (USi VI-002S, WLOTA LH-2477, WW Loc. FK77PR), US Virgin Islands (NA-106), from December 3-9th. There is a strong possibility that he will enter the Stew Perry Topband Challenge (December 27-28th). QSL via home call. [Radio Reef Web]

26/12/2008: Look for Mike, CT1IUA to be active December 26-31st as homecall/p from the Serra da Malcata Natural Reserve (DPRN reference FF-23 for the Diploma of Natural Parks and Reserves, WFF reference CTFF-023). QSL via home call, direct or by the bureau. [DPRN]

26/12/2008: Operators Toze/CT1GFK and Mike/CT1IUA will be QRV as CT7FFE from the Natural Park da Serra da Estrela (DPRN FF-08, WWF CTFF-008), December 26-27th. QSL via CT1IUA, direct or bureau. All information about DPRN can be find at: dprn.no.sapo.pt/dprn_eng.htm [CT1GFK]

26/12/2008: Jouni/OH4KZM and Jukka/OH4MFA will be active as OH4JT/1 from Kustavi Island (EU-096), December 26-30th, including a Multi-Op entry in the Stew-Perry Topband Challenge. QRV 160-10m, mainly CW. QSL via OH4MFA, direct or bureau. Further information can be found at: personal.inet.fi/surf/oh4mfa/oh4jt-1.htm [rsgbiota.org]

26/12/2008: An official amateur call sign OP0LE is assigned to Princess Elizabeth base (IOTA AN-016, 71?57'S and 23?20'E). Paul, ON3PC will be operating from the base between December 26, 2008 and February 15, 2009. He will be working at the base as a plumber boiler-mechanic and he will be in charge of the communications in supplement. He never made any qso on amateur radio frequencies and he should appear mostly at the begining on the Antarctic DX Net that is managed on 14MHz and 7MHz. After 40 years of silence, Belgium is back on air from Antarctica. [F5PFP]

26/12/2008: Larry, WO0Z will be active holiday-style as PJ4/WO0Z from the island of Bonaire (SA-006, WLOTA LH-1279) between December 26, 2008 and January 4, 2009. He will focus on 30 and 17 meters, using all modes. QSL via WO0Z (whiskey oscar zero zulu). [NG3K]

26/12/2008: Phil, F4EGS will be active from Abidjan, Ivory Coast, using the call sign TU8/F4EYS from December 26, 2008 to February 28, 2009. QRV on all bands, with focus on 160 and 80 meters, using CW and RTTY. QSL via F4EGS, direct or bureau. [NG3K]
==========
LOOKING AHEAD -

01/01/2009: Special Canadian prefixes will be used from January 1st to February 28th to commemorate Galileo's 400th year of using an optical instrument to study our universe and

the discoveries he made during that period. This event is know as the International Year of Astronomy. Further information on this ham radio related initiative can be found at: www.hamiya2009.info . The use of a Special Event Prefix call sign has been approved by Industry Canada and can be used by all Canadian Amateurs. It commemorates Galileo's first use of an optical telescope and the subsequent discoveries he made in his lifetime. Starting January 1st until February 28th 2009 all Canadian amateur radio operators may use the special prefix as follows: VE changes to CG; VA changes to CF; VO changes to CH; and VY changes to CI. For example - VE7DAO = CG7DAO, VA3DAO = CF3DAO. It will certainly attract hams from around the world to call and find out what the new callsign is and will promote the International Year of Astronomy. [VE7DAO]

01/01/2009: Darin, VE3OIJ will use the special event call sign CG3OIJ from January 1 until February 28th to celebrate the International Year of Astronomy. Look for him to be active on 80m to 70cm (WW Loc. FN25EJ). QSL via VE3OIJ, direct (P. Darin Cowan, 674 Southmore Dr. W, Ottawa, ON K1V 7A1, Canada) via the bureau or eQSL. Further information at www.squidzone.ca/ve3oij [VE3OIJ]

01/01/2009: Paul, VE9NC will be activating the special event call sign CG9NC between January 1st through February 28th to celebrate the International Year of Astronomy from Hampton, New Brunswick. He will be active mainly on 20 meters on the Digital modes throughout this period. QSL via VE9NC. [RAC]

05/01/2009: Joe, W4ONC will be active as homecall/p from the Currituck lighthouse (ARLHS USA-212, Admiralty J2384), Outer Banks, North Carolina on January 5th and 6th. QRV 40 and 20 meter SSB. QSL via home call. [ARLHS]

20/01/2009: Nobi, JA1JCF will be active as homecall/p from the Tsumeki [Tumeki] Saki Lighthouse (ARLHS JAP-690, JP-2441, Admiralty F 6296), Shizuoka prefecture, Honshu Island (AS-007, JIIA AS-007-001, WLOTA LH-2376) on January 20th and 21st. QSL via home call, direct or bureau. [ARLHS]

23/01/2009: Ray, WQ7R will be active as HQ9R from Roatan Island (NA-057, WLOTA LH-1671), Honduras, during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/High-Power entry. QSL via K5WW. [NG3K]

03/02/2009: Sigi, DL7DF and his XYL Sabine will be on holiday in Zanzibar (AF-032, also count for WLOTA LH-1080) from February 3-13th. QRV as 5H1DF on 160-10 meters using CW, SSB, RTTY and SSTV as often as possible. Equipment consists of a transceiver, a linear TY900, a 18m Lowband Vertical, a Vertical R7 as well as a laptop computer. The QSL-Route is via DL7DF either direct (Sigi Presch, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany) or via the German DARC QSL bureau to DL7DF. Further information at: www.dl7df.com/5h/index.html [NG3K & DL7DF]

08/06/2009: DX PLUS is a Greek ham team and every year they visit a rocky islet, for about 10 days. Look for the special call SX5LA to be active from Levitha islet (GIOTA DKS-050, MIA MGD-019, WLOTA LH-0846), Dodecanese (EU-001), from June 8-14th. QSL via SV1GRM. Further details will be available closer to the activation date. [SV1GRM]
==========
SPECIAL EVENTS -

20/12/2008: II2IGTO will be active from the submarine "Toti" at the National Museum of Science and Technology in Milan on December 20th and 21st for the International Naval Contest. QSL via IQ2MI, direct or bureau. [425 DX News]

20/12/2008: Special event station 8J6HAM will be aired December 20, 2008 until March 8, 2009 for the 8th Nishinihon (or West Japan) Ham Fair. QSL HF contacts via the JARL bureau; QSL satellite contacts via JA6PL, direct or bureau. [JJ1WTL/AC6IM]

21/12/2008: This year and for the 5th time, the French Crew composed of Sebastien Loeb and Daniel Elena won the World Rally Championship. To celebrate the event a Ham team from the French Saone et loire Department/71, will be airing the special call sign TM5WRC from December 21, 2008 to January 3, 2009. QRV HF and VHF included AO51 satellite, using CW, SSB, RTTY, PSK, SSTV and FM. Operators mentioned are Jean Pierre/F0EWK, Denis/F1PUX, Gerard/F1RUK, Roger/F4ELU, Didier/F5NZO, Pascal/F5RZJ, Jean/F6EZF and Francois/F8DVD. QSL via F4ELU, direct (Envelope SA + 1 IRC or 2$ US) or via bureau. More information on the special event web page at: f4elu.free.fr/tm5wrc/index.html [F5NZO]

21/12/2008: Andre, HB9HLM will visit Morocco from December 21, 2008 to January 31, 2009 and will be QRV as CN89NY from the CN2DX Beach House, Dar Bouazza, Morocco. This special call sign is allocated specifically for the holiday season, (8 for 2008 and 9 for 2009, NY for New Year). He will be QRV from the Beach House with CN8PA and CN2CV allies HB9CVC and will operate 2 stations at the same time: IC7000 and TS680 with PA AL811hcxe, Windom antenna 160 to 10m extension with 30 and headed 15m East-West G5RV antenna then 40 to 10m run north-south. QSL via EA7FTR. Further information can be found under CN89NY on QRZ.com. [F5NQL]

22/12/2008: Special event station GB5ONG will be active between 22 December and 4 January to commemorate the 50th Anniversary of the Nos Galan Races held on New Year's Eve each year at Mountain Ash near Aberdare, South Wales. They will be active on 160, 80, 40 and 20m SSB and possibly PSK31, RTTY and CW. There will also be a talk in frequency of 145.400MHz available for any visitors. Operating times/schedules will be available nearer the date on www.qrz.com. QSL via MW6VHF, direct or bureau. Further details available at www.nosgalan.co.uk/ [GB2RS]

24/12/2008: Planned transmissions are also scheduled for Wednesday 24th December 2008 at 08.00UTC and 08.15 UTC. The frequency is 17.2 kHz CW. Running up an tuning of the transmitter begins about 07.30 UTC. More info at: www.alexander.n.se/ [UBA HF News]

26/12/2008: Terry, GM3WUX will be active as GB2HLB between December 26th and January 22nd. Activity is to celebrate the bicentenary of the birth of Louis Braille. Each QSO will receive a special QSL card depicting Braille and raising awareness of the Royal National Institute of Blind People (RNIB). A fund raising page for RNIB can be found at: www.justgiving.com/louisbraille [OPDX Bulletin]

26/12/2008: Members of the Old Barney Amateur Radio Club (www.obarc.org/) will be operating as N2OB/150 (or N2OB/LH) starting at 0000 UTC December 27, 2008 through 2359 UTC January 4, 2009. Operation will be on all bands and modes available. This will be to celebrate the relighting and the 150th anniversary of the Barnegat lighthouse (nicknamed "Old Barney"). Yes, "Old Barney" will officially be relit on January 1, 2009, which is the 150th anniversary of it's original lighting (January 1, 1859). The lighthouse was officially shut down in 1944 and became a State Park in 1957. Since that time, only a 250 watt light was lit for aesthetics only. On January 1st, a new light with a new fresnel lens will be lighted and Old Barney will once again be an official (private) navigational aid. See www.southjersey.com/articles/?articleid=19695 for info on the relighting. N2OB/150 stations will be operating from various locations around "Ocean County". Some operations from the lighthouse property may be possible and will use N2OB/LH which will count for working the lighthouse and IOTA NA-111. A nice colour photo QSL is being planned showing

the relighting of the lighthouse. QSL via N2OB (SASE requested) or via bureau is ok. [N2OO]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html
==========
LIGHTHOUSE CALENDAR -

There will be a series of Lighthouse activations by TCSWAT during the following five months from the historical lighthouses around Istanbul / Republic of Turkiye. In collaboration with the Directorate General of Coastal Safety, TCSWAT is organising the "Istanbul Lighthouses On The Air" activity, which will take place from Karaburun (TUR 036), Sile (TUR 046), Anadolu (TUR 014), Ahirkapi (TUR 056), Rumeli/Turkeli (TUR 053), and Fenerbahce (TUR 021). Lighthouses as of last two weekends of December 2008.
The dates, locations and callsigns are as follows: 1) 20-21 & 27-28 December 2008 Karaburun Lighthouse TUR 036 / TC1KLH; 2) 17-18 January 2009 Sile Lighthouse TUR 046 / TC2SLH; 3) 24-25 January 2009 Anadolu Lighthouse TUR 014 / TC2ALH; 4) 21-22 February 2009 Ahirkap? Burnu Lighthouse TUR 056 / TC1ALH; 5) 21-22 March 2009 Rumeli/Turkeli Lighthouse TUR 053 / TC1RLH; 6) 4-5 April 2009 Fenerbah?e Lighthouse TUR 021 / TC2FLH.
Stations contacting four or more of the lighthouses will recieve "Istanbul Lighthouses On The Air Award". Details will be later announced on the website: ta0u.com/ and tcswat.tripod.com/
More lighthouses will be activated in the future by TCSWAT. The lighthouse TCSWAT team will be: Urcun/TA0U, Leonardo/TA1FR, Mert/TA1ST, Tevfik/TA1HZ, Erhan/TA2DJ, Bekir/TA2RX, Mehmet/TB1J and Onur/TB2MYE.
Please do not hesitate to contact us for more information...73! de TCSWAT / TA0U.

VHF DXpedition to NAMIBIA (JG73NI) January 2009 -
A major VHF DXpedition to Namibia in January 2009 that will include operation on a number of VHF bands and modes is in the final planning stages. The team will be led by HB9CRQ, one of Europes top EME operators and will include moonbounce operation on 50, 144, 432 and 1296 MHz. Dates of operation will be from moonrise on 7th to moonset on 16th January 2009. QTH will be in Luderitz Namibia, grid locator JG73NI. For 50 MHz they will be using 1 x 6M7JHV and Acom 1000 which puts out 1KW. They have applied for a special call for their DXpedition. As soon as they get it confirmed they will announce it. SILENT KEYS -

The following amateur radio operators have recently been reported silent key:

- Anatoly Abramov Alekseevich, UA9SU, in May, 2008 at the age of 101.
- Victor Leonidovich, R9WU, December 15, 2008 at the age of 85.
- Vladimir Serdjuka's, UR7ISG, December 12, 2008.
- Alexander Pahomova, UA3GEV, December 11, 2008 at the age of 50.
- Marcus David Leuchter, AA5XM, December 5, 2008 at the age of 99.
- Richard "Rick" F Ray, KB1IGN, December 6, 2008.
- Russel McDonald, N5SCQ, December 14, 2008.
- Fernand Plante, VE2FVD, December 4, 2008 at the age of 88.

==========

BITS & PIECES -

ARES-Alert Reflector

"The Radio Amateurs of Canada Field Services Organization has created an ARES-Alert system for Radio Amateurs who are part of the Amateur Radio Emergency Service or other Canadian Emcomm unit.

"The email-based system is provided as a means to alert Radio Amateurs of emergencies or disasters, or threat of same, where Amateur Emcomm services are or may be required. It will also serve to advise stations of the need to avoid or monitor frequencies that are being used in an emergency event anywhere in the world.

"Any Canadian Radio Amateur may register to be added to the email list. Full name, call sign and QTH are required.

"This is not a "chat" reflector and only national officials of the RAC Field Services Organization will have authority to initiate messages.

"To be added to the list, or for further information, please see: groups.yahoo.com/group/ARES-Alert/ ." [VE3BDB]

SB SPACE ARL ARLS009

ARLS009 ARISS Finalizes Plans for Silver Anniversary of Amateur Radio from Space

The Amateur Radio on the International Space Station (ARISS) team is currently celebrating the silver anniversary -- 25 years -- of Amateur Radio operations from space. According to ARISS International Chairman Frank Bauer, KA3HDO, the crew on the International Space Station (ISS) has configured the radio to support cross-band repeater operations. They have also supported some SSTV downlinks and participated in a special test of 9600 baud packet radio operations on the simplex frequency of 145.825 MHz. After December 19, Bauer said he expects the ISS ham radio system to be on the 145.825 MHz frequency supporting 1200 baud packet. If PCSAT is configured during the week, he said double hop APRS is possible.

"During the week of December 21-26, we plan to support the cross-band repeater mode with a twist," Bauer said. "Our intent is to configure the radio for 145.99 MHz uplink -- including CTCSS tone of 67.0 and 437.80 MHz down. This will be performed in low power mode. We should also note that an extra-vehicular activity (EVA) is planned for that week -- Expedition 18 Commander Mike Fincke, KE5AIT, and Flight Engineer Yury Lonchakov, RA3DT, plan to perform a spacewalk on December 22. As per standard procedure, the ISS ham radio system will be turned off for the EVA."

Bauer said that from December 28-January 3, the cross-band repeater will be reconfigured for what he called "a special experiment. This will be a test of our L-Band uplink

capability, which, to date, has not been proven out. Plan for an uplink of 1269.65 MHz and a downlink on the standard frequency of 145.80 MHz, using low power," he said. "Given the substantial cable losses of the L-band system, we hope some 'big guns' are able to penetrate through, keep up with Doppler and make the connection."

A special certificate is being developed for those who communicate with the ISS from November 30, 2008 to January 15, 2009. This certificate will be awarded to those who have had two-way communications with the ISS on voice, packet (APRS) or through the voice repeater. Those who hear the ISS from space in any of the ARISS operations modes -- voice, SSTV, school contact, voice repeater or digital - will also be eligible to receive a certificate.

To receive the certificate, Bauer said to note the ARISS mode of operation (such as SSTV, voice or school) on your QSL and whether the contact was one-way (receive only) or two-way. "You should send your self-addressed, stamped envelope to the normal ARISS QSL volunteer distributor in your area of the world," he explained. "On the outside of the QSL envelope, please include the words '25th Anniversary Certificate.' Make sure your envelope is big enough to accept an 8.5 x 11 inch certificate and includes the proper postage."

If you do not know where to send your QSL, check the ARISS Web site to find the one that serves your part of the world.

"We will be sending your certificate to the volunteer distributors in bulk after the event is over," Bauer said. "This saves workload and money. So do not expect to see it until 1-2 months after the event closes on January 15." Bauer reminded hams that due to ISS flight requirements related to spacewalks and vehicle activity, the radio onboard the ISS may be off for some portion of this schedule. School contacts and general QSO opportunities by the crew will also preempt this schedule for short periods of time. "But remember that if you hear these," he said, "you still qualify for a commemorative certificate. Enjoy the ARISS ops on ISS!" [W1AW]

SB QST ARL ARLB022

ARLB022 New Section Manager Appointed in Arkansas

J.M. Rowe, N5XFW, of Hot Springs, has been appointed as the new ARRL Arkansas Section Manager with a term to begin on December 22, 2008. Rowe is taking over the Section Manager reins from David Norris, K5UZ, who was elected Vice Director of the ARRL Delta Division in November. Norris assumes his office on January 1, 2009.

When Norris announced that he was stepping down from the Section Manager post he has held since April 2005, he recommended Arkansas Section Emergency Coordinator Rowe for the position. Rowe was already scheduled to become Arkansas Section Manager on April 1, 2009, since he was the only nominee for the next term of office when the petition deadline passed on December 5. According to the Rules and Regulations of the Field Organization, when a vacancy in the office of Section Manager occurs between elections, the position is filled by appointment by the Membership and Volunteer Programs Manager, in consultation with the Director. MVP Manager Dave Patton, NN1N, consulted with outgoing Delta Division Director Henry Leggette, WD4Q, and with Mickey Cox, K5MC, the incoming Delta Division Director. Cox, like Norris, will begin his term January 1, 2009.

Rowe has been Arkansas Section Emergency Coordinator for nearly four years. He was first appointed Emergency Coordinator in 2000 and was promoted to District Emergency Coordinator in 2001, a position he continues to hold. Rowe also served as an Assistant Section Manager

from 2002-2005. Rowe's term of office as Section Manager continues through March 31, 2011. [W1AW]

From: Jennifer
Topic: 2025 Message: 7922

It is 6:01 p.m. No Joy, No Joy and No Joy now repeat again, No Joy, No Joy and No Joy now repeat again, No Joy, No Joy and No Joy now repeat again, No Joy, No Joy and No Joy now repeat again, No Joy, No Joy and No Joy now repeat again, No Joy, No Joy and No Joy now repeat again, and into infinatie. What will I do if I don't get it tomorrow, I suck, maybe I don't. Can anyone tell me what day it is, what those happy faces mean? :-\ :-(:-/ :-(:-| :-(:-\ We have drug users, Pimps, drug dealers and everything under the sky, and a very dum dum Mail man and he don't know what end to wipe clean, and I'm stuck here with these maybe people? A slug in heat has a better life!!!!!!!

Jennifer, I hate to say this, but can you take your whining off the reflector? I think we're all getting
tired of your No Joy messages. The fact that you may/may not have an idiot for a mailman is not John's fault. Maybe you should go to the post office and complain to them and get off John's
back, and help all the rest of us from having to listen to you crying over the fact that you haven't
received the RAC CD yet. Keep in mind that it's Christmas and the USPS is swamped. I feel confident that many haven't received theirs as yet, but they aren't crying on poor John's shoulder
every day with No Joy, No Joy, oh woe is me, No Joy. If I was John, I'd send you back your money
and you could go to a local ham radio store and buy a copy.

Give it a rest. If you don't get it tomorrow, you don't get it tomorrow. Life will go on, and we won't
have to listen to you crying because you haven't received it yet.

All of us that have done business with John in the past know that he will take care of the matter
once it is certain that you aren't going to get it.

Life goes on, Ha. I spent two one half years on the street Dick, did you Dick! Two homeless people were shot and killed last year, I guess life goes on, Oh but not for them. :-) Some landlord wasted over $1500 dollars of Drake rigs, but life goes on. Let see You are on the air, and others, but let see, Oh I not! I not going to cry on you any more Dick OK OK!

7926. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-19 00:50:32 UTC
From: K1XN
Topic: 5889 Message: 7926

The DECEMBER 2008 Issue #812-C files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

Maybe I'm missing something here, Jennifer. What does your spending 2 and a half years on the street have to do with you getting your CD? That's tough. Is the USPS picking on you because you had a string of bad luck? I can't imagine what it would be like to live on the street or under a bridge or in a cardboard box. I haven't been that unfortunate. But that's not going to get the RAC CD to you sooner. What does 2 people getting shot last year have to do with the missing CD? So you had a crooked landlord whom I assume stole your radios. Sorry to hear about that, but life goes on. Getting the RAC CD isn't going to get you on the air any sooner. A lot of people operate without it. So what does that have to do with anything? I have my opinion and your whining everyday to John with your No Joy messages is getting to be a bit much.

Getting on John's back day after day with a No Joy, Oh woe is me, I don't have my CD, No Joy, No Joy, isn't going to get the CD to you any sooner. As I stated before, it's Christmas season and mail is slow. It will arrive in due time.

Sorry John!

After following the GOList since it's early days and even this Reflector since you started it I've gotten to the point where I'm finding it pretty much useless to me. It's become a venting port and mostly business is being conducted. I find almost 20% of my E-mail every day has things mostly not related to actual DX from the GOLIST@yahoogroups. Dick took the words out of my mouth before I said something.

So John, before I go unsubscribe I really do want to wish you and all the DX deserving a very Merry Christmas and all the best in the up coming New Year.

The K8SMC Node has celebrated over 20 years of operation and will continue to do so for all those deserving DXers to find those needed countries.

I say again Merry Christmas everyone and have a Happy New Year.

Hi John,

I'd say leave it as is. No one to my knowledge has complained before
until the events of the last couple days. If people are offended by anything on the
reflector
in the long or short term, they can un-subscribe. I find it very easy to hit the
delete key.

Just my opinion.

Happy Holidays to all,
Carl K8AV

As you may recall, John, I had a similar moment of "why am I keeping this up?" with the DX IS! list last spring. You were one of the ones who sent me an email of support. I realise that at times it can be frustrating to listen to all of the in-fighting, and especially when someone tells you they are taking their ball and going home.

I made the decision to keep the other list going, and I sure hope you keep this one going. It's a useful source of information. We'd all be a little less knowledgeable in our passion for the hobby were you to turn it off.

Please keep it going!

Topic: 4780 Message: 7941

John,

All yahoogroups subscribers have the option to unsubscribe, choose individual message delivery vs. daily delivery, or choose "no e-mail" or "special notices only".

I would vote to keep the reflector going, and individuals can choose their delivery (or non-delivery) options, or you can set it for them, at their request.

It's not unusual for someone to leave a list after some OT rambling. I just keep my finger on the <delete> key, and make my choices accordingly!

Keep the list going. My finger can operate the delete key with ease when I come across something I disagree with. As with other lists, there is always someone who moans and groans about their pet peeve. I just quickly ignore them and move on. Sorta like driving in rush hour traffic. Learn to tune the frustration out.

John,

I don't see was wrong with it before. It was a combination of
all of the above. My vote is to leave it as it was. Every "list"
has its own main theme, and most (unless they are strictly monitored)
drift off topic. It's been my experience that most of these
off-topic threads die a natural death.

I wish luck to those who want a QSL route list to only give QSL
routes, a list for announcing DXpeditions to only announce
DXpeditions, a list dedicated to Vibroplex Bugs to only discuss
Vibroplex Bugs because they are going to need it. They don't realise
that list moderators have better things to do than pre-read every message.

Hi again John,

John it's your reflector. Put what you want on it. By listing products,
like the RAC, you are saving customers like me money, as well as hopefully making
a little for yourself. I'd like to think this helps us all out by keeping the cost of the
Golist down.
As was pointed out by others, there are different ways to get the forum mail, including
un-subscribing, or deleting messages after a quick scan of it.
Your forum John, so this is your call. I've subscribed to your forum for years and have
never seen anything on it that offended me. It's a slow time for DXing so I'm glad to
see the forum active.

73,
Carl K8AV

7955. WHAT DO YOU WANT ON THE GOLIST REFLECTOR?

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-20 04:28:33 UTC
From: Phil Sauvey
Topic: 7951 Message: 7955

John,

I belong to a handful of reflectors and there is not a one that does not have someone who rants, someone who feels the need to announce their intentions to exit, or ends up in off topic subjects. When several ISP's continue to block spam (or alleged spam e-mail) the group is the best way to stay current as anyone can check into the group at their leisure or elect to get emails or daily digests.

I appreciate the fact that you involve your users and ask for their input. I found out that getting and distributing the RAC CD is not an easy task just by what I have read here. Nor is keeping updated on the most current and accurate QSL information. Also, you involved us in the shipping issue you had earlier this year (spring?).

Yes, there are many times I want to reply to someone's email but I find it is much easier to hit the delete button. It takes me less effort to hit the delete button or unsubscribe, than it does to write an explanation or stir the pot.

Thanks for all you do and from what I'm gathering, I would leave the list the way it is. Again, as mentioned before, this is your group. If someone does not like the way it is run, they can depart quietly. This list generates the least amount of e-mail traffic of any list that I belong to however, I find this information very valuable. You did publically explain to a certain person that the item was shipped AND to the proper address. The rest was out of your control and the problem went away after a few members stepped up to the plate. Since a comment was made, I was not compelled to follow the leader and add another as I felt the first one hit a homerun. You created this group not only for your benefit but for ours, thanks! I am one of the happy 375 subscribers you have to this group and if that should change, I will let YOU know.

Happy holidays to everyone and may your logbooks be filled with rare DX in 2009.

7967. Re: [GOLIST] GOLIST PRODUCTS GROUP

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-21 14:21:25 UTC
From: K1XN
Topic: 7958 Message: 7967

Hi Paul,
The new group will be a very slow group, kinda like working
DX, nothing hardly at all. Most activity will occur during the
periods of RAC issues. Of course, If I have some commercial
announcement about Golist, it will be on the new group, not
this current one.
Heck, I might even sell Heath and Beauty aids or lumber
on the other group list too! :-)

John,

Seems to me you've just created a lot of additional work for yourself by establishing the GOLIST Products List. Give yourself a break and leave things the way they are. From the comments I've read, the new list is not required.

Have a great Christmas!

Hi John,
Thank for the note. BTW: is the blind that we both are helping,
able to keep his GoWeb up to date and is he in need of a new
call book yet? Please keep me posted.
The change will keep the current Golist group free from intentional
commerical activity John and that is a good thing. The other group is
for commercial stuff and any other discussions only. No DX or Qsl info
there for the most part anyway. The only semi commercial item will be
the weekly GoData file update announcement.
Any IRC's that are for sale will be on the new group. Those announcement
by members will be encouraged and welcome as will most all other for sale
items. Who knows it may turn into a internet auction site. Just imagine the
possibilities!!

Hi John,

Why make just about all of us 374 members who are subscribed to this reflector, join another reflector, in order to get all the Golist products and information from you? All this because of a couple complaints from your 374 subscribers?

To me it's going to be confusing for current and potential subscribers to your forums, and extra work for both you and us.

I agree with John's comment below. KIS ! Keep It Simple.

U da Boss however.

Topic: 7958 Message: 7972

Hi Carl,
We it is kinda silly to me to do this, but as you know, I try hard to make everyone
happy, to be responsive to their wants and needs.
I try not to do much selling on the reflector, but as a user when you buy something
don't you like to be kept up to date as to what is going on with the product you ordered?
It is much easier to post product status updates to the reflector than trying to email each
individual a product report. This seems to make some users uncomfortable.
Everyone get the latest DX from several sources. It is the same info, just repackaged
in a different way. Such is true for my DX ALERT, DX4WIN CALENDAR INFO and the
GOLISTER newsletter I have on the download page each week. I was asked by a user
if I could do this, so those reports were born and are now part of the package.
Since there are very few changes or updates to GoWin, the reflector was not used
by many and was idle for most of the time. I started adding DX info, some of which is
sent to me directly and some which I repackage to reduce the number of individual
emails. I thought this would be helpful. This has made some users uncomfortable.
I am just trying to please everyone (I know it is impossible, but I try)
I would rather do what I have been doing on this reflector for the past several years.
It does seem that most of you rather keep it the way it is, so I may continue on.
I do plan to keep the Golist Products reflector active and will make my most commercial
announcements there. Join if you like, if you don't you will only miss the business stuff.

??? A bug was found in GoWin version 2.16 in the country display.
This problem was fixed and I now have GoWin version 2.17 available
in a new data file just uploaded. The file is labeled? Go812-C1.
When you download and install this update, your GoWin program
should read version 2.17 in the title bar.
??? It is now available for immediate download.

France, overseas territories
ThreeHungarish Hams (HA0NAR, HA9RE and HA9SDA) are on a tentative to be active from the French Overseas territories of Wallis and Futuna, between Jan 23rd to Feb 23rd. (The exact island(s) name is (are) not provided yet)
They have applied for the special callsign FW0RE, but both Hungary and France have signed the CEPT regulations, so the normal callsign to be used will be FW/Hc. Special callsigns begin only by the TX prefix.;
The FW5RE callsign could be issued only to a FW résident. In such a case it seems that FW5RE could not be issued to this expedition .
They are going to FW with 2 amps , vertical for 160 to 30m , spiderbeams for upper bands and a 6 el for 6m.
Supports are welcome.
QSL via HA8IB.
Tks OZ6OM (and F5NQL for the French regulations info)

SEYCHELLES:
From BILL/NG3K:

Begin date: 20090222
End date: 20090306
Submitter's callsign: DL7JAN
Submitter's e-mail: dl7jan@gmx.de
Callsign(s): S79JF
DXCC entity: Seychelles
QSL route: DL7JAN
Operators: S79JF

Notes: Jan,DL7JAN will be active as S79JF from Praslin Island (IOTA AF024) from 22nd Februrary till 6th March 2009. Activity will be planned
from 40-10m CW/SSB/RTTY and maybe PSK31. QSL via DL7JAN direct or buro!!!

Mount ATHOS
From Monk Apollo :
I would like to ask for your help in a problem that I confront. Recently, in the new regulations made by the Greek Ministry of Communications gave the SY prefix to Special call to anyone who wants it. Sadly the men at the Ministry do not understand the importance of the DXCC – Entity Mount Athos to the World of Amateur Radio.
Monk Apollo invites you to send an email to the Ministry yme@otenet.gr and ask them to reserve the prefix SY solely for the use of Mount Athos to eliminate any confusion of the DXCC Entity Mount Athos.
Thanks in advance for your assistance, from Mount Athos, the “Garden of Virgin Mary” I send you my best wishes.
God Bless you – Monk Apollo, SV2ASP
Tks Col, MM0NDX

CANADA:
SPECIAL PREFIXES /
From January 1st to February 28th:
400th anniversary of Galileo using of optical instruments to inspect the universe.
This year is the International Year of Astronomy.
VE changes to CG; VA changes to CF; VO changes to CH; and VY changes to CI. For example - VE7DAO = CG7DAO, VA3DAO = CF3DAO

Announced operations with special callsigns for the IYA:
- Darin, VE3OIJ as CG3OIJ - 80m to 70cm (WW Loc. FN25EJ). QSL via VE3OIJ, o direct (P. Darin Cowan, 674 Southmore Dr. W, Ottawa, ON K1V 7A1, Canada), or via the bureau or eQSL. _www.squidzone.ca/ve3oij_ (http://www.squidzone.ca/ve3oij)
- Paul, VE9NC as CG9NC , from Hampton, New Brunswick. Mainly on 20 meters on the Digital modes. QSL via VE9NC.
Tks RAC, VA3RJ, VE3OIJ and VE9NC

GREECE :
DX PLUS is a Greek ham team and every year they visit a rocky islet, for about 10 days. Look for the special call SX5LA to be active from Levitha islet (GIOTA DKS-050, MIA MGD-019, WLOTA LH-0846), Dodecanese (EU-001), from June 8-14th. QSL via SV1GRM. Further details will be available closer to the activation date. Tks VA3RJ.

FINLAND:
OH4JT/1,by Jouni/OH4KZM and Jukka/OH4MFA from Kustavi Island (EU-096), is scheduled between December 26 to 30th. That includes a Multi-Op entry in the Stew-Perry 160m contest.
160-10m, mainly CW. QSL via OH4MFA, direct or bureau.
Tks RSGB IOTA hq.

Bonjour à tous:
FRANCE, Territoires d'Outre Mer.
Trois opérateurs hongrois , (HA0NAR, HA9RE and HA9SDA) seront actifs depuis Wallis et Futuna (île non précisée), entre le 23 janvier et le 23 février 2009.

Ils ont demandé l'indicatif FW5RE, mais conformément à la législation, ce sont les règles CEPT qui priment donc l'indicatif devrait être FW/HC à moins qu' ils demandent iun indicatif spécial qui commencerait alors par TX. A suivre ..
Ils ont deux PA, des verticales pour les bandes basses – 160 à 10m – et des Spiderbeams pour les bandes hautes. Ils ont aussi une 6 el pour le 6m.
Les aides sont les bienvenues.
QSL via HA8IB.
Merci OZ6OM

SEYCHELLES:
De BILL/NG3K:

Du 22 février au 6 mars 2009.
Origine : DL7JAN
Indicatif : S79JF
DXCC : Seychelles
QSL via: DL7JAN
Opérateur: S79JF

Notes: Depuis Praslin (IOTA AF024) .
40-10m CW/SSB/RTTY et sans doute PSK31. QSL via DL7JAN direct ou bureau!!!

Mount ATHOS
Apollo moine du mont Athos communique.
J'aimerais obtenir votre aide dans une affaire à laquelle je suis confronté.
Récemment dans la nouvelle rédaction des textes réglementant le radioamateurisme en Grèce, le Ministre grec des Communications a donné le préfixe spécial SY à quiconque le demande .
Je regrette que le Ministre n'ait pas compris l'importance de l'entité DXCC Mont Athos, pour le monde des radioamateurs.
Le Moine Apollo invite tout un chacun à envoyer un e-mail au Ministre en question à l'adresse _yme@otenet.gr_ (mailto:yme@otenet.gr) , en lui demandant de bien vouloir continuer à réserver le préfixe SY, comme représentatif de l' entité DXCC Mont Athos, pour éviter toute confusion.
Merci de votre aide et meilleurs voeux.
Dieu vous bénisse.
Monk Apollo, SV2ASP
Tks Col, MM0NDX

CANADA:
PREFIXES SPECIAUX:

Du 1er janvier au 28 février 2009:
400ème anniversaire des explorations de l'Univers par Galilée, au moyen d' instruments optiques.
Cette année 2009 est l'Année Internationale de L'Astronomie.
VE, remplacé par CG; VA par CF; VO par CH; et VY par CI. Example - VE7DAO = CG7DAO, VA3DAO = CF3DAO
Opérations spéciales Année Internationale de l'Astronomie:
- Darin, VE3OIJ sera CG3OIJ - 80m à 70cm (WW Loc. FN25EJ). QSL via VE3OIJ,
direct (P. Darin Cowan, 674 Southmore Dr. W, Ottawa, ON K1V 7A1, Canada), ou via
bureau ou eQSL. _www.squidzone.ca/ve3oij_ (http://www.squidzone.ca/ve3oij)
- Paul, VE9NC sera CG9NC , depuis Hampton, New Brunswick. 20 metres en modes numériquesQSL via VE9NC.
Merci RAC, VA3RJ, VE3OIJ and VE9NC

GRECE :
DX PLUS est un groupe de radioamateurs qui visite chaque année des îles et îlots .
Ils seront SX5LA, depuis Levitha (GIOTA DKS-050, MIA MGD-019, WLOTA LH-0846), Dodécanèse (EU-001), du 8 au 14 juin 2009.
QSL via SV1GRM.
Merci VA3RJ.

FINLANDE:
OH4JT/1, par Jouni/OH4KZM et Jukka/OH4MFA depuis Kustavi (EU-096), prévu du 26 au 30 décembre. Participation en Multi-Op dans le concours Stew-Perry 160m.

OK, *I* busted the call, I thought it was GRM not RGM.

I need to read better.

LZ1RGM not found in 2008 RAC Summer CD either.

Maybe post something to dx-chat@..., perhaps one of the LZ
subscribers might see it.

7983. CW contest, JD1/M, JD1/O, PA, XU V7

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-23 09:16:04 UTC
From: F5nql@aol.com
Topic: 7983 Message: 7983

Hi friends
CW Contest :
Dear Friend,

Year 2008 end is fast approaching meaning that the most memorable event for all true CW Operators is coming: ?Ernst Krenkel Memorial? ? International Contest RAEM . The uniqueness of the contest is in non-trivial number exchange that requires operators to show their true CW skills.
We invite you to participate in this exciting event. If you love CW please come on the air and support the contest. Even if you can?t spend all of the 8 hours please consider making a part time effort - that will be greatly appreciated by all contest participants. Taking a part in the contest will be one more opportunity to pay tribute to the famous polar explorer/radio operator Ernst Krenkel. The Contest Committee is looking forward to receiving your log, that will help with more accurate scoring and decision on the contest winners.
The contest will take place from 02:00 till 09:59 UTC on the 28th of December 2008. The Contest Rules are available on SRR web site at http://www.srr.ru/CONTEST/cup_raem_engl_08.php

Software supporting this contest:

TR4W: http://tr4w.qrz.ru/
N1MM Logger: http://www.n1mm.com
AALog: http://www.dxsoft.com/aatest.zip

Your comments and photos are very welcome.
Merry Christmas, Happy New Year and see you in the contest.
73!

RAEM Contest Committee
Tks Gianni, I1HYW.

JAPAN:
JD1/MT - MINAMI TORISHIMA, OC-073
Masa,JD1BMM, is working again on Minami Torishima (Marcus Isl., OC-073) until Jan 7,2009. During his little spare time he will
focus mainly on the lowbands including a 500 watts amplifier.
Masa prefers QSL cards via the JARL bureau.
Direct QSLs (2$/1 IRC, no registered mail) should be sent to: Masafumi Ishihara, 2-305 Loran, 2-5-35 Miyazaki, Chuo-ku, Chiba, 260-0806,Japan.

JD1/OG - OGASAWARA ISLANDS, AS-031
Hiroyuki,JD1BMH (JG7PSJ), and Makoto,JD1BLY (JI5RPT), will be active from Chichijima Island (AS-031) which belongs to Ogasawara between Dec 28 and Jan 2, 2009. They will be QRV in CW/SSB/digital modes on 160-6m and via satellite (emphasizing lowbands). QSLs via homecalls.

More info can be found online at: http://www.ji5rpt.com/jd1 and
http://sapphire.ganko.tohoku.ac.jp/jd1bmh
(http://sapphire.ganko.tohoku.ac.jp/jd1bmh)
Tnx DXNL:

NETHERLANDS:
SKCC Dutch member Jan, PA3CLQ had been granted to use the special callsign
PH6SKCC, from January 2009 1st to 28th.
For SKCC awards his membership number is : 2765.
Look for him mainly on 40 and 80m CW.
QSL as op's instructions.
Tks SKCC.

Cambodia:
XU7ACY was on the top band CW, the last two days in the afternoon,
spotted both by Asian and European Op's. He was heard in the USA yesterday evening.
Tks DX watch

V73NS – MARSHALL , Roi-Namur, Grid Square RJ39, – OC-028
Neil informs :
Due to high surf and sea water over topping berms, the shack was flooded and
the building damaged beyond repair.
Water was just below desktop so much of my gear is intact.
Setting up a station in my living quarters a.s.a.p.
See photos at the bottom of this page

RAEM Contest 2008

Chers amis
La fin 2008 indique que nous approchons de l'un des évènements makjeurs de l' années parmi les concours CW , le RAEM, le Mémorial Ernst Krenkel.
Echange : N° de QSO + localisation géographique .
Règlement : http://www.srr.ru/CONTEST/cup_raem_engl_08.php
Date ; 28 décembre de 0200 à 0959 utc.
Softs compatibles (connus du comité d'organisation) :

TR4W: http://tr4w.qrz.ru/
N1MM Logger: http://www.n1mm.com
AALog: _http://www.dxsoft.com/aatest.zip_ (http://www.dxsoft.com/aatest.zip)

Vos commentaires, photos, liens Youtube appréciés .
Merry Christmas, Happy New Year and see you in the contest.
73!

RAEM Contest Committee

Merci Gianni I1HYW.

JAPON – JD1:
JD1/MT - MINAMI TORISHIMA, OC-073
Masa,JD1BMM, travaille sur Minami Torishima (Marcus., OC-073) jusqu'au 7 janvier 2009. A son temps libre, insistance sur bandes basses . Il dispose de 500 watts.
QSL bureau de préférence. Si direct 2$ ou 1IRC (pas de recommandé) à :
Masafumi Ishihara, 2-305 Loran, 2-5-35 Miyazaki, Chuo-ku, Chiba, 260-0806,Japan.

JD1/OG - OGASAWARA , AS-031
Hiroyuki,JD1BMH (JG7PSJ), et Makoto,JD1BLY (JI5RPT), sur Chichijima (AS-031) , Ogasawara du 28 décembre 2008 au 2 janvier 2009.
CW/SSB/numériques de 160 à 6m et via satellite (mais insistance cependant sur les bandes basses). QSLs via homecalls.
Plus d'info : _http://www.ji5rpt.com/jd1_ (http://www.ji5rpt.com/jd1) et _http://sapphire.ganko.tohoku.ac.jp/jd1bmh_ (http://sapphire.ganko.tohoku.ac.jp/jd1bmh)
Tnx Merci

Pays Bas:
Jan, PA3CLQ, membre du SKCC, sera PH6SKCC, du 1er au 28 janvier 2009.
Pour les diplômes SKCC, son numéro de membre est 2765.
Principalement sur 40 et 80m.
QSL selon instructions de l'opérateur.
Merci SKCC.

Cambodge :
XU7ACY était sur la Top band CW ces deux derniers jours après midi et soir, spotté par des opérateurs Asiatiques et Européens.
Il a été entendu hier soir aux USA.
Merci DX Watch.

V73NS – MARSHALL , Roi-Namur, Locator RJ39, – OC-028
Neil nous informe :
A cause du ressac et de la hauteur des marées, passant par dessus les digues, , le shack a été inondéet le bâtiment endommagé.
L’eau est arrivée juste au dessous du bureau, aussi j’ai heureusement pu sauver une grande partie du matériel.
Je vais remonter la station dans la zone d’habitation aussi rapidement que possible ?
Voir les photos au bas de la page de l’album en ligne à :
_http://www.pbase.com/alwayssomewhere/marshall_islands_
(http://www.pbase.com/alwayssomewhere/marshall_islands)
Merci Neil, WD8CRT/V73NS

7989. RTTY WELCOME DAY

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-24 09:30:57 UTC
From: K1XN
Topic: 7989 Message: 7989

From: "Phil Sussman"

Come one, come all to:

01 JANUARY 2009
ALL DAY LONG

Now is your chance to meet and greet other RTTY operators from all over the world.

No hours, No rules, No score, No pressure, No quota, No log needed.

Any band*, Any contact, Any time, Any power, Any equipment, Any antenna.

Get that antique set-up running or fire-up that brand new rig. Use any modem or computer or combination thereof.

Meet and greet others without time limits. Have a short exchange or a rag-chew - whatever suits you.

Participation is voluntary. No log necessary. No awards - just satisfaction. Help others find joy in RTTY by operating for the first time, or the thousandth time.

Get your set-up running smoothly and help others to reverse inversion. Just get on the air to say "howdy" -or- "hello" -or-"WELCOME TO RTTY"

(*) = Authorized amateur radio sub-bands, of course.

PLEASE HELP SPREAD THE NEWS. TELL YOUR FRIENDS AND NEIGHBORS.

"I'LL SEE YOU ON THE AIR FOR:"

RTTY WELCOME DAY
01 JANUARY 2009
ALL DAY LONG

73 - de Phil - N8PS
RTTY Welcome Day Cheerleader

While the propagation is poor to awful, the comaraderie among hams, especially DXers and contesters the world over, remains high. I count hams I have never meet, and many instances I have never heard their voice - just thier dits/dahs and diddles, among the best of my friends.

John, great service pal, over the years. This is a time to truly count our blessings and hug the family members, and toast all friends.

Cheers, mate! Happy Holiday, Merry Christmas, Feliz Navidad, etc to all!

MERRY CHRISTMAS & HAPPY NEW YEAR TO ALL!!!!!
==========
26/12/2008: Look for Mike, CT1IUA to be active December 26-31st as homecall/p from the Serra da Malcata Natural Reserve (DPRN reference FF-23 for the Diploma of Natural Parks and Reserves, WFF reference CTFF-023). QSL via home call, direct or by the bureau. [DPRN]

26/12/2008: Operators Toze/CT1GFK and Mike/CT1IUA will be QRV as CT7FFE from the Natural Park da Serra da Estrela (DPRN FF-08, WWF CTFF-008), December 26-27th. QSL via CT1IUA, direct or bureau. All information about DPRN can be find at: dprn.no.sapo.pt/dprn_eng.htm [CT1GFK]

26/12/2008: Jouni/OH4KZM and Jukka/OH4MFA will be active as OH4JT/1 from Kustavi Island (EU-096), December 26-30th, including a Multi-Op entry in the Stew-Perry Topband Challenge. QRV 160-10m, mainly CW. QSL via OH4MFA, direct or bureau. Further information can be found at: personal.inet.fi/surf/oh4mfa/oh4jt-1.htm [rsgbiota.org]

26/12/2008: An official amateur call sign OP0LE is assigned to Princess Elizabeth base (IOTA AN-016, 71?57'S and 23?20'E). Paul, ON3PC will be operating from the base between December 26, 2008 and February 15, 2009. He will be working at the base as a plumber boiler-mechanic and he will be in charge of the communications in supplement. He never made any qso on amateur radio frequencies and he should appear mostly at the begining on the Antarctic DX Net that is managed on 14MHz and 7MHz. After 40 years of silence, Belgium is back on air from Antarctica. [F5PFP]

26/12/2008: Larry, WO0Z will be active holiday-style as PJ4/WO0Z from the island of Bonaire (SA-006, WLOTA LH-1279) between December 26, 2008 and January 4, 2009. He will focus on 30 and 17 meters, using all modes. QSL via WO0Z (whiskey oscar zero zulu). [NG3K]

26/12/2008: Phil, F4EGS will be active from Abidjan, Ivory Coast, using the call sign TU8/F4EYS from December 26, 2008 to February 28, 2009. QRV on all bands, with focus on 160 and 80 meters, using CW and RTTY. QSL via F4EGS, direct or bureau. [NG3K]

27/12/2008: Rolf, DK2ZF will be QRV as OZ/DK2ZF on 50MHz and 144MHz meter scatter from Grid JO45 between December 27, 2008 and January 6, 2009. QSL via home call. [DL8EBW]

28/12/2008: Operators Toze/CT1GFK and Mike/CT1IUA will be QRV as CT7FFT from the Natural Park do Tejo Internacional (DPRN FF-13, WWF CTFF-013), December 28-29th. QSL via CT1GFK, direct or bureau. All information about DPRN can be find at: dprn.no.sapo.pt/dprn_eng.htm [CT1GFK]

28/12/2008: Makoto/JI5RPT (JD1BLY) and Harry/JG7PSJ (JD1BMH) will be active from Chichi-Jima (JIIA AS-031-003), JD1 Ogasawara Islands (AS-031), between December 28th and January 2nd (2009). Activity will be on 160-6m (mainly low bands), using satellites, CW,

SSB and the Digital modes. QSL via their home call signs. For more details see: www.ji5rpt.com/jd1/ and sapphire.ganko.tohoku.ac.jp/jd1bmh/ [OPDX Bulletin]

28/12/2008: Father and son team Gary/W2VQ and Paul/WQ2N will be operating from Grand Cayman Island (NA-016, WLOTA LH-1042) as ZF2VQ and ZF2NN respectively from December 28, 2008 to January 3, 2009. Look for them on 160-6m using CW, SSB and RTTY. They will not be on for the ARRL RTTY Round Up as they have an early flight out on the third. They will have beams, verticals and dipoles and will be running 100 watts, with an emphasis on Europe and Asia. QSL via their home calls. [MMMonVHF]

29/12/2008: Peter, VE3IKV will be active as W4/VA3RA from Sanibel Island (NA-069, USi FL-021S, WLOTA LH-2044, Lee County), Florida, from December 29, 2008 to January 3, 2009. QRV primarily CW on 40 and 20 meters. QSL via home call, direct or bureau. [rsgbiota.org]

30/12/2008: Operators Toze/CT1GFK and Mike/CT1IUA will be QRV as CT7FFM from the Natural Reserve da Serra da Malcata (DPRN FF-23, WWF CTFF-023), December 30, 2008 to January 2, 2009. QSL via CT1IUA, direct or bureau. All information about DPRN can be find at: dprn.no.sapo.pt/dprn_eng.htm [CT1GFK]

31/12/2008: The expedition to St. Martin's Island (AS-127, WLOTA LH-2351), Bangladesh, is scheduled to take place December 31, 2008 to January 10, 2009 (begin and end dates uncertain). The operators will be Rabby/S21RC, Manju/S21AM, Lal/S21DM and Sohel/S21S, and they plan to be active on 80-10 meter SSB and RTTY (sorry - no 30 meters). QSL via EB7DX, direct only. Further information can be found at: s2iota.eb7dx.com/ [NG3K]

2009 -
01/01/2009: A license has been granted to an Italian team and the period of their first activity will be from January 1-11th. The call sign released is E44M and it covers from 160 meters to 2 meters SSB, CW, RTTY and all digital modes with a maximum power of 1KW. They will have 3 stations active with beams, verticals and wire antennas. The team includes the following 6 members: Vinicio/IK2CIO, Simone/IZ0BTV, Aurelio/IZ0EGM, Giorgio/IZ4AKS, Massimo/IZ4DPV, Pasquale/IZ8IYX and Leszek/SP3DOI. They will focus their activity to RTTY and other digital modes, low and WARC bands, giving attention to stations outside Europe, when the propagation will allow it. Pilot stations will be announced later. QSL manager is IZ0BTV and he will answer via direct (Simone Bizzarri, P.O. Box 51, Grottaferrata 00046 (Roma), ITALY), bureau and LoTW in reasonable time. More news in the next few weeks. A website has been setup at: www.dxcoffee.com/e44m/ [NG3K]

02/01/2009: Between January 2-9th, six members of the Cambridge University Wireless Society will operate SSB and CW as ZD8UW from Ascension Island (AF-003) on the HF bands. Expedition members will be Hugo/M0HSW, Tom/M0TJH, Simon/G4EAG, Michael/G7VJR, Gordon/G3USR and Martin/G3ZAY. QSL via G7VJR. Logs will be uploaded to LoTW. [425 DX News]
==========
LOOKING AHEAD -

15/01/2009: Special event station 8N8TKS will be aired from the middle of January until May 24th for the 51st JARL Annual General Meeting in Kushiro(-city): "Tancho (or Japanese Crane) Kushiro(-city) Sokai (or General Meeting)"). Kushiro-city is famous for Japanese crane. QSL via the JARL bureau. [JJ1WTL/AC6IM]

19/01/2009: Operators Antonio/CU8AS, Ruedi/HB9CQL and Hermann HB9CRV (CT3FN) will be active from the Albarnaz lighthouse (DFP FAZ-02, ARLHS AZO-016, TWLHD WLH CU-008), Flores Island (DIP AZ-008, WLOTA LH-0947), Azores (EU-089) from January 19-23rd. QRV mainly on the

low bands with CW and RTTY, using the special call CU8W. QSL via CT1GFK, bureau OK; via email to cu8at at sapo dot pt [CT1END]

01/03/2009: Special event station 8N1MOMO will be aired from March 1st to April 5th to celebrate the 33rd Koga(-city) Momo (or Peach) Festival and the 16th Koga(-city) Fire Balloon Contest. QSL via the JARL bureau. [JJ1WTL/AC6IM]
==========
SPECIAL EVENTS -

25/12/2008: The Mexican Contest and DX group, will use for its 4th anniversary the special call sign 4A1DXXE, between December 25, 2008 until January 6, 2009. QSOs with this station are good for the DXXE Award. QRV 160 to 6 meters using CW, SSB and RTTY. QSL v?a N7RO and LoTW. Further information at: www.dxxe.org/ [LU5FF]

26/12/2008: Terry, GM3WUX will be active as GB2HLB between December 26th and January 22nd. Activity is to celebrate the bicentenary of the birth of Louis Braille. Each QSO will receive a special QSL card depicting Braille and raising awareness of the Royal National Institute of Blind People (RNIB). A fund raising page for RNIB can be found at: www.justgiving.com/louisbraille [OPDX Bulletin]

26/12/2008: Members of the Old Barney Amateur Radio Club (www.obarc.org/) will be operating as N2OB/150 (or N2OB/LH) starting at 0000 UTC December 27, 2008 through 2359 UTC January 4, 2009. Operation will be on all bands and modes available. This will be to celebrate the relighting and the 150th anniversary of the Barnegat lighthouse (nicknamed "Old Barney"). Yes, "Old Barney" will officially be relit on January 1, 2009, which is the 150th anniversary of it's original lighting (January 1, 1859). The lighthouse was officially shut down in 1944 and became a State Park in 1957. Since that time, only a 250 watt light was lit for aesthetics only. On January 1st, a new light with a new fresnel lens will be lighted and Old Barney will once again be an official (private) navigational aid. See www.southjersey.com/articles/?articleid=19695 for info on the relighting. N2OB/150 stations will be operating from various locations around "Ocean County". Some operations from the lighthouse property may be possible and will use N2OB/LH which will count for working the lighthouse and IOTA NA-111. A nice colour photo QSL is being planned showing the relighting of the lighthouse. QSL via N2OB (SASE requested) or via bureau is ok. [N2OO]

29/12/2008: To commemorate the 4th International Polar year, Fran?ois, F8DVD will sign TM4IPY (WAP 084) from December 29th, 2008 until January 11th, 2009. Activity from 10 to 30m, CW, SSB and digitals. Special QSL card with a Concordia Antarctic base picture, via the French bureau or direct (SAE + postage) to: F8DVD Fran?ois Bergez, 6, rue de la Libert?, 71000 Macon, France. [F5NQL]

2009 -
01/01/2009: Special event station DR09ANT (WAP-156) with 'DOK IPY' will be aired from January 1st to December 31st, from various stations located in Oberbayern (Upper Bavaria), Germany, to celebrate International Polar Year. DR09ANT (WAP-156) will also be QRV for the 6th Antarctic Activity Week (AAW) February 16-22nd. QSL via DL5MHQ, direct or by the DARC Bureau. [DL8FA]

01/01/2009: Special event stations 8N3I70A (Fixed) and 8N3I (Mobile) will be active from the beginning of January, 2009 until March 31, 2010 to celebrate the 70th Anniversary of Ikeda-city. QSL via the JARL bureau. [JJ1WTL/AC6IM]

01/01/2009: SKCC Dutch member Jan, PA3CLQ had been granted to use the special call sign PH6SKCC, from January 1-28th. For SKCC awards his membership number is: 2765. Look for him mainly on 40 and 80m CW. QSL via operator's instructions. [F5NQL]

01/01/2009: To celebrate his 80th anniversary, the Swiss National Ham Society (USKA) has granted all Swiss amateurs the use of the Prefixes HE8 and HB8 during the entire year of 2009. HE8 instead of HB9 and HB8 instead of HB3. These prefixes are valid only from the Swiss territory. No foreign activities are allowed and thus no Entity/HE8 or HE8 is possible. [F5NQL]

01/01/2009: In January 2009, the Straight Key Century Club (SKCC) will be celebrating their 3rd Anniversary with a month long special event using the call sign K3Y. Web pages for the event with all the information can be found at: www.skccgroup.com/k3y/ [SKCC]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

V73NS - MARSHALL, Roi-Namur, Grid Square RJ39, - OC-028
Neil reports: Due to high surf and sea water over topping berms, the shack was flooded and the building damaged beyond repair. Water was just below desktop so much of my gear is intact. Setting up a station in my living quarters a.s.a.p. See photos at the bottom of this page www.pbase.com/alwayssomewhere/marshall_islands [WD8CRT/V73NS]

MOUNT ATHOS
From Monk Apollo:

I would like to ask for your help in a problem that I confront. Recently, in the new regulations made by the Greek Ministry of Communications gave the SY prefix to Special call to anyone who wants it. Sadly the men at the Ministry do not understand the importance of the DXCC - Entity Mount Athos to the World of Amateur Radio.

Monk Apollo invites you to send an email to the Ministry yme@... and ask them to reserve the prefix SY solely for the use of Mount Athos to eliminate any confusion of the DXCC Entity Mount Athos.

Thanks in advance for your assistance, from Mount Athos, the "Garden of Virgin Mary" I send you my best wishes.

God Bless you - Monk Apollo, SV2ASP

OH CONTEST/DX MEETING
The 14th annual meeting of the CCF (Contest Club Finland) and the OHDXF (OH DX Foundation, www.ohdxf.fi/) will take place again onboard the Viking Line M/S Gabriella from January 16-18, 2009. The ferry is going from Helsinki via the Aland islands to Stockholm and return. More information can be found at: www.contestclubfinland.com/CCF/

RAEM INTERNATIONAL CONTEST
Year 2008 end is fast approaching meaning that the most memorable event for all true CW

Operators is coming: "Ernst Krenkel Memorial" - International Contest RAEM. The uniqueness of the contest is in non-trivial number exchange that requires operators to show their true CW skills.
We invite you to participate in this exciting event. If you love CW please come on the air and support the contest. Even if you can't spend all of the 8 hours please consider making a part time effort - that will be greatly appreciated by all contest participants. Taking a part in the contest will be one more opportunity to pay tribute to the famous polar explorer/radio operator Ernst Krenkel. The Contest Committee is looking forward to receiving your log, that will help with more accurate scoring and decision on the contest winners.
The contest will take place from 02:00 till 09:59 UTC on the 28th of December 2008. The Contest Rules are available on SRR web site at
http://www.srr.ru/CONTEST/cup_raem_engl_08.php

7997. HAM RADIO EQUIPMENT FOR SALE

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-25 15:30:13 UTC
From: K1XN
Topic: 7997 Message: 7997

A friend of mine, Joe W4JSM, asked me to help him sell his radio equipment, he has decided to leave Ham Radio.? Joe has a FT-1000D, a FT-1000, a Alpha 77SX, a Icom 756 Pro III, a homebrew 4-1000 amplifier built by Lou Howard, a TenTec Hercules solid-state amplifier, and other assorted equipment.? If interested you may contact Joe via email at w4jsm at bellsouth.net

7998. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-25 21:24:37 UTC
From: K1XN
Topic: 5889 Message: 7998

The JANUARY 2009 Issue #901 files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

7999. FOR SALE: AMPLIFIERS

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-26 12:54:36 UTC
From: K1XN
Topic: 7999 Message: 7999

So Santa did not bring the Amp you had requested when you sat on his knee at the mall.? Here is your chance to do Santa "one better" and have the missing piece of equipment you have always needed.

?

(you know you have always wanted an amp!)

?

?

?

?

Subject: Honest Jim's After Christmas Sale

?

?Both amps either have "as new" or "new" tube(s) in them. They are both physically and mechanically perfect and both put out full power.

?

Price of the AL80B is $800.00

?

Price of the AL572 is $900.00

?

If you know of anyone that might be interested in these amps, please let them know. I can be reached at 217-824-2153.

?

Honest Jim,? WU4.....I mean (KZ9A).

8000. OLD SUBSCRIBERS

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-26 18:54:17 UTC
From: K1XN
Topic: 8000 Message: 8000

??? I have been asked by a former Golister if I considered him just expired or a new user if he re-subscribed.
??? I consider anyone that has never been a subscriber or has not been subscriber for 6 consective months as NEW USERS.
??? Former subscriber do NOT have to purchase the GoWin program again, so they can renew at 36.00 a year.

8001. ITEMS FOR SALE

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-27 01:31:48 UTC
From: K1XN
Topic: 8001 Message: 8001

I have an IC-765 and AL-80a for sale, and would rather sell them locally before I post on QTH.com
?
Both items are in excellent condition.
?
The IC-765 has the following filters (CW--250 Hz FL101 & FL-53A; 500 Hz FL-32A & FL-52A; SSB FL-80 & FL-96 that comes standard). The Passband Filter mod has been made, along with an INRAD 4KHz roofing filter added. The Dec 95 QST (N6BV AGC mods) have also been added.? Also, the PLL caps have been replaced with ceramic caps. It is nice older radio, especailly for CW DXing and contesting.
?
The AL-80A is presently wired for 220V.
?
I am asking $800 for the ICOM, and $600 for the amplifier.
?
I am located in Cumming.
?
Thanks, and Sesons Greetings.

8005. OLD BARNEY AMATEUR RADIO CLUB

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-29 01:36:35 UTC
From: K1XN
Topic: 8005 Message: 8005

MEMBERS OF THE OLD BARNEY AMATEUR RADIO CLUB ?www.obarc.org (http://www.obarc.org)
WILL BE OPERATING AS N2OB/150 (or N2OB/LH) STARTING AT 0000 UTC
DEC 27, 2008 THROUGH 2359 UTC JAN 4, 2009. OPERATION WILL BE ON
ALL BANDS AND MODES AVAILABLE. THIS WILL BE TO CELEBRATE THE
RELIGHTING AND THE 150TH ANNIVERSARY OF THE BARNEGAT
LIGHTHOUSE (NICKNAMED “OLD BARNEY”). YES, “OLD BARNEY” WILL
OFFICIALLY BE RELIT ON JANUARY 1, 2009 , WHICH IS THE 150TH ANNIVERSARY
OF IT’S ORIGINAL LIGHTING (JAN 1, 1859). THE LIGHTHOUSE WAS OFFICIALLY
SHUT DOWN IN 1944 AND BECAME A STATE PARK IN 1957. SINCE THAT TIME,
ONLY A 250 WATT LIGHT WAS LIT FOR AESTHETICS ONLY. ON JAN 1ST, A
NEW LIGHT WITH A NEW FRESNEL LENS WILL BE LIGHTED AND OLD BARNEY
WILL ONCE AGAIN BE AN OFFICIAL (PRIVATE) NAVIGATIONAL AID.
See ?http://www.southjersey.com/articles/?articleid=19695 for info on the relighting.?
N2OB/150 STATIONS WILL BE OPERATING FROM VARIOUS LOCATIONS
AROUND “OCEAN COUNTY”. SOME OPERATIONS FROM THE LIGHTHOUSE
PROPERTY MAY BE POSSIBLE AND WILL USE N2OB/LH WHICH WILL COUNT
FOR WORKING THE LIGHTHOUSE AND IOTA NA-111. A NICE COLOR PHOTO
QSL IS BEING PLANNED SHOWING THE RELIGHTING OF THE LIGHTHOUSE.
QSL VIA N2OB (SASE REQUESTED) OR VIA BUREAU IS OK.

Hi friends
Phil, F5PHW, has got his new 2 years assignation to Thiti, french Polynesia.
His stay will begin in next 2009 summer.
He intends to be QRV in all HF bands fom 80 to 10 meters with 100 watts and
the set of annternnas composed of a doublet or a vertical HF6VX, for 20 &
40m, 30m HF6VX and 20-17-15-12-10 : HF6VX ourSPIDERBEAM.
Modes CW/Digitals a a very very few SSB.
QSL will be by LOTW and may be a QSL manager who will be choosen later.
More information especially about his future callsign later.
Cordiales 73 de F5PHW Phil
Merci Phil, F5PHW.

Hello John,

As of 12/28/2008, Buzz, NI5DX, is the QSL manager for BX2AAL, Jack, in Taiwan.
Buzz will be able to answer all requests for cards as soon as the logs are transferred
and QSL cards are printed.? The cards should be ordered this week.? Please
allow 4-5 weeks for the cards to arrive from the printer.

8009. TS7C - Press release n° 2, TS7C c ommuniqué de presse n° 2

Yahoo group: GOLIST (2007 — 2010)
Date: 2008-12-29 20:39:54 UTC
From: F5nql@aol.com
Topic: 8009 Message: 8009

PRESS RELEASE N° 2:
Please spread this informations as largely as possible.

TS7C, TUNISIA, KERKENNAH Island – IOTA AF- 073,

by The Provins ARC , F6KOP.

http://www.ts7c.net/ (http://www.ts7c.net/)

Hi Friends
If your diaries are not boomarked yet, do it ! It isn’t too late.
The next expedition which will take place between January 8th and 19th, 2009 is quite ready to go.
All the luggage is packed and sorted by 25kg parcels, one by operator.
Mustapha, DL1BDF, team member was a great help for us to be granted to use the special callsign TS7C.
As indicated in the PR N°1 , some new comers in Dxpedition have been included in the team, to permit them to get some more skill, operating side by side with long time experienced dxpedioners. They are the future of F6KOP next expeditions. We ask your indulgence for them ; they are learning to do in the pile ups, and for some of them, TS7C will be their first dxpedition.
We will stay on Kerkennah group, Chergui isl. , IOTA AF-073, and WLOTA 3459.
The departure is scheduled from Paris on January 8th in the early morning.
The team will begin to settle the first station, immediately when they will arrive at the Kerkennah Hôtel.
So the first signals are expected the same day at the end of the afternoon or early in the evening.
The departure from Kerkennah is scheduled very early in the morning of the 19th. So the traffic end will happen sometime around 1800 or 1900 utc, in the evening of the 18th.
As usually, one station will continue to be on the air, in the evening as later as possible.
New bands and/or modes hunters, we will be operating for you, in HF, 160 to 10m , using CW, SSB, FM , and digital like RTTY, PSK31, BPSK , SSTV.
We will pay a special attention on low bands, 160 and 80m
Of course you’ll find operators on other bands and mode.
Six stations will operate at the same time, 24h a day. Sometimes it will be possible to hear TS7C on the same band with different modes.
The antenna farm will consist of Verticals and wires for the lower bands and Spiderbeams from 40 to 10m .
Since the first release the team had to be change a little.
The complete team going to Tunisia is finally the following one:
Ø Frank, F4AJQ, Team leader as he did in the previous F6KOP dxpeditions, - SSB and digitals.
Ø Mustapha, DL1BDF, in charge of Public Relations with the Tunisian

authorities. – SSB, digitals.
Ø Bernard, F9IE, - CW traffic leader
Ø Bob, N6OX, - SSB traffic leader.
Ø Jean-Paul, F8BJI Digitals traffic leader.
Ø Sylvain, F4EGD, - SSB and Digitals. Dxpedition QSL manager.
Ø Gerard, F2VX, - SSB –
Ø Bill, N2WB - SSB CW –

Ø Michel, FM5CD - CW SSB Digitals
Ø Sébastien, F5UFX, SSB – CW
Ø Sébastien, F8IJV – SSB
Ø Jean-Luc, F6BIV, SSB, Digitals -

Ø Norbert, F6AXX – CW –
Ø Alain, F6ENO – CW –
Ø Dieter , OE8KDK - SSB Digitals -

Ø Stefan, OE8SKQ - CW -

Ø Mathieu, F5PED - CW -

Ø Eric, ON7RN - SSB CW -

Ø Henri , F1HRE - SSB -

Ø Franco, F4EVR, - SSB -

Ø Michel, F5EOT – SSB –

Ø Arno, OE9AMJ – CW , SSB –
Ø Joseph, F6CTT – SSB, Digitals -

Ø Tony, G0OPB - CW,SSB -
Ø Gabriele, I2VGW - SSB CW Digitals -

Ø XYL Anne Marie LAURENT, Photo reporter
BACK OFFICE (still the same):
Ø Pilote Stations: Pascal, F5JSD, Serge, F6AML, Thierry, F4TTR et Bruno, F5AGB.

Ø Webmaster : Vincent, F5MJV;
Ø Internet Communications: Maurice, F5NQL, .(You can receive whilst the expedition , the information directly on your mail box ; ask to : _f5nql@aol.om_ (mailto:f5nql@aol.com))
QSL via Sylvain, F4EGD, direct or via the REF-Union bureau (Please only via this bureau) . See on the site how to QSL.
Numerous Ham societies and individuals friendly help us as each year.To give you this rare IOTA, we need your help also.
Those who want to give us a sponsorring , can see how to do on the Sponsors page of the TS7C website.

We thank all of you.
Don’t forget to write some words on the TS7C guestbook at :

http://users2.smartgb.com/g/g.php?a=s&i=g25-39174-06
(http://users2.smartgb.com/g/g.php?a=s&i=g25-39174-06)
Your encouragements are appreciated
Happy New Year 2009, and Rendez vous on your logbook, to establish some new records (ore to keep some other)
73, TS7C team
Maurice, F5NQL,

Communiqué de presse n°2:
Merci de bien vouloir diffuser le plus largement possible.

TS7C, TUNISIE, KERKENNAH , Chergui – IOTA AF- 073, par :

Le RC de Provins , F6KOP.

http://www.ts7c.net/ (http://www.ts7c.net/)

Bonsoir les amis.
Si vous n'avez pas encore marqué votre agenda, il est encore temps de le faire.
La prochaine expédition se tiendra du 8 au 19 janvier 2009. Tout est quasiment prêt.
Tout le matériel est empaqueté par colis de 25kg, un par opérateur.
Mustapha, DL1BDF, membre de l'équipe aura été d'un grand secours afin que nous puissions trafiquer avec l'indicatif spécial TS7C.
Ainsi qu'indiqué dans le premier communiqué, nous avons tenu à ce que des nouveaux opérateurs intègrent l'équipe pour pouvoir apprendre ou se perfectionner au trafic d'expédition, au contact d'anciens chevronnés. Ils sont les futurs opérateurs des opérations de F6KOP. Certains seront en expédition pour la première fois. Pour ceux là, soyez indulgents dans les pile ups- N'oubliez pas ils sont le futur des expéditions F6KOP.
Nous serons donc sur Chergui, île du groupe Kerkennah, IOTA : AF-073, et WLOTA 3459.
Le départ de Paris est fixé au 8 janvier très tôt dans la matinée. L'équipe commencera à installer la première station sans attendre dès l'arrivée à Chergui . Les premiers signaux sont donc normalement attendus le même jour, fin d' après midi, début de soirée.
Le départ en fin d'expédition est prévu également très tôt dans la matinée du 19 janvier. La fin du trafic interviendra donc la veille en soirée vers 1800 ou 1900 utc.
Comme d'habitude, une dernière station restera active aussi tard que possible.
Chasseurs de nouvelles bandes et/ou nouveaux modes, nous serons à votre disposition de 160m à 10m en CW, SSB, FM , et modes numériques tels : RTTY, PSK31, BPSK , SSTV.
Nous serons particulièrement attentifs sur les bandes basses 160 et 80m.
Bien sûr vous nous trouverez partout ailleurs également.
Six stations seront opérationnelles simultanément et 24 heures/24. Quelques fois, ne vous étonnez pas d'entendre TS7C à plusieurs endroits sur la même bande en modes différents ;
Le parc d'antennes est composé de verticales en nombre avec les sets de

radians adéquats, d’antennes de réception pour les bandes basses, d’antennes filaires et de Spiderbeams pour les bandes 40 à 10 m, WARC incluses.
La composition de l’équipe a été légèrement modifiée depuis le premier communiqué. Elle est finalisée maintenant et se compose de :
Ø Frank, F4AJQ, Chef d’expédition, comme il l’a toujours fait dans les précédentes expéditions de F6KOP. Il opèrera en SSB et modes numériques.
Ø Mustapha, DL1BDF, en charge des relations publiques avec les Autorités Tunisiennes. Il opèrera en SSB et modes numériques.
Ø Bernard, F9IE, - Responsable du trafic CW.
Ø Bob, N6OX, - Responsable du trafic SSB.
Ø Jean-Paul, F8BJI Responsable du trafic en modes numériques .
Ø Sylvain, F4EGD, - SSB, Modes numériques. – QSL manager de l’expédition.
Ø Gerard, F2VX, - SSB –
Ø Bill, N2WB - SSB, CW –

Ø Michel, FM5CD – CW, SSB, Modes numériques -
Ø Sébastien, F5UFX, SSB – CW -
Ø Sébastien, F8IJV – SSB -
Ø Jean-Luc, F6BIV, SSB, Modes numériques -

Ø Norbert, F6AXX – CW –
Ø Alain, F6ENO – CW –
Ø Dieter , OE8KDK - SSB Modes numériques -

Ø Stefan, OE8SKQ - CW -

Ø Mathieu, F5PED - CW -

Ø Eric, ON7RN - SSB, CW -

Ø Henri , F1HRE - SSB -

Ø Franco, F4EVR, - SSB -

Ø Michel, F5EOT – SSB –

Ø Arno, OE9AMJ – CW , SSB –
Ø Joseph, F6CTT – SSB, Modes numériques -
Ø Tony, G0OPB - CW,SSB -
Ø Gabriele, I2VGW - SSB CW Modes numériques -

Ø XYL Anne Marie LAURENT, Photo reporter
BACK OFFICE (sans changement):
Ø Stations Pilotes : Pascal, F5JSD, Serge, F6AML, Thierry, F4TTR et Bruno, F5AGB.

From: K1XN
Topic: 8010 Message: 8010

This really is a sorry saga. Just read this from the Lone Star DX Assn. There are two different versions

First, the DXpedition is postponed until 2009.

Second, from the the RSGB's Rad Com magazine. "Sadly the French efforts to activate Glorioso seem to have come to nought. One report suggests that another team was trying to exert political pressure to get there first, and the military commanders of the island decided enough was enough and it was easier to not allow any operations at all."

73, Lee ZL2AL (Pilot - If it ever happens!)

From:

The International Year of Astronomy Special Prefix Callsign starts
January 1st 0h UT and ends Feb 27th 23:59 UT Feb 28 2009.

All Canadian Amateurs are encouraged to use it to commemorate
Galileo Galilei's first look through an optical instrument towards the
heavens. The Special Prefix are

VE changes to CG
VA changes to CF
VO changes to CH
VY changes to CI

The official kickoff date for IYA is January 10th and on that
date many astronomy clubs across Canada and around the
world will be participating in local astronomical
activities. Displays at Shopping Malls, talks in Public
Libraries, star parties for the public will be happening.
I am also encouraging those amateur Radio operators who
are affiliated with the RASC (Royal Astronomical Society
of Canada) that might have local IRLP access to visit
node 9005 the Vancouver Reflector on January 10th
to join in the across Canada IYA Net.

To find out more about this unique ham radio Special prefix
and related projects visit http://www.hamiya2009.info

Hi Friends
Castles and Castles :
France :
On neext Saturday, Jan. 3rd 2009, look for François, F5JNE and Claude, F5MCC, to be active as F5JNE/p from the Castle of Saint Benoist, DFCF 10029, in the city of Saint Benoistsur Vanne, zip code 10160, and canton of Aix en othe, ddfcf 10-01.
As usually starting around 0700 utc, 80&40m, CW/SSB.
QSL via bureau preferred and SWL cards welcome.
Other references : Aube department /10 and Champagne Ardennes province.
Tks François, F5JNE

United Kingdom:
To day December 2008 , 30th, look for Chris, M0DOL to be active as GX4KPT/p untill 1900 from successively the following castles, all counting for the British Cashota Award:
- Draughton castle g181 wab sp77 loc io92nj
- Gilmorton castle g183 wab s58 loc io92kl
- Sapcote castle g188 wab sp49 loc io92im
20, 80 and 40m .
all details on _www.qrz.com_ (http://www.qrz.com/)
best 73s be lucky and happy new year to all for 2009
Chris, M0DOL
Tks Chris, M0DOL.

CASHOTA IRELAND.
This is a remaining :
We are delighted to inform you that CASHOTA - IRELAND will be launched on the 1st of January 2009. Those wishing to activate a Castle or Stately Home should supply the information requested on the "Home" page of this site in good time so that it can be given publicity for those who wish to work such stations for the Award.
More information on the Cashota EI webpage at :
http://cashota-ireland.org/node/11 (http://cashota-ireland.org/node/11)

Other information and remainings around Sylvester and new year’s day.
PORTUGAL
Tony, TK5XN is CT/TK5XN for an indermined length stay, at his wife family’s.
Sometimes in HF/CW in the morning and in the evening.
QSL via F2YT.
Tks Bruno, ON7ZB
TONGA:

Barring some sort of disaster, A35RS should be QRV on 2M from AG28hv in the Kingdom of Tonga (south Pacific islands) from 06-15 January 2009.

However ... the antenna setup will be small, the power low, no skeds, no Internet, and I will be
"on holiday" ... so don't expect too much !!

But ... do take a look for my signal as the location has a great take off directly over the ocean at A35 moonset
which corresponds with moonrise in Europe ... possible double ground gain !!
... and the potential for massive
Faraday / one-way propagation problems !! It will be great "fun" ;-)

Frequencies and operating times will be announced later _HERE_ (http://www.mmmonvhf.de/latest.php?id=2190) ... or look for spots on the loggers ... and good luck :-)

Seasons greetings to all! 73, Bob ZL1RS/A35RS

P.S. I promise you bigger, brighter and better things on 2M from the Cook Islands as E51EME from BG08dr
in late March / early April when Lance W7GJ and I team up there for a real "6n2 EME dxpedition" effort ;-)

GRAND CAYMAN:
Gary/W2VQ and Paul/WQ2N from Grand Cayman (NA-016, WLOTA LH-1042) as ZF2VQ and ZF2NN until January 3rd 2009.160-6m, CW, SSB and RTTY. .Emphasis on Europe and Asia. QSL via their home calls..
Tks MMMVHF and Guy, DL8EBW.
USA –
Peter, VE3IKV , as W4/VA3RA from Sanibel (NA-069, USi FL-021S, WLOTA LH-2044, Lee County), Florida, until January 3, 2009. CW on 40 and 20 m. QSL via home call, direct or bureau. [rsgbiota.org]
ASCENSION :
Between December 31st and January 9th, SSB and CW as ZD8UW from Ascension (AF-003) on HF bands, by Hugo/M0HSW, Tom/M0TJH, Simon/G4EAG, Michael/G7VJR, Gordon/G3USR and Martin/G3ZAY of the Wireless Society of Cambrifge University. QSL via G7VJR. Logs will be uploaded to LoTW. [425 DX News]

Bonjour à tous:
Châteaux et Châteaux :
France :
François, F5JNE et Claude F5MCC, seront F5JNE/p, depuis le le château de St Benoist DFCF 10029 situé sur la commune de St Benoist sur Vanne CP 10160 et dans le canton de d'Aix en Othe DDCF 10-01 .
A partir de 0700 utc, CW/SSB sur 80 et 40m.
QSL bureau de préférence, QSL écouteurs bienvenues.
Merci François, F5JNE.
ROYAUME UNI :
Trois Châteaux du programme CASHOTA, aujourd'hui 30 décembre, jusqu'à 1900 , par Chris, M0DOL.
Châteaux de :
Draughton g181 wab sp77 loc io92nj
Gilmorton g183 wab s58 loc io92kl
Sapcote g188 wab sp49 loc io92im
Indicatif GX4KPT/p.
80, 40 et 20m.
Tous détails : _www.qrz.com_ (http://www.qrz.com/)
best 73s be lucky and happy new year to all for 2009
Chris
Merci Chris, M0DOL
CASHOTA IRLANDE.
Ceci est un rappel.
Le 1er janvier 2009 lancement du programme d'activité Châteaux : CASHOTA Irlande.
Plus d'informations sur le site web du Cashota EI à :
http://cashota-ireland.org/node/11 (http://cashota-ireland.org/node/11)

Autres informations autour de la St Sylvestre et du Premier janvier 2009.
PORTUGAL
Tony, TK5XN est CT/TK5XN pour une durée indéterminée, dans la famille de son épouse.
Le soir et le matin en style vacances, bandes HF/CW principalement.
QSL via F2YT.
Merci Bruno, ON7ZB
TONGA :

Sauf ouragan ou cyclone, A35RS sera QRV sur 2M depuis le locator AG28hv à Tonga (Pacifique sud) du 06 au 15 Janvier 2009.

Il n'aura installé qu'une petite station il travaillera en basse puissance, sans sked ,i Internet et sera en vacances.
N'oubliez paqs quand même qu'il y a de grandes possibilités au coucher de lune sur A35, ce qui correspond au lever de lune sur l'Europe.
Frequences et heures de trafic plus tard sur le site du MMMVHF à :
http://www.mmmonvhf.de/latest.php?id=2190
(http://www.mmmonvhf.de/latest.php?id=2190) ou surveillez les clusters.
Bonne chance pour vous et moi.

Meilleurs voeux à tous et 73 de, Bob ZL1RS/A35RS

P.S. Je promets un nouveau séjour avec des moyens plus conséquents depuis Cook, où je serai E51EME depuis le locator BG08dr, en mars ou avril prochain, quand Lance W7GJ et moi-même serons sur place pour un véritable effort dans une véritable expédition EME sur 6 et 2m.
Merci MMMVHF et Guy, DL8EBW
GRAND CAYMAN:
Gary/W2VQ et Paul/WQ2N depuis Grand Cayman (NA-016, WLOTA LH-1042), indicatifs ZF2VQ et ZF2NN jusqu'au 3 janvier 2009. 160-6m, CW, SSB et RTTY. Recherchent principalement l'Europe et l'Asie. QSL via HC.
Merci MMMVHF et Guy, DL8EBW.
USA –
Peter, VE3IKV , sous W4/VA3RA depuis Sanibel (NA-069, USi FL-021S, WLOTA LH-2044, Comté de Lee), Floride, jusqu'au 2 janvier, 2009. CW sur 40&20m. QSL via home call, direct ou bureau. [rsgbiota.org]
ASCENSION :
Du 31 décembre 2008 au 9 janvier 2009, SSB et CW indicatif ZD8UW depuis Ascension (AF-003) bandes HF, par Hugo/M0HSW, Tom/M0TJH, Simon/G4EAG, Michael/G7VJR, Gordon/G3USR et Martin/G3ZAY de la Wireless Society de l'Université de Cambridge University. QSL via G7VJR. Logs chargés umtérieurement sur LoTW. [425 DX News]

From: Jennifer
Topic: 8015 Message: 8015

You Might be Addicted to Ham Radio if:

1. When you look at a full moon and wonder how much antenna gain you would need.

2. When a friend gets a ride from you and remarks that you have a lot of CBs in your vehicle, it turns in to an hour long rant on how ham radio is not CB radio.

3. When someone asks for directions, you pause, wondering if long or short path would be best.

4. When you can look at a globe and be able to point to your antipode (and you know what an antipode is).
(I do now, but I didn't know what an antipode is. Cool antipode map at http://www.antipodemap.com/)

5. Your cell phone ring tone is a Morse code message of some kind.

6. You have accidentally said your Amateur Radio call sign at the end of a telephone conversation.

7. Your favorite vacation spots are always on mountain tops.

8. You notice more antennas than road signs while driving your car.

9. You have driven onto the shoulder of the road while looking at an antenna.

10. Porcupines appear to be fascinated with your car.

11. If you ever tried to figure out the operating frequency of your microwave oven.

12. When you look around your bedroom of wall to wall ham gear and ask: Why am I still single?

13. The local city council doesn't like you.

14. You think towers look pretty.

15. Your family doesn't have a clue what to get you for Christmas, even after you tell them.

16. Your HF amplifier puts out more power than the local AM radio station.

17. The wife and kids are away and the first thing that goes through your head is that no one will bother you while you call "CQ DX" a few hundred times.

18. When you pull into a donut shop and the cops there on their coffee break ask if they can see your radio setup.

19. You refer to your children as your "Harmonics".

20. Your girlfriend or wife asks: "You're going to spend $XXXX on what???

21. You actually believe you got a good deal on eBay.

22. When you see a house with a metal roof, and your only thought is what a great ground plane that would be.

23. You have pictures of your radio equipment as wallpaper on your computer's desktop.

24. Every family vacation includes a stop at a Ham radio store.

25. The first question you ask the new car dealer is: "What is the alternator's current output"?

26. You buy a brand new car based on the radio mounting locations and antenna mounting possibilities.

27. You have tapped out Morse code on your car's horn.

28. A lightning storm takes out a new Laptop, Plasma TV, and DVD Recorder, but all you care about is if your radios are okay.

29. Your wife has had to ride in the back seat because you had radio equipment in the front seat.

30. Your wife was excited when you were talking about achieving that critical angle, but very disappointed when you finally did.

31. During a love making session with your wife, you stop to answer a call on the radio.

32. Your wife threatens you with divorce when you tell her that you are going on a "fox" hunt.

33. Talking about male and female connectors makes you feel excited.

34. You dream of big, comfortable, knobs, but not on women.

35. You always park on the top floor of the deck, just in case you might have to wait in the car later.

36. When house hunting, you look for the best room for a radio shack and scan the property for possible tower placement.

37. When house hunting, you give your realtor topographical maps showing local elevations.

38. The real estate agent scratches his head when you ask if the soil conductivity is high, medium, or low.

39. You have Ham radio magazines in the bathroom.

40. When your doorbell rings, you immediately shut down the amplifier.

41. Fermentation never enters your mind when "homebrew" is mentioned.

42. Instead of just saying no, you have said "negative".

43. You have used a person's name to indicate acknowledgement.

44. You become impatient waiting for the latest AES catalog to arrive.

45. You have found yourself whistling "CQ" using Morse code.

46. You always schedule the third weekend in May for vacation.

47. You walk carefully in your back yard to avoid being close-lined.

48. You have deep anxiety or panic attacks during high winds or heavy ice.

49. You and the FedEx/UPS men are on a first name basis.

50. You really start to miss people that you've never seen.

51. Your exercise machine is a Morse code keyer.

52. You walk through the plumbing section at the hardware store and see antenna parts.

53. Your neighbors thought you were nuts when you ripped up your lawn to bury chicken wire.

54. Your next door neighbor thinks that your wife is a widow.

55. Your wife has delivered meals to your Ham shack.

56. If you sold all your Ham radio equipment, you could pay off your mortgage.

E44M

A license has been granted to an Italian team and the period of their first activity will be from January 1 to January 11, 2009. The callsign released is E44M and it covers from 160 meters to 2 meters SSB, CW, RTTY and all digital modes with a maximum power of 1KW.
They will have 3 stations active with beams, verticals and wire antennas.
The team includes the following 6 members: C31CT-IK2CIO-IZ0BTV-IZ0EGM-IZ4AKS-IZ8IYX-SP3DOI. They will focus their activity to RTTY and other digital modes, low and WARC bands, giving attention to stations outside Europe, when the propagation will allow it. Pilot stations will be announced later. More news in the next few weeks.

Rachid, 3B8FQ, reports that his working trip to 3B7, St. Brandon Island, may be rescheduled for February '09. His earlier 3B7FQ operation was cancelled due to transportation problems.

He is also planning a personal holiday with ham gear to 3B9, Rodriguez Island, in July, and a return trip to Agalega Island in November '09.

Call signs will be 3B7FQ, 3B9FQ, and 3B6FQ. QSL via K5XK, at his new address, per instructions on QRZ.com Details will be provided as they are available.

Meanwhile, Rachid is often QRV on all bands, 40-10M, CW & SSB.

Tks RSARS:

Palestine news :

The pilot station for our activity from Palestine will be Arturo, IK7JWY. He
will be our main contact with the community of amateur radio operators.
Thanks to Arturo, everyone can give a great help sending information about
problems, suggestion or simple comments. Arturo has a great experience in
contesting and dxing. Licensed in 1988, He is an homebrewing and CW enthusiast. He had
important results in contesting: multi-operator team IH9P
(2002-2003-2004-2005 first world in their respective WWDX CW and SSB contests),
Single-Operator
IH9M 2007 (first world and new world record as S.O.80m High Power Assisted
in the WWDX-CW). Now, He is mainly active on 20m CW SSB.

The function of the pilot station will be to collect requests and
suggestions relating to the DXpedition, and then forward them to the team, and
communicate to the public any instructions or informations from the team.

The online communication with the pilot station will be only in the forum
support of the DXpedition, through messages from users in the special area of
discussion. This will make useful for everyone the request made by someone.

Expédition en Palestine - dernière :

La station pilote sera Arturo, IK7JWY.
Il sera notre principal contact avec la communauté radioamateur.

Grâce à lui,, chacun pourra nous être d'une grande utilité pour résoudre les petits problèmes , faire suivre vos suggestions ou simplement vos commentaires.
Arturo a une grande expérience des concours et du DX. Depuis 1988, il trafique en CW et passe aussi beaucoup de temps sur ses constructions personnelles.

Il a souvent fini aux places d'honneur avec l'équipe de IH9P (Premiers en 2002-2003-2004-2005 dans leurs catégories respectives des WWDX CW et SSB), en mono-opérateur , IH9M 2007 (premier monde et nouveau record en mono op 80m grande puissance assisté dans le WWDX-CW). Now,
Maintenant il est surtout actif sur 20m en CW SSB.

La fonction du pilote sera de rassembler les demandes et suggestions relatives à l'expédition et de les transmettre à l'équipe. Il assurera également les communications publiques en relayant les informations reçues de l'équipe. La communication avec le pilote se fera uniquement à travers le forum , à travers les messages reçus sur la page réservée. Ainsi nous gagneons en efficacitépour le plus grand bien de tous.

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
On this first day of 2009 I have the great pleasure to sent to all of
you an happy new year for 2009.

Very prosperus year, good health for you and yours and may be some good
and rare DX.

Jean-Michel F6AJA

==========

More than 6100 old QSL are waiting your visit.

Please have a look on http://LesNouvellesDX.fr web site.

-The ten most wanted DXCC (2004 to 2007) with more than 200 QSL
-At least, one card, for each 58 deleted DXCC countries (900+ QSLs)
-Nearest the totality of current prefix, disappeared now (2300+ QSLs)
-album for stations from Magrebh -1945 to 1962 (250+ QSL)!!!
-More than 700 QSL from the Antarctic bases.
-With 230 QSL from the TAAF (Terres Australes and Antarctiques
Fran?aises).
-More than 200 QSL for 'F' stations in pacific (FK, FK/C, FO/A, FO/M,
FO/C, FW)
-Nearly 100 cards from eparses islands as FR/B/E/G/J/T
-More than 450 cards for the old timer with more than 130 countries
before 1945.
-A card from the french department before 1945.
-One card for each US americain states before 1945.

Some cards are still needed and your participation is welcome. Only a
".jpg" file (both side of the card) is required please write to:
LesNouvellesDX@...
Make a visit on our site and don't forget to put a message on our guest
book.

Below, a list of the latest card we have put on the site from November
to December ordered by gallery.

8021. QUESTIONS OR PROBLEMS WITH DX TELNET

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-01 15:25:40 UTC
From: K1XN
Topic: 8021 Message: 8021

??? Should you have questions or problems with DX TELNET, you
should contact Fab directly via? dxtelnet@....? He will take
care of your problem directly.? Golist is just a pay station for the use
of Visa or Master Card for payments for his software.
John

8022. CY0 DXpedition DX NEWS

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-01 17:43:42 UTC
From: K1XN
Topic: 8022 Message: 8022

Dear Fellow DXers,

Reluctantly, due to the current US economic situation, the DXpedition team ?has decided to postpone the CY0 DXpedition planned for 2009.

While we are hopeful to reorganize the DXpedition {possibly for 2010}, we have decided that rather than tie?up the funds so graciously made available by our?sponsors, we will return donations received so?the sponsorship may be available to other DXpeditions for this year. any sponsoring organization may feel free to contact me with any questions regarding the matter. We are hopeful that our kind sponsors will be?willing to renew their sponsorship when the Dxpedition is able to be reorganized in the future.

The sabledx.com website will remain functional for the time being.

Wishing all good DX and 73.

Sincerely,
Duane?Traver, WV2B??
Team Leader

8023. DX Marathon

Yahoo group: GOLIST (2007 — 2010)

From: K1XN
Topic: 8023 Message: 8023

The 2009 edition of CQ Magazine's 2009 edition of the DX Marathon is now underway! Each year from January 1 to December 31, CQ Magazine sponsors a challenge to work as many countries and zones as possible in the calendar year. For complete rules and submission information, please see our web site at: www.dxmarathon.com (http://www.dxmarathon.com). The 2009 official DX Marathon score sheet is now
available for download.

Remember to submit your 2008 scores by January 31, 2009.

73,
John, K9EL
Program Manager, CQ DX Marathon

I.C.P.O. Bulletin (January 01 - 09, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========
---- HAPPY NEW YEAR 2009 TO ALL!! ----
==========
01/01/2009: A license has been granted to an Italian team and the period of their first activity will be from January 1-11th. The call sign released is E44M and it covers from 160 meters to 2 meters SSB, CW, RTTY and all digital modes with a maximum power of 1KW. They will have 3 stations active with beams, verticals and wire antennas. The team includes the following 6 members: Vinicio/IK2CIO, Simone/IZ0BTV, Aurelio/IZ0EGM, Giorgio/IZ4AKS, Massimo/IZ4DPV, Pasquale/IZ8IYX and Leszek/SP3DOI. They will focus their activity to RTTY and other digital modes, low and WARC bands, giving attention to stations outside Europe, when the propagation will allow it. Pilot stations will be announced later. QSL manager is IZ0BTV and he will answer via direct (Simone Bizzarri, P.O. Box 51, Grottaferrata 00046 (Roma), ITALY), bureau and LoTW in reasonable time. More news in the next few weeks. A website has been setup at: www.dxcoffee.com/e44m/ [NG3K]

01/01/2009: Roland, F8EN will once again be back to Libreville, Gabon, from January 1-26th. Call sign will be TR8CR. QRV mostly 40/30/20m. QSLs via F6AJA, direct or bureau. [F6AJA]

03/01/2009: Fran?ois/F5JNE and Claude/F5MCC will be active as F5JNE/p on January 3rd from the Castle of Saint Benoist (DFCF 10-029), located in the city of Saint Benoistsur Vanne (CP 10160), canton of Aix en Othe (DDCF 10-01), Department Aube/10 and Province Champagne-Ardennes (DPF 08). QRV 80 and 40 meter CW/SSB, starting around 0700 UTC. QSL via F5JNE, bureau preferred and SWL cards are welcome. [F5NQL]

03/01/2009: Marty, W2CG will be active as P40CG from the Bucuti Beach Resort at Eagle Beach, island of Aruba (SA-036, WLOTA LH-0033) from January 3-17th, including an entry in the ARRL RTTY Roundup (January 3-4th). Operating time will be limited to early morning and late evenings, on 80-10 meter CW, SSB and Digital modes. QSL via home call, direct or bureau. Logs will be uploaded to LoTW. [K1XN]

04/01/2009: Paolo, IK2QPR will be active as HR9/IK2QPR from Roatan Island (NA-057, WLOTA LH-1671) from January 04-12th. Look for activity on all bands. QSL via home call. [NG3K]

05/01/2009: Neil, WD8CRT will be active again as V73NS from the island of Roi-Namur (Grid RJ39), Kwajalein Atoll (OC-028), Marshall Islands. He should start around January 5th and remain there for at least two years. Expect him to operate mostly CW on 160-6 meters. QSL via bureau or direct to Neil Schwanitz, Box 8341, APO, AP 96557, USA. His web site can be found at www.qsl.net/v73ns/ [MMMonVHF]

05/01/2009: Joe, W4ONC will be active as homecall/p from the Currituck lighthouse (ARLHS USA-212, Admiralty J2384), Outer Banks, North Carolina on January 5th and 6th. QRV 40 and 20 meter SSB. QSL via home call. [ARLHS]

05/01/2009: Operators Hal/ZS6WB, Pine/ZS6OB, Dick/ZS6BUG, Sarel/ZS6AC, Dave/N7BHC and Dan/HB9CRQ will be active from the moonrise on January 7th to moonset on January 15th. Their QTH will be in Luderitz, Namibia (Grid Locator JG73NI). Their call sign for all EME operation will be V5/KT6Q. Activity will be mainly on 50, 144, 432 and 1296 MHz EME. At the same time, they will be active for transatlantic Tropo on 144 and 432 and on the satellites (AO-7, FO-29 and AO-51). For 50MHz they will be using 1 x 6M7JHV and Acom 1000 which puts out 1KW. QSL for EME please to HB9Q, Box 133, CH-5737 Menziken, Switzerland. For more details and updates, watch the following Web page at: hb9q.ch/joomla/index.php [MMMonVHF]

06/01/2009: Bob, ZL1RS will be on holiday in the Kingdom of Tonga (OC-049) from January 6-15th. QRV on 2M from grid locator AG28hv. Setup will be small, the power low, no skeds, no Internet, so don't expect too much. Bob promises bigger, brighter and better things on 2M from the Cook Islands as E51EME from BG08dr in late March / early April when he and Lance/W7GJ team up there for a real 6n2 EME dxpedition effort. QSL via home call. [MMMonVHF]

08/01/2009: Bernhard, DL2GAC will be active again as H44MS from Honiara, Solomon Islands, (OC-047) between January 8th and April 28th. He works SSB only and plans to focus especially on 40m/80m. He will be joined by the CW op Sigi/DK9FN, and the EME op Hermann/DL2NUD, by the end of February. All three of them are planning also a short trip to Temotu (H40) for two or three weeks. Their flight to Lata, the capital of Temotu, has been booked for March 2nd. Sigi will return to home on March 16th and Hermann on April 9th. [DX Newsletter]

08/01/2009: The Provins ARC, F6KOP will be active as TS7C from the Hotel Cercina, Sidi Fredj, Ile Chergui (WLOTA LH-3459, Kerkennah Islands (AF-073), Tunisia, from January 8-19th. Planned activity will be on all HF bands, using CW, SSB, FM, and several digital modes like RTTY, PSK31, BPSK and also SSTV. The team will pay attention on 160, 80 and 40m, but all the other bands will be worked as well. They also plan to have at least six, but probably seven stations, working 24 hours a day, all with PA's into beams, verticals and wire antennas. Operators mentioned include Frank/F4AJQ, Mustapha/DL1BDF, Bernard/F9IE, Bob/N6OX, Jean-Paul/F8BJI, Sylvain/F4EGD, Flo/F5CWU, Gerard/F2VX, Bill/N2WB, Michel/FM5CD, S?bastien/F5UFX, S?bastien/F8IJV, Jean-Luc/F6BIV, Norbert/F6AXX, Alain/F6ENO, Dieter/OE8KDK, Stefan/OE8SKQ, Mathieu/F5PED, Eric/ON7RN, John/F5VHQ, Romain/F8BUI, Gillares/F1HRE, Franco/F4EVR, Michel/F5EOT, Arno/OE9AMJ, Tony/G0OPB, Gabriele/I2VGW and XYL Anne Marie Laurent (photo reporter). Pilots stations will be Pascal/F5JSD, Serge/F6AML, Thierry/F4TTR and Bruno/F5AGB. QSL via F4EGD, e-mail request or bureau or direct. Logs will be upoaded to LoTW. Further information at: www.ts7c.net/. [F5NQL]

09/01/2009: Look for Niels, OZ8KR to be active as C56KR from Bakuto, The Gambia, between January 9-14th. QRV 40-10m SSB, using FT-857 and wire antennas. After travling in Senegal he will be active again from January 23rd to February 4th. QSL via home call. [NG3K]

09/01/2009: Adolfo, EA7TV (ARLHS member 1541) will be active 1500z January 9th to 1200z January 11th as ED7TV from the Rota (New) lighthouse (ARLHS SPA-085) and Rota (Old) lighthouse (ARLHS SPA-339). QRV 40 and 20 meters, using SSB and RTTY. QSL via EA7TV, direct or bureau (NO eQSL or LoTW). [ARLHS]

09/01/2009: Cody, KC2LSD (FISTS #11793) will be QRV from Colombia as HK3/KC2LSD from January 9-15th, mainly 2300 UTC on 40, 30 and 20 meter CW, with some day time operation as well. A contact with Cody is good for the FISTS 2009 WARC Band Challenge (Grid Loc. FJ24). He will usually get spotted on the cluster, but this time he will post himself on www.obriensweb.com/sked/. To set up a sked with Cody, send an e-mail to: kc2lsd at yahoo

dot com. QSL via home call. [K1XN]
==========
LOOKING AHEAD -

12/01/2009: Peter, EA5GVH will be on vacation to the island of Aruba (SA-036, also count for WLOTA LH-0033) between January 12th and 28th. He will be QRV as P40PZ on 80-6 meters using mainly digital modes (PSK, Olivia, FeldHell, SSTV, RTTY and others) with some SSB. QSL to EA5GVH direct, bureau or e-QSL. [NG3K]

12/01/2009: The Japy DX Group are planning an operation in Bahia (WW Loc. HH18FD), Brazil, devoted to Transatlantic Tropo Ducting events between Africa and America, following the main expedition of V5/KT6Q. QRV January 12-17th using the call sign PY6/PY2ENO on 50, 144 and 432 MHz using SSB, CW, and Digital modes (included WSJT). They will use Yaesu FT-897D and Icom IC-706MKIIG; homebrew amplifiers by PY3FF - 500W 144 MHz; Mirage B1010 100W 432 MHz; 7 elements KLM 6M 7LD horizontally polarized for 50MHz, 12 elements K1FO by PY2NI horizontally polarized for 144MHz and 22 elements K1FO by PY2NI horizontally polarized for 432MHz. Further information can be found at: transatlantic.japydx.org/ . About Bahia operation with photos and map (in english): www.japydx.org/ta/bahia2.html [N8OFS]

15/01/2009: Special event station 8N8TKS will be aired from the middle of January until May 24th for the 51st JARL Annual General Meeting in Kushiro(-city): "Tancho (or Japanese Crane) Kushiro(-city) Sokai (or General Meeting)"). Kushiro-city is famous for Japanese crane. QSL via the JARL bureau. [JJ1WTL/AC6IM]

20/01/2009: Nobi, JA1JCF will be active as homecall/p from the Tsumeki [Tumeki] Saki Lighthouse (ARLHS JAP-690, JP-2441, Admiralty F 6296), Shizuoka prefecture, Honshu Island (AS-007, JIIA AS-007-001, WLOTA LH-2376) on January 20th and 21st. QSL via home call, direct or bureau. [ARLHS]

23/01/2009: Operators Dave/G3NKC, Martin/G4XUM and Bob/MD0CCE will be active from the isle of Man (EU-116, also count for WLOTA LH-0449) as MD4K during the CQWW 160-Meter CW Contest (January 23-25th) as a Multi-Op entry. QSL via G3NKC, direct or bureau. [NG3K]

08/02/2009: Look for Adolfo, EA7TV (ARLHS member 1541) to be active 1900z February 8th to 1400z February 10th from the El Rompido (New) lighthouse (ARLHS SPA-271) and El Rompido (Old) lighthouse (ARLHS SPA-337). QRV 40 and 20 meters, using SSB and RTTY. QSL via home call, direct or bureau (NO eQSL or LoTW). [ARLHS]

11/02/2009: Sam, G4OHX reports he will fly to Brunei (OC-088) February 11th and will be QRV as V8FHX until February 23rd. QSL via home call. [F5NQL]

14/02/2009: Operators Franco/YV1VM, Jose/YV5TX, Alex/YV5SSB and Jesus/YV5MSG will be active as 4M5DX from Caracas, Venezuela, during the CQWW WPX RTTY Contest (February 14-15th) as a Multi-Single/High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

16/02/2009: Walter, HB9BHY will be participating in the 6th Antarctic Activity Week (February 16-22nd) using the special call sign HE8ICE (WAP-81). HE8 is also special prefix issued to celebrate the 80th Anniversary of USKA, so HE8ICE for the AAW 2009, instead of the old previous HB9ICE. QSL via HB9BHY. The full list of call signs already booked for the 6th AAW is available at WAP website, by clicking on the specific AAW banner, or at: www.waponline.it/Default.aspx?tabid=113 [I1HYW]

21/02/2009: Operators Dan/N1ZZ, Geoff/W0CG, Jim/WI9WI, Mark/N5OT, Mal/NP2L, Jim/K6ZH, Ken/WA9S will be active as PJ2T from the Caribbean Contesting Consortium super-station,

Signal Point, island of Curacao (SA-006, WLOTA LH-0942) for the ARRL DX CW Contest (February 21-22) as a Multi-? entry. QSL via N9AG or LoTW. [NG3K]

21/02/2009: Kurt, W6PH will be signing VP9/W6PH from the island of Bermuda (NA-005, WLOTA LH-0201) during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band/Low-Power entry. QSL via home call, direct only. [NG3K]

01/04/2009: Jan, PA4JJ will be operating holiday-style as PJ2/PA4JJ from the island of Curacao (SA-006, WLOTA LH-0942) from April 1-11th. QSL via home call, direct only. [NG3K]
==========
SPECIAL EVENTS -

01/01/2009: Several special event stations will be aired between January 1st and February 1st from seven Croatian cities where the 2009 Men's World Handball Championship is held. The following calls will be active: 9A2009ZG from Zagreb; 9A2009VZ from Varazdin; 9A2009OS from Osijek; 9A2009PO from Porec; 9A2009PU from Pula; 9A2009ZD from Zadar; and 9A2009ST from Split. QSL all calls via the bureau. [UBA HF News]

01/01/2009: Special event station DR09ANT (WAP-156) with 'DOK IPY' will be aired from January 1st to December 31st, from various stations located in Oberbayern (Upper Bavaria), Germany, to celebrate International Polar Year. DR09ANT (WAP-156) will also be QRV for the 6th Antarctic Activity Week (AAW) February 16-22nd. QSL via DL5MHQ, direct or by the DARC Bureau. [DL8FA]

01/01/2009: Special event stations 8N3I70A (Fixed) and 8N3I (Mobile) will be active from the beginning of January, 2009 until March 31, 2010 to celebrate the 70th Anniversary of Ikeda-city. QSL via the JARL bureau. [JJ1WTL/AC6IM]

01/01/2009: SKCC Dutch member Jan, PA3CLQ had been granted to use the special call sign PH6SKCC, from January 1-28th. For SKCC awards his membership number is: 2765. Look for him mainly on 40 and 80m CW. QSL via operator's instructions. [F5NQL]

01/01/2009: To celebrate his 80th anniversary, the Swiss National Ham Society (USKA) has granted all Swiss amateurs the use of the Prefixes HE8 and HB8 during the entire year of 2009. HE8 instead of HB9 and HB8 instead of HB3. These prefixes are valid only from the Swiss territory. No foreign activities are allowed and thus no Entity/HE8 or HE8 is possible. [F5NQL]

01/01/2009: The ISWL Club Callsigns in use during the entire month of January 2009 will be:
GX4BJC /A - Operated from Great Missenden, in Buckinghamshire, by John - G8XTJ. (The current ISWL President). (WAB Square = SP80-BKS & IOTA = EU-005).
MX1SWL /A - Operated from Healing, in North East Lincolnshire, by Cliff - G4YHP. (ISWL Hon. Treasurer & Monitor magazine Editor) (WAB Square = TA21-LNE & IOTA = EU-005).
The ISWL's WAB Book numbers are: 16316 and 16724.
All QSL Info is on www.iswl.org.uk or www.qrz.com or via www.eQSL.cc NO LOTW.
ISWL Awards are available to all Hams and SWL's - see www.iswl.org.uk for full details.
eQSL.cc cards ARE accepted for our awards. [Pete's-DX-Newsdesk]

01/01/2009: Special event call sign GB40WAB will be aired from January 1st to December 31st to celebrate the 40th anniversary of the WAB [Worked All Britain] award. They will have a new WAB book number 18222 for GX4KPT (QSL via M0DOL, direct or bureau) and look forward to working with WAB. QSL GB40WAB via the RSGB bureau. Further information at QRZ.com under GB40WAB. [F5NQL]

01/01/2009: In January 2009, the Straight Key Century Club (SKCC) will be celebrating their 3rd Anniversary with a month long special event using the call sign K3Y. Web pages for the event with all the information can be found at: www.skccgroup.com/k3y/ [SKCC]

01/01/2009: Starting January 1st through 15th special event station Z309KNV will be QRV in celebration of the Carnival of Vevcani. Z32ZM, Mome, will be QRV on 6 meters incase there are any openings on this band. QSL via Z35W. [MMMonVHF]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

BITS & PIECES -

Press Release
01/01/2008
Dear Fellow DXers,
Reluctantly, due to the current US economic situation, the DXpedition team has decided to postpone the CY0 DXpedition planned for 2009.
While we are hopeful to reorganize the DXpedition {possibly for 2010}, we have decided that rather than tie up the funds so graciously made available by our sponsors, we will return donations received so the sponsorship may be available to other DXpeditions for this year.
any sponsoring organization may feel free to contact me with any questions regarding the matter. We are hopeful that our kind sponsors will be willing to renew their sponsorship when the Dxpedition is able to be reorganized in the future.
The sabledx.com website will remain functional for the time being.
Wishing all good DX and 73.
Sincerely,
Duane Traver, WV2B
Team Leader

E44M - Palestine -
The pilot station for our activity from Palestine will be Arturo, IK7JWY. He will be our main contact with the community of amateur radio operators. Thanks to Arturo, everyone can give a great help sending information about problems, suggestion or simple comments. Arturo has a great experience in contesting and dxing. Licensed in 1988, He is an homebrewing and CW enthusiast. He had important results in contesting: multi-operator team IH9P (2002-2003-2004-2005 first world in their respective WWDX CW and SSB contests), Single-Operator IH9M 2007 (first world and new world record as S.O.80m High Power Assisted in the WWDX-CW). Now, He is mainly active on 20m CW SSB.
The function of the pilot station will be to collect requests and suggestions relating to the DXpedition, and then forward them to the team, and communicate to the public any instructions or informations from the team.
The online communication with the pilot station will be only in the forum support of the DXpedition, through messages from users in the special area of discussion. This will make useful for everyone the request made by someone.

CASHOTA IRELAND - The Irish CASHOTA (Castles and Stately Homes on the Air) will be launched on 1 January 2009. The web site for this new award can be found at: cashota-ireland.org/ [425 DX News]

Phil, F5PHW has got his new 2 years assignation to Tahiti, French Polynesia. His stay will begin in the summer of 2009. He intends to be QRV in all HF bands fom 80 to 10 meters with 100 watts and the set of annternnas composed of a doublet or a vertical HF6VX, for 20 & 40m, 30m HF6VX and 20-17-15-12-10: HF6VX or SPIDERBEAM. Modes CW/Digitals and very very few SSB. QSL will be by LOTW and may be a QSL manager who will be choosen later. More information especially about his future call sign later. [F5NQL]

2009 DX Marathon - Now Underway!
The 2009 edition of CQ Magazine's 2009 edition of the DX Marathon is now underway! Each year from January 1 to December 31, CQ Magazine sponsors a challenge to work as many countries and zones as possible in the calendar year. For complete rules and submission information, please see our web site at: www.dxmarathon.com/. The 2009 official DX Marathon score sheet is now available for download.
Remember to submit your 2008 scores by January 31, 2009.
73,
John, K9EL
Program Manager, CQ DX Marathon

December 31, 2008

Dear fellow hams,

After 13 years of providing hams with no cost web space, e-mail forwarding and mailing list services through QSL.net and QTH.net, I have decided to retire. All QSL.net and QTH.net servers and Internet connections at my home QTH are being turned down.

Scott KA9FOX has graciously decided to pick up where I left off, and he is in the process of migrating all services to new hardware. See below for an update on the status of the migration.

I want to thank all of you for all of your support over the years, and I hope that you will support Scott as he takes over the reigns.

See you on the air!

8026. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-01 21:22:49 UTC
From: K1XN
Topic: 5889 Message: 8026

The JANUARY 2009 Issue #901-A files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

CQ WW WPX CONTEST ---> The new rules for the 2009 CQ? WPX? Contest? are? now available (http://www.cqwpx.com/rules.htm).? There? are? changes? throughout the rules and, even though most of them are administrative and? should? have little? impact? on? the? competitive? and? fun? aspects? of??? the? contest, participants are encouraged to read the complete rules? carefully.? The? SSB event will be held on 28-29 March, followed by the CW event on 30-31 May.

8030. Increase in Canadian postal rates - 12 Jan 2009

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-03 02:52:09 UTC
From: Paul M Dunphy
Topic: 8030 Message: 8030

I went to the post office today to pick up a few stamps and was
told that Canadian Postal rates were increasing as of 12 January 2009.

They will increase as follows:

Canada to the USA - FROM $0.96 TO $0.98
Canada to any other country - FROM $1.60 TO $1.65

Note that in Canada we have to pay a tax (called the GST) of 13%
on postage stamps so the actual cost, come 12 January will become:

To the USA: $0.98 + $0.13 = $1.11
To any other country: $1.65 + $0.21 = $1.86

If you are sending return postage to Canada, please adjust
accordingly. Note that the strength of the US dollar against the CND
dollar *currently* means $1 USD will cover the $1.11 CDN to the USA,
but this fluctuates significantly. (At least this has in the past
year.) Your best bet is to somehow acquire Canadian stamps -- or
better yet use LoTW or the buro.

73, Paul VE1DX

Correction in Canadian postal rates -

The GST - Goods & Services Tax is set by the Federal government and is presently 5% and not the 13% as posted by Paul, VE1DX. I think Paul was using Provincial sales tax (8%) and GST (5%) when he came up with 13%. Tax on postage stamps is only 5%. Therefor -

Standard letter items up to 30 grams (1 ounce) effective January 12, 2009 -

Within Canada - FROM $0.52 TO $0.54 + 5% GST = $0.57

Canada to the USA - FROM $0.96 TO $0.98 + 5% GST = $1.03

Canada to any other country - FROM $1.60 TO $1.65 + 5% GST = $1.73

Nevertheless, we are being taxed to death up here in the "Great White North" as Canada Post also has other taxes used for other items and services. These do include Provincial Sales Tax (PST), Goods & Services Tax (GST), Surcharges to supply their vehicles with fuel & maintenance, and just to confuse everybody .... Harmonized Sales Tax (HST), which I am still trying to figure out!

What ever happened to the days when one went to the postoffice to purchase a 30 cent stamp and it cost them 30 cents. Up here we have to pay tax on the stamp! So our 30 cent stamp is actually a 32 cent stamp. Yes postal rates have increased world-wide, but in the USA one can still get a 40 cent stamp for 40 cents!!!

>73 from Dave, VA3RJ

Depends where you live, Dave. In Ontario you pay separate GST +
PST, but here in NS (and other some provinces) we pay HST (Harmonized
Sales Tax) which is the total of the two, so we pay 13% on
everything to which the GST applies. HST is easy to figure out in
NS. It's 8% + 5% and we pay it on everything.

I got some stamps Friday (2 January) at a real Canada Post
Office (not one of those corner stores they contract out a lot of

this stuff to, and who don't know half of the regulations) and I paid 13% tax. You are correct in what it would cost you in Ontario, and I am correct in what I say it costs me in Nova Scotia. This is splitting hairs, I know, but it varies from province to province.

Your $0.98 stamps to the USA cost you $1.03, and mine cost me $1.11 . . .

73, Paul VE1DX

Hi Paul,

HST (Harmonized Sales Tax) still sounds confusing to me and a rip-off to boot ;o) This whole thing is crazy with postal rates varying from Province to Province. You folks on the east coast are really getting hit hard. I will have to do some Googling to find out what taxes the other provinces are paying. Insanity!!

As for penny post cards, I remember those very well. Nowadays a post card costs the same as a standard letter and poor Paul has to pay a few cents more for the same thing, in the same country. GL finding that place with the 5 cent bottle of coca-cola and the 20 cents/gallon gasoline ..... long gone.

All in all it costs over $1 to post to the USA and just under $2 to international destinations. EVERYONE USE THE BUREAU!!!! :o))

73 to all & HNY
Dave, VA3RJ
P.S. - Wonder what will happen if the coallition government takes over? With three guys in control, instead of one, that will really foul things up 3 times worse than things are now.

FOR IMMEDIATE RELEASE

?

?

January 6th, 2009

Desecheo 2009 Press Release #3

?

During the week of December 17-21, six members of the February 2009 Desecheo DXpedition team met in Puerto Rico.?? The team spent the first evening with local DXers and members of the Puerto Rico Amateur Radio League and enjoyed a wonderful dinner and a night of fellowship.? The hospitality was gracious and very much appreciated.

?

The following day the team visited US Fish and Wildlife Headquarters in Boqueron and met with the Chief Refuge Manager and law enforcement personnel.? Later that day, the DXpedition team members underwent UXO (unexploded ordnance) training.? The following morning, Friday, Dec. 19th, they accompanied U.S. Fish & Wildlife law enforcement and UXO personnel to Desecheo.? The campsite and antenna fields were thoroughly swept for UXO and several areas were found suspicious.? These areas were clearly marked, mapped by GPS and declared off limits for the DXpedition.? USFWS will allow antennas on the ridge above the helicopter pad, thus providing a clear shot to EU, NA and JA.? Other antennas will be located on the beach below the helicopter pad. The only radio operation that was conducted was to test a 2m link to Puerto Rico.? After three hours on the Island, the team endured a rough passage back to the mainland.

?

Logistics and staging of equipment is ongoing and will be complete before the team arrives in Puerto Rico on Feb. 7th.? The team will transit to Desecheo on Feb. 12 to begin the two-week operation. Eight HF stations plus 6 meters will be operational.?? An incredible array of antennas has been planned.? Transportation and logistics have been arranged for a fast deployment and quick appearance on the air.

?

The Desecheo 2009 team wishes to thank our sponsors for their generous support.? Special thanks go to North American and Japanese DX clubs and individual DXers.? Their support has been especially noteworthy.

?

Fundraising continues….if you or your Club would like to help out, please go to www.kp5.us (http://www.kp5.us/)/help.htm.? While on the team website, click the “Pictures” menu button and check out the pictures taken on the recent reconnaissance trip to Desecheo.

?

73,

?

TS7C , J-4
PRESS RELEASE Nr 3
To day we can say that the next F6KOP dxpedition to Tunisia,TS7C has really begun.
On Jan 6th , Bob, N6OXD, Bill, N2WB, Dieter OE8KDK and Stephan OE8SKQ arrived in Roissy CdG Paris airport. Michel, FM5CD was already here too.
Bob, Bill, Dieter and Stephan, will be awaiting the next departure at Bruno, F5AGB family's whilst Michel FM5CD has been hosted by Jeff, F6AOJ.
To day Mustapha, DL1BDF will be welcome at Roissy CdG airport , by Franco, F4EVR.
All the gear is picked up and stocked at Franco, F4EVR's who lives not far from the airport; It will be very easy to reach the CdG baggage check-in counter zone in time on next Friday night, without fever.
Now in France that's a sunny but very frosty weather with temperatures under 0C elsewhere and all day and night long. Michel FM5CD who arrives from Fort de France doesn't like that at all.
See two pictures at :
_http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_151.html_
(http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_151.html)
We think it will be a little better in Kerkennah, where the forecast announces a between 8 and 17 C heat but with some rain on the next week end.
Note the sunrise and sunset time in Kerkennah : 0728 and 1720.
Not scheduled but new now for Digitals lovers.
Thank to Jeff, F6AOJ, two bi-bands preamps for 160-80m had been repaired and will be brought to Tunisia by Michel, FM5CD So digitals mode are now included on traffic plan for 160m.
We thank again all of those who support our Expedition by any mean, funds, grant or loan of equipment, lodging op's, in Paris or around before and after the expedition, spreading information and so on.
Don't forget our Guest book at
http://users2.smartgb.com/g/g.php?a=s&i=g25-39174-06
(http://users2.smartgb.com/g/g.php?a=s&i=g25-39174-06)
See you on next Jan 8th in the evening.
TS7C team
TS7C , J-4
COMMUNIQUE N° 3
Aujourd'hui, nous pouvons dire que la prochaine expédition de F6KOP en Tunisie, TS7C a réellement commencé.
Hier, 6 janvier, Bob, N6OXD, Bill, N2WB, Dieter OE8KDK et Stephan OE8SKQ sont arrivés à Roissy CdG Paris . Michel, FM5CD était déjà là.
Bob, Bill, Dieter et Stephan, sont les hôtes de la famille de Bruno, F5AGB et Michel était hier soir chez Jeff, F6AOJ.
Aujourd'hui, c'est Mustapha, DL1BDF, qui sera accueilli par Franco, F4EVR.
Tout le matériel est rassemblé et stocké chez Franco, F4EVR qui n'habite pas très loin de l'aéroport. Il sera facile dans la nuit de vendredi d'arriver

aisément à la zone d’embarquement , sans fièvre.
Maintenant la France est sous le soleil mais avec des températures négatives jour et nuit partout. Michel, FM5CD qui arrive de Martinique n’aime pas ça du tout.
Voir : _http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_151.html_ (http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_151.html)
Nous pensons que ce sera un peu meilleur à Kerkennah où la météo prévoit dés températures comprises entre 8 et 17 degrés C, mais malheureusement avec de la pluie au moins pour le prochain week end.
Notez les heures de lever et coucher de soleil : 0728 et 1720.
Pas prévu à l’origine mais désormais NOUVEAU pour les amateurs de MODES NUMERIQUES.
Grâce à Jeff, F6AOJ, deux préampli bi-bandes 160/80m , Michel, FM5CD emmène en Tunisie deux préamplis bi bandes 160/80m remis en état. Les modes numériques ont intégré le plan de trafic pour la bande 160m.
Nous remercions encore tous ceux qui croient en nous et nous aident par tous moyens – aides financières, dons ou prêts de matériel, hébergement d’ opérateurs avant et après l’expédition à Paris ou en banlieue, rediffusion d’ information etc .. -.
N’oubliez pas notre livre d’or à :
http://users2.smartgb.com/g/g.php?a=s&i=g25-39174-06 (http://users2.smartgb.com/g/g.php?a=s&i=g25-39174-06)
Rendez vous le 8 au soir sur les bandes.
73

8047. OLD BARNEY ARC SPECIAL EVENT OPERATION

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-08 11:31:01 UTC
From: K1XN
Topic: 8047 Message: 8047

From: "Mediterraneo Dx Club H.Q."

DUE TO POPULAR DEMAND, THE OLD BARNEY ARC HAS DECIDED TO EXTEND THE N2OB/150 AND N2OB/LH SPECIAL EVENT OPERATION THROUGH MARCH 31, 2009.

HERE IS THE PREVIOUS ANNOUNCEMENT FOR REFERENCE WITH CORRECTED DATES.

MEMBERS OF THE OLD BARNEY AMATEUR RADIO CLUB www.obarc.org (http://www.obarc.org) WILL BE OPERATING AS N2OB/150 (or N2OB/LH) STARTING AT 0000 UTC DEC 27, 2008 THROUGH 2359 UTC MARCH 31, 2009. OPERATION WILL BE ON ALL BANDS AND MODES AVAILABLE. THIS WILL BE TO CELEBRATE THE RELIGHTING AND THE 150TH ANNIVERSARY OF THE BARNEGAT LIGHTHOUSE (NICKNAMED "OLD BARNEY"). YES, "OLD BARNEY" WAS OFFICIALLY RELIT ON JANUARY 1, 2009 , WHICH WAS THE 150TH ANNIVERSARY OF IT'S ORIGINAL LIGHTING (JAN 1, 1859). THE LIGHTHOUSE WAS OFFICIALLY SHUT DOWN IN 1944 AND BECAME A STATE PARK IN 1957. SINCE THAT TIME, ONLY A 250 WATT LIGHT WAS LIT FOR AESTHETICS ONLY. ON JAN 1ST, A NEW LIGHT WITH A NEW FRESNEL LENS WAS LIGHTED AND OLD BARNEY ONCE AGAIN IS AN OFFICIAL (PRIVATE) NAVIGATIONAL AID. See http://www.southjersey.com/articles/?articleid=19695 for info on the relighting. N2OB/150 STATIONS WILL BE OPERATING FROM VARIOUS LOCATIONS AROUND "OCEAN COUNTY". SOME OPERATIONS FROM THE LIGHTHOUSE PROPERTY MAY BE POSSIBLE AND WILL USE N2OB/LH WHICH WILL COUNT FOR WORKING THE LIGHTHOUSE AND IOTA NA-111. A NICE COLOR PHOTO QSL IS BEING PLANNED SHOWING THE RELIGHTING OF THE LIGHTHOUSE. QSL VIA N2OB (SASE REQUESTED) OR DX STATIONS VIA BUREAU IS OK.

Regards,

Bob Schenck, N2OO

Hi friends

TS7C

The crew has took off.

This is the first picture this morning at Orly airport Paris.

As you an see, they are a little bit frozen.

The plane is in time so the planning has now good chances to be done.

Stay tuned, first signals this evening.

Unfortunately we have to regret the missing in the crew of Gabriele, I2VGW, for personal means and also for Milan Paris flights cancellations because of the weather.

73

Maurice, F5NQL Internet communictions for TS7C

Bonjour à tous

TS7C:

Ils ont décollé

Voici la première^photo prise ce matin à Orly.
Comme vous pouvez le voir ils sont un peu gelés.

Le vol est à l'heure aussi l'emploi du temps a de très bonnes chances d'être tenu.

Restez à l'écoute et surveillez les clusters

Nous regrettons l'absence de Gabriele, I2VGW, retenu par des problèmes familiaux et l'annulation de tous les vols Milan Paris à cause de la météo.

73

Maurice, F5NQL, Communications Internet pour TS7C.

Topic: 5889 Message: 8049

The JANUARY 2009 Issue #901-B files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

8050. ICPO Bulletin (January 08 - 16, 2009)

Yahoo group: GOLIST (2007 — 2010)

I.C.P.O. Bulletin (January 08 - 16, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

05/01/2009: Mike, OM2DX (aka E4/OM2DX, YI9X..etc) is in Hanoi, Vietnam, working for the Embassy of the Slovak Republic and he has obtained a licence (January 5th) with call signs XV9DX and 3W1M. During the next 3 years he will be active on all bands using CW, SSB and Digital modes. QSL via OM3JW. [OM3JW]

08/01/2009: Bernhard, DL2GAC will be active again as H44MS from Honiara, Solomon Islands, (OC-047) between January 8th and April 28th. He works SSB only and plans to focus especially on 40m/80m. He will be joined by the CW op Sigi/DK9FN, and the EME op Hermann/DL2NUD, by the end of February. All three of them are planning also a short trip to Temotu (H40) for two or three weeks. Their flight to Lata, the capital of Temotu, has been booked for March 2nd. Sigi will return to home on March 16th and Hermann on April 9th. [DX Newsletter]

08/01/2009: The Provins ARC, F6KOP will be active as TS7C from the Hotel Cercina, Sidi Fredj, Ile Chergui (WLOTA LH-3459, Kerkennah Islands (AF-073), Tunisia, from January 8-18th. Planned activity will be on all HF bands, using CW, SSB, FM, and several digital modes like RTTY, PSK31, BPSK and also SSTV. The team will pay attention on 160, 80 and 40m, but all the other bands will be worked as well. They also plan to have at least six, but probably seven stations, working 24 hours a day, all with PA's into beams, verticals and wire antennas. Operators mentioned include Frank/F4AJQ, Mustapha/DL1BDF, Bernard/F9IE, Bob/N6OX, Jean-Paul/F8BJI, Sylvain/F4EGD, Flo/F5CWU, Gerard/F2VX, Bill/N2WB, Michel/FM5CD, S?bastien/F5UFX, S?bastien/F8IJV, Jean-Luc/F6BIV, Norbert/F6AXX, Alain/F6ENO, Dieter/OE8KDK, Stefan/OE8SKQ, Mathieu/F5PED, Eric/ON7RN, John/F5VHQ, Romain/F8BUI, Gillares/F1HRE, Franco/F4EVR, Michel/F5EOT, Arno/OE9AMJ, Tony/G0OPB, Gabriele/I2VGW and XYL Anne Marie Laurent (photo reporter). Pilots stations will be Pascal/F5JSD, Serge/F6AML, Thierry/F4TTR and Bruno/F5AGB. QSL via F4EGD, e-mail request or bureau or direct. Logs will be upoaded to LoTW. Further information at: www.ts7c.net/. [F5NQL]

09/01/2009: Look for Niels, OZ8KR to be active as C56KR from Bakuto, The Gambia, between January 9-14th. QRV 40-10m SSB, using FT-857 and wire antennas. After travling in Senegal (no activity planned) he will be active again from January 23rd to February 4th. QSL via home call. [NG3K]

09/01/2009: Adolfo, EA7TV (ARLHS member 1541) will be active 1500z January 9th to 1200z January 11th as ED7TV from the Rota (New) lighthouse (ARLHS SPA-085) and Rota (Old) lighthouse (ARLHS SPA-339). QRV 40 and 20 meters, using SSB and RTTY. QSL via EA7TV, direct or bureau (NO eQSL or LoTW). [ARLHS]

09/01/2009: Cody, KC2LSD (FISTS #11793) will be QRV from Colombia as HK3/KC2LSD from January 9-15th, mainly 2300 UTC on 40, 30 and 20 meter CW, with some day time operation as well. A contact with Cody is good for the FISTS 2009 WARC Band Challenge (Grid Loc. FJ24). He will usually get spotted on the cluster, but this time he will post himself on

www.obriensweb.com/sked/. To set up a sked with Cody, send an e-mail to: kc2lsd at yahoo dot com. QSL via home call. [K1XN]

11/01/2009: Jorg, DG1NAU/P will be active January 11, starting around 0900 UTC, from Platte Summit (SOTA reference DM/BM-174, 946m, 10 points). QRV 28.500 MHz SSB for the 10 meter contest. QSL via home call, direct or bureau. [SOTA Watch]

12/01/2009: Andrew, G7COD will be operational for the fifth time from the Island of Embudu in the South Male Atoll (WLOTA LH-3911), Maldive Islands (AS-013), using the call 8Q7AK from January 11-27th. Using SSB and CW on the 40 to 10 meter bands including WARC, he will be operational every day from approximately 07:30 to 08:30, 09:00 to 10:30, 13:00 to 1500 and 17:30 to 18:00 UTC. Spot frequencies to be used are: SSB - 7.063, 14.147, 18.133, 21.253 and 24.953 MHz (+/- 10kHz for QRM); CW - 7.003, 10.103, 14.003, 18.073, 21.003 and 24.893 MHz (+/- 10kHz for QRM); For comprehensive details of QSL information etc., please check 8Q7AK on QRZ.com. All QSL's should be sent via the bureau or direct to G7COD. Please note: 8Q7AK is approved for DXCC credits. [Pete's DX Newsdesk]

12/01/2009: Peter, EA5GVH will be on vacation to the island of Aruba (SA-036, also count for WLOTA LH-0033) between January 12th and 28th. He will be QRV as P40PZ on 80-6 meters using mainly digital modes (PSK, Olivia, FeldHell, SSTV, RTTY and others) with some SSB. QSL to EA5GVH direct, bureau or e-QSL. [NG3K]

12/01/2009: The Japy DX Group are planning an operation in Bahia (WW Loc. HH18FD), Brazil, devoted to Transatlantic Tropo Ducting events between Africa and America, following the main expedition of V5/KT6Q. QRV January 12-17th using the call sign PY6/PY2ENO on 50, 144 and 432 MHz using SSB, CW, and Digital modes (included WSJT). They will use Yaesu FT-897D and Icom IC-706MKIIG; homebrew amplifiers by PY3FF - 500W 144 MHz; Mirage B1010 100W 432 MHz; 7 elements KLM 6M 7LD horizontally polarized for 50MHz, 12 elements K1FO by PY2NI horizontally polarized for 144MHz and 22 elements K1FO by PY2NI horizontally polarized for 432MHz. Further information can be found at: transatlantic.japydx.org/ . About Bahia operation with photos and map (in english): www.japydx.org/ta/bahia2.html [N8OFS]

12/01/2009: Steve, G3ZVW will be active again as ZD8N from Ascension Island (AF-003) from January 12-27th. Activity will be on CW, RTTY and SSB, mainly on the HF bands (30-10 meters). QSLs direct or via bureau to G3ZVW. [425 DX News]

15/01/2009: Chris (ex-5U5U) expects to start activity from the Central African Republic (requested call TL0A) around January 15th. He will operate in his spare time, with an amplifier and a 6-band yagi, plus dipoles and a long wire. QSL to Christian Saint Arroman, Chemin de Mouteguy, 64990 Urcuit, France. [425 DX News]

16/01/2009: Tom, DL2RMC will be active holiday-style from Senegal as 6W/DL2RMC, or a 6V call, from January 16-29th, including an entry in the CQWW DX CW 160m Contest (January 23-25th). Look for activity on all bands and modes, with focus on low bands. QSL via DL1RTL. [NG3K]

16/01/2009: Yoshi, JE2EHP, will be active as K1HP/KH2 from Guam Island (OC-026, USi GU-003S, WLOTA LH-0064) between January 16-19th. Activity will be on all HF bands and 6m, using CW, SSB and RTTY. QSL is via bureau to his home call sign JE2EHP. [OPDX Bulletin]

16/01/2008: The expedition to St. Martin's Island (AS-127, WLOTA LH-2351), Bangladesh, is scheduled to take place January 16-22nd. The operators will be Rabby/S21RC, Manju/S21AM, Lal/S21DM and Sohel/S21S, and they plan to be active on 80-10 meter SSB and RTTY (sorry -

no 30 meters). QSL via EB7DX, direct only. Further information can be found at: s2iota.eb7dx.com/ [NG3K]

16/01/2009: Mike/JA6EGL (T88SM), Yas/JA6UBY (T88CP), Yu/JE6DND (T88HK) and Hiro/JA6KYU (T88HS) will be active from Koror Island, Palau Islands (OC-009), from January 16-18th. They plan to operate CW and SSB on 80-10 meters. QSL via home calls, direct only. [425 DX News]

==========

LOOKING AHEAD -

14/02/2009: February 14 for one week - including ARRL DX CW contest - to Grenada, Nicaragua. Stan/AC8W, Hank/K8DD, Jim/N8TXZ and Lee/N8LJ. QSL via info on QRZ.com. Calls will either be H7/homecall or YN2 calls. TBA. Emphasis on 160m, 80m and WARC. [K1XN]

21/02/2009: John, K6AM will be active from Savannah, Grand Cayman Island (NA-016, WLOTA LH-1042) as ZF2AM during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band/High-Power entry. QSL to home call via direct, bureau and LoTW. [NG3K]

21/02/2009: Operators Jacky/ZL3CW, Aki/ZL1GO, Romeo/ZL2RU and Ken/ZL1AIH will be active as ZM1A from the north island of New Zealand (OC-036, WLOTA LH-0069) for the ARRL DX CW Contest (February 21-22nd) as Multi-Single entry. QSL via ZL1AMO. [NG3K]

07/03/2009: Jacky/ZL3CW, Aki/ZL1GO, Romeo/ZL2RU and Ken/ZL1AIH will be active from New Zealand (OC-036, WLOTA LH-0069) as ZM1A during the ARRL DX SSB Contest (March 07-08th) as a Multi-Single entry. QSL via ZL1AMO. [NG3K]

21/07/2009: NOTE CHANGE OF ISLAND - The same group that activated Chuginadak Island (NA-234) is now planning to activate Ogliuga Island (NA-233, Grid AO52) in the Delarof Islands Group next year between July 21 and August 3, 2009. Jeff Williams with USFWS (KL2HD) suggested to land on Ogliuga instead of Goreloi due to much better camping spot and portion of it not wilderness, so generator can be used. Call sign will be KL7RRC. Activity is planned for all bands 160-6 meters. QSL Manager and full operator list TBC nearer the date. Look for details on: www.na-234.com/contact_chuginadak_expedition.html [N8OFS]

==========

SPECIAL EVENTS -

10/01/2009: Special event station NI6IW can again be heard from the USS MIDWAY radio room on January 10, 2009 from 1700Z - 0059Z. Aircrafts from USS MIDWAY flew the initial air strikes of operation Desert Storm. This was the final combat mission for USS MIDWAY. NI6IW will be operating on the following HF bands: SSB - 14.320 and 7.250 MHz; CW - 14.060 and 7.055 MHz; PSK31 - 7.070 - 7.080 MHz; RTTY - 7.080 and 14.080 MHz. QSL: SASE to USS MIDWAY Museum Radio Room, 910 North Harbor Drive, San Diego, CA 92101 or email af6ha@...

15/01/2009: Special event station 8N8TKS will be aired from the middle of January until May 24th for the 51st JARL Annual General Meeting in Kushiro(-city): "Tancho (or Japanese Crane) Kushiro(-city) Sokai (or General Meeting)"). Kushiro-city is famous for Japanese crane. QSL via the JARL bureau. [JJ1WTL/AC6IM]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

==========

==========
U.S. COUNTIES (USA-CA) -

10/01/2009: Terry, WQ7A (Marac R-3021) and XYL will make the attempt to get to San Juan county, State of Washington, on January 10th. 150 miles to the ferry dock. Ferry leaves at 1840z. Yawn. QRV usual county hunters' frequencies, SSB only. Hope to work y'all. Good Luck. Send email requests to wq7a@... [County Hunter Web]

11/01/2009: Bob, N4XML/m has planned this trip to help a few finish up the State of South Carolina on January 11th. He will also have on request the call sign 'W4GS' which is his club call sign and Bob is the trustee Therefore I am good for 1 Star, Bingo and Masters Gold. Bob is having problems listing the counties he plans on running, so email him and he will send you a word document of his trip. He plans to run 40, 20 and 80 meters, as it will be late when he finishes up the run. If the broadcast stations interfere he will move up or down frequency. Bob has emailed those on this sites special needs list so if you need any of these and you do not have them listed you may want to drop him an email with your phone number and he will make an extra effort to contact you. Send email requests to n4xml@... [County Hunter Web]
==========
SIX METERS & UP -

- Frank, DL8YHR, plans his next expedition towards ASIA for end of March, begin of April... Frank and an other friend will try to setup 50, 144 and 432 MHz EME Stations and as well a 160m Rig. More infos will follow as soon as all details fixed here at: www.mmmonvhf.de/latest.php?id=2195 [MMMonVHF]

- Multi-op station N3NGE located near Morgantown, PA will be active for the January VHF Contest on bands 6 thru 10G with lots of power and big and high antennas. FN20bd We will also be operating WSJT on 6 and 2 meters during the wee hours of Sunday Morning. Skeds are welcome (K3EGE@...). [N8OFS]

- The January VHF contest is looming in the near future. We will be operating the K5QE contest station for the entire contest (assuming that we can come up with enough operators....HI). Date and Contest Period: The date will be announced annually by the ARRL but will generally be the third or fourth weekend in January. Begins 1900 UTC Saturday, ends 0359 UTC Monday (January 17-19, 2009). Read all in details: http://www.mmmonvhf.de/latest.php?id=2204 [MMMonVHF]

==========
SILENT KEYS -

Prof. Olavo Rufino, PY5BAZ became Silent Key December 18, 2008 at the age of 74.
==========
BITS & PIECES -

5X - UGANDA
Peter, 5X4X is working as a development aid worker in Arua/Uganda until June 2009. He uses a Yaesu FT-950 (100 watts), a spiderbeam for 20m/17m/15m/12m/10m pointing to Europe mostly

and a Zepp antenna for 40m. Peter complains that a pirate abuses his call sign on 40m, 80m and 160m. If you make any contacts with him in the evening hours you should be aware that the power line in Arua is cut after 2000 UTC. The QSL manager for Peter is DF5GQ. [DX Newsletter]

CO - CUBA (NA-015)
Eduardo, CO8LY is working in PKS31, RTTY, CW and SSB on all bands and appreciates any skeds via his e-mail: co8ly@... His QSL manager is EA7ADH, who confirms only direct unfortunately.

The EPC WW DX Contest Comittee would like to invite you to participate in the 1st EPC WW DX Contest that will take place from 12.00UTC on 31 January untill 12.00 UTC February 1st, in BPSK125.

All information is on: www.epcwwdx.srars.org/

Please join us with your participation, and also we would require your help in promoting this event to all your Amateur Radio friends.

We would like to wish you all Happy New Year 2009

Luis - CT3EE - EPC #278

On the occasion of 21st World Handball Championship in Croatia - 2009 Croatian Amateur Radio Association, in order to promote sports and amateur radio in Croatia, issuing special award under the name:

MEN's WORLD HANDBALL CHAMPIONSHIP CROATIA 2009

Award is available to all amateur radio and SWL stations that in the period from 1st January until 1st February 2009 establish certain number of QSOs with special stations from 7 cities in which will be held 21st World Handball Championship for men as follows: Zagreb, Varazdin, Osijek, Porec, Pula, Zadar and Split.

All modes of operation are allowed: CW, SSB, DIGITAL, MIX.

For the award it is necessary to work just one special station in each city on any band.

Special stations from before mentioned cities will operate under following call signs:

ZAGREB - 9A2009ZG
VARAZDIN - 9A2009VZ
OSIJEK - 9A2009OS
PORE? - 9A2009PO
PULA - 9A2009PU
ZADAR - 9A2009ZD
SPLIT - 9A2009ST

Award is divided in 3 categories:

Bronze
- it is necessary to make QSOs with 3 stations.

Silver
- it is necessary to make QSOs with 5 stations.

Gold
- it is necessary to make QSOs with all 7 stations.

It isn't necessary to have QSL cards to get the award in any category.

Request award with fee in amount of 10 Euro or 10 USD included must be sent no later than 31st December 2009 to the following address:

HRVATSKI RADIO AMATERSKI SAVEZ
(award manager)
Dalmatinska 12
HR - 10000 ZAGREB
CROATIA - HRVATSKA

For all QSOs with special stations QSL cards will be sent through the bureau automatically.

RUSSIA: Castles on the Air Award (COTA-RU)
Full information and rules, in both Russian and English language, can be found at:

DUE TO POPULAR DEMAND, THE OLD BARNEY ARC HAS DECIDED TO EXTEND THE N2OB/150 AND N2OB/LH SPECIAL EVENT OPERATION THROUGH MARCH 31, 2009.

HERE IS THE PREVIOUS ANNOUNCEMENT FOR REFERENCE WITH CORRECTED DATES.

MEMBERS OF THE OLD BARNEY AMATEUR RADIO CLUB www.obarc.org WILL BE OPERATING AS N2OB/150 (or N2OB/LH) STARTING AT 0000 UTC DEC 27, 2008 THROUGH 2359 UTC MARCH 31, 2009. OPERATION WILL BE ON ALL BANDS AND MODES AVAILABLE. THIS WILL BE TO CELEBRATE THE RELIGHTING AND THE 150TH ANNIVERSARY OF THE BARNEGAT LIGHTHOUSE (NICKNAMED "OLD BARNEY"). YES, "OLD BARNEY" WAS OFFICIALLY RELIT ON JANUARY 1, 2009 , WHICH WAS THE 150TH ANNIVERSARY OF IT'S ORIGINAL LIGHTING (JAN 1, 1859). THE LIGHTHOUSE WAS OFFICIALLY SHUT DOWN IN 1944 AND BECAME A STATE PARK IN 1957. SINCE THAT TIME, ONLY A 250 WATT LIGHT WAS LIT FOR AESTHETICS ONLY. ON JAN 1ST, A NEW LIGHT WITH A NEW FRESNEL LENS WAS LIGHTED AND OLD BARNEY ONCE AGAIN IS AN OFFICIAL (PRIVATE) NAVIGATIONAL AID. See http://www.southjersey.com/articles/?articleid=19695 for info on the relighting. N2OB/150 STATIONS WILL BE OPERATING FROM VARIOUS LOCATIONS AROUND "OCEAN COUNTY". SOME OPERATIONS FROM THE LIGHTHOUSE PROPERTY MAY BE POSSIBLE AND WILL USE N2OB/LH WHICH WILL COUNT FOR WORKING THE LIGHTHOUSE AND IOTA NA-111. A NICE COLOR PHOTO QSL IS BEING PLANNED SHOWING THE RELIGHTING OF THE LIGHTHOUSE. QSL VIA N2OB (SASE REQUESTED) OR DX STATIONS VIA BUREAU IS OK. [N2OO]

8051. TS7C

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-09 21:07:37 UTC
From: F5nql@aol.com
Topic: 8051 Message: 8051

Hi ftriends

We have to inform you about the delay concerning the beginning of the operation TS7C

Unfortunately it seems that some rules have been changed in Tunisia about the agreement of transmitters between the first information given when the licence was asked, and the instructions in hand of the Tunisian Customs. So when the crew arrived in Sfax Airport, the transceivers had been saized and sent for checking in Tunis, 400km far from.

Mustapha, DL1BDF and the Tunisian Amateur Radio Association Chairman,spent all day long to try to solve this problem.

At six PM, Mustapha, DL1BDF;, said Frank, F4AJQ that all was solved for only three transceivers and he was on the way to Sfax .

When Mustapha arrived in Sfax it was too late to take the last boat.

One of the crew, may be two will have to return in Tunis in next Monday to see how is the other transceivers situation.

In such a case the only thing we can do is crossing the fingers to know a better situation on Monday as today"

with sadness,

73
Maurice, F5NQL, Internet information for TS7C

Bonsoir à tous

Nous vous devons quelques explications à propos du retard de TS7C

Il semble qu'il y ait eu quelques différences entre les conditions d'agrément des transceivers entre le moment où nous les avons déclaré, et le moment où ils int été présentés à la Douane de Sfax.
A l'arrivée de l'équipe, les huit transceivers (les six de l'expédition et les deux qui doivent équiper un futur radio club scout), ont été saisis et transférés à Tunis, à 400 km de là.

Mustapha et le Président des RadioAmateurs Tunisiens se sont rendus à Tunis pour essayer de débloquer l'affaire.

A six heures ce soir, Mustapha, DL1BDF, prévenait Frank, F4AJQ, qu'il rentrait aussi vite que possible à Kerkennah, avec trois transceivers seulement, mais il a raté le dernier bateau. Les premiers signaux ne pourront toujours pas arriver avant 0630 heures locales demain matin.

Un ou deux de l'équipe devront de toute manières remonter à Tunis lundi pour essayer de résoudre la situation des cinq transceivers restant.

La seule chose que nous puissions faire est de croiser les doigts pour que la situation s'améliore.

Ave tristesse.

Hi ftriends

?

We have to inform you about the delay concerning the beginning of the operation TS7C

?

Unfortunately it seems that some rules have been changed in Tunisia about the agreement of transmitters between the first information given when the licence was asked, and the instructions in hand of the Tunisian Customs.

So when the crew arrived in Sfax Airport, the transceivers had been saized and sent?for checking in Tunis, 400km far from.?

?

Mustapha, DL1BDF and the Tunisian Amateur Radio Association Chairman,spent all day long to try to solve this problem.

?

At six PM, Mustapha, DL1BDF;, said Frank, F4AJQ that all was solved for only three transceivers and he was?on the way to Sfax .

?

When Mustapha arrived in Sfax it was too late to take the last boat.

?

One of the crew, may be two will have to return in Tunis in next Monday to see how is the other transceivers situation.

?

?

In such a case the only thing we can do is crossing the fingers to know a better situation on?Monday as today"

?

with sadness,

?

Hi fr(iends

On the air at last

The crew has begun at last the TS7C activity this morning, with only 3 transceivers. (The other are always in Tunis at the Customs, until next Monday)

Have luck with our team on as many bands as possible.

73

Maurice, F5NQL, Internet communications for TS7C

Bonjour à tous

Enfn sur l'air

L'équipe a enfin pu démarrer ce matin avec trois transceivers (lesautres sont toupours aux Douanes à Tunis, nous espérons les mettre sur l'air lundi fin d'après midi ou mardi matin.

Bonne chance avec notre équipe sur un maximum de bandes.

Hi friends

From the crew

Yesterday evening instead of the morning events (only three then four transceivers and no electricity during more then one hour), the 5000 QSO's were logged and more.

Congratulations to UA1AKE who open the log at 0636utc.

The crew is fully in the action and there is no dead time .
To day the four stations are in action and will appera on as many bands and modes as possible according to the propagation which is checked permanently by the pilots.

To morrow we expect to take back the transceivers still bonded in Tunis at the Customs; We hope to be able to traffic with six transceivers before 1900z or lately on Tuesday early morning.

Jean Paul F8BJI, and the Digital crew are working very hard . They are trying to establish new records on these modes for a DXpedition.

More information to come in due time.

Don't forget the guestbook on the TS7C website.
(_http://users2.smartgb.com/g/g.php?a=s&i=g25-39174-06_
(http://users2.smartgb.com/g/g.php?a=s&i=g

Welcome to you on our logbook.

You are all our only reason to make these F6KOP dxpeditions.

73

Maurice, F5NQL, TS7C Internet Communications.

Bonjour à tous

De l'équipe

Hier soir, en dépit des évènements de la journée (seulement trois puis quatre transceivers au lieu de six et deux heures de coupure d'électricité), nous avons réussi à franchir la barre des 5000 QSO.

Félicitations à UA1AKE qui a ouvert le carnet de trafic à 0636 utc.

L'équipe en pleinement en action et il n'y a pas de temps morts.

Aujourd'hui les quatre stations vont continuer a apparaître sur les bandes en fonction de la propagation, sans cesse surveillée par les pilotes.

Demain nous espérons récupérer les transceivers toujours bloqués aux Douanes de Tunis. Nous espérons donc enfin disposer de six stations demain soir avant 1900z ou au plus tard mardi matin à la première heure.

Jean Paul F8BJI, et l'équipe des modes numériques travaillent très dur. Ils essaient de récupérer le record des QSO que leur avaient ravi les opérateurs de VP6DX.

Plus d'information au fil de l'eau.

N'oubliez pas le livre d'or de l'expédition (

8058. WAS LoTW Account Information

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-12 14:55:26 UTC
From: K1XN
Topic: 8058 Message: 8058

WAS LoTW Account Information

Jan 9, 2009 11:25 ET
Bill Moore, NC1L

Some users may have noticed that their WAS totals have changed or have completely gone away. On Jan 1, 2009 LoTW refreshed all WAS accounts to accommodate the new Triple Play award. Your Triple Play record is shown as a sub award in your WAS account just as band and mode sub-awards are shown.

If your account had no QSO rules then the system had no way of applying your QSO credits.

This is easily fixed by adding a rule to your WAS account. All WAS accounts must have at least one rule.

To add a rule to your WAS account simply access your WAS account then select 'MODIFY ACCOUNT'. Follow these steps to complete the process:

Click 'Add Rule To QSO Set'

Next, select the type of rule you want to apply. Drop the box down, make your selection then click 'Add Rule'

(Next it may ask you here to select a callsign if you have more than one account. If so, select the callsign you want to change).

If there is only one callsign in the account the next screen will say 'Save Account Changes'

Click this and your account should be OK now.

Note, if you feed more than one WAS account for different locations you must do this for each account.

Some accounts are very simple and will only require a callsign rule. Other accounts may be more complex requiring multiple rules to accommodate your operations. WAS accounts can be configured to automatically select those of your QSOs that both qualify for a WAS award and also match a set of rules you specify. A QSO Set is a list of rules that define QSOs that will be matched. Your account can include more than one QSO Set if needed to encompass all of your QSOs that are eligible for the awards.

The rules that make up a QSO Set each compare the value of a field related to the QSO. The fields that may be used for this comparison are the call sign you used to make the QSO, the QSO date, and several geographical fields. At least one rule must be included in a QSO Set in order to match any QSOs. If more than one rule is present in the QSO Set, you may choose

whether the QSOs must match all of the specified rules or any of the specified rules.

CQ Communications, Inc. / 25 Newbridge Rd. / Hicksville, NY 11801 / Phone: (516) 681-2922 / Fax: (516-681-2926) / e-mail:w2vu@...

NEWS RELEASE

For more information, contact:

Richard Moseson, W2VU
Editor, CQ Amateur Radio
(516) 681-2922 / w2vu@...

Dave Morris, N5UP
Founder and Webmaster, eQSL.cc
N5UP@...

FOR IMMEDIATE RELEASE: January 13, 2009

CQ to Accept eQSL Confirmations for Award Credit
(Hicksville, NY and Bedford, TX, January 13, 2009) - CQ magazine will accept contact confirmations made on the eQSL.cc electronic confirmation system for its operating awards effective immediately, CQ Editor Rich Moseson, W2VU, and eQSL Founder and Webmaster Dave Morris, N5UP, announced today.

There will be certain limitations and procedural differences for different awards, at least to start. Only confirmations from "Authenticity Guaranteed" members of eQSL will be accepted, and in accordance with existing eQSL policy, a membership level of bronze or higher is required in order to participate in award programs via eQSL.

"This is the first time that CQ has formally accepted anything other than traditional paper QSL cards for its awards," said Moseson. "We have been working with Dave Morris and his team for several months to assure that the integrity of our awards programs will be protected and to create mechanisms to make it easy for both award applicants and award managers to use eQSL credits toward our awards. All of our award managers have been involved in this process and support this action."

"We want to express our great appreciation to Dave and his team for their willingness to do whatever was necessary to make this agreement possible," Moseson added. "It has been a pleasure working with them and we look forward to a long-lasting relationship."

"We are pleased to be adding CQ to the top of our list of amateur organizations that accept electronic QSLs," said Morris. "CQ has some of the most highly sought-after awards, and we have been working behind the scenes for years to create credit submission mechanisms that would ensure the integrity of their programs without introducing any additional labor for the award managers.

We believe the electronic QSL can drastically reduce costs, and the award application mechanisms we have developed will provide for more efficient processing at reduced cost for both the applicant and the award manager."

Applicants for the CQ DX and CQ DX Field Awards must print out their eQSLs and submit them along with their traditional QSLs to a CQ checkpoint or to CQ DX Awards Manager Billy Williams, N4UF. eQSL has an automated process in place for applicants for CQ's Worked All Zones, WPX and USA-Counties awards. N5UP explains how that will work for the applicant:

"The applicant goes to the My Awards screen. He clicks on the particular award he wants to apply for. This brings up a list of the credits our system 'thinks' he is entitled to. There are checkboxes that allow him to check which ones he wants to use, and we automatically pre-fill one credit per category so he doesn't have to do anything if he wants to take the defaults. At the bottom of the screen are two buttons: 'Submit to CQ' and 'Print Paper Application'."

The "submit" button will place all the selected QSOs into a file for the award manager to access, while the "print" button will generate a printed list to be submitted along with the traditional application. PLEASE NOTE that ALL applicants must send the award fee payment to the CQ Award Manager, regardless of how the application is submitted. Some CQ award managers are now accepting PayPal; see individual award web pages for details. All awards will continue to accept traditional QSLs as well as eQSLs. For the USA-Counties Award (USA-CA), applicants must note on their record books (or printouts) whether each county has been confirmed traditionally (with an "X" to the right of the entry) or electronically (with an "E" next to the entry).

For more information on eQSL, visit http://www.eQSL.cc

For more information on CQ awards, visit the awards page on the CQ website at http://www.cq-amateur-radio.com. Please note that the award rules posted on the website have not yet been updated to reflect the acceptance of eQSLs. This will be done as soon as possible, but the policy takes effect immediately.

Hi folks,
??? It is official, you can now apply for CQ awards using the Eqsl.cc system.? You must join the Eqsl Bronze level, cost you $5.00 to use Eqsl.cc qsls. You then must still buy the award you are after from CQ.
?? This is not much different than LOTW except joining LOTW is free, but you must still buy the awards.
??? In the past, Eqsl matches were very shoddy. Wonder how they improved the integrity of this system?

Good Day,

2009 is the 400th anniversary of the settlement of Bermuda by Sir George Somers. Most local organisations are having an event of some kind during the year. The Radio Society of Bermuda has been issued with a special call sign that can be used all year, it is VP9400/xx.

The xx suffix is the operator's call sign, i.e. VP9400/LP. There are a few novice licence holders who have a 3 digit suffix, i.e. VP9400/NMT. +Special pictorial postcards will be used to QSL.

We would be grateful if you would kindly pass this information on to your members through your usual channels.

Thank you for your assistance in this matter,

73's

Rose Spershott, VP9LP
Secretary
Radio Society of Bermuda.

Hi friends
TS7C news :
From the Crew and the pilots
Finally we had the good suprise, Gabriele, I2VGW could take a plane and he is now in Kerkennah with the other members of the team.
We regret also the arrival of the "Montezuma's revenge," the Turista as said here. Arno, OE9AMJ, is very ill with that, fever and explosive diarhea. Jean Paul, F8BJI and Dieter, OE8KDK are also ill with the same but a little less.
We cross the fingers for that will not turn into epidemia.
We wish Arno, Dieter and Jean-Paul, a quick recover.
Other bad new about the gear ; we have not yet the missings transceivers, still bounded in the Customs desk in Tunis.
Mustapha, DL1BDF, had to day a phone communication with these services and, as promised by the Customs, the transceivers may be delivered in Kerkennah, to morrow in the early morning.
The weather is not very fine. A 15 degrees centigrades is the higher temperature during the day. Rain, fog and wind are here too.
The crew has set up to day the last Spiderbeam, and now they have a four square and a beam usable on 40m wich will be one of the most used bands for the two next nights, especially in CW.
Instead of his illness, Jean-Paul , F8BJI leads the Digitals crew as hardly as possible. They have a goal about the record on RTTY QSO’s by a dxpedition. They areworking on very hard. Thanks to all of you who had QSO’d and the other who will do the same in next days. Try to QSO TS7C RTTY on as many bands as possible.
The barrier of 20 000 contacts was broken this morning.
See you on the bands and modes and also on our guest book.
The updated log at Tuesday noon is online
73
Maurice, F5NQL, Internet comunications for TS7C
Bonsoir à tous.
Nouvelles de TS7C.
De l’équipe et des pilotes :
Finalement nous avons eu la bonne surprise de voir arriver Gabriele, I2VGW , qui a pu trouver un avion pour la Tunisie ; l’équipe est maintenant au complet à Kerkennah.
Nous regrettons par contre l’arrivée de la Tourista.
Arno, OE9AMJ, est très malade avec beaucoup de fièvre et des diarrhées importantes. Jean Paul, F8BJI et Dieter, OE8KDK sont également malades, mais un peu moins tout de même.
On croise tous les doigts pour que ça ne tourne pas à l’épidémie.
Nous souhaitons à Arno, Dieter et Jean-Paul, de se rétablir rapidement.
Autre mauvaise nouvelle, à propos du matériel cette fois ci. Les transceivers sont toujours bloqués aux douanes à Tunis.

Mustapha, DL1BDF, a eu aujourd’hui une communication téléphonique avec les services douaniers et on nous a promis le retour des transceivers pour demain matin de bonne heure.
La météo n’est pas très sereine. La température ne dépasse pas 15 degrés dans la journée, avec en permanence de la pluie, du brouillard et du vent.
L’équipe a monté aujourd’hui la dernière Spiderbeam,; Ils disposent maintenant sur 40m de quatre verticales en phase et d’une beam. Cette bande sera l’ une des plus utilisées les deux nuits prochaines, spécialement en CW.
En dépit de sa fatigue, Jean Paul continue de diriger l’équipe des modes numériques, de min de maître. Ils travaillent dur, car ils ont un but, reprendre le record du nombre de QSO RTTY, dans une expédition.
Merci à tous ceux qui nous ont déjà appelés, et qui le feront dans les jours qui viennent. N’hésitez pas à essayer TS7C RTTY, sur toutes les bandes.
La barrière des 20 000 QSO a été franchie ce matin.
A bientôt sur les bandes et aussi sur notre livre d’or.
Le log à jour à mardi midi est en ligne.

Club chairman

FRENCH CASTLES
On next Saturday starting around 0700 utc look for François, F5JNE along
with Gerard, F6ICG to be active as F5JNE/p from the Castle of La Garenne DFCF
89304 , in the city of Annoux zip code 89440 and canton of l'Isle sur Serein
DDCF 89-18 .
80&40m, CW/SSB.*QSL via bureau, swl cards welcome.
Amitiés François
Tks François, F5JNE.
CASHOTA IRELAND

Oranmore Castle Activation Saturday the 24th and Sunday the 25th of January.

Members of the Galway VHF Group will be activating Oranmore Castle on from
Mid-day Saturday the 24th to 4pm on Sunday the 25th of January. Oranmore
Castle is situated on the shore of Galway Bay only a few hundred yards from the
Village of Oranmore. Oranmore Castle is Designated EI/001/C for the puposes of
CASHOTA and it is located in WAB Square M32. Operation will be on all bands
depending on conditions.

The Castle was built sometime around the fifteenth century. Oranmore Castle
was the stronghold of the Clanricards, a prominent Norman family, was then
surrendered to parliamentary forces in 1651, and was leased to Walter Blake of
Drumacrina in1666 and held by that family until 1853. The castle is
presently owned by Commander William King, his daughter Leoni and her husband Alec
Finn of De Danaan, Commander King served on three submarines during World War
II The HMS Snapper, HMS Trusty and HMS Telemachus and was awarded seven medals
for his bravery during his service. Commander King was a prolific writer and
is probably also best remembered for his successful solo circumnavigation of
the globe which was completed in 1973.

For further information about the CASHOTA-IRELAND award check out our site
at _www.cashota-ireland.org_ (http://www.cashota-ireland.org/)

INDONESIA:
Hi.

I will go to Gili Nanggu (Nanggu Island) OC-150 for holiday.
From 16 to 18 January 2009
Holiday style operation as YB3MM/9 with one trx and one antenna, mainly on
17 meter cw and rtty.
Operation time is not known, depends on the electric supply from
the island hotel (www.gilinanggu.the
QSL via IZ8CCW or buro.

See you on the air, 73.

VK9LA.... Mar 23 - Apr 3 2009

?

The March departure date is fast approaching and all team members are rarin to go.

The total list of ops are: IZ3ESV, K5YY, N2OO, N2OZ, SQ8X, SQ9DIE, SV2KBS, VK1TX, VK3HJ, VK3QB, VK4IO, VK4VCH, VK5CP, VK5PO, W5SL and VK4FW.

VK4FW will travel to LH on Mar 22nd to immediately begin unpacking. On Mar 23, 4 others will arrive and the rest arriving as originally planned on Mar 24th. We will assemble 7 full HF stations at 2 seperate sites as well as one for 6m. Modes of operation are SSB, CW and RTTY. We will use mono band yagis and mono band verticals to allow us to possibly have 2 actual stations on the same band similtaneously. There are also a quantity of wire antennae for the low bands. A full list of operating frequencies will be designed to enhance our plans.

With the rising fuel prices and the international economy crashing around us we have been able to secure a vessel to freight all of our equipment in. We are still trying to get more support to cover this cost so please be so kind to visit our web site www.odxg.org/vk9la.htm (http://www.odxg.org/vk9la.htm) and make a donation.

The qsling chores will be handled by VK4FW. We will set up an online qsling system that will permit you to apply online to help cut your postage costs. More on this later. Qsl cards will be printed very quickly by UX5UO.

?

regards

?

TS7C info
Hi friends
This night Arno, OE9AMJ, could sleep a while after he had took some drugs.
He was replaced for the traffic.
This morning he is a little better. Jean Paul, F8BJI and Dieter, OE8KDK also with some drugs feel better and can take their traffic vacations.
No news about the missing transceivers . So we will not talk about that anymore. Know that the 80 000 QSO's goal will not be reached because of this missing.
Yesterday evening one of the PC's stopped suddently.
Our antenna farm has grown and is now at its maximum of the antennas number to be settled.
We had the good fortune to count in the team, Tony, G0OPB who is our Mr Antenna.
So tanks to him, minimal losses had been observed since we are on the air.
Our signals strength and quality are part of his good skill.
This morning at 1000 o'clock, these are some information about the traffic :
QSO's : 26 217
CW : 8 321
RTTY : 8295
SSB : 9 601
EU : +or- 71%
AM : +or- 20%
AS + AF + OC : +or- 9%
To day's programm on _http://www.ts7c.net_ (http://www.ts7c.net/)
73
Maurice F5NQL, Internet Communications for TS7C
TS7C info
Bonjour à tous
Cette nuit, Arno OE9AMJ, a pu dormir un peu après avoir pris quelques cachets. Il a été remplacé pour le trafic.
Ce matin il va un peu mieux
Jean Paul, F8BJI et Dieter, OE8KDK également avec des médicaments sont en voie de guérison, et assurent leurs vacations.
Pas d'autres nouvelles des transceivers manquants, nous n'en parlerons plus, mais leur absence nous a fait abandonner tout espoir d'arriver aux 80 000 contacts que nous nous étions fixés au départ.
Hier soir c'est un PC qui a connu une sévère défaillance.
Notre groupe d'antennes a encore grandi et est maintenant à son maximum.
Nous avons eu la bonne fortune de compter parmi les membres de TS7C, Tony, G0OPB. C'est notre Monsieur Antennes. Sa très grande compétence nous a permis d'éviter un maximum de pertes, depuis que nous sommes sur l'air. La force et la qualité de nos signaux lui doivent beaucoup.
A 10h00 ce matin voici quelques détails du trafic :
QSO : 26 217

CW : 8 321
RTTY : 8295
SSB : 9 601
EU : +or- 71%
AM : +or- 20%
AS + AF + OC : +or- 9%
Programme du jour : _http://www.ts7c.net_ (http://www.ts7c.net/)

Hi friends

Good news from the team.

The Montezuma's revenge is going away .

The crew is complete anew behind the transceivers.

Since to day, 0700 utc there are six stations on the bands.

All the transceivers are now in the crew hands, two have been put in reserve.

About the traffic the first goal of 80 000 QSO will not be reached because of the events but we think now, with six stations we will able to make 60 000 QSO's.

Jean Paul, F8BJI and the Digitals modes group are now breaking the VP6DX records for RTTY QSO's, by an expedition. This evening it will be done. Thanks to all of you.

Dont forget to encourage the crew - Guest book on the site :http://www.ts7c.net

See you down the TS7C log.

73
TS7C team.

Maurice, F5NQL, Internet communications for TS7C

Bonjour à tous.

Meilleures nouvelles de l'équipe.

Les malades vont mieux et sont de nouveau derrière les transceivers.

Depuis 0700 utc ce matin nous avons six stations sur l'air, tous les transceivers manquants ont été récupérés. Nous en avons deux en réserve, au cas où?

A propos du trafic, nous avions hier abandonné l'idée d'atteindre notre objectif premier de 80 000 QSO. Maintenant nous pensons raisonnable d'atteindre 60 000.

Jean Paul, F8BJI et l'équipe des modes numériques sont en train de battre le record des QSO RTTY de VP8DX, pour une expédition. Ce sera chose faite ce soir.
Merci à tous.

N'oubliez pas de continuer à encourager les opérateurs à travers le livre d'or: http://www.ts7c.net

A voir votre indicatif sur le log de TS7C.

73

8072. W3IA Inauguration Special Event Station

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-15 16:24:15 UTC
From: Eric Rosenberg
Topic: 8072 Message: 8072

The District of Columbia Amateur Radio Society is proud to announce the operation of W3A in honor of the inauguration of the 44th President of the United States, Barack Obama.

W3A will be on the air during the week of January 17-24, 2008. The greatest amount of activity will from January 17 through January 19.

We will attempt to be active on all bands, although the majority of activity is expected to be on 20 and 40 meters. Check the various spotting networks for our status.

QSL information:

Direct to W3DQ with SASE
Via the bureau
Via LoTW

A certificate may be available at that time. If so, an announcement will be made on the NW3DC webpage on QRZ.COM and posted to other news sources and lists.

I.C.P.O. Bulletin (January 15 - 22, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

15/01/2009: Chris (ex-5U5U) expects to start activity from the Central African Republic (requested call TL0A) around January 15th. He will operate in his spare time, with an amplifier and a 6-band yagi, plus dipoles and a long wire. QSL to Christian Saint Arroman, Chemin de Mouteguy, 64990 Urcuit, France. [425 DX News]

16/01/2009: Tom, DL2RMC will be active holiday-style from Senegal as 6W/DL2RMC, or a 6V call, from January 16-29th, including an entry in the CQWW DX CW 160m Contest (January 23-25th). Look for activity on all bands and modes, with focus on low bands. QSL via DL1RTL. [NG3K]

16/01/2009: Yoshi, JE2EHP, will be active as K1HP/KH2 from Guam Island (OC-026, USi GU-003S, WLOTA LH-0064) between January 16-19th. Activity will be on all HF bands and 6m, using CW, SSB and RTTY. QSL is via bureau to his home callsign JE2EHP. [OPDX Bulletin]

16/01/2008: The expedition to St. Martin's Island (AS-127, WLOTA LH-2351), Bangladesh, is scheduled to take place January 16-22nd using the callsign S21DX. The operators will be Rabby/S21RC, Manju/S21AM, Lal/S21DM, Sohel/S21S, Rasedul/S21RO and Sayra/S21SA. They plan to be active on 80-10 meter SSB and RTTY (sorry - no 30 meters). QSL via EB7DX, direct only. Further information can be found at: s2iota.eb7dx.com/ [NG3K]

16/01/2009: Mike/JA6EGL (T88SM), Yas/JA6UBY (T88CP), Yu/JE6DND (T88HK) and Hiro/JA6KYU (T88HS) will be active from Koror Island, Palau Islands (OC-009), from January 16-18th. They plan to operate CW and SSB on 80-10 meters. QSL via home calls, direct only. [425 DX News]

16/01/2009: Adhi, YB3MM will be on holiday to Gili Nanggu [Nanggu Island] (OC-150) from January 16-18th. Holiday style operation as YB3MM/9 with one trx and one antenna, mainly on 17 meter CW and RTTY. Operation time is not known, depends on the electric supply from the island hotel (www.gilinanggu.com/). QSL via IZ8CCW or bureau. [IZ8CCW]

17/01/2009: Fred, ON6QR will be active as 7X2ARA, the club callsign of Amamteur Radio Algerians, for only a few hours this week. He will be on the air starting at 2000z on January 17th, until early morning on the 18th. His aim is to make QSOs during the Hungarian DX Contest and will be pleased to put you in the log. His activity will be on both CW and SSB; bands will be used according to propagation. QSL via 7X2ARA. [OPDX Bulletin]

17/01/2009: Wade, AA8LL will be active as AA8LL/4 from Cedar Keys (NA-076, Levy County), State of Florida, from around 2200z January 17th to around 1700z January 20th. Holiday style operating will be mostly CW and RTTY on 80-17 meters with 100 watts and wires. QSL via AA8LL, direct or bureau. He will upload his log to LoTW. [425 DX News]

17/01/2009: Fran?ois/F5JNE along with Gerard/F6ICG will be active January 17th from the Castle of La Garenne (DFCF 89-304), in the city of Annoux (CP 89440), canton of l'Isle sur

Serein (DDCF 89-18), Department Yonne/89, Province of Burgundy (DPF 05). QRV 80 and 40 meter CW/SSB. QSL via bureau, SWL cards welcome. [F5NQL]

17/01/2009: Look for Paul, GW4MD/p to be active January 17th, starting around 1000 UTC, from Moel Siabod summit (GW/NW-010, 872m, 8 points, WW Loc. IO83AB), North Wales region. QRV 5 MHz and 3.5 MHz SSB. QSL via home call. [SOTA U.K.]

17/01/2009: Seth, SM0XBI will be QRV from the island of Dominica (NA-101), holiday-style, from January 17th to around April 1st, SSB only. QSL to home call, bureau preferred. [SM0CCM]

17/01/2009: DX vacation by Masumi, JA3AVO (FISTS member #15029), Kuni/JA1CJA and Take/JA3BZO to the island of St. Croix (USi VI-002S, WLOTA LH-2477, WW Loc. FK77PR), U.S. Virgin Islands (IOTA NA-106). They will arrive on January 16th and operate KP2/homecall from January 17-22nd. Look for activity on 160-6m using CW, SSB and the digital modes. The group will head back home to Japan on January 23rd. On their way to and from KP2 they will stop in Everett, WA from January 8-14th and January 25-27th. QSL via home call. [FISTS East Asia]

17/01/2009: Jimmy, M3EYP/p will be active January 17th, starting around 1115 UTC, from Hoove summit (G/NP-024, 554m, 2 points, WW Loc. IO83AB), Northern Pennines region, England. QRV 3.660 MHz SSB. QSL via home call. [SOTA U.K.]

17/01/2009: There will be a series of Lighthouse activations by TCSWAT during the following five months from the historical lighthouses around Istanbul / Republic of Turkiye. In collaboration with the Directorate General of Coastal Safety, TCSWAT is organising the "Istanbul Lighthouses On The Air" activity, which will take place from Karaburun (TUR 036), Sile (TUR 046), Anadolu (TUR 014), Ahirkapi (TUR 056), Rumeli/Turkeli (TUR 053), and Fenerbahce (TUR 021). Lighthouses as of last two weekends of December 2008. The dates, locations and callsigns are as follows: January 17-18th Sile Lighthouse TUR 046 / TC2SLH; January 24-25th Anadolu Lighthouse TUR 014 / TC2ALH; February 21-22nd Ahirkap? Burnu Lighthouse TUR 056 / TC1ALH; March 21-22nd Rumeli/Turkeli Lighthouse TUR 053 / TC1RLH; April 4-5th Fenerbah?e Lighthouse TUR 021 / TC2FLH. Stations contacting four or more of the lighthouses will recieve "Istanbul Lighthouses On The Air Award". Details will be later announced on the website: ta0u.com/ and tcswat.tripod.com/ More lighthouses will be activated in the future by TCSWAT. The lighthouse TCSWAT team will be: Urcun/TA0U, Leonardo/TA1FR, Mert/TA1ST, Tevfik/TA1HZ, Erhan/TA2DJ, Bekir/TA2RX, Mehmet/TB1J and Onur/TB2MYE. QSL direct to TA1HZ (QRZ.com). [Pete's-DX-Newsdesk]

17/01/2009: A group of YL operators will be active from the Falkland Islands (SA-002) between January 17-31st. They will be using VP8YLx callsigns, with the third character of the suffix assigned to each YL operator at beginning of the operation. YL operators mentioned at present include: Janet/VP8AIB, Chantal/PA3GQG, Unni/LA6RHA, Jeanie/WA6UVF, Mio/JR3MVF, Liz/M0ACL, Victoria/SV2KBS, Nicky/M5YLO and Ruth/IT9ESZ. The activity will be mainly on SSB, on all bands, but only 20 hours every day. QSL via operator's home callsign. Look for more information to become available at: www.radioclubs.net/aa_vp8yl_/ [OPDX Bulletin]

19/01/2009: Operators Antonio/CU8AS, Ruedi/HB9CQL and Hermann/HB9CRV (CT3FN) will be active from the Albarnaz lighthouse (DFP FAZ-02, ARLHS AZO-016, TWLHD WLH CU-008), Flores Island (DIP AZ-008, WLOTA LH-0947), Azores (EU-089) from January 19-23rd. QRV mainly on the low bands with CW and RTTY, using the special call CU8W. QSL via CT1GFK, bureau OK; via email to cu8at at sapo dot pt [CT1END]

20/01/2009: Joerg, DL1MJF will stay in Thailand again from January 20th until February 12th and plans to become QRV as HS0ZGQ in CW/SSB on 40-10m with his Kenwood TS50 and a dipole. If he is able to Joerg will be QRV for a one week stay on the island Koh Samui (AS-101, WLOTA LH-1384) using the callsign HS0ZGQ/2. QSL via home call, direct or bureau. [DX Newsletter]

20/01/2009: Nobi, JA1JCF will be active as homecall/p from the Tsumeki [Tumeki] Saki Lighthouse (ARLHS JAP-690, JP-2441, Admiralty F 6296), Shizuoka prefecture, Honshu Island (AS-007, JIIA AS-007-001, WLOTA LH-2376) on January 20th and 21st. QSL via home call, direct or bureau. [ARLHS]

21/01/2009: Josep, EA3BT and his wife Nuria, EA3WL will be active as HI9/EA3BT and HI9/EA3WL from Cayo Levantado (NA-122), Dominican Republic, January 21-27th. They plan to operate mainly SSB and digital modes on 10-80 meters, with an amplifier, a beam for 10-20 meters and a vertical for 40 and 80 meters. QSL via EA3BT, direct or bureau. [425 DX News]

22/01/2009: A large group of Radio Grupo Sur members will be on the air from Isla de Flores (SA-030, ARLHS URU-001, TWLHD WLH CX-001, WLOTA LH-0528, Admiralty G 0690, WW Loc. GF25AB), Uruguay, using CV5A callsign from January 22-26th working with monoband beam antennas for all bands. They will work all modes and there will be a dedicated RTTY-PSK31 station. Look for them to be QRV in the CQ 160-Meter CW Contest (January 24-25th) as a Multi-Op entry. QSL via CX2ABC. [EA5RM]

==========

LOOKING AHEAD -

23/01/2009: Rasto/OM3BH, Jozef/OM3GI and the Madeira Team will be active from Ilha da Madeira (AF-014, DIP MA-001, WLOTA LH-0053) as CT9M during the CQWW 160-Meter CW Contest (January 23-25th) as a Multi-Op entry. QSL via CT3EE. [NG3K]

23/01/2009: Val, RD3AF will be active as EF8M from Las Palmas, Isla de Gran Canaria (AF-004, DIE S-005, ESA GC, WLOTA LH-0969) during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/High-Power entry. QSL via home call, direct or bureau. [NG3K]

23/01/2009: Serge, UR5FEO will be active from Moldova as ER0FEO during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/Low-Power entry. QSL via UU0JM, direct or bureau. [NG3K]

23/01/2009: Look for Vlad, UT0FT to be QRV from Moldova as ER0/UT0FT for the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/Low-Power entry. QSL via UT0FT, direct or bureau. [NG3K]

23/01/2009: Ray, WQ7R will be active as HQ9R from Roatan Island (NA-057, WLOTA LH-1671), Honduras, during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/High-Power entry. QSL via K5WW. [NG3K]

23/01/2009: Operators Dave/G3NKC, Martin/G4XUM and Bob/MD0CCE will be active from the isle of Man (EU-116, also count for WLOTA LH-0449) as MD4K during the CQWW 160-Meter CW Contest (January 23-25th) as a Multi-Op entry. QSL via G3NKC, direct or bureau. [NG3K]

23/01/2009: The UA2 Contest Club will be active from Kaliningrad as RK2FWA for the CQWW 160-Meter CW Contest (January 23-25th) as a Multi-Op entry. QSL via DK4VW, direct or bureau. [NG3K]

23/01/2009: Jeff, N1SNB will be active as VP9/N1SNB from the island of Bermuda (NA-005, WLOTA LH-0201) during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op entry. QSL via home call, direct or bureau. [NG3K]

23/01/2009: Peter, XU7ACY (NO2R) reports that he will be active from Cambodia during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op entry. QSL via W2EN. [NG3K]

23/01/2009: Look for Tom, KC0W/ZD7X to be active from Cambodia as XU7XXX during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/Low-Power entry. The 160m antenna will be a dipole/vertical placed on the beach 5 meters from salt water. QSL via KC0W, direct only. [NG3K]

23/01/2009: Look for Bruce, XW1B to be active from Vientiane, Laos during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op entry. QSL via E21EIC, direct or bureau. [NG3K]

24/01/2009: Members of the Galway VHF Group (www.galwayvhfgroup.com/) will be activating Oranmore Castle from 12 mid-day on Saturday the 24th until 4 pm on Sunday the 25th of January. Activity will be on all bands depending on conditions. The WAI locator square is M32 and the Castle number will be EI/001/C. This will be the first activation of a castle since the launch of CASHOTA-IRELAND. The Galway VHF Group Club callsign, EI4ALE/P, will be in operation for the duration of this event. For further information check out their Web site at: www.cashota-ireland.org [Galway VHF Group]

25/01/2009: The Kilmarnock and Loudoun Amateur Radio Club now has the special event call GB250RB to commemorate 250 years of the life and times of the famous poet Robert Burns (January 25, 1759 - July 21, 1796). The station will be on the air January 25th through to December 31st, 2009 from events all over Ayrshire and Scotland by members of Kilmarnock and Loudoun Amateur Radio Club, Kilmarock, Scotland, and other clubs. QSL via MM0DHQ direct, eQSL, or bureau. Further information can be found at: www.gb250rb.co.uk/ [MM0DHQ]

25/01/2009: Michael, F1IQH will be active from Burkina-Faso as XT2WC for two weeks satrting January 25th. Mainly 14MHz; other bands are possible according to the propagation. QSL via F1IQH (QRZ.com). [F5NQL]

28/01/2009: Antonio/CU8AS, Ruedi/HB9CQL and Hermann/HB9CRV (CT3FN) will be active as CU5T from Ponta do Topo (ARLHS AZ0-018, WLOTA LH-1004), located on Sao Jorge Island (EU-175, DIP AZ-005), Azores, from January 28th to February 2nd. QRV 160-10 meters, using CW, SSB and RTTY, with Elecraft K3 + FET PA 500 watts, IC718 + FET PA 500 watts and HF9V and 18m GP antennas. QSL via CT1GFK, direct or bureau; email request (cu8at at sapo dot pt) [CT1END]

01/02/2009: Gerhard, OE3GEA will be active as FR/OE3GEA from Reunion Island (AF-016, DIFO FR-001, WLOTA LH-1812) between February 1st and 13th. QRV all bands, CW only. QSL via home call, direct or by the bureau. [rsgbiota.org]

07/02/2009: Jerry, P29ZAD will be active from Buka Island (OC-135), Soloman Islands, from February 7-27th. He will be working just North of Buka Town. Jerry will DX if he has time. QSL via NI5DX, direct or bureau. Further information can be found at: p29zad.blogspot.com/ [rsgbiota.org]

09/02/2009: Willy/ON5AX and XYL Magda/ON3AX will be QRV from the RV Professor Khromov (Spirit of Enderby) and from the Ross-Sea region in Antarctica between February 9th and March 10th. March 2009 with the special calls OR3AX and OR4AX. The trip includes the Auckland Islands (ZL9 OC-074), Campbell Island (ZL9 OC-037), Macquarie Island (VK0 AN-005)

and the Ross Islands group (AN-011) areas. Note: they will not be landing on each of these islands, but will be /MM in the area. QSL direct to ON5AX, for both calls. More details at: www.waponline.it/ [I1HYW]

11/02/2009: Girts, YL2KL will be active as D4C from the Monte Verde contest station, Mindelo, Sao Vicente Island (AF-086, WLOTA LH-1976), Cape Verde Islands, from February 11-22nd. He will participate in the CQ WPX RTTY Contest (February 14-15th) as a Single-Op/All-Band/Low-Power entry. Also look for him to be QRV in the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band/High-Power entry. QSL via IZ4DPV (QRZ.com). [NG3K]

14/02/2009: Look for Val, RD3AF to be QRV as EF8M from Las Palmas, Isla de Gran Canaria (AF-004, DIE S-005, ESA GC, WLOTA LH-0969) for the CQWW WPX RTTY Contest (February 14-15th) as a Single-Op/All-Band/High-Power entry. QSL via home call, direct or bureau. [NG3K]

21/02/2009: Luis/EA8AY and Manuel/EA8NC will be active from Santa Cruz, Tenerife Island (DIE S-012, WLOTA LH-1276), Canary Islands (AF-004) as AN8R during the ARRL DX CW Contest (February 21-22nd) as a Multi-Single entry. QSL via EA8AY (QRZ.com). [NG3K]

21/02/2009: Val, RD3AF to be QRV as EF8M from Las Palmas, Isla de Gran Canaria (AF-004, DIE S-005, ESA GC, WLOTA LH-0969) for the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band/High-Power entry. QSL via home call, direct or bureau. [NG3K]

07/03/2009: John, KK9A will be active as P40A from Iguana Villa, Malmok, island of Aruba (SA-036, WLOTA LH-0033) during the ARRL DX SSB Contest (March 7-8th) as a Single-Op/All-Band entry. QSL via WD9DZV, direct or bureau. [NG3K]

24/03/2009: Members of Oceania Amateur Radio DX Group Inc. will spend 10 days on Lord Howe Island for the 2009 CQ WPX Contest. QRV March 24th to April 3rd, using the callsign VK9LA. The total list of ops are: IZ3ESV, K5YY, N2OO, N2OZ, SQ8X, SQ9DIE, SV2KBS, VK1TX, VK3HJ, VK3QB, VK4IO, VK4VCH, VK5CP, VK5PO, W5SL and VK4FW. Bill, VK4FW will travel to Lord Howe on March 22nd to immediately begin unpacking. On March 23rd, 4 others will arrive and the rest arriving as originally planned on Mar 24th. They will assemble 7 full HF stations at 2 seperate sites as well as one for 6m. Modes of operation are SSB, CW and RTTY. They will use mono band yagis and mono band verticals to allow us to possibly have 2 actual stations on the same band similtaneously. There are also a quantity of wire antennae for the low bands. A full list of operating frequencies will be designed to enhance their plans. The QSLing chores will be handled by VK4FW. They will set up an online QSLing system that will permit you to apply online to help cut your postage costs. More on this later. QSL cards will be printed very quickly by UX5UO. Further information at: www.odxg.org/vk9la.htm [VK4FW]

19/04/2009: Jim, MM0BQI will be active as homecall/p from the Treshnish Isles (EU-108) April 24-27th. Look for activity on or near the usual island and IOTA frequencies. QSL via home call, direct or bureau. [rsgbiota.org]

24/07/2009: Will/PE1OPM, Manfred/PE1OXV and Jeroen/PD5CW will be active, for fun and to enjoy the IOTA weekend, from Schouwen Duiveland (EU-146), July 24-26th. QRV 80-10 meters, using mainly CW and SSB. QSL via home calls, direct or by the bureau. [rsgbiota.org]

24/09/2009: Look for Fred, PA1FJ to be active as PJ2/PA1FJ from the island of Curacao (SA-006, WLOTA LH-0942) between September 24th and October 7th. QSL via home call either direct, by the bureau or eQSL. [rsgbiota.org]

==========
SPECIAL EVENTS -

17/01/2009: Special event station 8N8TKS will be aired from January 17th until May 24th for the 51st JARL Annual General Meeting in Kushiro(-city): "Tancho (or Japanese Crane) Kushiro(-city) Sokai (or General Meeting)"). Kushiro-city is famous for Japanese crane. QSL via the JARL bureau. [JJ1WTL/AC6IM]

22/01/2009: CQD, Jack Binns and the rescue at sea in 1909 Special Event 100th Anniversary January 22-24, 2009. For the 100th anniversary of the Republic-Florida collision, radio operators around the world will be at their Special Event Stations listening for special broadcasts and communications about Jack Binns and the Republic-Florida Collision! For a complete list of these events, go to: www.jackbinns.org/ and www.jackbinns.org/commemoration_news .

The Scunthorpe Steel Amateur Radio Club, Scunthorpe, UK, will be active for the Jack Binns event by signing GB5CQD on January 24th and January 25th. QSL via G0OKF, direct or bureau.

Also celebrating the Jack Binns event will be the The Lizard Marconi Wireless Station, The Lizard, Cornwall, UK, using the call sign GB100MSC from January 22-25th on 80m-10m CW and SSB. QSL via operators instructions.

The Chelmsford Amateur Radio Society, Chelmsford, UK, will be QRV for the entire months of January and February using the call sign GB0MWT, operating from the Sandford Mill. Marconi Hut Morse only for January 23-25th on all bands, SSB and Morse. QSL via the bureau to G0MWT.

The Marconi Radio Club W1AA of Massachusetts, USA, will take part in the Jack Binns special event with two stations by representing SS Republic (Callsign MKC) as W1AA/MKC and SS Baltic (Callsign BC) as W1AA/BC. The two stations plan to be on the amateur bands on January 23 from 0001z to 0400z and on January 24 from 1200z to 2000z. Both SSB and CW modes will be used. QSL via W1AA (QRZ.com); DX can use the W1 Bureau. Website info at: www.anything-it.biz/roass/roars.html [K1VV]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

Buzz, NI5DX, is now the QSL manager for Zivko, S52BB.
Buzz will be able to answer all requests for cards once new cards are received from the printer (4-5 weeks). [K1XN & The GOLIST]

QSLs received Bureau - A35WE, AN6EB, B4R, BA4ALC/7, BA5AP, BD4AEK, BG4JWU, BV4UB/DL2JRM, CE4TEV, CN2BC, CO8ZZ, CT3FQ, CT3KN, CT3MD, CT3/DK1BT, CU2AA, CU3CC, CU3CP, CU3FV, DU/CT1EAT, EA6/DJ5GI, EA6/DL5DSM, EA8/DF8AA, EA8/DL4ZF, EA8AG, EA8BZH, EA9/DK8RE, EA9/SP2JMB, EG8FAS, EH6R, EK6GT, EK6YL, EKG90TA, FH1LE, FG5ED, FJ/G3TXF, FM/DF5WA, FO0CLA, FO5RM, FP/G3TXF, HB0/DJ2IA, LX1BC, LX1CC and MJ/PA0GIO/p.

QSLs received Direct - 3B8/SP2JMB (via SP2JMB), 3DA0VB (via UA4WHX), 3X5A (via G3SXW), 9J2VB (via UA4WHX), 9X0VB (via UA4WHX), A25VB (via UA4WHX), BD1DRJ/2 (via BD1DRJ), C91VB (via UA4WHX), C91VB/4 (via UA4WHX), C98RF (via DL6DQW), D20VB (via UA4WHX), D60VB (via UA4WHX), EA9/SP2JMB (via SP2JMB), EZ8BO (via EZ8CW), EZ8CQ (via Direct), EZ21BO (via EZ8CW), GW3KGV (via Direct), GW3YDX (via Direct), JD1BMM (via JA6GXK), JX9JKA (via LA9JKA), K5S [NA-082] (via W5UE), KH0ABT (via 7L1FPU), KH6/JA6REX (via JA6REX), OX5AA (via G3TXF), R35NP (via UW1AI), TC4X (via OH2BH), VU7SJ (via DL9GFB), YN2I (via KE9I), YO5BRZ (via Direct) and ZS6GAV (via Direct).

QSLs received LoTW - 4A1DXXE, ER4ER (via RA4LW), FS/DL7DF, K4XU, K6XX, KB7Q, N0KE, N4AF, N5DO, N6EE, N6XG, N6XI, P49X, PJ2/DL7DF, PJ7/DL7DF, PV8DX, RA4LW (via Direct), T30CW, VE3EJ, VP2EEB, W2RA/VY0, W5ZR, W6AMM, W6TK, WA3GNW, WI9WI and ZD8UW.
==========
SILENT KEYS -

Lloyd 'Shally' Shallenberger, K6VHP became silent key January 10, 2009.

Anatoly N. Tselikov, UR5FJ (ex UB5FJ) became silent key January 9, 2009 at the age of 78.
==========
BITS & PIECES -

Hi Folks!
Sorry for the delay.... but.... GOOD 2009!
Just to inform you that the new Bulletin n. 227 is on line!
I've also uploaded the new WACA and WADA directory!
http://www.waponline.it/
Thanks to Max Betty and Gianni!
Have fun! [IZ1HKE]

VP9 - BERMUDA

2009 is the 400th anniversary of the settlement of Bermuda by Sir George Somers. Most local organisations are having an event of some kind during the year. The Radio Society of Bermuda has been issued with a special call sign that can be used all year, it is VP9400/xx.

The xx suffix is the operator's call sign, i.e. VP9400/LP. There are a few novice licence holders who have a 3 digit suffix, i.e. VP9400/NMT. +Special pictorial postcards will be used to QSL.

NEWS RELEASE

FOR IMMEDIATE RELEASE: January 13, 2009

CQ to Accept eQSL Confirmations for Award Credit

(Hicksville, NY and Bedford, TX, January 13, 2009) - CQ magazine will accept contact confirmations made on the eQSL.cc electronic confirmation system for its operating awards effective immediately, CQ Editor Rich Moseson, W2VU, and eQSL Founder and Webmaster Dave Morris, N5UP, announced today.

There will be certain limitations and procedural differences for different awards, at least to start. Only confirmations from "Authenticity Guaranteed" members of eQSL will be accepted, and in accordance with existing eQSL policy, a membership level of bronze or higher is required in order to participate in award programs via eQSL.

"This is the first time that CQ has formally accepted anything other than traditional paper QSL cards for its awards," said Moseson. "We have been working with Dave Morris and his team for several months to assure that the integrity of our awards programs will be protected and to create mechanisms to make it easy for both award applicants and award managers to use eQSL credits toward our awards. All of our award managers have been involved in this process and support this action."

"We want to express our great appreciation to Dave and his team for their willingness to do whatever was necessary to make this agreement possible," Moseson added. "It has been a pleasure working with them and we look forward to a long-lasting relationship."

"We are pleased to be adding CQ to the top of our list of amateur organizations that accept electronic QSLs," said Morris. "CQ has some of the most highly sought-after awards, and we have been working behind the scenes for years to create credit submission mechanisms that would ensure the integrity of their programs without introducing any additional labor for the award managers. We believe the electronic QSL can drastically reduce costs, and the award application mechanisms we have developed will provide for more efficient processing at reduced cost for both the applicant and the award manager."

Applicants for the CQ DX and CQ DX Field Awards must print out their eQSLs and submit them along with their traditional QSLs to a CQ checkpoint or to CQ DX Awards Manager Billy Williams, N4UF. eQSL has an automated process in place for applicants for CQ's Worked All Zones, WPX and USA-Counties awards. N5UP explains how that will work for the applicant: "The applicant goes to the My Awards screen. He clicks on the particular award he wants to apply for. This brings up a list of the credits our system 'thinks' he is entitled to. There are checkboxes that allow him to check which ones he wants to use, and we automatically pre-fill one credit per category so he doesn't have to do anything if he wants to take the defaults. At the bottom of the screen are two buttons: 'Submit to CQ' and 'Print Paper Application'."

The "submit" button will place all the selected QSOs into a file for the award manager to access, while the "print" button will generate a printed list to be submitted along with the traditional application. PLEASE NOTE that ALL applicants must send the award fee payment to the CQ Award Manager, regardless of how the application is submitted. Some CQ award managers are now accepting PayPal; see individual award web pages for details. All awards will continue to accept traditional QSLs as well as eQSLs. For the USA-Counties Award (USA-CA), applicants must note on their record books (or printouts) whether each county has been confirmed traditionally (with an "X" to the right of the entry) or electronically (with an "E" next to the entry).

For more information on eQSL, visit <http://www.eQSL.cc >.
For more information on CQ awards, visit the awards page on the CQ website at < http://www.cq-amateur-radio.com>. Please note that the award rules posted on the website

have not yet been updated to reflect the acceptance of eQSLs. This will be done as soon as possible, but the policy takes effect immediately.

8075. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-15 23:11:47 UTC
From: K1XN
Topic: 5889 Message: 8075

The JANUARY 2009 Issue #901-C files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

8076. TS7C news

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-16 08:33:59 UTC
From: F5nql@aol.com
Topic: 8069 Message: 8076

TS7C news
The web site victim of his success!
Since yesterday evening the TS7C webpage is out of order.
The statistics for visitors data base has shut down suddenly at 2220 utc.
The Web page hoster is working on to repair it. Vincent/F5MJV is in touch
with they.
We hope to be able to offer again, this web page before the end of the
expedition, but it seems to day that, in such a case, there will not be any new
update of the online logbook, before the return to F6KOP's base .
This morning, the digitals crew went QRT around 0630 utc, for a longer
while, to permit the other modes to be on the bands as often as possible
especially during the day possibilities on 20m and up.
We wait some more information but now it seems that the VP6DX RTTY record
has shut down.
All of your messages sent to the back office (pilots or F5NQL) are in
Frank/F4AJQ's hands regularly each morning after beeing compiled. He , and the crew
do al what is possible to take into acount of them. Know however we may
have also locals restrictions.
Our good friend Jeff, F6AOJ, has open a TS7C hall of fame for the operators
who have QSOed TS7C the most times as possible on his web blog at .
(_http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_179.html_
(http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_179.html))
To day there are on, only French operators but no doubt , this page can be
open to all of the other.
BE CAREFUL AND DON'T WAIT TOO MUCH,
The end of traffic is scheduled now on next Sunday at 0700 utc in the
morning.
All the stations will be stopped at this hour definitively, and beeing
dismantled and packed.
The departure from Kerkennah will happen around 1400 UTC.
The end of this "animated" aventure is planned for next Monday, early
morning.
Less than two days to enter the TS7C logbook
Be lucky
73
Maurice, F5NQL, internet communications for TS7C team
TS7C news
Le site Web de TS7C, victime de son succès.
Depuis hier soir vers 2220 utc, la page Web de l'expédition est hors
service. La basse de données statistiques, qui enregistre notamment les visites, s'
est bloquée, car saturée.
L'hébergeur prévenu travaille sur le problème et doit réaliser un dump.
Vincent/F5MJV est en liaison permanente avec eux.
Nous espérons pouvoir vous offrir à nouveau cette page avant la fin de l'
expédition, mais si cela advenait,il n'y aurait sans doute pas de nouvelle mise

à jour du carnet de trafic en ligne, avant le retour à la base de F6KOP, à Provins.
Ce matin, l'équipe des modes numériques a cessé ses émissions vers 0630 utc, pour une période plus longue pour laisser la possibilité aux autres modes, CW et SSB, d'être sur l'air, aussi souvent que possible et en particulier profiter au maximum des possibilités du trafic diurne sur 20m et au dessus.
Nous attendons des informations complémentaires, mais il semble bien que le record de QSO RTTY par VP6DX, soit battu.
Tous vos messages reçus au back office (pilotes et F5NQL) sont compilés chaque jour et transmis chaque matin à Frank, chef d'expédition. Lui-même et l'équipe font leur maximum pour en tenir compte, pour autant que les circonstances locales le permettent .
Notre excellent camarade Jeff, F6AOJ, a ouvert sur son blog un tableau d'honneur, pour les opérateurs qui ont contacté TS7C un maximum de fois. Vous pouvez en prendre connaissance à :
(_http://pagesperso-range.fr/F6AOJ/cariboost1/crbst_179.html_
(http://pagesperso-orange.fr/F6AOJ/cariboost1/crbst_179.html))
Si aujourd'hui n'apparaissent que des opérateurs français, nul doute que Jeff fera évoluer ce tableau si les informations nécessaires arrivent.
SOYEZ ATTENTIFS ET NE TARDEZ PAS.
La fin du trafic a été fixée impérativement à dimanche matin 0700 utc.
Toutes les stations seront définitivement arrêtées à cette heure et le matériel démonté et empaqueté pour le retour.
Le départ de Kerkennah aura lieu aux environs de 1400 UTC.
La fin de cette aventure mouvementée est prévue lundi matin avant le jour .
Il vous reste moins de deux jours pour contacter TS7C et figurer dans le carnet de trafic, Bonne chance!
73

Folks,
??? I have learned that AA6EE, DUANE HEISE, will be offering the RAC call book cd at a price that is lower than my cost.
??? I also remember an ad in which he was trying to sell his book business, so this may be an inventory close out, I do not know.
??? If you are thinking of buying a RAC call book, he would be the place to shop. I wish I could sell mine at a lower price, but just can not swing it.
??? Be watching for his ad is an upcoming QST.

AUSTRALIA, SPECIAL EVENT STATION
The Australian Communications and Media Authority (ACMA) assigned the
special callsign VI2BV90 to the "Waverley Amateur Radio Society" which
is the oldest amateur radio club in Australia. The club was founded on
Jan 27, 1919, and got its first callsign N249 on Aug 18, 1920. Later
this was changed to 2BV and then VK2BV after all. Thus VI2BV90 is
celebrating the 90th birthday of this club from Jan 24 until Feb 1.

More details about the station can be found at: _http://www.vk2bv.htt_
(http://www.vk2bv.org/)
ITALY, SPECIAL EVENT STATION
Angelo,IK1UGX, is activating the special event station IY1GM until
Mar 31 to remember that Guglielmo Marconi was awarded the Nobel Prize
100 years ago. QSLs via his homecall.
Tks DXNL.

Topic: 690 Message: 8083

Buzz, NI5DX, is now the QSL manager for Julien, FM1HN, in Martinique.?
Buzz already has the FM1HN logs but is awaiting QSL cards.?
If Julien has blank cards to send to NI5DX, the wait for replies
will be very short.? If new cards must be printed, the delay will take
up to 4 weeks after the cards are ordered.? Buzz will be able to confirm any QSOs that are in Julien's log.

At the present time, QSLs for the special call, TO1YR, still go to FM1HN
either direct or via the bureau.

January 20, 2009

WORLD'S LARGEST AMATEUR RADIO ANTENNA
DEPLOYED ON 160M AT OH8X

With the aim of pushing the always challenging Northern envelope on low bands and verifying their own engineering skills, the group at Radio Arcala will hit 160M with a 39-ton (80.000 lbs) 3-element full-size monster during the week of January 19, culminating with the CQWW 160M Contest.

OH8X is to be manned by OH2IW and OH6KN, still in a limited capacity while valuable data will be gathered in this first assault. Their partners for measurement purposes will be the sister station CU2X operated by OH2BH/CU2KG and, in close proximity, by the associate stations OH0E operated by OH2MM, and OG2P by OH2PM.

You may catch all these stations during the coming week. Radio Arcala is cooperating with the University of Oulu in several areas of HF propagation study. They also welcome and acknowledge field reports at

You may read about details of the monster construction at (http://www.helsinki.fi/%7Ekorpela/PU/PU.html) and study the overall mission at <www.radioarcala.com (http://www.radioarcala.com)>

QSL for OH8X via OH2UA, CU2X via OH2BH, OG2P via OH2PM and OH0E via OH2MM.

From: K1XN
Topic: 8091 Message: 8091

??? I received word that Zedan, JY3ZH, became a silent key? Jan 20, 2009.
Zedan was a long time DXer and was Net control for the Arabian Knights
net on 20 meters. I worked him many times and he was a staunch promoter
of Ham radio.
??? He will be missed on the bands.
Rest in Peace Zedan
73 my friend.

VP8DIF - South Georgia

Early 2009 season

Ok, this is again the moulting season for the elephant seals.
I finally got my dates confirmed (all depending on the weather
as usual), but I will stay again in Husvik during February 2009.

I will start with just a G5RV as an antenna. This worked quite
well the last time (sloping to the north) and is no danger to animals
and will stay up even in the strongest of winds. This will be my starting point.
This time I have a new (untested) soundcard interface, so I might try
some RTTY, but no promises.

6th ANTARCTIC ACTIVITY WEEK 2009
16 - 22 February 2009
Dear Editor,
Also this year WAP (Worldwide Antarctic Program) _www.waponline.it_ (http://www.waponline.it/) did launch the 6th Antarctic Activity Week in collaboration with Italian Air Force, the National Antarctic Museum (MNA-Genova), and the Italian Ham Radio Association: ARI Mondovì, ARI-Genova & ARI Massa-Carrara.
A number of Operators (see attached list) will be activating radio stations from at least 13 Countries WW. The aim of ANTARCTIC ACTIVITY WEEK (next March 1st will see the end of the International Polar Year), is precisely that of gathering international scientific activities and Ham's AAW, with particular reference to logistic and weather-related aspects, developed jointly with the major WW Scientific Organizations and international scientific community in a climate of mutual practical data sharing, with respect of the economic forces and logistic elements vital to the continuation of scientific research in a corner of the world which harbors the very secret of our existence.
This information in case you wish to pubblish it in your DX Bulletin

ZS8T ? Marion Island (http://zs8t.net)

Press release #4 (http://feeds.feedburner.com/%7Er/ZS8T/%7E3/518642768/)

Posted: 21 Jan 2009 06:21 AM CST

The ZS8T license has expired on the 31st of December 2008 with an expiry window period up and until 31 January 2009. Renewal and payment off the existing license has been made and Petrus ZS8T is licensed to operate from Marion Island up and until December 2009. All contacts made to date with the ZS8T callsign are legitimate and legal. The team is currently awaiting the paper copy off the new license that only expires in December 2009, Petrus can remain active with ZS8T for the remainder off his stay on Marion Island.

Kindly keep an eye on the ZS8T website for any further updates.

(http://www.ts7c.net/)
Any question by matter , see : _http://www.ts7c.net/?page_id=50_
(http://www.ts7c.net/?page_id=50)
Questions about your QSO’s and log-book are compiled at : _pilote@..._
(mailto:pilote@...) and forwarded to the QSL manager, Sylvain, F4ETD.
The guest book is still open.
All the crew members would say
- A lot of thanks to all of you YL, XYL and OM’s
- A lot of thanks to all of you who helpe us in any way
and even if our global second goal is not reached, we are proud to have
established a new RTTY QSO’s record (the former was by the last VP6DX) and we
still own the record for QSO’s in PSK31, since our last XT2C 2007 dxpedition.
Our success , is yours and again thank you.

Le livre d’or est toujours ouvert.
Chaque membre de l’équipe souhaite vous dire :
Un grand merci à chacune et chacun d’entre vous, YL, XYL et OM,

Un grand merci à chacun de ceux qui nous ont aidé par n’importe quel moyen, et même, si notre objectif global second, n’a été qu’approché, nous sommes fiers d’avoir établi un nouveau record de QSO en expédition en RTTY (nous avons battu celui de VP6DX). Outre ce record, F6KOP détient toujours depuis 2007 (XT2C), le record de QSO en PSK31.
Notre succès a d’abord été le vôtre.
Encore merci.!

8097. ZT2V, rare prefix

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-22 12:21:57 UTC
From: K1XN
Topic: 8097 Message: 8097

ZT2V, rare prefix, to be QRV for CQWW WPX SSB contest

Eight South African amateurs will be operating ZT2V in the CQWW WPX SSB contest, March 29-March 30.? This will be one of the rare times the ZT prefix has been used and the first time South Africa's East Cape Province (ZS2) has had a "team operation" entry in a major contest.? The multi 2 operation will take place from the Port Elizabeth region QTH of ZS2DL, Donovan, who serves as team leader.? Other experienced contest participants include ZS2EZ, Barry, ZS2DK, Mitch, ZS2Y, Thiaan, and ZS2ACP, Andre.? ZS2HK, Henning, and ZS2GV, Glen, will be making their major contest debuts.? One other operator, not yet selected, will round out the team.? The 2 stations will consist of a FT2000 and a Quadra amplifier into a SteppIr beam and a FT1000MP MK V and an Ameritron amp into a HyGain TH5. An antenna for 40 and 80 meters will also be used.? While the group is hoping to score well, the primary goal is to "put Port Elizabeth on the map" and give the prefix hunters a rare one.? The QSL route for ZT2V will be Buzz - NI5DX.

8098. PAYPAL PROBLEMS

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-22 17:20:11 UTC
From: K1XN
Topic: 8098 Message: 8098

Folks,
??? I have run into more problems in receiving renewals via the
PayPal service.? They have decided to "investigate" several
of these transactions and after an abnormal iength of time they
still can not make a decision and will not release the funds.
??? For those of you that use the PayPal system (I have been a user),
is there another service that could be used if you wish not to use
Visa or Master Card.? I have not used any other system.
??? Please send me your suggestions via my direct email address
rather than on the group reflector.
??? Thank you
John K1XN

I.C.P.O. Bulletin (January 22 - 31, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

22/01/2009: A large group of Radio Grupo Sur members will be on the air from Isla de Flores (SA-030, ARLHS URU-001, TWLHD WLH CX-001, WLOTA LH-0528, Admiralty G 0690, WW Loc. GF25AB), Uruguay, using CV5A callsign from January 22-26th working with monoband beam antennas for all bands. They will work all modes and there will be a dedicated RTTY-PSK31 station. Look for them to be QRV in the CQ 160-Meter CW Contest (January 24-25th) as a Multi-Op entry. QSL via CX2ABC. [EA5RM]

23/01/2009: Mamuka/4L2M, Shota/4L5DJ, Levan/4L4CC and possibly others will be active as 4L0G from Tbilisi, Georgia, for the CQWW 160-Meter CW Contest as a Multi-Op entry. Notes: TX antenna full size Delta loop and Vertical; RX antenna 2 beverages; TS-950SDX + 1KW PA. QSL via EA7FTR (UA9LP for Russia; UT7QF for Ukraine). [NG3K]

23/01/2009: Operators Victor/RV2FW, Alex/4Z5TA, Mony/4X6ZK and Alex/4Z5KJ will be QRV as 4Z5J from Netanya, Israel, during the CQWW 160-Meter CW Contest as a Multi-Single entry. QSL via W0MM, direct or bureau. [NG3K]

23/01/2009: Operators Ahmed/CN8WK, Stefano/IK2QEI, Maurizio/IV3ZXQ and Carlo/IK1HJS will be active as CN3A from Safi, Morocco, for the CQ 160-Meter CW Contest as a Multi-Single entry. QSL via I2WIJ or LoTW. [NG3K]

23/01/2009: Rasto/OM3BH, Jozef/OM3GI and the Madeira Team will be active from Ilha da Madeira (AF-014, DIP MA-001, WLOTA LH-0053) as CT9M during the CQWW 160-Meter CW Contest as a Multi-Op entry. QSL via CT3EE. [NG3K]

23/01/2009: Erhard/DL5JQ and Wolfgang/DK3KD will be active from Germany as DP3D for the CQWW 160-Meter CW Contest as a Multi-Op entry. QSL direct to DK3KD. [NG3K]

23/01/2009: Val, RD3AF will be active as EF8M from Las Palmas, Isla de Gran Canaria (AF-004, DIE S-005, ESA GC, WLOTA LH-0969) during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/High-Power entry. QSL via home call, direct or bureau. [NG3K]

23/01/2009: Serge, UR5FEO will be active from Moldova as ER0FEO during the CQWW 160-Meter CW Contest as a Single-Op/Low-Power entry. QSL via UU0JM, direct or bureau. [NG3K]

23/01/2009: Look for Vlad, UT0FT to be QRV from Moldova as ER0/UT0FT for the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/Low-Power entry. QSL via UT0FT, direct or bureau. [NG3K]

23/01/2009: Tonno/ES5TV, Toivo/ES2RR, Arvo/ES2MC, Juri/ES5JR and Toomas/ES5RY will be active from Tartu, Estonia, for the CQWW 160-Meter CW Contest as a Multi-Op entry. QSL via ES5RY. [NG3K]

23/01/2009: Look for Nodir, EY8MM to be active from Dushanbe, Tajikistan, in the CQWW 160-Meter CW Contest as a Single-Op entry. QSL via K1BV, direct or bureau. [NG3K]

23/01/2009: Richard, K2WR will be active from St. Brelade, isle of Jersey (EU-013, WLOTA LH-0818), during the CQWW 160-Meter CW Contest as a Single-Op/High-Power entry. Look for him to be QRV outside the contest using the callsign MJ0AWR. QSL both calls via K2WR (for North America) and GJ3DVC (for rest of world), direct or bureau. [NG3K]

23/01/2009: The UA2 Contest Club will be active from Kaliningrad as RK2FWA for the CQWW 160-Meter CW Contest (January 23-25th) as a Multi-Op entry. QSL via DK4VW, direct or bureau. [NG3K]

23/01/2009: Yasar, TA3D will be QRV from Izmir, Turkey, during the CQWW 160-Meter CW Contest as a Single-Op/Single-Band (?)/Low-Power entry. QSL via direct only. [NG3K]

23/01/2009: Operators Andy/UU4JMG Jim/UU1AZ and Andi/UU0JM will be QRV from Kerch, Ukraine for the CQWW 160-Meter CW Contest as a Multi-Op entry. QSL direct to UU0JM. [NG3K]

23/01/2009: Jeff, N1SNB will be active as VP9/N1SNB from the island of Bermuda (NA-005, WLOTA LH-0201) during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op entry. QSL via home call, direct or bureau. [NG3K]

23/01/2009: Peter, XU7ACY (NO2R) reports that he will be active from Cambodia during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op entry. QSL via W2EN. [NG3K]

23/01/2009: Look for Tom, KC0W/ZD7X to be active from Cambodia as XU7XXX during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op/Low-Power entry. The 160m antenna will be a dipole/vertical placed on the beach 5 meters from salt water. QSL via KC0W, direct only. [NG3K]

23/01/2009: Look for Bruce, XW1B to be active from Vientiane, Laos during the CQWW 160-Meter CW Contest (January 23-25th) as a Single-Op entry. QSL via E21EIC, direct or bureau. [NG3K]

24/01/2009: Operators Cal/WF5W, Mike/K5UO and Rob/HK3CW will be active as 5K0CW from San Andres Island (NA-033) from January 24-30th, including an entry Multi/Single in the CQWW 160-Meter CW Contest (January 24-25th). QRV after the contest on other CW bands during the

daylight hours. They will also try to be active on RTTY. QSL via W5PF. [NG3K]

24/01/2009: Look for Goncalo/CT1GPQ, Antonio/CU8AS, Ruedi/HB9CQL and Hermann HB9CRV (CT3FN) to be active as CU8A during the CQWW 160-Meter CW Contest (January 24-25th) from Flores Island (EU-089, DIP AZ-008, WLOTA LH-0947) as a Multi-Single entry. QSL via CT1GFK, direct or bureau; email request (cu8at at sapo dot pt) [CT1END]

24/01/2009: Juan, F5IRC/p will be active January 24th from the Castle of Saint-Maclou-la-Campagne (DFCF 27-079), commune of Saint-Maclou (CP 27021), Department Eure/27 and Province Haute-Normandie (DPF 11). QRV 80 and 40 meters. QSL via home call, direct or bureau. [F5IRC]

24/01/2009: There will be a series of Lighthouse activations by TCSWAT during the following five months from the historical lighthouses around Istanbul / Republic of Turkiye. In collaboration with the Directorate General of Coastal Safety, TCSWAT is organising the "Istanbul Lighthouses On The Air" activity, which will take place from Karaburun (TUR 036), Sile (TUR 046), Anadolu (TUR 014), Ahirkapi (TUR 056), Rumeli/Turkeli (TUR 053), and Fenerbahce (TUR 021). Lighthouses as of last two weekends of December 2008. The dates, locations and callsigns are as follows: January 24-25th Anadolu Lighthouse TUR 014 / TC2ALH; February 21-22nd Ahirkap? Burnu Lighthouse TUR 056 / TC1ALH; March 21-22nd Rumeli/Turkeli Lighthouse TUR 053 / TC1RLH; April 4-5th Fenerbah?e Lighthouse TUR 021 / TC2FLH. Stations contacting four or more of the lighthouses will recieve "Istanbul Lighthouses On The Air Award". Details will be later announced on the website: ta0u.com/ and tcswat.tripod.com/ More lighthouses will be activated in the future by TCSWAT. The lighthouse TCSWAT team will be: Urcun/TA0U, Leonardo/TA1FR, Mert/TA1ST, Tevfik/TA1HZ, Erhan/TA2DJ, Bekir/TA2RX, Mehmet/TB1J and Onur/TB2MYE. QSL direct to TA1HZ (QRZ.com). [Pete's-DX-Newsdesk]

24/01/2009: Operators UA9CSA, RV9CEC, RW9AW and RX9AI will be active from Verhoturye Kremlins (RC-016 for the Russian Castles Award - www.cqrca.com) on January 24th. QRV 40 and 20 meters, using SSB and CW. QSL via operators' instructions. [I2JJR]

24/01/2009: Members of the Bekasi DX Contest Club (YE1ZAT) will be active from Java (OC-021, WLOTA LH-1660) during the CQ 160-Meter CW Contest (January 24-25th) as a Multi-Op entry. Operators mentioned are Joz/YD1JZ, Danu/YD1GCL, Terry/YC1KAF, Yon/YB1CCF, Arif/YE1AA and Heri/YB1KAR. QSL via YE1ZAT, by the bureau, e-QSL or direct via info on QRZ.com. [OPDX Bulletin]

24/01/2009: Look for Verne/ZF1DX and Dick/K2UFT to be active as ZF1A from Savannah, Grand Cayman Island (NA-016, WLOTA LH-1042) in the CQWW 160-Meter CW Contest (January 24-25th). No entry category was given. QSL via W8BLA. [NG3K]

25/01/2009: Michael, F1IQH will be active from Burkina-Faso as XT2WC for two weeks satrting January 25th. Mainly 14MHz; other bands are possible according to the propagation. QSL via F1IQH (QRZ.com). [F5NQL]

28/01/2009: Antonio/CU8AS, Ruedi/HB9CQL and Hermann/HB9CRV (CT3FN) will be active as CU5T from Ponta do Topo (ARLHS AZ0-018, WLOTA LH-1004), located on Sao Jorge Island (EU-175, DIP AZ-005), Azores, from January 28th to February 2nd. QRV 160-10 meters, using CW, SSB and RTTY, with Elecraft K3 + FET PA 500 watts, IC718 + FET PA 500 watts and HF9V and 18m GP antennas. QSL via CT1GFK, direct or bureau; email request (cu8at at sapo dot pt) [CT1END]

28/01/2009: Eli, HA9RE and a team of operators will be active from Wallis Island (OC-054) as FW5RE. The group is expected to arrive on the island January 26th. Eli states, "Provided all our baggage arrives in due time then we can begin the operation on January 28-29th." They are expected to be there until February 17th. Activity will be on 160-10 meters, including 30/17/12 meters, using CW, SSB and RTTY. Two stations will be on the air. Antennas to be used are: a 24m vertical on 160/80/40m, Spiderbeam for 20/17/15/10m, HB9CV for 20-15m and a 7-band Butternut. Eli and his team are now looking for sponsorship. To help, contact Eli via E-mail at: ha9re@... A Web site dedicated to the FW operation will be set up on HA9RE's own Web pages after the expedition has taken place. [OPDX Bulletin]

28/01/2009: The 3 Stars DX Group plan to activate the Santa Maria Island (IOTA SA-070, DICE ICE-502) lighthouse (ARLHS CHI-027, TWLHD WLH CE-038, WLOTA LH-0543, Admiralty G 1764, WW Loc. FF33FA) using the call sign XR5L between January 28th and February 4th. Operators mentioned are Didier/F6DXE, Christophe/F0ELI, Andr?/F0ELK, Elsa/LU1EJ, Esteban/XQ7UP, Ricardo/CE3HDI, Carlos/CE6AMN, Carlos/CE6UFF, and Irma/CA6UTF. Activity is planned for 80, 40, 20, 15 and 10 meter SSB and CW. QSL via CE6AMN, direct only (QRZ.com). Website at: www.3stardxgroup.cl/ [rsgbiota.org]

31/01/2009: Ghis, ON5NT will be active holiday-style from the Falkland Islands (SA-002) between January 31st and February 7th. He will be mostly active during his evening hours on 30 and 40m CW, running 100 Watts. QSL via ON5NT. [F6AJA]

Be sure to check Bill's (NG3K) Web site for updated CQ 160-Meter CW Contest activity at: ng3k.com/Misc/cq160c2009.html
==========
LOOKING AHEAD -

14/02/2009: Radio Club Nikola Tesla, Z37M will be active in the CQWW WPX RTTY Contest (February 14-15th) as a Multi-? entry. Operators mentioned are Z31MM, Z32ID, Z32XU, Z35T, Z35X, Z36N, Z36W and others. QSL direct or via the bureau. [NG3K]

15/02/2009: Rick, AA4W will be operating from the jungles of Honduras, February 15-25th, to provide communications support for the International Health Service. QTH will be in the village of Puerto Lamperia, located on the southeastern coast, just north of the Nicaraguan border. Rick will be manning the radio station for one of the surgical teams as well as acting as the net control station for the radio network. The workdays are long but he plans to be on 20 and 40 meters in the evenings (CW of course), and on Sunday the 22nd, to provide an opportunity for you to put a QRP contact to HR8 in your log. Callsign expected to be HR8/AA4W. QSL via home call. [NAQCC]

20/02/2009: Rick, K6VVA will celebrate his 65th Birthday from the island of Tortola (NA-023), British Virgin Islands. QRV February 20-24th as VP2V/K6VVA, mostly CW, including an entry in the ARRL DX CW Contest (February 21-22nd) using the callsign VP2VVA. QSL both calls via N6AWD. [NG3K]

01/03/2009: Special event station 8N1MOMO will be aired from March 1st to April 5th to celebrate the 33rd Koga(-city) Momo (or Peach) Festival and the 16th Koga(-city) Fire Balloon Contest. QSL via the JARL bureau. [JJ1WTL/AC6IM]

07/03/2009: Al, F5VHJ will be active from the island of Martinique (NA-107, DIFO FM-001, WLOTA LH-1041) as TO5A in the ARRL DX SSB Contest (March 7-8th) as a Single-Op/All-Band entry. QSL via F5VHJ, direct or bureau. [NG3K]

10/03/2009: Bob/W4OWY (V25WY) and Mark/W9OP (V25OP) will be active from the island of Antigua (NA-100, also count for WLOTA LH-1118) from March 10-19th. QRV 160 - 6 meters. QSL via home calls, direct or bureau. Logs will also be uploaded as before to LOTW and eQSL. [NG3K]

12/03/2009: Colin/G3VCQ (FISTS #14065) and Sharon/M3VCQ (FISTS #14066) will be active from the island of Grenada (NA-024, WLOTA LH-0718) from March 12-26th. Colin is participating in the BERU CW contest (March 14-15th) and will be part of the "Rest of the World Team". Operations will be from the beach QTH with FT857d, Expert SPE solid state amplifier. Antenna's will range from a 3 el yagi for 14, 18, 21, 24 and 28Mhz. On the lower bands the antennas will be verticals and Dipoles for 10, 7 and 3.5Mhz. Modes will be SSB during none contest times and CW during the BERU of course. Colin will only work Commonwealth stations during the contest. Sharon J38/M3VCQ will also be active with Colin from the island (SSB only chaps!). If your local listen out for us on 2m, 6m and 70cm. All QSL's via G3VCQ please, direct or bureau. [Pete's-DX-Newsdesk]

24/03/2009: Helmut, DF7ZS will be active from Santana, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053) as CT3/homecall from March 24-31st, including an entry in the CQWW WPX SSB Contest (March 28-29th) using the callsign CS9L (or CT9L). Casual activity outside of the contest. QSL CS9L via DJ6QT, bureau preferred. QSL CT3/DF7ZS via home call, direct or bureau. Visit his Web page at: www.df7zs.de/ [NG3K]

28/03/2009: Look for Jimmy Lou, BX5AA to be QRV for the the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/All-Band/High-Power entry from Changhua City, Taiwan (AS-020, WLOTA LH-0022). QSL direct via the information on QRZ.com. [NG3K]

28/03/2009: Jyrki, OH6CS will be active as EA8/OH6CS from Santa Maria de Guia, Las Palmas de Gran Canaria (AF-004, DIE S-005, WLOTA LH-0969), Canary Islands, during the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/Single-Band (15m) entry. QSL via OH6CS, direct or LoTW. [NG3K]

28/03/2009: Al, NH7A will be active from Keaau, Hawaii (OC-019, USI HI-025S, WLOTA LH-0065, Hawaii County) during the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/All-Band entry. QSL via F5VHJ, direct or bureau. Logs will also be uploaded to LoTW. [NG3K]

28/03/2009: ZT2V, rare prefix, to be QRV for CQWW WPX SSB contest - Eight South African amateurs will be operating ZT2V in the CQWW WPX SSB contest (March 28-29th). This will be one of the rare times the ZT prefix has been used and the first time South Africa's East Cape Province (ZS2) has had a "team operation" entry in a major contest. The multi 2 operation will take place from the Port Elizabeth region QTH of ZS2DL, Donovan, who serves as team leader. Other experienced contest participants include Barry/ZS2EZ, Mitch/ZS2DK, Thiaan/ZS2Y and Andre/ZS2ACP. Henning/ZS2HK and Glen/ZS2GV, will be making their major contest debuts. The QSL route for ZT2V will be Buzz - NI5DX, direct preferred, bureau OK. [K1XN & GOLIST]

07/10/2009: Randy/N0TG, Murray/WA4DAN and Ron/AA4VK will be active from Sable Island (NA-063, CIsA NS-004, WLOTA LH-0758) as homecall/CY0 from October 7-14th. Part of our team from previous operations from KP1 and KP5, CY9 are reuniting for an operation from Sable. They plan to be QRV 160-10 meters, SSB and CW. At times there will be two stations on SSB and one on CW. At other times there will be two stations on CW and one on SSB. We plan to install three Butternut vertical antennas as well as a strategically placed yagi antenna. QSL direct to home calls. Further information and updates will be available on their Web site at: www.cy0dxpedition.com/ [NG3K]

==========
SPECIAL EVENTS -

22/01/2009: CQD, Jack Binns and the rescue at sea in 1909 Special Event 100th Anniversary January 22-24, 2009. For the 100th anniversary of the Republic-Florida collision, radio operators around the world will be at their Special Event Stations listening for special broadcasts and communications about Jack Binns and the Republic-Florida Collision! For a complete list of these events, go to: www.jackbinns.org/ and www.jackbinns.org/commemoration_news .

The Scunthorpe Steel Amateur Radio Club, Scunthorpe, UK, will be active for the Jack Binns event by signing GB5CQD on January 24th and January 25th. QSL via G0OKF, direct or bureau.

Also celebrating the Jack Binns event will be the The Lizard Marconi Wireless Station, The Lizard, Cornwall, UK, using the call sign GB100MSC from January 22-25th on 80m-10m CW and SSB. QSL via operators instructions.

The Chelmsford Amateur Radio Society, Chelmsford, UK, will be QRV for the entire months of January and February using the call sign GB0MWT, operating from the Sandford Mill. Marconi Hut Morse only for January 23-25th on all bands, SSB and Morse. QSL via the bureau to G0MWT.

The Marconi Radio Club W1AA of Massachusetts, USA, will take part in the Jack Binns special event with two stations by representing SS Republic (Callsign MKC) as W1AA/MKC and SS Baltic (Callsign BC) as W1AA/BC. The two stations plan to be on the amateur bands on January 23 from 0001z to 0400z and on January 24 from 1200z to 2000z. Both SSB and CW modes will be used. QSL via W1AA (QRZ.com); DX can use the W1 Bureau. Website info at: www.anything-it.biz/roass/roars.html [K1VV]

24/01/2009: A special event station VI2BV90 will be active from the 24th of January 2009 until 1st of February 2009 to celebrate the 90th Anniversary of Waverley Amateur Radio Society in Sydney, Australia. The club expects to operate on or near the following HF frequencies: SSB - 3.590, 7.090, 14.190, 21.190 and 28.490 MHz; CW - on or near 7.019 and 14.019 MHz, with operations shown on the QRZ DX cluster. The operating schedule is being discussed and once it is finalised, it will be updated on the club's website http://www.vk2bv.org/ [VK2BNG]

24/01/2009: The Scarborough Special Events group will be on the air as GB4RNLI during the RNLI SOS week commencing Saturday, January 24th. Activity will be on HF SSB and CW. QSL via the bureau or direct via club call G0OOO. [GB2RS]

25/01/2009: The Kilmarnock and Loudoun Amateur Radio Club now has the special event call GB250RB to commemorate 250 years of the life and times of the famous poet Robert Burns (January 25, 1759 - July 21, 1796). The station will be on the air January 25th through to December 31st, 2009 from events all over Ayrshire and Scotland by members of Kilmarnock and Loudoun Amateur Radio Club, Kilmarock, Scotland, and other clubs. QSL via MM0DHQ direct, eQSL, or bureau. Further information can be found at: www.gb250rb.co.uk/ [MM0DHQ]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

==========
QSL INFO -

Buzz, NI5DX, is now the QSL manager for Julien, FM1HN, in Martinique. Buzz already has the FM1HN logs but is awaiting QSL cards. If Julien has blank cards to send to NI5DX, the wait for replies will be very short. If new cards must be printed, the delay will take up to 4 weeks after the cards are ordered. Buzz will be able to confirm any QSOs that are in Julien's log.

At the present time, QSLs for the special call, TO1YR, still go to FM1HN either direct or via the bureau. [K1XN & GOLIST]

New GB Call QSL Manager -
The RSGB reports on its website that Mike Evans MW0CNA, sub manager for both G0B & GB

Special Event QSL cards is stepping down at the end of January.
Mike has provided an excellent service to the amateur community and the RSGB QSL Bureau wishes to express its grateful thanks for his efforts, over a long period.
Davina Williams M0LXT, is taking on both sub groups from the beginning of February 2009 and all Stamped Addressed Envelopes should now be sent to the new manager.
Full contact details can be found on the RSGB Members Only website.

QSLs received Bureau - OX3KQ.

QSLs received Direct - 4S7NE (via Direct), 4U1UN (via HB9BOU), 5X1GS (via WB2YQH), 7P8BA (via ZS6BQI), 7U5CI (via OM2CGN), 9H1XT (via QRZ.com), 9L1X (via I2YSB), 9M2AX (via Direct), 9M6/N2BB (via MD0CCE), FO/DJ7RJ (via DJ7RJ), HS0ZEE (via Direct), J6/W0SA (via 8P9NX), JX9JKA (via LA9JKA), MD0CCE (via Direct), OX5AA (via G3TXF), PZ5TT (via VE3DZ), T209DX (via JA1KAJ), TN5SN (via IZ1BZV), V51AS (via Direct), VK9CJW (via I5JHW), VU4RG (via DJ7JC), ZA0/I8LWL [EU-169] (via I8LWL), ZK2QQ (via JA1KAJ) and ZS2EZ (via Direct).

QSLs received LoTW - 9N7CQ, E44M, KP4ED, TK/F8DZY (July 2008) and XZ7A.
==========
SILENT KEYS -

Dennis "Den" Joel Wills, AK5D, became silent key January 13, 2009 at the age of 71.

Zedan "Abu Marwan", JY3ZH, became silent key January 20, 2009 after 40 years of radio hamming. Zedan was the net controller of the Arabian Knigth Net for more than 25 years, every friday (14.252 Mhz). The Arabian Knigth Net was established by the late King Hussin (JY1) in 1972. He is a great loss to Jordanian and Arab amateurs.

Laban Davis, VO1HLD, of Lethbridge, Newfoundland, became silent key December 5, 2008 at the age of 67.

News from CQ....

The first issue of WorldRadio Online -- February 2009 -- is now posted on the CQ website. It is available to all without charge.

To download and view the issue, go to the CQ home page at <http://www.cq-amateur-radio.com> and click on the "WorldRadio Online" box. You will need Adobe Acrobat Reader in order to read WorldRadio Online. If you do not have it, scroll to the bottom of the welcome page and you will find a link for a free download.

To sign up for the free WorldRadio Online e-mail alert list, which will provide detailed previews of each issue, go to http://mailman.sunserver.com/mailman/listinfo/WorldRadio-L and register.

WorldRadio Online is a monthly publication of CQ Communications, Inc.

4-metres in Denmark
As of 1st of January 2009, Danish radio amateurs can also use the 70.225 MHz channel, i.e. the segment 70.2125 - 70.2375 MHz.
This also means that two smaller segments are now joined into one segment 100 kHz wide.
For more details see the Danish bandplan:
www.70mhz.org/bandplan_oz.htm [Southgate ARC]

Brazilian League 75th Anniversary -
The LABRE - Amateurs Radio Brazilian League, complete on February, 02 upcoming 75 (seventy-five years) of labor to support the Brazilian Amateurs Radio.
The Executive Directors of LABRE not I wish that this date passase without a simple reminder. made in mid December 2008 the Executive Direction of the same in place of our great friend and Amateur Severino.
They would like to see this day going "blank". With the great cooperation Mr Orlando - PT2OP decided to create a competition for amateurs radio to remember the date on which the RNR LABRE and became the only representative of brazilians Amateurs Radio.

8100. Antarctica, Antigua, Papua, IOTA listings update

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-22 19:43:40 UTC
From: F5nql@aol.com
Topic: 8100 Message: 8100

Hi friends

Just to inform you that Adam is operating as CE9/K2ARB from Antonio Hunneus Gama Base (WAP CHL-15) a brand NEW-ONE, for the Antarctica awards programm. He is QRV till Jan. 25 running an Icom 7000 on solar power to a G5RV. Ops are limited to 40 meters on 01:00-04:00Z due to workload. QSL via K2ARB. More info and details on WAP website (News & Information) www.waponline.it Stay tuned... so far only few Ws have got a chance to work Adam! GL to all the chasers!

73 Gianni I1HYW
www.waponline.it

Tks Gianni, I1HYW

ANTIGUA:

W4OWY / V25WY (Bob) and W9OP /V25OP (Mark) will be on Antigua March 10 through
March 19. 160 - 6 meters, QSL via home calls or bureau. Logs will also be uploaded as before to LOTW and eQSL.

Tnx,
Bob W4OWY

Tks Bill, NG3K

PAPUA – NEW GUINEA :

Look for Jerry, P29ZAD, to be active from Buka island (IOTA OC135) between february 7 to 27.
QSL via NI5DX, direct . Please write OC-135 on the envelope and see also http://p29zad.blogspot.com/

IOTA updating:
To update your IOTA score, you have to send the information up Fev 28th 2009. Information received after will be checked but will count for the following year.
To update your score online, go to : http://www.rsgbiota.org/

Tks F6AJA

8103. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-22 22:40:53 UTC
From: K1XN
Topic: 5889 Message: 8103

The JANUARY 2009 Issue #901-D files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

8104. DX NEWS

Yahoo group: GOLIST (2007 — 2010)

From: K1XN
Topic: 5876 Message: 8104

PJ7/FS DXpedition to the Caribbean

The "Buddies in the Caribbean" DX group which specializes in 100 watt or low power radios and the Buddipole portable antenna system is off again to a new DXpedition site Feb. 4-11.

This time the group will be operating at different times from BOTH the French and Dutch side of St. Bartholomey Island FS/PJ7. Various modes including phone, RTTY, and CW will be on the air, along with "golf cart mobile", or "bicycle mobile" operations and other unique operational situations. Each of the operators has extensive experience operating from "unique" locations or various DXCC entities.

In 2007, four of the eight operators on the 2009 DXpedition were part of the Montseratt VP2M Buddipole DXpedition.

The DXpedition headquarters will be at Villa Ait Na Greine on the French side of the island. The heaquarters (http://villaaitnagreine.com) is perched on top of a cliff overlooking the Caribbean with excellent take off angles toward North America and Europe. There will be other sites on the island, both on the French and Dutch sides, where operations will occur giving DXers a chance to work two separate DXCC countries.

The group's goal will be to work stations from all over the world using Buddipole?„? antennas and other newly-developed Buddipole?„? antenna accessory products. The operation will be the week before the Orlando Hamfest and two weeks before the KP5 DXpedition. Operators will be using FS/homecall and PJ7/homecall and plans call for contacts to be uploaded to LoTW, eQSL, and an on-line log. Those wanting hard copy QSLs should send a S.A.E. and appropriate return postage or an SASE to the homecalls of the operator(s) you've worked.

The "Buddies in the Caribbean" blog page will be http://caribbeanbuddies.blogspot.com/

The group consists of the following operators:

K8EAB Weymouth Walker who's operated from Jamaica as well as motels, high rise apartment buildings, a pontoon boat, mountain tops, and even "picnic table" portable during his 52 year ham career.

KC4VG Mike Greenwood was a member of the BUM's Montersatt group in 2007 as VP2MVG and has been licensed more than 25 years. He also has operated from the Bahamas C6 and other Caribbean locales. Unique QTHs have included operations from Alcatraz Island in the USA, a cruise ship, and the Marconi station on Cape Cod. He specializes in low power SSB operations. Many DXers have run into Mike at the Buddipole booth at the Dayton Hamvention where he helps Chris and Budd out with sales.

N7UN Guy Hamblen has operated from such unusual locales as the Appalachian Trail and from the top of several of Colorado's 14,000 ft. peaks. Previously he was K7YYK, AA7QZ, and his current call of N7UN. He has 334 DXCC countries confirmed.

KB9AVO Paul Van Dyke was a member of the 2007 Buddipole Montseratt DXpedition and held the VP2MVO call. He is a frequent contester as part of the KP4US contest team in Abonito PR. He will be specializing in PSK, RTTY, and Slow Scan tv on FS/PJ7. He is also founding president of the Indiana-Michigan-Ohio Skywarn Association.

WW5L Tom Anderson is an avid DXer and has held the following DX calls since the 1980s: V31EF (Belize), G0/WW5L (UK), 7P8TA (Lesotho), and C91TL (Mozambique). He is on the DXCC Honor Roll and has also operated from the Battleship Missouri, KH6BB, at Pearl Harbor HI. He was a K2BSA staff member and radio merit badge counselor at the 1997 National Boy Scout Jamboree and has been invited back as a K2BSA staff member for the 2010 Centennial National BSA Jamboree. He is also planning on operating as HB9/WW5L from the Kandersteg World Boy Scout Camp in Switzerland in July.

N0TU Steve Galcchutt is a long time CW operator on Straight Key Night and enjoys "mountain top operation" as he's operated from several of Colorado's 14,000 ft. peaks. QRP CW operations are his main interest. He will also be the group's resident videographer - you may have seen his videos on YouTube under the pen name "the Goat Guy."

W3FF Budd Drummond is one of the principals in Buddipole. His main interest lies in making portable, "bicycle mobile", "golf cart mobile", and "walking" HF contacts from whatever location he finds himself in. Budd was one of the members of the 2007 Buddipole Montseratt DXpedition. His web page is http://www.qsl.net/W3FF. In September 2004 Budd worked every continent using 50 watts on his "bicycle mobile" and has logged more than 5,000 QSOs as "walking mobile" station.

W6HFP Chris Drummond is the president of Buddipole and his main interest, naturally, is HF portable operating and "lightweight" DXpeditions to remote locations. An avid backpacker and outdoorsman, Chris works to design products that will live up to his demanding expectations for rugged and versatile equipment for HF operating in the field. He was also a member of the VP2V Montseratt DXpedition with callsign VP2MHFP.

About the antennas: the Buddipole antenna system is designed to be a lightweight and versatile way to put an efficient station on the air in minutes in almost any terrain. By utilizing an interchangeable series of custom-made components the user is able to configure dozens of antenna designs optimized for their particular operating needs. The group to St. Martin expects to operate dipoles in various configurations, verticals, vertical beams, mini-yagis, and other antennas using only Buddipole parts. Several new products will make their debut including a lightweight rotor, super cap power supply, LifePo4 battery packs, folding capacity hats, and shockcorded masts.

8106. VK Shires Award.(WAVKS)

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-23 12:20:38 UTC
From: K1XN
Topic: 8106 Message: 8106

From: Bernie McIvor vk4ej@...

VK finally has a new VK Shires Award.(WAVKS)
Recently Queensland has had a major reshuffle of its shires, A lot of small shires
have been joined together & renamed, and the number of old shires has been reduced
considerably. My Friend VK4FW and the Oceania Amateur Radio DX Group Inc (ODXG) have put in a lot of hours and developed this new Award... I believe it will become very popular for both VK and the rest of the world..

Thirdly, To help everyone work more VK shires, ODXG has sponsored a New Contest called the AUSTRALIAN SHIRES CONTEST. It is to be held annually the weekend prior to the second Monday of June. The Official website for the contest is www.vkshires.info (http://www.vkshires.info)

Cheers Bernie VK4EJ

WAVKS - WORKED ALL VK SHIRES AWARD

This award is administered by Oceania Amateur Radio Dx Group Incorporated (www.odxg.org (http://www.odxg.org))

WORKED ALL VK SHIRES (local government areas)

Amateurs and SWLs may apply for this award under the requirements set out below:

1. This award is available in various levels. The first level may be applied for after the applicant has worked 50 of the listed local government councils.

After the initial award, you will require a further 50 shires each time you apply .. Eg 50, 100, 150, 200 , 250 etc

2. Any amateur operating in any VK shire shall be permitted to count it as a worked shire for themselves providing they have logged other operators.

3. Modes and bands of operation are SSB, CW and RTTY on all HF only bands. Cross band or repeater contacts are not permitted.

4. Applications must be accompanied with a log extract detailing the stations/shires worked. Electronic logs as well as paperlogs are excepted.

5. Applications must be accompanied with payment for the postage of the certificate. For VK amateurs that fee is $5aud and Dx amateurs the fee is $10aud or 5 ircs.

6. All contacts after 31st Dec 2008 shall count for this award.

7. Please be aware that most of VK call areas have an award for their area.. Eg The VK4 award has been going since 15th Mar 2008. Information on these various awards is available from VK4DMC.

The official web site for the VK Shires is

www.vkshires.info (http://www.vkshires.info)

There is also a yahoo forum at

http://groups.yahoo.com/group/vkshires

From: K1XN
Topic: 8107 Message: 8107

I will be QRV signing AX4EJ for AUSTRALIA DAY the 26th of January.

We are permitted to use the AX prefix for 24 hours only, from Midnight
to Midnight local time, So UTC times will vary depending on the State/time zone.

Sorry for the late notice, but I just got Confirmation from the WIA secretary
that it was OK

Cheers Bernie VK4EJ

As I sit here in a cold and sunny Bournemouth, UK, Bernie also says:

We are melting here in Brisbane, 30 plus temps I can handle, but humidity in the
90's is a killer, the Air Conditioner in the shack is getting a workout, Hi..

.....Bernie - it is a hard life!!

I have used PayPal for payments and to receive money (over 2,000 deals)
and never had a problem? maybe its something with the people paying you
John?

8115. ZL7 CHATHAM ISLAND

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-24 12:08:12 UTC
From: K1XN
Topic: 8115 Message: 8115

ZL7 CHATHAM ISLAND: A team of nine ZL operators will be activating Chatham Island in March 2009. The team leaders are Lee ZL2AL and Morrie ZL2AAA, The rest of the team will be Lee ZL2LE, John ZL1BYZ, Mike, ZL2CC, Phil ZL2RVW, Mark ZL3AB, Wayne ZL2WG AND John ZL1ALZ. Chatham Island is located about 550 Km east of New Zealand about 3 hours by air. Although ZL7 is not particularly rare but is in the top 100 at 87 needed for DXCC and it still generates much activity on the bands. Our Pilot will be Duncan ZL3JT in Christchurch zl3jt@...? The team will be hosted at the Chatham Fishing Lodge in the fishing village of Kaiangaroa on the north eastern tip of the Chatham Islands.? www.chathamfishingexperience.co.nz/ (http://www.chathamfishingexperience.co.nz/) .

?

We will be looking for newer ops wanting to work ZL7 for the first time and will be listening for VK/ZL and Pacific stations at the end of each hour for a few minutes. We will not be working specific call areas or any region to the disadvantage of any other region.? The ICOM four station setup with amplifiers will operate 160M to 10M with CW, SSB, RTTY and PSK modes. Wire loops will be used on 80M and 40M, a vertical on 30M and Yagis on 20, 17, 15, 12 and 10M. We also will try 160M alternating with the 80M station from time to time.?

?

Most of the experienced operators are DXCC members and look forward to the pileups. Frequencies will be in the usual SSB and CW DX haunts on each band with SSB split up 5 kHz and CW split up 3 kHz. Our callsign will be announced at the beginning of the operation on March 6, 2009 and ending on March 11, 2009. Although ICOM New Zealand has offered limited sponsorship, donations would be appreciated as the team will have to cover all expenses including the QSL printing. Donations would be appreciated. The website will be up and running in a few weeks and the URL is? www.zl7t.com (http://www.zl7t.com/)? Logsearch will be available on the team's return. QSL via Buro or Direct via ZL2AL CBA or QRZ.com

?
We will be uploading the logs to LoTW in approximately 6 months and we will also QSL via the Buro
?
73, Lee ZL2AL Team Leader

Hello

This is to inform you that I will be on a short holiday trip to Curacao signing PJ2/PA4JJ.

I am leaving April 30 from Amsterdam and will be on the island until April 11 2009.

I will take my FT897 and a ZS6BKW wire antenna with me together with my laptop.

Activity will be on all ham bands with a focus on the WARC and DIGI modes RTTY and/or PSK31.

Please be informed that I am the only ham in a party of 4 so I will try to be as active as I can.

QSL cards direct to PA4JJ. If I have access to the Internet I will provide an online log on my website

http://www.pa4jj.nl/html/pj2_pa4jj.html or as soon as possible after return home.

Jan, 25th

Hi John,

short words from Cayo Levantado IOTA (NA-122) DXpedition:

From Jan 21st, they have already made more than 3600 QSOs SSB/RTTY/CW/PSK31.
The weather is very rainy, so they can't improve a lot the 40/80Mts antenna.
Yesterday they had a big pile-up from W's and JA's on 20Mts and are very
satisfied because is a rare IOTA in Japan, although the 20Mts is the
better band from Cayo Levantado, they will try to show up on 80Mts tonight.
The logs has been updated, check it at http://www.ea3bt.com

ZS8T ? Marion Island (http://zs8t.net)

More activity from Petrus, ZS8T (http://feedproxy.google.com/%7Er/ZS8T/%7E3/4Sx4nFQkgpA/)

Posted: 25 Jan 2009 08:24 AM PST

Thanks to David ZS1BCE (http://www.qrz.com/zs1bce) we are able to provide three recordings of ZS8T, operating today January 25, 2009.

Congratulations to LU6EK, SV9CVY and VK6DU.

We understand other contacts were made with Australia, Northern Ireland, Poland, Croatia, South Africa, Israel, Portugal, Italy, USA and Malta to name a few.

If you hear or work Petrus and are able to record, drop in your MP3 recording for future inclusion on site or even?for nostalgia (http://zs8t.net/zs8t-audio-recordings/).

Update: I7LGM also provided us with a recording.

Thanks to all.

8125. Desecheo DX NEWS

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-26 15:18:06 UTC
From: K1XN
Topic: 7410 Message: 8125

FOR IMMEDIATE RELEASE
?
We have reserved the special call sign K5D for our upcoming Desecheo operation.? The operation will begin late in the day on Feb 12th.?
?
QSO philosophy...because? Desecheo is so very rare (#6 worldwide, #3 in Europe and # 2 in Asia) there are many, many hams worldwide that need KP5 for an all-time new one.? Therefore, we are asking that you not contact the Dxpedition on any band/mode that you have confirmed from a previous DXpedition.? This will allow the people who really need a new DXCC entity?a better opportunity to get through the pileups.?
?
Our objective is not to establish a world record for contacts...there will be no "greenies", no boxes to check, no competitions for most band/mode QSOs, no certificate or awards for contacting the Dxpedition more times than anyone else.? So, if you?have KP5 already confirmed on a particular band/mode, we respectfully ask that you exercise restraint.? If, late in the DXpedition, we are calling CQ for contacts, we will welcome your call.
?
The team has encountered higher expenses than anticipated.? These mainly involve the transportation and feeding of other personnel that will be traveling to the island with us.? Approximately?ten other personnel will share our campsite and facilities for the duration of the DXpedition.? They will be on Island with us to provide security and carry out field research.? Therefore, we ask that you consider a contribution to the DXpedition to help with these incremental expenses.? Just go to www.kp5.us (http://www.kp5.us/) and click the button that reads" How you can Help".
?
We are all counting the days until we assemble in Puerto Rico on Feb 7th.?
?
Bob Allphin- K4UEE
Glenn Johnson-W0GJ

If you can get 'em locally for $1.85, load up on them ASAP. The USPS website says:

==========

Are International Reply Coupons (IRCs) still available?

Yes, the selling price will be $2.00 each. IRCs are exchangeable in any other UPU-member country for a stamp(s) representing the minimum postage for
an unregistered air letter.

That's pretty good price because all of the post offices I have been to sell them for $2.10
not $1.85 any more
Plus all of the money for the selling of the IRCs I sell go to the use of postage for
returning QSLs to people who do not include postage for the stations that I manage

From: K1XN
Topic: 8129 Message: 8129

Information about the Orlando Hamcation, February 12, 13, 14, 15:

If you have never been to the Orlando Hamcation, you need to think about attending. It is now the second largest hamfest in the country, fast approaching the size of Dayton. While Hamcation is technically Friday, Saturday, and Sunday, the fun really gets started with most tailgaters moving in on Thursday. It seems you can find most anything you would want with 100's of vendors -- maybe even approaching 1000. Everything from the most ancient boatanchor to the most modern rig will be there.

In addition, Florida is the place to be in February, as opposed to the "Cold North". There are plenty of activities for the family as well, in the central Florida area.

Swap tables at the Orlando Hamcation are still available at the present time.

If you would like a table in the swap building, you can contact Mort, WA2ARS, or Roberta at hamcation@..., and make your reservation. Remember if it is cold or rainy outside in the tailgate section, it will be warm and dry inside the swap building.

More information is available at
http://www.hamcation.com/

See you there.

Thanks.

The Following from Lee ZL2AL.....

73 de Bill ZL3NB

Hi all

Thanks to all of you who have sent best wishes for our trip to ZL7. Our website designed by Gary, ZL2IFB is up and running at www.zl7t.com <http://www.zl7t.com/> and will tell you a bit about where we actually are on Chatham Island and what we are trying to accomplish. Some of you have previously offered financial help and although we will have PayPal facilities on the website shortly we would welcome donations from anyone to help as this is all financed out of our pockets. We also realize that the world was a different place when we started planning last year and money is not as easy as it was. Thanks for any help you may be able to offer. *Our NZ Account number is 06 0738 0128289-00*

We will be looking for all the ZLs and VKs we can find for a few minutes at the top of each hour and also hope to make the odd visit to the *80M Counties net* during the week. If biz is slow on 20M we may show up on the *ANZA net* for a short while.

ZL7T will be easy to work on 80M, 40M and 30M but will prove a bit harder on 20M and the higher bands for ZLs. 160M should be too difficult if we can get an efficient wire antenna up.

Thanks for your support. We will look forward to seeing you in the pileups

73, Lee ZL2AL

8132. 3B7FQ activates St. Brandon, Jan/Feb '09

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-27 15:43:09 UTC
From: K1XN
Topic: 8132 Message: 8132

License in-hand, Rachid / 3B8FQ, expects to activate St. Brandon Isl., AF-015, for almost two weeks, from Friday, Jan. 30, until Thursday, Feb. 12th. The callsign will be 3B7FQ. This will primarily be a working trip for maintenance on the meteorological station on St. Brandon, with on-air operations as time allows. Rachid expects the 30, 20 & 17 Meter bands to be the most productive, but will try all bands, 80-10M.

Rachid will use CW & SSB. On CW, look for Rachid near the bottom of the band, "on the 8's" such as 10.108, 14.008, and 18.078MHz. He will be using 100W and a G5RV.

Plans are to be QRV later in the year as 3B9FQ while on holiday, in July '09.

QSL 3B7FQ / 3B8FQ / 3B6FQ & 3B9FQ via K5XK, per instructions on QRZ.com .

8134. Preserve and Encourage CW Activity in 2009!

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-28 14:52:37 UTC
From: Dave Raycroft
Topic: 8134 Message: 8134

New Years 2009 may have come and gone but its never too late to resolve to help preserve and encourage CW activity across our amateur bands. To celebrate the new year, come and join the NAQCC (North American QRP CW Club), a club for any and ALL CW enthusiasts around the world.

Our members include "Big Gun" contesters, hard-core QRPers, experimenters, ragchewers and SWLers; young and old alike. As different as we may be, we all share one thing in common, and that is our love for CW.

We welcome all who want to help support CW and have at least some interest in using QRP from time-to-time. Our club runs monthly sprints and challenges. Plus we sponsor some additional special on-air activities during the year.

Membership is free and once you join you're automatically a lifetime member! So sign up today and help us keep CW alive and well.

Visit our web site at http://www.usatek.net/~yoel/. You'll find info on all of our various activities plus an online membership application.

We look forward to your support and hope to soon see your call added to our membership roster.

73,
Paul/KD2MX
NAQCC Membership Recruiter

On behalf of:
Tom, WY3H - NAQCC President
John, K3WWP - NAQCC Vice President
Larry, W2LJ - NAQCC Asst. Publicity Director

Hi folks.

8136. SELLING USING THE MONEYBOOKERS SERVICE

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-28 21:08:54 UTC
From: K1XN
Topic: 8136 Message: 8136

Hi folks,
??? I am still looking for an alternative payment service to PayPal.
The MoneyBookers service has been mentioned to me and I was
wondering if any of you have sold any items and used the
MoneyBookers service for payment.
If so, were you happy with it and do you feel that this is a good,
secure payment service.
??? Any info and opinions welcomed.
Please direct any message to me via my email address
golist@...

8137. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-01-29 16:44:00 UTC
From: K1XN
Topic: 5889 Message: 8137

The FEBRUARY 2009 Issue #902 files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

8138. ICPO Bulletin (January 29 - February 06, 2009)

I.C.P.O. Bulletin (January 29 - February 06, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

28/01/2009: Gildas, TU5KG is back to the Southern Indian Ocean on a fishing boat. Between January 28th and March 7th he will be sailing in the Crozet area. There is the possibility he might land on Crozet; watch the clusters. Between March 10th and April 15th he will be sailing in the Kerguelen area and may be active from Port aux Francais on March 7th. A stop at the beginning of March is necessary before the return. When on land he expects to operate as FT5XS from Kerguelen and as FT5WP from Crozet or as maritime mobile. QSL via F4EFI via REF bureau 29 or direct. [F4EFI]

29/01/2009: Bill, KC4USV is operating from McMurdo Base (WAP USA-22, WABA K-09, IOTA AN-011) for the entire summer season (January - March). Bob K4MZU has set a sked for Europeans for Sunday January 31st and Sunday February 1st at 1700z and 1800z on 14243.0 kHz. QSL via K1IED. [I1HYW]

30/01/2009: Rachid 3B8FQ, expects to activate St. Brandon Island (AF-015) for almost two weeks from January 30th to February 12th. The callsign will be 3B7FQ. This will primarily be a working trip for maintenance on the meteorological station on St. Brandon, with on-air operations as time allows. Rachid expects the 30, 20 and 17 meter bands to be the most productive, but will try all bands 80-10m, using CW and SSB. On CW, look for Rachid near the bottom of the band, "on the 8's" such as 10.108, 14.008, and 18.078 MHz. He will be using 100W and a G5RV. Plans are to be QRV later in the year as 3B9FQ from Rodriguez Island (AF-017, WLOTA LH-4265) while on holiday, in July. QSL via K5XK (QRZ.com). [K1XN]

31/01/2009: Ghis, ON5NT will be active holiday-style from the Falkland Islands (SA-002) between January 31st and February 7th. He will be mostly active during his evening hours on 30 and 40m CW, running 100 Watts. QSL via ON5NT. [F6AJA]

01/02/2009: Gerhard, OE3GEA will be active as FR/OE3GEA from Reunion Island (AF-016, DIFO FR-001, WLOTA LH-1812) between February 1st and 13th. QRV all bands, CW only. QSL via home call, direct or by the bureau. [rsgbiota.org]

01/02/2009: Lars, MM0DWF (DL9LB) will return to Husvik, South Georgia (AN-007) during the month of February, and expects to operate again as VP8DIF during his limited spare time. He will have a new soundcard interface, so he might try some RTTY, "but no promises". QSL via DJ9ZB, direct or bureau. Further information, including log search, can be found at: www.lars-boehme.de/vp8dif/index.html [425 DX News]

03/02/2009: Sigi, DL7DF and his XYL Sabine will be on holiday in Zanzibar (AF-032, also count for WLOTA LH-1080) from February 3-13th. QRV as 5H1DF on 160-10 meters using CW, SSB, RTTY and SSTV as often as possible. Equipment consists of a transceiver, a linear TY900, a 18m Lowband Vertical, a Vertical R7 as well as a laptop computer. The QSL-Route is via DL7DF either direct (Sigi Presch, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany) or via the German DARC QSL bureau to DL7DF. Further information at: www.dl7df.com/5h/index.html

[NG3K & DL7DF]

04/02/2009: The "Buddies in the Caribbean" DX group which specializes in 100 watt or low power radios and the Buddipole portable antenna system is off again to a new DXpedition site February 4-11th. This time the group will be operating at different times from BOTH the French (WLOTA LH-0383) and Dutch side of St. Martin Island FS/PJ7 (NA-105). Various modes including phone, RTTY, and CW will be on the air, along with "golf cart mobile", or "bicycle mobile" operations and other unique operational situations. Each of the operators has extensive experience operating from "unique" locations or various DXCC entities. The DXpedition headquarters will be at Villa Ait Na Greine on the French side of the island. The heaquarters (villaaitnagreine.com/) is perched on top of a cliff overlooking the Caribbean with excellent take off angles toward North America and Europe. There will be other sites on the island, both on the French and Dutch sides, where operations will occur giving DXers a chance to work two separate DXCC countries. The group's goal will be to work stations from all over the world using Buddipole antennas and other newly-developed Buddipole antenna accessory products. Operators will be using FS/homecall and PJ7/homecall and plans call for contacts to be uploaded to LoTW, eQSL, and an on-line log. Those wanting hard copy QSLs should send a S.A.E. and appropriate return postage or an SASE to the homecalls of the operator(s) you've worked. The "Buddies in the Caribbean" blog page will be caribbeanbuddies.blogspot.com/ . The group consists of the following operators: Mike/KC4VG, Guy/N7UN, Weymouth/K8EAB, Paul/KB9AVO, Tom/WW5L, Steve/N0TU, Budd/W3FF and Chris/W6HFP. The group expects to operate dipoles in various configurations, verticals, vertical beams, mini-yagis, and other antennas using only Buddipole parts. [K1XN & The GOLIST]

==========

LOOKING AHEAD -

08/02/2009: Members of the Algarve S.T.A.R. team, namely Moreira/CT1AHU (PT7ZT), Jose/CT1EHX, Toze/CT1GFK, Goncalo/CT1GPQ, Miguel/CT1IUA and Rui/CT2IHP will be active February 8th (all morning) as CQ1A from Nossa Senhora do Ros?rio Island (DIP AL-19, for the Portuguese Islands Award). If the weather is bad, they will go to Armona Island (AL-04) February 7th, starting 1800 UTC. QRV with 2 stations, 40 and 20m (30 and 17 possible with a 3rd station), using SSB and CW. Further information and on-line log search can be found at: logonline.no.sapo.pt/ [CT1IUA]

11/02/2009: John, K3TEJ will be active from the island of Dominica (NA-101) from February 11-27th, including a Single-Op/All-Band entry in the CQWW WPX RTTY Contest (February 14-15th) and ARRL DX CW Contest (February 21-22nd) using the callsign J7N. Outside of the contest he will focus on 160m and WARC bands, CW and RTTY. QSL direct to home call. [NG3K]

13/02/2009: Iiario, IV3CGJ will be active from Marie Galante Island (NA-102, DIFO FG-008, WLOTA LH-4241), Guadeloupe, as FB/IV3CGJ/p from February 13-24th. QRV holiday-style on 80-10m. QSL via home call, direct or bureau. [rsgbiota.org]

14/02/2009: Rene, DL2JRM plans to be active from Schouwen Duiveland (EU-146) as PA/DL2JRM/p on February 14th and 15th. QRV 80m-10m CW. QSL via home call, direct or bureau. [rsgbiota.org]

23/02/2009: Look for Rene, DL2JRM to be active from Kekova Island (AS-115), Turkey, as TA0/DL2JRM/p from February 23-25th. QRV 40m-10m CW. QSL via home call, direct or bureau. [rsgbiota.org]

06/03/2009: A team of nine ZL operators will be activating Chatham Island (OC-038) from March 6-11th. The team leaders are Lee/ZL2AL and Morrie/ZL2AAA, The rest of the team will be Lee/ZL2LE, John/ZL1BYZ, Mike/ZL2CC, Phil/ZL2RVW, Mark/ZL3AB, Wayne/ZL2WG and John/ZL1ALZ. The Pilot will be Duncan ZL3JT in Christchurch zl3jt@... . The team will be hosted at the Chatham Fishing Lodge in the fishing village of Kaiangaroa on the north eastern tip of the Chatham Islands. The ICOM four station setup with amplifiers will operate 160-10m with CW, SSB, RTTY and PSK modes. Wire loops will be used on 80m and 40m, a vertical on 30m and Yagis on 20, 17, 15, 12 and 10m. We also will try 160m alternating with the 80m station from time to time. Frequencies will be in the usual SSB and CW DX haunts on each band with SSB split up 5 kHz and CW split up 3 kHz. The callsign will be announced at the beginning of the operation on March 6th. The website will be up and running in a few weeks at: www.zl7t.com/ . Logsearch will be available on the team's return. QSL via bureau or direct to ZL2AL CBA or QRZ.com. Logs will be uploaded to LoTW in approximately 6 months and they will also QSL via the bureau. [ZL2AL]

07/03/2009: Tino/HI3CCP, Andy/VE9DX and Edwin/HI3K will be active as HI3K from the Loma Del Toro contest station (HI3CCP), Dominican Republic (NA-096, WLOTA LH-2974), during the ARRL DX SSB Contest (March 7-8th) as a Multi-Single entry. QSL via KB2MS (QRZ.com). [NG3K]

28/03/2009: Members of Barry Amateur Radio Society from South Wales will going on a expedition to the Isle of Man (EU-116, WLOTA LH-0449) from March 28th to April 4th. The radio team will be Glyn GW0ANA, Curtis MW0USK, Franz DJ9ZB, Jan DJ8NK, Thomas DJ6OI, Alois DL8RBL, Yasu a JA DX operator, Lois MW3LOI (YL) and their wives and partners. They will be QRV from 160-10m using SSB, CW, RTTY and PSK. They will also be monitoring 6 meters for any openings. Plans are to use the callsign GT4BRS on CW and SSB, while GT6BRS will be used on RTTY and PSK. Note the GT prefix is a special call for Isle of Man (Remember TT Races on IOM). The group will also be active during the CQWW WPX SSB Contest (March 28-29th), using the callsign GD8K. All QSL cards via Manager GW0ANA BURO or Direct. For Direct cards only 1x I.R.C. or $2. [NG3K]

31/03/2009: Simon, M0VKY will be active from Lanzarote Island (AF-004, DIE S-007, WLOTA LH-0099) as EA8/homecall between March 31st and April 5th. Working conditions will be FT857D 1/2 wave dipole for 20m, 1/2 wave dipole for 40 AND 15 meters. QSL via home call, direct or bureau. [rsgbiota.org]

09/04/2009: Ben, DO1BEN will be active from Lolland Island (EU-029, DIA SJ-015) as OZ/homecall from April 9-17th. QRV on all HF bands, using SSB and somtimes digital modes. Location is 5 meters from the Baltic Sea. QSL via home call, bureau or direct. [rsgbiota.org]

30/05/2009: Eric, K9GY will be active from the YN2N QTH in Grenada, Nicaragua, probably as YN2/K9GY, during the CQWW WPX CW Contest (May 30-31st) as a Single-Op/All-Band/Low-Power entry. QSL via home call, direct or bureau. [NG3K]

01/06/2009: Operators Mark/NA6M, Renee'/N5RNA, Craig/W5TSN, Scott/K2CK and Pete/K9OWQ will be active from New Providence [Nassau] (NA-001, WLOTA LH-1115) as C6AMS from June 1-14th. QRV 160-10 meters, using CW, SSB and digital modes. QSL via NA6M, direct only. Further information can be found at: www.c6ams.com/ [rsgbiota.org]

24/10/2009: Luigi, IK8HCG will be active as IG9R from Lampedusa Island (AF-019, IIA AG-001, MIA MI-126, WLOTA LH-2312), African Italy, during the CQWW DX SSB Contest (October 24-25th) as a Single-Op entry. QSL via home call. [NG3K]
==========

SPECIAL EVENTS -

31/01/2009: On 31 January and 1 February Ted Moore, G7AIR will be operating a special event station on behalf of The Eddystone User Group at the site of the Point of Ayre Lighthouse (BARLS A5122X, ARLHS IOM-013) on the Isle of Man (EU-116). The callsigns used will GT3EUG on 80m, GT7EUG on 40m and GD7AIR on 160m. Special QSLs will be issued for each band and call. For further info check out Eddystone User Group website www.eddystoneusergroup.org.uk/. [GB2RS]

01/02/2009: The ISWL Club Callsigns in use during February 2009 will be:
GX4BJC /A - Operated from Long Sutton, in Lincolnshire, by Mike - G3JKN. (WAB Square = TF42-LCN & IOTA = EU-005).
MX1SWL /A - Operated from Walton on the Naze, in Essex, by Herbie - G6XOU. (ISWL Council Member & QSL Bureau Manager) (WAB Square = TM22-ESX & IOTA = EU-005).
The ISWL's WAB Book numbers are: 16316 and 16724.
All QSL Info is on www.iswl.org.uk or www.qrz.com or via www.eQSL.cc NO LOTW.
ISWL Awards are available to all Hams and SWL's - see www.iswl.org.uk for full details.
eQSL.cc cards ARE accepted for our awards. [Pete's-DX-Newsdesk]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

==========
PRESS RELEASE -

Preserve and Encourage CW Activity in 2009!

New Years 2009 may have come and gone but its never too late to resolve to help preserve and encourage CW activity across our amateur bands. To celebrate the new year, come and join the NAQCC (North American QRP CW Club), a club for any and ALL CW enthusiasts around the world.

Our members include "Big Gun" contesters, hard-core QRPers, experimenters, ragchewers and SWLers; young and old alike. As different as we may be, we all share one thing in common, and that is our love for CW.

We welcome all who want to help support CW and have at least some interest in using QRP from time-to-time. Our club runs monthly sprints and challenges. Plus we sponsor some additional special on-air activities during the year.

Membership is FREE and once you join you're automatically a lifetime member! So sign up today and help us keep CW alive and well.

Visit our web site at http://www.usatek.net/~yoel/. You'll find info on all of our various activities plus an online membership application.

We look forward to your support and hope to soon see your call added to our membership roster.

73,
Paul/KD2MX
NAQCC Membership Recruiter

On behalf of:
Tom, WY3H - NAQCC President
John, K3WWP - NAQCC Vice President
Larry, W2LJ - NAQCC Asst. Publicity Director

Dave, VA3RJ/VE3JDR - NAQCC Publicity Officer

(Please pass this information along to your club members, news bulletins, favourite reflector and to everyone who would be interested.)
==========
BITS & PIECES -

To all contesters - ARRL has declared 2009 the Year of the State QSO Party. Details of the rules and certificates are posted on the ARRL web site below.

ZS8T ? Marion Island (http://zs8t.net)

The very first log by ZS8T in online
(http://feedproxy.google.com/%7Er/ZS8T/%7E3/kln6PPhlcfA/)

Posted: 28 Jan 2009 09:34 PM PST

We’re happy to announce the very first portion of QSOs logged by Petrus ZS8T in available now in the Online Log (http://zs8t.net/online-logsearch/) section. The last entry has been logged on Jan. 25, 2009. We are currently working on some improvements providing some more functionality to the log search. Stay tuned.

From: k4hb
Topic: 8148 Message: 8148

Need QSL info for UP8A. Worked in contest Jan 18,2009.

Some sources list UP1BZZ (Now LY2BIG) Apparently, Lithuania had this suffix before Kazakhstan.

TIA,
Hal K4HB

Hal,
I do not have the manager info for your station for 2009.
The last I have is for 2004 and before and that was LY2BIG.

OK John, thanks for looking. Someone already checked with LY2BIG, and he says he knows nothing about the call UP8A for Kazakhstan. Maybe Lithuania had this prefix before Kazakhstan. Could be this contest station doesn't want to be bothered with QSL cards. If only such stations would try LoTW.

That's pretty good price because all of the post offices I have been to sell them for $2.10 not $1.85 any more
Plus all of the money for the selling of the IRCs I sell go to the use of postage for returning QSLs to people who do not include postage for the stations that
I manage

73 Mike

In a message dated 1/26/2009 10:59:22 A.M. Eastern Standard Time, jerry@... writes:
If you can get 'em locally for $1.85, load up on them ASAP. The USPS
website says:
==========
Are International Reply Coupons (IRCs) still available?

Yes, the selling price will be $2.00 each. IRCs are exchangeable in any
other UPU-member country for a stamp(s) representing the minimum postage
for
an unregistered air letter.

I.C.P.O. Bulletin (February 05 - 13, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

05/02/2009: Nigel, G3TXF plans to operate as J88XF from Mayreau (NA-025), one of the smaller islands in the Grenadines (the chain of islands to the south of St Vincent) from Thursday February 5 to Monday February 9. The operation will be CW-only mainly on 40m, 30m, 20m and 17m with a Stepp-IR 40m-10m vertical and a K3. QSL via G3TXF, direct or bureau. Further information can be found at: www.g3txf.com/dxtrip/J8/J8.html [G3TXF]

07/02/2009: John/9M6XRO, and Steve/9M6DXX, will be active from Sabah (OC-088, WLOTA LH-0119) between February 7th and 10th. 9M6XRO will operate on 10-160 metrrs mainly CW from February 7-10th, concentrating on 80 and 160m CW; 9M6DXX will operate on 10-80 metres SSB only on February 7th and 8th, concentrating on 40 and 80m. They will use one station with full legal power (400W) to a Butternut HF6V vertical very close to the ocean on 10-80m, and a 17m-high inverted-L on 160m, again within a few meters of the ocean. Sunset in 9M6 is at 1027 UTC, sunrise is at 2233 UTC. QSL both 9M6XRO and 9M6DXX via M0URX. [425 DX News]

07/02/2009: Jerry, P29ZAD will be active from Buka Island (OC-135), Soloman Islands, from February 7-27th. He will be working just North of Buka Town. Jerry will DX if he has time. QSL via NI5DX, direct or bureau. Further information can be found at: p29zad.blogspot.com/ [rsgbiota.org]

08/02/2009: Members of the Algarve S.T.A.R. team, namely Moreira/CT1AHU (PT7ZT), Jose/CT1EHX, Toze/CT1GFK, Goncalo/CT1GPQ, Miguel/CT1IUA and Rui/CT2IHP will be active February 8th (all morning) as CQ1A from Nossa Senhora do Ros?rio Island (DIP AL-19, for the Portuguese Islands Award). If the weather is bad, they will go to Armona Island (AL-04) February 7th, starting 1800 UTC. QRV with 2 stations, 40 and 20m (30 and 17 possible with a 3rd station), using SSB and CW. Further information and on-line log search can be found at: logonline.no.sapo.pt/ [CT1IUA]

08/02/2009: Look for Adolfo, EA7TV (ARLHS member 1541) to be active 1900z February 8th to 1400z February 10th from the El Rompido (New) lighthouse (ARLHS SPA-271) and El Rompido (Old) lighthouse (ARLHS SPA-337). QRV 40 and 20 meters, using SSB and RTTY. QSL via home call, direct or bureau (NO eQSL or LoTW). [ARLHS]

09/02/2009: Willy/ON5AX and XYL Magda/ON3AX will be QRV from the RV Professor Khromov (Spirit of Enderby) and from the Ross-Sea region in Antarctica between February 9th and March 10th. March 2009 with the

special calls OR3AX and OR4AX. The trip includes the Auckland Islands (ZL9 OC-074), Campbell Island (ZL9 OC-037), Macquarie Island (VK0 AN-005) and the Ross Islands group (AN-011) areas. Note: they will not be landing on each of these islands, but will be /MM in the area. QSL direct to ON5AX, for both calls. More details at: www.waponline.it/ [I1HYW]

10/02/2009: Finn/OV8FM and Martin/5P1M will be active from Andorra as C3/OV8FM and C3/5P1M from February 10-13th. QRV 20 and 40 meters using SSB, SSTV, RTTY and PSK31. QSL via OV1A. [UBA HF News]

10/02/2009: Phil Yasson, AB7RW/V31RW, and his XYL Barbara, AC7UH/V31UH, will join Rick, KT7G/V31TB, and Jake, N7WO/V31WO in Belize. The group will be active from February 10th to 24th. During the CQWW WPX RTTY Contest (February 14-15th) they will use V31TB (QSL via KT7G) and for the ARRL International DX CW Contest (February 21-22nd) they will use V31WO (QSL via N7WO). Outside the contests, QSL via the operator's instructions. Activity is planned for 160-15 meters including WARC bands. [OPDX Bulletin]

11/02/2009: Bill/N7OU and Bob/W7YAQ will be active as 3D2OU and 3D2NB respectively from Nadi, Viti Levu Island (OC-016, WLOTA LH-0055), Republic of the Fiji Islands from February 11-16th. Then, from February 17th to March 2nd they will be on Tuvalu, calls TBA, including a M/S entry in the ARRL DX CW Contest. Operation will be 160-10m, mostly CW, but some SSB and RTTY too. QSL via home calls. [NG3K]

11/02/2009: Girts, YL2KL will be active as D4C from the Monte Verde contest station, Mindelo, Sao Vicente Island (AF-086, WLOTA LH-1976), Cape Verde Islands, from February 11-22nd. He will participate in the CQ WPX RTTY Contest (February 14-15th) as a Single-Op/All-Band/Low-Power entry. Also look for him to be QRV in the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band/High-Power entry. QSL via IZ4DPV (QRZ.com). [NG3K]

11/02/2009: Andrei, NP3D (EW1AR) will be active again as H7/NP3D and YN2/EW1AR from Grenada, Nicaragua, between February 11th and 15th, including an entry in the CQ WW WPX RTTY Contest as YN2S. He will operate CW and RTTY, with some SSB. QSL via NP3D (direct) or W3HNK or RW6HS (for Russia and CIS countries). The logs will be uploaded to LoTW. [425 DX News]

11/02/2009: John, K3TEJ will be active from the island of Dominica (NA-101) from February 11-27th, including a Single-Op/All-Band entry in the CQWW WPX RTTY Contest (February 14-15th) and ARRL DX CW Contest (February 21-22nd) using the callsign J7N. Outside of the contest he will focus on 160m and WARC bands, CW and RTTY. QSL direct to home call. [NG3K]

11/02/2009: Sam, G4OHX reports he will fly to Brunei (OC-088) February 11th and will be QRV as V8FHX until February 23rd. QSL via home call. [F5NQL]

12/02/2009: The Desecheo Island (NA-095, USi OI-002S, WW Loc. FK68FK) DXpedition 2009 is expected to take place February 12-26th using the callsign K5D. Operators mentioned are Ralph/K0IR, Glen/K0JGH, Grant/K1KD, Brad/K4RT, Bob/K4UEE, Tim/K5AC, Dick/K5AND, Gary/K9SG, George/N4GRN, Bill/N4NX, Mike/N6MZ, Mike/NA5U, Felipe/NP4Z, Neil/VA7DX, Steve/VE7CT, Glenn/W0GJ, Jim/W0NB, Gordon/W0RUN, John/W2GD, Gregg/W6IZT, Garry/W8OI and Jerry/WB9Z. A total of 6-8 stations will be operational, including 160-6 meters. Focus will be on Asia and Europe. Halfway through the operation, on February 19th, approximately half of the operating team will be replaced with fresh operators for the final week. QSL direct only to AC8G. Further information and updates can be found on their website at: www.kp5.us/ [W0GJ]

12/02/2009: John/KX7YT and Rob/N1KEZ will be active from VP5JM's Hamlet on Providenciales Island (NA-002) as VP5/homecall from February 12-15th, including an entry in the CQWW RTTY Contest. QSL via home calls.

12/02/2009: Dennis, WA2USA will be active as WA2USA/4 from Bogue Banks [aka Emerald Isle] (NA-112, USi NC-010S), Carteret County, North Carolina, from February 12-24th. QRV 160-10 meters, using RTTY, CW and SSB. He will also participate in the ARRL CW DX and CQ WPX RTTY Contests. QSL via home call, direct or bureau. [rsgbiota.org]

13/02/2009: Iiario, IV3CGJ will be active from Marie Galante Island (NA-102, DIFO FG-008, WLOTA LH-4241), Guadeloupe, as FG/IV3CGJ/p from February 13-24th. QRV holiday-style on 80-10m. QSL via home call, direct or bureau. [rsgbiota.org]

==========

LOOKING AHEAD -

14/02/2009: Operators Juri/ES5GP, Toomas/ES5RY and Vilnis/YL2KF will be active from Tartu, Estonia, as ES5Q during the CQWW WPX RTTY Contest (February 14-15th) as a Multi-Single entry. QSL via ES5RY, direct or bureau. [NG3K]

17/02/2009: Operators Walter/DJ6QT, Falk/DK7YY, Wolfgang/DK9VZ, Ulf/DL5AXX, Tom/DL5LYM and Frank/DL8WAA will be active from the CT9L contest station, Santana, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053), including a Multi-2 entry in the ARRL DX CW Contest (February 21-22) as CT9L. Oustide the contest they will be QRV as CT3/homecall. DJ6QT and DK7YY are operating from February 17th until March 10th. The others will leave February 24th. QSL CT9L via DJ6QT, bureau preferred. QSL other via their home calls. [NG3K]

18/02/2009: Bob, N4BP (C6AKQ), and Kevin, K4PG (C6APG) will once again be active from Freeport, Grand Bahama Island (NA-080, WLOTA LH-0527), February 18-22nd. They will be on the WARC bands between antenna jobs. Bob and Kevin currently plan on operating 160 meters and either 40 or 80 meters in the ARRL DX CW Contest (February 21-22nd). QSL C6AKQ via LoTW; QSL C6APG via K4PG direct or LoTW. [NG3K]

20/02/2009: Operators Orlando/PT2OP and Marcelo/PY6KW plan to activate Tinhare Island (IOTA SA-080, DIB BA-05, WW Loc. HH06MP), Bahia State,

Brazil, from February 20-24th. PT2OP will use the special callsign PX6T, while PY6KW will use homecall/p or possibility of a special callsign. This operation will also count for the Lighthouse of Morro de S?o Paulo (DFB BA-06, ARLHS BRA-157) QRV mainly 20 and 40 meters using SSB only; 100 watts and G5RV antenna. QSL PX6T via PT2OP. QSL PY6KW/p via home call. [CT1END]

22/02/2009: Patrick/ON4HIL and Guido/ON4BAG will be active from Senegal with temporary calls 6V7P and 6V7O from February 22-28th. Location is Somone about 70 km from Dakar. They will be QRV from 160-10m using SSB and digital modes (RTTY, PSK31). QSL via bureau or direct via homecalls (info on QRZ.com). [UBA HF News]

25/02/2009: Orlando/PT2OP and Marcelo/PY6KW plan to activate Boipeba Island (SA-080, DIB BA-04, WW Loc. HH06MK), Bahia State, Brazil, from February 25th to March 1st. PT2OP will use the special callsign PX6B, while PY6KW will use homecall/p or possibility of a special callsign. QRV mainly 20 and 40 meters using SSB only; 100 watts and G5RV antenna. QSL PX6B via PT2OP. QSL PY6KW/p via home call. [CT1END]

28/02/2009: Look for Fred, N5IVZ to be active February 28th (14:00z - 23:00z) from South Padre Island (NA-092, USi TX-007S, Cameron County), Texas. This special IOTA Activation will also celebrate 90 years of the US Coast Guard in the Rio Grande Valley of South Texas. The activation by the US Coast Guard Auxiliary is to honor the service of present, past and future Guardians of the Sea. QSL via home call, direct only. [rsgbiota.org]

06/03/2009: Look for Ron, VE3AT to be active as VC3A between March 6th and April 6th to celebrate the 175th Anniversary of the Incorporation of City of Toronto. QSL via VE3AT, direct or bureau. [RAC]

07/03/2009: Operators Adam/DJ0IF, Walter/DJ6QT and Falk/DK7YY will be active from Santana, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053) as CT9L during the ARRL DX SSB Contest (March 7-8th) as a Multi-? entry. QSL via DJ6QT, bureau preferred. [NG3K]

14/03/2009: Bernd, VK2IA will once again be active as VK9AA from Cocos (Keeling) Islands (OC-003) between March 14th and 27th. QRV 160-10m, CW and SSB. QSL via DL8YR, direct or bureau. [NG3K]

28/03/2009: Look for C?dric, F4EGZ to be active from Reunion Island (AF-016, DIFO FR-001, WLOTA LH-1812) as FR/F4EGZ during the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/Single-Band (40m)/Low-Power entry. He will be using a vertical antenna and 100W; also hopes to be QRV by start time. QSL via home call. [NG3K]

17/04/2009: Operators Klaus/DK6AO, Gunter/TI7WGI, Andy/DH8WR (EA2CRX), Norbert/DL2RNS, Rene/DL2JRM and Daniel/DL5YWM plan to activate San Jose Island (NA-191), Guanacaste Province, Costa Rica, as TI7XXX from April 17-20th. Note: TI7XXX is not the real callsign, that will be announced later. Look for activity on all bands/modes. QSL via DK6AO, direct or

bureau. Further information will be available at: ti7.info/
[rsgbiota.org]

13/06/2009: Andy, N8OFS will be active as N8O, caboose portable (Grid EN91OR), June 13-15th to celebrate the AC&J (ACJR) Railroad's 25th Anniversary. QRV 52.525 51.500 50.300 MHz FM and 50.200 MHz USB. Note: 52.525 and 51.500 MHz is Vertical polarization; 50.300 and 50.200 are both Vertical or Horizontal polarization. Andy will be constantly changing between antennas, polarities, and modes (USB+FM). Plus the PAR OA-50, PAR EF-6, and the Norwalk Electronics 6 Meter Dominator 5/8 wave. So, a Loop, a Groundplane, a Wire Dipole, and a Longwire (yes, longwires do work on 6). QSL via N8OFS, PO Box 517, Jefferson, OH 44047 USA. [N8OFS]

10/07/2009: Paul/K9OT and Peg/KB9LIE will be active as FP/homecall from the Motel de Miquelon, on Miquelon Island (NA-032, DIFP FP-002, WLOTA LH-1417, Grid GN17tc) from July 10-18th. QRV 160-6m SSB and CW, running 100W to wire vertical antennas. Main bands will be 40, 30, 20, and 17 meters. The will also participate in the IARU HF World Championship (July 11-12th) as Single-Op/Low-Power entries. QSL via home calls, direct or bureau - No eQSLs. Logs will also be uploaded to LoTW. Further information can be found at: hamradio.pnpfarms.com/ [NG3K]

QSL INFO -

I would like to inform that Tadeusz "Teddy" Barczyk (DL4DBR, ex SP9ERC) passed away on 2 January 2009. We lost a very good friend and solid QSL manager. Please visit http://www.qrz.com/dl4dbr for more info.

For many years Ted was the QSL manager of Mirek VK6DXI/SP5IXI for numerous Mirek's calls. Mirek is a good friend of mine and we are in touch via e-mail all the time. I will be the QSL manager for his calls 7X0DX and 9M8DX - for back and possible future activities.

If you sent your QSL via DL4DBR for the latest 7X0DX activity (September 2008) and still have no answer please QRX. Teddy DL4DBR was very ill during his last weeks and was not able to take care about QSLs. As soon as possible his wife, Renia DL3DBR, will send us QSL documents from the last period of time.

So from now QSL info for 7X0DX and 9M8DX is via SP5UAF. OK to QSL via Polish QSL bureau or direct (if you prefer): Tomasz Barbachowski, Zeromskiego 10, 05-070 Sulejowek, Poland.

---
50 MHz Now Available In Sweden -

Swedish Radio Amateurs now have access to the 50-52 MHz band with a
power output limit of 200 watts and will get access to 7.1-7.2 MHz with
1 kW output from 1st April.

Previously access to 50 MHz had been by special permit only.

Although the power limit is currently 200 watts output the Swedish
National Society website says that work is ongoing between the SSA and
the PTS in order to get this changed to 1 kW output. [Southgate ARC]

Students Call Space Station With Home-built Radio -

The Canadian newspapers "The Globe and Mail" and "The Toronto Star"
carried a report on the recent contact between the Humber College
Institute of Technology & Higher Learning and the International Space
Station.

The story highlighted the fact that the Humber College students made
contact with the International Space Station using an Amateur Radio
system they had designed and built themselves.

8158. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-02-05 17:01:45 UTC
From: K1XN
Topic: 5889 Message: 8158

The FEBRUARY 2009 Issue #902-A files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

8159. WEB SITE FOR BATTERY MANUALS

ZS8T QSL cards ready to print (http://zs8t.net/zs8t-qsl-cards-ready-to-print/)

Posted: 07 Feb 2009 12:02 PM PST

QSL cards for ZS8T are ready to be printed next week.

We are proud to present the card which will be received by all stations who manage to contact Petrus on Marion Island.

The card has been designed by Stan SQ8X and will be printed/sponsored by Emil LZ3HI.We expect first cards to be sent as soon as mid February.

Everyone arrived safely in San Juan PR yesterday; the last group at about midnight.
Last night we executed a contract for a helicopter to transport our heavier items including transceivers, amps, generators and shelters.

Fifteen Team Members plus a half-dozen USFWS personnel completed UXO (UneXploded Ordnance) training this morning.

Today was spent transiting from San Juan to our team HQ hotel in Rincon PR.? On the way, we stopped at the Arecibo Radio Telescope (http://www.naic.edu/), visit courtesy Angel, WP3R.

Bonjour à tous
Pas encore mort.
Je voudrais vous demander à tous de m’excuser pour ce long silence du à la maladie tant pour XYL que pour moi-même.
Je vais réessayer à partir d’aujourd’hui de réxpédier des informations omme par le passé.
Pour ceux qui les consultent, les pages d’info DX sur le site UFT seront mises à jour cette semaine. Du moins je vais essayer.
Maintenant il fut parler de la plus importante expédition DX du moment, celle qui n’arrive qu’une fois tous les 10 ou 15 ans savoir DESECHEO :
K5D news :
8 férier 2009.
Tout le monde est arrivé sain et sauf à San juan de Puerto Rico hier. Le dernier groupe est arrivé vers minuit.
La nuit dernière nous avonsappliqué les termes du contrat de transport par hélicoptère poiur le matériel le plus lours, amplis, transceivers générateurs, tentes et abris etc ..
Ce matin 15 membres de l’expédition et une demi douzaine de membres de l’ UXO ont participé au dernier entraînement.
Aujourd’hui le temps sera occupé au transbordement de l’équipe de San Juan à l’hôtel, base directionnelle de l’expedition, à Rincon PR.

En route et grâce à Angel, WP3R, nous pourrons profiter d’une visite au Radio Telescope d’ Arecibo (http://www.naic.edu),

Nous mettrons en ligne un maximum d’informations à : (http://www.kp5.us/) , chaque fois que ce sera possi ble.
Vous pouvez voir déjà quelques photos prises à Rincon, en cliquant sur :

http://69.89.25.185/~trexsoft/t-rexsoftware.com/desecheo/feb08.htm (http://69.89.25.185/~trexsoft/t-rexsoftware.com/desecheo/feb08.htm)

Merci OPDX:

FRANCE:
La prochaine Assemblée Générale de l’Union Française des Télégraphistes UFT, se tiendra le 2 mai prochain, dans la ville historique de Provins, au sud est de Paris.
Parmi les activités, au moins six membres de l’expédition dernière à Kerkennah, TS8C rendront compte de leur expérience.
Plus d’informations sur le site de l’UFT à :
www.uft.net (http://www.uft.net/)
Merci Norbert, F6AXX et Frank, F4AJQ
FRANCE – Indicatifs spéciaux Semaine de l’Antarctique:

The World DX community has lost another friend and
supporter.

Subject: Jim - VK9NS - SK

Please pass on to interested parties I am sorry if I have not included everyone:
It is with deep sadness that I inform you that Jim (VK9NS) passed peacefully away on Norfolk Island at 15:40 local time on 10 February 2009 after a short illness.

Jim is survived by his wife Kirsti (VK9NL) and his four children: Bruce (G3HSR), Stuart, Sheena and Fraser (all living in the UK).

Jim's contribution to Amateur Radio, DX-ing and IOTA is inestimable. He will be sadly missed.

Further information and condolences can be sent to Kirsti at jimkirsti@...
Bruce (G3HSR)

Hi friends
After Jim/VK9NS' passing these are two other sad news.
Dr Munzer, JY5HX informs:
Please pass on to interested parties

It is with deep sadness that I inform you that (JY3ZH) ZEDAN ABASS on 20 Janury09 and (JY4MB) MOHAMMAD BABISI End Of December 08 are passed peacefully away in AMMAN/ JORDEN after a short illness.
Both Ham was very actif and they do a lot of HAM work in Jordon and in the Arab and in international Ham Fmiy .
Further information and condolences can be sent to :
OM Dr. Munzer (JY5HX) QRZ.COM Please.
Tks Mustapha (DL1BDF) for forwarding.

K5D DXpedition Update
Dated - February 10, 2009

The K5D Team continues to prepare for its early Thursday AM departure for Desecheo Island. Last night the team met and had dinner with USFWS participants, law enforecement personnel and members of the field research team. Due to continued questionable weather (which for some weeks has included large waves, dangerous surf, high winds and rain unusual for this time of year), the Team has made an important strategic decision.

For safety reasons, all personnel and equipment will be transported to Desecheo Island by helicopter. The possibility of Team members and crew members being injured, vessels being damaged and equipment being lost during a sea landing was too great a chance to take.

Today, all of the equipment, supplies, antennas, generators, food, shelters, tables, chairs and so forth were unloaded from the storage facility and loaded into a large moving van for transfer to the helicopter pad.

Tomorrow, representatives of the helicopter company will meet the Team, examine the cargo and prepare it for transit via sling load on Thursday morning. A second helicopter will ferry personnel. Because we're limited to only fourteen days on the island, doing it this way will allow us to get on the air sooner, stay on the air longer -- and all with a higher degree of safety.

The Team has voted, if necessary, to contribute more money of their own to help contain these incremental costs.

If you're inclined to contribute more to help, it would be appreciated.
To contribute, click HERE.

Bonjour à tous
Après la disparition de Jim, VK9NS, deux nouvelles disparitions nous sont signalées .
Dr MUNZER, JY5HX informe :*
Nous vous informaons avec une infinie tristesse de la disparition de JY3ZH, Zedan Abass, le 20 janvier 2009 et JY4MB, Mohammad Babisi à la fin de décembre 2008, chcun après une courte maladie.
Ils étaient tous les deux très impliqués dans le développement du radioamateurisme en Jordanie et dans le monde arabe.
Les condoléances adresseées à Dr. Munzer (JY5HX) QRZ.COM , seront transmises aux familles.

DESECHEO :
K5D DXpedition Update
1 février 2009.

L'équipe de K5D continue ses préparatifs et devrait partir ce matinpour Desecheo.
Nuit dernière ils se sont retrouvés autour d'un diner amical avec les autres participants membres de l'USFWS, le personnel de surveillance et les membres de la recherche.
A cause des interrogations permanentes relatives à la météo, qui depuis quelques semaines a constaté de nombreuses et impressionnantes lames de fond, des vents violents et des pluies inhabituelles pour la saison, il a été décidé d' une modifiation stratégique importante :
Por des raisons de sécurité, tout le personnel et le matériel sera transporté à Desecheo par hélicoptère. Les risques de pertes de vies humaines et de matériel sont beaucoup trop important compte tenu des conditions pour tenter un débarquement par mer.
Aujourd'hui, nous rencontrons les représentants d ela compagnie d' hélicoptères qui doivent examiner le matériel et le préparer pour le transit . Un second hélicoptère sera affretté pour le personnel. Tout devrait commencer ce mercredi matin.
Limités à 14 jours de séjour sur l'île, nous pensons avoir pris la décision la plus raisonnable, pour nous permettre de rester sur place le plus longtemps possible.
Les membres de l'équipe ont tous donnéleur accord pour une contribution complémentaire si necessaire, pour compenser les éventuelles hausses de tarif de transbordement.
Eux qui le souhaitent poeuvent toujours apporter leur ontribution à l' expédition. Pour c efaire vous pivez contacter l'équipe à :

Topic: 8180 Message: 8180

Hi friends
DESECHEO – K5D
February 11, 2009
Today the Team accumulated all our equipment and all the gear for USFWS and the field research team (including all our food and personal gear) and prepared it for the helicopter external sling-load operation scheduled for tomorrow morning. Altogether, it's more than seven tons! The first flight will be at 1130Z tomorrow and flights will continue through (at least) mid-day local time.

The Team is tired but in great spirits and we're all very excited about tomorrow!

The staging point for helicopter operations is within sight of Desecheo and, when we took our lunch break today, we looked out at the island and the angry surf -- and knew we'd made the right decision about using helicopters. Safety First!

The group will depart Puerto Rico today and plans to begin operations as K5D on Desecheo late today with at least two stations QRV. Everything is on schedule.

The K5D team will have three groups of operators. One group (K4UEE, K9SG, N4GRN, NA5U, VE7CT, W8OI, W0NB and W0RUN) will be on Desecheo Island from start to finish. The second group (K5AND, K0IR, N6MZ, W6IZT, W0GJ and WB9Z) will be there from the beginning until February 19th. And the third group (K1KD, K5AC, K0JGH, N4NX, NP4Z, VA7DX and WP3MW) will change places with the second group on February 19th through the end of the DXpedition on February 26th.

K5D will have eight HF stations and one 6 meter station and plan to be QRV on 1.8 through 50 MHz on SSB, CW and RTTY.

Desecheo ranks 7th world-wide, 3rd in Europe, 2nd in Asia and 51st in North America. Because Desecheo is so very rare the team is asking that "you not contact the DXpedition on any band/mode that you have confirmed from a previous DXpedition". This will allow those who need it for an all time new one "a better opportunity to get through the pileups". If, late in the DXpedition, they are calling CQ, they will welcome your call.

Suggested frequencies to listen for K5D are as follows:

CW - 1826, 3523, 7023, 10106, 14023, 18072, 21023, 24892, 28023 and 50106

SSB - 1843.3, 3781, 7084, 14190, 18165, 21295, 24987, 28470 and 50130
RTTY - 3589, 7089, 10149, 14089, 18108, 21089, 28089

Special Notes:

160m CW: RX JA -10 KHz: Rest of the world up
80m CW: RX - Rest of world 3525 KHz and up
JA - 0830z QSY to 3502 KHz and listen up
75m SSB: RX - Americas 3800 KHz and above:
Rest of the world 3799 KHz and below
JA windows: 3704-3716, 3747-3770 and/or 3793-3805 KHz
40m SSB: RX - Americas 7228 KHz and above: Australia 7103 KHz and above:
Rest of the world down
40m RTTY: 7089 KHz will be good for NA, but EU has a hard time hearing
above 7070 KHz. K5D might want to transmit 7050 KHz or so IF they
don't QRM their 40m CW operations. JA RTTY window: 7025-7045 KHz

KP4-5 SSB transmit windows: 7075-7099, 7125-7300 KHz
They might need to transmit SSB on 7295 KHz (listen down) if interference with CW on 40m

Note: On 6m there will be only CW/SSB operation.

Note: They are fully aware of the (U.S.) band plans and they will also listen above 14225 KHz.

Caribbean and Puerto Rico Special notes:
- 2m simplex 146.52 MHz
- 6m simplex 50.120 MHz for KP4 & Caribbean
- 10m simplex 28.315 MHz for KP4 & Caribbean
- 40m daytime 7.095 MHz for KP4 & Caribbean

Don't forget to add K5D to your logging software so if correctly recognizes it as Desecheo! The team has a Web page at http://www.kp5.us/. QSL via N2OO.

With the upcoming US postal increase several readers reminded us of the "Forever" stamp, which can only be mailed with in the US and its territories.

Yesterday sunspot 1012, a cycle 23 sunspot was located on the eastern limb at a low latitude. Tuesday the sunspot produced a small B1 flare.

Bonjour à tous
DESECHEO – K5D
11 février 2009
L'équipe a collecté et préparé tout l'équipement de l'epédition et celui de l' USFWS à la base d'hélicoptères. Le premier vol est prévu aujourd'hui à 1130utc. Le transbordement durera au moins jusqu'en milieu d'après midi (heure locale).
Ils sont fatiguésmais le moral est au beau-fixe . La fièvre monte . Comment calà va t il se passer ?
Atterir sur Desecheo e hélicoptère a été au centre des discussions du dernier repas dhier soir. Compte tenu de ce que nous rapporte la météo nous sommes convaincus d'voir fait le bon choix ; Sécurité d'abord.

L'équipe envisage de démarrer les opérations aujourd'hui tard dans la soirée avec au moins deux stations Tout est planifié.
L'équipe K5D est composée de trois groupes .
Le premier restera toute la durée de l'expédition et se compose de : K4UEE, K9SG, N4GRN, NA5U, VE7CT, W8OI, W0NB et W0RUN. Le second restera du début jusqu'au 19 février et est composé de K5AND, K0IR, N6MZ, W6IZT, W0GJ et WB9Z.
Le troisième groupe relèvera le second du 19 au 26 février, il est compoisé de K1KD, K5AC, K0JGH, N4NX, NP4Z, VA7DX etWP3MW.

K5D disposera de huit stations en HF et d'une sur 6 mètres.
Ils seront donc QRV de 160 à 6m en SSB, CW et RTTY.

Desecheo est la plus recherchée au 7ème rang mondial, au 3ème en Europe , au 2ème rang en Asie et au 51ème rang en Amérique du Nord.
Desecheo est tellement rare qu'il vous est demandé de ne pas appeler sur une bande ou un mode déjà confirmé par une précédente expédition, afin de permettre de meilleures opportunités à ceux qui l'attendent en New One, de percer les pile ups.
Pour ceux qui auraient déjà Desecheo votre appel sera le bienvenu uniquement quand nous commencerons à lancer des CQ en fin d'expédition.
Fréquences ^rpgraùmées :

CW - 1826, 3523, 7023, 10106, 14023, 18072, 21023, 24892, 28023 et 50106
SSB - 1843.3, 3781, 7084, 14190, 18165, 21295, 24987, 28470 et 50130
RTTY - 3589, 7089, 10149, 14089, 18108, 21089, 28089

Notes spéciales :

160m CW: RX JA -10 KHz: Reste du Monde : up
80m CW: RX – Reste du monde 3525 KHz et up
JA - 0830z QSY vers 3502 KHz et écoute up
75m SSB: RX – Ameriques 3800 KHz et au dessus:

Reste du monde 3799 KHz et au dessous
Fenêtres JA: 3704-3716, 3747-3770 et/ou 3793-3805 KHz
40m SSB: RX – Ameriques 7228 KHz et au dessus , Australie 7103 KHz et au dessus , Reste du monde au dessous.
40m RTTY: 7089 KHz devrait être correcte pour NA, mais EU auront sans doute du mal à nous entendre au dessus de 7070 KHz. K5D essaiera de transmettre vers 7050 KHz, si ça ne ertirbe as les emissions 40m/ CW. Fenêtre JA RTTY: 7025-7045 KHz

KP4-5 SSB: 7075-7099, 7125-7300 KHz Ils pourront être amenés à emettre sur 7295 en SSB écoute au dessous s'il y a des interférences avec la CW sur 40m. Sur 6m il n'y aura que deux modes :CW/SSB.

Note: Ils sont totalement attentifs au plan de bande US, mais ils écouteront aussi au dessus de 14225 KHz.

Cara¨bes et Porto-Rico:
- 2m simplex 146.52 MHz
- 6m simplex 50.120 MHz KP4 & Caraïbes
- 10m simplex 28.315 MHz KP4 & Caraïbes
- 40m le jous 7.095 MHz KP4 & Caraïbes
Ne pas publier de mettre à jiour votre logiciel de carnet de trafic pour qu' il reconnaisse K5D comme Desecheo.
Page web : http://www.kp5.us/. QSL via N2OO.

Avec l'augmentation des coûts d'affranchissement aux Etats Unis, ne pas oublier que les timbres anciens n'auront cours que sir le territoire des Etats Unis et possessions.
Hier sunspot 1012, un sunspot cyle 23 a été repéré en zone est basse latitude.
Mardi le sunspot a produit un petit éclair B1.
Merci Bernie W3UR et Daily DX

Hi John,

Buzz, NI5DX, is pleased to announce that he is now the QSL manager for John Lee, 9M6JC.? John has sent Buzz his log file and Buzz will be able to answer all requests for cards from contacts made with 9M6JC.? There will be a delay in sending out cards until 9M6JC sends some blank cards to NI5DX.? New cards will be ordered shortly and will take about 5 weeks to arrive after the order goes to the printer.

73,
Buzz - NI5DX

Hi all

February 12, 2009
At 1240Z the first helicopter with five Team Members aboard took off from Rincon and a few minutes later landed safely on Desecheo Island. The K5D Desecheo 2009 DXpedition is officially ON! QRV (single transmitter only) still planned near 0200Z tonight.

Tks Bernie, W3UR

Bonjour à tous

2 février 2009

A 1240 utc, le premier hélicoptère avec 5 membres de l'équipe K5D a décollé de Rincon PR, et a atterri quelques minutes plus tard sur Desecheo , sans encombre.

L'expédition K5D, Desecheo 2009 DXpedition a officiellement démarré.

Ils seront d'abord QRV avec un seul émetteur selon le planning et les premiers signaux sont toujours prévus à 0200 utc la nuit prochaine.

Merci Bernie, W3UR et le Daily DX

8184. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-02-12 16:03:35 UTC
From: K1XN
Topic: 5889 Message: 8184

The FEBRUARY 2009 Issue #902-B files have been uploaded to the Golist web site.
? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin

I.C.P.O. Bulletin (February 12 - 20, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

12/02/2009: The Desecheo Island (NA-095, USi OI-002S, WW Loc. FK68GJ) DXpedition 2009 is expected to take place February 12-26th using the callsign K5D. Operators mentioned are Ralph/K0IR, Glen/K0JGH, Grant/K1KD, Brad/K4RT, Bob/K4UEE, Tim/K5AC, Dick/K5AND, Gary/K9SG, George/N4GRN, Bill/N4NX, Mike/N6MZ, Mike/NA5U, Felipe/NP4Z, Neil/VA7DX, Steve/VE7CT, Glenn/W0GJ, Jim/W0NB, Gordon/W0RUN, John/W2GD, Gregg/W6IZT, Garry/W8OI and Jerry/WB9Z. A total of 6-8 stations will be operational, including 160-6 meters. Focus will be on Asia and Europe. Halfway through the operation, on February 19th, approximately half of the operating team will be replaced with fresh operators for the final week. QSL direct only to N2OO. Further information and updates can be found on their website at: www.kp5.us/ [W0GJ]

12/02/2009: John/KX7YT and Rob/N1KEZ will be active from VP5JM's Hamlet on Providenciales Island (NA-002) as VP5/homecall from February 12-15th, including an entry in the CQWW RTTY Contest. QSL via home calls.

12/02/2009: Dennis, WA2USA will be active as WA2USA/4 from Bogue Banks [aka Emerald Isle] (NA-112, USi NC-010S), Carteret County, North Carolina, from February 12-24th. QRV 160-10 meters, using RTTY, CW and SSB. He will also participate in the ARRL CW DX and CQ WPX RTTY Contests. QSL via home call, direct or bureau. [rsgbiota.org]

13/02/2009: Look for Stavros, 5B4AFM to be active holiday-style from Lhaviyani Atoll, Maldive Islands (AS-013) from February 13-19th. QRV 30m, 40m, CW/SSB, with 100W and vertical. QSL via M0BBB. [NG3K]

13/02/2009: Russell, G5XW will be active again as CN2XW from Morocco between February 13th and 23rd. This is another backpacking type holiday, so he will be running 100 watts into some sort of basic antenna. QSL via home call, direct only. [425 DX News]

13/02/2009: Iiario, IV3CGJ will be active from Marie Galante Island (NA-102, DIFO FG-008, WLOTA LH-4241), Guadeloupe, as FG/IV3CGJ/p from February 13-24th. QRV holiday-style on 80-10m. QSL via home call, direct or bureau. [rsgbiota.org]

14/02/2009: Operators Franco/YV1VM, Jose/YV5TX, Alex/YV5SSB and Jesus/YV5MSG will be active as 4M5DX from Caracas, Venezuela, during the CQWW WPX RTTY Contest as a Multi-Single/High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

14/02/2009: Rob, PA3DEW and Vincent, PA3FQX will be active again from the Dormaa Hospital, Dormaa-Ahenkro, Ghana, starting February 14th. They will be QRV as 9G1AA in their spare time. Look for them around 1600 UTC on 14140 kHz. QSL via PA3ERA, direct or bureau. [425 DX News]

14/02/2009: Bert, CX3AN will be active as A35HA from Tonga's main island, Tongatapu (OC-049) for one week starting February 14th. QRV on 40-6 meters with a special emphasis on 30/17 meters using CW and SSB, and only 100 watts from his Icom 706 into dipole antennas. His activity will be limited because he will be on a family holiday trip. Bert will be operating alone this time, not like other trips where his good friend Mario, CX4CR, usually would join him. QSL via CX3AN. [OPDX Bulletin]

14/02/2009: Look for Val, RD3AF to be QRV as EF8M from Las Palmas, Isla de Gran Canaria (AF-004, DIE S-005, ESA GC, WLOTA LH-0969) for the CQWW WPX RTTY Contest as a Single-Op/All-Band/High-Power entry. QSL via home call, direct or bureau. [NG3K]

14/02/2009: Operators Juri/ES5GP, Toomas/ES5RY and Vilnis/YL2KF will be active from Tartu, Estonia, as ES5Q during the CQWW WPX RTTY Contest as a Multi-Single entry. QSL via ES5RY, direct or bureau. [NG3K]

14/02/2009: Members of the Radio Club of Panama (HP1RCP) and Panama Canal Amateur Radio Association (PCARA) will be activating Miraflores Lock's Lighthouse (ARLHS PAN-030) in the Panama Canal using the special callsign H81L between February 14-15th. Activity will be on all bands and modes. QSL via HP1RCP. [OPDX Bulletin]

14/02/2009: Tino, HI3CCP will be active during the CQWW WPX RTTY Contest from Lomas del Toro in Santiago (the Lomadeltoro Contest Team's HI3CCP station): www.lomadeltoro.com QSL via ON4IQ. [OPDX Bulletin]

14/02/2009: John/W1AN, Ken/K3IU, Jay/AJ1M, Bill/N1HRA and Carlos/WP4U will be active as NP3U from the "Mi Casita" Contest station, Aguas Buenas, Puerto Rico (NA-099, USi PR-006S, WLOTA LH-2802, San Juan County) during the CQWW WPX RTTY Contest as a Multi-2 entry. QSL via WP4U, direct or bureau. [NG3K]

14/02/2009: Rene, DL2JRM plans to be active from Schouwen Duiveland (EU-146) as PA/DL2JRM/p on February 14th and 15th. QRV 80m-10m CW. QSL via home call, direct or bureau. [rsgbiota.org]

14/02/2009: During the annual Dutch PACC Contest, members of the PA3FKN PACC Team will activate the Island of Ameland (EU-038, WLOTA LH-1059) Team members are: Bote/PA0BVD, Aloys/PA3DAT, Wietse/PA3DDJ, Berend/PA3FAL, Eric/PA3FKN, Douwe/PD0RXP, Laurens/PD3LHS, Andries/PE1PIX, Peter/PE1PIX, Joeri/PE5JW, Gialt/PE1OLM and Gerben/PG5M. The list of equipment is extensive, including 8 transceivers, 13 antenna configurations, masts, more than 2 km of coax cable, etc. which altogether is more than 2500 KG. For the low bands they will use: 160m - 2 phased verticals, 80m - 4 square dipoles and 40m - 4 square verticals. Time and dates: 1200z, Saturday, February 14th, to 1200z, Sunday, February 15th. For more information on the PACC Contest, visit the

official PACC Web site at: pacc.veron.nl/ Also, watch the following Web page for updates (especially during the contest) at: www.dx.to/ [OPDX Bulletin]

14/02/2009: Look for Daniel, VE2SB to be active as VC2E during the CQWW WPX RTTY Contest. QSL via VE2SB (QRZ.com). [RAC]

14/02/2009: Members of the Bekasi DX Contest Club (YE1ZAT) will be active from Java (OC-021, WLOTA LH-1660) during the CQWW WPX RTTY Contest as a Multi-Single entry. Operators mentioned are Joz/YD1JZ, Danu/YD1GCL, Terry/YC1KAF, Yon/YB1CCF, Arif/YE1AA and Heri/YB1KAR. QSL via YE1ZAT, by the bureau, e-QSL or direct via info on QRZ.com. [OPDX Bulletin]

14/02/2009: Radio Club Nikola Tesla, Z37M will be active in the CQWW WPX RTTY Contest (February 14-15th) as a Multi-? entry. Operators mentioned are Z31MM, Z32ID, Z32XU, Z35T, Z35X, Z36N, Z36W and others. QSL direct or via the bureau. [NG3K]

15/02/2009: Mehdi, F5PFP, announced that he received the callsign FT5YJ from TAAF Telecom Department to use for his 2009 (mid-February and mid-March) amateur radio expedition to Antarctica. His group plans to be active under the callsigns xxx/FT5YJ/p from several Antarctic stations. For more details, visit the following Web page at: f6kdf.ath.cx/f5nod/Antarcticexpedition2009/bases.html [OPDX Bulletin]

15/02/2009: Rick, AA4W will be operating from the jungles of Honduras, February 15-25th, to provide communications support for the International Health Service. QTH will be in the village of Puerto Lamperia, located on the southeastern coast, just north of the Nicaraguan border. Rick will be manning the radio station for one of the surgical teams as well as acting as the net control station for the radio network. The workdays are long but he plans to be on 20 and 40 meters in the evenings (CW of course), and on Sunday the 22nd, to provide an opportunity for you to put a QRP contact to HR8 in your log. Callsign expected to be HR8/AA4W. QSL via home call. [NAQCC]

15/02/2009: Paolo F8ENY will be active from San Pedro, Ivory Coast, as TU/F8ENY, between February 16th and March 2nd. QRV mainly on 20m band. QSL via home call. [F5NQL]

15/02/2009: Klaus, DJ4SO will be active again as V5/DJ4SO from the Matunda Guest Farm, Namibia, from February 15th to March 12th. He will operate mostly CW and RTTY/PSK31 on 160-10 meters. QSL via home call, direct or bureau. The logs will be uploaded to LoTW. [425 DX News]

17/02/2009: Operators Walter/DJ6QT, Falk/DK7YY, Wolfgang/DK9VZ, Ulf/DL5AXX, Tom/DL5LYM and Frank/DL8WAA will be active from the CT9L contest station, Santana, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053), including a Multi-2 entry in the ARRL DX CW Contest (February 21-22) as CT9L. Oustide the contest they will be QRV as CT3/homecall. DJ6QT and DK7YY are operating from February 17th until March 10th. The

others will leave February 24th. QSL CT9L via DJ6QT, bureau preferred. QSL other via their home calls. [NG3K]

17/02/2009: Bill/N7OU and Bob/W7YAQ will be active from the Tuvalu Islands (OC-015) between February 17th and March 2nd. Their callsigns still have to be confirmed. QRV 160-10 meters; mainly CW, with some SSB and RTTY, including an entry in the ARRL DX CW Contest (February 21-22nd). QSL via home calls, direct or bureau. [NG3K]

17/02/2009: Stan/AC8W (YN2WW), Hank/K8DD (YN2DD), Jim/KB8TXZ (YN2TX) and Lee/N8LJ (YN2LJ) will be active on all bands from YN2N's QTH in Grenada, Nicaragua, from February 17-24th, including an entry in the ARRL DX CW Contest (February 21-22nd) as YN2DD. Outside the contest, emphasis on 160m, 80m and WARC bands. Check QRZ.com for QSL information. [NG3K]

18/02/2009: Bob, N4BP (C6AKQ), and Kevin, K4PG (C6APG) will once again be active from Freeport, Grand Bahama Island (NA-080, WLOTA LH-0527), February 18-22nd. They will be on the WARC bands between antenna jobs. Bob and Kevin currently plan on operating 160 meters and either 40 or 80 meters in the ARRL DX CW Contest (February 21-22nd). QSL C6AKQ via LoTW; QSL C6APG via K4PG direct or LoTW. [NG3K]

18/02/2009: Look for John, KP2/K3CT (QSL via home call) to be active from "Radio Reef", St. Croix Island (USi VI-002S, WLOTA LH-2477), US Virgin Islands (NA-106) from February 18-25th, with an emphasis on 30, 12 and 17 meters before and after the ARRL DX CW Contest. He will participate in the ARRL DX CW Contest as KP2M (QSL via AI4U). [425 DX News]

18/02/2009: Eric, K9GY will be signing YS4/K9GY, or special call, from El Salvador between February 18-23rd, including a Single-Op entry in the ARRL DX CW Contest (February 21-22nd). Outside the contest he will focus on 160m + WARC bands. QSL via LoTW. [NG3K]

18/02/2009: John, K6AM will be active from Savannah, Grand Cayman Island (NA-016, WLOTA LH-1042) as ZF2AM between February 18th and March 4th. John reports that he will be doing mostly antenna work outside of the contests, but may get on the WARC bands or even 6 meters (Grid Loc. EK99IG) a bit as time permits. QSL via K6AM, direct or by the bureau or LoTW. [NG3K]

19/02/2009: John "Doc", K3MD, will be active as KP2/K3MD from St. John (USi VI-003), U.S. Virgin Islands (IOTA NA-106), February 19-24th. His activity will include the ARRL DX CW Contest (February 21-22nd) as Single-Op/All-Band/High-Power entry. (He placed 9th in the world in 2008.) Doc reports that the cabin he rents (overlooks east and west at 1000 feet) is a straight shot to U.S. He will be using an IC-7000 (w/ALS-500M/PS-75) into an all band 80-10m trap dipole up 50 feet and a 160 meter inverted L. Outside of contest he will operate casually, usually working Europe on 20 and 40 meters. QSL via K3MD. [OPDX Bulletin]

19/02/2009: Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao (SA-006, WLOTA LH-0942) as PJ2/homecall during the end of February. Operators mentioned are Dan/N1ZZ, Geoff/W0CG, Jim/WI9WI, Mark/N5OT, Mal/NP2L, Jim/K6ZH and Charles/WA9S. Their main goal is the ARRL DX CW Contest (February 21-22nd) as a Multi-? entry using the callsign PJ2T. QSL PJ2T via N9AG or LoTW. QSL all others via their home callsigns. [NG3K]

20/02/2009: Rick, NE8Z will once again be heading south to Ecuador and plans to be active with the following callsigns from various locations as follows: HC1MD/HC4 - February 20-27th; QTHs: Same & Tonsupa, Esmeraldas Province (Pacific beach homes). HC1MD - February 28th-March 8th; QTH: Tumbaco, Pichincha Province Activity will be on 160-10 meters using CW and SSB. QSL via K8LJG: John Kroll, 3528 Craig Drive, Flint, MI 48506 USA. [OPDX Bulletin]

20/02/2009: Operators Orlando/PT2OP and Marcelo/PY6KW plan to activate Tinhare Island (SA-080, DIB BA-05, WW Loc. HH06MP), Bahia State, Brazil, from February 20-24th. PT2OP will use the special callsign PX6T, while PY6KW will use homecall/p or possibility of a special callsign. This operation will also count for the Lighthouse of Morro de São Paulo (DFB BA-06, ARLHS BRA-157) QRV mainly 20 and 40 meters using SSB only; 100 watts and G5RV antenna. QSL PX6T via PT2OP. QSL PY6KW/p via home call. [CT1END]

20/02/2009: Rick, K6VVA will celebrate his 65th Birthday from the island of Tortola (NA-023), British Virgin Islands. QRV February 20-24th as VP2V/K6VVA, mostly CW, including an entry in the ARRL DX CW Contest (February 21-22nd) using the callsign VP2VVA. QSL both calls via N6AWD. [NG3K]

Be sure to check Bill's (NG3K) website for updated CQWW WPX RTTY Contest activity at: ng3k.com/Misc/cqrjwpx2009.html
==========
LOOKING AHEAD -

21/02/2009: Andy, AE6Y will be active from Sabana Basora, Aruba (SA-036, WLOTA LH-0033), as P49Y during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band entry. QSL via home call, direct or bureau. [NG3K]

25/02/2009: Special event callsign 9K48NLD will be aired February 25-26th from the 9K2RA Head Quarters, Safat, Kuwait, to celebrate Kuwaits National Independance and Liberation Day. Note: not from IOTA AS-118 as initially planned. Activity will be mainly on 40 and 20 meters, using SSB and CW. QSL via 9K2RA direct preferred (QRZ.com), bureau OK. [NG3K]

01/03/2009: The special event station of the Eddystone User Group will air the calls GX3EUG / GX7EUG on 80m/40m on March 1st from the site of the former WW2 RAF base at Sutton Bridge, Lincolnshire. RAF base Sutton Bridge. The site is due to be developed shortly into a vast industrial estate. QSL via G7AIR. Further information at:

www.eddystoneusergroup.org.uk/ [Southgate ARC]

12/03/2009: Colin/G3VCQ (FISTS #14065) and Sharon/M3VCQ (FISTS #14066) will be active from the island of Grenada (NA-024, WLOTA LH-0718) from March 12-26th. Colin is participating in the BERU CW contest (March 14-15th) and will be part of the "Rest of the World Team". Operations will be from the beach QTH with FT857d, Expert SPE solid state amplifier. Antenna's will range from a 3 el yagi for 14, 18, 21, 24 and 28Mhz. On the lower bands the antennas will be verticals and dipoles for 10, 7 and 3.5Mhz. Modes will be SSB during none contest times and CW during the BERU of course. Colin will only work Commonwealth stations during the contest. Sharon J38/M3VCQ will also be active with Colin from the island (SSB only chaps!). If your local listen out for us on 2m, 6m and 70cm. All QSL's via G3VCQ please, direct or bureau. [Pete's-DX-Newsdesk]

21/03/2009: Tim, NL8F/VK4COF will be active for 14 days from Rarotonga Island (OC-013) between March 21st and April 4th (set up may take a day). QRV 80, 40, 20, 15, 10 meter SSB; maybe 17 meters. QSL manager for the operation is K8NA. [NL8F]

22/03/2009: Patrick, F4EBT will be active from Guadeloupe Island (NA-102, DIFO FG-001, WLOTA LH-0644) as FG/homecall from March 22nd to April 11th. QRV SSB only, with 100 watts and FD4 antenna. QSL via home call, direct or bureau. [NG3K]

28/03/2009: Jim, W7EJ will once again be active from Casablanca, Morocco, as CN2R for the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/All-Band entry. QSL via W7EJ, direct or bureau. [NG3K]

04/04/2009: Haru, JA1XGI will be active from Christmas Island (OC-002) as VK9XGI from April 4-11th. QRV all bands, focus on low bands, using CW and digital modes. QSL via JA1XGI, bureau or direct. [NG3K]

07/04/2009: Daniel/DL5YWM and René/DL2JRM will stay in Lima, Peru, from April 7th until the beginning of May. In their spare time they will operated as OA4/homecall mainly in CW with focus on the lowband. During this stay they will made a small detour to Costa Rica to participate in the German DXpedition to IOTA NA-191 (www.ti7.info/) which takes place April 17-20th. Any acitivity from peruvian IOTA's will be decided at the last minute. [DL5YWM]

30/05/2009: Fred/K9VV, Larry/N6NC, Vic/WA0USA and Brian/KP2HC will be active from Freeport, Grand Bahama Island (NA-080, WLOTA LH-0527) during the CQWW WPX CW Contest (May 30-31st) as a Multi-Two entry. QSL via K5WW. Logs will be uploaded to LoTW. [NG3K]

11/06/2009: Doug, KF4VTT will be active from the island of Bermuda (NA-005, WLOTA LH-0201) from June 11-17th as VP9/KF4VTT. QRV 160-6m using SSB, CW, RTTY and PSK. QSL via home call, direct or bureau. Logs will be uploaded to LoTW. [NG3K]

25/07/2009: Doug/GM0ELP and Simon/M0GBK will be active from the isle of Skye (IOSA NH07, SCOTIA CN14, WW Loc. IO67QN), Inner Hebrides (EU-008), as MM3T during the RSGB IOTA Contest (July 25-26th). Their category will be Multi-Op/All-Bands/Low-Power/Mixed/Assisted/Expedition/24-hours. Please QSL only via eQSL. Website at: freespace.virgin.net/douglas.maxwell/MM3T/mm3t.htm [rsgbiota.org]

==========

SPECIAL EVENTS -

08/02/2009: In commemoration of the 6th Antarctic Activity week, François, F8DVD will use the special callsign TM8ICE from 8 February 8-21st. WAP reference is 154. The activity will take place from his home QTH in Macon, France. Special color QSL card showing TARA polar vessel is OK via bureau or direct (François Bergez 6, rue Libert, F-71000 Macon, France). [Pete's-DX-Newsdesk]

13/02/2009: Special event callsign GB5WVR will be aired February 13th for the Worth Valley Railway, Keighley, West Yorkshire (WAB Square SE03). QSL via the bureau, or direct with SAE to G0FQN. [GB2RS]

14/02/2009: Demetrius, SV2GWY and other operators will be active as SX2CM on the following dates: February 14-15th, May 10-11th, May 24-25th and July 5-7th. The special callsign is in honour of the brothers saints Cyril and Methodius. All of the QSOs will be confirmed automatically via the bureau; the QSL manager for direct cards is SV2GWY. Further information can be found at: sx2cm.blogspot.com/ [425 DX News]

14/02/2009: Lionel, MU0GSY (ISWL member GU21028) will air two special event callsigns to celebrate the 40th Anniversary of The Worked All Britain Awards Group, from St. Sampson's, Bailiwick of Guernsey (EU-114, WLOTA LH-0013, WW Loc. IN89RL, WAB square WV38). February 14-15th he will use the special call GP4WAB; February 21-22nd he will use GP7WAB. Look for activity mainly on 20 meter SSB. Each contact made will receive a QSL card automatically via the bureau. [Pete's-DX-Newsdesk]

16/02/2009: Walter, HB9BHY will be participating in the 6th Antarctic Activity Week (February 16-22nd) using the special call sign HE8ICE (WAP-81). HE8 is also special prefix issued to celebrate the 80th Anniversary of USKA, so HE8ICE for the AAW 2009, instead of the old previous HB9ICE. QSL via HB9BHY. The full list of callsigns already booked for the 6th AAW is available at WAP website, by clicking on the specific AAW banner, or at: www.waponline.it/Default.aspx?tabid=113 [I1HYW]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

==========
U.S. COUNTIES (USA-CA) -

13/02/2009: Barry/N0KV and Pat/N0DXE will be running mobile, SSB and CW, February 13-15th from the following U.S. counties, weather permitting - CO: Douglas, Jefferson, Clear Creek, Summit, Grand, Jackson, Routt and Moffat. WY: Carbon, Sweetwater, Sublette and Sweetwater. UT: Daggett and Uintah. CO: Rio Blanco, Garfield, Eagle, Summmit, Clear Creek, Jefferson and Douglas. (Probably stop in Carbon or Sweetwater first nite and W. CO 2d nite) If you have a need for an adjacent county and we have time, we will try and help. [County Hunter Web]

14/02/2009: Colin, KU5B along with Stacy, W5JSJ will be running mobile on February 14th from the following U.S. counties, SSB and CW - LA: DeSoto, RedRiver, Caddo, RedRiver, Natchitoches, Winn, LaSalle, Grant, LaSalle, Catahoula, Concordia, Catahoula, LaSalle, Rapides, Evangeline, Avoyelles, Evangeline, St.Landry, Evangeline, St.Landry, Lafayette, St.Martin, Lafayette, Acadia, Jefferson Davis and Calcasieu. Colin will likely be focusing on CW (mainly 20/40, with 10/15/80 capability) but may go to SSB as the stream of callers decreases or if he will be crossing that parish multiple times. He has Evangeline listed a couple of times as Streets and Trips denotes the parish line crossing over the Interstate in places but he is not sure if the GPS will tell me that or not. If there are any parishes that are especially needed, let him know and he will try to work something out. Streets and Trips estimates this route to take around 8.5hrs so there may be some time to add another parish or two. Send email requests to colin@... [County Hunter Web]

15/02/2009: Look for Lloyd, NX4W to be running mobile, SSB and Digital only, between February 15th and 19th from the following U.S. counties on his way home from the SC mini in Weslaco, Texas. SUNDAY, FEB 15 - TX: Hidalgo, Starr, Jim Hogg, Zapata, Webb, Duval, McMullen, LaSalle, Atascosa, Frio. MONDAY, FEB 16: Wilson, Karnes, Gonzales, DeWitt, Bastrop, Lee, Fayette, Washington, Burleson, Waller, Harris. TUESDAY, FEB 17: Montgomery, Harris, Liberty, Jefferson, Orange. LA: Calcasieu, Jefferson Davis, Vermillion, Cameron, Iberia, St Mary, Assumption, Terrebonne. WEDNESDAY, FEB 18: LaFourche, St James, St John the Baptist, St Charles, Jefferson, Plaquemines, St Tammany. MS: Hancock, Harrison, Jackson. AL: Mobile, Baldwin. FL: Escambia, Santa Rosa, Okaloosa, THURSDAY, FEB 19: Walton, Bay, Gulf, Franklin, Wakulla, Jefferson, Taylor, Lafayette, Dixie, Gilchrist, Levy. Lloyd will be starting out each day around 1300-1330 UTC. He will be running a little different than the past. All SSB runs will be on the move and of course PSK31 he will have to stop. Most of the PSK31 runs will be on county lines unless of course they are wet. He is going to run both 30m and 40m PSK31. First 10.139 and as soon as he is finished with 30m he will go directly to 7.072 on 40m. [County Hunter Web]

SILENT KEYS -

It is with deep sadness that I inform you that Jim (VK9NS) passed
peacefully away on Norfolk Island at 15:40 local time on 10 February

2009 after a short illness.

Jim is survived by his wife Kirsti (VK9NL) and his four children: Bruce (G3HSR), Stuart, Sheena and Fraser (all living in the UK).

Jim's contribution to Amateur Radio, DX-ing and IOTA is inestimable. He will be sadly missed.

Further information and condolences can be sent to Kirsti at jimkirsti@...

Bruce (G3HSR)

George E. Caswell, W1ME of Scarborough, Maine, passed away February 3, 2009, at the age of 63.

Dieter K. Schliemann, KX4Y passed away February 9, 2009, after a brave fight with cancer. He was 68. Dieter was instrumental in leading and supporting many key activities in AMSAT and on the ARISS program.

It is with deep sadness that I inform you that (JY3ZH) ZEDAN ABASS on 20 Janury 09 and (JY4MB) MOHAMMAD BABISI End Of December 08 are passed peacefully away in Amman, Jordan, after a short illness.
Both were very active and they did a lot of HAM work in Jordon and in the Arab and in international Ham Family .
Further information and condolences can be sent to:
OM Dr. Munzer (JY5HX) QRZ.com Please.

The IARU President and Vice President confirmed -

Following a worldwide balloting that ended on February 10th, the IARU International Secretariat announced today the ratifications of the nominations of Timothy S. Ellam, VE6SH/G4HUA, to serve as President of the IARU for a five-year term beginning on 9 May 2009 and of Ole Garpestad, LA2RR, to serve as Vice President of the IARU for a five-year term also beginning on 9 May 2009.

Mr Ellam, a long time Canadian Amateur residing in Calgary, Alberta, was until now Vice President of the IARU. He is well known in the Canadian Amateur administration circles as he has been active with RAC and its proceeding organizations for many years. He will be replacing Dr Larry

E. Price, W4RA, who has been IARU President since 1998 and has decided to retire at the end of his current term in May.

Mr Garpestad, a resident of Oslo, Norway is presently President of the IARU Region 1. He also has a long history of working for Amateur Radio at different levels over the years.

Our congratulations to Tim and Ole and we are looking forward to working with them.

We also want to thank Larry for many decades of hard work preserving Amateur privileges and working to get us some more.

73,
Daniel A. Lamoureux, VE2KA
Vice-Persident International Affairs,
Radio Amateurs of Canada

New Zealand to get 7.1-7.2 MHz Primary -

The New Zealand regulator the MED has announced that the Amateur Radio service will gain Primary access to 7.1-7.2 MHz after 29 March 2009.

The Ministry of Economic Development (MED) website says:

In accordance with the ITU Radio Regulations published last year the use of the frequency band 7.1 to 7.2 MHz for Broadcasting services will cease after 29 March 2009.

This change aligns use of the band in ITU-R Regions 1 and 3 with Region 2. (Region 3 includes New Zealand). PIB 21 will be amended by removing the New Zealand broadcasting allocation in this band.

This change means that the amateur radio service will enjoy primary access to the band after 29 March 2009.

The announcement 'Broadcasting use of frequency Band 7.1 to 7.2 MHz' can be seen at
http://news.business.govt.nz/news/info/rsm/article/9362

IARU votes to admit new members -

The IARU has voted to admit the Emirates Amateur Radio Society and the Kazakhstan Federation of Radiosports and Radioamateur.

The news release from the International Amateur Radio Union (IARU) reads:

IARU Member-Societies Ratify New Officers, Vote to Admit New Members
Balloting by IARU Member-Societies on four proposals presented to them in September 2008 (IARU Calendar 187) was completed on 10 February 2009.

There were 73 Member-Societies that cast votes or abstentions on the four proposals. With 57 affirmative votes required for adoption, the

votes were as follows:

Proposal No. 241 concerning the ratification of the nomination of Timothy S. Ellam, VE6SH/G4HUA, to serve as President of the IARU for a five-year term beginning on 9 May 2009: 72 in favor, 1 abstention. ADOPTED.

Proposal No. 242 concerning the ratification of the nomination of Ole Garpestad, LA2RR, to serve as Vice President of the IARU for a five-year term beginning on 9 May 2009: 73 in favor. ADOPTED.

Proposal No. 243 concerning the admission of Emirates Amateur Radio Society: 72 in favor, 1 abstention. ADOPTED.

Proposal No. 244 concerning the admission of Kazakhstan Federation of Radiosports and Radioamateur: 73 in favor. ADOPTED.

Upon his election as the next IARU President, Mr. Ellam said: "I am very honoured to have been elected as President of IARU and look forward to working with all three Regions and the Member-Societies during my term in office. We no doubt will face many issues in the run up to the 2011 World Radiocommunication Conference (WRC-11), but I look forward to working as a team to meet the challenges ahead.

"Congratulations to Ole Garpestad for his election as Vice President. I am very pleased to have Ole as part of the officer team and know he will do an excellent job in his new position.

"Finally, I would like to thank Larry Price for his sterling work with IARU during his term as President. IARU is in a very strong position today as a result of Larry's leadership. His support and friendship to me has also been very helpful in fulfilling my former duties as Vice President."

WAAB Award Available -

The radio club "Rio de la Plata" began issuing the W.A.A.B. (Worked Argentine Antarctic Bases) to radio amateurs and SWLs as of April 1st, 2008. To get the award the applicants must show they have worked and confirmed by QSL cards, at least 3 different Argentine Antarctic Bases. Contacts can go back as far as November 9, 2001. The current list of active Argentine Antarctic Bases are: LU1ZA S.Orkney; LU1ZAB Matienzo; LU1ZB Melchior; LU1ZD San Martin; LU1ZG Belgrano II; LU1ZI Jubany; LU1ZR Petrel; LU1ZS Camara; LU1ZV Esperanza; LU2ZD Primavera; and LU4ZS Marambio.

The W.A.A.B. award is available by E-mail requests to the Award Manager Horacio Ledo, LU4DXU - lu4dxu@... or P.O.Box # 22, Martinez (1640) Buenos Aires, ARGENTINA. He can also supply the rules and fees for the award or visit the following Web page at: http://www.waponline.it/WapAwards/tabid/61/Default.aspx

Hi friends
K5D DXpedition Update
February 12, 2009

February 12, 2009
Per Glenn W0GJ and Bob K4UEE @ 23:45Z: "Heavy winds during the day delayed
several helicopter flights so we're running quite a bit behind schedule.
For example, we had to wait until the last helicopter trip to begin
erecting shelters. We're all exhausted and have quite a bit of
infrastructure work yet to do (in the dark). Regrettably, this will
delay our planned QRV until (hopefuly) near 1600Z tomorrow (Friday).
We're sorry to disappoint those expecting us on the air tonight.
Tks Bernie W3UR/Daily DX and OPDX

WPX RTTY :
ARGENTINA :
Erardo LU7FNI as LT2F, SOAB LP or SOSB 20mts. QSL LU7FNI et LT2F vía EA5KB.
Juan LU3HY as LT0H (SOAB) HP. QSL vía EA7FTR.
LW3DN and LW3DC as LV6D (M/S). QSL vía EA5KB.
Javi/LU5FF, as LQ0F SOSB (40m) Low. QSL vía EA5KB.

Tks Javier, LU5FF

HUNGARY /
The "Puskas Tivadar" airs the special callsign HA130HALLO until March 31st,
to commemorate the 130th anniversary of the first telephone net in Hungary.
All bands in CW, SSB, PSK et RTTY.
QSL vía HA5KHC.

FRANCE :
Along with Gérard F6ICG, look for François, F5JNE to be active as HC/p from
the Castle of Mivoisin, DFCF45050, in the city of Dammarie sur Loing zip code
45230 and Canton of Chatillon Coligny, DDCF 45-08.
As usually starting around 0700 utc, 80/40m cw/ssb. QSL bureau prefered ans
SWL cards welcome.
Tks François, F5JNE.

KUWAIT :

Begin date (yyyymmdd): 2009 02 25
End date (yyyymmdd): 2009 02 26
Submitter's callsign: 9K2LT
Callsign(s) to be used: 9K48NLD
DXCC entity: KUWAIT
QSL route callsign: 9K2RA

Info: 9K48NLD Special Call Event from Kuwait will be operated
from 9K2RA Head Quarters and not from IOTA AS-118 as
initially planned. 20M/40M, SSB/CW
Tks Bill, NG3K

Des vents violents ont perturbé et retardé les rotations d'hélicoptères, si
bien que notre planning est quelque peu en retard.
Par exemple nous avons du attendre le dernier voyage pour pouvoir commencer
à monter les abris.
Nous sommes tous sur les rotules et nous avons encore beaucoup à faire pour l
'installation (dans le noir).
Nos premiers signaux seront donc également retardés et nous en sommes
attristés. Nous pensons lancer le premier CQ ce jour vendredi, vers 1600 utc.
Nos excuses à tous ceux qui ont passé leur nuit à nous attendre.
Merci Bernie W3UR/Daily DX and OPDX

Hi friends
DESECHEO Update February 14, 2009, 23:30Z:
Because of higher-than-expected winds which delayed helicopter trips, we were unable to complete our full setup on Thursday. At this writing, those problems are behind us and the camp and all antennas are in place and working.

The QSO count is just under 10,000 in the first 24 hours with only two stations operable for most of that time. We now have five stations on the air hoping for two or three more tomorrow.

We have no internet connectivity as our satellite link and our 900Mhz terrestrial link both failed. We have a plan that should get them both working in a day or two. In the meantime, no logs have been uploaded and, of course, no photos. When the links are working you'll learn about it here.

The Team is in high spirits and the weather is good now, nice breeze, calm seas but hotter than expected.

Last night we were forced to move our 40M operation away from our planned frequency. This was because of the RTTY contest which wiped out most of the band for us below 7.1MHz. The contest ends tomorrow and we expect much better 40M performance especially to Europe. We're sensitive to the fact that some EU countries/amateurs cannot transmit above 7.1MHz; this problem will self-resolve when the RTTY contest ends late tomorrow.

Tks Bernie McClenny, W3UR and the THE DAILY DX

United Kingdon, Wight Island, EU-120
On 15, 16 and 17th of February look for Chris, M0DOL to be aactive as GX4kpt
from the Wight island, EU-120, and near there from 7 castles counting for
the UK CASHOTA Award.
80 40 20 17 AND 2MTRS SSB
qsl via M0DOL as instructions on QRZ.com.
Tks Chris, M0DOL.

Grand Cayman Isl., ZF.
John, K6AM, will be active as ZF2AM between February 18th and March 4th. He
will also be active during the ARRL DX CW Contest (February 21-22th) as a
Single-Op/All-Band/High-Power entry, and also the CQ 160-Meter SSB Contest
(February 27th-March 1st) as a Single-Op/High-Power entry. John informs OPDX that
he will be doing mostly antenna work outside of the contests, but may get on
the WARC bands or even 6 meters a bit as time permits. QSL via K6AM, direct
or by the Bureau or LoTW.
Isle of Man, GD. Members of Barry Amateur Radio Society (BARS) from South
Wales will be going on a expedition to the Isle of Man from Saturday, March
28th to Saturday, April 4th. The team will consist of Glyn/GW0ANA,
Curtis/MW0USK, Franz/DJ9ZB, Jan/DJ8NK, Thomas/DJ6OI, Alois/ DL8RBL and Yasu (a JA DX
operator), Lois/MW3LOI (YL) and their wives & partners. Activity will be on 160-10
meters using CW, SSB, RTTY and PSK. The 6 meter band will be monitored for
openings. The callsign to be used during the CQ WPX SSB Contest (March
28-29th) will be GD8K. The callsign OUTSIDE of contest will be GT4BRS (Please note
the GT prefix is special callsign for the Isle of Man. GW0ANA states,
"Remember TT Races on IOM".) The callsign for the DATA Modes (RTTY, PSK31) will be
GT6BRS. All QSL cards are via the QSL Manager GW0ANA, by the Bureau or direct.

For direct cards only use one IRC or 2 USDs.

Bonjour à tous
DESECHEO maj 14 février 2009, 23:30Z:
A cause de vents beaucoup plus violents que prévus, les rotations d'
hélicoptères ont pris du retard, et nous n'avons pas pu tout installer mercredi
dernier.
Maintenant tout est en place ET EN ORDRE DE MARCHE ;
Les 10 000 QSO ont été dépassés au bout des premières 24 heures avec
uniquement deux stations. Maintenant cinq stations sont opérationnelles et nous
espérons tourner à sept ou huit stations ce week end.
Nous n'avons pas de connexion Internet car nos liens satellites et terrestre
900 MHz sont défaillants. Nous pensons les récupérer début de semaine
prochaine. Les logs n'ont donc pas été téléchargés et bien entendu aucune photo non
plus.
Quant tout sera remis en ordre vous le saurez par un communiqué é mis en
ligne sur notre site Internet.

Le moral est au beau fixe et le temps est très agréable maintenant. Les
vents sont tombés et la brise de mer est très agréable. La mer est redevenue
calme et les eaux se sont réchauffées.

la nuit dernière nous avons du changer de fréquence sur 40m à cause du
concours RTTY, qui nous perturbait sur la quasi-totalité de la bande en dessous de
7.1.
Le concours se termine demain et nous espérons beaucoup de meilleures
performances spécialement en direction de l'Europe. Nous sommes conscients qu'ils
ne peuvent émettre au dessus de 7.1. Ce problème trouvera sa solution
naturelle avec la fin du concours.

Merci Bernie McClenny, W3UR and the THE DAILY DX

Hrane (YT1AD Team Leader) David (K3LP Co-Team Leader) are in the
process of organizing two (2) up coming South Pacific DX-Peditions:

1 - ZK3 Tokelau Island and T31 Central Kiribati (Ex-Canton Island),
2 - Conway Reef (3D2C)

1st Trip ZK3 and T31 is planned for April 2010 or end Sept. 2010
2nd Trip 3D2C is planned for end of Sept. 2011

Hrane (YT1AD) and Miki (YU1DW) will travel from April 20, 2009 to May
7, 2009 in the South Pacific islands to organizing these DX-Peditions.

Hrane and Mike will be active from the following islands. The schedule
will be as follows:
- April 22, 2009 5W8A (YT1AD) and 5W0DW (YU1DW)
- April 22-24, 2009 KH8/N9YU (YT1AD)
- April 25 and May 4, 2009, 3D2AD (YT1AD) and 3D2DW (YU1DW) Fiji Island
- April 27-29, 2009 T30M (YT1AD) and T30DW (YU1DW) Tarawa Island

More information will be provided soon in March 2009 on
http://www.yt1ad.info/t31

Announcement

Feb 15, 2009

VK9GMW will be operating from Mellish Reef (VK9M) between March 22 and April 6, 2009. This will be another low-key, simple DXpedition by AA7JV and HA7RY. Please note that the dates are approximate and may change due to weather. The operation will have a strong low-band focus, although VK9WMW will operate on all HF bands.

From: "Frank Hunter"

NEWS

VK9GMW will be operating from Mellish Reef between March 22
and April 6, 2009.

This will be another low-key, simple DXpedition by AA7JV and HA7RY. It
will be the two of us operating; and doing everything else. We will have a
strong low-band focus, although we intend operate on all HF bands. We have
developed a new antenna which we hope will maximize our 160 and 80m
effectiveness. For details see the Equipment page.

Weather will be a critical factor as we are timing this DXpedition to fall
between when 160 meter conditions are still good -- i.e. the end of March -- and
when the cyclone season (hurricane season) in Australia has started to wind
down. (Unfortunately, the cyclone season does not end until the end of April.
But...) Therefore please check this web-site for updates on the actual operating
dates which we are likely to change due to weather.

http://www.vk9gmw.com/

It'll be an all time new one for me, but could be a difficult one from
the UK.

73, Frank

8202. MAYOTTE DX-PEDITION

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-02-17 20:55:16 UTC
From: K1XN
Topic: 8202 Message: 8202

Phil, G3SWH and Richard (Dick on CW), G3RWL will be active from Mayotte between February 26th and 5th March 2009.? Mayotte counts as AF-027 for IOTA purposes.? The 2003 "Most Wanted" survey by 425 DX News shows Mayotte at #121 for DXCC purposes.? We will both use the single callsign of FH/G3SWH.? Our activity will be mainly on CW on all bands 80-10 meters. There may be some 160 metre CW activity, but this will be entirely subject to QRN, antenna space and local site conditions, so there are no promises.? Richard may also operate some RTTY towards the end of the trip.? Propagation permitting, we plan to have two stations on the air for as many hours every day as is possible.? Our main objective is to work as many European, North American and ROTW stations on as many bands as possible.? QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's web site for a bureau reply or via the bureau. There is more information at www.g3swh.org.uk/mayotte.html (http://www.g3swh.org.uk/mayotte.html)

?

February 18, 2009
00:40Z: Our internet link went down again today but we believe we have it working well enough for logs and some pix from time to time.? The Team continues to slug it out 24/7 with a heavy emphasis on EU and Asia.? QSOs approach 50,000 after 4½ days.? We are optimistic with more than a week to go and a fresh crew coming in we will knock Desecheo 'way down the "most wanted" list.
We have a WX forecast of heavy seas beginning late Wednesday and continuing Thursday.? Seven members of our Team are due to rotate off the island on Thursday and another seven arrive.? This is scheduled for Thursday morning via boat.? We are watching the WX closely and, of course, the boat captain has the last say.? Hopefully, if the changeover is delayed by WX it will only be a 24 hour delay.? Late today our shelters get their first test with 25 kt winds coming through at sunset.? Everyone is working hard manning seven HF radios with a 6m station at the ready.? Sleep is at a premium!

Few news

Patrick F4EBT will FG/F4EBT from Sainte Rose (North of
?? Basse Terre) from March 21st to April 11. He will use TS50
?? + AT50 and FD4 antenna and he will be mostly in SSB.

Nicolas F5TGR will be FG/F5TGR from March 14 to 28. He will
?? be active in CW and SSB from 10 to 40m

Stephane F5UOW will be FR/F5UOW from Boucan Canot (near St Gilles
?? les Bains) from March 8 to 22. He will be active mostly in
?? CW on 20m in holydays style.

During the lighthouse week-end (20-22 February) some brazilian
? station will be active as follow:

-? PT2OP and PY6KW from Tinhare island (20 to 24 February) and from
?? Boipeba island from Feb 25 to March 1st. PT2OP will use
?? PX6T call sign and PY6KW will be /P. They will be active
?? mostly in SSB from 20 to 40m
-? Hamilton PY6HD will be ZZ6Z from Suma?ma lighthouse
?? (ARLHS BRA-243/DFB? BA-15).
-? Ramon PY6KY wil be PS6T (call requested) from ARLHS BRA-058/LH BA-04)
-? Marins PY1AMF, Vieira PY1LVF, Rick PY1VOY, Lima PY1NEZ will be
?? PY1GE Ponta Negra lighthouse (ARLHS BRA-080/DFB RJ-06)

For the 6e antarctica week some special french call sign are
?? active as followF:
?? - TM0ANT (WAP 08) by F6KDF until Feb 20;
?? - TM1ANT (WAP 37) by F5SIH until Feb 20.
?? - TM5ICE (WAP 127) by F5IL until Feb 28.
?? - TM8ICE (WAP 154) by F8DVD until Feb 22.

Best wishes

Jean-Michel F6AJA

8209. [ICPO] ICPO Bulletin (February 19 - 26, 2009)

From: VA3RJ News
Topic: 8209 Message: 8209

I.C.P.O. Bulletin (February 19 - 26, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

17/02/2009: Bill/N7OU and Bob/W7YAQ will be active from the Tuvalu Islands (OC-015) between February 17th and March 2nd. Bob is T27A (also the contest call) and Bill is T27OU. QRV 160-10 meters; mainly CW, with some SSB and RTTY, including an entry in the ARRL DX CW Contest (February 21-22nd). QSL via home calls, direct or bureau. [NG3K]

19/02/2009: John "Doc", K3MD, will be active as KP2/K3MD from St. John (USi VI-003), U.S. Virgin Islands (IOTA NA-106), February 19-24th. His activity will include the ARRL DX CW Contest (February 21-22nd) as Single-Op/All-Band/High-Power entry. (He placed 9th in the world in 2008.) Doc reports that the cabin he rents (overlooks east and west at 1000 feet) is a straight shot to U.S. He will be using an IC-7000 (w/ALS-500M/PS-75) into an all band 80-10m trap dipole up 50 feet and a 160 meter inverted L. Outside of contest he will operate casually, usually working Europe on 20 and 40 meters. QSL via K3MD. [OPDX Bulletin]

19/02/2009: Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao (SA-006, WLOTA LH-0942) as PJ2/homecall during the end of February. Operators mentioned are Dan/N1ZZ, Geoff/W0CG, Jim/WI9WI, Mark/N5OT, Mal/NP2L, Jim/K6ZH and Charles/WA9S. Their main goal is the ARRL DX CW Contest (February 21-22nd) as a Multi-? entry using the callsign PJ2T. QSL PJ2T via N9AG or LoTW. QSL all others via their home callsigns. [NG3K]

19/02/2009: Steve, AK0M will once again be active as VP2V/AK0M from Neptunes Treasure, on the island of Anegada, British Virgin Islands (NA-023) from February 19-24th, including an entry in the ARRL DX CW Contest as VP2VES. QRV holiday-style, 40-10m, using vertical antennas and QRP/10w maximum. QSL via home call, direct or bureau. Logs will be uploaded to LotW. [NG3K]

20/02/2009: Rick, NE8Z will once again be heading south to Ecuador and plans to be active with the following callsigns from various locations as follows: HC1MD/HC4 - February 20-27th; QTHs: Same & Tonsupa, Esmeraldas Province (Pacific beach homes). HC1MD - February 28th-March 8th; QTH: Tumbaco, Pichincha Province Activity will be on 160-10 meters using CW and SSB. QSL via K8LJG: John Kroll, 3528 Craig Drive, Flint, MI 48506 USA. [OPDX Bulletin]

20/02/2009: Operators Orlando/PT2OP and Marcelo/PY6KW plan to activate Tinhare Island (SA-080, DIB BA-05, WW Loc. HH06MP), Bahia State, Brazil, from February 20-24th. PT2OP will use the special callsign PX6T, while PY6KW will use homecall/p or possibility of a special callsign. This operation will also count for the Lighthouse of Morro de São Paulo (DFB BA-06, ARLHS BRA-157) QRV mainly 20 and 40 meters using SSB only; 100 watts and G5RV antenna. QSL PX6T via PT2OP. QSL PY6KW/p via home call. [CT1END]

20/02/2009: Participating stations in the South American Lighthouses Weekend (February 20-22nd - www.grupodxbb.com.ar/faros.htm) include Hamilton, PY6HD as ZZ6Z from Subauma Lighthouse (BRA 243) (QSL via PY6HD); Ramon, PY6KY as PS6T from Itapua Lighthouse (BRA 058)

(QSL via PY6KY) and Scout station PY1GE from Ponta Negra Lighthouse (BRA 080) (QSL via PY1NEZ). [TNX PY1NEZ]

20/02/2009: Rick, K6VVA will celebrate his 65th Birthday from the island of Tortola (NA-023), British Virgin Islands. QRV February 20-24th as VP2V/K6VVA, mostly CW, including an entry in the ARRL DX CW Contest (February 21-22nd) using the callsign VP2VVA. QSL both calls via N6AWD. [NG3K]

21/02/2009: The first "South America Lighthouse Weekend" will happen from 1200 UTC February 20th until 2400 UTC February 22nd. More than 50 operations are still scheduled in Argentina, Brasil and Chile. For more information see: www.grupodxbb.com.ar/faros.htm [LU5FF]

21/02/2009: Luis/EA8AY and Manuel/EA8NC will be active from Santa Cruz, Tenerife Island (DIE S-012, WLOTA LH-1276), Canary Islands (AF-004) as AN8R during the ARRL DX CW Contest as a Multi-Single entry. QSL via EA8AY (QRZ.com). [NG3K]

21/02/2009: CM8CAD will be active from Santiago de Cuba, Cuba (NA-015, WLOTA LH-0032) during the ARRL DX CW Contest as a Single-Op/Single-Band (15m)/Low-Power entry. QSL via the info at QRZ.com. [NG3K]

21/02/2009: Look for Eduardo, CO8LY to be QRV from Santiago de Cuba, Cuba (NA-015, WLOTA LH-0032) for the ARRL DX CW Contest as a Single-Op/Single-Band (80m)/Low-Power entry. QSL via EA7ADH, direct. [NG3K]

21/02/2009: Juan Carlos, CO8TW will also be QRV from Santiago de Cuba, Cuba (NA-015, WLOTA LH-0032) for the ARRL DX CW Contest as a Single-Op/Single-Band (160m)/Low-Power entry. QSL via HB9SVT, direct or bureau. [NG3K]

21/02/2009: Val, RD3AF to be QRV as EF8M from Las Palmas, Isla de Gran Canaria (AF-004, DIE S-005, ESA GC, WLOTA LH-0969) for the ARRL DX CW Contest as a Single-Op/All-Band/High-Power entry. QSL via home call, direct or bureau. [NG3K]

21/02/2009: Dimitry, UT5UGR will be active as FM5KC from the Ducos Radio Club, Ducos, island of Martinique (NA-107, WLOTA LH-1041) during the ARRL DX CW Contest as a Single-Op/High-Power entry. QSL via F5VHJ, direct or bureau. [NG3K]

21/02/2009: Operators Paul/G6PZ, Simon/M0CLW, Peter/G3TJE, Peter/G4MJS, Mark/M0DXR and others will be active as G6PZ from Eastertown, Lympsham, Somerset, England (EU-005, WLOTA LH-1841) during the ARRL DX CW Contest as a Multi-Two entry. QSL via GM4FDM, direct only. [NG3K]

21/02/2009: Dave, G3TBK will be active as J88DR from the island of St. Vincent (NA-109, WLOTA LH-0492) for the ARRL DX CW Contest as a Single-Op/All-Band/Low-Power entry. QSL via home call, direct or bureau. [NG3K]

21/02/2009: Jim, N6TJ will be QRV as NP3U from the "Mi Casita" contest station, Aguas Buenas, Puerto Rico (NA-099, WLOTA LH-2802) for the ARRL DX CW Contest as a Single-Op/All-Band/High-Power entry. QSL via WP4U, direct or bureau. [NG3K]

21/02/2009: Joe/ON4JZ and Jim/ON5UM will be active from Antwerpen, Belgium, as OP4K during the ARRL DX CW Contest as a Multi-? entry. QSL via ON4JZ, direct or bureau. [NG3K]

21/02/2009: Look for Brian/OZ2BRN and Nils/OZ1ETA to be active as OZ5E from Aarhus, Denmark during the ARRL DX CW Contest as a Multi-? entry. QSL via the bureau. [NG3K]

21/02/2009: Andy, K2LE will be active as P40LE from near Oranjestad, Aruba (SA-036, WLOTA LH-0033) for the ARRL DX CW Contest as a Single-Op/Low-Power entry. QSL via home call. [NG3K]

21/02/2009: Look for Roger, N4RR to be QRV from the island of Aruba as P40R during the ARRL DX CW Contest as a Single-Op/All-Band entry. QSL direct to home call. [NG3K]

21/02/2009: Per/SM2LIY, Stig/SM3PHM and Magnus/SM3VAC will be active from Nyland, Sweden, as SK3GM during the ARRL DX CW Contest as a Multi-Single entry. QSL via SM3VAC, direct or bureau. Logs will be uploaded to LoTW. [NG3K]

21/02/2009: Yasar, TA3D will be active during the ARRL DX CW Contest as a Single-Op/Single Band(80m)/Low-Power entry. TS-820S and 25 meter sloper antenna. QSL via QRZ.com. [NG3K]

21/02/2009: There will be a series of Lighthouse activations by TCSWAT during the following five months from the historical lighthouses around Istanbul / Republic of Turkiye. In collaboration with the Directorate General of Coastal Safety, TCSWAT is organising the "Istanbul Lighthouses On The Air" activity, which will take place from Karaburun (TUR 036), Sile (TUR 046), Anadolu (TUR 014), Ahirkapi (TUR 056), Rumeli/Turkeli (TUR 053), and Fenerbahce (TUR 021). Lighthouses as of last two weekends of December 2008. The dates, locations and callsigns are as follows: February 21-22nd Ahirkapý Burnu Lighthouse TUR 056 / TC1ALH; March 21-22nd Rumeli/Turkeli Lighthouse TUR 053 / TC1RLH; April 4-5th Fenerbahçe Lighthouse TUR 021 / TC2FLH. Stations contacting four or more of the lighthouses will recieve "Istanbul Lighthouses On The Air Award". Details will be later announced on the website: ta0u.com/ and tcswat.tripod.com/ More lighthouses will be activated in the future by TCSWAT. The lighthouse TCSWAT team will be: Urcun/TA0U, Leonardo/TA1FR, Mert/TA1ST, Tevfik/TA1HZ, Erhan/TA2DJ, Bekir/TA2RX, Mehmet/TB1J and Onur/TB2MYE. QSL direct to TA1HZ (QRZ.com). [Pete's-DX-Newsdesk]

21/02/2009: Dim, UT5UGR will be QRV in the ARRL DX CW Contest as a Single-Op/High-Power entry with the special callsign TO5WA from the station of Laurent, FM5BH on the island of Martinique (NA-107, DIFO FM-001, WLOTA LH-1041). QSL via UT5UGR. [NG3K]

21/02/2009: John/WC0W, Robert/K5PI and Alan/NS0B will be active from Belize as V31TP during the ARRL DX CW Contest as a Multi-Single entry. QSL via WC0W. [NG3K]

21/02/2009: Mark, K0EJ will be active as V49A from the island of St. Kitts (NA-104) during the ARRL DX CW Contest as a Single-Op/All-Band entry. Outside the contest he will be signing V44/K0EJ on all bands. QSL V49A via V44NK. QSL V44/K0EJ via home call. [NG3K]

21/02/2009: Dave, WJ2O will be active from Providenciales Island (NA-002) as VP5/WJ2O from February 18-25th, including a Single-Op/All-Band/High-Power entry in the ARRL DX CW Contest using the callsign VP5DF. QSL via WJ2O. [NG3K]

21/02/2009: Kurt, W6PH will be signing VP9/W6PH from the island of Bermuda (NA-005, WLOTA LH-0201) during the ARRL DX CW Contest as a Single-Op/All-Band/Low-Power entry. QSL via home call, direct only. [NG3K]

21/02/2009: Members of Radio Club La Portada will be active as XR1A from Puerto Antofagasta lighthouse (ARLHS CHI-058) on February 21st and 22nd for the South American Lighthouses Weekend. They will operate CW and SSB mainly on 20 and 40 meters. QSL via XQ1IDM. [425 DX

News]

21/02/2009: Tom, KC0W/ZD7X will be active from Cambodia as XU7XXX for the ARRL DX CW Contest as a Single-Op/Low-Power entry. QSL via KC0W, direct only. [NG3K]

21/02/2009: Bruce, XW1B will be active from Vientiane, Laos during the ARRL DX CW Contest as a Single-Op/Single-Band (?) entry. QSL via E21EIC, direct or bureau. [NG3K]

21/02/2009: John, K6AM will be active from Savannah, Grand Cayman Island (NA-016, WLOTA LH-1042) as ZF2AM during the ARRL DX CW Contest as a Single-Op/All-Band/High-Power entry. QSL to home call via direct, bureau and LoTW. [NG3K]

21/02/2009: Witek/SP9MRO and his wife Danuta/SP9SX will be active holiday style as ZP6/SP9MRO from Paraguay between February 21st and March 3rd, and from Uruguay March 4-14th. They plan to operate CW, SSB and RTTY, with main activity to be concentrated during the weekends and the local night hours. QSL via home call, direct or bureau. [425 DX News]

21/02/2009: Operators Jacky/ZL3CW, Aki/ZL1GO, Romeo/ZL2RU and Ken/ZL1AIH will be active as ZM1A from the north island of New Zealand (OC-036, WLOTA LH-0069) for the ARRL DX CW Contest as Multi-Single entry. QSL via ZL1AMO. [NG3K]

22/02/2009: Patrick/ON4HIL and Guido/ON4BAG will be active from Le Calao, Senegal with temporary calls 6V7P and 6V7O from February 22-28th. They will be QRV from 160-10m using SSB and digital modes (RTTY, PSK31). QSL via home calls, bureau or direct. They have a blog page at: www.bloggen.be/6v7o_6v7p [UBA HF News]

22/02/2009: Jan, DL7JAN will be active as S79JF from Praslin Island (AF-024), Seychelles, from Februrary 22nd till March 6th. Activity will be planned from 40-10m CW/SSB/RTTY and maybe PSK31. QSL via DL7JAN direct or bureau. [NG3K]

23/02/2009: Look for Rene, DL2JRM to be active from Kekova Island (AS-115), Turkey, as TA0/DL2JRM/p from February 23-25th. QRV 40m-10m CW. QSL via home call, direct or bureau. [rsgbiota.org]

25/02/2009: Orlando/PT2OP and Marcelo/PY6KW plan to activate Boipeba Island (SA-080, DIB BA-04, WW Loc. HH06MK), Bahia State, Brazil, from February 25th to March 1st. PT2OP will use the special callsign PX6B, while PY6KW will use homecall/p or possibility of a special callsign. QRV mainly 20 and 40 meters using SSB only; 100 watts and G5RV antenna. QSL PX6B via PT2OP. QSL PY6KW/p via home call. [CT1END]

25/02/2009: Willi, DJ7RJ will be active as SV9/DJ7RJ from the island of Crete (EU-015, MIA MGC-005, WLOTA LH-1400) between February 25th to March 15th. QRV 160 to 10 meters, using CW and SSB. QSL via home call, direct or bureau. [NG3K]

25/02/2009: Mike/W1USN, Scott/W1SSR and Bob/AA1M will be operating from the island of Montserrat (NA-103, WLOTA LH-1475) between February 25th and March 7th. They plan to operate CW, SSB and PSK-31. Callsigns have not been assigned as of this date. They are looking to get VP2MPR (W1USN) and VP2MPL (AA1M), if not, VP2M/homecall. QSL via CBA. [NG3K]

26/02/2009: Phil, G3SWH and Richard (Dick on CW), G3RWL will be active from the Hotel Trevani, Chimatso Bay, commune of Koungou, Grande Terre [aka Mahoré] island (DIFO FH-001, WW Loc. LH27OG), Mayotte (AF-027, WLOTA LH-0376) between February 26th and March 5th. They will both use the single callsign of FH/G3SWH. Activity will be mainly CW, on all bands 80-10 meters. Subject to QRN and site conditions, there may be some 160 meter CW activity.

Richard may also operate some RTTY and/or PSK31. They plan to have two stations on the air for as many hours every day as is possible. Main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's web site for a bureau reply or via the bureau. Further information can be found at: www.g3swh.org.uk/mayotte.html [G3SWH]

26/02/2009: Gerd, DJ4KW (V31YN) and Gisela, DK9GG (V31GW) will be active from IOTA NA-180 (Stann Creek / Toledo District group) February 26th to March 3rd. QSLs via home calls (direct or bureau), or LoTW. [425 DX News]

Be sure to check Bill's (NG3K) website for updated ARRL DX CW Contest activity at: ng3k.com/Misc/adxc2009.html . Good luck to all participants & have fun!!!
==========
LOOKING AHEAD -

01/03/2009: Special event station 8N1MOMO will be aired from March 1st to April 5th to celebrate the 33rd Koga(-city) Momo (or Peach) Festival and the 16th Koga(-city) Fire Balloon Contest. QSL via the JARL bureau. [JJ1WTL/AC6IM]

01/03/2009: Harry, W6DXO will be active as C6A/W6DXO from South Andros Island, Bahamas (NA-001), March 1-7th. Activity will be holiday style with focus on the WARC bands as propagation allows. QSL direct to KF6JOQ. [Pete's-DX-Newsdesk]

01/03/2009: The special event station of the Eddystone User Group will air the calls GX3EUG / GX7EUG on 80m/40m on March 1st from the site of the former WW2 RAF base at Sutton Bridge, Lincolnshire. RAF base Sutton Bridge. The site is due to be developed shortly into a vast industrial estate. QSL via G7AIR. Further information at: www.eddystoneusergroup.org.uk/ [Southgate ARC]

07/03/2009: Dave, G3TBK will be active as J88DR from the island of St. Vincent (NA-109, WLOTA LH-0492) for the ARRL DX SSB Contest (March 7-8th) as a Single-Op/All-Band/Low-Power entry. QSL via home call, direct or bureau. [NG3K]

07/03/2009: Bill, AC0W will be active from Hawaii as KH6/AC0W for the ARRL DX SSB Contest (March 7-8th) as a Single-Op/Low-Power entry. QSL via home call. Logs will be uploaded to LoTW. [NG3K]

07/03/2009: Andy, AE6Y will be active from Sabana Basora, Aruba (SA-036, WLOTA LH-0033), as P49Y during the ARRL DX SSB Contest (March 7-8th) as a Single-Op/All-Band entry. QSL via home call. [NG3K]

08/03/2009: Stephane F5UOW will be FR/F5UOW from Boucan Canot (near St. Gilles les Bains), Reunion Island (AF-016, DIFO FR-001, WLOTA LH-1812), from March 8-22nd. QRV holydays style, mostly CW on 20 meters. QSL via home call. [F6AJA]

14/03/2009: Nicolas, F5TGR will be active from Guadeloupe Island (NA-102, DIFO FG-001, WLOTA LH-0644) as FG/F5TGR from March 14-28th. He will be QRV 40-10m using CW and SSB. QSL via home call. [F6AJA]

17/03/2009: The Galway Radio Experimenters Club will be active as EJ4GRC from the island of Inishmore (EU-006, WAB Square L71) from 1200 UTC March 17 to 1200 UTC March 18th. QRV all bands and modes. Website at: www.galwayradio.com/ [rsgbiota.org]

22/03/2009: VK9GMW will be operating from Mellish Reef (VK9M, OC-072) between March 22nd and April 6th. This will be another low-key, simple DXpedition by George/AA7JV and Tomi/HA7RY. Please note that the dates are approximate and may change due to weather. The operation will have a strong low-band focus, although VK9GMW will operate on all HF bands, 160-10m. Equipment will be K3 and ICOM IC-746 PRO and two SGC SG-500 solid state amplifiers. QSL via HA7RY (Tamas Pekarik, Alagi ut 15., H-2151 Fot, Hungary). Logs will be uploaded to LoTW. Further information at: www.vk9gmw.com/ [VK4FW]

28/03/2009: Norfolk County RAYNET will be operational on Saturday 28 February and Sunday 1 March from the Norfolk County RAYNET caravan at the Beach Car Park, Sea Palling, Norfolk using the callsign GB3NCR. The event is to publicise and demonstrate RAYNET capabilities to the local community and flood wardens on the North Norfolk Coast. It will also involve a RAYNET Training Exercise for Norfolk County RAYNET Members. The station will be operational from 10am to 4pm on both days on 2m and 70cm FM and 80m SSB. A special event QSL card will be available and QSL cards should be sent via the RSGB bureau or direct with SAE to G4PSH, QTHR. [GB2RS]

28/03/2009: Operators David/G3NKC, Dave/G4BUO, Martin/G4XUM and Phil/GJ4CBQ will be active as MJ4K from the isle of Jersey (EU-013, WLOTA LH-0818) during the CQWW WPX SSB Contest (March 28-29th) as a Multi-? entry. QSL via G3NKC, direct or bureau. [NG3K]

12/04/2009: An international team composed by Juanjo/EA1CJ, Agustin/EA1KY, Roberto/EA2RY, Gerard/EA3EXV, Antonio/EA5RM, Manuel/EA7AJR, Bernard/F9IE, Fabrizio/IN3ZNR, Valery/UT7CR and Dimitri/UY7CW will be on the air from Tifariti, Western Sahara, from April 12 to April 17 using the callsign S04R. QRV 160-10m (include WARC bands) using CW, SSB and RTTY with at least 3 stations at the same time in different bands and modes. QSL via EA5RM, direct or bureau. Further information can be found on their website at: www.dxfriends.com/s04r/ [F5NQL]

09/05/2009: Ed, N1UR will be operating as B1Z from the Beijing DX Club Contesting Station on May 9th and 10th, which will include the CQ-M contest. QRV all bands, CW and SSB. QSL info TBD. [NG3K]

30/05/2009: TRAC/TA3KZ and Balkan Contest Club/LZ1KZA teams will be active from the small village of Tirnova (WW Loc. KM49FV), near Mustafakemalpasa, as TA3KZ during the CQWW WPX CW Contest (May 30-31st) as a Multi-Single entry. QSL to TA3KZ via the TA bureau. [NG3K]

10/06/2009: Anderson PY2TNT, Fabio PY2AAZ/AC2AC, Alex PY2WAS and Bob N6OX will be active as ZY0F from Fernando de Noronha Island (SA-003, DIB OC-01, WLOTA LH-1208) between 2300 UTC June 10th and 1300 UTC June 15th. The team will have a temporary 60m license, granted by the Brazilian Government, for the duration of the DXpedition. QRV 160-10m, including 60m, using SSB and CW. QSL via PY2WAS, bureau or direct. [NG3K]

13/06/2009: Georg, DK7LX will once again be active from Sao Tome (AF-023, WLOTA LH-1223) as S92LX from June 13-27th. QRV 80-10m CW only. He plans to have a website available, including an online log search. QSL via home call, direct or bureau. [rsgbiota.org]

01/08/2009: Paul, M3KBU will be active as MM3KBU/p in the Inner (EU-008) & Outer Hebrides (EU-010) from August 1-16th. QRV mainly on 14.260 Mhz (+/-), SSB. Paul plans on activating the following islands: North Uist (EU-010, IOSA OH02, SCOTIA HI13); South Uist (EU-010, IOSA OH03, SCOTIA HI06); Benbecula (EU-010, IOSA OH04, SCOTIA HI08); Grimsay (EU-010, IOSA OH27, SCOTIA HI10); Berneray (EU-010, IOSA OH05, SCOTIA HI15, WLOTA LH-0756); Eriskay (EU-010, IOSA OH09, SCOTIA HI05); Baleshare (EU-010, IOSA OH26, SCOTIA HI11); Skye (EU-008,

IOSA NH07, SCOTIA CN14); and Raasay (EU-008, IOSA NH10, SCOTIA CN24). Check QRZ.com under MM3KBU for updates and times. QSL via M3KBU, direct or bureau. [rsgbiota.org]

==========

SPECIAL EVENTS -

19/02/2009: Special event station 8J120TDC is now QRV until February 28, 2010, to celebrate the 120th Anniversary of the Tokyo Dental College. QSL via JARL bureau. [JJ1WTL/AC6IM]

19/02/2009: The following stations are currently active from France for the 6th Antarctic Activity Week (February 16-22nd): TM0ANT (WAP-008) by F6KDF until February 20th; TM1ANT (WAP-037) by F5SIH until February 20th; and TM5ICE (WAP-127) by F5IL until February 28th. QSL to their respective home calls, direct or by the bureau. [F6AJA]

20/02/2009: Special event station 8J4GREEN will be aired from February 20th to May 31st to celebrate the 26th Japan Urban Green Fair in Okayama(-prefecture). QSL via JARL bureau. [JJ1WTL/AC6IM]

20/02/2009: Members of the Macedonian Telegraphic Group (MCWG) will be active as Z30MCWG from February 20th through December 31st. They will operate mainly CW on all of the HF bands. QSL direct to Z35M. [425 DX News]

20/02/2009: Special event station EG3LB will be aired to celebrate the 200th anniversary of the birth of Louis Braille, inventor of the Braille system for blind. Look for them from February 20-22nd and February 27th-March 1st. Activity will mainly be on CW and the Digital modes (RTTY/PSK). The bands may vary; operations over the past weekend were on 40 and 20 meters. A special QSL will be issued commemorating the event. QSL via EA3RKR, by the Bureau or direct (QRZ.com). SWLs can also send for QSL but should send a report for listening to a complete data QSO. More information is available on the Web at:
http://www.gratisweb.com/ea3rkr [OPDX Bulletin]

21/02/2009: VU2DSI, VU2ROE, VU2SMN and VU2SMS will be active February 21-22nd as AU30SHI to commemorate the birth of Chhatrapati Shivaji Maharaj (19 February 1627), the founder of the Maratha Empire. They will operate from Shivneri Fort, the historic military fortification where Shivaji was born; suggested frequencies are 7070, 14250, 14215, 21280 and 28290 kHz. QSL via VU2DSI. [425 DX News]

25/02/2009: Special event callsign 9K48NLD will be aired February 25-26th from the 9K2RA Head Quarters, Safat, Kuwait, to celebrate Kuwaits National Independance and Liberation Day. Note: not from IOTA AS-118 as initially planned. Activity will be mainly on 40 and 20 meters, using SSB and CW. QSL via 9K2RA direct preferred (QRZ.com), bureau OK. [NG3K]

25/02/2009: To celebrate the 60th anniversary of the Council of Europe, there will be four TP60CE operations planned during 2009. The first operation will take place for three days between February 27th and March 1st. Activity will be on CW, SSB, RTTY and PSK. QSL via F5LGF. An online log search will be available at: ewwa.free.fr/ [OPDX Bulletin]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

DESECHEO UPDATE
February 19, 2009
0300Z: The wind blew hard all night and then died down around dawn. Fortunately no rain accompanied the system coming through. The seas are spectacular with waves and spray going 30-40 feet into the air. Great fun to watch, but doesn't bode well for the crew changeover scheduled for later today.

We are on the helicopter pad hundreds of feet from the sea, but the sound can be heard through the pileups.

Team Three is safely settled in their hotel, a stones-throw from the boat departure point. They completed UXO training tonight and are ready to come to the Island. Forecasts for the next two days are for continued high seas making a boat landing extremely hazardous and thus not an option. We can only hope the seas will die down as fast as they came up...the first sign will be the diminishing wind, but it has picked up again tonight and blowing hard.

Radio operations continue to be productive with 6-7 stations QRV 24/7. The QSO count is 60,000 as this is written, and everyone is having fun while working hard.

All the antennas have survived so far and we;'ve experienced no failures with any equipment. Let's see what tomorrow brings!

IOTA CHECKPOINT: REMINDER

In his email of 4 June 2008, Martin Atherton mentioned a policy decision on the treatment of contacts made with second/third current callsigns has been deferred to a later date since it involves procedural changes. This remains the situation and it does not look as if it will be addressed soon. Therefore, the RSGB cannot credit these QSOs. In several countries second current calls are available but it is impossible for the RSGB to keep note of whether these are special event calls, contest calls or personal calls issued only for personal use.

In clear text: please note that any QSL card issued to any other callsign than the one you registered with will be rejected for the time being! [UBA HF News]

February 18, 2009

This is the bulletin #3 of information about FT5YJ-VP8DLM-CE9XX Expedition in the Antarctic peninsula.

Tuesday February 17th 2248 UTC: Last phone call received from the team aboard the sailboat "Ile d'Elle" in the harbour of Ushuaia.

The whole team is now gathered aboard. The weather conditions seem to be good so the skippers planned a departure in the next hours.

Kindly yours (73).
Miche [F6DWQ]

WINQSLPOLICY

Manfred, DF6EX just started a new project called WINQSLPOLICY.

"We want to find out how QSL-manager or DX-stations confirm cards or probably don't confirm.

The database is made here since more then 15 years, however the new program was done right now.

For every club, organisation it´s free. Only the club-leader or QSL-manager needs to fill out the form and apply for a club-licence.

For individual users it´s cheap.

We currently have entries on more than 10000 managers in the database and want to extend this of course with the help from the result of other hams".

JOIN A DIFFERENT KIND OF AMATEUR RADIO COMPETITION

There is no doubt that our time-honored hobby is going through turbulent times with the intake of new hams decreasing in many countries. The overall Amateur Radio population has diminished dramatically.

As an independent body, the group at Radio Arcala, OH8X is poised to try some new methods to attract young people congregating in many non-traditional hangouts such as Virtual World on the internet. The Arcala radio station is the first-ever amateur radio station to be active in Virtual Reality. Millions of computer-minded youngsters gather there daily in an easy-going leisure mood.

The overall Radio Arcala strategy is spelled out on the OH8X Webpages but one of the key buttons - ON YOUNG PEOPLE'S TERMS - is still to be drafted.

See http://www.radioarcala.com/

We now challenge members of our fraternity of all ages to draft the text for this button in a way that is both appealing and informative enough to encourage today's youth to take the step we once took.

CONTEST OUTLINE

Consider yourself as another 18-year old enthusiastic ham of today. Challenge yourself to talk to a bunch of young people ranging from 15-20 years of age in a large room with the occasion devoted only to yourself. Your mission is to tell them about the excitement of being an amateur radio operator today and why those in the audience should join our ranks.

Draft your paper/talk to be no more than 250 words in length in English or Spanish.

Remember a few things:

1: These people have many other tempting options to occupy their youthful and modern mind and time.

2: They can take only a certain amount of history at once. Be balanced.

3: Consider that one of the current obstacles is the license exam; it is an entry barrier not found with many other hobbies. Address that issue, too.

4: Remember that electronics has become a highly complex science and that experimentation may not exist as an option the way it did before.

5: Find the most positive and truly unique features that Amateur Radio has. Highlight the positive and truly unique features of Amateur Radio.

6: And finally, take this not only as a fun game but consider that, indeed, the future of this hobby is in the hands of people like you.

Deadline:

Please submit your paper by email no later than March 15, 2009 to oh8x@... (English) or yv5amh@... (Spanish).

More than one text can participate and more than one submission can be selected, if seen practical.

The body to review the not-to-be-disclosed papers with their national focus group is composed of the following individuals: Hans Blondeel Timmerman, PB2T, IARU Region 1, (Chairman); Reinaldo Leandro, YV5AMH, IARU Region 2; Dave Sumner, K1ZZ (ARRL); Olaf Lundberg, G0CKV (for RSGB); Tonno Vahl, ES5TV, (ERAU); Hans Johansson, SM0IMJ (SSA) and Juha Hulkko, OH8NC and Martti Laine, OH2BH (Radio Arcala).

Prizes:

In addition to the award of first, second and third prizes in the form of three (3) amateur radio contest-like plaques, the winning text will be made available to a large group of people in Virtual Reality. You will be invited to be part of a Radio Arcala working group drawing up a next-generation recruitment campaign. Your work will be featured in national magazines by the above jury plus on the DX Summit and the Radio Arcala Website. You will be pleased with your achievement. Be aware that the review committee can for editorial reasons make style changes to the text before publication.

8210. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-02-19 18:26:08 UTC
From: K1XN
Topic: 5889 Message: 8210

The FEBRUARY 2009 Issue #902-C files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

From: K1XN
Topic: 8203 Message: 8214

February 20, 2009
0315Z: Group #3 (http://69.89.25.185/%7Etrexsoft/t-rexsoftware.com/desecheo/group3.htm) all arrived safely this afternoon and Group #2 (http://69.89.25.185/%7Etrexsoft/t-rexsoftware.com/desecheo/group2.htm) is now on their way home, tired but gratified by the experience.
The seas are even higher and we've lost several antennas on the beach due to guy-points being washed away.? We'll work on restoring those antennas tomorrow.

We now have a more robust internet connection and the gap between uploaded logs should begin to shrink.

Note: While the online lookup function is very helpful, it cannot correct any problems we discover in the logs.? Those will be dealt with when we're off island.? In short, if you cannot find a Q in the online log, work us again just to be certain!

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
Hi dear Friends,
Tomorrow on the morning I will activate as I2JJR/6 the

ITALIAN CASTLES NEW ONE
DCI-PE034 MURA E PORTE DI CITTA' SANTANGELO

I hope the wx will allow me to do it, I will begin on the upper part of the 40m band , 7150 +/- QRM, but for the F friends I will also try to come at about 7090 from time to time. There the traffic from REF will be quite high I suppose, that's why I'0ll begin on the upper parrt; maybe on 80m too. Later I will switch to higher bands. Help with the clusters will be warmly welcome.
Working conditions: IC7000 plus AH4 ATU, and a vertical quarter wave for 40, tuned by AH4 on the other bands. If place will aloow it, a 40m dipole will be deployed. No IC2KL.

Hope to meet you all from there, thanks and 73!

Augusto I2JJR/6 - HB9TZA

From: K1XN
Topic: 8220 Message: 8220

February 20, 2009
2030Z: Based on questions and comments we've received, we've restructured our operating plan for this weekend (from 0000Z Saturday until 2359Z Sunday). We will not be participating in the ARRL CW DX Contest.? This means we will be operating SSB and RTTY only on 80M, 40M, 20M, 15M and 10M.

And, to give General Class operators a better chance to work us, we will be listening only in the General Class portion of all bands, all weekend long.

Group #3 (http://69.89.25.185/%7Etrexsoft/t-rexsoftware.com/desecheo/group3.htm) is here and up to speed and we know fresh operators will be a big help.

From: K1XN
Topic: 8203 Message: 8224

February 21, 2009
2300Z: Today was another very busy day for us. ? In addition to trying to keep stations on the air and provide Deseceho as a new one to so many who still need it, we had our first visit from the resupply boat in five days. ? Finally the seas moderated and the boat arrived with fuel, water and a fresh USFWS Law Enforcement contingent. ? The first group was to rotate off the island on the 19th, but seas delayed that until today!? They were glad to go home to their families after pulling rotating security shifts since the 12th. ? They are all great people and we enjoyed their constant company.

We now have enough fuel to last through our departure and we will be able to run the amplifiers on all stations except 30 meters. ? The boat Captain ?built a portable hoist and it was used to remove and swing the loads to the rocks. ? From there everthing was carried the 1/4¼ mile or so to the helicopter pad. ? The folks from USFWS Law Enforcement and Island Conservation worked right along side...a true team effort. ? The entire process took about five hours. ? Some of the heavier items were not moved until after dark when temperatures had dropped. ? If you noticed we were off the air for some time, you now know why. ? ? The entire team was involved and the work took its toll, but they continue to perform without complaint.

QSO count stands at 83,500 with approximately four days to go.

First Video (http://69.89.25.185/%7Etrexsoft/t-rexsoftware.com/desecheo/feb18video.htm) uploaded.
1530Z: Yesterday was a fairly easy day for the K5D team.? No resupply boats, no water, gas or food to carry on our backs from the landing cove, no antenna work to do....just work the pileups.? We have begun to modify the radio schedule to try to pick up those areas of the world that have been obscured by the huge pileups from the population centers of NA, JA and EU.

Also, as we approach the end of the operation, plans are being set for an orderly departure.?
By the terms of our SUP (Special Use Permit) we must vacate the island no later than the 26th.?
Our current plan is to begin removing equipment and infrastructure on Wednesday afternoon the 25th.? The last night (Wednesday) we will have have three stations QRV, emphasing 80m, 40m and 30m.? Departure will resume at sunrise on the 26th.

The team is in good spirits and feels very good about what has been accomplished from this #6 "most needed" entity.? We are now confident of over 100,000 QSOs.

February 24, 2009
2300Z: After reaching the 100,000 QSO mark last night, instead of kicking back and coasting, the team has worked the bands harder than ever.? There are still so many people calling, many needing KP5 for a new one, the team has put their head down and kept going.
Beginning tomorrow, Wednesday, we begin to scale back the operation and prepare for departure.? Just as when we ramped up, we will scale down with three stations remaining QRV until dawn (local time) on departure day, Thursday the 26th.

Many antennas will come down tomorrow and equipment packed.? We enjoyed a beautiful sunset tonight and many of the team sensed that the end of this incredible adventure was drawing near

Hi friends
DESECHEO – Quite the end
February 24, 2009
2300Z: After reaching the 100,000 QSO mark last night, instead of kicking back and coasting, the team has worked the bands harder than ever. There are still so many people calling, many needing KP5 for a new one, the team has put their head down and kept going.

Beginning tomorrow, Wednesday, we begin to scale back the operation and prepare for departure. Just as when we ramped up, we will scale down with three stations remaining QRV until dawn (local time) on departure day, Thursday the 26th.

Many antennas will come down tomorrow and equipment packed. We enjoyed a beautiful sunset tonight and many of the team sensed that the end of this incredible adventure was drawing near.

If you have not worked K5D on Desecheo Island you now have less than 24 hours to do so. Today they will begin to dissemble the stations trimming down to three stations, which are expected to go QRT just after sunrise (1050Z) tomorrow.

Worked V73AX last nite on 40 CW. This is a club station on Kwajalein Island. I checked QRZ.com and no address was given and says to QSL via home call of operator. Naturally, I worked the guy first and THEN worried about his QSL info. QRZ also said that the "Kwajalein Bureau" was "shut down" (whatever that means). Buckmaster gives the club's address as Box 44 with an APO of AP 96555. It also lists N5LE as QSL manager. I intend to try the APO number and the N5LE route, but was wondering if anyone had any better info or has had success getting a QSL from this staion? Any advice is greatly appreciated. Yours for better DXing - 73 de Paul K4KCS

I don't think any of those islands have and "bureau"
anymore. I'm basing this on what KH2D told me as he was the Guam
"bureau" and when he left 7-8 years ago, most of the Pacific Islands
were scaling back as US Military bases and with that when a lot of
their personal, Hams and bureaus included.

I'd email N5LE and ask him. He has since left Kwajalein
(May/2008) but he'd probably know for sure. His email address is on
QRZ.COM. The APO Box number might get it to the island, but whoever
the operator was has likely left and he or she might not ever get the card.

73, Paul VE1DX

The MARCH 2009 Issue #903 files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

February 26, 2009

And so... it's over.. The K5D 2009 Desecheo Island DXpedition is in the history books.

Every one of our goals was exceeded; most significantly, the number of QSOs. Total Qs: 115,728!

Because our Special Use Permit (SUP) expires today, and because of the size/complexity of the infrastructure to dismantle, we decided to use helicopters to clear the island. Flights began at 1100Z and will continue until all gear and personnel are safely back in Puerto Rico.

Return here to our website for final photos and operations statistics later today or tonight.

Thanks to all who worked and helped us; we think we've driven KP5 Desecheo to near the bottom of the "most wanted" list!

I.C.P.O. Bulletin (February 26 - March 06, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

26/02/2009: Phil, G3SWH and Richard (Dick on CW), G3RWL will be active from the Hotel Trevani, Chimatso Bay, commune of Koungou, Grande Terre [aka Mahoré] island (DIFO FH-001, WW Loc. LH27OG), Mayotte (AF-027, WLOTA LH-0376) between February 26th and March 5th. They will both use the single callsign of FH/G3SWH. Activity will be mainly CW, on all bands 80-10 meters. Subject to QRN and site conditions, there may be some 160 meter CW activity. Richard may also operate some RTTY and/or PSK31. They plan to have two stations on the air for as many hours every day as is possible. Main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's web site for a bureau reply or via the bureau. Further information can be found at: www.g3swh.org.uk/mayotte.html [G3SWH]

26/02/2009: Dan, W0CN will be active as KG4CN from Guantanamo Bay (NA-015) from February 26th to March 9th. He will operate SSB and some CW on 160-10 meters, and will participate in the ARRL DX SSB Contest. QSL via W0CN, direct, bureu or LoTW. [425 DX News]

26/02/2009: Gerd, DJ4KW (V31YN) and Gisela, DK9GG (V31GW) will be active as homecall/p from the Blue Marlin Lodge on Southwater Caye (NA-180), between February 26th to March 3rd. QSL via their home callsigns, direct or by the bureau or LoTW. [425 DX News]

27/02/2009: Members of the Mamuka Contest Club will activate 4L0G in the CQ 160-Meter SSB Contest (February 27th-March 1st) as a Multi-Single entry. Operators mentioned are: 4L5DJ/Shota, 4L2M/Mamuka and 4L4CC/Levan. They will use a TS-950SDX w/1KW PA into a full size Delta loop and Vertical; RX Antenna 2 beverages. QSL via EA7FTR (UA9LP for Russia; UT7QF for Ukraine). [OPDX Bulletin]

27/02/2009: John, KK9A will be active as P40A from Iguana Villa, Malmok, Aruba (SA-036, WLOTA LH-0033) for the CQ 160-Meter SSB Contest (February 27-March 1st); Single-Op casual effort. QSL via WD9DZV. [NG3K]

27/02/2009: The UA2 Contest Club will be active from Kaliningrad as RW2F during the CQ 160-Meter SSB Contest as a Multi-Op entry. QSL via DK4VW, direct or bureau. [NG3K]

27/02/2009: Franck, F4BQO will once again be active from Chad as TT8CF between February 27th and July 1st. QRV on the HF bands using SSB and CW. QSL via home call, direct only. [F5NQL]

27/02/2009: Peter, G3TKK will be active holiday style as V25TK from the island of Antigua (NA-100, also count for WLOTA LH-1118) from 27 February to 12 March. He plans to operate CW on 40-17 meters. QSL via G3TKK, direct or bureau. [425 DX News]

27/02/2009: The 4M5DX Group's expedition to Aves Island (NA-020, DIV-001, ARLHS AVE-001, WLOTA LH-0216), Venezuela, is scheduled to take place February/March, hopefully for a full week. A large team of operators will be active as YW0A on 160-6 meter SSB, CW and RTTY. QSL via IT9DAA (diret or bureau), or LoTW. Bookmark yw0a.4m5dx.info/ for updates. [425 DX News]

27/02/2009: John, K6AM will be active from Savannah, Grand Cayman Island (NA-016, WLOTA LH-1042) as ZF2AM during the CQ 160-Meter SSB Contest (February 27-March 1st) as a Single-Op/High-Power entry. QSL to home call via direct, bureau and LoTW. [NG3K]

27/02/2009: Bob, K3UL will operate mainly CW as ZF2UL from Grand Cayman Island (NA-016, WLOTA LH-1042) between February 27th to March 7th. Activity will be mainly CW, holiday style, on 160/80/30 meters. QSL direct to home call. [425 DX News]

28/02/2009: Look for Fred, N5IVZ to be active February 28th (1400z - 2300z) from South Padre Island (NA-092, USi TX-007S, Cameron County), Texas. This special IOTA Activation will also celebrate 90 years of the US Coast Guard in the Rio Grande Valley of South Texas. The activation by the US Coast Guard Auxiliary is to honor the service of present, past and future Guardians of the Sea. QSL via home call, direct only. [rsgbiota.org]

01/03/2009: AP2ASHF (the suffix stands for Axel Helmut Scholz, Foreigner) is the callsign issued to Axel, DL7UPN. He expects to visit Pakistan "several times" before June and to operate CW, RTTY and PSK. QSL via DL7UPN. [425 DX News]

01/03/2009: Harry, W6DXO will be active as C6A/W6DXO from South Andros Island, Bahamas (NA-001), March 1-7th. Activity will be holiday style with focus on on 17m and hopefully 40m, with 100 watts and vertical antenna. QSL direct to KF6JOQ. [Pete's-DX-Newsdesk]

01/03/2009: Members of the Algarve STAR DX Team will activate the special callsign CT7FFC from Sapal Castro Marim Natural Reserve (DPRN FF-22, valid for DPRN - Portuguese Natural Parks, Natural Reserves and Protected Landscapes Award (www.algarvedx.com/dprn), March 1st between 0700-1300 UTC. They will be on the air with 2 stations running 40m and 20m SSB and CW. Team consists of: Rui/CT1ERY, Toze/CT1GFK, Al/CT1GPQ, Mike/CT1IUA and Rui/CT2IHP. QSL via CT1GFK, direct or by the bureau, request via E-mail to: cu8at@... [Algarve S.T.A.R. DX Team]

01/03/2009: Operators from RZ1CWC - COTA-RU-Team (RN1CW, UA1CBW, UA1CIO, UA1COA and SWL R1C-6) along with RX1CQ, UA1CEI, UA9KGH/1 will be active March 1st from Castle Bip WCA/COTA: C-102 in Pavlovsk city RDA: SP-15. QRV on 20-40 meters CW/SSB using the callsign UE1CDX/1. All

contacts will receive a QSL via the bureau. For direct via RN1CW. [F5NQL]

03/03/2009: John, W5JON, will be active as J6/W5JON from Marigot Bay (WW Loc. FK93LX), island of St. Lucia (NA-108, WLOTA LH-1336) between March 3-11th. Activity will be on 160-6 meters SSB using dipoles and 6m yagi. Also, look for activity in the ARRL DX SSB Contest (March 7-8th). QSL via home call. [rsgbiota.org]

04/03/2009: Witek/SP9MRO and his wife Danuta/SP9SX will be active holiday style as CXx/SP9MRO from Uruguay between March 4-14th. They plan to operate CW, SSB and RTTY, with main activity to be concentrated during the weekends and the local night hours. QSL via home call, direct or bureau. [425 DX News]

04/03/2009: Eric, KV1J will be QRV once again from Miquelon Island (NA-032, DIFO FP-002, WLOTA LH-1417, WW Loc. GN17TC) as FP/KV1J, ARRL SSB DX Contest included. Eric will be staying at the Motel de Miquelon (formerly Maxotel) from March 4-9th. During the contest he will be Single-Op/All-Band/Low-Power. Outside the contest look for him on 3.5 to 50 MHz using SSB, CW, RTTY and PSK31. QSL via KV1J direct, via the bureau. [MMMonVHF]

04/03/2009: Operators Minekazu/JA2NQG (SSB) and Yuji/JH2BNL (CW/RTTY) will be active from the Western Pacific during March from the following islands and IOTAs. Their schedule and callsigns are as follows: March 4-6th - Chuuk Island (OC-011), Micronesia, V63AR and V63WW (Note: V63C will also be active during these dates); March 6-9th - Pohnpei Island (OC-010), Micronesia, V63AR and V63WW (Note: V63P will also be active during these dates); March 9-11th - Kosrae Island (OC-059), Micronesia, V63AR and V63WW (Note: V63T and V63K will also be active during these dates); March 11-14th - Majuro Island (OC-029), V73J and V73M; March 14-16th - Palau Island (OC-009), T88CD and T88WW; March 17-19th - Guam (OC-026, USi GU-003S, WLOTA LH-0064), NH0AA and AH0F/KH2. QSL V63AR, V63C, V63P, V63T, V73J, T88CD and NH0AA via JH2BNL. QSL V63WW, V73M, T88WW and AH0F/KH2 via JA2NQG. [OPDX Bulletin]

04/03/2009: John, VK6HZ/VK6ARI, will once again be visiting Rottnest Island (OC-164, WLOTA LH-2197) this year. Dates of operation will be March 4-7th. Operation will be holiday style with IC-7000 running 100w into a Buddipole, running all modes. QSL via VK6NE, direct or bureau. Online log will be available after the trip at: www.vk6hz.com/ . All logs will be uploaded on LoTW. [OPDX Bulletin]

05/03/2009: Rosel/DL3KWR and Hardy/DL3KWF will be active again as CT3/DL3KWR and CT3/DL3KWF from the Hotel Royal Orchid, Madeira Island (AF-014, DIP MA-001, WLOTA LH-0053), March 5-19th. They plan to operate mostly CW and on 12, 17 and 30 meters. Hardy will also give RTTY and PSK-31 a try. QSL via home calls. E-mail requests for bureau cards can be sent to dl3kwr@... or dl3kwf@... respectively. Their web site is at: www.mydarc.de/dl3kwr/ [425 DX News]

05/03/2009: Jeff, N1SNB will be active from Grenada, Nicaragua, March 5-9, for ARRL DX SSB from the QTH of Octavio, YN2N. He hopes to sign YN2NB during the contest and H7/N1SNB outside of the contest. He will enter ARRL DX SSB as a Single Op - All Bands - tbd on HP or LP. QSL via home call. [NG3K]

05/03/2009: A team of nine ZL operators will be activating Chatham Island (OC-038) from March 5-10th using the callsign ZL7T. The team leaders are Lee/ZL2AL and Morrie/ZL2AAA. The rest of the team will be Lee/ZL2LE, John/ZL1BYZ, Mike/ZL2CC, Phil/ZL2RVW, Mark/ZL3AB, Wayne/ZL2WG and John/ZL1ALZ. The Pilot will be Duncan ZL3JT in Christchurch zl3jt@... . The team will be hosted at the Chatham Fishing Lodge in the fishing village of Kaiangaroa on the north eastern tip of the Chatham Islands. The ICOM four station setup with amplifiers will operate 160-10m with CW, SSB, RTTY and PSK modes. Wire loops will be used on 80m and 40m, a vertical on 30m and Yagis on 20, 17, 15, 12 and 10m. They will also try 160m alternating with the 80m station from time to time. Frequencies will be in the usual SSB and CW DX haunts on each band with SSB split up 5 kHz and CW split up 3 kHz. The website is up and running at: www.zl7t.com/ . Logsearch will be available on the team's return. QSL via the bureau or direct to ZL2AL CBA or QRZ.com. Logs will be uploaded to LoTW by September. [ZL2AL]

06/03/2009: Kanzi, JA4ENL will be visiting Brunei (OC-088, WLOTA LH-0152) March 6-9th. Look for him to be QRV as V85NL on all bands, including WARC, especially on 20,40, 80 and top bands mostly on CW. QSL via home call, direct or bureau. [V85SS]

==========

LOOKING AHEAD -

07/03/2009: Operators Jose/YV5TX, Jesus/YV5MSG and Alex/YV5SSB as 4M5DX from near Caracas, Venezuela (WW Loc. FK60NM) for the ARRL DX SSB Contest (March 7-8th) as a Multi-Single/High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

07/03/2009: Bob/K4UEE, Mary/K1MMH and many others will be active from Signal Point, island of Curacao (SA-006 WLOTA LH-0942), as PJ2T for the ARRL DX SSB Contest (March 7-8th) as a Multi-Multi entry. QSL via N9AG or LoTW. [NG3K]

07/03/2009: Operators Bill/W9VA, Jim/K9PPY and Andre/PY0FF will be active from Fernando de Noronha (SA-003, DIB 01, WLOTA LH-1208) as PS0F during the ARRL DX SSB Contest (March 7-8th) as a Multi-Single entry. QSL via W9VA / LoTW. [NG3K]

07/03/2009: The UA2 Contest Club will be active as RW2F from Kaliningrad for the ARRL DX SSB Contest (March 7-8th) as a Multi-Multi entry. QSL via DK4VW. [NG3K]

07/03/2009: Siggi, TF3CW will be active from Iceland (EU-021, WLOTA LH-2975) for the ARRL DX SSB Contest (March 7-8th) as a Single-Op/Single-Band (20m) entry. QSL via LX1NO. [NG3K]

07/03/2009: First time DXpeditioners John/W3MF and Bob/K3PH plan to activate VP9I for the ARRL DX SSB Contest (March 7-8th), from the QTH of Ed, VP9GE in Hamilton, Bermuda (NA-005, WLOTA LH-0201). They might operate outside the contest as VP9/ home calls. QSL via N1HRA, direct or bureau. [NG3K]

07/03/2009: Tom, ZP5AZL will be active from Asuncion, Paraguay, as ZP0R during the ARRL DX SSB Contest (March 7-8th) as a Single-Op/All-Band entry. QSL via ZP5AZL, direct only. [NG3K]

13/03/2009: Look for Christophe/F5UBH, Juan/F5IRC and Karim/F4CTJ to be active March 13-15th as TM2HC from Hoedic Island (EU-048, DIFM AT-017). This activity also counts for the Grands Cardinaux lighthouse (DPLF PB010, ARLHS FRA-017, TWLHD WLH F-026, WLOTA LH-0851) and also references DFCF 56-033, DDCF 56-30 (Quiberon) and DIM O25. QRV all HF bands using CW, SSB, PSK31 and RTTY. QSL via F5IRC, direct or bureau. [F5IRC]

14/03/2009: Look for Rich, K0PIR to be active March 14th as homecall/p from La Framboise Island (USi SD-003R, Not IOTA, Hughes county), South Dakota. QRV 14.250 MHz from 1800-2000 UTC. QSL via eQSL, Direct w/SASE or LoTW. [USi]

25/03/2009: Dave, W5CW will be active from the VP5JM "Hamlet" on Providenciales island (NA-002, WW Loc. FL31VS) from March 25th to April 8th. He will also be active in the CQ WPX SSB Contest (March 28-29th) as a Single-Op/All-Band entry using the special call VP59V. Outside the contest Dave will be QRV on 160-6 meter CW and SSB, with emphasis on 160m and the WARC bands. QSL Direct Only via W5CW or via PO Box 88, Morris, OK 74445-0088. [NG3K]

28/03/2009: Aquarius Beach Tower Contest Club members Kuny/W1FPU, Yoshiki/KH0UA and Tomo/N2QP will be active from Saipan, Northern Mariana Islands (OC-086) as AH0BT during the CQWW WPX SSB Contest (March 28-29th) as a Multi-? entry. QSL via 7L1FPU, direct or by the JARL bureau. [NG3K]

28/03/2009: Hartwig, DL7BC will be active as CN2BC, operating from CN8MC, the central club-station of ARRAM (Royal Moroccon Amateur Radio Association) located in Rabat, Morocco, for the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/All-Band/Low-Power entry. QSL via DL7BC, bureau preferred. [NG3K]

28/03/2009: Operators Fabio/I4UFH, Massimo/IZ4DPV, Vic/I4YSS and Santos/CT1DVV will be active as D4C from Sao Vicente Island (AF-086, WLOTA LH-1976), Cape Verde, during the CQWW WPX SSB Contest (March 28-29th) as a Multi-Single entry. QSL via IZ4DPV. [NG3K]

02/05/2009: The Fall River Amateur Radio Club and Team HAMCOW will be active during the New England QSO Party (May 2-3rd) as W1ACT/p from Martha's Vineyard (NA-046, USi MA-005S, WLOTA LH-2804). Suggested frequencies are: 3.540, 7.040, 14.040 and 14.280 MHz. QSL with SASE to Roland Daignault, N1JOY, 19 Davis Rd, Westport, MA 02790-3433. Further

information will be available at: hamcow.net/ [USi]

08/05/2009: A team of 7 members of IOCA Group (Sven/DF9MV, Daki/9A2WJ, Franjo/9A2MF, Boki/9A3KB, Matt/DL5MFL and Dado/9A3TA), with Emir/9A6AA as team-leader, will be active as 9A0CI from Vela Palagruza Island (EU-090, ACIA IC-901, CIA-33, IOCA CI-084, MIA MC-284) and Lighthouse (CLH-100, ARLHS CRO 012, TWLHD WLH 9A-046, WLOTA LH-0057, Admiralty E 3586) from May 8-16th. Operation will be SSB, CW and Digital modes, from 80 through 10 meters. QSL via DE0MST via the DARC Bureau or direct to: Manfred Stippschild, Sylvensteinstr. 9, D-83661, Lenggries, Germany. They also propose to operate SSB as 9A/homecall and homecall/p from Mala Palagruza Island (EU-090, ACIA IC-900, IOCA CI-461, MIA MC-285) and, for the first time, from rock of Kamik Od Tramuntane (IOCA CI-960). QSL via homecall. More detail at www.inet.hr/9a6aa/iocaplan.htm [9A6AA]

29/05/2010: Scheduled for May 29th and 30th, 2010, on John F Kennedy's birthday members of the Jupiter Tequesta Repeater Group (W4JUP) will be activating for the first time Peanut Island (USi FL-479, WW Loc. EL96XS, Palm Beach County) JFK's old Cuban missile crisis bunker, Florida. They will use the special event callsign W4K for the full 2 days. QRV on HF, 50MHz and 2 meters, using SSB and CW. 6m frequency 50.210 MHz SSB/CW; 2m 144.210 MHz; 20m, 40m to be determined at start of event by the HF team CW ops on K3's). QSL via operators' instructions. [N8OFS]

30/05/2009: Dez, G0DEZ will be active from the isle of Jersey (EU-013, WLOTA LH-0818) as GJ3WW for the CQWW WPX CW Contest (May 30-31st) as a Single-Op/Low-Power entry. Outside the contest he will be active holiday style. QSL via G0DEZ, direct only. [NG3K]
==========
SPECIAL EVENTS -

23/02/2009: Special event station V88NBD25 will be aired from 23 February to 10 March for the Silver Jubilee National Day of Brunei Darussalam anniversary on 23 February, celebrating 25 years of Brunei as an independent and sovereign nation. Activity will be on 80-10m CW, SSB, RTTY (No WARC bands). Further information on this event and special award can be found at: www.bdara.net/calendar_special.html QSL via the information at QRZ.com under the callsign V88NBD25. [V85SS]

26/02/2009: Look for special event stations to be active with the "1658" within their callsigns on February 26th. Activity is to celebrate the "Treaty of Roskilde" when the three most southern provinces of Sweden [Skane (Scania), Blekinge and Halland] became under Swedish rule after more than 800 years of Danish rule. Working these stations is good for the "Roskilde 1658 Award". To qualify for the award you must work two Swedish award callsigns with 1658 in the call, or OZ1658ROS and one Swedish award callsign. During the rest of the year four Swedish award callsigns or three Swedish award callsigns and OZ1658ROS are needed. The award is also available for SWLs. All callsigns, maybe with the exception of SH1658DK, will be active sometime during the day on February 26th. Most activity will take place after work hours, that is

around 1600z or later, on 80m and 40m. Some stations will be active on 20m and other DX bands around 0800-1500z, if conditions permit. Also, SB1658OZ will be active on PSK31 near 14070 kHz on February 26th, if conditions permit. This station is situated in the province of Blekinge, and is also valid for the very rare "Lan K" for the national WASA/HASA awards issued by their IARU organization, SSA. Only a handful of hams are active on the HF bands from the county of Blekinge. "Roskilde 1658 Award" was presented in the February 2009 issue of CQ Amateur Radio. Check out their activities calendar on the Roskilde award's Web site for complete information at:/www.sk7bq.com/roskilde The calendar will list all callsigns that will be active with their approximate dates/times and frequencies. The calendar is updated continuously when new activities are announced. An online log is available as well. It is updated at least every month if there has been activity with the callsigns. It will also tell you if you have qualified for the award.

28/02/2009: Norfolk County RAYNET will be operational on Saturday 28 February and Sunday 1 March from the Norfolk County RAYNET caravan at the Beach Car Park, Sea Palling, Norfolk using the callsign GB3NCR. The event is to publicise and demonstrate RAYNET capabilities to the local community and flood wardens on the North Norfolk Coast. It will also involve a RAYNET Training Exercise for Norfolk County RAYNET Members. The station will be operational from 10am to 4pm on both days on 2m and 70cm FM and 80m SSB. A special event QSL card will be available and QSL cards should be sent via the RSGB bureau or direct with SAE to G4PSH, QTHR. [GB2RS]

01/03/2009: Special event station 8N1MOMO will be aired from March 1st to April 5th to celebrate the 33rd Koga(-city) Momo (or Peach) Festival and the 16th Koga(-city) Fire Balloon Contest. QSL via the JARL bureau. [JJ1WTL/AC6IM]

01/03/2009: The special event station of the Eddystone User Group will air the calls GX3EUG / GX7EUG on 80m/40m on March 1st from the site of the former WW2 RAF base at Sutton Bridge, Lincolnshire. RAF base Sutton Bridge. The site is due to be developed shortly into a vast industrial estate. QSL via G7AIR. Further information at: www.eddystoneusergroup.org.uk/ [Southgate ARC]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

SILENT KEYS

John S. Kanzius, K3TUP of Erie, Pennsylvania, passed away February 18, 2009, in Florida from pneumonia. He was 64. Kanzius was best known for his research into finding a cure for cancer using radio waves, specifically 13.56 MHz. More information at: www.arrl.org/news/stories/2009/02/19/10657/?nc=1

Harry K. Nishiyama, KH6FKG of Hilo, Hawaii, has been reported Silent Key.

Karl-Heinz, DJ9CZ has become Silent Key. Another great radio pioneer QRV since the early 70s is lost...

Desecheo Update:

Also see the note here about QSLing - http://69.89.25.185/~trexsoft/t-rexsoftware.com/desecheo/qsls.htm

http://69.89.25.185/~trexsoft/t-rexsoftware.com/desecheo/news.htm

February 26, 2009

And so... it's over.. The K5D 2009 Desecheo Island DXpedition is in the history books.

Every one of our goals was exceeded; most significantly, the number of QSOs. Total Qs: 115,728!

Because our Special Use Permit (SUP) expires today, and because of the size/complexity of the infrastructure to dismantle, we decided to use helicopters to clear the island. Flights began at 1100Z and will continue until all gear and personnel are safely back in Puerto Rico.

Return here to our website for final photos and operations statistics later today or tonight.

Thanks to all who worked and helped us; we think we've driven KP5 Desecheo to near the bottom of the "most wanted" list! [DX-NEWS]

WESTERN SAHARA, April 12 to 17, 2009

For the next expedition to Western Sahara, the S04R team has put a survey on their website to organize the traffic. Don’t forget to let the team know what bands and modes you need.

www.dxfriends.com/s04r/

Using the same webpage, you can help the team. [F5NQL]

February 25, 2009

Radio Amateurs of Canada has a new President

At the February 24th, 2009 Radio Amateurs of Canada Board teleconference meeting, President Dave Goodwin, VE3AAQ/VO1AU, announced that he was resigning his position effective immediately. Dave indicated that his decision was motivated by his inability to devote enough time to RAC affairs because of a recent increase in personal and professional responsibilities.

Dave became RAC President on Jan 1st, 2008 at the end of President Earle Smith’s tenure. All attending the teleconference thanked Dave for the time he could devote to RAC’s affairs both as a Director and then as President.

At the same teleconference meeting, the RAC Board elected Bob Cooke, VE3BDB, to be the RAC President until the end of the current term on Dec 31, 2009.

Bob has a long history of working with RAC. His involvement started in the early 1990s as an Assistant Director and he was elected and served as RAC Ontario South Director from November 2001 to January 2005. He was then elected by the RAC Board as Vice president for Field Services, serving from January 2006 to February 2009 when he resigned to accept the appointment as President.

Daniel A. Lamoureux, VE2KA,
Vice President for International Affairs
Radio Amateurs of Canada

UT1KY ANTARTICA BOOK

Dr. Pavlo Tarasovych UT1KY, has just pubblished a book about the
Antarctic Continent.
The Book which can be orderered directly to Pavlo UT1KY is also
available in English. It is offered to Hams and to WAP Antarctic Chaser
at the special price of 5 Euro or 6 USD.
Do not loose the opportunity to get this 68 pages (format A5) with
lots of pictures and information on Pavlo's stay in the Icy Continent.
It is suggested to put the money in a registred mail envelope together
with a label of the adress where you wish to get the book, or check with
Pavlo (em1ky@... or avrora@...) other different ways of
ordering.
Adress is:
Dr. Pavlo Tarasovych
P.O.Box 85
RIVNE, 33027, UKRAINE [I1HYW]

Bonjour à tous:
DESECHEON, suite et fin
26 février 2009.
L’expédition K5D est maintenant terminée et est rentrée dans l’histoire.
Tous nos objectifs ont été dépassés, le plus important est le nombre de QSO soit : 115,728!

Notre permis spécial de séjour expirant aujourd’hui, le démantèlement des structures et stations ainsi que la rotation des hélicoptères pour Porto Rico a commencé à 11h00, ceci afin de nous permettre de laisser la place nette et propre.
Allez sur notre page web pour retrouver photos , statistiques et commentaires à partir de demain .
Merci à tous ceux qui nous ont appelés et aidés.
Nous pensons avoir mis K5D au bas de la liste des Most Wanted.
Merci Bernie McClenny, W3UR

RAF NORMANBY TRANSMITTERS NEAR SCAMPTON, DETAILS REQUIRED.
Dave G3OXG RAFARS 427 is the assistant curator of the RAF Signals Museum at RAF Henlow <www.rafsignalsmuseum.org.uk>. He is researching the history of RAF Normanby Transmitting Site near Scampton and would be pleased if anyone who served at the unit, or who knows anything relevant, however small, gets in touch with him. His details are contained in the QRZ Call book.

Hi You Castles Friends!

Tomorrow on the morning I will go again as requested, and end with the new Italian Castles Award reference

DCI-PE034 MURA E PORTE DI CITTA' SANTANGELO

that I have operated last Saturday. I will be on the air on phone beginning at about 08:00 UTC on 40m, 7080 kHz +/- QRM ; if it will not be possible there I'll go to 7150 kHz +/- . It will be possible if the skip is too long for near stations to operate on 80m band, 3650 to 3670 kHz, as requested by some of you. Other bands are possible, too
Operation may end about 11:00 UTC. Working conditions are IC7000 + AH4 and a 10m whip or inverted vee.
Every help with spots will be gratefully accepted; the QSLs will be sent both by eQSL and by bureau; direct QSL are possible upon receipt of SASE or SAE and IRC.
Exchange of every Castles Awards References, and QRP calls are very welcome !!

Hope to meet you from there, have fun!!

8247. France Sp event, Argentina ANTARCTICA award rules , ISWL, A6

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-03-02 09:18:32 UTC
From: F5nql@aol.com
Topic: 8247 Message: 8247

Hi friends
France :
On April 1949, 4th were signed the agreements creating the NATO treaty.
To celebrate this event, the Franch and German cities of Strasbourg, Kehl
and Baden-Baden will receive States and Governments Presidents and Prime
Ministers.
For this anniversary, the CBK ARC (_www.cbk67.org_ (http://www.cbk67.org/)
), F8KHH, will air the special callsign TM0TAN between March 27th to April
10th. This activity includes the CQ Wold Wide WPX , SSB on March 28&29.
A specioal QSL card will be issued. The manager is the F8KHH ARC – Direct +
SAE= postage or via the French REF-Union bureau.
Laurent F5AEG (Resp F8KHH)
Tks Laurent, F5AEG and Jean-Louis, F5MDW for forwarding the info.
Remaining :
For the 100th anniversary of the foundation of the City of Lanester, the
F6KPQ ARC is on the air until March 6th, 2009, using the special callsign
TM1OOL.
This callsign will be used again in next July 2009 (dates tba)
QSL via F6KPQ, direct or bureau. Plese no e-QSL.
More iformation : http://www.qrz.com/database?callsign=TM1OOL

W.A.A.B. AWARD
Worked Argentine Antarctic Bases
Rule
1.- The Radio Club Rio de la Plata, issues, starting from April 1st. 2008,
to Radio Amateurs and SWLs the
W.A.A.B. (Worked Argentine Antarctic Bases).
2.- To get the Award, the applicants must show to have worked and confirmed
by QSL cards, at least of
3 different Argentine Antarctic Bases.
3.- Of Ham stations and Antarctic Bases operating from the Antarctic
Continent must credit point
number 2 to get the Award.
4.- Contacts could be made complied to the rules of Radio Amateur’s Service
by any of their transmission
mode and frequencies bands, therefore on bands from 2 to 160 meters and on
SSB, CW, RTTY &
Digital modes.
5.- Contacts made from November 09, 2001 onwards, are available.
6.- The list of the Argentine Antarctic Bases actives is:
LU1ZA S.Orkney – LU1ZR Petrel – LU1ZB Melchior – LU1ZC Deception –
LU1ZS Camara –

LU1ZG Belgrano II – LU1ZD San Martin – LU2ZD Primavera – LU1ZV Esperanza – LU1ZI Jubany
LU4ZS Marambio – LU1ZAB Matienzo.
7.- Any new Argentine Antarctic Base on the air, will be add to the list and available to get the Award.
8.- W.A.A.B. Award is available from OM and SWL following by e-mail request to the Award Manager
Horacio Ledo, LU4DXU – _lu4dxu@..._ (mailto:lu4dxu@...) or
P.O.Box # 22.- Martinez (1640) Buenos Aires
ARGENTINA .
It is necessary to send:
a) Application Form dated and signed, where the applicant certify that the rules and regulations of
this Country has been followed, and a detailed list of the contacts made and confirmed in alphabetical number's order as: Callsign, Date of QSO and GMT time.
b) A Copy of QSL cards of the contacts submitted.
Note: It could be possible that occasionally some QSL cards will be required for check or in case
of dispute.
c) The Award fee is: A3 u$s 17,00.- (Euro 13.00.-) or A4 u$s 13.00.- (Euro 9.00.-) include shipping via certificate post mail inside a tube for safety protection. Payment can be send via Western Union to: Horacio Enrique Ledo – DNI 11.451.210 or by certificate envelope to the box # in point # 8.
9.- The Technical Award Manager is Horacio Ledo LU4DXU, he will also take care of eventual questions
and contacts with the chasers. _lu4dxu@..._
(mailto:lu4dxu@hotmail.com)
10.- W.A.A.B. Award consists in a full colour personalized parchment paper A3 size 297x420 millimeters
and in A4 size 210 x 297 millimeters.
11.- The list of Awards issued will be published regularly on the web site _www.lu5da.org.ar_ (http://www.lu5da.org.ar/)
12.- The W.A.A.B. is conceived and controlled by rules in order to get a modern and simple certificate, by
the lowest possible bonds and bureaucracy.
Tks François, F8DVD

United Kingdom:
The ISWL Club Callsigns in use during March 2009 will be:

GX4BJC /A + GX4BJC /P - Operated /A from Walton on the Naze, in Essex, by Herbie - G6XOU. (ISWL Council Member & QSL Bureau Manager)
(WAB Square = TM22-ESX & IOTA = EU-005).

MX1SWL /A - Operated from Tavistock, in Devonshire,
by Bill - G4OJB.
(WAB Square = SX47-DVN & IOTA = EU-005).

The ISWL's WAB Book numbers are: 16316 and 16724.

All QSL Info is on www.iswl.org.All QSL Info is o
or via www.eQSL.cc NO LOTW.

ISWL Awards are available to all Hams and SWL's - see www.iswl.org.ISW
for full details. eQSL.cc cards ARE accepted for our awards.

Vy 73 to you all - I hope you have a great month in March.

Pete Rayer

DUBAI
On February 13th, I, Philippe, F5LTB, ex 9Q1TB, visited the Sarjah ARC ,
A62ER.
Fortunately I could made 4 show QSO to some further Hams under schooling.
The Sarjah ARC equipment consists of a IC746 transceiver , 100w into a
rotary dipole for higher bands.
Between 1610 and 1655 gmt I could QSO Robin VE2NRJ , who was my first
station ever contacted from the Emirates, then Bernard F9IE, Bernard F6BCC and
Jacques F2YV.
For the foreigners ; it’s now existing a hope, in the Emirates.
After three years of hard negociations, Michel A61TX (OD5TX), said it will
be certainly a good possibility, to get a licence.
I was allowed after this demonstation to fill and sign a form, which have
been sent to Ministry in charge of Hamradio, on Feb 15th. I’ve officially
applyied for a regular A6 licence.
I and friends in and outside A6 are all crossing our fingers . I think and
Michel too, that it exists a big chance to get for me an A61 licence now.
So long!
73's
Philippe

NOUVEAU DIPLOME ARGENTIN
W.A.A.B. AWARD
Worked Argentine Antarctic Bases
1.- Le Radio Club Rio de la Plata, propose depuis le 1er avril 2008 issues, aux amateurs et écouteurs le diplôme W.A.A.B. (Worked Argentine Antarctic Bases).

2.- Pour y prétendre il faut apporter la preuve d'au moins trois contacts ou écoutes avec des Bases Argentines en Antarctique.
3.- Les radioamateurs et stations argentines en Antarctique correspondent au point 2.
.
4.- Les contacts auront respecté les règles en usage chez les radioamateurs et auront été réalisés sur les bandes et dans les modes autorisés de 2 tà 160 m, en SSB, CW, RTTY et autres modes numériques.
5.- Les contacts auront été réalisés après le 9 novembre 2001.
6.- Tles stations valides sont les suivantes : LU1ZA S.Orkney – LU1ZR Petrel – LU1ZB Melchior – LU1ZC Deception – LU1ZS Camara – LU1ZG Belgrano II – LU1ZD San Martin – LU2ZD Primavera – LU1ZV Esperanza – LU1ZI Jubany -- LU4ZS Marambio – LU1ZAB Matienzo.
7.- Toiute nouvelle base installée ultérieurement en Antarctique sera ajoutée et les contacts seront alors validés.
8.- Le W.A.A.B. Award est destiné aux OM et SWL selon demande à faire

parvenir par courrier ou e-mail au manager : Horacio Ledo, LU4DXU –
lu4dxu@... (mailto:lu4dxu@...) or P.O.Box # 22.- Martinez (1640)
Buenos Aires , ARGENTINE
Il faut fournir une liste GCR, datée et signée, attestant du respect des
règles du diplôme et du radioamateurisme, dans son propre pays complétée par
Nom, Prénom, Indicatif, Dates des QSO et Heure , bande et mode.
La copie des cartes QSL est obligatoire. (Le manager se réserve en cas de
doute la possibilité de demander la production d'un ou plusieurs originaux
Le diplôme existe en deux formats : A3, coût 17$ ou 123 Euros ou A4 cout
13$ ou 9 Euros. Le côut inclut le retour par post sous tube de protection.
Le montant des diplomes peut être adressé au manager par Western Union à
Horacio Enrique Ledo – DNI 11.451.210 ou par lettrre recommandée adressée à la
boute postale indiquée au point 8, premier alinéa.
9.- Le manager peut répondre à toute question (en Espagnol ou Anglaisà par
mail adressé à : _lu4dxu@hotmail.com_ (mailto:lu4dxu@...)
10.- Le .A.B. Award est à la base un A3 en couleurs personnalisé à son
titulaire 297x420 millimeters ou en A4 210 x 297 millimeters.
11.- La liste des diplômes attribués sera publié&e régulièrement sur
:_www.lu5da.org.ar_ (http://www.lu5da.org.ar/)
12.- The W.A.A.B. a été conçu et ses règles établies pour limiter les
formalités administratives, autant que faire se peut.
Merci François, F8DVD .

Royaume Uni:
Indicatifs utilisés par l'ISWL Club en Mars2009:

GX4BJC /A + GX4BJC /P – en /A depuis Walton on the Naze, Essex,
par Herbie - G6XOU. (WAB Square = TM22-ESX & IOTA = EU-005).

MX1SWL /A – Depuis Tavistock, Devonshire,
par Bill - G4OJB. (WAB Square = SX47-DVN & IOTA = EU-005).

Pour l'ISWL les références du livre WAB sont : 16316 et 16724.

QSL Info is on www.iswl.org.uk ou www.qrz.com
ou via _www.eQSL.cc_ (http://www.eqsl.cc/) ; pas de LOTW.

Vy 73 to you all - I hope you have a great month in March.

Pete Rayer
Merci Pete's DX Desk

Merci Philippe, F5LTB
DUBAI
Cher Maurice,
J'etais hier au Radio club de Sharjah, A62ER ou j'ai fait mes 4
premiers qso's en demonstration sur 20m, devant de futurs radioamateurs
en passage de licence, TRX IC746 100w, sur dipole rotatif.
A 16:10 GMT, Robin VE2NRJ a ete ma toute 1ere station contactee depuis
les emirats, suivi de Bernard F9IE, Bernard F6BCC et Jacques de F2YV.
Ensuite la propagation a totalement disparu a 16:55 !!! Dubai = GMT +4

Pour les etrangers, une lueur d'espoir pour obtenir une licence apres plus de trois ans de tergiversations selon Michel A61TX (OD5TX) qui m'accompagne au club car je n'ai pas encore de vehicule.
J'ai ete autorise a remplir les documents qui vont bien et qui seront remis au ministere apres-demain dimanche (les jours de travail sont de Dimanche a Jeudi, calendrier musulman).
Donc croisons les doigts que je puisse activer le club avec un indicatif A61 dans un futur proche avant d'installer ma propre station.
73's
Philippe

Colombian Government Says RA3CO Not Licensed For Contest Operations; HK Hams Again Ask CQ WW For '07 & '08 DQ

By <mailto:ns3t(at)arrl(dot)net> Jamie Dupree NS3T radio-sport.net
Posted March 2, 2009

The Colombian government has <http://www.scribd.com/doc/12844046/Repuesta-de-Derecho-de-Peticion> formally stated that no license was ever issued to Russian contester Dimitri Kryukov RA3CO, raising fresh questions about the legality of his CQ WW contest operations in that country in 2007 and 2008, and prompting renewed calls for his disqualification.

"We think you have the sufficient evidence to take the appropriate actions," wrote Juan Camilo Rodriguez HK3CQ to CQ WW Contest Committee Director K3EST, on behalf of a group of Colombian contesters and DX'ers .

"Rest assured that we will continue to safeguard our country's regulations from illegal and fraudulent operations," he wrote.

In 2007, RA3CO used the station of Tony Rogozinski HK1AR/W4OI in Colombia, signing as HK1AR, and finishing second in the world in Single Op Low Power category of CQ WW CW.

According to Colombian amateur radio rules, that operation was illegal, as Colombia calls cannot be "lent" to another ham for use.

"No permitir el uso de sus indicativos de llamada cualquier otra persona," says the rule.

In 2008, Kryukov was back in Colombia, using the call HK3RA, as he claimed the fourth highest score in the world in Single Op High Power in the CQ WW SSB test.

Kryukov says he was given permission to use that call by Wolfgang Torres HK3RA.

But in a <http://www.radio-sport.net/hk3ra.pdf> notarized letter sent to the Colombian Ministry of Communications on January 16, Torres flatly denied that he gave Kryukov the okay to use his call during the 2008 CQ WW SSB.

The dustup has already created an ongoing international spat between some high profile contesters, who claim it is more of a power play by a group of HK hams to control foreign operators contesting from Colombia.

"I think in this situation asking to DQ RA3CO is crazy," says Al Telmurazov 4L5A, who accused the HK hams of trying to "blackmail" the CQ WW CC, by threatening not to compete in CQ WW contests unless RA3CO's results are tossed out.

In emails to radio-sport.net, Kryukov said he enlisted the help of Julio Barriga HK3JE to get him a license in 2008, and paid him $200 for that assistance.

"I think there was a genuine screw up at the PTT where he had been told that my license is ready and then they found out they double issued it. Unless of course HK3JE just lied to me outright," Kryukov said.

In other words, Kryukov said he tried to get the proper paperwork in order, but he might have been double crossed.

"Bottom line is - I was operating under the assumption that my license had been approved and only found out about the error after the test. I don't particularly care what the Colombians think, I just want my name out of this mess."

Also caught up in this is Girts Budis YL2KL, who operated from the QTH of HK1AR in the 2006 CQ WPX RTTY and ARRL CW DX contests.

The HK hams have also asked that Budis be disqualified from those past contests as well, as the Colombian PTT said it never issued any license to Budis.

The matter is now in the hands of the CQ WW Contest Committee and K3EST.

"The question you raise is a serious one and the CQWW contest committee is interested in more information as it is developed," Cox wrote HK3CQ on November 22.

"The policy of the CQ WW is to strictly enforce legal operations and to make sure a country's regulations are complied with completely," Cox added.

See Some of the Official Case Documents

The Colombian hams who have called for the disqualification of RA3CO have posted a number of documents online. Some are their own, others are from the Colombian government ministry that deals with HK amateur radio licensing.

http://www.radio-sport.net/hk.gifYou can find the documents about this at: <http://www.scribd.com/mincomco14544398>
http://www.scribd.com/mincomco14544398.

Next Move On 2008 CQ WW SSB RA3CO Operation Up To CQ WW Committee

Now that the Colombian government has stated that RA3CO did not have the proper license or authorization to operate in contests from that nation, the question of whether that impacts the 2008 CQ WW SSB Contest will be up to the CQ WW Contest Committee.

Rule XII of the 2008 CQ WW Contest rules clearly states that "Violation of amateur radio regulations in the country of the contestant...will be deemed sufficient cause for disqualification."

Late last year, CQ WW CC Chair Bob Cox K3EST said he would need to see concrete action by the Colombian government before taking any action to disqualify RA3CO.

"In order for us to act, the CQ WW committee needs an official PTT/regulatory body letter declaring the operation(s) as illegal," said CQ WW Director Bob Cox K3EST in an email to HK3CQ.

A review of the documents from the Colombian PTT shows that may now exist.

"Por lo que no es legal que el senor DIMITRI KRYUKOV - RA3CO, quien no posee ni permison ni licencia de radioaficionado por parte de este Ministerio, opere desde Colombia con indicativos otorgados a otras personas," states the response of the Ministry of Communications.

A rough English translation would be, "it is not legal that DIMITRI KRYUKOV - RA3CO, who does not possess neither permission nor a ham radio license on the part of this Department, operate from Colombia."

Kryukov's operation as HK3RA in the 2008 CQ WW SSB test netted him a claimed score of 7.1 million, a strong placing in the Single Operator High Power category.

In 2007, RA3CO claimed 7.4 million points in his CQ WW CW effort from HK1AR. He finished second in the world in the SOAB Low Power category.

"Mr. Kryukov did not file for a Colombian ham license when he was in Colombia or beforehand; therefore his operation in Colombia was illegal," Rodriguez told the CQ WW Contest Director.

8249. Re: [GOLIST] Colombian Government Says RA3CO Not Licensed For Contest Operati...

Russian contester Dimitri Kryukov RA3CO, raising fresh questions about the legality of his CQ WW contest operations in that country in 2007 and 2008, and prompting renewed calls for his disqualification.
"We think you have the sufficient evidence to take the appropriate actions," wrote Juan Camilo Rodriguez HK3CQ to CQ WW Contest Committee Director K3EST, on behalf of a group of Colombian contesters and DX'ers .
"Rest assured that we will continue to safeguard our country’s regulations from illegal and fraudulent operations," he wrote.
In 2007, RA3CO used the station of Tony Rogozinski HK1AR/W4OI in Colombia, signing as HK1AR, and finishing second in the world in Single Op Low Power category of CQ WW CW.
According to Colombian amateur radio rules, that operation was illegal, as Colombia calls cannot be "lent" to another ham for use.
"No permitir el uso de sus indicativos de llamada cualquier otra persona," says the rule.
In 2008, Kryukov was back in Colombia, using the call HK3RA, as he claimed the fourth highest score in the world in Single Op High Power in the CQ WW SSB test.
Kryukov says he was given permission to use that call by Wolfgang Torres HK3RA.

But in a _notarized letter _ (http://www.radio-sport.net/hk3ra.pdf) sent to the Colombian Ministry of Communications on January 16, Torres flatly denied that he gave Kryukov the okay to use his call during the 2008 CQ WW SSB.
The dustup has already created an ongoing international spat between some high profile contesters, who claim it is more of a power play by a group of HK hams to control foreign operators contesting from Colombia.
"I think in this situation asking to DQ RA3CO is crazy," says Al Telmurazov 4L5A, who accused the HK hams of trying to "blackmail" the CQ WW CC, by threatening not to compete in CQ WW contests unless RA3CO's results are tossed out.
In emails to radio-sport.In emails to radio-sport.<WBR>net, Kryukov said he enlisted the help of Julio Barriga HK3JE to get him a license in 2008, and paid
"I think there was a genuine screw up at the PTT where he had been told that my license is ready and then they found out they double issued it. Unless of course HK3JE just lied to me outright," Kryukov said.
In other words, Kryukov said he tried to get the proper paperwork in order, but he might have been double crossed.
"Bottom line is - I was operating under the assumption that my license had been approved and only found out about the error after the test. I don't particularly care what the Colombians think, I just want my name out of this mess."
Also caught up in this is Girts Budis YL2KL, who operated from the QTH of HK1AR in the 2006 CQ WPX RTTY and ARRL CW DX contests.
The HK hams have also asked that Budis be disqualified from those past contests as well, as the Colombian PTT said it never issued any license to Budis.
The matter is now in the hands of the CQ WW Contest Committee and K3EST.
"The question you raise is a serious one and the CQWW contest committee is interested in more information as it is developed," Cox wrote HK3CQ on November 22.
"The policy of the CQ WW is to strictly enforce legal operations and to make sure a country's regulations are complied with completely," Cox added.

See Some of the Official Case Documents
The Colombian hams who have called for the disqualification of RA3CO have posted a number of documents online. Some are their own, others are from the Colombian government ministry that deals with HK amateur radio licensing.
You can find the documents about this at:
http://www.scribd.http://www.scribhttp (http://www.scribd.com/mincomco14544398) .

Next Move On 2008 CQ WW SSB RA3CO Operation Up To CQ WW Committee
Now that the Colombian government has stated that RA3CO did not have the proper license or authorization to operate in contests from that nation, the question of whether that impacts the 2008 CQ WW SSB Contest will be up to the CQ WW Contest Committee.
Rule XII of the 2008 CQ WW Contest rules clearly states that "Violation of amateur radio regulations in the country of the contestant..Rule XII of the 2008 CQ WW Contest rules clearly states
Late last year, CQ WW CC Chair Bob Cox K3EST said he would need to see concrete action by the Colombian government before taking any action to disqualify RA3CO.

"In order for us to act, the CQ WW committee needs an official PTT/regulatory body letter declaring the operation(s) as illegal," said CQ WW Director Bob Cox K3EST in an email to HK3CQ.

A review of the documents from the Colombian PTT shows that may now exist.

"Por lo que no es legal que el senor DIMITRI KRYUKOV - RA3CO, quien no posee ni permison ni licencia de radioaficionado por parte de este Ministerio, opere desde Colombia con indicativos otorgados a otras personas," states the response of the Ministry of Communications.

A rough English translation would be, "it is not legal that DIMITRI KRYUKOV - RA3CO, who does not possess neither permission nor a ham radio license on the part of this Department, operate from Colombia."

Kryukov's operation as HK3RA in the 2008 CQ WW SSB test netted him a claimed score of 7.1 million, a strong placing in the Single Operator High Power category.

In 2007, RA3CO claimed 7.4 million points in his CQ WW CW effort from HK1AR. He finished second in the world in the SOAB Low Power category.

"Mr. Kryukov did not file for a Colombian ham license when he was in Colombia or beforehand; therefore his operation in Colombia was illegal," Rodriguez told the CQ WW Contest Director.

HK is not a rare DX entity. I don't know how they would deal with this - ask DXCC applicants to be honest and resubmit another HK card?

Buzz, NI5DX, has assumed the duties of QSL manager for Tom Smith, ZC4TS.?
Logs have been transferred and cards are in the process of being ordered.?
Buzz will be able to answer any requests for a ZC4TS card once the new
cards arrive in about 5 weeks.

Buzz is also now the QSL manager for FM1II, Chris, in Martinique.?
Buzz has the logs and will have cards in the not too distant future.

Hi friends
DESECHEO:

FOR IMMEDIATE RELEASE

K5D Desecheo Postlogue Press Release 3/3/09

All team members have safely returned home. The K5D DXpedition, 12-26th, February 2009, netted 115,783 QSO's, including one QSO with the International Space Station. The DXpedition ranks #7th for all-time number of QSO's, and the #1 DXpedition with the most 30M contacts. More importantly, we are confident that thousands of radio amateurs worldwide now have a QSO with Desecheo for an all-time new one--our overall #1 goal !

Desecheo was #2 Most Wanted in Asia and #3 Most Wanted in Europe. We are happy to report that 40% of our contacts were with Asia and Europe!!! Another important goal achieved !

The QSL card is in the final stages of design and will be available in the next few weeks. You may QSL directly to N2OO, but online QSL requests are available and highly recommended. For details see our website: http://www.kp5.us/qsls.htm
Logs will be uploaded to LoTW and posted early next year.

The Desecheo 2009 team wants to thank everyone for working us and helping to make this DXpedition such a success!

73 and good DX!

Bonjour à tous
DESECHEO:
Pour diffusion immédiate

K5D Desecheo , 3/3/09

Tous les membres d e l’équipe sont rentrés chez eux sans problèmes.
L’expédition K5D, Desecheo, 12-26 février 2009, aura enregistré 115,783 QSO
dont un avec la station internationale ISS.
L’expédition s’inscrit au 7ème rang pour le nombre de QSO et au premier
pour le nb de QSO sur 30m.
Nous savons aussi que nombre de QSO ont constitué des New One, pour le plus
grand nombre.
Notre but principal est donc atteint.

Desecheo était la seconde Most Wanted en Asie et la 3ème en Europe. Pour ces deux continents, nous avons réalisé 40% de nos contacts.
Un autre but important a été atteint.
Le design de la QSL est en cours de finalisation; nous espérons en disposer sous quelques semaines.
Vous pouvez écrire directement à N2OO ou utiliser le formulaire de demande de QSL via bureau.
Détails : http://www.kp5.us/qsls.htm
Les logs seront chargés sur le LotW, début d'année prochaine.
L'équipe Desecheo 2009 tient particulièrement à remercier tous ceux qui nous ont appelé, contribuant ainsi au succès de l'expédition.*
73 and good DX!

8262. NEWS from BILL MOORE ARRL

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-03-04 22:13:24 UTC
From: K1XN
Topic: 8262 Message: 8262

n 2000, DXCC program rules were modified substantially in an effort to create simplified and stronger rules that would help make DXCC work well in the 21st century while tightening the DXCC List Criteria. At the same time the DXCC Challenge Award/competition was created as part of the modernization effort. The Challenge is intended to allow for an energetic new pursuit in DXing that focuses on statistics based upon only current entities on the List. The Challenge has been highly successful.
Another change resulting from this rules modernization was a subtle change from "deleting entities" to "removing entities." The intent of this change was to no longer allow the addition of deleted entities to the Deleted Entity List. In the subsequent years since DXCC 2000 there have been few issues with this concept and resultant little attention given to the realities of the ideological change. Recently, however, since the rollout of Logbook of the World (LoTW) and various political changes internationally, it has become evident that the program should return the concept of deleting entities for mostly administrative reasons. "Removing" an entity from the DXCC system is non-trivial if not impossible. Also, the success of the DXCC Challenge and the DXCC Honor Roll have made a great game better by providing a playing field that isn't heavily biased by age.

It seems that the concept of a "deleted" entity -- one that is marked as deleted and not applicable to Honor Roll or Challenge but that still exists in the records -- is an elegant solution to the problem of changes in entity status. Distinguishing entities that are no longer extant makes sense as a means of leveling the playing field for younger participants in DXCC, but to wipe out someone's past accomplishments altogether just seems too drastic.

At its last meeting the ARRL Programs and Services Committee decided that administratively the concept of deleted entities should be returned to the DXCC program. Necessary changes to Section II, DXCC List Criteria have been made to the rules and part 5 is renamed Deletion Criteria. The concepts for deleting an entity do not change. If an entity is deleted it will be added to the Deleted Entities List and the statistical records for DXCC participants will be adjusted accordingly, just as they had been in the years prior to 2000. The numbers shown in the individual DXCC records lists have always included the Deleted Entities. No DXCC participant needs to take any action at all.

From: Dave Raycroft
Topic: 8265 Message: 8265

I.C.P.O. Bulletin (March 05 - 13, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

05/03/2009: Rosel/DL3KWR and Hardy/DL3KWF will be active again as CT3/DL3KWR and CT3/DL3KWF from the Hotel Royal Orchid, Madeira Island (AF-014, DIP MA-001, WLOTA 0053), March 5-19th. They plan to operate mostly CW and on 12, 17 and 30 meters. Hardy will also give RTTY and PSK-31 a try. QSL via home calls. E-mail requests for bureau cards can be sent to dl3kwr@... or dl3kwf@... respectively. Their web site is at: www.mydarc.de/dl3kwr/ [425 DX News]

05/03/2009: Martti, OH2BH/CU2KG and Juha, OH8NC/CU2KH are in Ponta Delgada, Ilha de Saõ Miguel (EU-003, DIP AZ-002, WLOTA 2016) the Azores and will activate both CU2A and CU2X in the ARRL DX Contest (SSB) in two single-band categories; CU2A on 20M and CU2X on 80M. They may occasionally come on other bands to hand out multipliers. They arrived in the Azores early this week and have been active using their personal callsigns. QSL both via OH2BH. [OH2BN]

05/03/2009: Jon, LA3JJ will once again be back to Isla de Fuerteventura (AF-004, DIE S-006, WLOTA 0883) as EA8/homecall from March 5-26th. QRV 30, 17 and possibly 12 meter CW. QSL via home call, direct or Bureau. [LA3JJ]

05/03/2009: Jeff, N1SNB will be active from Grenada, Nicaragua, March 5-9, for ARRL DX SSB from the QTH of Octavio, YN2N. He hopes to sign YN2NB during the contest and H7/N1SNB outside of the contest. He will enter ARRL DX SSB as a Single Op - All Bands - tbd on HP or LP. QSL via home call. [NG3K]

05/03/2009: John, G3LZQ will be active holiday style as J79WR from Dominica (NA-101) between March 5-25th. He plans to concentrate on 160 and 80 metres, and to participate in the Commonwealth (BERU) Contest (March 14-15th). QSL via G3LZQ. [425 DX News]

05/03/2009: We got word from Mike, KM9D and Jan, KF4TUG that they began operations today from Turuaimu Island, Kapingamarangi atoll (OC-167), Pohnpei State, Federated States of Micronesia. Activity is expected on 7 through 28 MHz. Mike will be on CW as V63MY and Jan could be on SSB as V63TO. Length of stay was not mentioned. It should be noted they usually stay at most locations for about a week. QSL via OM2SA, including LOTW. [The Daily DX]

05/03/2009: John, G3VPW will be QRV as VP8KF from the Falkland Islands (SA-002) from March 5-31st. He will be staying with the McLeods

(VP8LP/VP8AIB); the first two weeks he will be working at the Stanley Ionospheric Observatory, the further ten days are for "some DXing". He plans to operate CW and SSB on 10, 20, 15, 40 and 80 metres, with a focus on the contests (ARRL DX SSB, RSGB Commonwealth, CQ WW WPX SSB). QSL via home call. [425 DX News]

06/03/2009: Ed/4F1OZ, Roland/DU1KGJ, Jairus/DV1ERS and Frank/VE7DP plan to be active from Cuyo Island (OC-120, WLOTA 3028) from 0400 UTC March 6th to 0200 UTC March 9th. They will operate CW and SSB on 40, 30, 20 and 17 meters. Callsign and QSL route TBA. [425 DX News]

06/03/2009: Kanzi, JA4ENL will be visiting Brunei (OC-088, WLOTA 0152) March 6-9th. Look for him to be QRV as V85NL on all bands, including WARC, especially on 20,40, 80 and top bands mostly on CW. QSL via home call, direct or bureau. [V85SS]

06/03/2009: A team of nine ZL operators will be activating Chatham Island (OC-038) from March 6-10th using the callsign ZL7T. The team leaders are Lee/ZL2AL and Morrie/ZL2AAA. The rest of the team will be Lee/ZL2LE, John/ZL1BYZ, Mike/ZL2CC, Phil/ZL2RVW, Mark/ZL3AB, Wayne/ZL2WG and John/ZL1ALZ. The Pilot will be Duncan ZL3JT in Christchurch zl3jt@... . The team will be hosted at the Chatham Fishing Lodge in the fishing village of Kaiangaroa on the north eastern tip of the Chatham Islands. The ICOM four station setup with amplifiers will operate 160-10m with CW, SSB, RTTY and PSK modes. Wire loops will be used on 80m and 40m, a vertical on 30m and Yagis on 20, 17, 15, 12 and 10m. They will also try 160m alternating with the 80m station from time to time. Frequencies will be in the usual SSB and CW DX haunts on each band with SSB split up 5 kHz and CW split up 3 kHz. The website is up and running at: www.zl7t.com/ . Logsearch will be available on the team's return. QSL via the bureau or direct to ZL2AL CBA or QRZ.com. Logs will be uploaded to LoTW by September. [ZL2AL]

07/03/2009: Ashraf, 3V4-002 will be active as 3V8SS from the Radio Club Station of Tunisian Scouts, Hammam Sousse, Tunisia, for the ARRL DX SSB Contest (March 7-8th) as a Single-Op/All-Band/Low-Power entry. QSL via IZ8CCW. [NG3K]

07/03/2009: Operators Jose/YV5TX, Jesus/YV5MSG and Alex/YV5SSB as 4M5DX from near Caracas, Venezuela (WW Loc. FK60NM) for the ARRL DX SSB Contest as a Multi-Single/High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

07/03/2009: Jimmy Lou, BX5AA will be active from Changhua, Taiwan (AS-020, WLOTA 0022) during the ARRL DX SSB Contest as a Single-Op/Single-Band (?)/High-Power entry. QSL direct to BX5AA. [NG3K]

07/03/2009: Operators Adam/DJ0IF, Walter/DJ6QT and Falk/DK7YY will be active from Santana, Madeira Island (AF-014, DIP MA-001, WLOTA 0053) as CT9L during the ARRL DX SSB Contest as a Multi-? entry. QSL via DJ6QT, bureau preferred. [NG3K]

07/03/2009: Members of the Torrent Contest Club will activate ED5T during the ARRL-DX-SSB Contest as a Multi-Single entry. QSL via EA5ELT. Operators mentioned are: Juan/EA5GIE, Jose/EA5GS, Duncan/EA5ON, Antonio/EA5DF, David/EC5KXA and Vic/EA5KV. [OPDX Bulletin]

07/03/2009: Steve, GW4BLE will be active from Newport, Monmouthshire, Wales (EU-005, WLOTA 0453) as GW7X during the ARRL-DX-SSB Contest as a Single-Op/Single-Band (40m) entry. QSL via GW3SQX, direct or by the RSGB bureau. [NG3K]

07/03/2009: Tino/HI3CCP, Andy/VE9DX and Edwin/HI3K will be active as HI3K from the Loma Del Toro contest station (HI3CCP), Dominican Republic (NA-096, WLOTA 2974), during the ARRL DX SSB Contest as a Multi-Single entry. QSL via KB2MS (QRZ.com). [NG3K]

07/03/2009: Look for Dan, HR2DMR to be active from Progreso, Yoro, Honduras, as HQ2W during the ARRL DX SSB Contest as a Single-Op/All-Band/High-Power/Assisted entry. Antennas will be monobander yagis for 20, 15 and 10 meters; slopers for 40, 80, 160 meters. QSL direct to HR2DMR (QRZ.com). [NG3K]

07/03/2009: Peter, HA3AUI will be active from Varela (WW Loc. IK12QH), Guinea Bissau, as J5UAP during the ARRL DX SSB Contest as a Single-Op/Single-Band (20m) entry. He will be using 100/500W and a Spiderbeam. QSL via HA3AUI direct or HA Bureau. [NG3K]

07/03/2009: Dave, G3TBK will be active as J88DR from the island of St. Vincent (NA-109, WLOTA 0492) for the ARRL DX SSB Contest as a Single-Op/All-Band/Low-Power entry. QSL via home call, direct or bureau. [NG3K]

07/03/2009: Bill, AC0W will be active from Hawaii as KH6/AC0W for the ARRL DX SSB Contest (March 7-8th) as a Single-Op/Low-Power entry. QSL via home call. Logs will be uploaded to LoTW. [NG3K]

07/03/2009: John, KK9A will be active as P40A from Iguana Villa, Malmok, island of Aruba (SA-036, WLOTA 0033) during the ARRL DX SSB Contest as a Single-Op/All-Band entry. QSL via WD9DZV, direct or bureau. Logs will also be uploaded to LoTW. [NG3K]

07/03/2009: Andy, AE6Y will be active from Sabana Basora, Aruba (SA-036, WLOTA 0033), as P49Y during the ARRL DX SSB Contest as a Single-Op/All-Band entry. QSL via home call. [NG3K]

07/03/2009: Bob/K4UEE, Mary/K1MMH and many others will be active from Signal Point, island of Curacao (SA-006 WLOTA 0942), as PJ2T for the ARRL DX SSB Contest as a Multi-Multi entry. QSL via N9AG or LoTW. [NG3K]

07/03/2009: The UA2 Contest Club will be active as RW2F from Kaliningrad for the ARRL DX SSB Contest as a Multi-Multi entry. QSL via DK4VW. [NG3K]

07/03/2009: Korea DX Club members Kim/6K5YPW, Kang/DS2AGH, Lee/DS2BGV, Kim/HL3QP, Choi/HL5FUA and Yoon/6K2AVL will be active as S21KD from

Dhaka, People's Republic of Bangladesh, March 7-12th. They plan to operate on 160-10 meter CW, SSB and digital modes, with three amplifiers, verticals and beam antennas. Suggested frequencies are: CW - 1822, 3515, 7015, 10115, 14015, 18075, 21015, 24895 and 28015 kHz; SSB - 3795, 7095, 14195, 18130, 21295, 24950 and 28460 kHz; Digital - 14082, 21082 and 28100 kHz. QSL via HL5FUA direct. Logs will be available at: dxpedition.co.kr/ [425 DX News]

07/03/2009: Operators Orelvis/CO6LC, Joaquin/CM6RCR, Yordany/CM6YAC, Carlos/CO6CAC, Luis/CO6LP and posibility others will be active as T46G from Santa Clara, Cuba (IOTA NA-015, WLOTA 0032), for the ARRL DX SSB Contest (March 7-8th) as a Multi-Single entry. QSL via CO6LP, direct only. [NG3K]

07/03/2009: Siggi, TF3CW will be active from Iceland (EU-021, WLOTA 2975) for the ARRL DX SSB Contest as a Single-Op/Single-Band (20m) entry. QSL via LX1NO. [NG3K]

07/03/2009: Carlos/TI2KAC, Juan/TI2JCY, Mau/TI4ZM, Eddie/K4UN, Ellis/N4JO, Bob/W4BW, Keith/W4KTR and Lex/W4XO will be active from Volcan Poas, Costa Rica, as TI8M for the ARRL DX SSB Contest as a Multi-2 entry. QSL via TI2KAC, bureau preferred. [NG3K]

07/03/2009: Al, F5VHJ will be active from the island of Martinique (NA-107, DIFO FM-001, WLOTA 1041) as TO5A in the ARRL DX SSB Contest as a Single-Op/All-Band entry. QSL via F5VHJ, direct or bureau. [NG3K]

07/03/2009: Doug/K1DG, Craig/K1QX and Marty/W1MD will be active from the island of Antigua (NA-100, WLOTA 1118) as V26F during the ARRL DX SSB Contest. No entry category was given. QSL via W1MD. [NG3K]

07/03/2009: First time DXpeditioners John/W3MF and Bob/K3PH plan to activate VP9I for the ARRL DX SSB Contest, from the QTH of Ed, VP9GE in Hamilton, Bermuda (NA-005, WLOTA 0201). They might operate outside the contest as VP9/homecalls. QSL via N1HRA, direct or bureau. [NG3K]

07/03/2009: Pete, VE3IKV will be active as W4/VA3RA from the following islands: March 7-8th from St. Simons (NA-058, USi GA-003S, Glynn county), State of Georgia; March 9-13th from Key West (NA-062, USi FL-040S, Monroe county), State of Florida; and March 11-12th from Garden Key, Dry Tortugas (NA-079, USi FL-013S, Monroe county), State of Florida. He will be QRV 40m CW - 100W and sloper antenna, also 6m SSB and CW. QSL via VE3IKV, direct or Bureau. [rsgbiota.org]

07/03/2009: Operators Suer/YY5EBV, Jose/YV5BM and Jhony/YV5KG will be active from Caracas, Venezuela, as YV5KG during the ARRL DX SSB Contest (March 7-8th) as a Multi-Single/High-Power entry. QSL via YV5KG, direct preferred, bureau OK. [NG3K]

07/03/2009: Jacky/ZL3CW, Aki/ZL1GO, Romeo/ZL2RU and Ken/ZL1AIH will be active from New Zealand (OC-036, WLOTA 0069) as ZM1A during the ARRL DX SSB Contest as a Multi-Single entry. QSL via ZL1AMO. [NG3K]

07/03/2009: Tom, ZP5AZL will be active from Asuncion, Paraguay, as ZP0R during the ARRL DX SSB Contest (March 7-8th) as a Single-Op/All-Band entry. QSL via ZP5AZL, direct only. [NG3K]

08/03/2009: Stephane F5UOW will be FR/F5UOW from Boucan Canot (near St. Gilles les Bains), Reunion Island (AF-016, DIFO FR-001, WLOTA 1812), from March 8-22nd. QRV holydays style, mostly CW on 20 meters. QSL via home call. [F6AJA]

10/03/2009: Bob/W4OWY (V25WY) and Mark/W9OP (V25OP) will be active from the island of Antigua (NA-100, also count for WLOTA 1118) from March 10-19th. QRV 160-6 meters. QSL via home calls, direct or bureau. Logs will be uploaded as before to LOTW and eQSL. [NG3K]

11/03/2009: Nick, G3RWF will be active from Fort Portal, Uganda, as 5X1NH from March 11th for about two months. QRV mainly CW, unless conditions improve. He is taking a 40/80 vertical which should help those bands. Nick is doing voluntary work so mainly early mornings, evenings and weekends on the air. QSL via home call, direct or bureau. [NG3K]

11/03/2009: A group of German operators from Bonn and Potsdam will be active from Sal Island (AF-086, WLOTA 0610) between March 11-25th. Each operator will have their own callsign. Activity will be on 160-10 meters using CW, SSB, RTTY, PSK31, Hell, Amtor and SSTV. They plan to have 7 stations with 100 watts and vertical antennas. Operators mentioned (with their callsign) are: Helmut/DL3KBQ (D44TXQ), Holger/DL1COP (D44TXP), Jurgen/DJ2VO (D44TXO), Gerd/DG3KAF (D44TXF), Henry/DL2RSI (D44TXR), Peter/DH2KI (D44TXI) and Franz/DL3PS/HB9EHQ (D44TXS). QSL via their home callsign, except D44TXS via HB9EHQ. [OPDX Bulletin]

12/03/2009: Colin/G3VCQ (FISTS #14065) and Sharon/M3VCQ (FISTS #14066) will be active from the island of Grenada (NA-024, WLOTA 0718) from March 12-26th. Colin is participating in the BERU CW contest (March 14-15th) and will be part of the "Rest of the World Team". Operations will be from the beach QTH with FT857d, Expert SPE solid state amplifier. Antenna's will range from a 3 el yagi for 14, 18, 21, 24 and 28Mhz. On the lower bands the antennas will be verticals and dipoles for 10, 7 and 3.5Mhz. Modes will be SSB during none contest times and CW during the BERU of course. Colin will only work Commonwealth stations during the contest. Sharon J38/M3VCQ will also be active with Colin from the island (SSB only chaps!). If your local listen out for us on 2m, 6m and 70cm. All QSL's via G3VCQ please, direct or bureau.
[Pete's-DX-Newsdesk]

12/03/2009: Nick, G4FAL will be active as V4/G4FAL from Rawlins Plantation, island of St. Kitts (NA-104) from March 12-17th, including participation in the RSGB Commonwealth Contest (March 14-15th) as V47CD. He plans to operate only CW on 80, 40, 20, 15 and 10 meters. QSL via home call or LOTW. [425 DX News]

13/03/2009: Look for Christophe/F5UBH, Juan/F5IRC and Karim/F4CTJ to be active March 13-15th as TM2HC from Hoedic Island (EU-048, DIFM AT-017).

This activity also counts for the Grands Cardinaux lighthouse (DPLF PB010, ARLHS FRA-017, TWLHD WLH F-026, WLOTA 0851) and also references DFCF 56-033, DDCF 56-30 (Quiberon) and DIM O25. QRV all HF bands using CW, SSB, PSK31 and RTTY. QSL via F5IRC, direct or bureau. [F5IRC]

Be sure to check Bill's (NG3K) website for updated ARRL DX SSB Contest activity at: ng3k.com/Misc/adxs2009.html . Good luck to all participants & have fun!!!
==========
LOOKING AHEAD -

17/03/2009: TC SWAT is proud to inform you about a new TC activity by Turkish radio amateurs. To commemorate the Naval Victory of 18 March 1915, TC18M will be once more on the air. Between March 17 - 19, TA3FB and TA3AX will be working from Canakkale - the Dardanelles to commemorate the Naval Victory. They will be QRV on all HF bands using SSB and CW. This year's QSL manager is TA3FB and information is at www.qrz.com and www.tcswat.org [TA1HZ]

20/03/2009: Philippe, F5MSB/p will active the Castle of Cabrerets (DFCF 46-036) and Mill of Cabrerets (DMF 46-023), commune de Cabrerets (CP 46330), Department Lot/46 and Province Midi-Pyrenees (DPF 15) from March 20-21st. QSL via home call, direct or bureau. [F5MSB]

20/03/2009: John/VE8EV, Wally/VE8DW and Gerry/VE8GER will be active from Ellice Island (NA-192), March 20-23rd, using the callsign VX8X. QRV 40, 20, and 15 meter SSB/CW; 24 hours per day non-stop operation. Expect to see them on CW, but most of the focus will be on 20 meter SSB on 14.260 MHz. QSL via the information at QRZ.com under VX8X. [rsgbiota.org]

21/03/2009: Paul, 2E1EUB, will once again be active as 2M1EUB from March 21-28th from northeast Scotland (EU-005, also count for WLOTA 1234, Grid IO87). QRV on all the satellites using 2 meters. He will also be active on HF, mainly 160 and 80 meters. Checkout QRZ.com under 2M1EUB for more information. QSL via home call. [MMMonVHF]

21/03/2009: Bodo, DL3OCH (KT3Q) will be working in Nigeria from March 21st for several months. He plans to operate EME (Grid JJ38) and on the HF bands (160 meters included) probably as 5N/KT3Q. The callsign for EME activities will be 5N0EME. The EME activities will be focused on 2m and 23cm. Hopefully he will also go and operate from IOTA group AF-076. QSL via DL3OCH (QRZ.com). [DL3OCH, HB9EHJ, KT3Q]

27/03/2009: Operators Tang/BM2AAV, Wu/BM2APH, James/BU2AT, Eddie/BV2DD, Bruce/BV2KI, Lee/BV2NT and Chung/BX4AF will be active from P'enghu Island (AS-103) as BP0A from March 27-30th. Expect activity on all bands and modes. QSL via BV2KI, direct or bureau. [rsgbiota.org]

27/03/2009: On 4 April 1949, the agreements creating the NATO treaty were signed. To celebrate this event, the French and German cities of Strasbourg, Kehl and Baden-Baden will receive States and Governments

Presidents and Prime Ministers. For this anniversary, the CBK ARC (www.cbk67.org/), F8KHH, will air the special callsign TM0TAN between March 27th to April 10th. This activity includes the CQ World Wide WPX SSB Contest (March 28-29th). A special QSL card will be issued. The manager is the F8KHH ARC - Direct + SAE= postage or via the French REF-Union bureau. [F5NQL]

28/03/2009: Operators Jose/YV5TX, Jesus/YV5MSG and Alex/YV5SSB as 4M5DX from near Caracas, Venezuela (WW Loc. FK60NM) for the CQWW WPX SSB Contest (March 28-29th) as a Multi-Single/High-Power entry. QSL via IT9DAA, direct or bureau. [NG3K]

28/03/2009: Look for Jorge, EA9LZ to be active from Ceuta as either EA9LZ or EG9Z during the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/Single-Band (20 or 40m) entry. He has to check antennas, then decide to run 20 or 40 meters. QSL via the information at QRZ.com under EA9LZ. [NG3K]

01/04/2009: Special event station 8N1Y will be aired from April 1st to September 27th to celebrate the 150th anniversary of the Port of Yokohama. QSL via the JARL bureau. [JJ1WTL/AC6IM]

04/04/2009: Haru, JA1XGI (W8XGI) will be active April 4-11th from Christmas Island (OC-002) as JA1XGI/VK9. QRV all bands, focus on low bands, using CW and digital modes. QSL via JA1XGI, bureau or direct. [NG3K]

05/04/2009: Tor/DJ4MG (5P4MG) and Ela/DL1TM (OZ7TM) will be active April 5-16th from Vendsyssel-Thy / Nordjylland (EU-171, DIA NJ-001). QRV 160, 80, 40, 20, 17 and 15 meter SSB; also PSK31 on 20/40m. QSL 5P4MG via DJ4MG, direct or bureau. QSL OZ7TM via DL1TM, direct or bureau. [rsgbiota.org]

10/04/2009: Operators Jorge/OA4BHY, Marco/CE6TBN, Zoli/HA1AG, Daniel/DL5YWM and Rene/DL2JRM will be active from La Leona Island, Peru, as OA4BHY/6 from April 10-13th. QRV all HF bands SSB/CW with 2 stations. Special callsign is possible. QSL via DL2JRM, direct or Bureau. [rsgbiota.org]

24/04/2009: Andy/IZ0EHO and Vincenzo/IZ0FKE will activate Vulcano Island (EU-017, IIA ME-018, MIA MI-122, WLOTA 1001) using the callsign ID9N from April 24-30th. QRV all HF bands/modes. QSL via the information at QRZ.com under ID9N. [rsgbiota.org]

26/04/2009: Special event station 8J4P will be aired April 26th to June 30th to celebrate World QRP Day, in Area 4 (Chugoku-District), Japan. Expect activity on all bands/modes. QSL via the JARL bureau. [JJ1WTL/AC6IM]

10/05/2009: Special event station 8J7AIZ will be aired from May 10th to July 20th to celebrate the 110th Anniversary of Aizuwakamatsu-city, Fukushima prefecture. QSL via JARL bureau. [JJ1WTL/AC6IM]

23/06/2009: Jimmy, W6JKV will be operating from the island of Antigua (NA-100, WLOTA 1118) from June 23rd thru July 3rd. QRV HF, but focus will be on 6 meters (Grid FK97). He has a very good location and will have large antenna and power. QSL will be via his home QTH in Austin, Texas. [MMMonVHF]

18/07/2009: Rene/DL2JRM and Netti/DO6XX will be active from Vendsyssel-Thy / Nordjylland (EU-171, DIA NJ-001) using OZ/homecall/p from July 18th to August 1st, RSGB IOTA Contest (July 25-26th) included. QRV 80m-10m CW with 100W dipole/GP. QSL via home calls, direct or Bureau. [rsgbiota.org]

25/07/2009: Look for Graham/MM0GHM and Arthur/MM0DHQ to be active as GM7A from Kerrera Island (EU-008, IOSA FL02, SCOTIA CN02) during the RSGB IOTA Contest (July 25-26th). QSL via GM7AAJ, direct or bureau. [rsgbiota.org]

07/08/2009: Some members of The Michigan DX Association, W8DXI will be active August 7-8th from North Manitou Island (USi MI-037L, Not IOTA), located in Lake Michigan, Leelanau county, State of Michigan. QRV Phone and CW on 80-10m, including WARC bands. QSL via W8DXI (QRZ.com). [USi]
==========
SPECIAL EVENTS -

22/02/2009: For the 100th anniversary of the foundation of the City of Lanester, the F6KPQ ARC will be on the air from February 22nd until March 6th, using the special callsign TM1OOL. This callsign will be used again in next July 2009 (dates TBA). QSL via F6KPQ, direct or bureau. No e-QSL. [F5NQL]

06/03/2009: GB0ATC SES will be operational from 6th to the 8th March 2009 on all bands. Greenock ATC Sqn 4515 will be operating from the Garelochhead Training Camp Dumbartonshire. The station will be run by the Sqn Radio Instructor, Brian MM0GLX 4672, who would appreciate calls from RAFARS Members. GB2RAF AIR DEFENCE RADAR MUSEUM RAF NEATISHEAD RAFARS PERMANENT S.E.S. GB2RAF should be QRV every 2nd Saturday of the Month 1000-1500hrs local Time (Currently UTC). [Pete's-DX-Newsdesk]

06/03/2009: Armada Argentina-Servicio de Comunicaciones Navales-SARA: Special QSL for only one QSO, for the 152nd anniversary of Almirante Don Guillermo Brown's death. Having a QSO with the official station of the "Oficial del Servicio Auxiliar de Radioaficionados de la Armada LU2CN". (Oscar, LU1BW on CW; Jorge, LU6DKT on SSB and SSTV; and Alejandro, LU1BCP on FM). QRV March 6, 7 & 8th on 80, 40, 20 and 2 meters using CW, SSB, FM, and SSTV. Send a SAE + 2 IRC at the address: Av. España 3101 CP 1107 Ciudad Autónoma de Bs. As., Argentina. [LU5CAB]

08/03/2009: On Sunday 8 March, special event callsign GB80RBP gets another airing. The Radio Society of Harrow will be operating from Bentley Priory in support of a fundraising event for the Bentley Priory Battle of Britain Trust and the Battle of Britain Fighter Pilots Association. Listen out for them on the air between 0930 and 1600. Full details at: www.g3efx.org.uk/ [GB2RS]

10/03/2009: During the period of March 10-20th and on May 7th the collective radio station of the Kalinin atomic power plant RK3IWO from Udomlya city will activate the special callsign R150IP (radio - 150 - estate - Popov) for the commemoration of the 150th anniversary of the birth of great Russian scientist, inventor of Alexander Stepanovich Popov's radio. QSL cards for all contacts will be sent out automatically via the Bureau [SRR] by June 2009. It is not necessary to send your QSL. If a direct QSL is required, QSL direct to UA3ICV (QRZ.com) with SAE and sufficient postage. [QRZ.ru]

U.S.A. Special event station information can be found at:
www.arrl.org/contests/spev.html

QSL INFO -

* DXCC 9Q/SM7RME denied for QSO 25 Mar 08'------> No documentation

* Buzz, NI5DX, has assumed the duties of QSL manager for Tom Smith, ZC4TS. Logs have been transferred and cards are in the process of being

ordered. Buzz will be able to answer any requests for a ZC4TS card once the new cards arrive in about 5 weeks.
Buzz is also now the QSL manager for FM1II, Chris, in Martinique.
Buzz has the logs and will have cards in the not too distant future.
[K1XN]

* EA3BT, has just started to confirm the contacts from his last IOTA expedition in Cayo Levantado, NA-122 (HI9/EA3BT and HI9/EA3WL). The QSL looks very nice, full color both sides. You can take a look at: dxinfo.ea3bhk.com/ [K1XN]

QSLs received Bureau - none to report :o(

QSLs received Direct - 8R1AK (via QRZ.com), C91LW (via UY5LW), CE1/K7CA (via NW7O), CE9/K2ARB (via K2ARB), EY8MM (via K1BV), FW8DX (via Direct), HB9ANM (via Direct), S79NS (via DL2RNS), TR8CA (via F6CBC), UK9AA (via Direct), VQ9LA (via Direct), YB0AZ (via W7TSQ) and ZD8UW (via G7VJR).

BITS & PIECES -

Gwenael, F4EFI received news from Gildas, TU5KG (FT5XS/MM - FT5XS). He makes a path to Kerguelen Island (AF-048, DIFO FT-011, WLOTA 0439) from March 5th. With a stop at Port aux Francais on March 9th normally, but does not know the precise date because the place is taken by the boat Marion Dufresne. He will be present between March 8th and 10th to watch. [F4EFI]

Tim, M0URX, reports that John, 9M6XRO, is planning once again to be in Southern Africa this year. An E-mail by John explains (edited): "I can now confirm my Africa trip dates. I arrive in Johannesburg via Kuala Lumpur and Doha on July 25th, 3 days earlier than planned. I can then help Daniel, ZS6JR, load up and move all the gear to Lesotho (7P) and get the antennas and equipment set-up before the others arrive in Lesotho on the 29th. I hope to put ZS6/GM3OOK on the air for a bit en route possibly from the 25th evening. Daniel has not yet confirmed the date we will drive to Lesotho. Looks like I will also have the option of operating from Swaziland again as 3DA0OK, but the duration and dates will depend on the logistics of the whole operation as everyone is due back in Johannesburg on August 13th. I will keep you updated on that part of the itinerary. My flight back to Borneo leaves on August 14th, once again via Doha. QSL via M0URX." [OPDX Bulletin]

TEMOTU UPDATE - Pigeon Island instead of Latha:
Bernhard/DL2GAC (H44MS), will once again be active from Honiara, Solomon Islands, (OC-047) from January 8th to April 28th. He works SSB only and plans to focus especially on 40m/80m. On March 2nd Bernard will be joined by Sigi/DK9FN and Herrmann/DL2NUD. All three will fly to Pigeon Island (OC-065), Temotu Province, Solomon Islands, and will be QRV March 2-16th. Bernhard/DL2GAC (H40MS) mainly SSB; Sigi/DK9FN (H40FN) mainly CW and Hermann/DL2NUD (H40HP), will be the EME Operator on 2m and 70cm from RH39. QSL H40FN via HA8FW (bureau preferred). QSL H40MS via DL2GAC and H40HP direct to DL2NUD. Further information can be found at:
hari-ham.com/h40fn [MMMonVHF]

White House names new FCC Boss:

Following weeks of speculation, President Obama on Tuesday formally nominated his friend and telecommunications adviser, Julius Genachowski, to be the next chairman of the Federal Communications Commission.

Russia Castles Award.
Information www.cqrca.com/

Days of activity of Fortresses of Russia

>From May, 1st till May, 4th, 2009 days of activity of Fortresses of Russia for the first time are spent.

The list of fortresses going to offset:
http://www.cqrca.com/pages/eng/rcasp_eng.htm

QSO there are to offset on the diploma "Russian Castles Award".

The diploma stands out on the basis of an extract from hardware magazine for 4 QSO with various fortresses during days of activity. For reception of labels or memorial plate QSO are set off on the general conditions. At performance of the general conditions of the diploma, labels or a memorial plate within May there is enough extract from hardware magazine. 73! Igor / RN1CR

Reduce Bandwidth on the Other Reflectors -

Join The "ICPO" Mailing List

The "I.C.P.O." email reflector allows you to post an announcement, inquiry, or message to all the other subscribers on the list. The message is automatically sent to everyone, usually within minutes. We use it to announce current and upcoming expeditions to islands, castles and fortresses, lighthouses, special events, with focus on DX and Contest related activity. Hence the name ICPO - Islands, Castles, and Portable Operations. It's a good way to keep in touch on a minute-by-minute basis with current activity. Best of all it's free and easy to sign up.

To sign up, simply follow this link -
http://mailman.qth.net/mailman/listinfo/icpo

By the way, a few reminders: the list is Unmoderated; that means you control your subscription and postings. If you ever want to unsubscribe from the list, follow the instructions at the bottom of each posting. And oh yes, although anything can be discussed, try to limit your postings to matters of DX, contest, island, lighthouse, castle and other operations.

From: Antonio Gonzalez otrotoni@...

An international team composed by EA1CJ,EA1KY,EA2RY,EA3EXV,
EA5RM,EA7AJR,F9IE,IN3ZNR,UT7CR and UY7CW will be on the air
from Western Sahara from April 12 to April 17 using S04R
callsign.

Operation will be on all bands from 10 to 160 meters
in SSB,CW and digital . Qsl via EA5RM.

EA5BZ will be the pilot station and additional info is
available on S04R Web at www.dxfriends.com (http://www.dxfriends.com)

8267. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-03-05 18:22:48 UTC
From: K1XN
Topic: 5889 Message: 8267

The MARCH 2009 Issue #903-A files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

few news

correction about the activity from Stephane F5UOW from
?? FR/F5UOW is for March 8 to 28 (not 22) as mentionned before.

Gildas TU5KG / FT5XS is en route to Kerguelen Area. He hopes to
?? stop at Port aux Francais on March 9th. Have a look between
?? March 8 to 10.

The special call sign TM1OOL (T M 1 Oscar oscar Lima) is in
?? use until March 6th for the 100 anniversary for the city
?? Lanester. This callsign will be used in some other period
?? during 2009 for some other occasion. QSL via F6KPQ.

Best wishes

Hi friends
Contest Info, by Bill, NG3K.

Contest: ARRL DX Contest, SSB, (Mar 7-8, 2009)

Submitter's callsign: J5UAP
Contest callsign: J5UAP
DXCC entity: Guinea Bissau
Operation class: Single OP 20m
CQ zone: 35
QSL route: HA3AUI
Operators: J5UAP

Notes: QTH: Varela (IK12QH) with 100/500W and a Spiderbeam

Tks Bill, NG3K

EME News:
NIGERIA :
LATEST NEWS from Bodo, DL3OCH, dated 2009-03-02 abt 5N Trip:
Trip will be slight delayed - so we will be down to Nigeria
around 21st march and start with activity later than...
We did receive the licenz for the 5N0EME call. As well material
is on the way meantime (a MHP145 preamp also!)...

DANEMARK :
Tor, DJ8MS will be qrv TROPO and EME from OZ on 1296 MHz next
week. QRV at least on 7th/8th on 23cm EME from
JO56/66. JO55 might also be possible. QRG probably 1296.090
JT65c. RIG: 100W @67el (5m boom) yagi. He will try to drop
activity notes in DX-Cluster in time.

SATELLITE News :
I will be onboard MV Minerva which is visiting the islands off
lying Antarctica. The schedule includes visits to South Georgia
(VP8) on March 12 &13th and Tristan da Cunha (ZD9) on March 18
&19th before arriving in Cape Town on March 24th. Activity is
planned via SO50, AO51 and the ISS (if available) from the ship
and, if licences can be obtained, from the islands themselves.
I intend to take FM handhelds and an Arrow antenna and hope to
have at least some limited internet access which can be used
to arrange skeds.

8270. VK9LA - LORD HOWE UPDATE

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-03-06 13:03:56 UTC
From: K1XN
Topic: 8270 Message: 8270

VK9LA - LORD HOWE
“All equipment sent via the ship has safely arrived on Lord
Howe Island. When we finished packing all the gear we ended
up with more space taken up than we had booked so we
quickly managed to get more freight space on the boat.
Frequencies of operation:
Band SSB CW RTTY
160 1.813u/d
80 3.797u/d 3.513u
40 7.084u 7.013u
30 10.106u 10.135u/d
20 14.250u/d 14.023u/d 14.088u
17 18.165d 18.072u 18.100u/d
15 21.290u/d 21.023u/d 21.088u/d
12 24.987d 24.892u 24.925u/d
10 28.470u/d 28.023u/d 28.088u/d
6 50.100u/d 50.100u/d
Notes:
1. u/d: Simply means we’re listening UP or DOWN
2. 6m: Call us when the beacon goes into RX mode.
3. 40m: RX for the Americas will be above 7.150
4. 80m: A special time on April 1 has been set up to
work the VK and greater Pacific. (see the web site
<www.odxg.org/vk9la.htm (http://www.odxg.org/vk9la.htm)> for details). We would
request that these areas not call us in the pile ups on
80m before this event.
5. Pilot: Don, N1DG will be our only pilot station.
6. VK4FW will arrive on Sunday March 22nd. He will
begin unpacking and sorting equipment and might
manage to get a station on the air for Sunday evening
local time. On Monday (Mar 23) 4 more of the crew
arrive and will begin further assembly. We will try
to get 2 stations on the air ASAP. Tuesday (Mar 24),
when the rest of the crew arrives we will finish
assembly and get all stations on the air ASAP.
QSLING PROCEDURES:
1. Direct via VK4FW
2. via the buro via VK4FW
3. OQRS <www.odxg.org/qsl.htm (http://www.odxg.org/qsl.htm)> direct or
4. OQRS <www.odxg.org/qsl.htm (http://www.odxg.org/qsl.htm)> buro”
regards
VK4FW

Hi friends

KERGUELEN Isl

There is a strong possibility that TU5KG, Gildas, will be operating from Kerguelen Island Sunday March 8th as FT5XS. I would suggest monitoring 20 meters SSB around 14190-14195.

Tks Bernie, W3UR and the Daily DX

DANEMARK
Fom May 1st to 15th, Paul I2AE will be active from some Danish islands among the IOTA isl. or groups : EU-029, 125, 171, 172,
On the visited islands, there is a lot of lighthouses , he will activate also.
Monitor mainly 7.050-7.060 and 14.250-14.260

Tks DAVID, IW1DQS

Cook Isl., E51.
Lance W7GJ, writes; I wanted to announce this 6m EME DXpedition as far in advance as possible, in order to provide adequate time for people to gear up for it in the event they are interested in working E51 (previously ZK1) on 6m. Please mark your calendars for March 26 to April 4! More information is here: _http://www.bigskyspaces.com/w7gj/E51SIX.htm_ (http://www.bigskyspaces.com/w7gj/E51SIX.htm) Our moonrise in E51 is also moonset in EU, so even if you are horizon-only, we should have a good chance! GL and we hope to complete with many of you! VY 73, Lance

Bonjour à tous
KERGUELEN
Très forte probabilité de voir TU5KG, Gildas, débarquer et être actif depuis Kerguelen , aujourd'hui dimanche 8 mars, indicatif FT5XS. Surveillez en 20m SSB le 14190-14195, et les clusters.

Merci Bernie, W3UR et le Daily DX

DANEMARK
Du 1er au 15 mai, Paul I2AE sera actif depuis plusieurs îles des IOTA ou groupes IOTA EU-029, 125, 171, et EU-172,
Sur les îles visitées se trouvent des phares qu'il profitera d'activer.
Fréquences à surveiller : 7.050-7.060 and 14.250-14.260

Merci David, IW1DQS

Cook , E51.
Lance W7GJ, écrit :
J'ai voulu annoncer cette expédition EME 6m, suffisamment tôt pour permettre à ceux qui seraient éventuellement intéressés de vérifier leur matériel, et tenter de contacter E51 (anciennement ZK1).
L'expédition se tiendra finalement du 26 mars au 4 avril.
Informations très détaillées sur :
http://www.bigskyspaces.com/w7gj/E51SIX.htm
(http://www.bigskyspaces.com/w7gj/E51SIX.htm)
Le lever de lune en E51 , correspond aussi à son coucher aux USA.
Bonne chance et j'espère vous voir nombreux sur mon carnet de trafic.

Hi friends
CHATHAM – ZL7:
From Gary, ZL2IFB, Webmaster for ZL7T.com:
"ZL7T is QRV from 160 to 15m inclusive to date.
They have a slow and unreliable Internet connection but successfully
uploaded their log yesterday and anticipate another two log updates
before they close down on March 10th. There is a log search function
on the Web site along with a blog page with the latest news from the
team. They have reported big pileups but gratifyingly courteous ones.
I am collating ZL7T spots to give a 'near real time' indication of the
actual propagation on the site, supplementing the predictions made before
they departed to the ZL mainland, and some spectrum displays and captured
audio so visitors can experience what it's like to be on the receiving
end of a pileup at least 37 callers deep!" The ZL7T Web page is at:
http://www.zl7t.com (http://www.zl7t.com/)
Tks OPDX

C9, MOZAMBIQUE.
Some members of the Texas DX Society will be active as C91TX
from Bilene, Maputo Province, between March 25th and April 5th.
Bilene is 180km from the capital city of Maputo.
Activity will be on all bands 160-10 meters with 3 active stations, one
station each for CW, SSB, and
the Digital modes.
They will participate in the CQWW WPX SSB Contest (March 28-29th).
Operators mentioned are: Cal/WF5W, Paul/W5PF, Madison/
W5MJ, Bill/K5WAF, Dale/KG5U and Jim/N4AL.
QSL Manager for C91TX is W5PF.

Depending on internet access, they hope to have an online log search page
once operations start, but don't expect daily updates.
For updates, visit the Texas DX Society C91TX Web page at:
http://www.tdxs.net/c91.html (http://www.tdxs.net/c91.html)

Tks OPDX

PORTUGAL
LIGHTHOUSE ANNOUNCEMENT.
Members of the Algarve S.T.A.R. DX team will be active as CS6A on March
15th, from Murtinas Posterior Lighthouse (POR-126).
This will be the FIRST ever activation from thislighthouse.
Activity will be on 40/30/20/17 meters using CW and SSB.
Operators mentioned are: Toze/CT1GFK, Al/CT1GPQ, Mike/CT1IUA and Rui/
CT2IHP.
QSOs are valid for the new award DFFA - Algarve Lights and
Lighthouses Award.

The Algarve DX Team will update their Web site during the activity with pictures and an online log at: _http://www.algarvedx.com/_ (http://www.algarvedx.com/)

QSL via CT1GFK, by the Bureau, direct or for E-mail Bureau QSL requests send to: cu8at@...
Also, for more details on their two new recently added awards (D.I.A. - Algarve Islands Award and D.F.F.A. - Algarve Lighthouses Award), visit the above Web page.

De Gary, ZL2IFB, Webmaster pour ZL7T.com:
"ZL7T est QRV de 160 tà 15m inclus à ce jour.
Ils ont une liaison Internet très lente mais ils ont pu charger malgré tout
le carnet de trafic hier et espère pourvoir faire deux nouveaux
téléchargement avant la fin de l'opération prévue le 10 mars.
Sur le site il y a un outil de recherche dans le log et un blog avec les
dernières informations.
Ils ont noté de s pile up impressionnants et courtois .

Je suis en train de compiler les info clusters et mettrai des modifications
en ligne notamment sur les prévisions de propagation. Des informations sur la
fin des opérations seront aussi bientôt en ligne ;
ZL7T PAGE Web à : _http://www.zl7t.com_ (http://www.zl7t.com/)
Merci OPDX

C9, MOZAMBIQUE.
Quelques membres de la Texas DX Society seront C91TX, depuis Bilene,
Province de Maputo, du 25 mars au 5 avril 2009. Bilène est à 180 lm de Maputo, la
Capitale.
Toutes bandes de 160 à 10 m, avec trois stations en CW, SSB et modes
numériques.
Ils participeront au concours CQWW WPX SSB , des 28 & 29 mars.
Opérateurs : Cal/WF5W, Paul/W5PF, Madison/W5MJ, Bill/K5WAF, Dale/KG5U et
Jim/N4AL.

QSL Manager : W5PF.

Selon disponibilité ou non d’un acès Internet, il pourra y avoir mise en ligne du log, mais ne pas compter sur des mises à jour quotidiennes.
Les mises à jour sont en ligne sur la page de la Texas DX Society (C91TX) à:
http://www.tdxs.net/c91.html (http://www.tdxs.net/c91.html)

Merci OPDX

PORTUGAL
Les membres de l’ Algarve S.T.A.R. DX team seront actifs le 15 mars avec l’ indicatif CS6A depuis le phare de Murtinas Posterior Lighthouse (POR-126).
Ce sera une première.
40/30/20/17 m, CW et SSB.
Opérateurs: Toze/CT1GFK, Al/CT1GPQ, Mike/CT1IUA et Rui/ CT2IHP.
QSO valides pour le nouveau diplôme DFFA – Phares et feux de l’Algarve.
Pendant l’activité, mise à jour permanente sur la page web du club à :
http://www.algarvedx.com/ (http://www.algarvedx.com/)

QSL via CT1GFK, Bureau, direct ou par demande E-mail -Bureau à :

VK9LA NEWS RELEASE MAR 11

LOW BAND OPERATIONS……

Extensive work has taken place to make sure all operators are familiar with various sunrise sunset times throughout the world.
Lord Howe island Sunset is at approx 07.36utc with Sunrise being 19.36utc (taken at 27th March 2009). We have all been familiarizing ourselves with possible propagation openings for all points of the globe.
A complete list in an ascending pecking order will be at every HF station for operators to continually check. It is our plan to have an operator on deck on 160m from 07.40utc daily to work all the Pacific areas followed by various parts of Asia somewhere around 08.50utc. From then we will look towards South Americas at around 09.35utc thru to approx 10.15utc when we will begin looking for W1 in USA at approx 10.30utc then head to again some parts of Asia and then VE3 and W4 around 11.30utc as well as TI and XE areas. UA9 around 13.30utc followed by W6 etc.
At approx 15.00utc we will begin searching for the likes of EK, 4L, UA1 followed by 4X at 15.45 and then the likes of 5B.
Hopefully we will get a shot at South Africa around 16.15utc then head up again into EU territory to LZ around 16.35utc, HA and so on leading up to I, LA, OZ, HB and G lands at 18.20utc.This procedure will be done every day we are there. This will also be adopted on 80m as well as 75m as we have 2 stations on air simultaneously on the same band, as well as 40m. We expect big long openings on all bands below. We would however request that you be patient. It will take us a couple of days to install all low band antennae.
We would also request that once you are in the log to please do not call the next night, let someone else have a go…… my pet hate is to see the same station in the log on the same band over and over.

Cu in the pile ups…….

Hi friends
Press releases :
Midway Island 2009

A multi national team of 19 operators will activate Midway Island in October 2009. The US Fish & Wildlife Service has authorized amateur operation from this rare US entity for only a 10 day period, its first radio activity in almost 10 years

Midway Island ranks number 24 worldwide and number 13 in Europe on the DX Magazine's "Most Wanted List". Activity will be on 6 meters to 160 meters with 5 to 6 stations. At least one station will be active on 20 meters around the clock for those who need it for a new country. Major efforts will be made to meet the demand to the most needed geographical areas, the low bands and RTTY.

Team members are AA4NN, EA1IR, DJ9ZB, KH7U, KI6TVS, KL2A, N1DG, N4PN, N4XP, N6GQ, N7CQQ, WB4JTT, W6KK, W6OSP, WA7NB, W8CAA, W8GEX, WA8NJR and OK1KT. Off site support is being provided by AA1V, W5DNT and W6XA.

Travel to Midway is only allowed by chartered aircraft. Because of the size of the aircraft, the team is presented with unique challenges. As such, the aircraft will only be able to carry the team requiring the equipment to be shipped by boat some months ahead. Adding to the high cost of transportation, daily fees and other charges established by the USF&WLS makes this operation very expensive.

A web site has been established and can be found at www.midway2009.com.

Please support this endeavor by sending a donation. To make it easy to donate you can contribute electronically using the web site or if you choose regular means you may do so. Instructions are given on the web site for either method.

Updates will be published on the web site as they become available.

Tom N4XP & Dave WB4JTT

FOR IMMEDIATE RELEASE

S2, BANGLADESH (Op Cancelled). Members of the Korea DX Club had to cancel their operation from Dhaka due to a civil war that broke out in the city. The KDXC team mentions that the "Situation is chaotic", and the team was going back to Korea. Unfortunately, the team's callsign S21KD was cancelled when they first arrived, and they tried to get a new license. However, Friday and Saturday were holidays in Bangladesh. They did get a new license on Sunday, S21ZCY, and moved to another location 2 1/2 hours away. The team hoped to be on the air that day but could not retrieve the radio gear from the airport. Safety was the team's first priority, so they cancelled and headed back home. They hope to get another chance to operate from S2-land soon. For more details and updates, please visit the following Web page at: http://dxpedition.co.kr

Tks OPDX
FAROE Isl :

Begin date: 20090316

Submitter's e-mail: oz1fjb@...
Callsign(s): OY/OZ1FJB
DXCC entity: #206
QSL route: via homecall
Operators: oz1fjb

Notes: Active in sparetime and apx. 2100 - 2400 and
0600 - 0700 hrs utc. Mostly CW but also SSB.
First active hamstation on Faroe Islands permitted to run on the 60m.
band !!, ch.5 - 5403.5 Khz. USB.
Lookout on the dx-cluster for activity.

The Yuri Gagarin International DX Contest 2009

*The contest is dedicated to the memory of Yuri Gagarin,
who realized the first human flight to space, on April 12, 1961.*

RULES

* 1.* *Date:* from 21.00 UTC on April 11^th till 21.00 UTC on April y
12^th , 2009.

2. *Bands:* 1.8, 3.5, 7.0, 14, 21, 28 MHz and radio amateur satellites.

3. Modes: CW only.

4. Contest Call: «CQ GC» (CQ Gagarin Cup).

5. Categories:

A Single operator - Single band.

B Single operator - Multi bands.

C Multi operators – Multi bands, single transmitter.

D SWL - Multi bands.

During the contest:

All multi-band categories may also utilize radio amateur satellites.
These QSOs are counted as an additional band.

All multi-band categories must remain on the same band for at least 5
minutes after the first QSO has been made.

All mixed mode categories can make only one QSO with the same station on
that band.

6. Exchange: RST and ITU zone number.

7. QSO points:

QSO with own «P-150-C» country count 2 points.

QSO with another «P-150-C» country in the same continent - 3 points.

QSO with another continent - 4 points.

QSO points on*:*

1.8 MHz and 3.5MHz multiplied by 3;

7 MHz - 2;

14, 21 and 28 MHz - 1.

For SWL: Complete logging of one station, only the callsign of the second station count 1 point. Complete logging of both sides of a QSO - 3 points. The same callsign may be logged 5 times on each band.

*8. Multipliers: *each different ITU zone worked on each band gives 1 point for multiplier. SWLs have no multipliers.//

9. Final score:/ /

The total number of QSO points on all bands times the total number of multipliers worked on all bands*.*

10. Awards:

The Special trophy will be awarded to the winner in the B & C category’s.

Different kind of medals will be awarded to the world’s top scoring stations in the A, B, C and D categories.

Certificates will be awarded to top three and each country's winner in each category.

Certificates will be awarded to all the Contest participants who log not less than 200 QSOs or 200 SWLs.

11. Logs:

Electronic logs are to be sent via e-mail as an attachment to the letter or on Floppy disc. File format – text of the operator’s contest program but Cabrillo format will be much appreciated.

In the field “subject” of your e-mail letter it is necessary to mention your callsign and category (for example – ra3aaa B). In the text of the letter it is necessary to show your final score calculation, rig and antennas data, as well as your comments and wishes.

E-mail address: gc09(at)qst(dot)ru

In case of the paper log use separate sheets for each band. On a summary sheet it is necessary to show: category of entry, callsign used, operator’s name, address, complete scoring information, as well as the dully signed declaration that all Contest rules and regulations for amateur radio in the country of operation have been observed. In case of multi-operators entry it is necessary to include personal callsigns and

names of operators. Any comments and contest stories are encouraged.

Send logs to:

GC Contest Committee,

P.O.Box 2020, Moscow, 101000, Russia,

The final date of logs sending - May 10, 2009.

The results of «Gagarin Cup» are to the http://gc.qst.ru and
http://www.qrz.ru/contest/

73! Gene UA6NZ (mgr CQ-GC)

Tks Bill/NG3K

D4 - Cape Verde:
Seven German operators will be active from Sal Island
(AF-086) Mar 11th through 25th as D44TXQ (Helmut, DL3KBQ), D44TXP
(Holger, DL1COP), D44TXO (Juergen, DJ2VO), D44TXF (Gerd, DG3KAF),
D44TXR (Henry, DL2RSI), D44TXI (Peter, DH2KI), and D44TXS (Franz,
DL3PS/HB9EHQ)DL3PS/HB9EHQ)<WBR>. They plan to operate on all bands 160
SSB, RTTY, PSK31, Hell, Amtor, and SSTV with seven stations running
100 watts into vertikals. QSLs via home call, buro ok, and D44TXS
via HB9EHQ, direct, via Buro, eQSL or LoTW.
IRELAND
EU-006, EI, Aran Islands: Galway Radio Experimenters Club (GRC) will be on
the air as EJ4GRC on the Island of Inishmore Mar 17/18th for St.
Patrick's Day. QSL via EI8DD (d/B). Info at www.galwayradio.Patrick'
Tks DXNL

SWITZERLAND:
Hi dear Castles friends,
This week there will be some Swiss Castles on the air, some for DCS and for
WASL Swiss Lakes Award, some for both DCS and DCSR .
All will be useful also for the H26 by USKA , see _www.uska.ch_
(http://www.uska.ch/)
---
11 e 12 Marzo 2009: (Today on the evening and tomorrow) Gery HB9TQF/p
will operate from:
DCS-SO006 Schloss Wylithof , at Deitingen
starting every day at 17:00 UTC. Bands following propagations on the moment
and depending on the location and antenna possible.
As soon he will be ready it will be put on the cluster by Claudio HB9EFJ .

14th +15th March, 2009: Luciano HB9FBI and Claudio HB9EFJ will activate
the DCS Reference
DCS-TI036 Ca' de Fer di Minusio new one, locator JN46JE (Info:
http://castles.ham-radio.ch/ (http://castles.ham-radio.ch/))
APL-WASL-HB-TI001 Swiss Lakes: Lago Verbano, North side (Info:
http://web.ticino.com/wlog2000/laghi/ (http://web.ticino.com/wlog2000/laghi/))

Bands 80 to 20m , following propagation. They will spot on the Cluster.

14th +15th March, 2009: Michel HB9DLO with HB9HLM and HB9ONN ,
Members of the Radio Clup PiePer, will operate with call HE8XC/p from:
DCS-NE003 Château de Boudry , at Boudry , locator JN36KW,
Bands 80-40-20m, mode SSB; CW and 15-10m bands will be possible.
Time: Saturday from 20:00 UTC to about 23:00 UTC , Sunday from 07:00 utc
until about 15:00 ;
those references will be valid for both the DCS Award
(_http://castles.ham-radio.ch/_ (http://castles.ham-radio.ch/)) and DCSR Award. (
www.sfca-dcsr.ww (http://www.sfca-dcsr.ch/))
Skeds : by email to hb9dlo@...

Have fun with the Swiss Castles !!
Augusto HB9TZA / I2JJR

Bonjour à tous
Communiqués de presse:
MIDWAY 2009
Une équipe internationale composée de AA4NN, EA1IR, DJ9ZB, KH7U, KI6TVS, KL2A, N1DG, N4PN, N4XP, N6GQ, N7CQQ, WB4JTT, W6KK, W6OSP, WA7NB, W8CAA, W8GEX, WA8NJR et OK1KT, avec l'appui de externe de AA1V, W5DNT and W6XA, se rendra sur Midway en octobre 2009.
Le Conservatoire de la pêche et de la faune sauvage US (Fish & Wildlife Service) a autorisé cette expédition vers cette entité US très rare pour une période limitée à 10 jours. Ce sera la première activité radioamateur depuis au moins 10 ans.
Midway est au 24ème rang dans le monde et 13ème en Europe parmi les contrées les plus recherchées.
.
Ils seront actifs de 160m à 6 mètres avec 5 ou 6 stations. Une station sera en permanence 24h/24 sur 20 m pour ceux qui auront besoin de Midway en New One.
Nous serons attentifs aux besoins exprimés spécialement dans les bandes basses et en RTTY.
Le voyage s'effectuera en charter, mais compte tenu de la taille de l'avion, il ne pourra emmener que les membres de l'expédition. Le matériel sera expédié par bateau dans quelques mois.
Compte tenu des coûts et des charges ajoutées par les USF&WL, cette opération sera très onéreuses, nous en sommes déjà plus que conscients.
Une page Web est dores et déjà disponible à : www.midway2009.com.

Please support this endeavor by sending a donation. faisons appel à toutes les bonnes volontés pour nous aider et faire de Midway 2009, une réussite.
Pour ce faire ceux qui le désirent trouveront sur le site la marche à suivre pour nous transmettre leur contribution.
Des mises à jour régulières de la page web donneront l'état d'avancement des préparatifs.

LORD HOWES:

Nouvelles de VK9LA, 12 mars 2009.
Activité sur les bandes basses.

Un travail norme est réalisé pour s'assurer que tous les opérateurs sont accoutumés au trafic en fonction des lever et coucher de soleil, dans toutes les parties du monde.
Le coucher de soleil sur Lord Howe est à environ 0736 utc et le lever à 19.36 utc. (Prévisions à la date du 29/03/2009)
Nous sommes tous familiarisés avec les ouvertures de propagation avec toutes les parties du monde, maintenant.
Chaque opérateur dispose de sa liste avec les prédictions d'ouverture et effectue les contrôles d'ouverture.
Nous avons planifié la présence d'un opérateur sur 160m chaque jour à partir de 07.40 utc pour le Pacifique suivi de diverses zones d'Asie, vers 08.50 utc.
Ensuite nous recherchons l'Amérique du Sud de 09.35 à 10h15 utc, puis vers les zones W1/USA aux alentours de 10.30 utc en à nouveau pour l'Asie, puis VE3 et W4 vers 11.30 utc de même que TI, et XE.
Autour de 13.30 utc nous recherchons UA9 suivi par W6 etc ..
Vers 15.00 environ nous recherchons le Caucase, la Russie (EK, 4L, UA1..) puis vers 15.45, nous recherchons le Moyen Orien et la partie orientale de la Mediterranée (4X, 5B, ..)
Par chance nous avons eu des ouvertures vers l'Afrique du Sud à environ 16.15 utc. HA et LZ en Europe sont ouverts vers 1635, suivis d'autres contrées EU (I, LA, OZ, HB et G , up 1), jusqu'à 18.20 utc.
Cette procédure est en place tous les jours.
La même procédure est appliquée sur 80 et 75m avec deux stations simultanément sur la même bande.
Sur 40m nous faisons également la même chose.
Nous espérons des ouvertures longues sur toutes les bandes en dessous de 20M
Merci cependant de votre patience car deux jours seront nécessaires pour installer toutes les antennes 160, 80, 40m.
Si vous êtes dans le log sur une de ces bandes, merci de ne pas rappeler la ou les nuits suivantes pour laisser une chance aux autres.
Rien ne nious horipile plus que de voir la même stations multiplier les QSO sur la même bande dans le même mode.

Cu in the pile ups..... Bill VK4FW.... Dxpedition Leader

S2, BANGLADESH (Op annulée)
Les membres du Korea DX Club ont annulé leur expédition à Dhaka , à cause de la guerre civile qui règne là-bas. Le KDXC indique que la situation est chaptique. De plus l'indicatif de l'équipe, S21KD était annulé à leur arrivée et ils ont essayé d'obtenir une nouvelle licence. Dans les pays musulmans, le vendredi et le samedi sont fériés. Finalement dimanche ils ont obtenu une l icence et l'indicatif S21ZCY, ils ont décidé de s'installer ailleurs à environ 2 heures ½ de route.
L'équipe pensait pouvoir démarrer hier mais ils n'ont pas pu retrouver le matériel à l'aéroport.
La première priorité étant la sécurité des personnes, ils ont donc décidé de tout annuler et rentrer à la maison.
Is espère une amélioration de la situation pour pouvoir envisager de

retourner en S2 bientôt.
Pour plus de détails, voir la page web à : http://dxpedition.co.kr

Merci OPDX

DEROE:
Du 16 mars au 1er avril 2009 OZ1FJB est OY/hc.

Activité à son temps libre et le soir de 2100 à 2400 et de
0600 - 0700 hrs utc.
CW principalement avec un peu de SSB.

Ce sera aussi la première fois qu'on trafiquera sur 60m depuis OY. QRG :
ch.5 - 5403.5 Khz. USB.

Surveillez les clusters.

RUSSIA:
YURI GAGARIN International Contest

C'est un concours CW exclusivement qui se déroulera les 11 et 12 avril de
2100 à 2100 utc.
Bandes:* 1.8, 3.5, 7.0, 14, 21, 28 MHz et satellites radio amateur.

Appel : «CQ GC» (CQ Gagarin Cup).

Mono-op monobande (A) ou multibande (B), Multiop un émetteur ttes bandes (C)
et écouteurs.
Pendant le concours les stations multibande peuvent aller aussi sur les
satellites.
Les multibandes restent au moins 5 minutes après le premier QSO sur une
bande.
Un QSO avec chaque station par bande.
Echange RST + zone ITU
Points :
Avec sa propre zone P150, 2 points
Avec uns station en dehors de sa zone P 150 même continent 3 points
QSO avec continent différent 4 points
QSO sur 160 et 80 sont multipliés par 3
QSO sur 40m sont multipliés par 2
Ecouteurs :
Le même indicatif 5 fois par bande. Un QSO complet 3 points sinon 1 point
(pour la deuxième station entendue)
Multiplicateurs : Zone ITU par bande. Pas de multi pour les écouteurs.

Score final Nombre de points par nombre de Multiplicateurs.
Récompenses :
Trophées en catégorie B et C au vainqueur
Diverses médailles et diplômes pour les meilleurs de chaque contrée.
Certificat à tous ceux qui auront fait au moins 200 QSO.
Carnets de trafic format cabrillo par e-mail ou sur disquette format txt.
Dans le sujet de l'e-mail : Indicatif + Catégorie (Exemple F5AAA B)

Adresse e-mail. gc09(at)qst(dot)ru*
Les logs papier ont une page résumé avec catégorie indicatif nom, prénom adresse informations sur les résultats et signature attestant avoir respecté les règles du concours, les informations des QSO , une page par bande. Pour les multiopérateurs, liste des opérateurs (indicatif, nom, prénom)

Adresse :

GC Contest Committee,

P.O.Box 2020, Moscow, 101000, Russia,

Date imite d'envoi 10 mai 2009.

Résultats de la «Gagarin Cup» sur http://gc.qst.ru et http://www.qrz.ru/contest/

73! Gene UA6NZ (mgr CQ-GC)

Merci Bill, NG3K

CAP VERT:*
D44TXQ (Helmut, DL3KBQ), D44TXP(Holger, DL1COP), D44TXO (Juergen, DJ2VO), D44TXF (Gerd, DG3KAF), D44TXR (Henry, DL2RSI), D44TXI (Peter, DH2KI), et D44TXS (Franz, DL3PS/HB9EHQ)D44TXQ (Helmut, DL3KBQ jusqu'au 25 mars
160 à 10 m CW,SSB, RTTY, PSK31, Hell, Amtor, et SSTV avec sept stations de 100 watts dans des verticales.
QSL via home call, buro ok, et D44TXS via HB9EHQ, direct, via Buro, eQSL ou LoTW.
IRLANDE
EU-006, Aran:
Le Galway Radio Experimenters Club (GRC) sera EJ4GRC sur Inishmore les 17 et 18 mars pour la Saint Patrick.
QSL via EI8DD (d/B).
Info à www.galwayradio.Info à

Merci DXNL

SUISSE :
Ce week end quelques stations sur l'air pour le diplôme des châteaux suisses.
12 Mars : Gery HB9TQF/p depuis DCS-SO006 Wylithof , Deitingen
Bandes selon propagation et possibilités d'installation d'antennes
----

14 et 15 m rs :
Luciano HB9FBI et Claudio HB9EFJ depuis DCS-TI036 Ca' de Fer di Minusio new one, locator JN46JE (Info: _http://castles.ham-radio.ch/_ (http://castles.ham-radio.ch/)) APL-WASL-HB-TI001 Swiss Lakes: Lago Verbano, North side (Info: _http://web.ticino.com/wlog2000/laghi/_ (http://web.ticino.com/wlog2000/laghi/))
Bandes 80 à 20m , selon propagation
----

14 et 15 mars :
Michel HB9DLO avec HB9HLM et HB9ONN ,
Indicatif HE8XC/p depuis DCS-NE003 Château de Boudry , à Boudry , locator JN36KW,
Bandes 80-40-20m, mode SSB; CW, 15-10m possible.
De samedi 20:00 UTC jusqu'à 2300 utc et dimanche de 07:00 utc à environ 15:00 ;

8285. NEW DATA FILES AND REPORTS UPLOADED TO WEB

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-03-12 15:21:22 UTC
From: K1XN
Topic: 5889 Message: 8285

The MARCH 2009 Issue #903-B files have been uploaded to the Golist web site.
??? The weekly GoData files now include the LOTW information
and DXCC APPROVED OPERATIONS in the data file.? I have
started to accumulate data on DX Call Signs REJECTED by the
DXCC desk and their dates. Please send any of these rejections
to me for the Rejected project in GoWin. This Rejected list is also
now in the weekly data files.
??? Use the DOWNLOAD button in your GOWIN program or this link in your
web browser.
http://golist.net/dlauth.cfm

?? It is recommended that you open up GOWIN after downloading the data file
update and on the top bar click on FILES/CLEANUP FILES and run this
routine to clear all the old update files from the program folder.
This will prevent any lookup problems for you.
?? Now is a good time to send in your RENEWAL to GoWin
if your subscription is about to expire.

???

8286. DXCC APPROVED OPERATION

Yahoo group: GOLIST (2007 — 2010)

I.C.P.O. Bulletin (March 12 - 20, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

12/03/2009: Colin/G3VCQ (FISTS #14065) and Sharon/M3VCQ (FISTS #14066) will be active from the island of Grenada (NA-024, WLOTA 0718) from March 12-26th. Colin is participating in the BERU CW contest (March 14-15th) and will be part of the "Rest of the World Team". Operations will be from the beach QTH with FT857d, Expert SPE solid state amplifier. Antenna's will range from a 3 el yagi for 14, 18, 21, 24 and 28Mhz. On the lower bands the antennas will be verticals and dipoles for 10, 7 and 3.5Mhz. Modes will be SSB during none contest times and CW during the BERU of course. Colin will only work Commonwealth stations during the contest. Sharon J38/M3VCQ will also be active with Colin from the island (SSB only chaps!). If your local listen out for them on 2m, 6m and 70cm. All QSL's via G3VCQ please, direct or Bureau. [Pete's-DX-Newsdesk]

12/03/2009: Nick, G4FAL will be active as V4/G4FAL from Rawlins Plantation, island of St. Kitts (NA-104) from March 12-17th, including participation in the RSGB Commonwealth Contest (March 14-15th) as V47CD. He plans to operate only CW on 80, 40, 20, 15 and 10 meters. QSL via home call or LOTW. [425 DX News]

13/03/2009: Frank/DL2SWW and Gabi/DF9TM will be active as DL2SWW from Fehmarn Island (EU-128, GIA O-01, WLOTA 0637), March 13-15th. QSL via home call. [rsgbiota.org]

13/03/2009: Look for Christophe/F5UBH, Juan/F5IRC and Karim/F4CTJ to be active March 13-15th as TM2HC from Hoedic Island (EU-048, DIFM AT-017). This activity also counts for the Grands Cardinaux lighthouse (DPLF PB010, ARLHS FRA-017, TWLHD WLH F-026, WLOTA 0851) and also references DFCF 56-033, DDCF 56-30 (Quiberon) and DIM O25. QRV all HF bands using CW, SSB, PSK31 and RTTY. QSL via F5IRC, direct or Bureau. [F5IRC]

14/03/2009: François/F5JNE and Gerard/F6ICG will sign F5JNE/p on March 14th from the Castle of Aunay (DFCF 58-097) in the city of Aunay en Bazois (CP 58110), Canton of Chatillon en Bazois (DDCF 58-04 new one), Department Nièvre/58 and Province Burgundy (DPF 05). QRV 80/40m CW and SSB. QSL via F5JNE, bureau preferred and SWL cards are welcome. [F5NQL]

14/03/2009: The Radio Club "Les Emetteurs biterrois", F6KEH will be active March 14th from the Castle of St. Jean d'Aureilhan (DFCF 34-042), Department Herault/34 and Province Languedoc-Rousillon (DPF 12). QSL via home call, direct or Bureau. [F5AYZ]

14/03/2009: Nicolas, F5TGR will be active from Guadeloupe Island (NA-102, DIFO FG-001, WLOTA 0644) as FG/F5TGR from March 14-28th. He will be QRV 40-10m using CW and SSB. QSL via home call. [F6AJA]

14/03/2009: GB5CC will be on the air for the Commonwealth Contest (March 14-15th) from Throton Heath near Croydon, England (EU-005, WLOTA 1841). QSL via G4BJM, direct or Bureau. [GB2RS]

14/03/2009: Luciano HB9FBI and Claudio HB9EFJ will activate March 14th and 15th from Castle de Fer di Minusio (DCS-TI036 new one!, WW Loc. JN46JE) (Info: castles.ham-radio.ch/) and APL-WASL-HB-TI001 Swiss Lakes: Lago Verbano, North side (Info: web.ticino.com/wlog2000/laghi/) Bands 80 to 20m, following propagation. They will spot on the Cluster. [HB9TZA/I2JJR]

14/03/2009: March 14-15th will also see Michel/HB9DLO, Andre/HB9HLM and Marc/HB9ONN, Members of the Radio Clup PiePer, operating as HE8XC/p from the Castle of Boudry (DCS-NE003, DCSR NE-003, WW Loc. JN36KW), located at Boudry. Bands 80-40-20m, mode SSB; CW and 15-10m bands will be possible. Time: Saturday from 2000 UTC to about 2300 UTC and Sunday from 0700 UTC until about 1500 UTC; those references will be valid for both the DCS Award (castles.ham-radio.ch/) and DCSR Award. (www.sfca-dcsr.ch) QSL via home call, direct or bureau. [HB9TZA/I2JJR]

14/03/2009: Look for JS6RRR and JI3DST/JS6 to operate on all bands and modes from the Miyako Islands (AS-079) from March 14-24th. QSL via the JARL Bureau. [425 DX News]

14/03/2009: Look for Rich, K0PIR to be active March 14th as homecall/p from La Framboise Island (USi SD-003R, Not IOTA, Hughes county), South Dakota. QRV 14.250 MHz from 1800-2000 UTC. QSL via eQSL, Direct w/SASE or LoTW. [USi]

14/03/2009: Bernd, VK2IA will once again be active as VK9AA from Cocos (Keeling) Islands (OC-003) between March 14th and 27th. QRV 160-10m, CW and SSB. QSL via DL8YR, direct or Bureau. [NG3K]

15/03/2009: Operators CT1GFK, CT1GPQ, CT1IUA and CT2IHP will be active as CS6A from the lighthouse Murtinas Posterior (ARLHS POR-126) on March 15th, from 7 to 13 UTC. They plan to operate CW and SSB on 40, 30, 20 and 17 meters with two stations. QSL via CT1GFK, direct or Bureau. [425 DX News]

15/03/2009: VK9N - Willy, ON5AX and his wife Magda, ON3AX will be active as VK9N/ON5AX from Norfolk Island (OC-005, also count for WLOTA 1469) from March 15-22nd. QSL direct to ON5AX. [425 DX News]

16/03/2009: Lars, OZ1FJB will be active from the Faroe Islands (EU-018) as OY/OZ1FJB from March 16th to April 1st. He will be the first active hamstation on the Faroe Islands permitted to run on the 60m band. Listen for him on channel 5 - 5403.5 kHhz USB. Lars will also be QRV other bands in his sparetime apx. 2100 - 2400 and 0600 - 0700 UTC, mostly CW but also SSB. QSL via home call. [NG3K]

17/03/2009: The Galway Radio Experimenters Club will be active as EJ4GRC from the island of Inishmore (EU-006, WAB Square L71) from 1200 UTC March 17 to 1200 UTC March 18th. QRV all bands and modes. Website at: www.galwayradio.com/ [rsgbiota.org]

19/03/2009: Once again Axel, DL6KVA will be active as 4K0CW from Vlad's (4K9W) QTH in Baku, Azerbaijan, from March 19-25th, between the local evening hours (Azerbaijan is UTC +4) on the 19th and the local midday on the 25th. He will operate CW only on all the HF bands, with 100 watts and a 84-meter longwire, and will take part in the Russian DX Contest (March 21-22nd) as a Single-Op/Low-Power/CW entry. QSL via home call, Bureau preferred. [425 DX News]

19/03/2009: Look for KH0/KI3DNN (QSL via JI3DNN), KH0/N3MU (QSl via JA3 CEK) and KH0/K2JA (QSL via JL3SIK) to be active from Saipan (OC-086) between March 19th and 22nd. They plan to operate SSB, CW and some digital modes on 160-6 meters. [425 DX News]

20/03/2009: Heinz, VA7AQ will be active as VE9/VA7AQ from Grand Manan Island (NA-014, CIsA NB-003, WLOTA LH-0082) between March 20-25th. QSL via home call, direct or Bureau. [425 DX News]

20/03/2009: Philippe, F5MSB/p will active the Castle of Cabrerets (DFCF 46-036) and Mill of Cabrerets (DMF 46-023), commune de Cabrerets (CP 46330), Department Lot/46 and Province Midi-Pyrenees (DPF 15) from March 20-21st. QSL via home call, direct or Bureau. [F5MSB]

20/03/2009: John/VE8EV, Wally/VE8DW and Gerry/VE8GER will be active from Ellice Island (NA-192), March 20-23rd, using the callsign VX8X. QRV 40, 20, and 15 meter SSB/CW; 24 hours per day non-stop operation. Expect to see them on CW, but most of the focus will be on 20 meter SSB on 14.260 MHz. QSL via the information at QRZ.com under VX8X. [rsgbiota.org]

==========

LOOKING AHEAD -

21/03/2009: Bernardo, XE2HWB plans to be active March 21-23rd from Santa Margarita Island (NA-078) as XE2HWB/XF1. Look for activity on or around the usual IOTA and island frequencies. QSL via N6AWD, direct or bureau. [rsgbiota.org]

28/03/2009: Khalid, A61BK will be active from Dubai, United Arab Emirates, during the CQWW WPX SSB Contest (March 28-29th). No entry category was given. QSL via A61BK, direct only (QRZ.com). [NG3K]

28/03/2009: Olivier ON4EI will be active during the CQWW WPX SSB Contest March 28-29th) from Ireland (EU-115, WLOTA 2484) as EI/ON4EI in the area of Clonmel (Fethard) Tipperary county (IO62EK), looking for ON-stations on 40m 8-9z and on 80m 5-6z. QSL via home call, direct or bureau. [UBA HF News]

28/03/2009: Gord, VE6SV will be active from Sherwood Park, Alberta, as VC6T during the CQWW WPX SSB Contest (March 28-29th). QSL via QRZ.com.

09/04/2009: Retu, XU7MDY will be active from Shinanoukville, Cambodia, between April 9th and 21st. QRV 80-10m using CW, SSB and Digital modes. QSL via the information at QRZ.com. [NG3K]

21/04/2009: Sharon/K7WZB and Garry/K9WZB will be operating from Grand Cayman Island (NA-016, WLOTA 1042, Grid EK99) from April 21st to May 6th as ZF2ZB. QRV all bands 160-6 meters using SSB, RTTY, CW and PSK-31. They will be monitoring 6 meters most of the time for opening to US and Europe. QSL direct via K9WZB. [NG3K]

01/05/2009: Johann, F4FEP will be active 1 to 3 days in the month of may depending weather and boat (start of season) from Saint-Nicolas Island (EU-094, DIFM AT-010) as F4FEP/p. The exact dates will be updated soon. QRV 14.260 (+/-) depending on QRM, using ICOM-706 100Watts, battery and G5RV antenna. His location will be on the Saint-Nicolas beach, Department Finistere/29 and Province Brittany (DPF 06). QSL via home call, direct or Bureau. [rsgbiota.org]

01/05/2009: Paolo, I2AE will be active as OZ/I2AE/p from some IOTA, Danish islands and will also activate many lighthouses between May 1st and 15th. QRV 7.050-7.060 and 14.250-14.260 MHz SSB. Paolo plans to activate the following - Als Island (Not IOTA, DIA JY-001) and lighthouse (ARLHS DEN-019); Kalvo Island (Not IOTA, DIA JY-014); Roemoe Island (EU-125, DIA NS-001) and lighthouse (ARLHS DEN-074); Mandoe Island (EU-125, DIA NS-003); Jegindoe Island (EU-171, DIA NJ-006); Nordjylland (EU-171, DIA NJ-001) and lighthouse (ARLHS DEN-022); Ageroe Island (EU-171, DIA NJ-018); from Mors Island (EU-171, DIA NJ-002) and lighthouse (ARLHS DEN-064); Alroe Island (Not IOTA, DIA JY-010); Fyn Island (EU-172, DIA FY-001) and lighthouse (ARLHS DEN-227); Toroe Island (EU-172, DIA FY-007); Helnaes Island (EU-172, DIA FY-024) and lighthouse (ARLHS DEN-015); Thuroe Island (EU-172, DIA FY-016) and lighthouse (ARLHS DEN-221); Taasinge Island (EU-172, DIA FY-015) and lighthouse (ARLHS DEN-162); Sioe Island (EU-172, DIA FY-021) and lighthouse (ARLHS DEN-218); Langeland Island (EU-172, DIA FY-019) and lighthouse (ARLHS DEN-164, WLOTA 0590); Fyn Island (EU-172, DIA FY-001) and lighthouse (ARLHS DEN-020); Sprogoe Island (EU-029, DIA SJ-009) and lighthouse (ARLHS DEN-062); Sjaelland Island (EU-029, DIA SJ-001) and lighthouse (ARLHS DEN-032); Glaenoe Island (EU-029, DIA SJ-013); Enoe Island (EU-029, DIA SJ-028); Gavnoe Island (EU-029, DIA SJ-027); Sjaelland Island (EU-029, DIA SJ-001) and lighthouse (ARLHS DEN-122); Masnedoe Island (EU-029, DIA SJ-033); Falster Island (EU-029, DIA SJ-016) and lighthouse (ARLHS DEN-135); Bogoe Island (EU-029, DIA SJ-023) and lighthouse (ARLHS DEN-138); Moen Island (EU-029, DIA SJ-017) and lighthouse (ARLHS DEN-142); Langoe Island (EU-029, DIA SJ-030); Nyord Island (EU-029, DIA SJ-026); Falster Island (EU-029, DIA SJ-016) and lighthouse(ARLHS DEN-136); Lolland Island (EU-029, DIA SJ-015) and lighthouse(ARLHS DEN-183). QSL via home call, direct or bureau. [I2AE]

23/05/2009: GB6GEO will be on the air from Torbay during the Geoparks Communication Weekend on 23 and 24 May, along with other UK Geopark stations around the world. There will be many other attractions at the Torbay Kent's Cavern site, such as Cave Radio, Satellite Communications

and Amateur TV. GB6GEO will be a 48 hour working station. SSB will be used during the day because of visitors to the station and CW will be used during the night time hours. The Geoparks will be offering a very special commemorative basic radio amateur certificate for contacting Geopark stations. Full details from Martin Foster, G3VOF, QTHR or QRZ.COM. [GB2RS]

30/05/2009: Gord, VE6SV will be active from Sherwood Park, Alberta, as VC6T during the CQWW WPX CW Contest (May 30-31st). QSL via QRZ.com.

30/05/2009: Bernd, VK2IA will be active from Broome, Western Australia (OC-001, WLOTA 1520), as VK6AA during the CQWW WPX CW Contest (May 30-31st) as a Single-Op/Single-Band (40m) entry. QSL via DL8YR, direct or bureau. [NG3K]

31/05/2009: Look for Bernd, DL8AAV to be active as SD1B/7 from Oland Island (EU-037, WLOTA 0588), Sweden, between May 31st and June 12th. QRV HF bands, SSB only. QSL via DL8AAV, direct or bureau. [rsgbiota.org]

14/06/2009: Look for VE2FRV to be active June 14th from the Brome County Historical Society Museum to celebrate Fessenden Radio Day. Suggested frequencies: SSB - 3775, 7075, 14175 and 21250 kHz; CW - 25 khz up from the band edge. QSL via the information under VE2FRV at QRZ.com. [VE2MBS]

==========

SPECIAL EVENTS -

12/03/2009: Ron, VE3AT is currently active from Toronto, Ontario, as VC3A until April 6th to commemorate the 175th Anniversary of the Incorporation of Toronto. QSL via VE3AT direct preferred, bureau OK.

12/03/2009: John, VE8EV is currently active Inuvik, Northwest Territories, as VX8X until March 30th to commemorate the 25th Anniversary of the Discovery of the Amaugligak Oil and Gas Field. QSL QRZ.com.

12/03/2009: According to Nikolay, RV1AQ in honour of the 150-th anniversary from the date of the inventor of radio A.S.Popov birth from the St.-Petersburg Central Museum of Communication from March, 12th till April, 30th and on May, 7th radiostation R150A will be active. WCA/COTA: C-101 (Admiralty), RDA: SP-01. QSL via RV1AQ. [RN1CW]

13/03/2009: Red Nose Day - Friday the 13th March: For Red Nose Day 2009, Michael Bryans, 2E0UMB, a regular user of GB3OK and GB7OK, is going to do something new. He is doing a sponsored 'Roger and Out' under Special Event callsign of GB4RND from the Bethlem Royal Hospital, Monk's Orchard Road, Beckenham, Kent. BR3 3BX, where he will make as many radio contacts as possible over a period of 18 hours to raise money for this great cause. So we are asking all user's of the repeaters to show him their support and have QSO, as the more contacts the more sponsorship money he can raise. Tony has applied for Special Event Station NoV and will be supporting Michael throughout his 18 hours of transmitting. So

listen out for him on GB3OK and GB7OK. If you would like to sponsor Michael please visit www.myrednoseday.com/rogerandout [Southgate ARC]

14/03/2009: The Foyle & District ARC, MN0AKU have been issued a Special Event Callsign - GB5SPD - to celebrate Saint Patrick's Day 2009. The Club will be on the air to celebrate this event from Saturday, 14th March until Tuesday, 17th March, 2009. QSL via MN0AKU, direct (QRZ.com) or bureau to MN0AKU. [IRTS]

14/03/2009: Special event station R150ASP will be active from Gogland Island (EU-133, RR-01-04, WLOTA 0737, RDA LO-26) from March 14-17th to celebrate the 150th anniversary of the birth of Russian physicist and radio pioneer Aleksandr S. Popov. Look for activity on the HF bands SSB, CW and digital modes. QSL via RF3C, direct or bureau. [425 DX News]

14/03/2009: GB2RAF will be on the air from the Air Defence Radar Museum RAF at Neatishead in Norfolk on Saturday 14 March for Science Week. QSL direct to G4PSH. [GB2RS]

17/03/2009: TC SWAT is proud to inform you about a new TC activity by Turkish radio amateurs. To commemorate the Naval Victory of 18 March 1915, TC18M will be once more on the air. Between March 17 - 19, TA3FB and TA3AX will be working from Canakkale - the Dardanelles to commemorate the Naval Victory. They will be QRV on all HF bands using SSB and CW. This year's QSL manager is TA3FB and information is at www.qrz.com and www.tcswat.org [TA1HZ]

U.S.A. Special event station information can be found at:
www.arrl.org/contests/spev.html

U.S. COUNTY HUNTING - USA-CA

N9QS 5* MG MP - March 14 2009 to March 14 2009 - SSB and CW
I will return. Especially looking for MP contacts. Good for Master Gold also. Good for everything except a loan. Thanks for that Ka0SHC !! Here

are the counties I plan to run on the way home: Christian, Douglas, Wright, Texas, Laclede, Pulaski, Phelps, Maries, Crawford, Franklin. Hope the bands are good. 73 de Roy N9QS@... [County Hunter Web]

N0IJ - March 15, 2009 to March 16, 2009 - CW Only
Wisconsin QSO Party. 80/40/20 in following counties--all CW. Sunday, March 15 18:00Z start. Burnett, Washburn, Barron, Polk, St. Croix, Dunn, Chippewa, Rusk, Taylor, Rusk (again), Price, Lincoln, Oneida, Vilas, Iron, Price (again), Ashland, Sawyer, Bayfield, and Douglas. Only few minutes in Douglas at end, but will stay on for any that don't make it during contest. Thanks for following the mobiles in the WIQP. 73, John, N0IJ [County Hunter Web]

N9NE - Todd - 15 March 2009 to 16 March 2009 - CW Only
Wisconsin QSO Party. There is a forecast of snow and rain, but if the roads are in 'good winter driving condition', I'll be operating 20, 40, and 80M CW from the following counties in order: Winnebago, Fond du Lac, Dodge, Washington, Ozaukee, Milwaukee, Waukesha, Jefferson, Dane, Columbia, Marquette, Waushara, Adams, Wood, Portage, Waupaca, Outagamie, Calumet, and Brown. Please join us in this fast, furious, and fun event! GL and 73, Todd
Send email requests to tfonstad@... [County Hunter Web]

NF0N - Mike - 1* - March 15, 2009 to March 15, 2009 - SSB and CW
One day trip to get Johnson, NE for Fred, K0FG. This will be the planned route, changes based on time schedule: Iowa: Woodbury, Monona, Harrison, Pottawattamie, Mills, Fremont. Missouri: Atchison Nebraska: Nemaha/Richardson, Pawnee/Johnson, Otoe, Cass, Sarpy, Douglas, Washington, Dodge, Burt, Thurston, Dakota.
Send email requests to nf0n@... [County Hunter Web]

NN9K - Peter - 2* - 15 March 2009 to 16 March 2009 - CW Only
Wisconsin QSO Party Here is my route for the WIQP: Rock, Walworth, Kenosha, Racine, Milwaukee, Ozaukee, Sheboygan, Manitowoc, Calumet, Brown, Outagamie, Winnebago. Fond du Lac, Dodge, Dane, Sauk, Iowa, Lafayette, Grant. 20, 40 and 80-meter CW only. Good luck to all!
Send email requests to nn9k@... [County Hunter Web]

W0AA - March 15, 2009 to March 16, 2009 - CW Only
Wisconsin QSO Party. 80, 40, and 20M CW. The following counties in order: (time permitting); Polk, Burnett, Washburn, Barron, Rusk, Price, Taylor, Marathon, Clark, Chippewa, Eau Claire, Trempealeau, Buffalo, Pepin, Dunn, St. Croix. [County Hunter Web]

W0ZQ - March 15, 2009 to March 16, 2009 - CW Only
Wisconsin QSO Party ! 80/40/20m CW only. Order of activation: Eau Claire, Trempealeau, Buffalo, Pepin, Dunn, Pierce, St. Croix all weather permitting. Good luck to all. [County Hunter Web]

BITS & PIECES -

Hi all
We are back in NZ after shutting down on Wednesday before lunch just before bad weather hit our QTH. We averaged 2,200 QSOs a day with three radios for 5 days with over 11,000 QSOs in the log. The final logs will be uploaded to the www.zl7t.com/ website in a few days.

We had a great time and appreciate the wonderful support and messages of good wishes to the team.

I will post an epilog with more information in a few days after I have some sleep. A full article will appear in the various DX Jounals in a month or so. It's great to see the "DX-IS spirit still alive in the face of ever shrinking sunspots.

73, Lee ZL2AL
On behalf of the ZL7T Team [ZL2AL]

VK9LA NEWS RELEASE MAR 11

LOW BAND OPERATIONS....

Extensive work has taken place to make sure all operators are familiar with various sunrise sunset times throughout the world.

Lord Howe island Sunset is at approx 07.36utc with Sunrise being 19.36utc (taken at 27th March 2009). We have all been familiarizing ourselves with possible propagation openings for all points of the globe.

A complete list in an ascending pecking order will be at every HF station for operators to continually check. It is our plan to have an operator on deck on 160m from 07.40utc daily to work all the Pacific areas followed by various parts of Asia somewhere around 08.50utc. From then we will look towards South Americas at around 09.35utc thru to approx 10.15utc when we will begin looking for W1 in USA at approx 10.30utc then head to again some parts of Asia and then VE3 and W4 around 11.30utc as well as TI and XE areas. UA9 around 13.30utc followed by W6 etc.

At approx 15.00utc we will begin searching for the likes of EK, 4L, UA1 followed by 4X at 15.45 and then the likes of 5B.

Hopefully we will get a shot at South Africa around 16.15utc then head up again into EU territory to LZ around 16.35utc, HA and so on leading up to I, LA, OZ, HB and G lands at 18.20utc.This procedure will be done every day we are there. This will also be adopted on 80m as well as 75m as we have 2 stations on air simultaneously on the same band, as well as 40m. We expect big long openings on all bands below. We would however request that you be patient. It will take us a couple of days to install all low band antennae.

We would also request that once you are in the log to please do not call the next night, let someone else have a go... my pet hate is to see the same station in the log on the same band over and over.

Cu in the pile ups....

Bill VK4FW.... Dxpedition Leader

Press releases :

Midway Island 2009

A multi national team of 19 operators will activate Midway Island in October 2009. The US Fish & Wildlife Service has authorized amateur operation from this rare US entity for only a 10 day period, its first radio activity in almost 10 years.

Midway Island ranks number 24 worldwide and number 13 in Europe on the DX Magazine's "Most Wanted List". Activity will be on 6 meters to 160 meters with 5 to 6 stations. At least one station will be active on 20 meters around the clock for those who need it for a new country. Major efforts will be made to meet the demand to the most needed geographical areas, the low bands and RTTY.

Team members are AA4NN, EA1IR, DJ9ZB, KH7U, KI6TVS, KL2A, N1DG, N4PN, N4XP, N6GQ, N7CQQ, WB4JTT, W6KK, W6OSP, WA7NB, W8CAA, W8GEX, WA8NJR and OK1KT. Off site support is being provided by AA1V, W5DNT and W6XA.

Travel to Midway is only allowed by chartered aircraft. Because of the size of the aircraft, the team is presented with unique challenges. As such, the aircraft will only be able to carry the team requiring the equipment to be shipped by boat some months ahead. Adding to the high cost of transportation, daily fees and other charges established by the USF&WLS makes this operation very expensive.

A web site has been established and can be found at www.midway2009.com/.

Please support this endeavor by sending a donation. To make it easy to donate you can contribute electronically using the web site or if you choose regular means you may do so. Instructions are given on the web site for either method.

Updates will be published on the web site as they become available.

Tom N4XP & Dave WB4JTT
Co Leaders for Midway Island 2009 [The Daily DX]

S2, BANGLADESH (Op Cancelled). Members of the Korea DX Club had to cancel their operation from Dhaka due to a civil war that broke out in the city. The KDXC team mentions that the "Situation is chaotic", and the team was going back to Korea. Unfortunately, the team's callsign S21KD was cancelled when they first arrived, and they tried to get a new license. However, Friday and Saturday were holidays in Bangladesh. They did get a new license on Sunday, S21ZCY, and moved to another location 2 1/2 hours away. The team hoped to be on the air that day but could not retrieve the radio gear from the airport. Safety was the team's first priority, so they cancelled and headed back home. They hope to get another chance to operate from S2-land soon. For more details and updates, please visit the following Web page at: dxpedition.co.kr/

March 7, 2009

Global Simulated Emergency Test (GlobalSET)

The date for this event, sponsored by IARU Region 1, has been altered to coincide with World Amateur Radio Day on April 18th. The theme for the day of "Amateur Radio: Your Resource in Disaster and Emergency Communication" is an ideal opportunity to showcase the work of emergency communications groups around the world.

The timing of the event remains at 1100-1500 UTC but in a change for this and future events, the focus will be on generating and relaying messages in a common format across country borders rather than the information gathering about capabilities which has taken place in the past.

More information will be posted on www.iaru-r1.org and www.raynet-hf.net as it becomes available.

Subject: DX Alert

Thurs March 12, 9:15am, Maui, Hawaii
Aloha Jack

Will you please pass on to the ham radio community, especially the county hunters group a DX Alert. Last night at the Maui Ham Club, it was announced that the extremely rare Kalawao County will be on 40m & 20m on March 30 & 31.

MARC member, Jayson Kohama, WH6BXK, will be working there on those days. After he gets off work each day, he plans to be on HF making as many contacts as possible. His station, WH6BXK, will be on the air each day after 18:00 local (6pm) i.e. 04:00Z. He will be on 7.188MHz and 14.335MHz.

Kalwao County is one of the rarest USA counties. It is the 2ed smallest county and the poorest in the USA. It is just the Kalaupapa peninsula on the island of Molokai. It is the old Hawaiian leper colony. Because it was a leper colony, it was totally isolated from the rest of the islands and had its own separate county govt, which was administered by the state. Hams must have special permission to go there and operate. Thus it is extremely rare for any ham signals to ever radiate from Kalawao.

8292. GOLIST REFERRAL PROGRAM

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-03-14 14:52:52 UTC
From: K1XN
Topic: 1100 Message: 8292

Hi Folks,
??? Just a note:? I just received an order from a New User who had been referred by a Current User. This made me to decide to write this message about the Golist Referral Program.
??? I have not mentioned this program in some time, so let me do it now.
The Golist Referral Program works in this manner.? A Current User talks to their DXer friends about their experiences with Golist. One or more of these DXer friends, joins the Golist and lists the Current User as a referral (on the order form).
I sign the New User up for either GoWin or GoWeb as they have selected.
The Current User receives from the Golist a subscription Extension.
New User selects GoWeb:? The Current User will receive 1 month extension their current subscription.

New Users selects GoWin: The Current User will receive a 3 month extension to their current subscription.

I will give these Golist extensions for each New User up to a limit of 4 per year.

A New User is a DXer that has never been a Golist subscriber or an old Golist subscriber that has not renewed in a period of 1 year from the date of the order.

The referral program is a great way to keep you with a Golist subscription at no cost to you and bring in new bodies to help the Golist grow.
Please refer someone today.
Thank you
John K1XN

8293. Foreign Postage Rates

Yahoo group: GOLIST (2007 — 2010)
Date: 2009-03-14 22:04:48 UTC
From: k4hb
Topic: 8293 Message: 8293

Foreign Postage Rates has been updated. Before sending $2 or $3 to someone for return postage, you may want to check here first. While most hams are honest, there's some out there who falsely claim what is required to return your card. Giving in to these people only worsens the problem. (Feed a monster and...) With the state of the economy, some of us need to save every way we can.

In recent months, the exchange rate for the USD has improved against most foreign currencies. Some countries that once couldn't return a card for $1, not can.

In some cases, mint stamps or IRCs could be cheaper than sending green stamps.

George and Tomi have arrived to Sydney and are heading up to Queensland,
where their boat is waiting. George sent the following info:
Currently the WX is bad: the remnants of Cyclone Hamish have turned around
and causing high winds and rain. I feel that most of that will clear during the next
few days. Altough we have a few problems with the boat, I feel that I can fix them
and we will be able to depart on Tusday, Mar 17. A lot will depend on the weather:
we will go out to the outer edge of the Great Barrier Reef and wait for a decent
weather window before crossing.
George will send us more once they have assessed their preparedness.

From: CHRIS COLCLOUGH chrisg1vdp@...

Hello,

Could you print the following in your news letters for the CQWPX contest.

Members of the Strumblehead DX and Contest Group will be on the air from their headquarters at the Farm in Wales for a period before during and after the CQ WPX SSB contest. They will be using the club calls MC0SHL before the contest, with some activity on 30M RTTY around 10148.0. During the contest we will be using both MW9W and MC0SHL - depending on the number of operators there may be more calls on air. Please QSL via the clubs manager M0URX. All details and photographs will be on the clubs website http://www.mc0shl.com and we may even have a live webcam for the contest too.

Many thanks

Chris Colclough

eam enroute to Mellish (03-17-2009 from AA7JV)
The VK9GMW team is enroute to Mellish Reef. We have left the Whitsunday Islands this morning and are headed out through the Great Barrier Reef. Seas are rough and the weather is forecast to deteriorate. We will stop at Marion Reef (approximately half way to Mellish) to wait out the rough weather, which we expect to last until Saturday. The crossing from Marion to Mellish will take 30 hours, and we hope to be at Mellish by Mar 23 (Monday).

Waiting at Marion Reef (03-18-2009 from AA7JV)

We have reached Marion Reef after a rough night of crossing.
A tropical low is forecast to develop, along with strong winds,
during the next two days in the vicinity of Mellish Reef. We will
wait here at Marion to see how the low or hurricane develops
and the direction it moves. We believe that it will move south
and we will be able to sail for Mellish on Sunday.

Hi folks,
??? This morning I sent out a message to all Golist Product reflector members asking if they wish to continue with the products reflector or move it all back to one reflector, the Golist reflector.? The majority asked that it return to one reflector.
??? Starting immediately all discussions and announcements regarding Golist products and services, RAC call book, WIN EQF logging software and DX Telnet along with all things pertaining to DX will be on the Golist reflector.? I wish to encourage each of you to post anything relating to DX or the products that I sell or represent to this reflector. Some tidbit of information may be just what one of us is looking for.
??? If you see an email with a subject you are not interested in, please delete it, many others may wish to have that same info.
??? Glad to have everything back under one roof again.

Tropical storms (03-19-2009 from AA7JV)

Thursday, March 19, Marion Reef. The weather has gotten worse.
We are experiencing tropical storm strength winds (40 to 50 kts)
and continuous torrential rains. To the east of us the tropical low
is in the process of developing into a tropical storm or cyclone.
The best we can hope is that it will drift past us to the south. The
reef provides some protection for now, but we will have to decide
soon whether we need to escape from here and return to the
main-land or try to stick it out here. Currently we are hoping that
the weather will ease up by Sunday and we will be able to continue
onto Mellish on Sunday or Monday.

I.C.P.O. Bulletin (March 19 - 27, 2009)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

19/03/2009: Once again Axel, DL6KVA will be active as 4K0CW from Vlad's (4K9W) QTH in Baku, Azerbaijan, from March 19-25th, between the local evening hours (Azerbaijan is UTC +4) on the 19th and the local midday on the 25th. He will operate CW only on all the HF bands, with 100 watts and a 84-meter longwire, and will take part in the Russian DX Contest (March 21-22nd) as a Single-Op/Low-Power/CW entry. QSL via home call, Bureau preferred. [425 DX News]

19/03/2009: Operators Mohamad/HZ1MD, Sulaiman/7Z1SJ and Firas/HZ1FS will be oprating as HZ1FS/p from the Red Sea Coast South (Jizan Province) group (AS-192 New One!). The island name will be announced on air (probably Amina or Hibar Island). QRV March 19-23rd with 3 stations, many antennas and spider beam for 20/15/10m, mainly SSB with some digital modes. The will operate split and will call all continents. QSL via EA7FTR. [Mediterraneo DX Club]

19/03/2009: Look for KH0/KI3DNN (QSL via JI3DNN), KH0/N3MU (QSl via JA3CEK) and KH0/K2JA (QSL via JL3SIK; FISTS #9836) to be active from Saipan (OC-086, Grid QK25) between March 19th and 22nd. They plan to operate SSB, CW and some digital modes on 160-6 meters. [425 DX News]

20/03/2009: Heinz, VA7AQ will be active as VE9/VA7AQ from Grand Manan Island (NA-014, CIsA NB-003, WLOTA LH-0082) between March 20-25th. QSL via home call, direct or Bureau. [425 DX News]

20/03/2009: Philippe, F5MSB/p will active the Castle of Cabrerets (DFCF 46-036) and Mill of Cabrerets (DMF 46-023), commune de Cabrerets (CP 46330), Department Lot/46 and Province Midi-Pyrenees (DPF 15) from March 20-21st. QSL via home call, direct or Bureau. [F5MSB]

20/03/2009: John/VE8EV, Wally/VE8DW and Gerry/VE8GER will be active from Ellice Island (NA-192), March 20-23rd, using the callsign VX8X. QRV 40, 20, and 15 meter SSB/CW; 24 hours per day non-stop operation. Expect to see them on CW, but most of the focus will be on 20 meter SSB on 14.260 MHz. QSL via the information at QRZ.com under VX8X. [rsgbiota.org]

21/03/2009: Paul, 2E1EUB, will once again be active as 2M1EUB from March 21-28th from northeast Scotland (EU-005, also count for WLOTA 1234, Grid IO87). QRV on all the satellites using 2 meters. He will also be active on HF, mainly 160 and 80 meters. Checkout QRZ.com under 2M1EUB for more information. QSL via home call. [MMMonVHF]

21/03/2009: Bodo, DL3OCH (KT3Q) will be working in Nigeria from March 21st until July 24th. He plans to operate EME (Grid JJ38) and on the HF bands (160 meters included) probably as 5N/KT3Q. The callsign for EME activities will be 5N0EME. The EME activities will be focused on 2m and 23cm. Hopefully he will also go and operate from IOTA group AF-076. QSL via DL3OCH (QRZ.com). [DL3OCH, HB9EHJ, KT3Q]

21/03/2009: Tim, NL8F/VK4COF will be active for 14 days from Rarotonga Island (OC-013) between March 21st and April 4th (set up may take a day) using the callsign E51COF. QRV 80, 40, 20, 15, 10 meter SSB; maybe 17 meters. QSL manager for the operation is K8NA. [NL8F]

21/03/2009: Patrick, F4EBT will be active from Sainte Rose on Guadeloupe (Basse-Terre) Island (NA-102, DIFO FG-019, WLOTA 0339) as FG/homecall from March 21nd to April 11th. QRV SSB only, with 100 watts and FD4 antenna. QSL via home call, direct or Bureau. [NG3K]

21/03/2009: Members of the Corrientes Radio Club (LU4LG), Villa Angela Radio Club (LU4GO) and Chaco Radio Club (LU4GF) will activate the special callsign LT9L from "Esteros del Ibera", March 21-23rd. The place of operation is the Ibera Interpretation Center, located on the shores of Lake Luna, Colonia Pellegrini, Corrientes Province. Access to this location is from the City of Mercedes, from which it is separated on about 120 km of unpaved road. The Center has a showroom with illustrative material about the history, geography and biology of the park. Activity will be on 80/40/20/15 meters using CW, SSB, PSK, RTTY and SSTV. Operators mentioned are: Ricardo/LU4GL (CW), Raul/LU1JB/L (CW), Luis/LU4LC (SSB), Juan Carlos/LU9GDN (SSB), Ramon/LU7LC (Digital) and Nestor/LU4LE (Digital). QSL via EA5FL: JOSE MIGUEL ALCARAZ Moncho, PO Box 252, 03700 - Denia, Alicante, Spain. [OPDX Bulletin]

21/03/2009: There will be a series of Lighthouse activations by TCSWAT from the historical lighthouses around Istanbul / Republic of Turkiye. The dates, locations and callsigns are as follows: March 21-22nd Rumeli/Turkeli Lighthouse TUR 053 / TC1RLH; April 4-5th Fenerbahçe Lighthouse TUR 021 / TC2FLH. Stations contacting four or more of the lighthouses will recieve "Istanbul Lighthouses On The Air Award". Details will be later announced on the website: ta0u.com/ and tcswat.tripod.com/ The lighthouse TCSWAT team will be: Urcun/TA0U, Leonardo/TA1FR, Mert/TA1ST, Tevfik/TA1HZ, Erhan/TA2DJ, Bekir/TA2RX, Mehmet/TB1J and Onur/TB2MYE. QSL direct to TA1HZ (QRZ.com). [Pete's-DX-Newsdesk]

21/03/2009: Operators Doug/VE3CWO, Neil/VE3SST, Igor/VE3ZF, Valdas/VE3VO and Brent/VE3IRT will be activating Bluffers Park Island (not IOTA, CIsA New One!) and new lighthouse as well. They will be using a special call sign VC3Y on March 21st-22nd, celebrating 50 Years of the York Region Amateur Radio Club. QSL via VE3CWO, direct or bureau. [VE3ZF]

21/03/2009: Bernardo, XE2HWB plans to be active March 21-23rd from Santa Margarita Island (NA-078) as XE2HWB/XF1. He expects to concentrate on 20 meters (+/- 14260 kHz); other frequencies to look for him on are 28560, 28460, 24950, 21260, 18128, 7055 and 7155 kHz. QSL via N6AWD (direct only). [rsgbiota.org/425 DX News]

22/03/2009: Helmut, DL5DSM will be active as CT/DL5DSM/p from the island of Culatra (EU-145, DIP AL-001, WLOTA 0144), weather permitting, on March 22nd. QRV for about 5 hours using CW and SSB only; 100W GP; mainly 20m. QSL via home call, directo or Bureau. [rsgbiota.org]

22/03/2009: Philippe, F5MSB/p will active the Castle of Comblat (DFCF 15-014) and Mill of Mourdier (DMF 15-005), commune de Vic sur Cere (CP 15800), Department Cantal/15 and Province Auvergne (DPF 03) on March 22nd. QSL via home call, direct or Bureau. [F5MSB]

22/03/2009: VK9GMW will be operating from Mellish Reef (VK9M, OC-072) between March 22nd and April 6th. This will be another low-key, simple DXpedition by George/AA7JV and Tomi/HA7RY. Please note that the dates are approximate and may change due to weather. The operation will have a strong low-band focus, although VK9GMW will operate on all HF bands, 160-10m. Equipment will be K3 and ICOM IC-746 PRO and two SGC SG-500 solid state

amplifiers. QSL via HA7RY (Tamas Pekarik, Alagi ut 15., H-2151 Fot, Hungary). Logs will be uploaded to LoTW. Further information at: www.vk9gmw.com/ [VK4FW]

23/03/2009: Philippe, F5MSB/p will active the Castle of Ravel (DFCF 63-021) and Mill of Rodier (DMF 63-004), commune de Ravel (CP 63190), Department Puy-de-Dome/63 and Province Auvergne (DPF 03) on March 23rd. QSL via home call, direct or Bureau. [F5MSB]

23/03/2009: Operators Jan/K4QD and Don/AF4Z will be active as HH4/homecalls from the Northwest Haiti Christian Mission (www.nwhcm.org) from 23 March to 3 April. QRV 160-10m on CW, SSB and RTTY as time permits. Nighttime low band operations will be limited to the availability of AC power. They will also participate in the CQWW WPX SSB Contest (March 28-29th). They are working with HH2JR and the Radio Club of Haiti in an attempt to obtain a special 4V4 prefix for the contest. QSL via home calls. [K4QD]

23/03/2009: George/SV1QN, Fotis/SV1AIN, Giannis/SV1GYG and Nikos/SW1GYN will be active as homecall/8 from Zakynthos Island [aka Zante] (EU-052, GIOTA INS-015, MIA MG-138, WLOTA 0209) between March 23-29th. They will operate on 160-6 metres all modes. QSL via home calls. [425 DX News]

23/03/2009: Members of Oceania Amateur Radio DX Group Inc. will spend 10 days on Lord Howe Island (OC-004, WW Loc. QF98ML) for the 2009 CQ WPX Contest. QRV March 23rd to April 3rd, using the callsign VK9LA. The total list of ops are: IZ3ESV, K5YY, N2OO, N2OZ, SQ8X, SQ9DIE, SV2KBS, VK1TX, VK3HJ, VK3QB, VK4IO, VK4VCH, VK5CP, VK5PO, W5SL and VK4FW. Bill, VK4FW will travel to Lord Howe on March 22nd to immediately begin unpacking. On March 23rd, 4 others will arrive and the rest arriving as originally planned on March 24th. They will assemble 7 full HF stations at 2 seperate sites as well as one for 6m. Modes of operation are SSB, CW and RTTY. They will use mono band yagis and mono band verticals to allow us to possibly have 2 actual stations on the same band similtaneously. There are also a quantity of wire antennae for the low bands. A full list of operating frequencies will be designed to enhance their plans. The QSLing chores will be handled by VK4FW. They will set up an online QSLing system that will permit you to apply online to help cut your postage costs. More on this later. QSL cards will be printed very quickly by UX5UO. Further information at: www.odxg.org/vk9la.htm [VK4FW]

24/03/2009: Helmut, DF7ZS will be active from Santana, Madeira Island (AF-014, DIP MA-001, WLOTA 0053) as CT3/homecall from March 24-31st, including an entry in the CQWW WPX SSB Contest (March 28-29th) using the callsign CS9L (or CT9L). Casual activity outside of the contest. QSL CS9L via DJ6QT, bureau preferred. QSL CT3/DF7ZS via home call, direct or Bureau. Visit his Web page at: www.df7zs.de/ [NG3K]

24/03/2009: Philippe, F5MSB/p will active the Castle Bonneraux (DFCF 42-025) and Mill of Guerond (DMF 42-002), communes Renaison and Les Noes (CP 42370), Department Loire/42 and Province Rhone-Alpes (DPF 22) from March 24-26th. QSL via home call, direct or Bureau. [F5MSB]

24/03/2009: John, W5JON, will be active as J6/W5JON from Marigot Bay (WW Loc. FK93LX), island of St. Lucia (NA-108, WLOTA 1336), from March 24th - April 2nd, 2009. Activity will be on 160-6 meters, 400 Watts, SSB, using dipoles and 3el 6m yagi. Also will be active in the CQ WPX SSB Contest (March 28-29th, 2009) as a Single-Op/All-Band entry. QSL via W5JON (John Abbruscato, 22107 Pine Tree Ln., Hockley, TX 77447 USA). [W5JON]

25/03/2009: Operators Cal/WF5W, Paul/W5PF, Madison/W5MJ, Bill/K5WAF, Dale/KG5U and Jim/N4AL will be active on 160-10 meters from Bilene, Maputo Province, Mozambique, from

March 25th to April 5th. They will have three stations, one station each for CW, SSB, and the Digital modes, with two amplifiers, log periodics for 20-10 meters and vertical for the other bands (160, 80 and 30 meters). They will participate in the CQWW WPX SSB Contest (March 28-29th). The QSL route is via W5PF, direct. Depending on internet access, they hope to have an online log search page once operations start, but don't expect daily updates. Further information can be found at: www.tdxs.net/c91.html [TDXS]

25/03/2009: Dave, W5CW will be active from the VP5JM "Hamlet" on Providenciales island (NA-002, WW Loc. FL31VS) from March 25th to April 8th. He will also be active in the CQ WPX SSB Contest (March 28-29th) as a Single-Op/All-Band entry using the special call VP59V. Outside the contest Dave will be QRV as VP5/W5CW on 160-6 meter CW and SSB, with emphasis on 160m and the WARC bands. QSL Direct Only via W5CW or via PO Box 88, Morris, OK 74445-0088. [NG3K]

25/03/2009: Andrew, VK4HAM, will be active as YJ0AAC from Efate Island (OC-035), Vanuatu, between March 25th and April 1st of 2009. Activity will be on 80-10 meters. He also plans to be in the 2009 CQWW WPX SSB Contest (March 28-29th). QSL via VK4HAM. [OPDX Bulletin]

25/03/2009: Adrian, AA5UK, will be operating as ZF2AE from Grand Cayman and ZF2AE/ZF8 from Little Cayman between March 25th and April 8th. Current plans are to operate holiday style on AO-51, SO-50, VO-52 and FO-29 satellites. He plans to activate EK99hi from March 25-28th, EK99xp and EK99wp from March 28th through April 3rd (he plans to operate HF only during part of CQ WPX SSB Contest and the rest of his stay on Little Cayman, 40-10m) and EK99kh from April 3-8th. Most activity will be in the afternoons and evenings. QSL direct with SAE/SASE, Bureau, LoTW or eQSL. [OPDX Bulletin]

26/03/2009: Steve, 9M6DXX, will operate as 9M8Z from Sarawak (OC-088, WLOTA 0152), March 26-29th. Activity will include the CQ WPX SSB Contest (March 28-29th) as a Single-Operator/Unassisted/All-Band/High-Power entry. Outside the contest look for him to be on 40 meters SSB using a 3 element Yagi. QSL via M0URX, direct, by the Bureau or LoTW. [OPDX Bulletin]

26/03/2009: Operators Lance/W7GJ and Bob/ZL1RS will be in Rarotonga (OC-013, WW Loc. BG08dr16vv) to activate E51 on EME on 6 meters (Lance) and 2 meters (Bob). They expect that the earliest possible activity would be on their moonrise on Thursday March 26, and the last 6m activity will probably be their moonrise window on Saturday April 4 GMT. Lance's callsign will be E51SIX and the 6m operation will take place on 50.190 MHz. Details of Bob's callsign and activity were not provided. Plans are to use a newly designed M2 8 element 6M8GJ yagi with a 43' long boom, fed with 75' of Times Microwave LMR600 coaxial cable, for a feedline loss of .4 dB. The receiver will be a K3 with the PR6 preamp. Please QSL direct to W7GJ with self addressed envelope with stamp (from USA) or USD$ 1.00 (from foreign) for postage to E51SIX/W7GJ, Lance Collister, P.O. Box 73, Frenchtown, MT 59834-9973 USA. Further information can be found at: www.bigskyspaces.com/w7gj/E51SIX.htm [OPDX Bulletin]

26/03/2009: Members of the Strumblehead DX and Contest Group will be on the air from their headquarters at the Farm in Wales for a period before, during and after the CQ WPX SSB Contest (March 28-29th). They will be using the club calls MC0SHL before and after the contest with some activity on 30 meter RTTY around 10148 kHz. During the contest they will be using both MW9W and MC0SHL - depending on the number of operators, there may be more callsigns on air. Please QSL via the club's manager M0URX. All details and photographs will be on the clubs website (www.mc0shl.com/) and they may even have a live webcam for the contest too. [Pete's-DX-Newsdesk]

27/03/2009: Operators Tang/BM2AAV, Wu/BM2APH, James/BU2AT, Eddie/BV2DD, Bruce/BV2KI, Lee/BV2NT and Chung/BX4AF will be active from P'enghu Island (AS-103) as BP0A from March 27-30th. Expect activity on all bands and modes. QSL via BV2KI, direct or Bureau. [rsgbiota.org]

27/03/2009: Dennis F5VHY (G3MXJ) and Nigel G3TXF plan to operate as YJ0MXJ and YJ0TXF from the Aore Island Resort off Espiritu Santo (OC-035), in Vanuatu, for six days from 1000z Friday 27 March to 1500z Wednesday 01 April. This will be a CW only operation. Given the current paucity of sun-spots the main bands are expected to be 40m, 30m, 20m and 17m. They will try 80m if local conditions permit. Short operations are also planned from New Caledonia [Grand Terre] (OC-032, DIFO FK-001, WLOTA 1280) on the way out to Vanuatu, using the callsigns FK/G3MXJ and FK/G3TXF; and from Norfolk Island (OC-005, WLOTA 1469) on the way back, using the callsigns G3MXJ/VK9N and G3TXF/VK9N. QSL YJ0MXJ, FK/G3MXJ and G3MXJ/VK9N via F5VHY. QSL YJ0TXF, FK/G3TXF and G3TXF/VK9N via G3TXF. All logs will be up-loaded to LoTW when they return home. [G3TXF]
==========
LOOKING AHEAD -

28/03/2009: Dan, HR2DMR plans to be active as HQ2W from Progreso, Honduras, during the CQWW WPX SSB Contest (March 28-29th) as a Single-Op/All-Band/High-Power/Assisted entry. He will be using monoband yagis with sloper and dipole antennas for low bands. QSL via HR2DMR direct or by the Bureau. [NG3K]

28/03/2009: Syl, F5TLN will be active March 28th to April 11th as TM4D from 4 or 5 different DFCF castle references for the French Castles Award). He also plans to be active for the CQWW WPX SSB Contest (March 28-29th). QRV all bands if propagation permits. QSL via home call. [F5TLN]

30/03/2009: It was announced, at the Maui Ham Club, that the extremely rare Kalawao County will be on 40m and 20m on March 30th and 31st. MARC member, Jayson Kohama, WH6BXK, will be working there on those days. After he gets off work each day, he plans to be on HF making as many contacts as possible. His station, WH6BXK, will be on the air each day after 18:00 local (6pm) i.e. 0400z. He will be on 7.188MHz and 14.335MHz SSB. Kalwao County is one of the rarest USA counties. It is the 2nd smallest county and the poorest in the USA. It is just the Kalaupapa peninsula on the island of Molokai (OC-019, USi HI-015S, WLOTA 1045). It is the old Hawaiian leper colony. Because it was a leper colony, it was totally isolated from the rest of the islands and had its own separate county government, which was administered by the state. Hams must have special permission to go there and operate. Thus it is extremely rare for any ham signals to ever radiate from Kalawao. QSL via WH6BXK (QRZ.com). [VK4FW]

31/03/2009: Bodo, DL3OCH will be active as 5N0OCH from the end of March until July from Nähe Abuja, Nigeria. QRV on all bands (especially 160m) using CW, SSB and also RTTY. QSLs will be answered 100% via Bureau or direct through his home call. [UBA HF News]

08/04/2009: Dan, W0CN will be active as KG4CN from Guantanamo Bay (NA-015, WLOTA 0358, WW Loc. FK29kw) from approximately April 8-21st. Expect activity on all HF bands/modes. QSL via home call, direct or Bureau. Logs will be uploaded to LoTW. [rsgbiota.org]

09/04/2009: Anne, OH2YL will be active as OH0/OH2YL from the Aland Islands (EU-002) from April 9-14th. QRV all HF bands using CW and SSB. QSL via home call, direct (Anne Lähdes, Ullantorppa 11 A 15, Espoo, 02750, Finland) or Bureau. [NG3K]

18/04/2009: The Adventure Radio Group of the Michiana Amateur Radio Club (W9AB) will activate Monkey Island (Not IOTA, USi IN-005R), located in the St. Joseph River in Mishawaka (St. Joseph County, WW Loc. EN61WQ), Indianna, on April 18th from 1400-1700z. Frequencies at/near 7.030, 7.225, 14.060, 14.225 MHz. QSL with SASE to W9AB, 3220 E Jefferson Blvd., South Bend, IN 46615-3028 U.S.A. [USi]

15/05/2009: Alex, PY2WAS will be active May 15-17th from Macapá, Amapá State, Amazonic Region, Brazil, using the special callsign PQ8W, including an entry in the Manchester Mineira All América CW Contest (May 16-17th). Outside the contest look for activity on 160-10m SSB and CW from this rare Brazilian State. Planned equipment will be G5RV antenna and 700W linear. QSL via PY2WAS, direct or Bureau. [PY4WAS]

30/05/2009: Look for Valery, RD3AF to be active as EF8M from nr Santa Maria de Guia, Las Palmas Gran Canaria (AF-004, DIE S-005 WLOTA 0969) during the CQWW WPX CW Contest (May 30-31st) as a Single-Op/All-Band/High-Power entry. QSL via UA3DX. [NG3K]

06/06/2009: Brian, KB9BVN/QRP will be operating CW only on 20m and 40m from Sunset Beach / Bird Island (NA-112, USi NC-012S, WW Loc. FM03RU, Brunswick County), North Carolina, June 6-12th. Equipment will be Elecraft KX-1 and PAC-12 portable vertical antenna. He will paper QSL all contacts. eQSL's are available if that is what you prefer. His son Andy, N9AWM will be with me as well. [USi]

06/06/2009: The Mississauga Amateur Radio Club, VE3MIS will be active June 6-7th for the Annual Streetsville Bread & Honey Festival. 7.230, 14.240, 21.315 and 28.480 MHz. Certificate. Michael Brickell, VE3TKI, 2801 Bucklepost Cres., Mississauga, ON L5L 1M6, CANADA. Please include $2 for postage. Further information can be found at: www.marc.on.ca/marc/events/events_bread_honey.asp [MARC]

01/08/2009: Brian, KB9BVN will be active August 1st as W9I to activate Ernie Pyle Island (Not IOTA, USi IN-008, WW Loc. EM69NK, Owen County), Cagle's Mill Lake, Indiana, and also to dedicate a memorial commemorating the 109th anniversary of the birth of Hoosier Hero Ernie Pyle. QSL KB9BVN 47 Grassy Dr., New Whiteland, IN 46184-1801 U.S.A. [USi]

07/08/2009: The Air Mobile Radio Operator Society, ND3E will activate Reedy Island (Not IOTA, USi DE-001, New Castle county), Delaware, plus Old Reedy Island lighthouse (ARLHS USA-568). QRV from 1700z August 7th to 1900z August 8th on 80, 40, 20 meters using CW, SSB and PSK31. DX can QSL via the Bureau. Others QSL direct to AE3J with SASE. [ARLHS]
==========
SPECIAL EVENTS -

27/03/2009: On 4 April 1949, the agreements creating the NATO treaty were signed. To celebrate this event, the French and German cities of Strasbourg, Kehl and Baden-Baden will receive States and Governments Presidents and Prime Ministers. For this anniversary, the CBK ARC (www.cbk67.org/), F8KHH, will air the special callsign TM0TAN between March 27th to April 10th. This activity includes the CQ World Wide WPX SSB Contest (March 28-29th). A special QSL card will be issued. The manager is the F8KHH ARC - Direct + SAE= postage or via the French REF-Union bureau. [F5NQL]

U.S.A. Special event station information can be found at: www.arrl.org/contests/spev.html

U.S. COUNTY HUNTING - USA-CA

AB7RW - Phil - 1* - 20 MARCH 2009 to 22 MARCH 2009 - CW Only
Starting approximately 1700Z on 20 March. All Washington Counties:
Clark, Cowlitz, Lewis, Thurston, Pierce, King, Snohomish, Skagit, and Whatcom.
On 22 March the reverse of the above. I will key 20m, 17, then 30m. [County Hunter Web]

W0MU/NA7XX - 3/20/2009 to 3/20/2009 - SSB and CW
Douglas, Colorado to Stillwater, Montana. Typical I-25 to I-90 Interstate route. Douglas, Arapahoe, Denver, Adams, Broomfield, Weld, Larimer, Weld, Colorado. Laramie, Platte, Converse, Natrona, Johnson, Sheridan, Wyoming. Big Horn, Yellowstone, Stillwater, Montana. We also will hit Sweetgrass, Park, Galatin later in the week. I hope to have both 20m and 40m this trip cw around the ssb frequencies if conditions will allow. I also hope to have APRS going this trip. W0MU or W0MU-7. We will be returning Saturday the 28th. [County Hunter Web]

K0HL - March 21, 2009 to March 21, 2009 - SSB Only
I will be at the intersection of: Oliver, Mercer, & Morton counties North Dakota. I will run these three counties starting at 17:00 UTC. Freq. (+ - QRM) 14290, 21350, 28400, 7230, & 3890. I will QSL, no SASE, respectfully request a green stamp, no relays. [County Hunter Web]

K8AO - Duane - March 21 to March 21 - SSB Only
Michigan - Delta, Schoolcraft, Mackinac, Luce, Alger, Marquette, Baraga, Iron, Dickinson, Menominee, Delta. Will be on 40m, 20m and 80 on request. [County Hunter Web]

KF5RD - 21 March 2009 to 21 March 2009 - SSB Only
>From 0800 local Central Daylight til 1800 local Central Daylight or sooner if we get done KF5RD, driver and Rick, KA5EMT, operator will run the following OKLAHOMA Counties: 0800 CREEK/TULSA, 0900 OSAGE/TULSA, 1000 WASHINGTON/TULSA, 1100 NOWATA/ROGERS, 1200

NOWATA/GRAIG, 1300 GRAIG/MAYES, 1400 CHEROKEE and 1500 WAGONER on 40 (7.260+/-) and 20 meters (14.260 +/-) NY5E and WW2HAM calls on request! If we have the time we will try 7.188 and 14.336 County Hunting home freq. 73 Pete KF5RD. [County Hunter Web]

N4CD - Bob - 6* - March 21 to March 22 - SSB and CW
OKLA QSO PARTY
Primarily CW, but some SSB as time permits.
Bryan, Atoka, Johnston, Coal, Pontotoc, Hughes, Seminole, Pottawatomie, Okfuskee, Lincoln, Creek, Pawnee, Tulsa, Okmulgee, McIntosh, Haskell, Latimer, Pittsburg, if time Pushmataha, Atoka, then home. [County Hunter Web]

SILENT KEYS

ARLX004 Rich Beebe, N0PV, SK
South Dakota Section Manager Rich Beebe, N0PV, of Sioux Falls, passed away March 16. He was 46. Beebe had served as Section Manager since October 2002, running unopposed for each two-year term of office. According to the ARRL Field Organization Rules and Regulations, ARRL Membership and Volunteer Programs Manager Dave Patton, NN1N, in consultation with the Dakota Division Director Jay Bellows, K0QB, will appoint a new Section Manager to fulfill Beebe's remaining term of office that ends March 31, 2010. [ARRL]

MELLISH REEF DXPEDITION NEWS -
Tropical storms (03-19-2009 from AA7JV)
Thursday, March 19, Marion Reef. The weather has gotten worse. The team are experiencing tropical storm strength winds (40 to 50 kts) and continuous torrential rains. To the east of them the tropical low is in the process of developing into a tropical storm or cyclone. The best they can hope is that it will drift past them to the south. The reef provides some protection for now, but they will have to decide soon whether they need to escape from here and return to the main-land or try to stick it out there. Currently they are hoping that the weather will ease up by Sunday and they will be able to continue onto Mellish on Sunday or Monday.

LATEST JT1R NEWS -
18/03/2009 5:30 UTC - Alexey UA4HOX
We are hooking up the rigs, computers, erecting antennas. We came on the air for a while but time is scarce now.

4U1UN - United Nations Headquarters, New York, NY -
This weekend I will be joining up with two or three other ops at 4U1UN. We will be especially looking for those who have never worked 4U1UN. If you have never worked the United Nations Headquarters station I would like to hear from you as to the best time and band for your area. We are especially looking for openings to Japan, Australia, New Zealand, Pacific and all parts of Asia. Over the next day or two please listen for the 4U1UN beacon on the following frequencies: 14100, 18110, 21150, 24930 and 28200 kHz.
For those of you who need 4U1UN for an ALL TIME NEW ONE please monitor 4U1UN over the next day or two and report the best time. 4U1UN activity will probably begin around 2100Z on Friday March 20th and continue into midday Sunday. An official announcement with more details will be sent out by Friday.
